The State plan shall provide that allotments made to the State from sums appropriated under section 102(b) of the Act will be allocated within the State to vocational education programs for disadvantaged persons located in areas of the State with a high concentration of youth unemployment or school dropouts, as determined pursuant to § 102.46.

(20 U.S.C. 1263(a)(6)(C), (16))

§ 102.66 Participation of students in private nonprofit schools.

The State plan shall set forth the policies and procedures to be followed in vocational education programs or projects for disadvantaged persons approved and funded under section 102(b) of the Act which assure that, to the extent consistent with the number of students enrolled in nonprofit private schools in the area to be served whose educational needs are of the type which such a program or project is designed to meet, provision has been made for the participation of such students in accordance with the requirements of § 102.7.

(20 U.S.C. 1263(a)(16))

§ 102.67 Noncommingling of funds.

The State plan shall set forth the policies and procedures to be followed in vocational education programs or projects for disadvantaged persons approved and funded under section 102(b) of the Act which assure that funds from Federal sources used to accommodate students in nonprofit private schools pursuant to § 102.66 will not be commingling with State or local funds so as to lose their identity as funds from Federal sources. In developing such policies and procedures, it shall not be necessary to require separate bank accounts for funds from Federal sources, so long as accounting methods will be establish which assure that expenditures of such funds can be separately identified from other expenditures.

(20 U.S.C. 1263(a)(16))

VOCATIONAL EDUCATION RESEARCH AND PERSONNEL TRAINING

§ 102.70 State plan provisions—general.

(a) Funds available to the State board pursuant to section 131(b) of part C of the Act shall be used for the establishment and operation of the State research coordination unit; and for making grants to any college, university, local educational agency, or other public or nonprofit private agency or institution, and entering into contracts with any private agency, organization, or institution, for—

(1) Vocational education research and personnel training programs;

(2) Developmental, experimental, or pilot programs developed by such institutions and agencies and designed to meet the special vocational needs of youths, particularly disadvantaged youths in economically depressed communities as determined pursuant to § 102.45; and

(3) The dissemination of information derived from the foregoing programs or from research and demonstrations in the field of vocational education, such as those reported in products of the Educational Resources Information Center (ERIC) and related agencies.

(20 U.S.C. 1261(b))

(b) The State plan requirements set forth in §§ 102.31 through 102.46 are also applicable to programs and activities assisted with Federal funds under section 131(b) of the Act. In addition §§ 102.71 through 102.73 require the inclusion in the State plan of certain provisions specifically applicable to such programs and activities.

(20 U.S.C. 1263(a)(4)-(6))

§ 102.71 State research coordination unit.

(a) The State plan shall provide for the establishment or designation in the State of a State research coordination unit. The State plan shall indicate the name of the unit and shall describe its staff, organization, and functions with respect to vocational education research and personnel training programs, developmental, experimental, or pilot programs, and dissemination activities.

(b) In describing the organization of the unit the State plan shall indicate the place of the unit in the organizational structure of the State government and the relationship of the unit with other State board units and other State agencies and institutions responsible for conducting programs of vocational educational research and dissemination. When the functions of the research coordination unit are carried out by an agency or institution other than the State board, the State plan shall provide for cooperatively developed written agreements between the State board and the agency or institution which is carrying out such functions.

(20 U.S.C. 1281(b), 1263(a)(4)-(6), (9))

§ 102.72 Application procedures.

(a) *Submittal of applications.* The State plan shall describe the policies and procedures to be followed in submitting applications to the State board for grants and contracts under part C of the Act. Such policies and procedures will assure that—

(1) Applications will describe the nature, duration, purpose, and plan of the project, the use to be made of the results in regular programs of vocational education, the qualifications of the personnel staff who will be responsible for the program or project, a justification of the amount of grant or contract funds requested, the portion of the cost to be borne by the applicant, and such other pertinent information as the State board may require; and

(2) Applications will be executed and submitted to the State board by an individual authorized to act for the applicant.

(b) *Review of applications.* The State plan shall describe the policies and procedures to be used by the State board in reviewing applications for grants and contracts which have been recommended by the State research coordination unit or the State advisory council. Such policies and procedures shall assure that the applications will be reviewed in terms of such pertinent factors as—

(1) Relevance to priority areas in vocational education specified in the long-range program plan and to vocational education programs, services, and activities described in the annual plan;

(2) Adequacy and competence of personnel designated to carry out the program or project;

(3) Adequacy of facilities;

(4) Reasonableness of cost estimates;

(5) Expected potential of the proposed program or project being made a part of the regular vocational education program; and

(6) The expected potential for utilizing the results of the proposed program or project in exemplary or regular vocational education programs.

(c) *Action on applications.* The State plan shall describe the policies and procedures to be followed by the State board in acting on applications. Such policies and procedures shall assure that the State board will—

(1) Either (i) approve the application in whole or in part, (ii) disapprove the application, or (iii) defer action on the application for such reasons as lack of funds or a need for further evaluation;

(2) Provide that any deferral or disapproval of an application will not preclude its reconsideration or resubmission;

(3) Notify the applicant in writing of the disposition of the application; and

(4) Include, in the award letter for any State board grant or contract award, the

XUM

XUM

approved budget and grant or contract award conditions which the applicant will accept in accordance with State law.

(20 U.S.C. 1281(b), 1263(a) (6)(A)–(D) and (12))

§ 102.73 Notification to Commissioner.

(a) The State plan shall provide that within 15 days after the State board's approval of a grant or contract, the State board shall forward 3 copies of the approved proposal for which the grant or contract was made to the Commissioner via the appropriate regional office. The following information shall be attached to each copy submitted: (a) Amount of Federal funds under section 131(b), other Federal vocational funds, and State/local funds obligated for the project and (b) fiscal year to which the obligation is charged.

(b) The State board shall submit three copies of the final report for each completed project funded under section 131 (b) to the appropriate regional office and, upon approval, the regional office shall forward two copies to the Commissioner.

(20 U.S.C. 1263(a) (6), (12), (17))

§ 102.74 Coordination procedures.

The State board shall submit to the Commissioner two copies of a semi-annual Research Activity Report and a copy to the appropriate regional office on or before July 15 and January 15 of each year. This report shall contain the following information: (1) titles of projects funded during the previous six months, name of principal investigator and institution, start and end dates of projects and the amount of Federal/State and local funds; (2) identification of projects completed during the previous six months that may have significance for the Commissioner or other States; (3) identification of other significant research-related activities during the previous six months; and (4) identification of major research and development projects or activities planned for the next six months.

(20 U.S.C. 1263(a) (6), (12), (17))

EXEMPLARY PROGRAMS AND PROJECTS

§ 102.76 State plan provisions—general.

(a) In order to stimulate, through Federal financial support new ways to create a bridge between school and earning a living for young people who are still in school, who have left school either by graduation or by dropping out, or who are in postsecondary programs of vocational preparation, and to promote cooperation between public education and manpower agencies, funds available to the State board pursuant to section 142(d) of part D of the Act may be used for making grants or contracts to develop, establish, and operate exemplary and innovative occupational programs or projects which are designed to broaden occupational aspirations and opportunities for youths, particularly disadvantaged youths, and to serve as models for use in vocational education programs.

(20 U.S.C. 1901, 1302(d))

Such programs or projects may, among others, include—

(1) Those designed to familiarize elementary and secondary school students with the broad range of occupations for which special skills are required and the requisites for careers in such occupations;

(2) Programs or projects for students providing educational experiences through work during the school year or in the summer;

(3) Programs or projects for intensive occupational guidance and counseling during the last years of school and for initial job placement;

(4) Programs or projects designed to broaden or improve vocational education curriculums;

(5) Exchanges of personnel between schools and other agencies, institutions, or organizations participating in activities to achieve the purposes of this part, including manpower agencies and industry;

(6) Programs or projects for young workers released from their jobs on a part-time basis for the purpose of increasing their educational attainment; and

(7) Programs or projects at the secondary level to motivate and provide preprofessional preparation for potential teachers for vocational education.

(20 U.S.C. 1303(a) (2) (A)–(G))

(b) Grants for such programs or projects may be made to local educational agencies, or other public or nonprofit private agencies, organizations, or institutions; and contracts for such programs and projects may be entered into with public or private agencies, organizations, or institutions, including business and industrial concerns.

(20 U.S.C. 1302(d))

(c) The State plan requirements set forth in §§ 102.31 through 102.46 are also applicable to exemplary programs and projects in vocational education assisted with funds under section 142(d) of the Act. In addition, §§ 102.77 through 102.81 require the inclusion in the State plan of certain provisions specifically applicable to such programs and projects.

(20 U.S.C. 1303(b) (2))

(d) No financial assistance may be given under part D of the Act to any program or project for a period exceeding three years.

(20 U.S.C. 1305)

§ 102.77 Application procedures.

(a) *Submittal of applications.* The State plan shall describe the policies and procedures to be required by the State board in submitting applications to it for grants and contracts under part D of the Act for exemplary programs and projects meeting the requirements of §§ 102.78 through 102.80. Such policies and procedures shall assure that—

(1) Applications will describe the nature, duration, purpose, and plan of the project, the use to be made of the results in regular programs of vocational education, the qualifications of the personnel staff who will be responsible for the program or project, a justification of the amount of grant or contract funds requested, the portion of the cost (if any) to be borne by the applicant, and such other pertinent information as the State board may require; and

(2) Applications will be executed and submitted to the State board by an individual authorized to act for the applicant.

(b) *Review of applications.* The State plan shall describe the policies and procedures to be used by the State board in reviewing applications for grants and contracts. Such policies and procedures shall assure that the applications will be reviewed in terms of such pertinent factors as—

(1) Impact on meeting vocational education needs of disadvantaged youth;

(2) Impact on reducing youth unemployment;

(3) Extent to which the project promotes cooperation between public education and manpower agencies;

(4) Relevance to priority areas in vocational education specified in the long-range program plan and to vocational education programs, services, and activities described in the annual plan;

(5) Adequacy and competence of personnel designated to carry out the program or project;

(6) Adequacy of facilities;

(7) Reasonableness of cost estimates;

(8) Expected potential of the proposed program or project being made a part of the regular vocational education program;

(9) Extent to which the project is of sufficient scope and duration to make a significant contribution to vocational education; and

(10) Adequacy of project evaluation plans.

(c) *Action on applications.* The State plan shall describe the policies and procedures to be followed by the State board in acting on applications. Such policies and procedures shall assure that the State board will—

(1) Either (i) approve the application in whole or in part, (ii) disapprove the application, or (iii) defer action on the application for such reasons as lack of funds or a need for further evaluation;

(2) Provide that any deferral or disapproval of an application will not preclude its reconsideration or resubmission;

(3) Notify the applicant in writing of the disposition of the application; and

(4) Include, in the award letter for any State board grant or contract award, the approved budget and grant or contract award conditions which the applicant will accept in accordance with State law.

(20 U.S.C. 1263(a), 1302(d))

§ 102.78 Coordination with other programs.

The State plan shall provide that grants or contracts for exemplary programs or projects under part D of the Act will be made only if the State board determines, on the basis of information in the application, that effective procedures will be followed by grantees and contractors to assure that the planning, development, and operation of such programs and projects are coordinated with other programs and projects carried out under grants or contracts pursuant to this part and with other publicly and privately operated programs having the same or similar purpose as such programs or projects, such as those supported under titles I and III of the Elementary and Secondary Education Act of 1965, as amended (20 U.S.C. Ch. 24).

(20 U.S.C. 1303(b) (1) (A))

§ 102.79 Participation of students in private nonprofit schools.

The State plan shall set forth the policies and procedures to be followed with respect to grants or contracts for exemplary programs or projects approved and funded under part D of the Act which assure that, to the extent consistent with the number of students enrolled in nonprofit private schools in the area to be served whose educational needs are of the type which such a program or project is designed to meet, provision has been made for the participation of such students in accordance with the requirements in § 102.7.

(20 U.S.C. 1303(b) (1) (B))

§ 102.80 Noncommingling of funds.

The State plan shall set forth the policies and procedures to be followed with respect to grants or contracts for exemplary programs or projects approved and funded under part D of the Act which assure that funds from Federal sources will not be commingled with State or local funds so as to lose their identity as such. In developing such policies and procedures, it shall not be necessary to require separate bank accounts for funds from Federal sources, so long as accounting methods will be established which assure that expenditures of such funds can be separately identified from other expenditures.

(20 U.S.C. 1303(b) (1) (c))

§ 102.81 Notification to Commissioner.

(a) The State plan shall provide that within fifteen days after the State board's approval of a grant or contract, the State board shall forward three copies of the approved proposal for which the grant or contract was made to the Commissioner via the appropriate regional office. The following information shall be attached to each copy submitted: (1) Amount of Federal funds under section 142(d), other Federal vocational funds, and State/local funds obligated for the project and (2) fiscal year to which the obligation is charged.

(b) The State board shall submit three copies of the final report for each completed project funded under section 142(d) to the appropriate regional office and, upon approval, the original office shall forward two copies to the Commissioner.

(20 U.S.C. 1263(a) (6) and (17))

CONSUMER AND HOMEMAKING EDUCATION

§ 102.91 State plan provisions—general.

Funds allotted to the States for the purpose of part F of the Act may be used for consumer and homemaking programs, and for ancillary services and activities to assure quality in such programs. The State plan requirements set forth in §§ 102.31 through 102.46 are also applicable to consumer and homemaking education programs assisted under part F of the Act. In addition, §§ 102.92 and 102.93 require the inclusion in the State plan of certain provisions specifically applicable to such programs.

(20 U.S.C. 1341)

§ 102.92 Procedures for establishing and operating consumer and homemaking programs.

The State plan shall describe the policies and procedures to be followed by the State for the establishing and operating of consumer and homemaking programs which meet the requirements in § 102.93 and which are administered either directly by the State board or by local educational agencies pursuant to applications approved by the State board. Such description shall include:

(a) The procedures to be followed by the State board in initiating and undertaking consumer and homemaking programs over which it will have direct administrative responsibility;

(b) The procedures to be followed by the State board in receiving, reviewing, and acting upon local applications for allocation of funds to such programs; and

(c) An assurance that at least one-third of the Federal funds allotted to the State under part F of the Act shall be used for consumer and homemaking programs in economically depressed areas or areas with high rates of unemployment, as determined pursuant to § 102.45.

(20 U.S.C. 1341)

§ 102.93 Requirements.

The State plan shall provide that the State board will approve a consumer and homemaking program only if it meets the following requirements:

(a) The program will encourage greater consideration to the social and cultural conditions and needs, especially in economically depressed areas;

(b) The program will encourage preparation for professional leadership in home economics and consumer education;

(c) The program will be designed for youth and adults who have entered or are preparing to enter the work of the home;

(d) The program will be designed to prepare such youth and adults for the role of homemaker or to contribute to their employability in the dual role of homemaker and wage earner; and

(e) The program will include consumer education as an integral part thereof, including promotion of nutritional knowledge and food use and the understanding of the economic aspects of food use and purchase.

(20 U.S.C. 1341)

§ 102.94 Ancillary services and activities.

In addition to the general provisions in the State plan with regard to State administration and leadership pursuant to § 102.35, program evaluation pursuant to § 102.36 and teacher training pursuant to § 102.36(b), the State plan shall describe its procedures for providing or making arrangements for the provision of the other ancillary services and activities necessary to assure quality in all consumer and homemaking education programs, such as curriculum development, research, special demonstration and experimental programs, development of instructional materials, and provision of equipment.

(20 U.S.C. 1341)

COOPERATIVE VOCATIONAL EDUCATION PROGRAMS

§ 102.96 State plan provisions—general.

In order to prepare young people for employment through (a) providing meaningful work experience combined with formal education enabling students to acquire knowledge, skills, and appropriate attitudes, (b) removing the artificial barriers which separate work and education, and (c) involving educators with employers, creating interaction whereby the needs and problems of both are made known, thereby making it possible for occupational curricula to be revised to reflect current needs in various occupations, funds allotted to the States for the purpose of part G of the Act may be used for the expansion of cooperative vocational education programs, and for ancillary services and activities which are necessary to assure quality in such programs. The State plan requirements set forth in §§ 102.31 through 102.46 are also applicable to cooperative vocational education programs assisted under part G of the Act. In addition, the State board shall include provisions in its State plan for the establishment of cooperative vocational education programs through local educational agencies, with participation of public and private employers, as required by §§ 102.97 through 102.104.

(20 U.S.C. 1351, 1353)

§ 102.97 Approval of cooperative vocational education programs.

The State plan shall describe the policies and procedures to be followed by the State board in receiving, reviewing, and approving applications for the development and operation of cooperative vocational education programs submitted by local educational agencies which meet the requirements of § 102.98. Such description shall—

(a) Set forth the principles for determining the priority to be accorded applications from local educational agencies for cooperative vocational education programs, with preference being given to applications submitted by local educational

XUM
V 40 138
FEB 25 75
XUM

agencies serving areas of high concentrations of youth unemployment or school dropouts, as determined pursuant to § 102.46; and

(b) Provide, insofar as financial resources are available, for the undertaking of programs in the order determined by the application of such principles.

(20 U.S.C. 1353)

§ 102.98 Requirements of cooperative vocational educational programs.

The State plan shall provide that the State board will approve a cooperative vocational education program only if it meets the following requirements:

(a) *Purpose.* The program meets the definition of a cooperative vocational education program in § 102.3, and will be administered by the local educational agency with the participation of public or private employers providing on-the-job training opportunities that would not otherwise be available.

(b) *On-the-job training standards.* The program provides on-the-job training that (1) is related to existing career opportunities susceptible of promotion and advancement, (2) does not displace other workers who perform such work, (3) employs and compensates student-learners in conformity with Federal, State, and local laws and regulations and in a manner not resulting in exploitation of the student-learner for private gain; and (4) is conducted in accordance with written training agreements between local educational agencies and employers, copies of which shall be submitted to the State for filing with the local application.

(c) *Other requirements.* The program will be carried out in a manner consistent with the provisions set forth in the State plan pursuant to §§ 102.99 through 102.104.

(20 U.S.C. 1353)

§ 102.99 Identification of jobs.

The State plan shall provide that cooperative vocational education programs will be approved only if the State board determines, on the basis of information in local applications, that necessary procedures have been established for cooperation with employment agencies, labor groups, employers, and other community agencies in identifying suitable jobs for persons who enroll in cooperative vocational education programs.

(20 U.S.C. 1353(a)(2))

§ 102.100 Additional costs to employers and students.

(a) *Additional costs to employers.* The State plan shall set forth the policies and procedures which the State board will require local educational agencies with approved cooperative vocational education programs to follow in determining the added costs to employers for on-the-job training of students, and shall identify the categories of eligible costs for reimbursement to employers. Such policies and procedures shall be designed to assure—

(1) That the payment of added employer costs will be made only when it is apparent that, without such reimbursement, employers will not be able to provide quality on-the-job training;

(2) That such added employer costs will include only that part of the compensation of students which represents the difference between the compensation to be paid and the fair dollar value of services rendered by the student, as determined by the negotiation between local educational agencies and employers;

(3) That such added employer costs will not include the cost of construction of facilities, purchases of equipment, and other capital costs which would inure to the benefit of employers; and

(4) That such added employer costs shall be set forth in training agreements required by § 102.98(b)(4), identifying and justifying the cost factors applied, the amount of funds to be paid, and the duration of reimbursement.

(b) *Costs to students.* The State plan shall set forth policies and procedures which the State board will require local educational agencies with approved vocational education programs to follow in reimbursing students or paying on behalf of students unusual costs resulting from their participation in a cooperative vocational education program. The State plan shall also identify such costs, and shall specify when and under what circumstances payments for such costs will be made either to the student as reimbusement or directly to a vendor as payment for goods and services. Such policies and procedures will be designed to assure that payments will be made only for those costs which—

(1) Are not usually required of students preparing for the field of employment for which cooperative vocational education is being provided, such as, special tools, equipment and clothing, transportation, and safety and other protective devices; and

(2) Do not have the effect of underwriting personal obligations and expenses which students in similar circumstances are usually expected to assume.

(20 U.S.C. 1351, 1353)

§ 102.101 Participation of students in nonprofit private schools.

The State plan shall set forth the policies and procedures to be followed in cooperative vocational education programs approved and funded under part G of the Act which assure that, to the extent consistent with the number of students enrolled in nonprofit private schools in the area to be served whose educational needs are of the type which such a program is designed to meet, provision has been made for the participation of such students in accordance with the requirements of § 102.7.

(20 U.S.C. 1353(a)(8))

§ 102.102 Noncommingling of funds.

The State plan shall set forth the policies and procedures to be followed in cooperative vocational education programs approved and funded under part G of the Act which assure that funds from Federal sources will not be commingled with State or local funds so as to lose their identity as such. In developing such policies and procedures, it shall not be necessary to require separate bank account for funds from Federal sources, so long as accounting methods will be established which assure that expenditures of such funds can be separately identified from other expenditures.

(20 U.S.C. 1343(a)(7))

§ 102.103 Evaluation and follow-up procedures.

The State plan shall set forth the policies and procedures which the State board will require local educational agencies with approved cooperative vocational education programs to follow in providing for continuous supervision and evaluation of on-the-job training programs and for follow-up of students who have participated in such programs.

(20 U.S.C. 1353(a)(6))

§ 102.104 Ancillary services and activities.

In addition to the general provisions in the State plan with regard to State administration and leadership pursuant to § 102.35, program evaluation pursuant to § 102.36, and teacher training pursuant to § 102.38(b), the State plan shall describe its procedures for providing or making arrangements for the provisions of other ancillary services necessary to assure quality in all cooperative vocational education programs, such as preservice and inservice training of teacher coordinators and development of instructional materials.

(20 U.S.C. 1353(a)(4))

WORK-STUDY PROGRAMS FOR VOCATIONAL EDUCATION STUDENTS

§ 102.110 State plan provisions—general.

Funds allotted to the States for the purpose of part H of the Act may be used for work-study programs for vocational education students, and for the development and administration of that part of the State plan applicable to such programs. The State plan requirements set forth in §§ 102.31 through 102.46 are also applicable to the vocational education work-study program assisted with Federal funds under part H of the Act. In addition, §§ 102.111 through 102.113 require inclusion in the State plan of certain provisions specifically applicable to such programs.

(20 U.S.C. 1372(a))

§ 102.111 Policies and procedures for approval of work-study programs.

The State plan shall describe the policies and procedures to be followed by the State board in receiving, reviewing, and approving work-study programs submitted by local educational agencies which meet the requirements of § 102.112. Such description shall:

(a) Set forth principles for determining the priority to be accorded applications from local educational agencies for work-study programs, giving preference to applications submitted by local educational agencies serving communities with high concentrations of youth unemployment or school dropouts, as determined pursuant to § 102.46; and

(b) Provide, insofar as financial resources are available, for the undertaking of such programs in the order determined by the application of such principles.

(20 U.S.C. 1372(a)(3))

§ 102.112 Requirements of work-study programs.

The State plan shall provide that the State board will approve a work-study program only if it meets the following requirements:

(a) *Administration.* The work-study program will be administered by the local educational agency and made reasonably available (to the extent of available funds) to all qualified youths in the area served by such agency who are able to meet the requirements in paragraph (b) of this section.

(20 U.S.C. 1372(a)(1), (b)(1))

(b) *Eligible students.* Employment under the work-study program will be furnished only to a student who (1) has been accepted for enrollment or, if he is already enrolled, is in good standing and in full-time attendance in a program which meets the standards prescribed by the State board and the local educational agency for vocational education programs under the Act; (2) is in need of the earnings from such employment to commence or continue his vocational education program; and (3) is at least 15 years of age and less than 21 years of age at the date of the commencement of employment and is capable in the opinion of the appropriate school authorities of maintaining good standing in his school program while employed under the work-study program.

(20 U.S.C. 1372(b)(2))

(c) *Limitation on hours and compensation.* (1) No student will be employed during an academic year or its equivalent for more than fifteen hours in any week during which classes in which he is enrolled are in session. The compensation for such employment will not exceed $45 in any calendar month or $350 in any calendar academic year or its equivalent. However, in the case of a student attending a school which is not within reasonable commuting distance from his home, his compensation may not exceed $60 in any month or $500 per academic year or its equivalent. For the purposes of this paragraph, "academic year" means a period of nine months (exclusive of the summer term) interrupted by the equivalent of one month of vacation.

(2) A student attending a class on a full-time basis in the summer school term shall be limited to fifteen hours of employment per week and the monthly compensation of $45 or $60 as described in subparagraph (1) of this paragraph. If the student is not attending classes during the summer, there is no limitation upon his hours of employment or the amount of compensation which he may earn. The total of his summer earnings shall not be limited by, or have the effect of limiting the compensation paid to him for the academic year pursuant to subparagraph (1) of this paragraph.

(20 U.S.C. 1372(b)(3))

(d) *Employment for public agency or institution.* Employment under work-study programs will be for the local educational agency or for some other public agency or institution (Federal, State, or local) pursuant to a written arrangement between the local educational agency and such other agency or institution, and work so performed will be adequately supervised and coordinated and will not supplant present employees of such agency or institution who ordinarily perform such work. In those instances where employment under work-study programs is for a Federal agency or institution, the written arrangement between the local educational agency and the Federal agency or institution will state that students so employed are not Federal employees for any purpose.

(20 U.S.C. 1372(b)(4), 1374)

(e) *Maintenance of effort.* In each fiscal year during which a work-study program remains in effect, the local educational agency will expend for employment of its students (whether or not in employment eligible for assistance under this section) an amount in State or local funds that is at least equal to the average annual expenditure for work-study programs of a similar nature during the three fiscal years preceding the fiscal year in which the work-study program of such local educational agency was approved.

(20 U.S.C. 1372(b)(5))

§ 102.113 Use of funds for State plan development and administration.

The State plan shall provide that the amount of Federal funds used to pay the cost of developing those provisions in the State plan applicable to work-study programs and the cost of administering such provisions after their approval by the Commissioner will not exceed one percent of the State's allotment under part H of the Act for vocational work-study programs, or $10,000, whichever is greater.

(20 U.S.C. 1372(a)(2), 1373(a))

Subpart D—Federal Financial Participation

GENERAL

§ 102.121 Application of Federal requirements.

Federal funds may be used to share only in expenditures which are made in accordance with the State plan and which meet the requirements of the Act and the regulations in this part. State and local funds used to match the Federal funds must also meet such requirements. As used in these regulations, phrases such as "expenditures may be made under the plan * * *" or "funds may be expended * * *" mean that the Federal allotments are available for payment of the Federal share thereof during the applicable period.

(20 U.S.C. 1263)

§ 102.132 Federal share of expenditures under State plan.

The Federal share of expenditures incurred for the following purposes under the State plan and payable to the States from their allotments shall not exceed—

(a) Fifty percent of State and local expenditures for State vocational education programs under part B of the Act except that the Federal share shall be:

(20 U.S.C. 1264(a))

(1) One hundred percent for programs for the disadvantaged in areas of high concentration of youth unemployment and school dropouts under part B of the Act and financed with funds under section 102(b) of the Act; and

(20 U.S.C. 1264(a)(1))

(2) One hundred percent for all programs under part B of the Act undertaken in the Trust Territory of the Pacific Islands and in American Samoa;

(20 U.S.C. 1264(a)(2))

(b) Seventy-five percent of expenditures for State research coordination units under part C of the Act;

(20 U.S.C. 1281(b)(1))

(c) Ninety percent of expenditures for vocational education research and personnel training programs, developmental, experimental, and pilot programs, and dissemination activities under part C of the Act;

(20 U.S.C. 1281(b)(2))

(d) One hundred percent of expenditures for exemplary programs and projects under part D of the Act;

(20 U.S.C. 1302(d))

(e) Fifty percent of expenditures for consumer and homemaking programs under part F of the Act except that the Federal share shall be 90 percent for such programs in economically depressed or high unemployment areas, as determined pursuant to § 102.45;

(20 U.S.C. 1341(c))

(f) One hundred percent of expenditures for cooperative vocational education programs under part G of the Act; and

(20 U.S.C. 1354)

(g) Eighty percent of expenditures for vocational work-study programs under part H of the Act.

(20 U.S.C. 1373(a))

§ 102.133 Non-Federal share of expenditures under State plan.

(a) *Amount.* The non-Federal share of State and local expenditures under the State plan shall be the difference between the Federal share meeting the requirements of § 102.132 and the total expenditures for the purposes for which the Federal share is paid.

XUM
V 40 138 FEB 25 75 XUM

(b) *Statewide application.* The non-Federal share of expenditures under the State plan may be on a statewide basis. It is not necessary that Federal funds be matched by non-Federal funds for each school, class, program, or activity or, in the case of funds allotted under part B, for each of the purposes in section 122(a) of the Act. Only the total expenditures from each allotment to the State (or portion thereof subject to the same Federal share percentage limitation) will be considered in determining the required non-Federal share of such expenditures.

(c) *Federal conditions and requirements.* The non-Federal share of expenditures under the State plan shall be made only for programs, services, and activities which meet all of the conditions and requirements of the Act, the regulations in this part, and the State plan. This means that every school, class, program, or activity supported in whole or in part by non-Federal funds required to match Federal funds must meet the same conditions and requirements as those supported by Federal funds.

§ 102.135 Allowable expenditures for construction of area vocational education schools.

(a) Funds appropriated under section 102(a) of the Act and allotted to States for the purposes of part B of the Act may be used for the construction of area vocational education schools undertaken by the State board, or by local educational agencies with the approval of the State board. There can be no Federal financial participation in any expenditures for construction of such school facilities prior to the approval of such construction by the State board except expenditures for the acquisition of land pursuant to subparagraph (3) of this paragraph and expenditures for architectural, engineering, and inspection services pursuant to subparagraph (5) of this paragraph. Such funds may be used for expenditures in the following categories:

(1) Erection of new buildings to the extent they will include such school facilities and initial equipment as defined in § 102.3;

(2) Acquisition, expansion, alteration, and remodeling (as distinguished from the maintenance and repair) of existing buildings to the extent they will include such school facilities and initial equipment as defined in § 102.3;

(3) Acquisition, within one year prior to approval of construction by the State board, of the fee, leasehold, or other interest in land on which there is to be construction of new buildings or expansion of existing buildings;

(4) Site grading and improvement of land on which there is to be construction of new buildings and expansion of existing buildings; and

(5) Architectural, engineering, and inspection services rendered subsequent to the date of site selection.

(b) For the purposes of paragraph (a) of this section, "acquisition" includes all expenses (other than interest and carrying charges on bonds) related to the acquisition of land or school facilities (from sources other than the State board or local educational agency) if such expenses constitute an actual disbursement or transfer of public funds in accordance with usual procedures generally applicable to all State and local agencies and institutions.

(20 U.S.C. 1248 (3) and (4), 1262(a)(5))

§ 102.136 Allowable expenditures for vocational education for disadvantaged persons.

Funds appropriated under section 102 (b) of the Act and allotted to States for the purpose of section 122(a)(4)(A) of the Act may be applied only to expenditures that are reasonably attributable to vocational education programs for disadvantaged persons.

(20 U.S.C. 1262(a)(4))

§ 102.137 Allowable expenditures for research and training programs.

Funds appropriated under section 102 (a) of the Act and allotted to the States for use by State boards for the purposes of part C of the Act may be applied only to expenditures that are reasonably attributable to the establishment and operation of State research coordination units, and to programs or projects for which grants or contracts as described in § 102.70(a) are made.

(20 U.S.C. 1281(b))

§ 102.138 Allowable expenditures for exemplary programs and projects.

Funds appropriated under section 142 of the Act and allotted to States for use by State boards for the purposes of part D of the Act may be applied only to expenditures that are reasonably attributable to the exemplary programs or projects for which grants or contracts as described in § 102.76(a) are made.

(20 U.S.C. 1302(d))

§ 102.140 Allowable expenditures for consumer and homemaking education.

Funds appropriated and allotted to States under part F of the Act may be applied only to expenditures that are reasonably attributable to consumer and homemaking programs, and ancillary services and activities necessary to assure quality in such programs.

(20 U.S.C. 1341(a))

§ 102.141 Allowable expenditures for cooperative vocational education.

Funds appropriated and allotted to States under part G of the Act may be applied only to expenditures in categories such as the following which are reasonably attributable to cooperative vocational education programs and ancillary services and activities necessary to assure quality in such programs:

(a) [Reserved]

(b) Reimbursement of employers for necessary added costs incurred by them in providing cooperative work experience to vocational education students as provided for in § 102.100(a); and

(c) Payment of unusual expenses incurred by students as a result of their enrollment in a cooperative vocational education program as provided for in § 102.100(b).

(20 U.S.C. 1352(a), 1353(a))

§ 102.142 Allowable expenditures for vocational work-study programs.

Funds appropriated and allotted to States under part H of the Act for work-study programs for vocational education students may be applied only to the following categories of expenditures:

(a) Compensation of students employed in work-study programs;

(b) Expenditures reasonably attributable to—

(1) Development of those provisions in the State plan applicable to vocational work-study programs pursuant to §§ 102.110 through 102.113 which are incurred before the effective date of such provisions; and

(2) Administration of those provisions in the State plan applicable to work-study programs.

(20 U.S.C. 1371–1373)

§ 102.143 Allowable expenditures for State planning, administration, and evaluation.

Funds appropriated and paid to States under section 102(c) of the Act may be used only for the development and administration of State plans under all parts of the Act pursuant to subpart C of this part, the activities of State advisory councils pursuant to subpart B of this part, the evaluation of programs, services, and activities under the State plan pursuant to § 102.36, and dissemination of the results of such evaluations. Such funds may be applied to expenditures which are reasonably attributable to such activities.

(20 U.S.C. 1262(b))

§ 102.145 Allowable expenditures under more than one State allotment.

The availability of funds appropriated and allotted under one part or section of the Act for a particular purpose or for a particular category of expenditures shall not preclude the use of funds appropriated and allotted under other parts or sections of the Act for the same purpose or category of expenditure: *Provided*, That all of the conditions and requirements applicable to the use of funds appropriated and allotted under all such parts and sections of the Act are met.

(20 U.S.C. 1262, 1263(a))

Subpart E—Payments and Reports

§ 102.151 Conditions for payments to States.

Payments to States under the Act will be made only after the Commissioner determines that:

(a) The State has on file in the Office of Education a State plan (including the long-range and annual program plan for the fiscal year of the allotment from which payment is to be made) which was adopted by the State board after consultation with the State advisory council and approved by the Commissioner;

(20 U.S.C. 1268, 1264)

(b) The State has certified to the Commissioner the establishment and membership of a State advisory council pursuant to § 102.21(c); and

(20 U.S.C. 1244(b)(2))

(c) Total State and local expenditures for "vocational education" (as defined in § 102.3) in that State for the preceding fiscal year were not less than total State and local expenditures for vocational education in the second preceding fiscal year. Total State and local expenditures for vocational education in the preceding fiscal year shall not be deemed to be reduced from those in the second preceding fiscal year unless the per-student expenditure for vocational education within the State in the preceding fiscal year is less than that in the second preceding fiscal year by more than 5 percent.

(20 U.S.C. 1263(a)(11), 1264(c))

§ 102.152 Withholding of payments.

Whenever the Commissioner, after reasonable notice and opportunity for hearing to the State board, determines on the basis of information available to him that (a) the State plan has been so changed that it no longer complies with any State plan requirements in the Act and the regulations in this part, or (b) in the administration of the State plan, there is a failure to comply substantially with any such requirement, the Commissioner will notify such State board that no further payments will be made to the State until he is satisfied that the State has complied with such requirements. At his discretion, the Commissioner may notify the State board that payment of Federal funds will be limited to support of programs under the State plan or portions of the State plan not affected by the State's failure to comply with such requirements.

(20 U.S.C. 1263(c)(2))

§ 102.153 Payment to State advisory council.

Upon his approval of the budget submitted by the State advisory council pursuant to § 102.23(e), the Commissioner will pay the amount requested by the State advisory council in its approved budget: *Provided*, That such amount does not exceed the maximum entitlement of the State advisory council determined pursuant to section 104(c) of the Act and applicable appropriation acts.

(20 U.S.C. 1242(c), 1244(d), 1264(b))

§ 102.156 Transfer of allotments.

(a) Any portion of the amount allotted to any State for any fiscal year from funds appropriated under section 102(a) of the Act for the purposes of part B or part C of the Act which the Commissioner determines will not be required for such purposes in the period during which such allotment is available may, upon the approval of the Commissioner pursuant to paragraph (c) of this section, be transferred to or combined with one or more of the other allotments to the State for the same fiscal year under the Act. The amount so transferred is subject to the same conditions and requirements as the allotment to which it is transferred, and is no longer subject to the conditions and requirements as the allotment from which it was transferred. Thus, any reference in this part to "funds allotted under the Act" refers also to transferred funds included as a part of an allotment under the Act.

(b) A State board desiring to transfer funds from its allotment of funds appropriated under section 102(a) of the Act to another allotment under the Act shall submit as part of its annual State plan or amendment thereto a request for such a transfer. Such request shall indicate how the annual plan will be affected by the transfer and will provide information to permit application of the following criteria:

(1) The need for the funds to be transferred is substantially greater for the purpose of the allotment to which the transfer will be made than for the purposes of part B or part C of the Act, as the case may be;

(2) The transfer will permit a use of funds for a purpose or in a manner which would not be permitted under part B or part C of the Act;

(3) The funds to be transferred will be used effectively for the purpose of the allotment to which they are to be transferred; and

(4) The transfer of funds will result in the most effective use of such funds.

(c) The Commissioner will approve the State board's request for transfer of funds if he is satisfied that the transfer will meet the criteria set forth in paragraph (b) of this section; otherwise, he will disapprove such request. Such approval or disapproval will be based on information submitted by the State board with its request pursuant to paragraph (b) of this section, or on any other estimates, reports, and information available to the Commissioner which have been submitted by the State board or obtained by the Commissioner through independent investigation.

(20 U.S.C. 1243(c), 1263(a) (5), (6), (12), (17))

§ 102.157 Reallotment.

(a) (1) Any amount of any State's allotment under any part of the Act except part D which the Commissioner determines is not required for carrying out the State's plan under that part and which has not been transferred to another allotment within the State pursuant to § 102.156 will be available for reallotment to other States on such dates as the Commissioner may fix for the purpose for which the amount was originally allotted.

(2) Any amount of any State's allotment under parts B and F of the Act which the State is required by §§ 102.59 and 102.92(c) to expend for a particular purpose (i.e., vocational education for disadvantaged persons, vocational education for handicapped persons, postsecondary vocational education, or consumer and homemaking education in economically depressed and high unemployment areas) and which the Commissioner determines will not be expended for such purpose shall be available for reallotment to other States only for such purpose.

(3) The amount of any reallotment pursuant to subparagraphs (1) and (2) of this paragraph shall be deemed to be part of the State's allotment for such fiscal year. Thus, any reference in this part to "funds allotted under the Act" refers also to reallotted funds included as a part of an allotment under the Act.

(b) Any determination by the Commissioner pursuant to paragraph (a) of this section will be made on the basis of (1) a certified statement submitted by the State affirming that the State does not require the full amount of one or more of its original allotment(s) to carry out its plan, (2) reports and information acquired by the Commissioner either from the State or from independent investigation indicating that the State does not require the full amount of one or more of its original allotment(s), or (3) both. Within a reasonable time prior to the date fixed for reallotment of funds, the Commissioner will notify the State of his determination affecting the State's allotment(s) and either modify the amount certified for payment to the State or, if payment has already been made, direct the State to return to the United States whatever amount the Commissioner determines the State does not need.

(c) Reallotments will be made to other States in proportion to their original allotment for the fiscal year in which the original allotment was made; except that, subject to the provisions in paragraph (d) of this section, such reallotments to such other States will be reduced to the extent which the Commissioner estimates such State needs and will be able to use under its plan without delay for such fiscal year. The total of such reductions will then be reallotted among those States not suffering such a reduction in proportion to their original allotment except to the extent specified in the preceding sentence, and then reallotted as many times as necessary to exhaust such amount. Such estimate by the Commissioner will be made on the basis of (1) the certified statement submitted by the State pursuant to paragraph (b) of this section affirming that the State does not require the full amount of its original allotment to carry out its plan, (2) a request for reallotment by the State and its supporting certified statement indicating the amount of additional funds it needs and will be able to use effectively to carry out its plan, (3) reports and information acquired by the Commissioner either from the State board or from independent investigation, or (4) any or all of the above. Within a reasonable time before the date fixed for reallotment, the Commissioner will notify the State of the amount of reallotted funds (if any) the State shall receive.

XUM
V 40 138 FEB 25 75 5
XUM

(b) Any State which the Commissioner has determined, either on the basis of certified statements from the State or from other reports or information available to him, (1) does not require the full amount of its orignial allotment to carry out its plan, or (2) does not need or will not be able to use effectively the full amount of its proportionate share of funds to be reallotted, may, on or before the date fixed for reallotment, request that the Commissioner reconsider his determination affecting the original allotment or anticipated reallotment to such State, and submit with its request additional supporting information and data. If the Commissioner's determination is based in whole or in part on certified statements submitted by the State itself, the State may submit to the Commissioner an amendment to such certification on or before the date fixed for reallotment. The Commissioner, in making his reallotment of funds to the States, will take into consideration all such amendments and additional information furnished by the State with its request for reconsideration of the Commissioner's determination. All decisions made by the Commissioner regarding the reallotment of funds are final once reallotment is made.

(20 U.S.C. 1243(c), 1341(a)(2), 1352(b)(2), 1271(b)(2))

§ 102.159 Annual evaluation report.

(a) The State board shall submit to the Commissioner and the National Advisory Council on or before October 1 of each year an annual evaluation report prepared by the State advisory council pursuant to § 102.23(c) in accordance with procedures established by the Commissioner. This report shall contain (1) the results of the evaluations by the State advisory council of the effectiveness of programs, services, and activities carried out under the State plan in the year under review in meeting the program objectives set forth in the long-range and annual program plans required by §§ 102.33 and 102.34; and (2) such recommended changes in the content and administration of the State's programs, services, and activities as may be deemed by the State advisory council to be warranted by its evaluation results.

(b) The annual evaluation report of the State advisory council may be accompanied by such comments of the State board as it deems appropriate. These comments may include, among other matters, the results of evaluations by the State board, local educational agencies, and other agencies and institutions of programs, services, and activities under the State plan which support, supplement, or differ with the evaluation results of the State advisory council.

(20 U.S.C. 1244(b)(1)(D))

§ 102.161 Final reports of programs or projects.

The State board shall submit to the Commissioner copies of final reports of programs or projects conducted by grantees or contractors under parts C and D of the Act.

(20 U.S.C. 1263(a)(17))

[FR Doc.75-4984 Filed 2-24-75;8:45 am]

Title 46—Shipping

CHAPTER IV—FEDERAL MARITIME COMMISSION

[Docket No. 75-1; General Order 22; Amdt. 5]

PART 503—PUBLIC INFORMATION

Correction

In FR Doc. 4616, appearing on page 7311 in the issue of Wednesday, February 19, 1975, the following material, inadvertently omitted from the text of the document, should appear immediately below the signature:

1. Section 503.1 is revoked in its entirety and is hereby superseded by a new § 503.1, which reads as follows:

§ 503.1 Statement of policy.

(a) The Chairman of the Federal Maritime Commission is responsible for the effective administration of the provisions of Pub. L. 89-487, as amended. The Chairman shall carry out this responsibility through the program and the officials as hereinafter provided in this Part.

(b) In addition, the Chairman, pursuant to his responsibility hereby directs that every effort be expended to facilitate the maximum expedited service to the public with respect to the obtaining of information and records. Accordingly, members of the public may make requests for information, records, decisions or submittals in accordance with the provisions of § 503.31 of this Part.

2. Section 503.22 is amended by the addition of the following sentence at the end thereof:

§ 503.22 Current Index.

• • • Publication of such indices has been determined by the Commission to be unnecessary and impracticable. The indices shall, nonetheless, be provided to any member of the public at a cost not in excess of the direct cost of duplication of any such index upon request therefor made in accordance with Subpart D of this part.

3. Section 503.31 is hereby revoked and is superseded by new § 503.31, reading as follows:

§ 503.31 Identification of records.

A member of the public who requests permission to inspect, copy or be provided with any records described in §§ 503.11, 503.21, 503.24 and 503.25 of this part shall:

(a) Reasonably describe the record or records sought; and

(b) Submit such request in writing to the Secretary, Federal Maritime Commission, Washington, D.C. 20573. Any such request shall be clearly marked on the exterior with the letters FOIA.

§ 503.32 [Amended]

4. Section 503.32 is hereby amended by deletion in the first paragraph of the words "• • • in person or in writing at the Public Reference Room • • •" and substituting therefor the following language: "• • • in writing addressed to the Office of the Secretary • • •."

5. Section 503.33 is amended by deletion of the first two sentences thereof and the substitution therefor of the following language:

§ 503.33 Other records available upon written request.

Any written request to the Office of the Secretary, Federal Maritime Commission, Washington, D.C. 20573, for records listed in paragraphs (a) through (e), inclusive, of this section shall identify the record as provided in section 503.31. The Secretary shall evaluate each request in conjunction with the official having responsibility for the subject matter area, and the General Counsel, and the Secretary shall determine whether or not to grant the request in accordance with the provisions of § 503.34. • • •

• • • • • •

6. Section 503.34 is hereby revoked and superseded by the following new § 503.34:

§ 503.34 Procedures on requests for documents.

(a) Determination of compliance with requests for document.

(1) Upon request by any member of the public for documents, made in accordance with the rules of this part, the Commission's Secretary or his delegate in his absence, shall determine whether or not such request shall be granted.

(2) Except as provided in paragraph (c) of this section, such determination shall be made by the Secretary within ten (10) days (excluding Saturdays, Sundays and legal public holidays) after receipt of any such request.

(3) The Secretary shall immediately notify the party making such request of the determination made, the reasons therefor, and, in the case of a denial of such request, shall notify the party of his right to appeal that determination to the Chairman.

(b) Appeals from adverse determination (denial of request).

(1) Any party whose request for documents or other information pursuant to this part has been denied in whole or in part by the Secretary may appeal such determination. Any such appeal shall be addressed to: Chairman, Federal Maritime Commission, Washington, D.C. 20573, and shall be submitted within a reasonable time following receipt by the party of notification of the initial denial by the Secretary in the case of a total denial of the request or within a reasonable time following receipt of any of the records requested in the case of a partial denial. In no case shall an appeal be filed later than ten (10) working days following receipt of notification of denial or receipt of a part of the records requested.

(2) Upon appeal from any denial or partial denial of a request for documents by the Secretary, the Chairman of the Federal Maritime Commission or the Chairman's specific delegate in his absence, shall make a determination with respect to that appeal within twenty (20) days (excepting Saturdays, Sundays and legal public holidays) after receipt of such appeal, except as provided in paragraph (c) of this section. If, on appeal, the denial is upheld, either in whole or in part, the Chairman shall so notify the party submitting the appeal and shall notify such person of the provisions of paragraph 4 of subsection (a) of the FOIA (Pub. L. 93-502, 88 Stat. 1561-1562, November 21, 1974) regarding judicial review of such determination upholding the denial. Notification shall also include the statement that the determination is that of the Chairman of the Federal Maritime Commission and the name of the Chairman.

(c) *Exception to time limitation.* In unusual circumstances as specified in this paragraph, the time limits prescribed with respect to initial actions or actions on appeal may be extended by written notice from the Secretary of the Commission to the person making such request setting forth the reasons for such extension and the date on which a determination is expected to be dispatched. No such notice shall specify a date that would result in an extension for more than ten working days. As used in this paragraph, "unusual circumstances" means, but only to the extent reasonably necessary to the proper processing of the particular request—

(1) The need to search for and collect the requested records from field facilities or other establishments that are separate from the office processing the request;

(2) The need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are demanded in a single request; or

(3) The need for consultation, which shall be conducted with all practicable speed, with another agency having a substantial interest in the determination of the request or among two or more components of the agency having substantial subject matter interest therein.

(d) *Effect of failure by Commission to meet the time limitation.* Failure by the Commission either to deny or grant any request for documents within the time limits prescribed by FOIA (5 U.S.C. 552, as amended) and these regulations shall be deemed to be an exhaustion of the administrative remedies available to the person making the request.

§ 503.35 Exceptions to availability of records.

7. Section 503.35 is hereby amended by the deletion of paragraphs (a) and (g) and the substitution of new paragraphs (a) and (g), reading as follows:

• • • • • •

(a) Records specifically authorized under criteria established by Executive Order to be kept secret in the interest of national defense or foreign policy and which are in fact properly classified pursuant to such Executive Order. Records to which this provision applies shall be deemed by the Commission to have been properly classified. This exception may apply to records in the custody of the Commission which have been transmitted to the Commission by another agency which has designated the record as nonpublic under Executive Order.

• • • • • •

(g) Investigatory records compiled for law enforcement purposes, but only to the extent that the production of such records would (1) interfere with enforcement proceedings, (2) deprive a person of a right to a fair trial or an impartial adjudication, (3) constitute an unwarranted invasion of personal privacy, (4) disclose the identity of a confidential source and, in the case of a record compiled by a criminal law enforcement authority in the course of a criminal investigation, or by any agency conducting a lawful national security intelligence investigation, confidential information furnished only by the confidential source, (5) disclose investigative techniques and procedures, or (6) endanger the life or physical safety of law enforcement personnel. Any record, portions of which are exempt under the provisions of this section, will be provided to any person requesting such record after the exempt portion or portions thereof have been deleted, provided such nonexempt portion or portions are reasonably segregable.

8. A new § 503.36 entitled *Commission Report of Actions* is hereby promulgated following § 503.35 and reading as follows:

§ 503.36 Commission report of actions.

On or before March 1 of each calendar year, the Federal Maritime Commission shall submit a report of its activities with regard to public information requests during the preceding calendar year to the Speaker of the House of Representatives and to the President of the Senate. This report shall include—

(a) The number of determinations made by the Federal Maritime Commission not to comply with requests for records made to the agency under the provisions of this part and the reasons for each such determination.

(b) The number of appeals made by persons under such provisions, the result of such appeals, and the reason for the action upon each appeal that results in a denial of information.

(c) The names and titles or positions of each person responsible for the denial of records requested under the provisions of this Part and the number of instances of participation for each.

(d) The results of each proceeding conducted pursuant to subsection (a)(4)(F) of FOIA, as amended November 21, 1974, including a report of the disciplinary action taken against the officer or employee who was primarily responsible for improperly withholding records or an explanation of why disciplinary action was not taken.

(e) A copy of every rule made by the Commission implementing the provisions of the FOIA, as amended November 21, 1974.

(f) A copy of the fee schedule and the total amount of fees collected by the agency for making records available under this section.

(g) Such other information as indicates efforts to administer fully the provisions of the FOIA, as amended.

9. Subpart E—*Fees* is amended by the addition of a new paragraph (g) to § 503.43 and is republished in its entirety as follows:

Subpart E—Fees

§ 503.41 Policy and services available.

Pursuant to policies established b ythe Congress, the Government's costs for special services furnished to individuals or firms who request such service are to be recovered by the payment of fees (Act of Aug. 31, 1951—5 U.S.C. 140). Upon written request directed to the Federal Maritime Commission pursuant to the FOIA as amended and as implemented by the provisions of this part, there are available upon payment of the fees hereinafter prescribed, with respect to documents subject to inspection, services as follows:

(a) Copying records/documents.

(b) Certification of copies of documents.

(c) Records search.

(d) Subscriptions to publications of the Commission.

(e) Transcripts of hearings.

§ 503.42 Payment of fees and charges.

The fees charged for special services may be paid by check, draft, or postal money order, payable to the Federal Maritime Commission, except for charges for transcript of hearings. Fees for transcript of hearings are payable to the firm providing the services.

§ 503.43 Fees for services.

The basic fees set forth below provide for documents to be mailed with ordinary first-class postage prepaid. If copy is to be transmitted by registered, certified, air, or special delivery mail, postage therefor will be added to the basic fee. Also, if special handling or packaging is required, costs thereof will be added to the basic fee.

(a) The copying of records and documents will be available at the rate of 30 cents per page (one side) by the Xerox process, limited to size 8¼" x 14" or smaller.

(b) The certification and validation (with Federal Maritime Commission seal) of documents filed with or issued by the Commission will be available at $2.00 for each such certification.

(c) To the extent that time can be made available, records and information search will be performed for reimbursement at the following rates:

(1) By clerical personnel at a rate of $4.50 per person per hour.

(2) By professional personnel at an actual hourly cost basis to be established prior to search.

(3) No charge for records' search will be imposed for the first one-half hour.

(d) Annual subscriptions for which there are regular mailing lists are available at the charges indicated below for calendar year terms. Subscriptions for periods of

XUM V40138 FEB2575 XUM

less than a full calendar year will be prorated on a quartely basis. No provision is made for refund upon cancellation of subscription by a purchaser.

(1) Orders, notices, rulings, and decisions (initial and final) issued by Administrative Law Judges and by the Commission in all formal docketed proceedings before the Federal Maritime Commission are available at an annual subscription rate of $30.

(2) Final decisions (only) issued by the Commission in all formal docketed proceedings before the Commission are available at an annual subscription rate of $10.

(3) General orders of the Commission, including all proposed and final rules, are available at an annual subscription rate of $2 (initial annual subscription will entitle the purchaser to a complete set of current General Orders issued to date).

(4) *Exceptions.* No charge will be made by the Commission for notices, decisions, orders, etc., required by law to be served on a party to any proceeding or matter before the Commission. No charge will be made for single copies of Commission publications individually requested in person or by mail. In addition a subscription to Commission mailing lists will be entered without charge when one of the following conditions is present:

(i) The furnishing of the service without charge is an appropriate courtesy to a foreign country or international organization.

(ii) The recipient is another governmental agency, Federal, State, or local, concerned with the domestic or foreign commerce by water of the United States or, having a legitimate interest in the proceedings and activities of the Commission.

(iii) The recipient is a college or university.

(iv) The recipient does not fall into paragraphs (d)(4) (i), (ii), or (iii) of this section, but is determined by the Commission to be appropriate in the interest of its program.

(e) Transcripts of testimony and of oral argument are furnished by a non-governmental contractor, and may be purchased directly from the reporting firm.

(f) The Commission publication entitled "Automobile Manufacturers' Measurements" is available on a fiscal year subscription basis, including any supplements issued during the fiscal year in which purchased, for a fee of $5.00.

(g) Upon a determination by the Commission that waiver or reduction of the fees prescribed in this section is in the public interest because the information furnished has been determined to be of primary benefit to the general public, such information shall be furnished without charge or at a reduced charge in the discretion of the Commission.

Notice and public procedure on these amendments are deemed to be unnecessary and impracticable, with the exception of the amendments to and republication of Subpart E—Fees, since these amendments merely conform to the requirements of the Freedom of Information Act amendments of November 21, 1974. Comments with respect to Subpart E, if any, shall be submitted to the Secretary, Federal Maritime Commission, not later than January 27, 1975.

Title 49—Transportation

CHAPTER IX—UNITED STATES RAILWAY ASSOCIATION

PART 901—ORGANIZATION, RULE-MAKING, AND PUBLIC INFORMATION

Organization and Functions

The purpose of this new part 901 is to describe the organization of the United States Railway Association, the established places at which, the employees from whom, and the methods whereby the public may obtain information, make submittals or requests, or obtain decisions. It also describes the general course and method by which its functions are channeled and determined and its rules of procedure for obtaining public information. It further sets forth tentative fees for copies of documents obtained by persons through the public information process.

The Association is an incorporated non-profit association established by the Regional Rail Reorganization Act of 1973. It is organized with a Board of Directors, a Chairman, a President, a General Counsel, and 7 Vice Presidents. Their functions are described in this part.

The Association is not generally subject to the Administrative Procedure Act (5 U.S.C. 531 *et seq.*) but, pursuant to Public Law 93–502 (88 Stat. 561), section 552 of Title 5, U.S. Code does apply to it. Under that section, the Association is required to publish in the FEDERAL REGISTER a description of those items described in the first paragraph of this document. Although it is, therefore, not subject to the rule-making proceedures of section 553, Title 5, United States Code, it will, nevertheless, as it considers appropriate, publish notices of proposed rule-making in the FEDERAL REGISTER, invite and consider comments thereon, and will keep public dockets.

Matters regarding public information requests, and the maintenance of a Public Reading Room, are within the jurisdiction of the Vice President for Public and Governmental Affairs. Requests for documents are made through his office, as described in the part, and all initial denials of requests are made by him. A right of appeal of a denial to the President has been provided, with specified procedures.

Due to the early date prescribed in Public Law 93–502 for the publication of information regarding fees for copies of documents furnished as a result of requests under the new part, it has not been possible for the Association to issue a separate notice of proposed rule-making on that subject. For this reason, the fees for copying described in § 901.4(g), while in line with those prevailing in other agencies, are tentative in nature. Interested persons are invited to comment on the reasonableness or adequacy of the fees to the Office of the General Counsel, USRA, Room 2222, 2100 Second Street, SW, Washington, D.C. 20595. Comments received by March 24, 1975, will be considered by the Association in determining whether to make changes in the fee schedules. Copies of all written comments received will be available for examination by interested persons in the Office of the General Counsel, both before and after the closing date. The fees may be changed in the light of the comments received.

In consideration of the foregoing, Chapter IX of Title 49 of the Code of Federal Regulations is amended by adding the following new Part 901, thereto, effective February 19, 1975.

This Part 901 is issued under the authority of the Regional Rail Reorganization Act of 1973 (Pub. L. 93–236, 87 Stat. 985) and Public Law 93–502 (88 Stat. 1561).

Issued in Washington, D.C. on February 19, 1975.

EDWARD G. JORDAN,
President.

Sec.
901.1 Purpose.
901.2 Status and organization of the Association.
901.3 Rule-making procedures.
901.4 Public availability of information.

AUTHORITY: Regional Rail Reorganization Act of 1973 (Pub. L. 93.236, 87 Stat. 985; Pub. L. 93–502, 88 Stat. 1561).

§ 901.1 Purpose.

This part describes the organization of the Association, and its procedures for providing public access to information.

§ 901.2 Status and organization of the Association.

(a) The United States Railway Association is an incorporated non-profit association established by the Regional Rail Reorganization Act of 1973 (Pub. L. 93–236; 87 Stat. 985; 45 U.S.C. 701, *et seq.*). To the extent not inconsistent with that Act, it is subject to the District of Columbia Non-profit Corporation Act (D.C. Code 29–10001, *et. seq.*) and its status is that of a government corporation of the District of Columbia.

(b) The Association is organized as follows:

(1) The Board of Directors directs and manages the affairs of the Association.

(2) The Chairman presides over the Board of Directors, and is the chief executive officer; he is assisted by the Vice President, Secretary, who performs corporate secretary functions and provides direct staff support to the Chairman, and by the Vice President for Congressional Affairs, who is responsible for Federal legislative matters.

(3) The President is the chief operating officer.

(4) The General Counsel is the chief legal officer.

(5) The Vice President for Administration is the principal officer for personnel, procurement, administration and support services, budget, accounting and audit, and management systems.

(6) The Vice President for Review and Evaluation is the principal officer for liaison with officials of bankrupt railroads, for evaluating the practical implications of the Association's system plans and its loan and assistance programs and for assessing the condition of the railroads in the northeast/midwest region.

(7) The Vice President for Public and Governmental Affairs is the principal officer for communications with the general public, the news media, Federal, State and local governmental agencies, and other interested groups.

(8) The Vice President for Financial Planning is the principal officer for financial issues, such as valuation of the assets and securities of the reorganized railroads; projection of their revenues, costs and profits; assessment of their financial needs and possible sources of financing; and consideration of loan and financial assistance applications.

(9) The Vice President for Operations and Facilities Planning is the principal officer for development of the systems plans for restructuring the rail system of the northeast/midwest regions, including the collection and development of needed data; development of appropriate route options, operating and revenue alternatives, and capital needs; and assessment of the planned systems' impact on communities, competition, service, freight and passenger operations, energy consumption and the environment.

(10) The Vice President for Manpower Planning is the principal officer for consideration of manpower issues, such as the planned systems' manpower requirements and how to reach appropriate levels; and manpower policies, methods and criteria for the planned system and for determining protected employees' benefits.

§ 901.3 Rule-making procedures.

(a) The Association is not subject to the rule-making procedural requirements of section 553 of Title 5, United States Code. The Association will, nevertheless, as it considers appropriate, publish notices of proposed rule-making in the FEDERAL REGISTER; invite and consider comments and requests for extension of time; and keep public dockets. It will also publish its procedural rules, substantive rules, general policies, and general interpretations in the FEDERAL REGISTER. When a notice of proposed rule-making is issued, the specific applicable procedures will be described in the notice.

(b) The Association will publish in the FEDERAL REGISTER a notice of the receipt of each application for a loan under section 211 of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 721) and of each request for discontinuance or abandonment authorization under section 304(f) of that Act (45 U.S.C. 744 (f)).

§ 901.4 Public availability of information.

(a) Subject to appeal to the President as provided in this section, the Vice President for Public and Governmental Affairs is responsible for administering this section.

(b) Docketed material, so designated in a public notice, is available for inspection and copying in the General Counsel's Office upon written request to the Docket Clerk in that office. Copies of docketed material may be ordered by submitting a written request to the Docket Clerk, Office of the General Counsel, United States Railway Association, 2100 Second Street, SW, Washington, D.C. 20595 and paying the required fee.

(c) Available informational material that the Association considers to be of wide public interest will be kept in the Public Reading Room where members of the public may inspect and copy it. All other available documents may be inspected and copied upon written request to the Information Assistant, Office of the Vice President for Public and Governmental Affairs, United States Railway Association, 2100 Second Street, SW, Washington, D.C. 20595. Copies of those documents may be ordered by submitting a written request to the Information Assistant at that address and paying the required fee.

(d) No such request for inspection or a copy of a document shall be denied except upon the written decision of the Vice President for Public and Governmental Affairs that:

(1) The request may properly be denied under the Freedom of Information Act; and

(2) Another law, private rights, or the public interest clearly requires the denial.

Each denial decision will set forth the reasons therefor and describes the appeal from that decision that is available to the requester.

(e) A decision denying access to a document may be appealed to the President by filing with his office a written notice of appeal, within 30 days after the date of the denial under paragraph (d) of this section, specifying the relevant facts and the basis for the appeal. If the President denies the appeal, the denial shall set forth the reasons therefor and describe the rights of judicial appeal available to the requester.

(f) Requested documents shall be made available, or a written decision denying the request furnished, within 10 working days after the date the request is received. An appeal to the President shall be decided within 20 working days after the date the notice of appeal is filed. The time may be extended in unusual cases but for not more than a total of 10 working days. Saturdays, Sundays and Federal Holidays are not considered to be working days.

(g) The fee for photocopies of documents ordered from the Association shall be $0.25 for the first page and $0.05 for each additional page for each document. The fee for copies of material requiring other methods of reproduction is the cost of reproduction and handling. The fee for routine searches for documents is $2. The fee for searches requiring longer than 30 minutes and for other non-routine services is the actual cost. Fees are payable only in cash or by check or money order payable to the United States Railway Association. Fees may be waived or reduced at the discretion of the Vice President for Public and Governmental Affairs, if he considers it to be in the public interest because furnishing the information will benefit the general public.

(h) The final opinions, orders, statements of policy, interpretations, manuals and instruction that will be available for inspection and copying include:

(1) The Preliminary System Plan (available on and after February 26, 1974), including the USRA studies cited in that Plan; and

(2) USRA Orders in abandonment authorization proceedings pursuant to Section 304(f) of the Regional Rail Reorganization Act of 1973, and an index thereto.

[FR Doc.75–5006 Filed 2–24–75;8:45 am]

Title 50—Wildlife and Fisheries

CHAPTER II—NATIONAL MARINE FISHERIES SERVICE, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE

SUBCHAPTER H—EASTERN PACIFIC TUNA FISHERIES

PART 280—YELLOWFIN TUNA

Miscellaneous Amendments

On December 23, 1974, a notice of proposed rulemaking was published in the FEDERAL REGISTER (Vol. 39, No. 247) to amend Part 280, Title 50, Code of Federal Regulations, which are regulations governing the eastern Pacific yellowfin tuna fishery. Interested persons were given the opportunity to participate through a public hearing held at San Diego on January 10, 1975, and through submission of written comments.

Although the proposed rulemaking did not suggest a change in the distribution of the overall small boat allocation between the small purse seiners and the bait and jig boats, comments were invited from the industry or interested persons on changes to the present distribution of the allotment to vessels under 400 short tons carrying capacity. Comments varied greatly between those representing the seiners and those supporting bait boats as to what each group should be allocated in 1975 out of the 6700 tons available. Seiner advocates insisted they should receive 4400 tons in 1975 (3900 tons received in 1974), while the bait boats should receive only 2300 tons (2800 tons received in 1974). The bait boat spokesman, on the other hand, indicated bait boats were fully justified in receiving 3,500 tons in 1975 and that anything less than 3350 tons, a 50–50 split, would be unacceptable.

In 1974 the small boat allocations were adjusted and, since then, the bait boat segment has experienced a small net increase in carrying capacity, due to new vessels coming into that fleet. In the same time span, the carrying capacity of the small purse seine fleet declined. However the capacity of now inactive

XUM
V 40 38
FEB 25 75
XUM

vessels that have operated on the seiner allotment, and could do so again nearly matches that decline. The factor of capacity changes alone must be modified by other considerations in allotting tonnages. Otherwise a static or declining category would eventually receive but little tonnage allocation and it should not be made to suffer because of a growing category that is aware of the overall tonnage restriction available to both. If changes in the allotment to seiners and bait boats were made on capacity changes alone, then bait boats would be granted an increase and the small seiners would be allotted an equal amount less. However, in addition to the modification of the capacity factor mentioned above, it is recognized that bait boats can land yellowfin exclusively, up to 50 percent of capacity, whereas seiners are limited to an incidental catch of yellowfin. Furthermore, bait boats leave the yellowfin fishery and fish for albacore while the seiners do not. Taking these factors into consideration, the tonnage allotments for the two categories will remain as they were in 1974, namely:

(1) Purse seiners of 400 short tons carrying capacity and less: 3900 short tons.

(2) Bait and jig boats: 2800 short tons.

The incidental catch limitation for the two groups during the period each is accumulating its allotment remains as in 1974, namely:

(1) Purse seiners 301–400 short tons carrying capacity: 40 percent by round weight.

(2) Purse seiners 300 short tons carrying capacity or less: 60 percent by round weight.

(3) Bait and jib boats: 50 percent of each vessel's established short ton carrying capacity.

The proposed rulemaking added a proviso to the "last free trip" rules of § 280.7(a)(1) which would authorize the Service Director, upon publication of notice in the FEDERAL REGISTER, to require certain fishing vessels at sea to return to home port or port of departure. Industry objected to the amendment on the ground that it was premature in its anticipation of a decision not yet made by the Commission. Further industry testimony was to the effect that requiring a vessel at sea to return to its home port or port of departure, rather than to a port decided upon by the managing owner of the vessel, is unreasonable and arbitrary and may result in severe economic loss.

As stated in the notice of proposed rulemaking and further explained at the public hearing, the Commission's Resolution for 1975 recognized the need to further evaluate the age composition of the catch and related matters at a special meeting of the Commission presently scheduled for March 3, 1975. A purpose of this meeting will be the receipt by the Contracting Governments to the Convention of a recommendation for emergency measures from the Director of Investigations, if he considers that the yellowfin tuna stocks would be seriously damaged by fishing at the level of the agreed upon quota. For these reasons, we cannot agree with industry testimony that the proposed amendment is premature.

Any such emergency measure accepted by the Contracting Governments pursuant to the Convention must be implemented. Such implementation must be prompt if it is to have the conservation effect intended. The amendment gives the Service Director authority to do so as to the most restrictive measures the Commission could recommend, but also notes that "other, less restrictive, measures may be specified." It is not the intention of the National Marine Fisheries Service to deprive a vessel of the options which are expected to be available in the event of an emergency measure (options similar to those available during the closed season), unless such action is clearly necessary to implement the emergency measure. These options would include (1) inspection in any available inspection port in accordance with § 280.7(f); (2) continuing to fish inside the regulatory area subject to the incidental catch limitations of § 280.7(b); or (3) proceeding directly to waters outside the regulatory area to continue fishing freely for yellowfin tuna, subject to the applicable provisions of § 280.7 (d) and (e).[1] For the foregoing reasons, the amendment to § 280.7(a)(1) is adopted as changed.

In respect to the proposed amendment of § 280.7(h) to require the express permission of the Regional Director prior to the sale or delivery in a foreign country of fish caught in the Pacific Ocean, the comments received were uniformly opposed to the amendment on the dual grounds that the limits of the Regional Director's authority are not spelled out and that the proposal is not necessary to the yellowfin tuna conservation program. As stated in the notice of proposed rulemaking and further explained at the public hearing, the purpose of the proposed amendment was to better control the unloading in a foreign country of yellowfin tuna taken in excess of closed season restrictions. The present requirement of advance notice of such unloadings has not proven adequate in this regard, both because of the inability to take effective enforcement action when the Regional Director learns of the unloading after the fact, and because of certain diplomatic difficulties encountered in inspecting unloadings from U.S. vessels in certain foreign ports. On the basis of objections received, however, we have decided that further diplomatic and other efforts should be explored before adoption of the amendment. These efforts have already been initiated, and final action on the proposed amendment of § 280.7(h) is hereby deferred. Further comment from interested persons is solicited and any such comment received by the Regional Director on or before April 11, 1975, will be considered.

If an amendment is later adopted, it will specify that the Regional Director's authority to deny permission to unload, to direct the unloadings at a different port, or to set such other conditions as are necessary to insure compliance with the yellowfin tuna conservation regulations, is limited to those situations in which an agent of the National Marine Fisheries Service cannot, for diplomatic or manpower reasons, conduct an inspection of the unloading at the time or place or under the conditions specified in the request for permission of the Regional Director. Comment on this aspect of the proposed amendment would be appreciated.

Following the public hearing, industry representatives requested that the regulations be amended to take account of the recent seizures of the U.S. tuna vessels by a foreign government. We are in agreement that is such seizures continue, U.S. vessels could, unless the regulations are amended, be disqualified from the "last free trip" provisions of § 280.7(a). Disqualification under these circumstances would not be in aid of the conservation recommendations of the Commission. For these reasons, a new paragraph (a)(3) is added to § 280.7, to read as follows:

§ 280.7 Closed season restrictions applicable to fishing vessels.

(a) • • •

(3) Any vessel which, solely by reason of seizure or other enforcement activity of a foreign government against such vessel, is unable to reach the port of its choice prior to the closure of the yellowfin fishing season shall be allowed, subject to written approval by, and under conditions set by, the Regional Director, to proceed to another port for the purpose of unloading and still qualify for the one additional unrestricted fishing voyage, subject to the restrictions of paragraphs (a) (1) and (2) above except for the in-port requirement.

As stated in the amendment, qualification for the one additional unrestricted fishing voyage under § 280.7(a)(3) is dependent upon the written approval of the Regional Director, and such approval will not be given without satisfactory proof that the terms of § 280.7(a)(3) have been met. If given, such approval is subject to the conditions attached thereto by the Regional Director. In addition to other conditions that may be necessary in aid of enforcement of Part 280, one of the conditions will be that the vessel shall not engage in fishing activity between the time it is no longer subject to the seizure or other enforcement activity of a foreign government, and the time the vessel reaches its original port of choice (or the port decided upon by the Regional Director).

Because the described amendment cannot have the effect intended unless it is put into effect before closure of the open season for yellowfin tuna fishing, the National Marine Fisheries Service finds that publication in accordance with normal rulemaking is impracticable and that good cause exists for making the amendment effective less than 30 days from publication. Added paragraph (a)(3) to § 280.7 is, therefore, effective on February 25, 1975.

[1] On the basis of industry's comments we have added to the proposed amendment the option of returning to such other port as may be designated by the Regional Director.

No objections were made to proposed amendments numbered (in the notice of proposed rulemaking) 1: § 280.1(p); 2: § 280.6(b); 4: § 280.7(a)(1); 5: § 280.7(b)(3); 6: § 280.7(d)(1); and 7: § 280.7(f)(1). Upon further consideration, these amendment are adopted as proposed.

The following technical and conforming amendments are also adopted:

(1) In § 280.7(a)(1), "1974" is amended to read "1975" and "1973" is amended to read "1974";

(2) In § 280.7(d), "1974" is amended to read "1975";

(3) In § 280.6(b), "1974" is amended to read "1975";

(4) In § 280.12(b), "personnel" is amended to read "personal"; and

(5) In § 280.14 "—who has duly—" is amended to read "who has been duly—".

(6) In § 280.1(g), "1974" is amended to read "1975".

The foregoing amendments are effective on February 25, 1975.

The amendments are issued under the authority contained in subsection (c) of section 6 of the Tuna Conventions Act of 1950, as amended (16 U.S.C. 955(c)), as modified by Reorganization Plan No. 4, effective October 3, 1970 (35 FR 15627).

Issued at Washington, D.C., and dated February 21, 1975.

ROBERT W. SCHONING,
Director.

In consideration of the foregoing, the regulations are amended to read as follows:

Sec.
280.1 Definitions.
280.2 Basis and purpose.
280.3 Catch limits.
280.4 Open season.
280.5 Closed season.
280.6 Open season restrictions applicable to fishing vessels.
280.7 Closed season restrictions applicable to fishing vessels.
280.8 Emergency action by Service Director.
280.9 Restrictions applicable to cargo vessels.
280.10 Restrictions applicable to purchasers.
280.11 Recordkeeping and written reports.
280.12 Persons and vessels exempted.
280.13 National Oceanic and Atmospheric Administration employees designated as enforcement agents.
280.14 State officers designated as enforcement agents.

AUTHORITY: 64 Stat. 777, as amended, 16 U.S.C. 951, as modified by Reorganization Plan No. 4, effective Oct. 3, 1970 (35 FR 15627).

§ 280.1 Definitions.

For the purposes of this part, the following terms shall be understood to mean:

(a) *United States.* All areas under the sovereignty of the United States, the Trust Territory of the Pacific Islands, and the Canal Zone.

(b) *Convention.* The Convention for the Establishment of an Inter-American Tropical Tuna Commission, signed at Washington, D.C., May 31, 1949, by the United States of America and the Republic of Costa Rica (1 U.S.T. 230).

(c) *Commission.* The Inter-American Tropical Tuna Commission established pursuant to the Convention.

(d) *Director of investigations.* The Director of Investigations, Inter-American Tropical Tuna Commission, La Jolla, California.

(e) *Service director.* The Director of the National Maritime Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce.

(f) *Regional director.* The Regional Director, Southwest Region, National Marine Fisheries Service, 300 South Ferry Street, Terminal Island, California, telephone number, area code, 213, 548–2575.

(g) *Regulatory area.* All waters of the eastern Pacific Ocean bounded by the mainland of the Americas and the following lines: Beginning at a point on the mainland where the parallel of 40° north latitude intersects the coast; thence due west to the meridian of 125° west longitude; thence due south to the parallel of 20° north latitude; thence due east to the meridian of 120° west longitude; thence due south to the parallel of 5° north latitude; thence due east to the meridian of 110° west longitude; thence due south to the parallel of 10° south altitude; thence due east to the meridian of 90° west longitude; thence due south to the parallel of 30° south latitude; thence due east to a point on the mainland where the parallel of 30° south altitude intersects the coast. Except that for 1975 only, the area encompassed by a line drawn starting at 110° west longitude and 3° north latitude extending east along 3° north latitude to 95° west longitude; thence south along 95° west longitude to 3° south latitude; thence east along 3° south latitude to 90° west longitude; thence south along 90° west longitude to 10° south latitude; thence west along 10° south latitude to 100° west longitude; thence north along 110° west longitude to 3° north latitude shall be excluded from the regulatory area to encourage exploratory fishing.

(h) *Yellowfin tuna.* No other fishes except the species *Thunnus* ALBACARES.

(i) *Mingled species.* (1) Any species of billfish or shark; and (2) No other species of the family Scombridae except: Skipjack (*Genus Euthynnus*), bigeye (*Thunnus obesus*), bluefin (*Thunnus thynnus*), albacore (*Thunnus alalunga*), or bonito (*Sarda chiliensis*).

(j) *Fishing vessel.* All watercraft subject to the jurisdiction of the United States which are used for catching or processing fish, except purse seine skiffs.

(k) *Fishing voyage.* The period between the date a fishing vessel departs from any port to carry out fishing operations and the date such vessel unloads any of its catch or the date such vessel returns to any port for the express purpose of receiving an inspection by a designated agent of the National Marine Fisheries Service.

(l) *Cargo vessel.* All watercraft which are used for transporting fish or fish products, except fishing vessels.

(m) *Person.* Individual, association, corporation, or partnership subject to the jurisdiction of the United States.

(n) *Open season.* The time during which yellowfin tuna may lawfully be captured without limitation by any fishing vessel operating within the regulatory area.

(o) *Closed season.* The time during which yellowfin tuna may not be captured in the regulatory area, except in limited quantities as an incident to fishing for species with which yellowfin may be mingled.

(p) *Port facility in the Americas.* All port facilities in North, South and Central America, including all the Caribbean ports, but excluding ports in Argentina, Brazil and Uruguay.

§ 280.2 Basis and purpose.

(a) At a special meeting held at Long Beach, Calif., on September 14, 1961, the Commission recommended to the Governments of Costa Rica, Ecuador, Panama, and the United States of America, parties to the Convention, that they take joint action to limit the annual catch of yellowfin tuna from the eastern Pacific Ocean by fishermen of all nations during the calendar year 1962. This recommendation was made pursuant to paragraph 5 of Article II of the Convention on the basis of scientific investigations conducted by the Commission over a period of time dating from 1951. The most recent years of this period were marked by a substantial increase in fishing effort directed toward the yellowfin tuna stocks, resulting in a rate of exploitation of these stocks greater than that at which the maximum sustainable yield may be obtained. The Commission's recommendation for joint action by the parties to regulate the yellowfin tuna fishery has as its objective the restoration of these stocks to a level of abundance which will permit maximum sustainable catch and the maintenance of the stocks in that condition in the future.

(b) At each annual meeting held since 1962, the Commission affirmed its conclusions regarding the need for regulating the yellowfin tuna fishery in the eastern Pacific Ocean and at each meeting recommended to the parties to the Convention that they take joint action to:

(1) Establish a precsribed tonnage limit on the total catch of yellowfin tuna by the fishermen of all nations during each calendar year from an area of the eastern Pacific Ocean defined by the Commission;

(2) Establish open and closed seasons for yellowfin tuna under prescribed conditions;

(3) Permit the landing of an incidental catch by weight of yellowfin tuna when landed with one or more of the following fishes usually caught mingled with yellowfin tuna, that are taken on a fishing trip bugun after the close of the yellowfin tuna fishing season: Skipjack tuna, bigeye tuna, bluefin tuna, albacore tuna, bonito, the billfishes, and the sharks; and

(4) Obtain from governments not parties to the Convention, but having vessels

XUM
V 40138
FEB 25 75
XUM

which operate in the fishery, cooperation in effecting the recommended conservation measures.

(c) The regulations in this part are designed to implement the Commission's recommendations for the conservation of yellowfin tuna so far as they affect vessels and persons subject to the jurisdiction of the United States.

§ 280.3 Catch limits.

The annual limitation on the quantity of yellowfin tuna permitted to be taken from the regulatory area by the fishing vessels of all nations participating in the fishery will be fixed and determined on the basis of recommendations made by the Commission pursuant to paragraph 5 of Article II of the Convention. Upon approval by the Secretary of State and the Secretary of Commerce of the recommended catch limit, announcement of the catch limit thus established shall be made by the Service Director through publication of a suitable notice in the FEDERAL REGISTER. The Service Director, in like manner, shall announce any revision or modification of an approved annual catch limit which may subsequently enter into force.

§ 280.4 Open season.

The open season for yellowfin tuna fishing shall begin annually at 0001 hours on the first day of January and terminate at 0001 hours on a date to be announced as provided in § 280.5. Time in hours shall refer to local time in the area affected.

§ 280.5 Closed season.

Pursuant to authority granted by the Commission, the Director of Investigations will determine the date on which he deemed the yellowfin fishing season should close and will promptly notify the Service Director of such date. The Service Director shall then announce the season closure date thus established by publication of a notice in the FEDERAL REGISTER. The closure date so announced shall be final except that if it shall at any time become evident to the Director of Investigations that the closure date initially determined had been affected by changed circumstances, he may substitute another date which shall be announced by the Service Director in like manner as provided for the date originally determined.

§ 280.6 Open season restrictions applicable to fishing vessels.

(a) During the open yellowfin tuna season, every fishing vessel operating within the regulatory area shall transmit once each calendar week a message between 0900 and 2400 hours local California time. The message shall be transmitted directly to the Director of Investigations through the shore representative of the fishing vessel and shall state: the name of the reporting vessel and the tonnage by species of fish aboard. The above reporting procedure shall go into effect on a date to be announced by the Service Director through publication of a notice in the FEDERAL REGISTER.

(b) During the open yellowfish tuna season, every fishing vessel operating in the Pacific Ocean, but outside the regulatory area, shall transmit daily a message between 1600 Greenwich Mean Time (G.m.t.) and 1800 G.m.t. This requirement will also apply, for 1975 only, to every fishing vessel operating in the area described in the second sentence of paragraph (g) of § 280.1. The message shall be transmitted directly to Coast Guard Radio San Francisco (NMC) on frequency 16,565.0, 12,421.0, or 8,281.2 KHz and shall state: "This message is being transmitted in compliance with the U.S. eastern tropical Pacific yellowfin tuna regulations and confirms that the vessel (name of reporting vessel) is fishing in the Pacific Ocean, but outside the regulatory area as this date (give date)". regulatory area at this date (give date)".

§ 280.7 Closed season restrictions applicable to fishing vessels.

Except as otherwise provided in this section, after notice has been published in the FEDERAL REGISTER announcing closure of the yellowfin season, it shall be unlawful for any person or fishing vessel to land yellowfin tuna captured from within the regulatory area in any port or place until the season reopens on the following January 1.

NOTE: The amount of yellowfin tuna that may be legally landed by a vessel subject to a specified percent incidental catch rate of yellowfin tuna based upon the round weight of the total catch is determined by the following formula:

$$\text{Quantity of legal yellowfin tuna} = \frac{\text{(Quantity of mingled species) times (Specified incidental catch rate in percent)}}{\text{(100 percent) minus (Specified incidental catch rate in percent)}}$$

For example, if the incidental catch rate of yellowfin tuna is 15 percent, then:

$$\text{Quantity of legal yellowfin tuna} = \frac{\text{(Quantity of mingled species) times (15)}}{85}$$

(a) Any fishing vessel which has departed port to engage in tuna fishing, prior to the date of closure of the yellowfin season, may continue to capture yellowfin tuna within the regulatory area without restriction until the fishing voyage has been completed.

(1) In addition, for 1975, only, any fishing vessel which is in port at the closure and has either (i) completed a voyage in the regulatory area during the 1975 open season or (ii) completed a voyage in the regulatory area during 1974 will be allowed one additional unrestricted fishing voyage provided that departure is made within 30 days thereafter: *Provided, however,* That if the Director of Investigations, as a result of emergency measures adopted at a special meeting of the Commission, notifies the Contracting Government to the Convention that further unrestricted fishing for yellowfin tuna shall cease, or that other measures must be taken to protect the stocks, every fishing vessel at sea, having yellowfin tuna aboard in excess of the incidental catch limitations provided in § 280.7(b), shall return directly without delay to its home port, port of departure, or such other port as may be designated by the Regional Director to unload or to receive an inspection by a designated agent of the National Marine Fisheries Service. This requirement shall take effect upon publication of notice in the FEDERAL REGISTER by the Service Director, or on a date to be specified in such notice. Any vessel failing to comply with the above requirements shall be restricted to the incidental catch limitations of § 280.7(b) for its entire fishing voyage; vessels in port on the effective date of such notice will not be allowed an additional unrestricted fishing voyage, but shall be subject to the incidental catch limitations of § 280.7(b). Other, less restrictive measures may be specified, in the manner provided above, as necessary to implement the notification from the Director of Investigations. A vessel which is in the Atlantic Ocean or the Caribbean Sea at the closure shall, for the purposes of this paragraph (a) (1) of § 280.7 only, be considered to be "in port".

(2) For the purpose of the above, departure refers to the date a vessel leaves port prepared to carry out fishing operations. A stopover at a single intermediate port, not exceeding 48 hours, may, however, be made to meet deficiencies in outfitting, supplying, fueling, provisioning or manning needs for a fishing voyage. Remaining in excess of 48 hours shall constitute a new fishing voyage corresponding to the delayed departure date.

(3) Any vessel which, solely by reason of seizure or other enforcement activity of a foreign government against such vessel, is unable to reach the port of its choice prior to the closure of the yellowfin fishing season shall be allowed, subject to written approval by, and under conditions set by, the Regional Director, to proceed to another port for the purpose of unloading and still qualify for the one additional unrestricted fishing voyage, subject to the restrictions of paragraphs (a)(1) and (2) of this section except for the in-port requirement.

(b) Any fishing vessel which departs port on a fishing voyage after closure of the yellowfin season, except as provided in paragraph (a) of this section, may land yellowfin tuna captured from within the regulatory area in limited quantities as provided in paragraphs (b)(1) to (3) of this section as an incident to fishing for species with which yellowfin may be mingled. The Service Director may, however, through publication of a notice in the FEDERAL REGISTER adjust the incidental catch limitations to assure that the special allotments designated for vessels of 400 short tons carrying capacity or less are not underutilized and the 15 percent overall incidental catch for the entire tuna fleet is not exceeded. Any quantity of yellowfin tuna landed in excess of the limitations provided in (b)(1) to (b)(3) of this section shall be subject to seizure and forfeiture pursuant to the Tuna Conventions Act of 1950, as amended (16 U.S.C. 951–961).

(1) Purse seiners over 400 short tons carrying capacity may land in any port or place yellowfin tuna captured from within the regulatory area as an incident to fishing for species with which yellowfin may be mingled, but in no event shall any such vessel be permitted to land yellowfin tuna in excess of 15 percent by round weight of its total catch.

(2) Purse seiners of 400 short tons carrying capacity or less may land in any U.S. port yellowfin tuna captured from within the regulatory area as an incident to fishing for species with which yellowfin may be mingled, but in no event shall any vessel of 301–400 short tons carrying capacity be permitted to land yellowfin tuna in excess of 40 percent by round weight of its total catch: *Provided however,* That any vessel of 301–400 short tons carrying capacity which is on a fishing voyage longer than 70 days may land 20 percent yellowfin tuna by round weight of its established short ton carrying capacity. Nor shall any purse seiner of 300 short tons carrying capacity or less be permitted to land yellowfin tuna in excess of 60 percent by round weight of its total catch: *Provided however,* That any such vessel that is at sea longer than 50 days may land 25 percent yellowfin tuna by round weight of its established short ton carrying capacity. That local wet fish seiners may accumulate the 60 percent allowance by weight for the separate period from the date of closure of the yellowfin fishing season until the end of that month, and for each separate period consisting of one calendar month thereafter provided such vessels have not landed any yellowfin tuna during the open season and make deliveries only on a daily basis. When the catch of yellowfin tuna by purse seiners of 400 short tons carrying capacity or less reaches 3900 short tons, the amount of yellowfin tuna which any such vessel may lawfully land will revert to 15 percent by round weight of its total catch. After a date to be announced through publication of a notice in the FEDERAL REGISTER by the Service Director, any vessel departing on a fishing voyage shall be subject to this reversion limitation of 15 percent.

(3) Bait and jig boats may land in any U.S. port yellowfin tuna captured from within the regulatory area, but in no event shall any such vessel be permitted to land yellowfin tuna in excess of 50 percent by round weight of its short ton carrying capacity once established in accordance with paragraph (b)(4) of this section. When the catch of yellowfin tuna by bait and jig boats collectively reaches 2800 short tons, the amount of yellowfin tuna which any such vessel may lawfully land will revert to 15 percent by round weight of its total catch. During the period of the closed season that bait and jig boats are fishing for their allotments, all such boats must notify the Regional Director when they depart port on a fishing voyage. After a date to be announced through publication of a notice in the FEDERAL REGISTER by the Service Director, any vessel departing on a fishing voyage shall be subject to this reversion limitation of 15 percent.

(4) The short ton capacity of vessels will be determined from tables prepared by the Commission which relate carrying capacity to registered tonnages and from official unloading records available to the National Marine Fisheries Service.

(i) Managing Owners of purse seine vessels of 400 short tons carrying capacity or less will be notified by registered mail that their vessel is in this category and is subject to the provisions of paragraph (b)(2) of this section.

(ii) Except as provided below for bait and jig boats, managing owners not receiving notification by registered mail can assume that their vessel is over 400 short tons carrying capacity and is subject to the provisions of (b)(1) of this section.

(iii) To qualify for the bait and jig boat yellowfin allocation, managing owners of such vessels shall supply the Regional Director documentation concerning the gross and net tonnage of their vessels together with records of prior unloadings. This information will be used by the Regional Director to establish the short ton carrying capacity of each vessel. Failure to comply shall result in each such vessel being limited to 15 percent yellowfin tuna by round weight of its total catch. This 15 percent limitation shall remain in effect until the aforesaid documentation is furnished by the vessel's managing owner.

(5) The tonnage limitations specified in (b)(2) and (3) of this section may be adjusted upward or downward. Any such adjustment will be based upon the estimated use of the incidental catch allowances, and shall be apportioned as determined by the Service Director. Announcement of such adjustment shall be made by publication of a notice in the FEDERAL REGISTER by the Service Director.

(c) Any fishing vessel operating within the regulatory area which began its fishing voyage during the closed season and is restricted to the catch limitations as provided in paragraph (b) of this section shall be subject to such limitation regardless of its arrival date in port. In addition, any vessel so restricted which discharges some but not all of its catch, shall be subject to the same restrictions upon completion of its next fishing voyage.

(1) Any fishing vessel having incidentally caught yellowfin tuna aboard may, however, begin fishing on January 1 for yellowfin tuna without restriction, provided such vessels are made available for inspection during the period December 27 through December 31. A request for the designation of an inspection port shall be made to the Regional Director on or before December 23. Upon notification by the Regional Director of the availability of an inspection port, each vessel shall proceed to such port for inspection by a designated agent of the National Marine Fisheries Service. Official seals will be affixed to wells containing incidentally caught yellowfin tuna and the same will be noted in the vessel's log. Fish in the wells at the time of inspection shall be subject to the incidental catch limitations as set forth in paragraph (b) of this section, regardless of the date of unloading. In addition, the Regional Director shall be notified not less than 48 hours in advance of the date and place of any unloadings from inspected vessels. Upon arrival at point of sale or delivery, the official seals will be removed by a designated agent of the National Marine Fisheries Service. Inspected vessels shall not be allowed to leave port to resume fishing activities until 0001 hours, January 1.

(2) Any vessel failing to file the reports and to follow the procedures of this paragraph, tampering with or removing an official seal or altering the vessel's log, shall be restricted to the incidental catch limitations set forth in paragraph (b) of this section for its entire fishing voyage.

(d) Any fishing vessel electing to fish exclusively in the Pacific Ocean, but outside the regulatory area, shall report to the Regional Director, within 48 hours before leaving port, giving name of the reporting vessel and the port of departure; within 24 hours before leaving the regulatory area, giving the latitude of departure and the approximate time of departure; and within 24 hours before returning to the regulatory area, giving the latitude of reentry, the approximate time of reentry, and the tonnage by species aboard. For 1975 only, the area described in the second sentence of paragraph (g), § 280.1, is considered to be outside the regulatory area.

(1) In addition, every fishing vessel operating in the Pacific Ocean, but outside the regulatory area, shall transmit daily a message between 1600 Greenwich Mean Time (G.m.t.) and 1800 G.m.t. This message shall be transmitted directly to Coast Guard Radio San Francisco (NMC) on frequency 16,565.0, 12,421.0, or 8,281.2 KHz and shall state: "This message is being transmitted in compliance with the U.S. eastern tropical Pacific yellowfin tuna regulations, and confirms that the vessel (name of reporting vessel) is fishing in the Pacific Ocean but outside the regulatory area as of this date (give date)". Any vessel failing to receive acknowledgement from Coast Guard San Francisco, must transmit the same message on the following day. Should the vessel fail to receive acknowledgement within three consecutive days, the vessel's radio equipment shall be considered inoperative and the vessel shall return directly to port without delay to unload or to receive an inspection by a designated agent of the National Marine Fisheries Service.

(2) Any vessel failing to file the reports and to follow the procedures of this paragraph, shall be restricted to the incidental catch limitations set forth in paragraph (b) of this section for its entire fishing voyage.

(e) Any fishing vessel electing to fish exclusively in the Pacific Ocean, but outside the regulatory area, shall proceed without delay to waters outside the regulatory area and upon reentering the regulatory area shall proceed directly to port without delay.

(1) If a vessel must, however, make an emergency port call, it shall proceed directly to port without delay and shall notify the Regional Director, not less than 48 hours prior to arrival, giving the name of the port to be entered. If the vessel elects to resume fishing outside the regulatory area, it must follow the procedures required in paragraph (d) of this section and shall proceed without delay directly to waters outside the regulatory area.

(2) Any vessel failing to file the reports and to follow the procedures of this paragraph shall be restricted to the incidental catch limitations set forth in paragraph (b) of this section for its entire fishing voyage.

(f) Any fishing vessel which on the same voyage operates within and outside the regulatory area shall be subject to the incidental catch limitations as set forth in paragraph (b) of this section, unless such vessel is made available for inspection as provided in this paragraph.

(1) Any fishing vessel electing to change fishing areas, without having that portion of its catch taken outside the regulatory area restricted to such incidental catch limitations, shall request inspection services from the Regional Director. Vessels within the regulatory area shall report not less than 48 hours prior to electing to leave the area, stating their intention and requesting the designation of an inspection port. Vessels outside the area shall report within 24 hours before returning to the regulatory area, stating their intention, requesting the designation of an inspection port, and giving the latitude of reentry, the approximate time of reentry and the tonnage by species of fish aboard. Upon notification by the Regional Director of the availability of an inspection port, each vessel shall proceed directly without delay to such port for inspection by a designated agent of the National Marine Fisheries Service. Official seals will be affixed to wells containing fish captured within or outside the regulatory area as appropriate, and the same will be noted in the vessel's log. In addition, the Regional Director shall be notified not less than 48 hours in advance of the date and place of unloadings from inspected vessels. Upon arrival at point of sale or delivery, the official seals will be removed by a designated agent of the National Marine Fisheries Service.

(2) Any vessel failing to file the reports and to follow the procedures of this paragraph, tampering with or removing an official seal or altering the vessel's log shall be restricted to the incidental catch limitations set forth in paragraph (b) of this section for its entire fishing voyage.

(g) All fishing vessels, except vessels proceeding directly to Puerto Rico or to any other U.S. port for unloading, shall notify the Regional Director not less than 48 hours prior to leaving the regulatory area via the Panama Canal. In addition, all fishing vessels, except vessels without fish aboard, shall notify the Regional Director not less than 48 hours prior to entering the regulatory area via the Panama Canal. Each report shall include the name of the reporting vessel, the tonnage by species of fish aboard and whether the fish were caught in or outside the regulatory area in Pacific waters or from Atlantic waters. Any vessel failing to file the reports and to follow the procedures of this paragraph, shall be restricted to the incidental catch limitations set forth in paragraph (b) of this section for its entire fishing voyage, regardless of its arrival date in port.

(h) All fishing vessels shall notify the Regional Director not less than 48 hours prior to any sale or delivery in a foreign country, of fish caught in the Pacific Ocean from within or outside the regulatory area. Such reports shall include the tonnage by species unloaded and whether such fish were caught in or out of the regulatory area.

(i) All fishing vessels shall notify the Regional Director not less than 48 hours prior to transferring fish caught in the Pacific Ocean from within or outside the regulatory area to another vessel for the purpose of transshipment. Such reports shall include the date and place of unloading, name and destination of the oncarrying vessel, tonnage by species of fish transferred and whether the transferred fish were caught in or outside the regulatory area.

(j) All fishing vessels that are permanently based in a foreign country, which elect to participate in the allocation provisions for vessels of 400 tons carrying capacity or less, shall (1) unload in a U.S. port after each voyage begun during the closed season, or (2) transship all fish taken on such voyages to a U.S. port in accordance with paragraph (i) of this section. Any vessel failing to follow the procedures of this paragraph shall be limited to an incidental rate of yellowfin tuna not to exceed 15 percent by round weight of its total catch.

(k) All reports required in paragraphs (d) to (i) of this section, except messages transmitted directly to Coast Guard Radio San Francisco, shall be telephoned to area code 714, telephone number, 233-5511. Such reports, which must be delivered within the time limits specified, may be made by prepaid commercial radio message or relayed through the shore representative of the reporting vessel.

(l) Any vessel sighted inside the regulatory area while reporting its position as outside the regulatory area shall return to port for inspection or to a U.S. port for unloading within ten days after receipt by the owner of the vessel or his agent of a certified letter from the Regional Director advising him of such sighting.

§ 280.8 Emergency action by service director.

If during the closed yellowfin season, the Service Director finds that the provisions relating to the fishing outside the regulatory area are inadequate to insure that the recommendations of the Commission are met, he shall announce such findings through publication of a notice in the FEDERAL REGISTER and immediately thereafter:

(a) Every fishing vessel at sea, having yellowfin tuna aboard in excess of the incidental catch limitations as provided in § 280.7(b) which is claimed to have been captured outside the regulatory area, but in the Pacific Ocean, shall return directly without delay to its home port or port of departure to unload or to receive an inspection by a designated agent of the National Marine Fisheries Service. Any vessel failing to comply with the above requirements, shall be restricted to the incidental catch limitations set forth in § 280.7(b) for its entire fishing voyage.

(b) Any fishing vessel which has operated in the regulatory area at any time during the calendar year and which departs on any fishing voyage within the Pacific Ocean after the notice described in this section is published in the FEDERAL REGISTER, shall be restricted to the incidental catch limitations as provided in § 280.7(b).

§ 280.9 Restrictions applicable to cargo vessels.

(a) Any fishing vessel shall be deemed to have completed a fishing voyage whenever any part of its catch is transferred to a cargo vessel in conformity with the requirements of this section.

(b) In keeping with the provisions of 46 U.S.C. 261, no foreign-flag vessel, whether documented as cargo vessel or otherwise, is permitted to land in part of the United States any fish or fish products taken on board such vessel on the high seas.

(c) The transfer of fish from a fishing vessel to a cargo vessel while in a foreign country or in waters over which each country has recognized jurisdiction is subject to the applicable laws and regulations of such foreign country.

(d) During the closed yellowfin tuna season, no fishing vessel shall transfer on the high seas any part of its catch to a cargo vessel documented under the laws of the United States and no such cargo vessel shall receive, possess, or bring to any place in the United States, fish taken on board on the high seas from a fishing vessel unless the cargo vessel shall hold a permit issued in conformity with paragraph (e) of this section.

(e) Upon written application made to him, the Regional Director may issue a permit authorizing a cargo vessel documented under the laws of the United States to receive, possess, transport to the United States, fish transferred from fishing vessels on the high seas during the closed yellowfin tuna season. Such permit may authorize the possession and transportation of yellowfin tuna by a cargo vessel without regard to the quantities of fish received, but it shall contain restrictions as the Regional Director shall determine to be necessary to achieve compliance with the regulations in this part and the objectives of the yellowfin tuna conservation program.

(f) Any cargo vessel seeking permission to land in a port of the United States a cargo of round tuna (that is, tuna that has not been gilled, gutted, or beheaded) any part of which was received ex-vessel through a port facility in the Americas shall provide to the nearest Customs Office as a prerequisite to obtaining such permission from Customs the following information with respect to the part of such cargo received ex-vessel through a port facility in the Americas:

(1) Name, official number, and flag of each fishing vessel (including, for purposes of this paragraph, any foreign flag fishing vessel) from which was received any tuna that is aboard the cargo vessel at the time the aforesaid permission to land is sought;

(2) Date and location of such receipt of tuna; and

(3) Certification from the master of each such fishing vessel setting forth, as to tuna received by the cargo vessel:

(i) Tonnage by species of tuna caught inside the regulatory area;

(ii) Tonnage by species of tuna caught in waters west of the regulatory area to the meridian of 150° west longitude;

(iii) Tonnage by species of tuna caught in other waters; and

(iv) As to each category, the dates of the fishing voyages on which the tuna were caught.

(g) Any cargo of round tuna for which permission to land in a port of the United States is sought by a cargo vessel shall be accompanied by a bill of lading indicating whether the tuna was received ex-vessel through a port facility (and, if so, from what vessels and what ports) or by other named means, such as from freezer or other storage facilities, and such bill of lading shall be provided to Customs at the time permission to land is sought.

(h) Any cargo vessel failing to provide the documentation required by paragraph (f) and (g) of this section shall be denied permission to land in a port of the United States undocumented lots of round tuna: *Provided, however,* That a cargo vessel may land undocumented lots of round tuna if there has first been posted with the Regional Director a bond in form and with surety satisfactory to the Regional Director, and in the minimum penal sum of $500 per ton of undocumented tuna desired to be landed, conditional to furnishing the documentation within 60 days of landing a cargo of undocumented round tuna.

(i) Any person who knowingly lands or permits the landing of round tuna from a cargo vessel in violation of paragraph (f) or (g) of this section, or who knowingly provides false information with respect to the requirements of paragraph (f) or (g) of this section, shall, as well as the cargo of tuna, be subject to the penalties provided in the Tuna Conventions Act of 1950 (16 U.S.C. 951-961).

§ 280.10 Restrictions applicable to purchasers.

(a) Except as provided in paragraphs (b) and (d) of this section, it shall be unlawful for any person knowingly to receive, purchase, sell, offer for sale, import, export, or have in custody, possession, or control any yellowfin tuna taken or retained by a fishing vessel in violation of the regulations in this part.

(b) In view of the perishable nature of yellowfin tuna when not processed otherwise than by chilling or freezing, any person authorized to enforce the regulations in this part may cause to be sold, and any person may purchase, for not less than its reasonable market value such quantities of perishable yellowfin tuna as may be seized and forfeited pursuant to the Tuna Conventions Act of 1950, as amended (16 U.S.C. 951-956).

(c) The proceeds of any sale made pursuant to paragraph (b) of this section after deducting the reasonable costs of the sale, if any, shall be remitted by the purchaser to the Regional Director for deposit and retention in the Suspense Account of the National Marine Fisheries Service (Account No. 14X6875 (17)) pending judgment of the court or other disposition of the case.

(d) If a duly constituted official acting under authority and in behalf of a State of the United States, of the Commonwealth of Puerto Rico, or of American Samoa seized any yellowfin tuna under the applicable laws or regulations of such government, such yellowfin tuna may be forfeited and sold or otherwise disposed of pursuant to such laws or regulations. Any yellowfin tuna so seized by an official of State, the Commonwealth of Puerto Rico or American Samoa shall not be seized by an officer or employee of the Federal Government unless it is voluntarily turned over to him to be processed against under applicable Federal laws or regulations.

§ 280.11 Recordkeeping and written reports.

(a) The master or other person in charge of a tuna vessel or such person as may be authorized in writing to serve as the agent of either of such persons shall throughout the open and closed yellowfin tuna fishing seasons:

(1) Keep an accurate log of all operations conducted from the vessel entering therein for each day the date, noon position (stated in latitude and longitude or in relation to known physical features), and the tonnage of fish aboard by species. The record and bridge log maintained at the request of the Commission shall be sufficient to comply with this paragraph provided the items of information specified herein are fully and accurately entered in such log.

(2) Furnish on form obtainable from the Regional Director, following the sale or delivery of a catch of fish made by such vessel, a report, certified to be correct as to facts within the knowledge of the reporting individual giving the name and official number of the fishing vessel, the dates of beginning and ending of the fishing voyage, the port of departure, and a listing separately by species of the round weight quantities (pounds or short tons) of fish sold or delivered. At the option of the vessel master or other person in charge, a copy of the fish ticket, weighout slip, settlement sheet, or similar record issued by the fish dealer or his agent may, however, be used for reporting purposes in lieu of the form obtainable from the Regional Director, if such alternate record is similarly certified and contains all items of information required by this paragraph. In addition, any vessel landing its catch in California and reporting by means of a copy of the California fish ticket, the California Fish and Game boat number may be indicated in lieu of the vessel's official number. Such sale and delivery reports shall be delivered or mailed to the Regional Director within 72 hours after weighout has been completed.

(b) Any person authorized to carry out enforcement activities under the regulations in this part and any person authorized by the Commission shall have power, without warrant or other process to inspect, at any reasonable time, log books, catch reports, statistical records, or other reports as required by the regulations in this part to be made, kept or furnished.

§ 280.12 Persons and vessels exempted.

Nothing contained in § 280.2 to § 280.11 shall apply to:

(a) Any person or vessel authorized by the Commission, the Service Director, or any State of the United States to engage in fishing for research purposes.

(b) Any person or vessel engaged in sport fishing for personal use.

§ 280.13 National Oceanic and Atmospheric Administration Employees designated as enforcement agents.

Any employee of the National Oceanic and Atmospheric Administration duly appointed and authorized to enforce Federal laws and regulations administered by the National Oceanic and Atmospheric Administration is authorized and empowered to carry out enforcement activities under the Tuna Conventions Act of 1950, as amended (16 U.S.C. 951-961).

§ 280.14 State Officers designated as enforcement agents.

Any officer or employee of a State of the United States, of the Commonwealth of Puerto Rico or of American Samoa who has been duly designated by the Service Director or his delegate with the consent of the Government concerned is authorized to function as a Federal law enforcement agent and to carry out enforcement activities under the Tuna Convention Act of 1950, as amended (16 U.S.C. 951-961).

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

[21 CFR Part 1308]

SCHEDULES OF CONTROLLED SUBSTANCES

Correction of Notice of Proposed Placement of Chlordiazepoxide, Diazepam, Oxazepam, Chlorazepate, Flurazepam and Clonazepam in Schedule IV

A notice was published in the FEDERAL REGISTER on Monday, January 27, 1975 (40 FR 4016) proposing that Schedule IV of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (Pub. L. 91-513) be amended to include chlordiazepoxide (Librium®), diazepam (Valium®), oxazepam (Serax®), clorazepate (Tranxene®), flurazepam (Dalmane®), and clonazepam (Clonopin).

The notice listed four findings as the basis for the above proposed rulemaking, and finding No. 4 appeared as follows:

4. Abuse of chlordiazepoxide, diazepam, oxazepam, clorazepate, and clonazepam may lead to limited physical dependence or psychological dependence relative to the drugs or other substances in Schedule III.

Inadvertently omitted from that finding was flurazepam, and the January 27, 1975 notice is hereby amended, with respect to finding No. 4, to read as follows:

4. Abuse of chlordiazepoxide, diazepam, oxazepam, clorazepate, flurazepam, and clonazepam may lead to limited physical dependence or psychological dependence relative to the drugs or other substances in Schedule III.

In addition, the January 27, 1975 notice, as published, erroneously characterized Clonopin as being a registered trademark. Clonopin, the trade name for clonazepam, is not a trademark registered with the United States Patent Office, and the January 27, 1975 notice is further amended to be consistent with this fact.

These amendments are effective February 25, 1975. In all other respects, the notice of proposed rulemaking of January 27, 1975 remains unchanged.

Dated: February 19, 1975.

JOHN R. BARTELS, JR.,
Administrator,
Drug Enforcement Administration.

STANDARD FOR EXPOSURE TO INORGANIC ARSENIC

Notice of Proposed Rulemaking

Correction

In FR Doc. 75-1727 appearing at page 3392 in the issue for Tuesday, January 21, 1975 and corrected at page 6515 in the issue for Wednesday, February 12, 1975, make the following changes:

1. On page 3402 § 1910.93r(o)(1)(v) the fifth paragraph in the second column should read as follows:

(v) Emergency procedures as required by paragraph (i) of this section; and

2. On page 3403, § 1910.93r(t) (the first full paragraph in the second column) should read as follows:

(t) *Effective date.* This standard shall become effective 30 days following publication of the final standard in the FEDERAL REGISTER.

[Airspace Docket No. 75-SO-8]

FEDERAL AIRWAYS

Proposed Alteration

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation Regulations that would realign several airways southeast of Atlanta, Ga.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Ga. 30320. All communications received on or before March 27, 1975 will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, 800 Independence Avenue, SW., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The Dublin, Ga., VORTAC is being relocated approximately 15 miles east-northeast of its present location to Lat. 32°33'38" N., Long. 82°50'00" W. Proposed airway realignments via the relocated Dublin VORTAC are as follows:

1. V-5 and V-51 from Alma, Ga., via Dublin, Ga.; to Athens, Ga.

2. V-154 from Macon, Ga., via Dublin, Ga.; intersection of Dublin 121°T (122°M) and Savannah, Ga., 279°T (280°M) radials; to Savannah. The proposed dogleg is to provide segregation between en route airway flights and an off-airway military training area.

3. V-70N is presently aligned in part from Eufaula, Ala., via Macon, Ga., and Dublin, Ga., to Oconee, Ga., Intersection. This airway would no longer be required east of Macon, since V-154 as proposed herein could be used. V-70N between Eufaula and Macon would be renumbered as V-323 to preserve route identifier continuity between Eufaula and Atlanta.

4. V-179 from Dublin, Ga., to intersection of Dublin 312°T (313°M) and Atlanta, Ga., 116°T (116°M) radials.

5. V-267 from Jacksonville, Fla., via intersection of Jacksonville 334°T (334°M) and Dublin, Ga., 151°T (152°M) radials; Dublin; to Athens, Ga.

Relocation of Dublin as proposed herein is part of the Atlanta terminal master navigation plan which would establish as normal inbound clearance limits four VORTACs spaced around Atlanta. Traffic from the northeast would be cleared to Lanier, Ga., from the southeast to the relocated Dublin, from the southwest to LaGrange, Ga., and from the northwest to Rome, Ga. Original plans called for traffic from the southeast to be cleared to Sinclair, Ga.; however, the relocated Dublin could be used for landing and over traffic thereby eliminating the requirement for a new VORTAC at Sinclair.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Washington, D.C., on February 19, 1975.

F. L. CUNNINGHAM,
Acting Chief, Aerospace and Air Traffic Rules Division.

Federal Highway Administration

[23 CFR Part 740]

[Docket No. 75-4]

RELOCATION ASSISTANCE

Proposed Definition of Displaced Person

By this notice the Federal Highway Administration (FHWA) is proposing to amend its regulations in 23 CFR Part 740. The current regulations provide that in order to be eligible to receive the relocation benefits of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, a person must be occupying real property at the time of initiation of the negotiations to acquire the real property for a Federal or federally assisted project, or must have received a written notice of an intent to acquire. In either case the real property must subseqently be acquired.

These regulations were intended to allow a person to establish his initial eligibility for relocation benefits and move out relatively early in the acquisition process. This makes relocation easier and avoids hardships that can result from forcing a person to remain in occupancy until the date of acquisition in order to be eligible for the benefits.

Therefore, persons can move and establish initial eligibility for benefits after initiation of negotiations but before acquisition.

In some cases after such persons have moved, new persons have occupied the real property, prior to acquisition. Current regulations do not allow relocation benefits to be provided to persons who move onto real property after the initiation of negotiations for acquisition of that real property.

The recent decision in Audrey Tullock v. State Highway Commission of Missouri, F. 2d (8th Cir., Dec. 23, 1974) held that persons occupying real property after initiation of negotiations for the property and who move as the result of acquisition for a Federal or federally assisted project are entitled to certain benefits of the Uniform Act.

This proposed amendment would remove the restrictions contained in current regulations and incorporate the holding of Tullock case in FHWA regulations, primarily through amending the definition of "displaced person" in 23 CFR 740.3(c).

This proposed amendment would continue to allow persons to move and establish initial eligibility after initiation of negotiations, and would provide, in addition, that subsequent occupants of the real property, in occupancy at the time of acquisition, would also qualify as displaced persons. Persons who occupy the real property after the initiation of negotiations would be entitled to the benefits of sections 202 and 205 of the Uniform Act, including the availability of replacement housing. Such persons could not qualify for the replacement housing payment provided by sections 203 and 204 of the Uniform Act since both those sections require a period of occupancy prior to initiation of negotiations.

It also would be possible to avoid the problem presented in the Tullock case by defining "displaced person" narrowly and limiting relocation benefits to those persons in occupancy at the time of acquisition. This would prevent persons from moving and establishing initial eligibility early in the acquisition process.

All interested persons are invited to submit their comments on this proposed amendment to Part 740. Two written copies of the comments should be sent to the Federal Highway Administration, Department of Transportation, Room 4226, Docket No. 75-4, 400-7th Street, SW., Washington, D.C. 20590. All comments received by close of business on March 14, 1975, will be considered in formulating the final amendment.

In consideration of the foregoing it is proposed to amend Part 740 of title 23 of the Code of Federal Regulations by revising §§ 740.3(c), 740.32(b), and 740.52 (a)(1) to read as follows:

§ 740.3 Definitions.

• • • • • •

(c) Displaced person means any person

(1) Who:

(i) Is in occupancy of real property at the initiation of negotiations for the acquisition of the real property in whole or in part which property is subsequently acquired, or

(ii) Is in occupancy of real property at the time he is given a written notice by the State that it is their intent to acquire the real property by a given date, and the property is subsequently acquired, and

(iii) Moves from the real property or moves his personal property from the real property subsequent to the earliest date established in paragraph (c)(1)(i) or (ii) of this section.

(2) Who is in occupancy of real property at the time of acquisition of the real property and who subsequently moves from the real property.

(3) Moves after a written order of the acquiring agency to vacate even though the property is not acquired.

• • • • • •

§ 740.32 Relocation assistance advisory services.

• • • • • •

(b) Relocation assistance advisory service shall be offered to:

(1) All displaced persons described in § 740.3(c).

(2) All persons occupying property immediately adjacent to the real property acquired, when the State determines that such person or persons are caused substantial economic injury because of the acquisition.

(3) All persons who, because of the acquisition of real property used for a business or farm operation move from other real property used for a dwelling, or move their personal property from such other real property.

• • • • • •

§ 740.52 Moving and related expenses payments—general provisions for all relocated individuals, families, businesses, and farms.

(a) *General.* (1) Any displaced person described in § 740.3(c) is eligible to receive payment for the reasonable expenses of moving his personal property.

• • • • • •

Issued on February 18, 1975.

NORBERT T. TIEMANN,
Federal Highway Administrator.

FEDERAL ENERGY ADMINISTRATION

[10 CFR Part 212]

GASOLINE

Proposed Review of Markup on Retail Sales To Reflect Increased Non-Product Costs

The Federal Energy Administration hereby gives notice of a proposal to review the amount which may be added to the retail selling price of gasoline to reflect increased non-product costs under the Mandatory Petroleum Price Regulations, in order to determine whether or to what extent some modification of that amount may now be appropriate. This Notice is issued, in part, in response to a petition for rulemaking which has been received by FEA, and written comments by interested persons are solicited in this matter.

Under 10 CFR 212.93(a), retailers of gasoline are permitted to charge a price which is their weighted average lawful price for gasoline on May 15, 1973, plus an amount which reflects a dollar-for-dollar pass through of the increased cost of gasoline since May 15, 1973. In addition, under 10 CFR 212.93(b)(1)(i), adopted effective January 15, 1974, all retailers of special products, including gasoline, are permitted to add one cent per gallon to the price otherwise permitted to be charged in retail sales of gasoline, to reflect increases in non-product costs. This provision respecting prices to reflect increased non-product costs was modified, effective March 1, 1974, in 10 CFR 212.93(b)(1)(ii) to permit an additional increase in the retail price of gasoline of two cents per gallon, to reflect further non-product cost increases to retailers of gasoline resulting from reduced supplies of gasoline. This amendment recognized that supply restrictions resulted in an increase in non-product costs per gallon, since retailers'

XUM
V40138
FEB 25 75
XUM

costs of doing business, other than their cost of product, had to be met through increased per unit margins on smaller sales volumes.

Parallel provisions of the price regulations applicable to retailers of gasoline by refiners through company owned and operated stations also permit price increases of up to three cents per gallon at the retail level to reflect increased non-product costs (10 CFR 212.87(c)(4)). A refiner which increases prices under this provision to reflect increased non-product costs is, however, subject to a profit margin limitation (10 CFR 212.82(d)).

Although gasoline sales volumes have generally increased since last March, the non-product costs of gasoline retailers have also increased. In view of the fact, however, that ample supplies of gasoline are now generally available, the FEA believes that it is appropriate at this time to review the question of the size of the increment which should be allowed in the retail price of gasoline to reflect increases in the retail seller's non-product costs (e.g., wages, utilities, taxes, insurance, etc.) which are being incurred. The FEA therefore solicits written comment, and particularly financial and economic data, which would support either maintenance of the three cent increment presently allowed or an upward or downward adjustment in the amount permitted to be added to the retail price of gasoline to reflect non-product cost increases.

Interested persons are invited to participate in this rulemaking by submitting data, views or arguments with respect to this matter to Executive Communications, Federal Energy Administration, Box CE, Washington, D.C. 20461

Comments should be identified on the outside envelope and on documents submitted to FEA Executive Communications with the designation "Mandatory Petroleum Price Regulations: Retail Gasoline Markup." Fifteen copies should be submitted. All comments received by March 21, 1975, and all relevant information, will be considered by the Federal Energy Administration before final action is taken on any amendment relating to this matter.

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in writing, one copy only. The FEA reserves the right to determine the confidential status of the information or data and to treat it according to its determination.

The FEA does not propose to conduct a hearing for oral presentation of views at this time. After receipt of written comments, they will be evaluated and a tentative decision will be made on the basis of those comments as to whether and to what extent a regulation amendment appears appropriate. Should a decision be made that a modification of the present regulation authorizing a three cent increase to cover non-product cost increases appears to be appropriate, a public hearing on the proposed change will be held prior to issuance of a regulation amendment.

As required by section 7(c)(2) of the Federal Energy Administration Act of 1974, Pub. L. 93-275, a copy of this notice has been submitted to the Administrator of the Environmental Protection Agency for his comments concerning the impact of this proposal on the quality of the environment. The Administrator has no comments on this proposal.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93-159; Federal Energy Administration Act of 1974, Pub. L. 93-275, E.O. 11790, 39 FR 23185)

In consideration of the foregoing, it is proposed to amend Part 212, Chapter II of Title 10, Code of Federal Regulations, as set forth below.

Issued in Washington, D.C., February 20, 1975.

ROBERT E. MONTGOMERY, JR.,
General Counsel,
Federal Energy Administration.

1. Section 212.87 is amended to revise paragraph (c)(4)(ii) to read as follows:

§ 212.87 Increased non-product costs.

• • • • • •

(c) • • •
(4) • • •

(ii) Allow an increase in the price of gasoline above the prices otherwise permitted to be charged for gasoline pursuant to the provisions of this part (including the foregoing paragraph (b)(4)(i) of this section) by an amount not in excess of __ cents per gallon with respect to retail sales; and

• • • • • •

2. Section 212.93 is amended to revise paragraph (b)(1)(ii) to read as follows:

§ 212.93 Price rule.

• • • • • •

(b) • • •
(1) • • •

(ii) Beginning with _____, 1975, in retail sales of gasoline, a seller may charge __ cents per gallon of gasoline in excess of the amount otherwise permitted to be charged for that item pursuant to the provisions of this section, including paragraph (b)(1)(i) of this section, to reflect non-product costs increases per gallon of gasoline.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 230]

[Release Nos. 33-5566, IC-8662, File No. S7-550]

INVESTMENT COMPANY ADVERTISING

Notice of Proposed Rulemaking

On November 4, 1974, the Securities and Exchange Commission announced the adoption of amendments to Rule 134 [17 CFR 230.134, 15 U.S.C. 77(a) et seq.] under the Securities Act of 1933 (the "Act") relating to investment company advertising (Securities Act Release No. 5536, Investment Company Act Release No. 8568, published in the FEDERAL REGISTER for November 12, 1974, 39 FR 39868). Since that time it has come to the Commission's attention that the application of the amended Rule may discriminate against certain investment companies making a continuous offering of redeemable securities but taking the form of unit investment trusts. This result was not intended. Therefore, the Commission proposes to amend the Rule to make it applicable to such unit trusts' securities. The present Rule also may discourage the use of small advertisements in certain cases by requiring a special legend in 12 point type calling attention to the prospectus. The Commission proposes to shorten the required legend and to permit more flexibility with respect to its type size and style. In addition, the Commission reported a "no-action" position of the Division of Investment Management Regulation which would permit the use of the legend in the modified form proposed while the amendment is pending. The Commission also proposes to amend the Rule to permit greater use of descriptive material and pictorial illustrations which are appropriate for inclusion in the company's prospectus.

(1) *The Open-End Requirement.* The 1974 amendments allow certain material to be included in Rule 134 Communications for the first time.[1] However, only "open-end investment companies"[2] which are defined in Section 5 of the Investment Company Act as "management investment companies" may take advantage of these provisions of the Rule. Read literally, one effect of this requirement is to discriminate between variable annuities which take the form of open-end companies and those which take the form of unit investment trusts. Those which are open-end companies may include the new materials in their ads, while those which are unit investment trusts may not. The Commission did not intend the Rule to have this effect. Therefore, it proposes to amend paragraph (a)(3)(iii) of the Rule by substituting "investment companies which issue redeemable securities" for "open-end investment companies."

(2) *The Legend Requirement.* The 1974 amendments require that a legend

[1] This new material includes, (A) a description of such company's investment objectives and policies, services, and method of operation; (B) identification of the company's principal officers; (C) the year of incorporation or organization or period of existence of the company, its investment adviser, or both; (D) the company's aggregate net asset value as of the most recent practicable date; (E) the aggregate net asset value as of the most recent practicable date of all registered investment companies under the management of the company's investment adviser; and (F) any pictorial illustration contained in the company's prospectus and not involving performance figures.

[2] The Rule states that "an open-end investment company whose registration statement under this [Securities] Act is effective and whose securities are the subject of a continuous offering pursuant to such registration statement" may include the materials listed in items (A)-(F) of paragraph (3)(a) in its advertisements.

focusing attention on the prospectus be included in investment company advertisements in 12 point boldface type containing any of the material permitted by new clauses (A)-(F) of paragraph (a)(3)(iii) of the Rule.

To permit greater utilization of Rule 134 Communications, the Commission proposes to amend the Rule (1) to substitute a relative size requirement for the "12 point boldface" provision; and (2) to shorten the wording of the legend. The Commission has also published a staff "no-action" position which would permit the use of the modified legend while this Rule proposal is pending for comment. The letter also contains the staff's view that the legend, as proposed to be modified, is required in all Rule 134 Communications containing materials described in the enumerated items notwithstanding earlier staff interpretations and no-action positions permitting the inclusion of certain materials in such communications prior to the adoption of the 1974 amendments.

(3) *Descriptive Material.* In addition, subparagraph (G) which the Commission now proposes to add to the Rule would permit a discussion or explanation of inflation or other economic conditions; the characteristics of various retirement programs which may be funded through mutual fund shares; or of specific goals to which such an investment could be directed. However, such material may not directly or indirectly relate to past performance or imply achievement of investment objectives and, of course, would be subject generally to the antifraud provisions of the federal securities laws. This amendment should also enable advertisers to include such material in illustrations and attention-getting headlines. The staff has not taken a "no-action" position with respect to the inclusion of such descriptive material in Rule 134 Communications. Therefore, its inclusion in Rule 134 Communications should await the disposition of this Rule proposal.

(4) *Pictorial Illustrations.* The 1974 amendments permit Rule 134 Communications to include "any pictorial illustration contained in the company's prospectus and not involving performance figures." The staff has taken the position that pictorial illustrations that could be contained in an effective prospectus may be included in advertisements which otherwise qualify under Rule 134 (a)(3)(iii). The Commission now proposes to amend item (F) of the Rule to conform to this view. As revised, it would permit any pictorial illustration which is appropriate for inclusion in the company's prospectus and does not involve performance figures to be included in a Rule 134 Communication.

Rule 134 would be amended pursuant to sections 2(10)(b) and 19(a) of the Act [15 U.S.C. 77b(10)(b), 77s(a)].[3]

Commission action. I. The Securities and Exchange Commission, pursuant to authority in sections 2(10)(b) and 19(a) of the Securities Act of 1933, proposes to amend paragraph (a)(3)(iii) of § 230.134 of Chapter II of Title 17 of the Code of Federal Regulations as follows:

§ 230.134 Communications not deemed a prospectus.

(a) • • •
(3) • • •

(iii) In the case of an investment company registered under the Investment Company Act of 1940, the company's classification and subclassification under that Act, whether it is a balanced, specialized, bond, preferred stock or common stock fund and whether in the selection of investments emphasis is placed upon income or growth characteristics, and a general description of an investment company including its general attributes, methods of operation and services offered: *Provided,* That such description is not inconsistent with the operation of the particular investment company for which more specific information is being given, identification of the company's investment adviser, any logo, corporate symbol or trademark of the company or its investment adviser, and any graphic design or device or an attention-getting headline, not involving performance figures, designed to direct the reader's attention to textual material included in the communication pursuant to other provisions of this section; and, with respect to an investment company issuing redeemable securities whose registration statement under this Act is effective and whose securities are the subject of a continuous offering pursuant to such registration statement, (A) a description of such company's investment objectives and policies, services, and method of operation; (B) identification of the company's principal officers; (C) the year of incorporation or organization or period of existence of the company, its investment adviser, or both; (D) the company's aggregate net asset value as of the most recent practicable date; (E) the aggregate net asset value as of the most recent practicable date of all registered investment companies under the management of the company's investment adviser; (F) any pictorial illustration which is appropriate for inclusion in the company's prospectus and not involving performance figures; and (G) descriptive material relating to economic conditions, or to retirement plans or other goals to which an investment in the company could be directed, but not directly or indirectly relating to past performance or implying achievement of investment objectives; Provided, That if any material permitted by clauses (A) through (G) is included, such communication shall also contain either (1) the following legend set in a size type at least as large as, and of a style different from, but at least as prominent as, that used in the major portion of the advertisement:

A prospectus containing more complete information about (Name of Company) including all charges and expenses may be obtained from your securities dealer or from (Name and Address of Distributor). Read it carefully before you invest. Send no money.

or (2) a coupon which the reader may mail to receive a prospectus, with the following legend set in a size type at least as large as, and of a style different from, but at least as prominent as, that used in the major portion of the advertisement:

A prospectus containing more complete information about (Name of Company), including all charges and expenses will be sent upon receipt of this coupon. Read it carefully before you invest. Send no money.

For purposes of clause (B) of this section (a)(3)(iii), "principal officers" means the president, secretary, treasurer, any vice-president in charge of a principal business function and any other person who performs similar policy making functions for the company on a regular basis.

In the case of two or more registered investment companies having the same investment adviser or principal underwriter, the same information described in this paragraph (a)(3)(iii) may be included as to each such company in a joint communication on the same basis as it is permitted in communications dealing with individual companies under this paragraph (a)(3)(iii).

Interested persons are requested to submit their views and comments on the above proposal in triplicate to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, Washingtgon, D.C. 20549, no later than March 27, 1975. All material should be designated "Proposal to Amend Rule 134" File No. S7-550.

By the Commission.

SHIRLEY E. HOLLIS,
Assistant Secretary.

FEBRUARY 6, 1975.

[FR Doc.75-5086 Filed 2-24-75;8:45 am]

[3] Section 2(10) defines "prospectus" as "any prospectus, notice, circular, advertisement, letter, or communication, written or by radio or television, which offers any security for sale or confirms the sale of any security; except that • • •

(b) a notice, circular, advertisement, letter, or communication in respect of a security shall not be deemed to be a prospectus if it states from whom a written prospectus meeting the requirements of section 10 may be obtained and, in addition, does no more than identify the security, state the price thereof, state by whom orders will be executed, and contain such other information as the Commission by rules or regulations deemed necessary or appropriate in the public interest and for the protection of investors, and subject to such terms and conditions as may be prescribed therein, may permit.

Section 19(a) gives the Commission authority, among other things, to make such rules and regulations as may be necessary to carry out the provisions of the Act.

[CM-5/201]

SECRETARY OF STATE'S ADVISORY COMMITTEE ON PRIVATE INTERNATIONAL LAW

Meeting

A meeting of the Secretary of State's Advisory Committee on Private International Law will be held at 10 a.m. on Friday, March 14, 1975, in room 5519 of the Department of State. The Committee meeting will be open to the public.

The agenda of the meeting will include consideration of topics to be discussed at the eighth session of the United Nations Commission on International Trade Law, and reports on the Inter-American Specialized Conference on Private International Law. The Committee will also discuss recognition and enforcement of foreign judgments and, if time permits, hear a report on the first meeting of the Hague Conference's Special Commission on Marital Property.

Members of the general public who desire to attend the meeting will be admitted up to the limits of the capacity of the meeting room. Entrance to the Department of State building is controlled and entry will be facilitated if arrangements are made in advance of the meeting. It is requested that prior to March 14, 1975, members of the general public who plan to attend the meeting inform their name and affiliation and address to Mr. Robert E. Dalton, Office of the Legal Adviser, Department of State; the telephone number is area code 202, 632-2107. All non-government attendees at the meeting should use the C street entrance to the building.

Date: February 18, 1975.

DEPARTMENT OF THE TREASURY

Monetary Offices

[General Exemption No. 2]

FOREIGN PORTFOLIO INVESTMENT STUDY

Selective Reporting by Certain Issuers

Paragraph II.A.1.a of the General Instructions[1] requires the filing of Form FPI-1 by any United States issuer having total consolidated assets of more than $20 million if it is a nonbanking organization and more than $50 million if it is a banking organization. The term "United States issuer" is broadly defined by Paragraph III.a., 2, 3, and 4. as well as the foregoing paragraph of the Instructions, and includes, among others, local governments and their agencies and instrumentalities, nonprofit organizations, cooperatives, associations of various types, partnerships, and joint ventures issuing any evidence of ownership, participation, or indebtedness as described in the Instructions. Certain issuers required to report on Form FPI-1 under the foregoing criteria may not have made any public distribution of securities, may have little foreign investment, and may incur considerable unnecessary trouble and expense if Form FPI-1 is routinely required of them.

Accordingly, certain issuers are hereby exempted from the reporting category "Routine large issuer reporters" described in Paragraph II.A.1.a. and permitted to file in accordance with the criteria specified in Paragraph II.A.1.b. as follows:

1. Local governments and their agencies and instrumentalities, nonprofit institutions, educational and religious institutions, mutual savings and loan associations, and cooperatives, are required to file Form FPI-1 only if they meet the criteria of Paragraph II.A.1.b.

2. Noncorporate organizations, including joint ventures, partnerships, associations, and groups of persons, which have no outstanding publicly distributed or traded securities of any kind, are required to report only if they meet the criteria of Paragraph II.A.1.b.

Example 1. Three United States individuals form a joint venture to construct and lease a large shopping mall. The joint venture has taken out several large bank loans, all from United States lenders. Consolidated assets of the joint venture total $30 million so that, but for this exemption, it would constitute a "Routine large issuer reporter" under Par. II.A.1.a.(1). In accordance with this exemption, the joint venture need not file Form FPI-1 because it does not meet the selective reporting criteria of Par. II.A.1.b.

Example 2. Three United States oil companies form a joint venture to exploit an offshore field. The joint venture has taken out a bank loan from a United States lender. Total consolidated assets of the joint venture are $100 million. The joint venture is not required to file a report on Form FPI-1 because it does not meet the criteria of Par. II.A.1.b.

Example 3. Same facts as Example 2 except that the joint venture has publicly advertised and sold fractional undivided interests in oil and gas. The exemption does not apply and the joint venture is required to file Form FPI-1 in accordance with Par. II.A.1.a.

The Project expressly reserves the right to hereafter require the filing of Form FPI-1, either in whole or in part, by any issuer exempted herein if it learns of foreign ownership of such issuer through Form FPI-2 filed by holders of record or otherwise requires such information for purposes of the Survey.

Dated: February 19, 1975.

FREDERICK CUTLER,
Project Manager.

[FR Doc.75-4986 Filed 2-24-75;8:45 am]

[General Exemption No. 2]

FOREIGN PORTFOLIO INVESTMENT STUDY

Individuals as "United States Issuers"

The definition of "United States person" in Par. III. 3. of the General Instructions includes individuals. Accordingly, it would be possible for an individual—for example, one who has outstanding personal indebtedness—to be a "United States issuer" (Par. III. 4.) subject to the reporting requirements of Par. II.A.1. However, it was not the intent of the Treasury to include individuals among issuers subject to the reporting requirements. Accordingly, individuals are hereby exempted from the reporting obligations applicable to issuers under Par. II.A.1.

Dated: February 19, 1975.

[SEAL] FREDERICK CUTLER,
Project Manager.

[FR Doc.75-4986 Filed 2-24-75;8:45 am]

[General Interpretation No. 1]

FOREIGN PORTFOLIO INVESTMENT STUDY

General Partnership Interests

The term "United States issuer" as defined and described in Paragraph III. 2., 3., and 4. and II. A. 1. of the General Instructions includes "partnerships." The Project has received inquiries as to whether general partnership interests must be reported on Form FPI-1. The General Instructions specifically mention only the reporting of limited partnership interests (General Instructions, Paragraph B.1.d.). In view of the Project, a general partnership interest does not constitute portfolio investment for purposes of the Regulations and General Instructions even if such a general partnership interest constitutes less than a 10 percent ownership interest in the firm. Partnerships nonetheless constitute issuers of such general partnership interests as well as any limited partnership interests or debt obligations of the partnership.

The effect of this interpretation is that a partnership which is a selective reporter under the provisions of Paragraph II. A.1.b. of the General Instructions[1] and which has no foreign ownership except of a general partnership interest is not required to file a report on Form FPI-1.

Example 1. A professional partnership has 52 general partners, four of which are foreign persons; no limited partners; and several bank loans outstanding, none of which is from a foreign lender. The partnership need not file Form FPI-1 because it has no foreign portfolio investment under Par. II.A.1.b.

However, if a partnership has evidence of foreign portfolio investment in it, for example, in the form of limited partnership interests or ownership of its debt obligations, it is required to file Form FPI-1 in accordance with Par. II.A.1.b. Its report on Form FPI-1 must then include a description of its general partnership interests, as well as the limited partnership interests and debt obligations, as part of the description of its equity and debt structure in the appropriate items in the body of Form FPI-1.

Example 2. A partnership has 12 general partners, one of which is a foreign person. The partnership also has three limited partners, all of which are foreign persons, as well as several bank loans, all extended by United States lenders. The partnership is required to file Form FPI-1 in accordance with Par. II.A.1.b. on account of the foreign portfolio investment in the limited partnership interests. Such foreign portfolio investment must be reported on Schedule A of Form FPI-1. However, the foreign-held general partnership interest should not be reported on Schedule A, but both the general partnership interests and the debt obligations should be included in the overall description of the reporter's capital structure in the body of Form FPI-1.

No opinion is expressed as to whether general partnership interests constitute direct investment for purposes of the parallel study being conducted by the Department of Commerce.

Dated: February 19, 1975.

[SEAL] FREDERICK CUTLER,
Project Manager.

[FR Doc.75-4987 Filed 2-24-75;8:45 am]

[General Interpretation No. 2]

FOREIGN PORTFOLIO INVESTMENT STUDY

Reporting of Trusts on Form FPI-2

The General Instructions contain several provisions governing the reporting of trusts on Form FPI-2 by holders of record. Paragraph II.A.2.[1] provides that holders of record who must report as trustees holding investments for foreign persons include trustees acting for a revocable trust where the trustor is a foreign person. In addition, Paragraph II.B. 2.c. provides for the following exclusion from Form FPI-2:

Certain United States trusts. Assets of a revocable or irrevocable personal inter vivos or testamentary trust, where the trustor is a United States person, even if a beneficiary is a foreign person; or of an irrevocable personal inter vivos or testamentary trust, even if the trustor is a foreign person, should not be reported.

It was and remains the intent of the Treasury that the net effect of these two provisions be that only revocable trusts established by a foreign trustor be reported by holders of record on Form FPI-2.

However, Paragraph II.A.2.b.(3) and section 129.12(b)(3) of the Regulations create the erroneous impression that such trusts need not be reported if the beneficiary is a foreign person who does not have full control of the management of the assets of the trust. It has been determined that these provisions are gratuitous and misleading and should be ignored by reporters in filing Form FPI-2. The nationality or right of control of a beneficiary have no bearing on the reportability of a trust. The sole reporting criterion is that a trust be established in the United States by a foreign person who retains a right of revocation, regardless of the identity of any beneficiary.

Dated: February 19, 1975.

DEPARTMENT OF DEFENSE

DEFENSE CIVIL PREPAREDNESS AGENCY

REGIONAL DIRECTORS AND DIRECTOR OF STAFF COLLEGE

Delegation of Authority

REFERENCES: (a) Delegation of Authority published at 29 FR 11852-11853, August 19, 1964; (b) Delegation of Authority published at 36 FR 12318, June 30, 1971, (c) Delegation of Authority published at 38 FR 17853, July 5, 1973.

1. The following amendments to reference (a) as amended by references (b) and (c) are hereby approved:

a. Paragraph (h), Section 4, Regional Directors is hereby revised to read as follows:

(h) Procurement of supplies and services other than personal for civil defense purposes not in excess of $10,000 per order from governmental or nongovernmental sources. Established Government sources shall be utilized to the maximum extent possible in the procurement of supplies and services.

b. Section 5. The Director of the Staff College is hereby revised to read as follows:

Section 5. The Director of the Staff college or, in his absence, the person acting for him, is authorized to:

(a) Procure supplies or services not in excess of $10,000 per order.

(b) Issue orders to GSA, not to exceed $10,000 per job order, for minor facility services, maintenance and modifications identified as reimbursable under GSA regulations.

(c) Procure supplies and services available from GSA, Federal Supply Service, Government Depots as appropriate, or from Federal Supply Service contracts, not in excess of $10,000 per order.

(d) Issue U.S. Government Bills of Lading not to exceed $2,500 per order.

(e) Approve invitational travel to persons serving without compensation whose consultative, advisory, or other highly specialized technical services are required in a capacity that is directly related to, or in connection with assigned civil defense activities.

This amendment to the Delegations of Authority shall be effective March 1, 1975.

JOHN E. DAVIS,
Director, Defense Civil Preparedness Agency.

is hereby given that the Defense Science Board Task Force on "Specifications and Standards Improvement" will meet in open session on Thursday and Friday 20–21 March 1975 in Room 1E801, the Pentagon, Washington, D.C.

The mission of the Defense Science Board is to advise the Secretary of Defense and Director of Defense Research and Engineering on overall research and engineering and to provide long range guidance in these areas to the Department of Defense.

The primary responsibility of the Task Force is to provide an evaluation of current DOD Specifications and Standards and the related DOD organization, system and procedures to serve as a basis for DOD policy decisions to reduce costs in systems/equipment design and acquisition.

At this meeting, the Task Force will evaluate the impact on acquisition costs of Military Specification MIL–D–1000, Drawings, Engineering and Associated Lists; review environmental and reliability specifications with a view toward consolidation and removing specification tiering; discuss, critique and offer alternatives to the DOD feedback process as it pertains to specifications and standards; discuss and recommend actions aimed at the tailoring of specifications; discuss specification relationships between prime and subcontractors, and discuss and review other pertinent and related subjects as may come before the group.

Due to the limited time and space availability, it is requested that persons interested in attending the DSB Task Force meeting provide written notice to the address listed below by March 14, 1975. Notice should include information with respect to interest and degree of participation.

Mr. Lester Fox, Director
Defense Material Specifications
and Standards Office
Cameron Station
Alexandria, Virginia 22314

Telephone inquiries may also be made to Mr. Fox at (202) 274–7061.

MAURICE W. ROCHE,
Director, Correspondence and Directives OASD (Comptroller).

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

EL PASO COAL GASIFICATION PROJECT

Public Hearings on Draft Environmental Statement

Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a draft environmental statement for the El Paso Coal Gasification Project. That statement (INT DES 74–77) was made available to the public on July 16, 1974.

The draft environmental statement deals with the proposed construction and operation of a development gasifier and mine project, two commercial coal gasification complexes, and the mine, all of which would be located about 35 miles southwest of Farmington, New Mexico, on the Navajo Indian Reservation. The first complex, capable of producing 288 million cubic feet per day (MMCF/D) of substitute pipeline gas would be operational in 1978. The two complexes, with a total production capacity of 785 MMCF/D would be operational in 1981. Pending completion of contractual arrangements, water for the project will be supplied from the Bureau of Reclamation's Navajo Reservoir.

A public hearing will be held in Window Rock, Arizona, at the Window Rock Civic Center from 10 a.m. until noon, from 1:30 p.m. to 5 p.m. and from 7 p.m. to 10 p.m. on March 25 and 26, 1975, and in Farmington, New Mexico, at the City Council Meeting Room, from 10 a.m. until noon, from 1:30 p.m. to 5 p.m. and from 7 p.m. to 10 p.m. on March 27, 1975, to receive views and comments relating to the environmental impacts of this project. Oral statements at the hearing will be limited to a period of ten (10) minutes. Speakers will not trade their time to obtain a longer oral presentation; however, the person authorized to conduct the hearing may allow any speaker to provide additional oral comment after all persons wishing comment have been heard. Speakers will be scheduled according to the time preference mentioned in their letters or telephone requests whenever possible, and any scheduled speaker not present when called will lose his privilege in the scheduled order, and his name will be recalled at the end of the scheduled speakers. Requests for scheduled presentation will be accepted up to 5 p.m., March 21, 1975, and any subsequent requests will be handled on a first-come-first-served basis following the scheduled presentation.

Each organization or individual desiring to present a statement at the hearing should contact Regional Director David L. Crandall, Bureau of Reclamation, Room 7201, 125 South State Street, Salt Lake City, Utah 84111, telephone (801) 524–5592, and announce the intention to participate. Written comments from those unable to attend, and from those wishing to supplement their oral presentation at the hearing, should be received by April 3, 1975, for inclusion in the hearing record.

Dated: February 19, 1975.

G. G. STAMM,
Commissioner of Reclamation.

Fish and Wildlife Service

MARINE MAMMALS

Issuance of Permit

On November 4, 1974, a notice was published in the FEDERAL REGISTER (39 FR 38915–16) that an application had been filed with the Fish and Wildlife Service by Dr. Francis H. Fay, Associate Professor of Marine Science, Institute of Marine Science, University of Alaska, Fairbanks, Alaska, for a permit to take Pacific walruses, to purchase parts of walruses taken by Eskimos for subsistence, and to salvage parts from walruses found dead.

Notice is hereby given that on February 10, 1975, as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407), the Fish and Wildlife Service issued a permit to Dr. Francis H. Fay, subject to certain conditions set forth therein. The permit is available for public inspection during normal business hours at the Fish and Wildlife Service's office in Suite 600, 1612 K Street NW., Washington, D.C.

Dated: February 20, 1975.

LOREN K. PARCHER,
Acting Chief, Division of Law Enforcement, U.S. Fish and Wildlife Service.

INDIANA DUNES NATIONAL LAKESHORE ADVISORY COMMISSION

Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Indiana Dunes National Lakeshore Advisory Commission will be held at 10 a.m., c.s.t., March 14, 1975, at the Indiana Dunes National Lakeshore Building, Intersection of State Park Road and U.S. Highway 12, Chesterton, Indiana.

The Commission was established by Public Law 89–761 to meet and consult with the Secretary of the Interior on matters related to the administration and development of the Indiana Dunes National Lakeshore.

The members of the Commission are as follows:

Mr. William L. Lieber (Chairman)
Mrs. Anna R. Carlson
Mr. Harry W. Frey
Mrs. Ione F. Harrington
Mr. John A. Hillenbrand II
Mr. Harold G. Rudd
Mr. John R. Schnurlein
Mr. William L. Staehle (Secretarial Consultant)

Matters to be discussed at this meeting include:

1. Status of construction of West Beach and Bailly Homestead.
2. Status of land acquisition.
3. Status of Environmental Impact Statements for Indiana Dunes National Lakeshore.
4. Discussion of development plans for Indiana Dunes National Lakeshore.
5. Storm erosion effects on Lakeshore revetment during winter 1974–75.

The meeting will be open to the public. It is expected that about 90 persons will be able to attend the session in addition to committee members. Interested persons may make written statements. Such requests should be made to the official listed below prior to the meeting.

Further information concerning this meeting may be obtained from James R. Whitehouse, Superintendent, Indiana Dunes National Lakeshore, Route 2, Box 139–A, Chesterton, Indiana 46304, telephone area code 219, 926–7561. Minutes of the meeting will be available for public inspection three weeks after the meeting at the office of the Indiana Dunes National Lakeshore located at the intersection of State Park Road and U.S. Highway 12 (Kemil Road), Chesterton, Indiana.

Dated: February 11, 1975.

MERRILL D. BEAL,
Regional Director, Midwest Region, National Park Service.

CUYAHOGA MASTER PLAN

Notice of Intent

Notice is hereby given that the process to develop a master plan for Cuyahoga Valley National Recreation Area will begin on Monday, March 31, 1975, at 7:30 p.m. with a workshop at Boston Elementary School, 1930 Bronson Avenue, Peninsula, Ohio. This will be the the first of a series of workshops to provide for public involvement and citizen participation in the planning process.

Times, dates and locations of subsequent workshops on the initial phase of the master plan will be well publicized through advance announcements in news media and through direct contact with interested individuals and organizations. At least one workshop will be held in Cleveland, Ohio, and at least one in Akron, Ohio. Concurrent with the workshops will be a series of consultations between members of the Cuyahoga Master Planning Team and appropriate Federal, State and local government officials.

The initial phase of the master plan will be a Planning Directive. Its purpose will be to establish a clear understanding of the scope and magnitude of the study, analyze planning needs, identify resources available to the planners and review the work to date. The workshops will provide an opportunity for public suggestions, ideas and comments prior to the start of work on the plan itself.

It is the intention of the National Park Service to continue to seek public input during subsequent stages of planning, and when completed to submit the draft master plan to the public for further review through public meetings for which advance notice will be given.

Any one wanting additional information on the workshops and/or the status of the planning process should contact William C. Birdsell, General Superintendent, Ohio Group, P.O. Box 327, Chillicothe, Ohio 45601.

Dated: February 18, 1975.

MERRIL D. BEAL,
Regional Director, National Park Service.

Agricultural Marketing Service

FRESH PEACHES GROWN IN GEORGIA

Findings and Determination With Respect to the Continuation in Effect of the Amended Marketing Agreement and Order

Pursuant to the applicable provisions of Marketing Agreement No. 99, as amended, and Order No. 918, as amended (7 CFR Part 918), and the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), notice was given in the FEDERAL REGISTER (39 FR 43562) that a referendum would be conducted among the growers who, during the period January 1, 1974, through October 31, 1974 (which period was determined to be a representative period for the purpose of such referendum), were engaged, in Georgia, in the production of peaches for market to determine whether a majority of such growers favor the termination of the amended marketing agreement and order.

Upon the basis of the results of the aforesaid referendum, which was conducted during the period January 10 to January 24, 1975, both dates inclusive, it is hereby found and determined that the termination of the amended marketing agreement and order, regulating the handling of fresh peaches grown in Georgia, is not favored by the requisite majority of such growers.

Dated: February 19, 1975.

RICHARD L. FELTNER,
Assistant Secretary.

INDIANA UNIVERSITY ET AL.

Notice of Application for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to Section 6 (c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89–651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before March 17, 1975.

Amended regulations issued under cited Act, as published in the February 24, 1972 issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C. 20230.

Docket Number: 75–00322–33–46040. Applicant: Indiana University, Purchasing Department, 1101 East 17th Street, Bloomington, Indiana 47401. Article: Electron Microscope, Model EM 201C and Plate Camera. Manufacturer: Philips Electronic Instruments, The Netherlands. Intended use of article: The article is intended to be used for investigation of cytoplasmic contents and cell surface specializations in plastic thin sections of nerve cells. Studies will be carried out to obtain precise quantitative data concerning the (i) geometric relationships between neurofilaments and adjacent structure and (ii) the dimensions of gaps separating cell membranes at various sites. Maturational and experimental studies have the objective of obtaining similarly precise data in order to understand basic mechanism of intracellular transport and cell surface adhesion and interaction. Application received by Commissioner of Customs: January 15, 1975.

Docket Number: 75–00324–00–46040. Applicant: Dartmouth Medical School, Dartmouth College, Hanover, New Hampshire 03755. Article C7–2200–A3–A1 Camera; and C72389–A17–05 Film Magazines (3). Manufacturer: Siemens AG, West Germany. Intended use of article: The article is intended to be used as a replacement to a worn-out camera in an electron microscope which is being used for studying many aspects of human experimental disease, including the growth and structure of cancer cells, the morphologic appearance of diseases of the peripheral nerves, and the ultrastructure of various renal, liver and lung diseases. Commissioner of Customs: January 20, 1975.

Docket Number: 75–00325–33–90000. Applicant: University of Cincinnati, Cincinnati General Hospital, 234 Goodman Street, Cincinnati, Ohio 45267. Article: EMI Scanner System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used as a clinical, education, and research tool. Clinical utilization entails diagnostic evaluation of neurologic, otologic, and ophthalmologic disorders. The article will also be used in the study of cerebral trauma including an indepth study of the problems of chronic subdural hematomas. In addition, post-traumatic hydrocephalus including its serial development and progression is to be evaluated. The article is to also be included in the curriculum of the teaching of neuro-diagnosis to Radiology, Neurology, and Neurosurgery residents, as well as medical students. Application received by Commissioner of Customs: January 20, 1975.

Docket Number: 75–00326–33–90000. Applicant: Vanderbilt Hospital, 21st and Garland Avenues, Nashville, Tennessee 37232. Article: EMI Scanner System with Tape Storage Unit. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used for the investigation of patients with symptoms suggesting cerebrovascular accidents, brain damage from other causes, intracranial tumors, intracranial abscesses, and other cerebral disorders. The results of these studies will be compared with conventional diagnostic studies, such as skull films, air and radiopaque contrast studies, and isotopic studies. Application received by Commissioner of Customs: January 20, 1975.

Docket number: 75–00327–33–36200. Applicant: Cardeza Foundation for Hematologic Research, Jefferson Medical College of Jefferson University, 1015 Walnut Street, Philadelphia, Pa. 19107. Article: Platelet Aggregometer. Manufacturer: Cambridge University, United Kingdom. Intended use of article: The article is intended to be used for the study of the aggregation and change in shape of blood platelets over a wide range of temperatures. These studies will help elucidate the mechanisms whereby platelets aggregate to help stop bleeding or to cause thrombosis which is often fatal in certain pathological conditions. Application received by Commissioner of Customs: January 20, 1975.

Docket number: 75–00328–88–46040. Applicant: U.S. Geological Survey, National Center, Stop 959, Reston, Virginia 22092. Article: Electron Microscope, Model JEM 200B and accessories. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used to study the microstructure of geologic materials (both terrestrial and extraterrestrial origin) and appropriate synthetic analogs. These materials include natural silicates, oxides, sulphides, and other inorganic compounds and possibly natural organic materials which occur within inorganic aggregates. The materials are to be studied as single phases or as polyphase aggregates. The experiments to be carried out for the purpose of investigating the properties and phenomena of geologic materials are as follows: (1) characterization of large areas of microstructure using bright field imaging, and (2) characterization of defect structures (dislocation, stacking faults, precipitates, twins, antiphase domains) by dark field and bright field imaging techniques and selected area electron diffraction. Application received by Commissioner of Customs: January 20, 1975.

Docket number: 75–00329–33–90000. Applicant: Scripps Memorial Hospital, P.O. Box 28, 9888 Genesee Avenue, La Jolla, CA 92037. Article: EMI Scanner System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is a diagnostic device which combines conventional X-Ray with an integrated computer to produce a visual, differentiated image of the interior of a human skull. The computer analyzes the relative absorption of X-Rays as they pass through the skull, the brain and other tissues and organizes the data into a visually presentable form which may be studied and interpreted by a properly trained physician/radiologist. Application received by Commissioner of Customs: January 20, 1975.

Docket number: 75–00330–33–90000. Applicant: University of Utah Medical Center, 50 North Medical Drive, Salt Lake City, Utah 84132. Article: EMI Scanner System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used as part of the basic education of medical students, interns and residents with particular importance in the residency training programs of radiology, neurosurgery, neurology, ophthalmology, and psychiatry. The article will also be used for computer assisted tomographic examination of the brain in studies of neurological disorders such as subdural, epidural and intracerebral hematoma. Application received by Commissioner of Customs: January 20, 1975.

Docket number: 75–00331–33–90000. Applicant: Duke University Medical Center, Department of Radiology, Durham, N.C. 27710. Article: EMI Scanner System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is being evaluated to determine its impact on related procedures such as arteriograms, pneumoencephalograms, and brain scans as well as its impact on total patient care. In addition, it will be used in an ongoing comparative evaluation of its accuracy as opposed to that of presently used invasive procedures. The article will also be used to train residents in radiology, neurology, and neurosurgery; physicians and X-ray technicians. Application received by Commissioner of Customs: January 20, 1975.

Docket number: 75–00332–33–90000. Applicant: C. S. Wilson Memorial Hospital (Chandler Leasing Div., Pepsico Corp.), 33–57 Harrison Street, Johnson City, New York 13790. Article: EMI Scanner System with Magnet Tape System. Manufacturer: EMI Limited, United Kingdom. Intended use of Article: The article will be used for the diagnosis of brain disease in humans. The article will also be used in the graduate training of physicians. Application received by Commissioner of Customs: January 20, 1974.

Docket number: 75–00335–33–46500. Applicant: National Cancer Institute, Frederick Cancer Research Center, P.O. Box B, Frederick, Md. 21701. Article: Ultramicrotone, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for studies of biological materials, either tumor cells passaged in vivo or in tissue culture, with normal cell controls, or preparations of microorganisms or purified virions. The experiments to be carried out will involve immunoelectronmicroscopy using ferritin-tagged antisera to see if antibody made to virions or microorganisms will react with tumor cell surfaces. Application received by Commissioner of Customs: January 22, 1975.

Docket number: 75–00336–33–46500. Applicant: Veterans Administration Hospital, West Spring Street, West Haven, Connecticut 06516. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used to prepare virus infected tissues and monolayer cell cultures for electron microscopic examination to determine the presence of certain latent viruses. The tissue and cells to be studied will be derived from naturally and experimentally infected animals. Application received by Commissioner of Customs: January 22, 1975.

Docket number: 75–00337–33–46500. Applicant: UCLA School of Medicine, 710 Westwood Plaza, Los Angeles, California 90024. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used to prepare ultrathin sections of tissues obtained from mice, cats, and monkeys, principally from the caudate nucleus, substantia nigra and other midbrain structures. The experiments to be conducted include examining the ultrastructure of specific brain areas using electron microscopy to detect structural modifications produced by various pharmacologic agents. Application received by Commissioner of Customs: January 22, 1975.

Docket Number: 75–00338–33–46500. Applicant: University of Wisconsin Medical School, Department of Pathology, 470 North Charter Street, Madison, Wisconsin 53706. Article: Uultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for studies of biological materials, mainly mammalian tissues derived from experimental animals, which exhibit both normal and pathological structures. The experiments to be conducted concern mainly the ultrastructural alterations in certain cells and tissues (such as brain, liver, and kidney) following intoxication by various heavy metals, e.g. mercury, lead and cadmium. The article will

also be used for educational purposes in the following courses: 704–993 Heavy Metals and Biological System and 704–990 Pathology Research. Application received by Commissioner of Customs: January 22, 1975.

Docket Number: 75–00340–01–40600. Applicant: University of California, San Diego, Receiving Department, Bldg. 509, La Jolla, California 92037. Article: Isotope Micromass Model 602C, with digital printer, inlet option C6. Manufacturer: VG-Micromass Ltd., United Kingdom. Intended use of article: The article is intended to be used for the determination of the abundance of stable isotopes of oxygen (O^{18} and O^{16}), carbon (C^{13} and C^{12}), and nitrogen (N^{15} and N^{14}) in very small samples for paleoclimatic and diagenetic research of deep-sea sediments. Application received by Commissioner of Customs: January 22, 1975.

Docket Number: 75–00341–33–02300. Applicant: National Institute of Environmental Health, P.O. Box 12233, Research Triangle Park, N.C. 27709. Article: TCV 691 Temperature Control Unit. Manufacturer: EKEG Electronic Co., Ltd., Canada. Intended use of article: The article is intended to be used for studies of the effects of noise on hearing sensitivity using the in vivo guinea pig ear. The article will be used to stabilize the body temperature of the animal during the experiment. Application received by Commissioner of Customs: January 22, 1975.

Docket Number: 75–00342–33–90000. Applicant: Saint Joseph Hospital, 1100 West Steward Drive, Orange, California 92668. Article: EMI Scanner with Magnetic Tape Storage System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used in the study of neurological and neurosurgical disorders in all age groups. The objectives will be to have an accurate followup of patients after tumor surgery, patients with hydrocephalus, infants with hydrocephalus and porencephaly, and to study the effects of ventricular shunting over a period of years. The article will also be used to instruct radiologists, neurosurgeons and neurologists in the diagnosis of diseases of the brain and the meninges. Application received by Commissioner of Customs: January 22, 1975.

Docket Number: 75–00343–33–46040. Applicant: Florida Department of Natural Resources, Marine Research Laboratory, 100 Eighth Avenue, SE., St. Petersburg, Florida 33701. Article: Electron Microscope, Model HS–9–1. Manufacturer: Hitachi Perkin-Elmer, Japan. Intended use of article: The article is intended to be used to investigate the ultrastructure of Florida's Red Tide organism, *Gymnodinium breve*, and the effects of the Red Tide toxin on tissues and blood of fishes and invertebrates. The fine structure investigation of *G. breve* will include field specimens of VS cultured specimens, light quality studies on cultured material, cells in log growth phase VS stationary growth phase, determine possibility of endosymbionts, and characterize amphiesma. Application received by Commissioner of Customs: January 22, 1975.

Docket number: 75–00344–33–46500. Applicant: Medical College of Georgia, 1459 Gwinnett Street, Augusta, Georgia 30902. Article: Ultramicrotome, Model Om U3. Manufacturer: C. Reichert Optische Werke, Austria. Intended use of article: The article is intended to be used to obtain ultrathin sections of both hard (calcified) and soft tissues for viewing with an electron microscope. Some of the hard tissue research being conducted involves limb regeneration in animals inflicted with lathyrism. In addition, studies will be conducted in growth cartilage and other mineralized connective tissues. Soft tissue research will involve fine structure studies of secretory cells and effects of X-irradiation on salivary glands and small intestinal epithelium. The article will also be used to prepare material for presentation to dental students in ANMD 511, Cell Structure and Function, a course given to familiarize the freshman student with new concepts and techniques in the study of cellular structure and function. Application received by Commissioner of Customs: January 23, 1975.

Docket number: 75–00345–33–46040. Applicant: University of Southern California, School of Medicine, Department of Anatomy, 2025 Zonal Avenue, Los Angeles, California 90033. Article: Electron Microscope, Model JEM 100C and accessories. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used for transmission electron microscopic examination of biological materials. The studies will center on investigations of cell surfaces, the coatings of cell surfaces, the attachment mechanisms between adjacent cells in various tissues, and the filamentous systems within cells which underlie the support of those cells. The article will also be used in analysis of regenerating muscles and the study of attachment mechanisms between adjacent heart muscle cells. Application received by Commissioner of Customs: January 23, 1975.

National Bureau of Standards

FEDERAL INFORMATION PROCESSING STANDARDS TASK GROUP 15 COMPUTER SYSTEMS SECURITY

Notice of Meeting

Pursuant to the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. III, 1973), notice is hereby given that the Federal Information Processing Standards Task Group 15 (FIPS TG–15), "Computer Systems Security," will hold a meeting from 10 a.m. to 4 p.m. on Tuesday, April 1, 1975, in Room B–163, Building 222, of the National Bureau of Standards at Gaithersburg, Maryland.

The purpose of this meeting is to prepare draft guidelines in four areas of computer systems security: information management; internal systems security; teleprocessing and remote access; and security requirements and metrics.

The public will be permitted to attend, to file written statements, and, to the extent that time permits, to present oral statements. Persons planning to attend should notify Dr. Dennis K. Branstad, Institute for Computer Sciences and Technology, National Bureau of Standards, Washington, D.C. 20234 (Phone 301–921–3861).

Dated: February 20, 1975.

RICHARD W. ROBERTS,
Director.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[DESI 2811; Docket No. FDC–D–230; NDA 2–811]

CHARCONIC GONADOTROPIN

Follow-Up Notice and Opportunity for Hearing; Correction

Correction

In FR Doc. 75–3890, appearing at page 6523 in the issue for Wednesday, February 12, 1975, correcting FR Doc. 74–28409 appearing at page 42397 in the issue for Thursday, December 5, 1974, capital letters were incorrectly omitted from a portion of the text. Paragraph 3. in FR Doc. 75–3890 should read as follows:

3. (a) On Page 42402 for the sixth line of the second paragraph in the first column, the type size for the sentence which begins, "HCG has no known effect * * *" and continues through the rest of that paragraph and the next, is changed to all capital letters so that the affected text reads as follows:

"* * * HCG HAS NO KNOWN EFFECT ON FAT MOBILIZATION, APPETITE OR SENSE OF HUNGER, OR BODY FAT DISTRIBUTION.

INDICATIONS

HCG HAS NOT BEEN DEMONSRATED TO BE EFFECTIVE ADJUNCTIVE THERAPY IN THE TREATMENT OF OBESITY. THERE IS NO SUBSTANTIAL EVIDENCE THAT IT INCREASES WEIGHT LOSS BEYOND THAT RESULTING FROM CALORIC RESTRICTION, THAT IT CAUSES A MORE ATTRACTIVE OR "NORMAL" DISTRIBUTION OF FAT, OR THAT IT DECREASES THE HUNGER AND DISCOMFORT ASSOCIATED WITH CALORIE RESTRICTED DIETS."

(b) The type size for the last complete paragraph of the third column is changed to all capital letters so that the affected text reads as follows:

"HCG HAS NOT BEEN DEMONSTRATED TO BE EFFECTIVE ADJUNCTIVE THERAPY IN THE TREATMENT OF OBESITY. THERE IS NO SUBSTANTIAL EVIDENCE THAT IT INCREASES WEIGHT LOSS BEYOND THAT RESULTING FROM CALORIC RESTRICTION, THAT IT CAUSES

XUM V40138 FEB 25 75 XUM

MORE ATTRACTIVE OR 'NORMAL' DISTRIBUTION OF FAT, OR THAT IT DECREASES THE HUNGER AND DISCOMFORT ASSOCIATED WITH CALORIE-RESTRICTED DIETS."

[GRASP 5G0046]

ROGERS DELINTED COTTONSEED CO. AND TEXAS A AND M UNIVERSITY

Filing of Petition for Affirmation of GRAS Status

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201 (s), 409, 701(a), 52 Stat. 1055, 72 Stat. 1784–1786; 21 U.S.C. 321(s), 348, 371(a)) and the regulations for affirmation of GRAS status (21 FCR 121.40), published in the FEDERAL REGISTER of December 2, 1972 (37 FR 25705), notice is given that a petition (GRASP 5G0046) has been filed by Rogers Delinted Cottonseed Co., P.O. Box 1340, Waco, TX 76703 and Texas A and M University, College Station, TX 77843 and placed on public display at the office of the Hearing Clerk, Food and Drug Administration, proposing affirmation that glandless cottonseed kernels (Cot-N-Nuts) as an agricultural product when consumed as an edible nut are generally recognized as safe (GRAS).

Preliminary review of this petition by the Food and Drug Administration has concluded that GRAS or food additive consideration of this product must be based upon scientific procedures, as defined in the FEDERAL REGISTER of September 23, 1974 (39 FR 34194).

Interested persons may, on or before April 28, 1975, review the petition and/or file comments (preferably in quintuplicate) with the Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852. Comments should include any available information that would be helpful in determining whether the substance is, or is not, generally recognized as safe. A copy of the petition and received comments may be seen in the office of the Hearing Clerk, address given above, during working hours, Monday through Friday.

Dated: February 14, 1975.

HOWARD R. ROBERTS,
Acting Director,
Bureau of Foods.

Office of Education

THE NATIONAL ADVISORY COUNCIL ON EXTENSION AND CONTINUING EDUCATION

Public Meeting

Notice is hereby given, pursuant to Federal Advisory Committee Act Pub. L. 92–463 that the next meeting of the National Advisory Council on Extension and Continuing Education will be held March 13–14, 1975, in the Independence Room at the Washington Hilton Hotel, 1919 Connecticut Avenue NW., Washington, D.C. The meetings will begin at 9 a.m. on both days.

The National Advisory Council on Extension and Continuing Education is authorized under Public Law 89–329. The Council is directed to advise the Commissioner of Education in the preparation of general regulations and with respect to policy matters arising in the administration of Title I, and to report annually to the President and to the Secretary of Health, Education and Welfare on the administration and effectiveness of all federally supported extension and continuing education programs, including community service programs.

This meeting of the Council will be open to the public. The agenda will consist of the following:

1. Preparation of final report and recommendations of the Council's Evaluation of Title I of the Higher Education Act of 1965, as requested by Congress in the Education Amendments of 1972 (sec. 103). This report will be submitted to the appropriate Committees of the Senate and House on March 31, 1975.

2. Preparation of the Ninth Annual Report of the Council to the President, containing recommendations dealing with Title I of the Higher Education Act of 1965, policies affecting extension and continuing education, and the status of adult part-time students. This report is also scheduled to be submitted on March 31, 1975.

All records of Council proceedings are available for public inspection at the Council's Staff Office, located in Suite 710, 1325 G Street, NW., Washington, D.C.

LLOYD H. DAVIS,
Executive Director.

FEBRUARY 19, 1975.

ADVISORY COUNCIL ON DEVELOPING INSTITUTIONS

Public Meeting

Notice is hereby given, pursuant to section 10(a)(2) of the Federal Advisory Committee Act (P.L. 92–463), that the next meeting of the Advisory Council on Developing Institutions will be held March 12, 1975, from 10 a.m. to 3:30 p.m. in Room 2328, Regional Office Building 3, 7th & D Streets, SW, Washington, DC.

The Advisory Council on Developing Institutions was established by Title III of the Higher Education Act of 1965, as amended. The Council is governed by the provisions of Part D of the General Education Provisions Act and of the Federal Advisory Committee Act (P.L. 92–463). The Council shall assist the Commissioner in identifying the characteristics of developing institutions through which the purpose of Title III may be achieved, and in establishing the priorities and criteria to be used in making grants under Section 304(a) of that Title.

The meeting of the Council shall be open to the public. The meeting will be devoted entirely to the next Annual Report of the Council.

Records shall be kept of all Council proceedings and shall be available for public inspection at the Office of the Director of the College and University Unit, BPE, located in Room 4682, ROB, 7th & D Streets, SW.

Signed at Washington, D.C. on February 20, 1975.

PRESTON VALIEN,
Director of College and University Unit.

CIVIL AERONAUTICS BOARD

[Docket 27035; Order 75–2–80]

WAGNER AVIATION LIMITED

Renewal Request; Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 20th day of February, 1975.

By application filed September 19, 1974, Wagner Aviation Limited (Wagner) requests renewal, for a period of five years, of its foreign air carrier permit [1] authorizing it to engage in scheduled foreign air transportation with respect to persons, property and mail between Kingston, Ontario, Canada and Syracuse, New York.[2] The carrier also seeks a foreign air carrier permit to engage in charter foreign air transportation with respect to persons and their accompanying baggage, and planeload charter foreign air transportation with respect to property, between any point in Canada and any point within the United States, utilizing "small aircraft" pursuant to the Nonscheduled Air Service Agreement executed on May 8, 1974, by the governments of the United States and Canada. Upon issuance of the charter permit, Wagner requests that the foreign air carrier permit issued to it pursuant to Order 70–2–128, approved February 27, 1970, be canceled.[3]

In support of its request the applicant states, *inter alia*, that: since May 1971, it has operated 40 round trips per month over its scheduled route; it is well established as the only carrier operating between Kingston and the United States; passenger traffic now averages 285 per month, and freight has now reached 30,000 pounds per month; and Wagner has recently received authority from the Canadian Transportation Committee to operate a domestic service to run in conjunction with the Kingston-Syracuse run, connecting Ottawa with Kingston. As of March 31, 1974, the carrier had assets of $196,312 and in the first quarter of 1974, earned a net profit of $2,173 on revenues of $45,267. The applicant further states that it has had no major accidents nor tariff violations.

With respect to the request of the carrier for renewal of its permit authorizing scheduled transportation for a period of

[1] Issued pursuant to Order 71–1–110, approved January 22, 1971.

[2] A copy of the application has been transmitted to the President of the United States in accordance with the requirements of section 801 of the Act.

[3] That permit authorized Wagner to engage in foreign air transportation on a casual, occasional, and infrequent basis, and to conduct off-route charter trips pursuant to Part 212 of the Board's Economic Regulations.

five years, we tentatively find that there have been no intervening circumstances affecting the carrier's ability to perform since the Board originally found Wagner to be fit, willing, and able properly to perform the foreign air transportation authorized pursuant to Order 71–1–110 which would warrant a different finding at this time. Accordingly, we tentatively find and conclude that renewal of the subject foreign air carrier permit, in the form attached hereto as Appendix A,[4] for a period of five years, would be in the public interest.

In regard to Wagner's request for a permit authorizing charter operations with small aircraft,[5] we note that the permits issued pursuant to Orders 70–2–128 and 71–1–110 grant Wagner the authority to perform charter flights using aircraft with a maximum authorized take-off weight of 12,500 pounds or less. Each permit contains a condition making it "subject to all applicable provisions of any treaty, convention, or agreement affecting international air transportation • • • that may become effective during the period this permit remains in effect, to which the United States and Canada shall be parties." Upon consideration of the Nonscheduled Air Service Agreement, and in light of section 1102 of the Act which requires the Board to exercise its duties consistent with any obligation assumed by the United States in any agreement between the United States and a foreign country, the Board proposes to issue to Wagner a new foreign air carrier permit containing authority limited to that authorized by the charter bilateral, and subject to the conditions of the Agreement and the Exchanges of Notes attached thereto. The proposed issuance of this permit will facilitate the prompt implementation of the terms of the new charter bilateral agreement, and is consistent with action we have taken with respect to other Canadian carriers. In addition, considering the applicant's successful operations under its existing permits and our previous findings in this respect, we tentatively find and conclude that Wagner remains fit, willing, and able properly to perform the charter services authorized in the proposed permit and to conform to the Act and the rules and regulations issued thereunder. Accordingly, the Board tentatively finds and concludes that it is in the public interest to issue to Wagner a foreign air carrier permit, in the form attached hereto as Appendix B, authorizing charter flights with small aircraft.

We also tentatively find and conclude that it is in the public interest to cancel the foreign air carrier permit issued to Wagner pursuant to Order 70–2–128, ap-

Accordingly, it is ordered, That:

1. All interested persons be and they hereby are directed to show cause why the Board should not make final the tentative findings and conclusions herein and why an order should not be issued, subject to approval by the President pursuant to section 801 of the Act: renewing and amending the foreign air carrier permit heretofore issued to Wagner Aviation Limited by Order 71–1–110, approved January 22, 1971, in the form attached hereto as Appendix A[6]; issuing to Wagner Aviation Limited a foreign air carrier permit, in the form attached hereto as Appendix B, authorizing charter operations with small aircraft in foreign air transportation; and canceling the foreign air carrier permit issued to Wagner Aviation Limited pursuant to Order 70–2–128, approved February 27, 1970;

2. Any interested persons having objections to the issuance of an order making final the tentative findings and conclusions stated herein and issuing the said permits shall, within 30 days after the date of adoption of this order, file with the Board and serve on the persons named in paragraph 5 below a statement of objections specifying the part or parts of the tentative findings or conclusions objected to and stating the specific grounds of any such objections, supported by statistical data and other materials and evidence relied upon to support the statement of objections; [7]

3. If timely and properly supported objections are filed, full consideration will be accorded the matters and issues raised by the objections before further action is taken by the Board: *Provided,* That the Board may proceed to enter an order in accordance with the tentative findings and conclusions herein if it determines that there are no factual issues presented that warrant the holding of an evidentiary hearing;

4. In the event no objections are filed, all further procedural steps shall be deemed waived, and the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth herein; and

5. Copies of this order shall be served upon Wagner Aviation Limited and the Ambassador of Canada.

This order will be published in the FEDERAL REGISTER and will be transmitted to the President.

By the Civil Aeronautics Board.

[SEAL] PHYLLIS T. KAYLOR,
Acting Secretary.

[FR Doc.75–4995 Filed 2–24–75;8:45 am]

[4] Since the authority to operate charter trips with small aircraft will be included in a separate charter permit, no provision is included in the proposed scheduled foreign air transportation permit to authorize Wagner to engage in charter trips pursuant to Part 212 of the Board's Economic Regulations. Additionally, the renewed permit will be amended to include certain standard conditions that have been recently employed in scheduled permits. See, e.g., Arrow Aviation, Ltd., Order 75–1–49.

[5] In the Nonscheduled Air Service Agreement, small aircraft are defined as aircraft which are not large aircraft. Large aircraft are aircraft having both (a) a maximum passenger capacity of more than 30 seats or a maximum payload capacity of more than 7,500 pounds, and (b) a maximum authorized take-off weight on wheels greater than 35,000 pounds.

[6] Appendices A and B are filed as part of the original document.

[7] Since provision is made for the filing of objections to this order, petitions for reconsideration of this order will not be entertained.

[Docket 22859; Order 75–2–78]

AMERICAN AIRLINES, INC.

Order of Suspension

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 19th day of February, 1975.

By tariff revisions issued on January 22 and marked to become effective February 21, 1975, American Airlines, Inc. (American) proposes, *inter alia,* to increase the pivot weight [1] of its Type D container and minimum charges between Honolulu and St. Louis in both directions. The pivot weight would be raised from 437 to 512 pounds. The carrier asserts that this change was previously "approved" for Type D containers on other segments of its system.

The proposed rates and charges come within the scope of the Domestic Air Freight Rate Investigation, and their lawfulness will be determined in that proceeding. The issue now before the Board is whether to suspend the proposal or to permit it to become effective pending investigation.

As American states, the typical pivot weight for Type D containers in its Mainland markets is 512 pounds, and we find no fault with that aspect of the proposal. We believe, however, that the minimum charges for the above weight are excessive. The charges proposed are above industry-average costs of carrying air freight in those containers for the distance involved, including a full return on investment and reflecting recent average increases in fuel- and nonfuel-related capacity costs.

Therefore, upon consideration of the foregoing and all other relevant factors, the Board finds that the proposal should be suspended.[2]

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof,

It is ordered, That: 1. Pending hearing and decision by the Board, the increased charges and the changes in the pivot weight from Honolulu/Hilo to St. Louis on 9th Revised Page 79 and from St. Louis to Honolulu/Hilo on 7th Revised Page 92 of Tariff C.A.B. No. 227, issued by Airline Tariff Publishing Company, Agent, are suspended, and their use deferred to and including May 21, 1975 unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension, except by order or special permission of the Board; and

2. Copies of this order shall be filed with the tariffs and served upon American Airlines, Inc.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] PHYLLIS T. KAYLOR,
Acting Secretary.

[1] The pivot weight is the maximum net weight in pounds of the container allowable at the charge per container shown in the tariff.

[2] Inasmuch as the pivot weight and minimum charges are integral parts of the proposal, it is necessary to suspend both parts if one of them is to be suspended.

FEDERAL EMPLOYEES PAY COUNCIL

Notice of Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that the Federal Employees Pay Council will meet at 2 p.m. on Wednesday, April 2, 1975. This meeting will be held in room 5323 of the U.S. Civil Service Commission building, 1900 E Street NW., and will consist of continued discussions on the fiscal year 1976 comparability adjustment for the statutory pay systems of the Federal Government.

The Chairman of the U.S. Civil Service Commission is responsible for the making of determinations under section 10(d) of the Federal Advisory Committee Act as to whether or not meetings of the Federal Employees Pay Council shall be open to the public. He has determined that this meeting will consist of exchanges of opinions and information, which, if written, would fall within exemptions (2) or (5) of 5 U.S.C. 552(b). Therefore, this meeting will not be open to the public.

For the President's Agent.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

CERTAIN COTTON TEXTILES AND COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN POLAND

FEBRUARY 20, 1975.

On March 15, 1967, the United States Government concluded a comprehensive bilateral agreement with the Government of the Polish People's Republic concerning exports of cotton textiles and cotton textile products from Poland to the United States. On February 24, 1970, the two Governments exchanged notes amending and extending the bilateral agreement of March 15, 1967. The agreement was further amended and extended by exchange of notes dated January 22, 1974. Among the provisions of the agreement, as amended and extended, are those applying specific export limitations to Categories 19, 34, 36, 41, 42, 43, 49, 50, 60 and 62 for the final agreement year beginning March 1, 1975.

Accordingly, there is published below a letter of February 20, 1975, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, directing that the amounts of cotton textile products in the above categories, produced or manufactured in Poland, which may be entered or withdrawn from warehouse for consumption in the United States for the twelve-month period beginning March 1, 1975 and extending through February 29, 1976, be limited to certain designated levels. This letter and the actions pursuant thereto are not designed to implement all of the provisions of the bilateral agreement, as amended and extended, but are designed to assist only in the implementation of certain of its provisions.

ALAN POLANSKY,
Acting Chairman, Committee for the Implementation of Textile Agreements, and Acting Deputy Assistant Secretary for Resources and Trade Assistance.

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C. 20229

DEAR MR. COMMISSIONER: Pursuant to the Bilateral Cotton Textile Agreement of March 15, 1967, as amended, between the Governments of the United States and the Polish People's Republic, and in accordance with the provisions of Executive Order 11651 of March 3, 1972, you are directed to prohibit, effective March 1, 1975 and for the twelve-month period extending through February 29, 1976, entry into the United States for consumption and withdrawal from warehouse for consumption, of cotton textile products in Categories 19, 34, 36, 41, 42, 43, 49, 50, 60 and 62, produced or manufactured in the Polish People's Republic, in excess of the following twelve-month levels of restraint:

Category	12-month level of restraint	
19	Square yards	1,050,000
34	units	118,548
36	do	152,174
41	dozen	87,089
42	do	72,574
43	do	145,148
49	do	45,231
50	do	58,999
60	do	10,104
62	pounds	228,261

In carrying out this directive, entries of cotton textile products in the above categories, produced or manufactured in the Polish People's Republic and exported to the United States from the Polish People's Republic prior to March 1, 1975, shall, to the extent of any unfilled balances, be charged against the levels of restraint established for such goods during the period March 1, 1974 through February 28, 1975. In the event that the levels of restraint established for such goods for that period have been exhausted by previous entries, such goods shall be subject to the levels set forth in this letter.

The levels of restraint set forth above are subject to adjustment pursuant to the provisions of the bilateral agreement of March 15, 1967, as amended, between the Governments of the United States and the Polish People's Republic, which provide, in part, that within the aggregate and applicable group limits, limits on specific categories may be exceeded by not more than five percent; for the limited carryover of shortfalls in certain categories to the next agreement year; and for administrative arrangements. Any appropriate adjustments pursuant to the provisions of the bilateral agreement referred to above, will be made to you by letter.

A detailed description of the categories in terms of T.S.U.S.A. numbers was published in the Federal Register on February 3, 1975 (40 FR 5010).

In carrying out the above directions, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of the Polish People's Republic and with respect to imports of cotton textiles and cotton textile products from the Polish People's Republic, have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the Federal Register.

Sincerely,

ALAN POLANSKY,
Acting Chairman, Committee for the Implementation of Textile Agreements, and Acting Deputy Assistant Secretary for Resources and Trade Assistance, U.S. Department of Commerce.

ENVIRONMENTAL PROTECTION AGENCY

[FIFRA Docket No. 245, et al.; (FRL 336-4)]

SCIENCE PRODUCTS CO., ET AL., REGISTRANTS

Cancellation of Hearing

Take notice that the Hearing in the proceeding under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended (86 Stat. 973; 5 U.S.C. 136 et seq.) dealing with the proposed cancellation of a number of registrations dealing with the product BNOA, which had been scheduled to commence at 10 a.m. on March 18, 1975 (40 CFR 1737), has been postponed indefinitely to a date subsequently to be published.

As a result, the proposed discussion of a date for the commencement of hearings dealing with the product NABAC, which was to be held at the outset of the March 18, 1975 hearing, is also postponed.

FREDERICK W. DENNISTON,
Administrative Law Judge.

FEDERAL HOME LOAN BANK BOARD

[No. 75-158]

QUARTERLY INDEX

Determination and Order

FEBRUARY 19, 1975.

The Federal Home Loan Bank Board is required by 5 U.S.C. 552(a)(2), as amended, to publish either a quarterly index to those items specified in 5 U.S.C. 552(a), or an order in the FEDERAL REGISTER that such publication is unnecessary and impracticable. Although the Board has maintained such an index since July 4, 1967, public use of the index has been minimal. The Board publishes periodic, generally monthly, supplements to its Annotated Manual of Statutes and Regulations, which contain the statutes governing and relating to operations of the Board, its regulations, rulings, and statements of policy, as well as interpretative memoranda of the Office of Examinations and Supervision, and digests of opinions rendered by the Office of the General Counsel. A copy of said Manual and Supplements is furnished to each member institution and copies thereof are also available for purchase from the Superintendent of Documents. The orders contained in said index refer in brief to Board actions as to member institutions and other entities supervised, regulated or examined by the Board, and contain little of precedential value.

The Federal Home Loan Bank Board hereby determines and orders that the publication of said index is unnecessary and impractical in that it does not materially assist the public and, in addition, such publication imposes a financial burden on the Board. The Board therefore hereby directs the Secretary to the Board to publish this Order in the FEDERAL REGISTER in accordance with the above-cited provisions of 5 U.S.C. 552(a)(2) and, in accordance with said provisions, that a copy of said index will nonetheless be provided, upon request, at a cost not to exceed the direct cost of duplication at the rate per page specified in § 505.4(e) or the Board's General Regulations.

By the Federal Home Loan Bank Board.

[SEAL] GRENVILLE L. MILLARD, JR.,
Assistant Secretary.

FEDERAL MARITIME COMMISSION

[Docket No. 75-4]

DEPARTMENT OF DEFENSE ET AL.

Notice of Filing of Complaint

In the matter of Department of Defense and Military Sealift Command v. Matson Navigation Co., Inc.

Notice is hereby given that a complaint filed by Department of Defense and Military Sealift Command against Matson Navigation Co., Inc. was served February 19, 1975. The complaint alleges violations of section 18(a) of the Shipping Act, 1916 and requests relief under section 4 of the Intercoastal Shipping Act, 1933 in connection with Matson's failure to file appropriate military class rates applying between the U.S. West Coast and Hawaii.

Hearing in this matter shall commence on or before August 19, 1975.

FRANCIS C. HURNEY,
Secretary.

[INDEPENDENT OCEAN FREIGHT FORWARDER LICENSE NO. 1403]

EDWARD MOSQUERA

Order of Revocation

On February 10, 1975, the Federal Maritime Commission received notification that Edward Mosquera, 163 Leverett Avenue, Great Hills, L.I., New York 10308 wishes to voluntarily surrender its Independent Ocean Freight Forwarder License No. 1403 for revocation.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 1 (revised) § 7.04(f) (dated 9/15/73);

It is ordered, That Independent Ocean Freight Forwarder License No. 1403 be returned to the Commission for cancellation.

It is further ordered, That Independent Ocean Freight Forwarder License No. 1403 of Edward Mosquera be and is hereby revoked effective February 10, 1975, without prejudice to reapply for a license in the future.

It is further ordered, That a copy of this Order be published in the FEDERAL REGISTER and served upon Edward Mosquera.

ROBERT S. HOPE,
Managing Director.

FEDERAL POWER COMMISSION

[Docket Nos. E-8999; E-9000; E-9001]

ORANGE AND ROCKLAND UTILITIES, INC. AND ROCKLAND ELECTRIC CO.

Conference

FEBRUARY 19, 1975.

Take notice that on Thursday, March 6, 1975, a conference of all interested parties in the above-referenced dockets will be convened at 10 a.m. in Room 8402 of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426.

The conference will be held pursuant to § 1.18 (Conferences, Offers of Settlement) of the Commission's rules of practice and procedure (18 CFR 1.18). Customers and other interested persons will be permitted to attend, but if such persons have not previously been permitted to intervene by order of the Commission, such attendance at the conference will not be deemed to authorize such intervention as a party in the proceedings.

In accordance with the provisions § 1.18 of the rules, all parties will be expected to come fully prepared to discuss the merits of all issues concerning the lawfulness of Orange & Rockland's and Rockland Electric's proposed tariff changes, any procedural matters preparatory to a full evidentiary hearing, or to make commitments with respect to such issues and any offers of settlement or stipulations discussed at the conference. Failure to attend the conference shall constitute a waiver of all objections to stipulations and agreements reached by the parties in attendance at the conference.

KENNETH F. PLUMB,
Secretary.

FEDERAL RESERVE SYSTEM

D. H. BALDWIN CO.

Order Approving Acquisition of Computer Congenerics Corporation of Colorado

D. H. Baldwin Company, Cincinnati, Ohio, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y, to engage in a joint venture with Computer Congenerics Corporation, Oklahoma City, Oklahoma ("Oklahoma Company"). The joint venture would be carried out through Computer Congenerics Corporation of Colorado, Denver, Colorado ("Colorado Company") which would engage in bookkeeping and data processing services for the internal operations of Applicant and its subsidiaries and storing and processing other banking, financial, or related data, including performing payroll, accounts receivable or payable, or billing services for others. Such activities have been determined by the Board to be closely related to banking (12 CFR 225.4(a)(8)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (39 FR 41586). The time for filing comments and views has expired, and the Board has considered all comments received in the light of the public interest factors set forth in section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)).

Applicant controls 11 banks in Colorado with aggregate deposits of $559.3 million, representing approximately 8.4 percent of the total deposits in commercial banks in Colorado, and is the fourth largest commercial banking organization in the State.[1] Applicant also controls nonbanking subsidiaries engaged principally in insurance underwriting, savings and loan, and leasing activities. Applicant is also engaged in the manufacture and marketing of musical instruments and electronic components. Applicant presently has a data processing division, De-Co, which provides computer services for Applicant, its subsidiaries and their customers.

Colorado Company is presently a wholly-owned subsidiary of Oklahoma Company with offices in Denver and Grand Junction. Oklahoma Company was organized in 1969 with Oklahoma as its principal place of business, but has since expanded its operations throughout Oklahoma and into Texas and Colorado. Oklahoma Company specializes in providing data processing services to financial institutions and in exploration data processing services to oil and gas companies.

As part of this proposal, Applicant has already contributed certain computer systems in Denver and Grand Junction; Oklahoma Company has contributed software and personnel and both Applicant and Oklahoma Company have contributed equal sums for the initial capitalization. Under the terms of the preincorporation agreement, the contributions by Applicant are considered loans pending Board consideration of the proposal. Due to the acquisition within the past twelve months of nine banking subsidiaries by Applicant and the resulting increased demand for expanded data processing services for the newly acquired banks and for Applicant's other subsidiaries, De-Co, Applicant's data processing division, is unable to meet Applicant's present data processing requirements. The formation of this joint venture will enable Applicant more efficiently and economically to meet its data processing requirements and those of its subsidiaries than would the acquisition of equipment and the development of the necessary services by De-Co. After consummation of the proposal, De-Co will continue to provide data processing services to Applicant and its larger subsidiaries while Colorado Company will provide data processing services to Applicant's smaller subsidiaries and the correspondent customers of Applicant's lead bank.

[1] All banking data are as of June 30, 1974 and reflect holding company formations and acquisitions approved by the Board through January 1, 1975.

While both De-Co and Oklahoma Company offer similar data processing services to financial institutions, consummation of the proposal would not eliminate any significant existing competition as Oklahoma Company provided computer services to only three financial institutions in Colorado. On the other hand, Oklahoma Company's contribution of software packages and personnel to Colorado Company will enable Colorado Company to immediately become a more competitive influence in the market than either De-Co or Oklahoma Company has been.

It is the Board's opinion, on the basis of the above and other facts of record, that the proposed acquisition would not have an adverse effect on actual competition. Furthermore, it does not appear that consummation of the proposal would eliminate any real probability of competition developing between De-Co and Oklahoma Company in view of the considerable effort and expense, particularly personnel expense, that De-Co would have to undertake to become a strong competitor in this field. Moreover, Oklahoma Company's lack of customer contacts in Colorado, as well as the fact that a considerable percentage of the market for these services has become "captive" to existing Colorado bank holding companies, indicates the improbability of Oklahoma Company becoming a significant competitor in the market. The Board concludes that consummation of the proposed acquisition would have no significant adverse effects on actual or potential competition in any relevant area.

There is no evidence in the record in this case indicating that consummation of the present proposal to engage in a joint venture would result in undue concentration of resources, unfair competition, conflicts of interests, unsound banking practices, or other adverse elects.

The Board finds that the proposed joint venture would result in public benefits in terms of increased and improved services. In addition, the joint venture would expend the quality, quantity, and efficiency of the services presently offered by both De-Co and Oklahoma Company in Colorado.

Based upon the foregoing and other considerations reflected in the record, the Board has determined, in accordance with the provisions of section 4(c)(8), that consummation of this proposal can reasonably be expected to produce benefits to the public that outweigh possible adverse effects. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modifications or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasions thereof.

The transaction shall be made not later than three months after the effective date of this Order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Kansas City pursuant to delegated authority.

By order of the Board of Governors,[2] effective February 12, 1975.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.75-4935 Filed 2-24-75;8:45 am]

EDWARDSVILLE BANK-SHARES, INC.

Order Approving Action To Become a Bank Holding Company and Engage in Credit Life, Health and Accident Insurance Sales

Pursuant to section 3(a)(1) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)(1) and § 225.3(a) of Regulation Y (12 CFR 225.3(a)), Edwardsville Bank-Shares, Inc., Edwardsville, Kansas ("Applicant"), has applied for prior approval to become a bank holding company through the acquisition of 88 percent of the voting shares of The Edwardsville State Bank, Edwardsville, Kansas ("Bank"). Concurrently, Applicant has applied pursuant to section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of Regulation Y for prior approval to engage directly as The Steffey Agency ("Agency") in the sale of credit life and credit accident and health insurance, previously conducted by an affiliated local agency.

The application has been processed by the Federal Reserve Bank of Kansas City pursuant to authority delegated by the Board of Governors of the Federal Reserve System under provisions of §§ 265.2(f)(22) and (32) of the rules regarding delegation of authority.

As required by section 3(b) of the Act, the Reserve Bank gave written notice of receipt of the application to the Kansas State Bank Commissioner. The Commissioner offered no objection to approval of the application. Notice of receipt of the application was published in the FEDERAL REGISTER on January 15, 1975 (40 FR 2765), providing an opportunity for interested persons to submit comments and views with respect to the proposal. Time for filing comments and views has expired and none has been received.

This Reserve Bank has considered the application to become a bank holding company in light of the factors set forth in section 3(c) of the Act. Inasmuch as the proposal to form a bank holding company by acquisition of shares of Bank constitutes a corporate reorganization, consummation of the proposal would eliminate neither existing nor potential competition, nor does it appear that there would be any adverse effects on other-banks in the trade area. Bank (mid-year 1974 deposits: $3.8 million) is the only bank in Edwardsville and one of the smallest of the 131 commercial banks in the Kansas City market area. Acquisition of Bank would result in no immediate change in banking services available in the relevant market.

The financial and managerial resources and future prospects of Applicant, which are dependent on those of Bank and Agency, are considered generally satisfactory and consistent with approval. The debt to be assumed and incurred by Applicant as a result of the proposal appears to be serviceable from the income to be derived from Bank and Agency without having an adverse effect on the financial condition of either Applicant or Bank. Accordingly, banking factors are regarded as being consistent with approval. Consummation of the transaction would have no immediate effect on the area's banking convenience and needs; however, such considerations are consistent with approval of the application to acquire Bank. It is the Reserve Bank's judgment that consummation of the transaction would be in the public interest and that the application should be approved.

Applicant proposes to engage in the sale of credit life and credit accident and health insurance and will conduct its business from the premises of Bank in Edwardsville, Kansas. Since only Agency will be offering this type of insurance in Edwardsville, it will provide a convenient source of insurance agency services to Bank's customers. There is no evidence in the record indicating that consummation of the proposal and operation of Agency would result in any undue concentration of resources, unfair competition, conflicts of interest, unsound banking practices, or other adverse effects on the public interest.

The Reserve Bank, therefore, finds that the public interest factors set forth in section 4(c)(8) of the Act are favorable, and the application to engage in certain credit-related insurance sales in Edwardsville, Kansas, should be approved.

On the basis of the record, the applications are approved for the reasons summarized above. The transaction involving acquisition of shares of Bank should not be consummated before the thirtieth calendar day following the effective date of this Order; and neither the acquisition of Bank nor Agency shall be made later than three months after the effective date of this Order, unless such period is extended for good cause by the Board of Governors or by the Federal Reserve Bank of Kansas City pursuant to delegated authority. The determination as to Applicant's insurance activities is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the authority of the Board of Governors to

[2] Voting for this action: Chairman Burns and Governors Mitchell, Bucher, Holland, Wallich and Coldwell. Absent and not voting: Governor Sheehan.

require reports by, and make examinations of, holding companies and their subsidiaries and to require such modifications or termination of the activities of a bank holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the regulations and orders issued thereunder or to prevent evasion thereof.

[SEAL] WILBUR T. BILLINGTON,
Senior Vice President.

FEBRUARY 11, 1975.

[FR Doc.75-4938 Filed 2-24-75;8:45 am]

SUN BANKS OF FLORIDA, INC.

Order Approving Acquisition of Bank

Sun Banks of Florida, Inc., Orlando, Florida, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire not less than 80 percent of the voting shares of Peoples Bank of Broward County, Tamarac, Florida ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views has been given in accordance with section 3(b) of the Act. This Federal Reserve Bank has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the fourth largest banking organization in Florida, controls thirty-seven banks with aggregate deposits of $1.44 billion, representing 6.32 percent of deposits in all commercial banks in the State. (All banking data are as of June 30, 1974, and reflect acquisitions and formations approved through December 31, 1974). Acquisition of Bank, with deposits of $12.8 million, would increase Applicant's share of State deposits by less than one percent, and would not result in a significant increase in the concentration of banking resources in Florida.

Bank is the 32nd largest of 48 banks in the relevant banking market (approximated by North Broward County) holding 0.8 of total deposits in the market. Seven of Florida's ten largest multi-bank holding companies, including Applicant, are represented in the relevant market. Applicant has two banking subsidiaries in the market and ranks as the eighth largest banking organization therein with aggregate deposits of $76.2 million, representing 4.8 percent of total market deposits. It does not appear that consummation of the proposed transaction would have a significant adverse effect on competition in view of the large number of banks in the market, Bank's small market share, and the close relationship that has existed for several years between Bank and Applicant's two subsidiaries in the market. On the basis of the facts herein, it is concluded that competitive considerations are consistent with approval of the application.

The financial and managerial resources and future prospects of Applicant, its subsidiaries, and Bank appear generally satisfactory and are consistent with approval.

While there is no evidence that the banking needs of the community are not being served, Applicant plans to initiate new services at Bank, including the ALL-IN-ONE ten-services plan presently available to customers of Applicant's other banking subsidiaries, and trust services which would be available to Bank's customers through Applicant's lead bank. In addition, affiliation with Applicant will provide Bank with access to loan participations and will also provide Bank internal assistance with data processing, auditing, marketing, personel administration and training, and tax guidance. Accordingly, considerations relating to convenience and needs of the community to be served lend some weight toward approval of the application. It is this Federal Reserve Bank's judgment that consummation of the proposed transaction would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after that date, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Federal Reserve Bank of Atlanta acting under delegated authority for the Board of Governors of the Federal Reserve System, effective February 13, 1975.

[SEAL] MONROE KIMBREL,
President.

[FR Doc.75-4937 Filed 2-24-75;8:45 am]

TRUSTEES OF DARTMOUTH COLLEGE

Order Approving Exemption of Nonbanking Activities of Bank Holding Company

The Trustees of Dartmouth College, Hanover, New Hampshire ("Applicant"), a registered bank holding company within the meaning of the Bank Holding Company Act with respect to Dartmouth National Bank of Hanover, Hanover, New Hampshire ("Bank"), have applied to the Board of Governors, pursuant to section 4(d) of the Act (12 U.S.C. 1843(d)), for an exemption from the prohibitions of section 4 of the Act (relating to nonbanking activities of, and acquisitions by a bank holding company).

Notice of receipt of the application, affording opportunity for interested persons to submit comments and views with respect to this application, has been duly published (39 FR 26946). The time for filing comments and views has expired, and the Board has considered the application and all comments received, including those of Time Share Corporation, Hanover, New Hampshire, and The Cyphernetics Corporation, Ann Arbor, Michigan, in light of the factors set forth in section 4(d) of the Act.

Section 4(d) of the Act provides that, to the extent such action would not be substantially at variance with the purposes of the Act and subject to such conditions as the Board considers necessary to protect the public interest, the Board may grant an exemption from the provisions of section 4 of the Act to a bank holding company that controlled one bank prior to July 1, 1968, and has not thereafter acquired the control of any other bank in order (1) to avoid disrupting business relationships that have existed over a long period of years without adversely affecting the banks or communities involved or (2) to avoid forced sales of small locally owned banks to purchasers not similarly representative of community interests, or (3) to allow retention of banks that are so small in relation to the holding company's total interests and so small in relation to the banking market to be served as to minimize the likelihood that the bank's powers to grant or deny credit may be influenced by a desire to further the holding company's other interests.

Applicant is a degree-granting institution of higher learning with a student body in excess of 4,000. Applicant engages in numerous activities incidental to its primary educational efforts, including the ownership of real estate, operation of a fine arts center, and the investing of endowment funds. Applicant is also engaged in the academic and commercial application of data processing, including time-sharing and "software" sales.[1] In addition, Applicant is the owner of an inn and approximately 53 percent of the total outstanding shares of Hanover Water Works Company, Hanover, New Hampshire, a public utility.

Applicant was a charter subscriber to Bank at the time of Bank's organization in 1865. With deposits of approximately $16 million as of December 31, 1973, Bank is the third largest of nine banks in the relevant market (approximated by Grafton County) and holds about 21 percent of the aggregate deposits in commercial banks in that market and about 1 percent of the total deposits in the State. Bank appears to be in generally satisfactory condition, its management capable, and its prospects good. On the basis of the record, the Board finds Applicant's long association with Bank has not had adverse effects on the condition of Bank or the communities served by it.

In its consideration of the subject request for an exemption under section 4(d) of the Act, the Board notes that Time Share Corporation, Hanover, New Hampshire, and the Cyphernetics Corporation, Ann Arbor, Michigan (referred to herein as "Protestants") have objected to approval of the request. In general, the

[1] Kiewit Computer Center (Kiewit) is a division of the college that is used primarily for educational purposes but also sells excess computer time and Dartmouth Time-Share System (DTSS) is a subsidiary of Applicant which develops and sells computer "software."

Protestants' reason for urging disapproval of the request can be summarized as follows: (1) Applicant's competitive advantage in the sale of excess computer time is unfairly gained because of Applicant's involvement with Bank; (2) Applicant's extensive real estate holdings (which resulted from a large grant of land during colonial times) has created an unfair advantage because time-share users in the real estate field who are customers of Bank are likely to use Applicant's time-share services; and (3) Applicant violated the Bank Holding Company Act by expanding its computer activities without the prior approval of the Board and the type of data processing activities engaged in by Applicant are not permissible under section 4(c)(8) of the Act and § 225.4(a)(8) of the Board's Regulation Y.

Initially, it should be noted that it appears that a review of the financial data submitted by Applicant does not indicate that Applicant has been significantly involved in the commercial sale of excess computer time. Since the Kiewit Computer Center is a division of the school and is not a separate corporation, no separate financial data on Kiewit is available. However, a review of the billings for fiscal year ending June 30, 1973, reveals that only 17.7 percent of all computer time-share users were "off-campus" users. Furthermore, only 2.8 percent of the total billings were attributed to commercial use. The remaining off-campus billings were attributed to other education institutions, with the exception of 1.1 percent which was attributed to government use. In terms of income, the revenue received from commercial customers amounted to only about $60,000 for the above period. Moreover, of particular relevance to the inquiry herein is the fact that Applicant recently adopted a policy, effective January 1, 1975, terminating all commercial use of the Kiewit center except for uses of a "demonstration" nature which can be of value in the development of computer technology. Thus, it appears that the commercial use of the Kiewit Computer Center has not been significant in the past and will decrease even further in the future.

Much the same conclusion can be drawn with respect to the competitive position of Applicant's subsidiary (DTSS) in the market for the sale of computer "software." In fiscal years 1973 and 1974, DTSS had operating deficits of $69,949 and $227,145, respectively. In 1973 and 1974, total revenues amounted to $30,000 and $142,500, respectively, while operating expenses amounted to $99,949 and $371,000, respectively. On the basis of the foregoing, it does not appear that Applicant occupies a significant position in the market for the sale of computer "software."

Turning now to the first two objections offered by Protestants, the Board does not believe that Protestants have demonstrated that Applicant possesses a distinctive competitive advantage in the areas of time-sharing of computer time and "software" sales because of Applicant's involvement with Bank. In general, as noted above, Protestants argue that Applicant has some sort of competitive advantage because Bank's customers may also purchase time-sharing services from Applicant and real estate developers that are customers of Bank are also likely to use Applicant's time sharing services because Applicant is a large real estate holder. The record before the Board does not support Protestants' allegations.

As noted above, Applicant does operate a computation center in conjunction with its college curriculum. As a by-product of this effort, Applicant has also engaged through the years in the sale of excess computer time and in the development and sale of software. While Applicant may serve customers in these product lines who are also customers of Bank, it has not been shown that Bank has engaged in any illegal "tie-in" arrangements that would be in violation of section 106(b) of the Act, which generally prohibits any bank from tieing the providing of credit or of any service with the condition or requirement that a customer also purchase some additional service from the bank, the bank's parent holding company, or any of that holding company's subsidiaries. Accordingly, the mere fact that customers of Bank may choose to purchase services from Applicant does not appear to justify the conclusion that Applicant has abused its relationship with Bank or that it is not entitled to an exemption under criteria set forth in section 4(d) of the Act.

Protestants' third contention is that Applicant has violated the Act by engaging in impermissible computer activities and by engaging in such activities without prior approval of the Board. With respect to this contention, it appears that Applicant's time-sharing activities have been continuously engaged in since before June 30, 1968, and is, therefore, indefinitely "grandfathered" under the provisions of section 4(a)(2) of the Act. Similarly, with respect to the development and sale of "software", it appears from the record that Applicant engaged in this activity to a limited extent prior to June 30, 1968, increased the activity after that date, and has been engaged in the development and sale of "software" since prior to December 31, 1970 (the date of the 1970 Amendments to the Act) and is, therefore, entitled to engage in such activity at least until December 31, 1980, under the provisions of section 4(a)(2) of the Act. Accordingly, since the data processing activities of Applicant are "grandfathered" under the Act, the Board finds that no violation of the Act arises even though such activities may not be permissible under section 4(c)(8) of the Act and § 225.4(a)(8) of the Board's Regulation Y. The Board concludes, therefore, that the third contention of Protestants is not sufficient to warrant denial of Applicant's request for an exemption.

On the basis of the entire record, the Board concludes that the business relationship between Applicant and Bank has existed for more than a century without adversely affecting the bank or communities involved. It also appears unlikely that Bank's powers to grant to deny credit would be influenced by a desire to further Applicant's other interests. Granting an exemption to Applicant would not be substantially at variance with the purposes of the Act nor adverse to the public interest, and an exemption is warranted under the provisions of section 4(d) of the Act. Accordingly, an exemption pursuant to section 4(d) of the Act is hereby granted subject to the condition that this determination may be revoked if the facts upon which it is based change in any material respect. Further, the provision of any credit, property, or service by the Applicant or any subsidiary thereof shall not be subject to any condition which would constitute an unlawful tie-in arrangement under section 106 of the Bank Holding Company Act Amendments of 1970. The determination herein is subject to the Board's authority to require modification or termination of the activities of Applicant or any of its nonbanking subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasions thereof.

By order of the Board of Governors,[2] effective February 12, 1975.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.75-4936 Filed 2-24-75;8:45 am]

VALLEY VIEW BANCSHARES, INC.

Acquisition of Bank

Valley View Bancshares, Inc., Overland Park, Kansas, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 24.99 percent of the voting shares of Industrial Bancshares, Inc., Kansas City, Kansas, a bank holding company proposed to be formed through the acquisition of Industrial State Bank, also located in Kansas City, Kansas. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)). Notice of this application was previously published in the FEDERAL REGISTER on December 31, 1974 (39 FR 45330 (1974)).

Valley View Bancshares, Inc. has also applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to indirectly acquire voting shares of the insurance agency business of Industrial State Bank ("Bank"), which business is presently being conducted at the offices of Bank in Kansas City, Kansas. Notice of that application was published on February 13, 1975 in The Kansas City Times, a newspaper circulated in Kansas City, Missouri.

[2] Voting for this action: Chairman Burns and Governors Mitchell, Bucher, Holland, Wallich, and Coldwell. Absent and not voting: Governor Sheehan.

XUM
V 40 138 FEB 25 75 E
XUM

Applicant states that the proposed subsidiary would engage in the activity of acting as an insurance agent for the sale of credit-related insurance issued in connection with extensions of credit by Industrial State Bank. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Kansas City.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than March 13, 1975.

Board of Governors of the Federal Reserve System, February 19, 1975.

[SEAL] GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-265]

COMMONWEALTH EDISON CO.

Issuance of Amendment to Facility Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 8 to Facility Operating License No. DPR-30 issued to Commonwealth Edison Company (acting for itself and on behalf of the Iowa-Illinois Gas and Electric Company) which revised Technical Specifications for operation of the Quad Cities Nuclear Power Station Unit 2 located in Rock Island County, Illinois. The amendment is effective as of its date of issuance.

The amendment incorporates a design feature change by specifying the number of fuel assemblies (724) without reference to the fuel rod array in a fuel assembly, and authorizes loading of 8 x 8 fuel assemblies into the reactor. This amendment is a portion of the proposed amendment noticed in the FEDERAL REGISTER on January 7, 1975 (40 FR 1291). No request for a hearing or petition for leave to intervene has been filed in connection with the Notice of Proposed Issuance of Amendment. The remaining changes necessary to complete the proposed amendment to authorize operation of Quad Cities Unit 2 with the 8 x 8 fuel are still under consideration.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Ch. I, which are set forth in the license amendment.

For further details with respect to this action, see (1) the application for amendment dated December 13, 1974 and supplement thereto dated December 20, 1974, (2) Amendment No. 8 to License No. DPR-30, with Change No. 23, and (3) the Commission's concurrently issued related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. and at the Moline Public Library at 504—17th Street, Moline, Illinois 61265. A single copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 13th day of February, 1975.

For the Nuclear Regulatory Commission.

DENNIS L. ZIEMANN,
Chief, Operating Reactors Branch No. 2, Division of Reactor Licensing.

[FR Doc.75-4953 Filed 2-24-75;8:45 am]

[Docket No. 50-206]

SOUTHERN CALIFORNIA EDISON CO. AND SAN DIEGO GAS AND ELECTRIC CO.

Issuance of Amendment to Provisional Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 9 to Provisional Operating License No. DPR-13 issued to Southern California Edison Company and San Diego Gas and Electric Company which revised Technical Specifications for operation of the San Onofre Nuclear Generating Station, Unit 1, located near Camp Pendleton, San Diego County, California. The amendment is effective as of its date of issuance.

The amendment revises portions of Section 5 of the Environmental Technical Specifications to reflect a change in Southern California Edison Company's corporate organization.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Ch. I, which are set forth in the license amendment. Prior public notice of this amendment is not required since the amendment does not involve a significant hazards consideration.

For further details with respect to this action, see (1) the application for amendment dated December 20, 1974 and (2) Amendment No. 9 to Provisional Operating License No. DPR-13, with any attachments. These items are available for public inspection at the Commission's Public Document Room, 1717 H St., NW, Washington, D.C., and in the San Clemente Public Library, 233 Granada Street, San Clemente, California.

A copy of Amendment No. 9 may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 14th day of February, 1975.

For the Nuclear Regulatory Commission.

ROBERT A. PURPLE,
Chief, Operating Reactors Branch 1, Division of Reactor Licensing.

[FR Doc.75-4954 Filed 2-24-75;8:45 am]

ATOMIC SAFETY AND LICENSING BOARD

Establishment of Board To Rule on Petitions

Pursuant to delegation by the Commission dated December 29, 1972, published in the FEDERAL REGISTER (37 FR 28710) and §§ 2.105, 2.700, 2.702, 2.714, 2.714a, 2.717 and 2.721 of the Commission's Regulations, all as amended, an Atomic Safety and Licensing Board is being established to rule on petitions and/or requests for leave to intervene in the following proceeding:

NEW YORK STATE ELECTRIC AND GAS CORP.
(Somerset Power Project, Nuclear Units 1 and 2)
Docket No. P-507-A

This action is in reference to a FEDERAL REGISTER notice entitled "Receipt of Attorney General's Advice and Time for Filing of Petitions to Intervene on Antitrust Matters", which was published by the Commission in the above matter (40 FR 2463) on January 13, 1975.

The Members of the Board are:

Marshall E. Miller, Esq., Chairman
John M. Frysiak, Esq., Member
Sidney G. Kingsley, Esq., Member

The address of all of the above is:

Atomic Safety and Licensing Board Panel
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

It is so ordered.

Dated at Bethesda, Maryland this 19th day of February 1975.

ATOMIC SAFETY AND LICENSING BOARD PANEL,
NATHANIEL H. GOODRICH,
Chairman.

NATIONAL SCIENCE FOUNDATION

FEDERAL COMMITTEE ON ECOLOGICAL RESERVES

Charter

On November 15, 1974, the charter of the Federal Committee on Ecological Reserves was formally adopted. This interagency committee has been established to provide the leadership for a coherent national program on ecological reserves. Successor to the Federal Committee on Research National Areas, the Committee is concerned with research natural areas and other Federal scientific reserves. Its membership is comprised of representatives from 19 Federal agencies and its Chairman is Dr. Jerry F. Franklin, Program Director, Ecosystem Analysis Program, National Science Foundation. The charter is being published in the FEDERAL REGISTER for public information.

CHARTER OF THE FEDERAL COMMITTEE ON ECOLOGICAL RESERVES

Attainment of national environmental and land use goals depends on the continued progress of ecological and environmental sciences in the United States. Critical to the health of these sciences is an adequate system of field research sites encompassing the array of terrestrial, freshwater, and marine ecosystems and both the strictly reserved Research Natural Areas and experimental areas for basic and applied research in ecology and on environmental and management problems, the baseline control areas for appraising the effects of action programs, and the gene pool reservoirs for many ordinary as well as rare and endangered organisms.

Substantial contributions have already been made to a national system of ecological reserves by a multitude of Federal, State, Academic and private efforts. Over 400 Research Natural Areas have been established on Federal lands alone and this committee's predecessor (Federal Committee on Research Natural Areas) did outstanding work in stimulating, coordinating, and publicizing the federal agency activities. Substantial numbers of experimental sites have developed on either a formal or *ad hoc* basis (Experimental Forests and Ranges of USDA, National Environmental Research Parks of AEC, biological field stations, and IBP Biome research sites, for example).

Today there is clearly a critical need for leadership in planning and coordinating these activities. A coherent national plan is needed so that the numbers and kinds of areas needed for an adequate system of ecological reserves are identified. Relevant activities in the numerous Federal agencies need to be coordinated both within the Federal establishment and with State and private endeavors. Emphasis on comprehensive land planning and environmental impact assessment makes the activity and need for leadership urgent. Planners need responsible and coordinated information on what sites require protection as critical scientific facilities.

For these reasons creation of a permanent Federal Committee on Ecological Reserves is considered essential. It is to provide the leadership for a coherent national program on ecological reserves which can come only at the Federal level. The responsibilities of agencies to lands and natural area programs under their jurisdiction remain unchanged; management of lands and execution of programs remain their domain. The Committee's purpose is to supplement and assist agencies in fulfilling their missions as well as to provide an overall Federal focus.

It is important to realize that the goal of this program is not simply provision of areas for research. The objectives are in fact, contributions to national environmental goals as stated in NEPA, better land planning, and improved resource management.

The Committee will be concerned with *Ecological Reserves* which are those areas dedicated primarily or exclusively to scientific research and education on ecological and environmental problems including: *Research Natural Areas*, where natural processes are allowed to dominate and any management is to preserve a given ecosystem or feature; and *Experimental Ecological Areas*, where various kinds of experiments or management practices can be carried out and studied on wildland and associated aquatic ecosystems in order to provide new scientific knowledge of those systems or as a demonstration.

GENERAL OBJECTIVES OF COMMITTEE

The board objectives of the Federal Committee on Ecological Reserves are:

1. To insure creation and maintenance of an adequate national system of natural and experimental areas for environmental and ecological research including identification, designation, and protection of the essential areas. Included here are major responsibility for working with Federal land agencies on those system components which are Federal lands and leadership and encouragement with regard to components in state, local and private lands.

2. To insure development of permanent data retrieval systems on the location of the areas and the ecological and environmental data available for each to service: (a) the research and development community who need such areas; (b) the land planning agencies at Federal, state and local levels; and (c) decision makers and agencies in the environmental area.

3. To encourage development of research programs, particularly, collection of baseline ecological and environmental data on these key national research sites and their use for long-term monitoring.

4. To encourage a broad array of educational uses of ecological reserves of types and intensities compatible with the other objectives and functions of a specific reserve.

5. To lead in developing the structures for coordinating Federal activities with those of State and local governments and academic groups and private organizations concerned with scientific reserves and experimental areas.

IMMEDIATE TASKS OF THE FEDERAL COMMITTEE

(Completion within 1 year)

1. To update and issue a revised version of the "Directory of Research Natural Areas on Federal Lands."

2. To encourage the adoption of the standard policy statement on establishment and management of Federal Research Natural Areas, prepared by the previous Federal Committee on Research Natural Areas, by the participating Federal agencies.

3. To develop a formal mechanism for review of Federal properties declared excess by the holding agency prior to disposal action by GSA for their value as field research sites; further, when properties are found to be of critical value for ecological and environmental research to recommend appropriate transfers to Federal, State or local agencies for the designation and protection of such sites.

4. To advise and participate actively, when possible, in the pending The Institute of Ecology national study of experimental research sites (including biological field stations, experimental forests and ranges, etc.).

5. Pending development of a comprehensive national plan on Research Natural Areas needs, to identify, on an interim basis and using extant classifications, the most critical gaps in existing Research National Areas, and to advise appropriate Federal agencies of these outstanding needs and encourage them to fill them.

6. Prepare a compilation of the authorities, legislative and regulatory, under which Federal agencies establish ecological reserves.

INTERMEDIATE RANGE TASKS OF THE FEDERAL COMMITTEE

(Completion within 1 to 5 years)

1. To see that a more adequate classification of the natural environments or ecosystems of the United States is developed to serve as a basis for identifying field research site needs, this system to include both biotic and physical elements.

2. To lead in the preparation of a comprehensive plan for a National System of Ecological Reserves including Research Natural Areas and Experimental Areas. This plan is to build in substantial measure upon past and current studies including the National Park Service theme studies and to identify extant areas which are appropriate components of a national system and gaps which remain to be filled through identification and designation of new areas. This plan is to be structured in the context of an overall classification of the natural environments or ecosystems of the United States and identification of how many natural and experimental areas are needed in each ecosystem.

3. To stimulate, as necessary, the completion of a comprehensive computerized inventory and register of Research Natural Areas in the United States. This effort has been partially carried out by various groups but needs to be brought together and completed. Identification of the appropriate "home" and mechanism for this effort should be possible by mid-1974 as analysis of the IBP Conservation of Ecosystems efforts become available.

4. Develop the mechanism, and advertise it, for providing information on critical research areas to land planning groups at all levels; this task is related to but separate from development of the computerized inventory.

5. Develop the appropriate structure for involving State and local governments and private organizations, and academic and governmental scientists, in the deliberations of the Federal Committee. Several possibilities exist and must be evaluated including a separate but related committee, an advisory committee, membership in the Federal Committee, etc. The key objectives here are, communication and coordination, and ultimately agreement on a coherent effort, between various governmental levels and between expert scientists and the administrators. Whatever mechanisms which will accomplish this are the ones we want.

6. Obtain or stimulate financing for monitoring and baseline research needed at the field research sites to insure their value in long-range environmental programs.

7. Develop standard policy statement providing guidelines and criteria for Federal Experimental Ecological Areas and encourage its adoption by the participating Federal agencies.

[Rel. No. 8675]

ELT INC. AND B.S.F. CO.

Notice of Application Pursuant to Section 17(b) of the Investment Company Act of 1940 and Rule 17d-1 Promulgated Under Section 17(d) Thereof

FEBRUARY 14, 1974.

Notice is hereby given the ELT, Inc., 498 North Kings Highway, Cherry Hill, New Jersey 08034, ("ELT") a Pennsylvania corporation, and B.S.F. Company, 25100 La Loma Drive, Los Altos Hills, California 94022, ("B.S.F."), a registered under the Investment Company Act of 1940 ("Act") as a closed-end non-diversified management investment company (hereinafter collectively referred to as "Applicants"), have filed an application on January 9, 1975 and amendments on January 23, 1975, and February 4, 1975, pursuant to Section 17(b) of the Act for an order of the Commission exempting from the provisions of Section 17(a) of the Act a proposed merger of B.S.F. into ELT, and pursuant to Rule 17d-1 promulgated tions of Section 17(a) of the Act a order permitting certain transactions incident to the proposed merger. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

As of December 31, 1974, ELT, which is engaged in the manufacture and sale of certain goods such as incandescent and negative-glow lamps and lighting products, processed metal products, and disposable plastic products, and which also holds an interest in Baltimore Paint and Chemical Corporation, owned of record and beneficially 385,277 shares of B.S.F. common stock, representing approximately 52.9 percent of B.S.F.'s total outstanding shares. Consequently, Applicants are affiliated persons as defined in Section 2(a)(3) of the Act.

In addition, of the five directors on the ELT and B.S.F. Boards of Directors, three are common to both companies and certain of the ELT and B.S.F. officers and directors hold shares of one or both companies.

B.S.F., which has been registered under the Act since 1962, has approximately 950 shareholders of record. Its shares are listed on the American Stock Exchange, but trading in such shares has been suspended since 1968. Although B.S.F. shareholders, on December 8, 1972, approved a proposal to change the nature of B.S.F.'s business so that it would cease to be an investment company, this was not accomplished due to management's inability to locate investments which would qualify both as investments of the type required to change the nature of B.S.F.'s business and as investments which would otherwise be suitable as businesses to be operated by B.S.F.

The Board of Directors of B.S.F. have now approved a Plan and Agreement of Merger ("Agreement") which provides for the merger of B.S.F. into ELT. The Agreement has also been approved by the Board of Directors of ELT. Upon the effective date of the merger, each outstanding share of B.S.F. common stock issued and outstanding on such date (exclusive of treasury shares and shares owned by ELT, which will be cancelled) will be converted into one share of ELT common stock.

The decision to implement an exchange ratio of one share of ELT for each share of B.S.F. was made after consideration of an appraisal report, dated November 24, 1974, prepared by Duff, Anderson & Clark, Inc. ("Duff Anderson"), acting on behalf of ELT, and concurred in by Bacon, Whipple & Co., ("Bacon Whipple") acting on behalf of B.S.F. Applicants state that neither appraiser has any affiliation or previous business dealings with ELT or B.S.F. The fee charged by Duff Anderson for its services is estimated at $40,000; the fee of Bacon, Whipple is estimated at $10,000. If the merger is consummated, ELT will pay the fees of both appraisers; otherwise, each party will pay the fees of their respective appraiser.

In determining the proposed exchange ratio, consideration was given by Duff Anderson to (1) the reasonableness of the current market price of ELT common stock relative to that company's present status and longer-term outlook and (2) the market or fair value of B.S.F.'s assets. Duff Anderson determined that ELT's common stock is reasonably priced in the current market and that the value of B.S.F.'s total net assets, reported as $5,685,000 in B.S.F.'s November 1, 1974 balance sheet should be adjusted by a reduction of $139,000 to reflect brokerage expense of trading listed securities, thin markets in two over-the-counter securities and uncertainties concerning a third security. Based on the market price of ELT stock on November 1, 1974, and the aforementioned adjusted value of B.S.F.'s assets, Duff Anderson recommended that the exchange ratio be established at 99.8 percent of a share of ELT for each share of B.S.F. Bacon Whipple affirmed that the exchange ratio is fair and reasonable. The Boards of Directors of Applicants, believing that the .2% difference in the proposed exchange did not justify the administrative cost associated with payment for fractional shares, decided that the exchange should take place on the basis of one share of ELT for one share of B.S.F.

Subsequently, the management of Applicants requested that Duff Anderson reexamine its appraisal report and Bacon Whipple reexamine its affirmation, principally because of a change in circumstances regarding South Bay Corporation, a closed-end investment company in which B.S.F. holds 79,180 shares. The increasing likelihood of South Bay's dissolution, pursuant to a court settlement, made it apparent that the valuation of South Bay's shares used in the original appraisal report was too low.

In a letter dated January 21, 1975, Duff Anderson revised the valuation figures of ELT and B.S.F. concluding that the value of a share of ELT would equal 97.5 percent of the adjusted net asset value of a B.S.F. share. Nevertheless, Duff Anderson stated that one for one exchange ratio was still fair and equitable. Bacon Whipple concurred with the Duff Anderson statement.

A subsequent letter from Duff Anderson, dated February 3, 1975, stated that, based on January 30 market prices, ELT common stock's market price of 8⅛ would result in a token discount for those B.S.F. shareholders exchanging their shares since the adjusted net asset value of a B.S.F. share (based on B.S.F.'s December 31 portfolio with January 30 prices for its marketable securities) was $8.14. Again, Bacon Whipple concurred in Duff Anderson's conclusion that a one-for-one exchange is fair and equitable.

Applicants have received a ruling from the Internal Revenue Service to the effect that no gain or loss for Federal income tax purposes will be recognized by ELT, B.S.F., ELT shareholders, or B.S.F. shareholders who participate in the merger. The basis of ELT shares received by former B.S.F. shareholders who participate in the merger will be the same as the basis of the B.S.F. shares exchanged by them for ELT shares.

The Boards of Directors of ELT and B.S.F. have each voted to recommend the merger to their shareholders and intend to call separate special meetings of the shareholders of the two companies to be held for the purpose of voting on the proposed merger.

John J. Harvey, Chairman of the Board of Directors of ELT and President, Treasurer and Director of B.S.F., beneficially owns 6.2 percent of the outstanding shares of B.S.F. and 3.1 percent of the outstanding shares of ELT. Peter R. Harvey, President and Director of ELT and Director of B.S.F. owns 8.3 percent of the outstanding shares of ELT and 4.1 percent of the outstanding shares of B.S.F. The B.S.F. shares owned by all officers and directors of B.S.F. represent approximately 12 percent of the total outstanding. The ELT shares owned by all officers and directors of ELT, represent approximately 13 percent of the total outstanding. In addition, aside from Peter R. Harvey, John J. Harvey and Bert M. Kleinman (who is also a director of both Applicants), one officer-director of ELT owns B.S.F. shares and two directors of B.S.F. (one of whom is also an officer) own shares of ELT.

Each of the aforementioned directors and officers of ELT and B.S.F. intends to vote his respective ELT and B.S.F. shares in favor of the merger and to exchange any B.S.F. shares held by him for ELT shares upon consummation of the merger. If the merger is effectuated, ELT will have outstanding 2,236,527 shares, of which Peter R. Harvey will own 187,380 shares, or approximately 8.3 percent of the total outstanding; John J. Harvey will own 103,001 shares, or approximately 4.6 percent; and all officers and directors of both ELT and B.S.F. will own 337,724 shares, or approximately 15 percent.

Section 17(a) of the Act, in pertinent part, provides that it is unlawful for any affiliated person of a registered investment company or any affiliated person of such affiliated person, to sell to, or purchase from, such investment company any security or property unless the Commission, upon application pursuant to Section 17(b) of the Act, grants an exemption from the provisions of Section 17(a) after finding that the terms of the proposed transaction are fair and reasonable, do not involve overreaching on the part of any person concerned, and are consistent with the general purposes of the Act. The purchase of the assets of B.S.F. by ELT is a transaction subject to the provisions of Section 17(a) of the Act.

Section 17(d) of the Act and Rule 17d-1 thereunder, taken together provide, in pertinent part, that it shall be unlawful for any affiliated person of a registered investment company or any affiliated person of such a person, acting as principal, to participate in, or effect any transaction in connection with any joint enterprise or arrangement in which any such registered company, or a company controlled by such registered company, is a participant unless an application regarding such arrangement has been granted by an order of the Commission, and that, in passing upon such an application, the Commission will consider whether the participation of such registered or controlled company in such arrangement is consistent with the provisions, policies and purposes of the Act. The actions of the aforementioned officers and directors of B.S.F. and ELT in voting on the merger and exchanging B.S.F. shares for ELT shares upon its consummation may be deemed to constitute a joint arrangement between them and B.S.F. and thus, subjects their action to the provisions of Section 17(d) and Rule 17d-1.

Applicants state that the proposed terms of the merger, including the consideration to be paid or received upon its consummation, are reasonable and fair and do not involve overreaching on the part of any person concerned. The ratio provides a premium over the bid price for B.S.F. shares which B.S.F. shareholders could not expect to achieve by market sales of their shares. ELT, whose financial condition is fairly tight due to sizable short-term and long-term debt, will benefit through the merger because of balance sheet improvements produced by ELT's acquisition of B.S.F.'s liquid assets. Although the proposed ratio involves a discount from estimated adjusted net assets value for B.S.F. shares as of December 31, 1974, Applicants submit that the discount is slight. Moreover, Applicants state that the merger will cause a dilution of ELT's earnings per share and net tangible book values per share which will benefit the B.S.F. shareholders and disadvantage the ELT shareholders. Applicants contend that the projected discount from B.S.F.'s adjusted net asset value is justified, and that any change in the proposed ratio to eliminate the discount would be unduly disadvantageous to the ELT shareholders.

Applicants further allege that the proposed merger would not involve overreaching on the part of any affiliated person of B.S.F. and that all such persons who will participate in the merger as shareholders of B.S.F. will participate on the same basis as all other B.S.F. shareholders.

Notice is further given that any interested person may, not later than March 6, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, and the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, DC. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the addresses stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following March 6, 1975, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation pursuant to delegated authority.

[SEAL] SHIRLEY E. HOLLIS,
Assistant Secretary.

[Rel. No. 8672]

WESTERN/AMERICA FUND, INC.

Filing of Application Pursuant to Section 8(f) of the Act for an Order Declaring That Company Has Ceased To Be an Investment Company

FEBRUARY 14, 1975.

Notice is hereby given that Western/America Fund, Inc., 2403 Financial Center, Seattle, Washington 98161 ("Applicant"), registered under the Investment Company Act of 1940 ("Act") as a diversified open-end management investment company, filed an application on November 21, 1974, pursuant to Section 8(f) of the Act for an order of the Commission declaring that Applicant has ceased to be an investment company. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant, a Washington corporation, registered under the Act by filing its Notification of Registration on Form N-8A on April 30, 1969, under the name "Fund of the West, Inc."

On September 19, 1974, at a special meeting of Applicant's shareholders, a resolution was adopted by more than two-thirds of the outstanding voting securities to dissolve the corporation by voluntary act pursuant to Title 23A, Revised Code of Washington. Applicant states that pursuant to the action by shareholders all of Applicant's assets have been distributed in cash to its shareholders in cancellation of Applicant's outstanding shares.

Applicant further states that it no longer has any shareholders; that it does not engage nor propose to engage in any investment company or other activity; and that it has filed its Statement of Intent to Dissolve as required by the Revised Code of Washington.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company, has ceased to be an investment company, it shall so declare by order, and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than March 12, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] SHIRLEY E. HOLLIS,
Assistant Secretary.

[Rel. No. 8671]

WASHINGTON INVESTMENT NETWORK, INC.

Filing of Application Pursuant to Section 8(f) of the Act for an Order Declaring That Company Has Ceased To Be an Investment Company

FEBRUARY 14, 1975.

Notice is hereby given that Washington Investment Network, Inc., 2030 M St., NW., Suite 602, Washington, D.C. 20036 ("Applicant") originally registered under the Investment Company Act of 1940 ("Act") as an open-end, non-diversified management investment company, filed an application on November 29, 1974, pursuant to Section 6(f) of the Act, for an order of the Commission declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant states that pursuant to a Plan of Complete Liquidation and Dissolution ("Plan") adopted by shareholders on July 31, 1974, Applicant converted to a closed-end company, and ceased the redemption of its shares.

Between August and November 1974, Applicant completed the liquidation of its remaining securities holdings and paid its ascertainable liabilities. On November 1, 1974, The United Missouri Bank of Kansas City, Applicant's custodian, and now Agent for Stockholders pursuant to the Plan, commenced distribution of Applicant's assets to its shareholders. Applicant further states that it will file final income and franchise tax returns, and thereafter, the appropriate Certificate of Dissolution.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than March 12, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, and the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

SHIRLEY E. HOLLIS,
Assistant Secretary.

[License No. 01/01-5273]

MASSACHUSETTS VENTURE CAPITAL CORP.

Filing of Application for Approval of Conflict of Interest Transaction

Notice is hereby given that Massachusetts Venture Capital Corporation (licensee), 141 Milk Street, Boston, Massachusetts 02109, a small business investment company licensed under section 301(d) of the Small Business Investment Act of 1958, as amended (the Act), has filed with the Small Business Administration (SBA) an application for exemption from the provisions of 13 CFR 107.1004 (1974).

Licensee proposes to invest $150,000 in Geneva Printing and Publishing, Inc. (Geneva), a small business concern located in Boston, Massachusetts.

The proposed financing comes within the purview of the cited regulation by virtue of the fact that Mr. Charles T. Grigsby, President of the licensee, is also one-third owner of Lee Grigsby Associates, which owns 90 percent of Geneva's outstanding stock.

Notice is hereby given that any person may, not later than March 12, 1975, submit comments to SBA on the proposed transaction. Any such comments should be addressed to the Deputy Associate Administrator for Investment, Small Business Administration, 1441 L Street NW., Washington, D.C. 20416.

Notice is further given that any time after such date, SBA may dispose of the application on the basis of the information set forth therein and other relevant data.

A copy of this notice shall be published in a local newspaper in Boston, Massachusetts.

Dated: February 14, 1975.

JAMES THOMAS PHELAN,
Deputy Associate Administrator for Investment.

INTERSTATE COMMERCE COMMISSION

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway Applications

FEBRUARY 14, 1975.

The following applications to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065(d)(2)), and notice thereof to all interested persons is hereby given as provided in such rules.

Carriers having a genuine interest in an application may file an original and three copies of *verified statements* in opposition with the Interstate Commerce Commission within 30 days from the date of publication. (This procedure is outlined in the Commission's report and order in *Gateway Elimination*, 119 M.C.C. 530.) A copy of the verified statement in opposition must also be served upon applicant or its named representative. The verified statement should contain all the evidence upon which protestant relies in the application proceeding including a detailed statement of protestant's interest in the proposal. No rebuttal statements will be accepted.

No. MC 29079 (Sub-No. 73G) (Partial Correction), filed June 4, 1974, published in the FEDERAL REGISTER issue of January 20, 1975, and republished, as corrected, in part this issue. Applicant: BRADA MILLER FREIGHT SYSTEM, INC., 1210 South Union Street, P.O. Box 935, Kokomo, Ind. 46901. Applicant's representative: Edward K. Wheeler, 704 Southern Building, 15th & H Streets NW., Washington, D.C. 20005.

NOTE.—The purposes of this republication are to correct the commodity description in (A) to read as follows: *Iron, steel and iron and steel products, dies, and die parts, die models, hand jigs, tools, patterns and templates* when moving in connection with dies; and correct the territorial description in (D) to read as follows: between Anaconda Wire and Cable Company plantsite near LaGrange, Ky. and North American Rockwell Corporation plantsite and warehouse near Winchester, Ky., on the one hand, and, on the other points in Washington and Greene Counties, Pa. and points in West Virginia north of U.S. Highway 40. The rest of the notice remains as originally published.

No. MC 43670 (Sub-No. 6G) (Partial Correction), filed June 3, 1974, published in the FEDERAL REGISTER issue of January 28, 1975, and republished, in part, as corrected, this issue. Applicant: DELCHER BROTHERS STORAGE COMPANY, a corporation, 262 Riverside Avenue, Jacksonville, Fla. 32201. Applicant's representative: Sheldon Silverman, 1819 H Street NW., Washington, D.C. 20006.

NOTE.—The purpose of this republication is to add the following authority omitted in the original publication: (10) between points in California on the one hand, and, on the other, points in Alabama, Connecticut, Delaware, Georgia, Illinois, Indiana, Kentucky, Louisiana, Maryland, Maine, Massachusetts, Michigan, Mississippi, Missouri, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia, and those in the part of Texas east of Interstate Highway 45 from Galveston to Dallas, points east of U.S. Highway 75 from Dallas to the Oklahoma State Boundary line, points in that part of Oklahoma east of U.S. Highway 75 from Texas to the Kansas State Boundary line, points in Kansas east of Interstate Highway 35 from the Oklahoma State Boundary line to Topeka, and east of U.S. Highway 75 from Topeka to the Nebraska State Boundary line, and points in Iowa east of Interstate Highway 35 from Missouri to the Minnesota State Boundary line. The purpose of this filing is to eliminate the gateway at Florida. The rest of the notice remains as previously published.

No. MC 59247 (Sub-No. 6G) (Amendment), filed June 4, 1974, published in the FEDERAL REGISTER issue of January 14, 1974, and republished, in part as amended, this issue. Applicant: LINDEN MOTOR FREIGHT CO., INC., 1300 Lower Road, Linden, N.J. 07036. Applicant's representative: William Biederman, 280 Broadway, New York, N.Y. 10007.

NOTE.—The purpose of this partial republication is to amend the territorial description in (4) to read as follows: Between Philadelphia, Pa. on the one hand, and, on the other, points in New Jersey north of a line between Phillipsburg and Asbury Park, N.J. The rest of the notice remains as previously published.

No. MC 109172 (Sub-No. 11G), filed June 4, 1974. Applicant: NATIONAL TRANSFER, INC., 4100 East Marginal Way South, Seattle, Wash. 98134. Applicant's representative: George R. LaBissoniere, 130 Andover Park East, Suite 101, Seattle, Wash. 98188. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Construction materials, and building materials* between points in Washington; on and east of a line extending north and south through the Cascade Tunnel, on the one hand, and, on the other, points in King and Pierce Counties, Wash., and Benton, Clackamas, Clatsop, Columbia, Douglas, Lane, Lincoln, Linn, Marion, Multnomah, Polk, Tillamook, Washington and Yamhill Counties, Oreg., and (2) *commodities the transportation of which because of size* or weight requires the use of special *equipment*, between points in that part of Washington east of the western boundaries of Oklahoma, Chelan, Kittitas, Yakima and Klickitat Counties, Wash., on the one hand, and, on the other, points in King and Pierce Counties, Wash., and Benton, Clackamas, Clatsop, Columbia, Douglas, Lane, Lincoln, Linn, Marion, Multnomah, Polk, Tillamook, Washington, and Yamhill Counties, Oreg. The purpose of this filing is to eliminate the gateway of Seattle, Wash.

No. MC 113855 (Sub-No. 293G) (Amendment), filed June 4, 1974, published in the FEDERAL REGISTER issue of January 27, 1975, and republished as

XUM

amended, this issue. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Road SE., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First National Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: I (1) *Commodities*, the transportation of which, because of their size or weight, require the use of special equipment, and *related machinery, parts, and related contractors' materials and supplies* when their transportation is incidental to the transportation by said carrier of commodities which by reason of size or weight require special equipment; and (2) *self-propelled articles*, each weighing 15,000 pounds or more and *related machinery, tools, parts, and supplies* moving in connection therewith, restricted in (2) above to commodities transported on trailers, (a) between points in New York, on the one hand, and, on the other, points in Colorado*, Idaho**, Illinois*, Iowa*, Kansas*, Minnesota*, Montana*, North Dakota*, Nebraska*, Nevada**, Oregon**, South Dakota*, Washington**, and Wyoming*, and (b) between points in Connecticut, District of Columbia, Delaware, Indiana, Kentucky, Massachusetts, Maryland, North Carolina, New Jersey, Ohio, Rhode Island, Virginia, and West Virginia, on the one hand, and, on the other, points in Idaho**, Iowa*, Kansas*, Minnesota*, Montana*, North Dakota*, Nebraska*, Nevada**, Oregon**, South Dakota*, Washington**, and Wyoming* (except between points in Ohio and Indiana, on the one hand, and, on the other, points in South Dakota). (Except that the above noted restrictions shall not apply between points in Indiana, on the one hand, and, on the other, points in Montana, North Dakota, Nebraska, and Wyoming, and between points in Ohio, on the one hand, and, on the other, points in Kansas.) The purpose of this filing in I (a) and (b) is to eliminate the gateways at Scranton, Pa.; Elgin, Ill.; Utah and South Dakota.

(c) Between points in Pennsylvania, on the one hand, and, on the other, points in Idaho**, Iowa, Kansas, Minnesota, Montana, North Dakota, Nebraska, Neveda**, Oregon**, Washington**, Wisconsin and Wyoming. The purpose of this filing is to eliminate the gateways at Elgin, Ill.; points in South Dakota; and Utah. (d) between points in Michigan, on the one hand, and, on the other, points in Idaho**, Minnesota, North Dakota, Nebraska, Oregon**, Washington** and Wyoming and (e) between points in Illinois, on the one hand, and, on the other, points in Idaho**, Iowa, Minnesota, Montana, North Dakota, Nevada**, Oregon**, Washington**, and Wyoming. The purpose of this filing in I (d) and (e) is to eliminate the gateways at Davenport, Iowa; South Dakota and points in Minnesota and Iowa within 50 miles of Sioux Falls, S. Dak.; Utah; Montana; and Wyoming; (f) between points in Iowa, on the one hand, and, on the other, points in Idaho**, Minnesota, Montana, North Dakota, Nevada**, Oregon**, Washington**, Wisconsin and Wyoming. The purpose of this filing is to eliminate the gateways at points in South Dakota and points in Minnesota and Iowa within 50 miles of Sioux Falls, S. Dak.; Utah; Montana; and Wyoming. (g) between points in Missouri, on the one hand, and, on the other, points in Connecticut*, District of Columbia*, Delaware*, Idaho**, Massachusetts*, Maryland*, Minnesota, Montana, North Dakota, New Jersey*, New York*, Nevada**, Oregon**, Rhode Island*, Washington**, Wisconsin and Wyoming. The purpose of this filing is to eliminate the gateways at points in South Dakota and points in Minnesota and Iowa within 50 miles of Sioux Falls, S. Dak.; Utah; Montana; and Wyoming. (h) Between points in Wisconsin, on the one hand, and, on the other, points in Idaho**, Minnesota, Montana, North Dakota, Nevada**, Oregon**, Washington**, and Wyoming. The purpose of this filing is to eliminate the gateways at South Dakota and points in Minnesota within 50 miles of Sioux Falls, S. Dak.; Montana; Wyoming; and Utah. (i) between points in Minnesota, on the one hand, and, on the other, points in California, Idaho**, Montana, North Dakota, Nevada**, Oregon**, South Dakota, Utah, Washington** and Wyoming. The purpose of this filing is to eliminate the gateways at points in Southern Minnesota, South Dakota and points in Minnesota and Iowa within 50 miles of Sioux Falls, S. Dak.; Utah; Montana; and Wyoming. (j) between points in South Dakota, on the one hand, and, on the other, points in California, Idaho**, Nevada**, Oregon** and Washington**. The purpose of this filing is to eliminate the gateways at points in Nebraska; Utah; Montana; and Wyoming. (k) between points in Nebraska, on the one hand, and, on the other, points in Idaho**, Illinois, Iowa, Minnesota, Montana, North Dakota, Nevada**, Oregon**, Washington**, Wisconsin and Wyoming. The purpose of this filing is to eliminate the gateways at points in Utah; South Dakota and points in Minnesota and Iowa within 50 miles of Sioux Falls, S. Dak.; Montana; Wyoming; and Southern Minnesota. (l) between points in North Dakota, on the one hand, and, on the other, points in California**, Idaho**, Montana, Nevada**, Oregon**, Utah, Washington**, and Wyoming. The purpose of this filing is to eliminate the gateways at points in South Dakota; Utah; Montana; and Wyoming.

(m) Between points in Kansas, on the one hand, and, on the other, points in California, Idaho**, Illinois, Iowa, Minnesota, Montana, North Dakota, Nevada**, Oregon**, Utah, Washington**, Wisconsin, and Wyoming. The purpose of this filing is to eliminate the gateways at points in South Dakota and points in Minnesota and Iowa within 50 miles of Sioux Falls, S. Dak.; southern Minnesota; Utah; Montana; and Wyoming. (n) between points in Colorado, on the one hand, and, on the other, points in California**, Connecticut*, Delaware*, Idaho**, Illinois, Indiana**, Iowa, Kentucky*, Massachusetts*, Maryland*, Minnesota, Montana, North Carolina*, North Dakota, New Jersey*, Nebraska, Nevada**, Ohio, Oregon**, Pennsylvania, Rhode Island*, Virginia*, West Virginia*, Washington**, Wyoming and the District of Columbia*. The purpose of this filing is to eliminate the gateways at points in South Dakota and points in Minnesota and Iowa within 50 miles of Sioux Falls, S. Dak.; Nebraska; Davenport, Iowa; Elgin, Ill.; Scranton and Allentown, Pa. (o) from points in Idaho, Nevada, Oregon, and Washington, to points in Maine**, Vermont** and New Hampshire**. The purpose of this filing is to eliminate the gateway at points in Utah.

(p) (except such aircraft, aircraft parts, aircraft engines, missiles, missile parts, missile propelling parts, missile engines, self-propelled street sweepers, tension wire stringing equipment, truck concrete mixers, trenching machines, lift trucks, front end shovel loaders, trucks, automobiles, buses, trailers, and machinery and equipment used in the maintenance, servicing, repair and operation of airplanes as may, because of size or weight, require the use of special equipment or special handling), from points in Oregon and Washington, to points in Mississippi** and Tennessee**.

The purpose of this filing is to eliminate the gateway at points in California.

Restrictions: (1) * in I (a) through and including (p) against the transportation of boats and iron and steel articles as applicable. (2) * * in (a) through and including (p) against the transportation of boats, as applicable. (3) Service to and from Illinois in (a), (b), (c), (m) and (n) above is restricted to the following described portion of Illinois: Points on that part of Illinois on, north and west of a line beginning at Quincy, Ill., and extending along Illinois Highway 104 to junction U.S. Highway 66, thence northward along U.S. Highway 66 to junction Illinois Highway 53 (formerly Alternate U.S. Highway 66), at or near Gardner, Ill., thence along Illinois Highway 53 to junction U.S. Highway 66 at a point approximately 10 miles northeast of Plainfield, Ill., and thence along U.S. Highway 66 to Chicago, Ill. (4) Service to and from Iowa in (a), (b), (c), and (e) above is restricted to the following described portion of Iowa: Points in that part of Iowa on, west and north of a line beginning on the Iowa-Missouri State Boundary line at or near Lineville, Iowa, on U.S. Highway 65, thence northerly along U.S. Highway 65 to Des Moines, Iowa, thence easterly along U.S. Highway 6 to the Iowa-Illinois State Boundary line at or near Davenport, Iowa.

(5) Service to and from the following portion of Iowa in (k) above is restricted to heavy machinery and other contractor's materials, supplies and equipment which because of size or weight requires the use of special equipment and self-propelled machinery each weighing 15,000 lbs. or more (restricted to commodities which are transported on trailers): Points in that part of Iowa south and west of a line beginning at the Iowa-Illinois State Boundary line at or near Davenport, Iowa, along U.S. Highway 6, thence westerly along U.S. Highway 6 to Des Moines, Iowa, thence north along U.S. Highway 65 to the Iowa-Minnesota State Boundary line north of Northwood, Iowa.

II. *Road construction machinery and equipment*, as described in Appendix VIII to the Report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, and *lift trunks* in flat bed trailers only, between points in Idaho, Oregon and Washington, on the one hand, and, on the other, points in Alabama, Arkansas, Florida, Georgia and South Carolina, restricted to the transportation of so called "twilight zone" commodities as described by the Commission in *National Automobile Transporters Association* v. *Rowe Transfer*, 64 M.C.C. 229. The purpose of this filing is to eliminate the gateways at points in the Minneapolis-St. Paul, Minn. Commercial Zone and points within 15 miles thereof.

III. *Road construction machinery and equipment*, as described in Appendix VIII to the Report in *Descriptions in* Motor Carrier Certificates, 61 M.C.C. 209, and *lift trucks* in flat bed trailers only, between points in Minnesota, Montana, North Dakota, South Dakota, Wisconsin and Wyoming on the one hand, and, on the other, points in Alabama, Arkansas, Florida, Georgia, South Carolina and Tennessee, restricted to the transportation of so called "twilight zone" commodities as described by the Commission in *National Automobile Transporters Association* v. *Rowe Transfer* 64 M.C.C. 229. The purpose of this filing is to eliminate the gateways at points in South Dakota and points in Minnesota and Iowa within 50 miles of Sioux Falls, S. Dak.; Minneapolis-St. Paul, Minn. Commercial Zone and points within 15 miles thereof.

IV. *New construction, road-building, earth-moving, excavating, loading, maintenance, logging, and mining machinery and equipment, tractors* (not including truck-tractors), and *pipelayers* and, when moving in combination loads on the same vehicle from the same consignor or consignors of the above-specified commodities, *generators, internal combustion engines, and generators and engines combined* (except aircraft and missile engines), and *accessories, attachments, and parts* of or for the above-specified equipment and machinery, which because of size or weight requires the use of special equipment, and *such of the foregoing commodities* not requiring the use of special equipment which are self-propelled articles weighing 15,000 pounds or more, and *related machinery, tools, parts and supplies* moving in connection therewith, from points in Connecticut, District of Columbia, Delaware, Illinois, Indiana, Iowa, Kentucky, Massachusetts, Maryland, Minnesota, North Carolina, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Virginia, West Virginia and Wisconsin, to points in Arizona. The purpose of this filing is to eliminate the gateways at Allentown and Scranton, Pa.; Elgin, Ill. and Davenport, Iowa.

NOTE.—The purpose of this republication is to amend the authority originally requested.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's *Gateway Elimination* Rules (49 CFR 1065(a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission *within 10 days* from the date of this publication. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will *not* operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 1977 (Sub-No. E1) (Correction), filed May 13, 1974, published in the FEDERAL REGISTER January 23, 1975. Applicant: NORTHWEST TRANSPORT SERVICE, INC., 5231 Monroe, Denver, Colo. 80216. Applicant's representative: Ira E. Neal (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, between Denver, Colo., on the one hand, and, on the other, Salt Lake City, Utah. The purpose of this filing is to eliminate the gateway of Montrose, Colo. The purpose of this correction is to correct the MC number, previously published as No. MC 1197.

No. MC 2368 (Sub-No. E34), filed May 29, 1974. Applicant: BRALLEY-WILLETT TANK LINES, P.O. Box 495, Richmond, Va. 23204. Applicant's representative: Ward W. Johnson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal oils* (except liquid cocoa butter), in bulk, in tank vehicles, from points in Maryland on and east of Interstate Highway 95 to points in West Virginia on and west of a line beginning at the Kentucky-West Virginia State line and extending along Interstate Highway 64 to junction Interstate Highway 77, thence south along Interstate Highway 77 to the West Virginia-Virginia State line. The purpose of this filing is to eliminate the gateway of Richmond, Va.

No. MC 2368 (Sub-No. E35), filed May 29, 1974. Applicant: BRALLEY-WILLETT TANK LINES, P.O. Box 495, Richmond, Virginia 23204. Applicant's representative: Ward W. Johnson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal oils* (except liquid cocoa butter), in bulk, in tank vehicles, from points in North Carolina on and east of a line beginning at the North Carolina-Virginia State line and extending along Interstate Highway 85 to junction U.S. Highway 15, thence along U.S. Highway 15 to North Carolina Highway 87, thence along North Carolina Highway 87 to junction Interstate Highway 95, thence along Interstate Highway 95 to the North Carolina-South Carolina State line, to points in West Virginia on and north of U.S. Highway 50. The purpose of this filing is to eliminate the gateway of Richmond, Virginia.

No. MC 2368 (Sub-No. E40), filed May 29, 1974. Applicant: BRALLEY-WILLETT TANK LINES, P.O. Box 495, Richmond, Virginia 23204. Applicant's representative: Ward W. Johnson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal oils* (except liquid cocoa butter), in bulk, in tank vehicles, from points in Delaware, to points in Tennessee (except Memphis), South Carolina, North Carolina on and west of Interstate Highway 95, and West Virginia on and south of a line beginning at the Virginia-West Virginia State line and proceeding west along U.S. Highway 60 to junction Interstate Highway 64 at Charleston, West Virginia, thence west along Interstate Highway 64 to the Kentucky-West Virginia State line. The purpose of this filing is to eliminate the gateway of Richmond, Virginia.

No. MC 2368 (Sub-No. E43), filed May 29, 1974. Applicant: BRALLEY-WILLETT TANK LINES, P.O. Box 495, Richmond, Virginia 23204. Applicant's representative: Ward W. Johnson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal oils*, in bulk, in tank vehicles, from Washington, D.C., to points in North Carolina, South Carolina, Georgia, Kentucky, and West Virginia on and south and west of a line beginning at the West Virginia-Kentucky State line and proceeding east along Interstate Highway 64 to junction Interstate Highway 77, thence along Interstate Highway 77 to the West Virginia-Virginia State line. The purpose of this filing is to eliminate the gateway of Richmond, Virginia.

No. MC 2368 (Sub-No. E44), filed May 29, 1974. Applicant: BRALLEY-WILLETT TANK LINES, P.O. Box 495, Richmond, Virginia 23204. Applicant's representative: Ward W. Johnson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal oils*, in bulk, in tank vehicles, from Washington, D.C., to points in Tennessee. The purpose of this filing is to eliminate the gateway of King George County, Virginia.

No. MC 2368 (Sub-No. E45), filed May 29, 1974. Applicant: BRALLEY-WILLETT TANK LINES, INC., P.O. Box 495, Richmond, Va. 23204. Applicant's representative: Ward W. Johnson (same as above). Authority sought to operate as

a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal oils* (except liquid cocoa butter), in bulk, in tank vehicles, from points in Tennessee (except Chattanooga), to points in Pennsylvania on and east of a line beginning at the Maryland-Pennsylvania State line and proceeding north along Interstate Highway 83 to Harrisburg, Pa. to junction Interstate Highway 81, thence north along Interstate Highway 81 to the Pennsylvania-New York State line and the District of Columbia. The purpose of this filing is to eliminate the gateway of Richmond, Va.

No. MC 2368 (Sub-No. E46), filed May 29, 1974. Applicant: BRALLEY-WILLETT TANK LINES, P.O. Box 495, Richmond, Va. 23204. Applicant's representative: Ward W. Johnson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Edible vegetable oils*, in bulk, in tank vehicles, from Philadelphia, Pa., to points in Tennessee (except Chattanooga), and points in West Virginia on and south of a line beginning at the Virginia-West Virginia State line and proceeding west along U.S. Highway 60 at Charleston, W. Va., to junction Interstate Highway 64, thence along Interstate Highway 64 to the West Virginia-Kentucky State line. The purpose of this filing is to eliminate the gateway of Richmond, Va.

No. MC 2368 (Sub-No. E47), filed May 29, 1974. Applicant: BRALLEY-WILLETT TANK LINES, P.O. Box 495, Richmond, Virginia 23204. Applicant's representative: Ward W. Johnson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vegetable oils*, in bulk, in tank vehicles, from Chicago, Illinois, to points in North Carolina on and east of a line beginning at the Virginia-North Carolina State line and extending along Interstate Highway 85 to junction U.S. Highway 1, thence along U.S. Highway 1 to the North Carolina-South Carolina State line, and points in Virginia on and south and east of a line beginning at the Virginia-North Carolina State line and proceeding north along Interstate Highway 85 to Petersburg, Virginia to junction U.S. Highway 1, thence north along U.S. Highway 1 to Fredericksburg, Virginia to junction Virginia Highway 3, thence east along Virginia Highway 3 to its termination at the Chesapeake Bay. The purpose of this filing is to eliminate the gateway of Richmond, Virginia.

No. MC 2368 (Sub-No. E48), filed May 29, 1974. Applicant: BRALLEY-WILLETT TANK LINES, P.O. Box 495, Richmond, Virginia 23204. Applicant's representative: Ward W. Johnson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vegetable oils* (except liquid cocoa butter), in bulk, in tank vehicles, from points in Virginia on and south of a line beginning at the Virginia-North Carolina State line and extending along U.S. Highway 29 to junction U.S. Highway 360, thence along U.S. Highway 360, to the Virginia Shore of the Chesapeake Bay at Reedville, Virginia to points in Pennsylvania. The purpose of this filing is to eliminate the gateway of Richmond, Virginia.

No. MC 2368 (Sub-No. E49), filed May 29, 1974. Applicant: BRALLEY-WILLETT TANK LINES, P.O. Box 495, Richmond, Virginia 23204. Applicant's representative: Ward W. Johnson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vegetable oils* (except liquid cocoa butter), in bulk, in tank vehicles, from points in, on, and east and north of a line beginning at the Virginia-Maryland State line and proceeding south along U.S. Highway 15 to junction Interstate Highway 64, thence along Interstate Highway 64 to junction Interstate Highway 264, thence along Interstate Highway 264 to the Atlantic Ocean, to points in South Carolina on and south of Interstate Highway 26. The purpose of this filing is to eliminate the gateway of Richmond, Virginia.

No. MC 2368 (Sub-No. E50), filed May 29, 1974. Applicant: BRALLEY-WILLETT TANK LINES, P.O. Box 495, Richmond, Virginia 23204. Applicant's representative: Ward W. Johnson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vegetable oils* (except liquid cocoa butter), in bulk, in tank vehicles, between points in Virginia on and north and west of a line beginning at the Virginia-West Virginia State line and proceeding east along Interstate Highway 64 to junction Interstate Highway 95, thence along Interstate Highway 95 to the Virginia-District of Columbia State line, on the one hand, and, on the other, points in Virginia on and east and north of a line beginning at the Virginia-North Carolina State line and proceeding north along Interstate Highway 95 to junction U.S. Highway 33, thence east along U.S. Highway 33 to its termination at the Chesapeake Bay. The purpose of this filing is to eliminate the gateway of Richmond, Virginia.

No. MC 2368 (Sub-No. E51), filed May 29, 1974. Applicant: BRALLEY-WILLETT TANK LINES, P.O. Box 495, Richmond, Virginia 23204. Applicant's representative: Ward W. Johnson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vegetable oils* (except liquid cocoa butter), in bulk, in tank vehicles, between points in Virginia on and west of Interstate Highway 81, on the one hand, and, on the other, points in Virginia bounded by a line beginning at the Virginia-North Carolina State line and extending north along U.S. Highway 258 to junction U.S. Highway 460, thence along U.S. Highway 460 to junction U.S. Highway 1, thence along U.S. Highway 1 to junction U.S. Highway 33, thence along U.S. Highway 33 to the Chesapeake Bay to the North Carolina-Virginia State line, thence along the North Carolina-Virginia State line to point of origin, and Northampton and Accomack Counties, Virginia. The purpose of this filing is to eliminate the gateway of Richmond, Virginia.

No. MC 2368 (Sub-No. E52), filed May 29, 1974. Applicant: BRALLEY-WILLETT TANK LINES, P.O. Box 495, Richmond, Virginia 23204. Applicant's representative: Ward W. Johnson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vegetable oils* (except liquid cocoa butter), in bulk, in tank vehicles, from points in, on, and south of a line beginning at the Virginia-West Virginia State line and proceeding east along Virginia Highway 311 to junction U.S. Highway 460 at Roanoke, Virginia, thence along U.S. Highway 460 to junction U.S. Highway 360, thence along U.S. Highway 360 to junction Interstate Highway 64, thence along Interstate Highway 64 to junction Interstate Highway 264, thence along Interstate Highway 264 to the Atlantic Ocean, to points in the District of Columbia. The purpose of this filing is to eliminate the gateway of Richmond, Virginia.

No. MC 2368 (Sub-No. E53), filed May 29, 1974. Applicant: BRALLEY-WILLETT TANK LINES, P.O. Box 495, Richmond, Virginia 23204. Applicant's representative: Ward W. Johnson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vegetable oils* (except liquid cocoa butter), in bulk, in tank vehicles, from points in Virginia on and bounded by a line beginning at the Virginia-North Carolina State line and extending north along U.S. Highway 301 to U.S. Highway 1 at Richmond, Virginia, thence along U.S. Highway 1 to Virginia Highway 3, thence along Virginia Highway 3 to the Chesapeake Bay, thence along the Chesapeake Bay to the Virginia-North Carolina State line, thence along the Virginia-North Carolina State line to points of origin, to points in West Virginia on and west of a line beginning at the West Virginia on and west of a line beginning at the West Virginia-Kentucky State line and extending east along Interstate Highway 64 to junction Interstate Highway 77, thence along Interstate Highway 77 to junction Virginia Highway 12 near Ada, Virginia, thence west along Virginia Highway 12 to junction U.S. Highway 460, thence along U.S. Highway 460 to U.S. Highway 52, thence south along U.S. Highway 52 to the Virginia-West Virginia State line. The purpose of this filing is to eliminate the gateway of Richmond, Virginia.

No. MC 2368 (Sub-No. E82), filed June 4, 1974. Applicant: BRALLEY-WILLETT TANK LINES, P.O. Box 495, Richmond, Virginia 23204. Applicant's representative: Marshall Dragen, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal*

oils, in bulk, in tank vehicles, from the District of Columbia to points in Louisiana. The purpose of this filing is to eliminate the gateway of Portsmouth, Virginia.

No. MC 2368 (Sub-No. E87), filed June 4, 1974. Applicant: BRALLEY-WILLETT TANK LINES, P.O. Box 495, Richmond, Virginia 23204. Applicant's representative: Marshall Kragen, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal oils*, in bulk, in tank vehicles, from Crozet, Virginia to points in Louisiana and Florida. The purpose of this filing is to eliminate the gateway of Portsmouth, Virginia.

No. MC 14702 (Sub-No. E4), filed May 15, 1974. Applicant: OHIO FAST FREIGHT, INC., P.O. Box 808, Warren, Ohio 44482. Applicant's representative: James M. Holland (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except those of unusual value, and except dangerous explosives, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, commodities in bulk, commodities requiring special equipment and those injurious or contaminating to other lading, between points in West Virginia on and east of U.S. Highway 19 beginning at the Pennsylvania-West Virginia State line on U.S. Highway 19, south to junction U.S. Highway 33, thence along U.S. Highway 33 east to junction U.S. Highway 219, thence along U.S. Highway 219 south to Marlington, W. Va. thence along West Virginia Highway 39 southeast to Virginia State line on the one hand, and, on the other, points in Ohio on and north of U.S. Highway 224, beginning at the Pennsylvania-Ohio State line, thence west to the Ohio-Indiana State line. The purpose of this filing is to eliminate the gateway of Warren, Ohio.

No. MC 14702 (Sub-No. E10), filed May 15, 1974. Applicant: OHIO FAST FREIGHT, INC., P.O. Box 808, Warren, Ohio 44482. Applicant's representative: James M. Holland (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron, steel, manufactured iron and steel articles, motors, machinery and machinery parts* (except commodities in bulk and those requiring special equipment), between points in West Virginia on and south of U.S. Highway 33 from the Ohio-West Virginia State line to the Virginia State line, on the one hand, and, on the other, points in the Pennsylvania Counties of Crawford, Erie, Mercer, and Venango, and Buffalo, N.Y.; between points in Virginia from the West Virginia-Virginia State line on and south of U.S. Highway 33 to junction of Virginia Highway 20, thence along Virginia Highway 20 to junction Virginia Highway 3, thence along Virginia Highway 3 to Chesapeake Bay, and those points in the Virginia Counties of Accomack, King George, Lancaster, Northampton, Northumberland, Richmond, and Westmoreland, on the one hand, and, on the other, points in the Pennsylvania Counties of Crawford, Erie, Lawrence, Mercer, and Venango, and Buffalo, N.Y.; and between Baltimore, Md., on the one hand, and, on the other, points in Pennsylvania on and west of U.S. Highway 19 south from Erie, Pa., to junction Pennsylvania Highway 158, thence along Pennsylvania Highway 158 to junction Pennsylvania Highway 18, thence along Pennsylvania Highway 18 to New Castle, Pa., to junction U.S. Highway 224, thence along U.S. Highway 224 west to the Pennsylvania-Ohio State line. The purpose of this filing is to eliminate the gateway of Warren, Ohio.

No. MC 14702 (Sub-No. E11), filed May 15, 1974. Applicant: OHIO FAST FREIGHT, INC., P.O. Box 808, Warren, Ohio 44482. Applicant's representative: James M. Holland (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron, steel, manufactured iron and steel articles, motors, machinery and machinery parts* (except commodities requiring special equipment and commodities in bulk), between all points in West Virginia except those points in the West Virginia Counties of Grant, Hardy, Hampshire, Mineral, and Morgan; points in Virginia located on, south, and west of U.S. Highway 250 beginning at the West Virginia-Virginia State line east to junction of Interstate Highway 81, thence along Interstate Highway 81 south of junction U.S. Highway 60, thence along U.S. Highway 60 south to junction U.S. Highway 29, thence along U.S. Highway 29 south to junction U.S. Highway 501, thence along U.S. Highway 501 to the North Carolina State line, on the one hand, and, on the other, Rochester, N.Y. The purpose of this filing is to eliminate the gateway of Warren, Ohio.

No. MC 14702 (Sub-No. E26), filed May 15, 1974. Applicant: OHIO FAST FREIGHT, INC., P.O. Box 808, Warren, Ohio 44482. Applicant's representative: James M. Holland (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Structural frame steel, and metals and metal grading, lathe, mesh, panels, and partitions* (except commodities which because of size or weight require the use of special equipment and except commodities in bulk), between Niles, Warren, Girard, McDonald, and Youngstown, Ohio, on the one hand, and, on the other, points in Nebraska and Council Bluffs, Iowa. The purpose of this filing is to eliminate the gateways of Warren, Ohio, and Vienna, W. Va.

No. MC 14702 (Sub-No. E39), filed June 4, 1974. Applicant: OHIO FAST FREIGHT, INC., P.O. Box 808, Warren, Ohio 44482. Applicant's representative: James M. Holland (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Aluminum* (except that which because of size or weight, requires the use of special equipment and except in bulk), (1) between points in Tennessee located on and between the following routes west of U.S. Highway 25E beginning at the Kentucky-Tennessee State line south to junction Interstate Highway 40, thence along Interstate Highway 40 to the North Carolina State line and east of U.S. Highway 127 beginning at the Kentucky-Tennessee State line, thence south of the Tennessee-Georgia State line, on the one hand, and, on the other, points in New York on, east, and north of New York Highway 14, south from Lake Ontario to junction of U.S. Highway 20, thence along U.S. Highway 20 east to junction New York Highway 7, thence along New York Highway 7 east to the New York-Vermont State line; (2) between points in Tennessee on, east, and south of U.S. Highway 23 from the Virginia-Tennessee State line south to junction U.S. Highway 11W, thence southeast along U.S. Highway 11W to junction U.S. Highway 25E, thence along U.S. Highway 25E to junction Tennessee Highway 32, thence south along Tennessee Highway 32 south to the Tennessee-North Carolina State line, on the one hand, and, on the other, Rochester, N.Y.; (3) between points in Tennessee on and east of U.S. Highway 25E from the Kentucky-Tennessee State line south to junction Tennessee Highway 32, thence along Tennessee Highway 32 to the Tennessee-North Carolina State line, on the one hand, and, on the other, points in New York on, east, and north of New York Highway 18 south from Lake Ontario to Rochester, N.Y., thence along New York Highway 104 east from Rochester, N.Y., to junction New York Highway 38, thence along New York Highway 38 south to junction U.S. Highway 5, thence along U.S. Highway 5 east to junction New York Highway 67, thence along New York Highway 67 to the New York-Vermont State line;

(4) between points in Tennessee on and west of Tennessee Highway 56 south from the Kentucky-Tennessee State line to the Tennessee-Alabama State line and Cookeville, Tenn., on the one hand, and, on the other, points in Massachusetts on and north of U.S. Highway 20 from the New York-Massachusetts State line east to Boston, Mass., and Massachusetts Bay, Maine, New Hampshire, and Vermont; (5) between Chattanooga, Tenn., on the one hand, and, on the other, points in Massachusetts on, north, and west of U.S. Highway 20 from the New York-Massachusetts State line to junction Massachusetts Highway 112, thence along Massachusetts Highway 112 north to junction Massachusetts Highway 116, thence along Massachusetts Highway 116 east to junction U.S. Highway 5, thence along U.S. Highway 5 north to the Massachusetts-Vermont State line, points in Maine, Vermont, and New Hampshire; and (6) between points in Tennessee on and west of Interstate Highway 75, south from the Kentucky-Tennessee State line to Knoxville, Tenn., thence along Tennessee Highway 129 south to the Tennessee-North Carolina

State line to junction Interstate Highway other, points in Vermont on and north of U.S. Highway 4 from the New York-Vermont State line to the Vermont-New Hampshire State line, points in New Hampshire on and north of U.S. Highway 4 from the Vermont-New Hampshire State line to junction Interstate Highway 89, thence along Interstate Highway 89 to junction U.S. Highway 202, thence along U.S. Highway 202 to the New Hampshire-Maine State line, points in Maine on and north of New Hampshire 9 from the New Hampshire-Vermont State line to the Atlantic Ocean. The purpose of this filing is to eliminate the gateways of the plant site of the Alcan Aluminum Corp., at or near Fairmont, W. Va., and the plant site of the Alcan Aluminum Corp., at or near Oswego, N.Y.

No. MC 82063 (Sub-No. E2), filed June 4, 1974. Applicant: KLIPSCH HAULING CO., 112 North Fourth Street, St. Louis, Missouri, 63102. Applicant's representative: E. Stephen Heisley, 805 McLachlen Bank Building, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid printers ink*, in bulk, in tank vehicles, from points in the St. Louis, Missouri-East St. Louis, Illinois, Commercial Zone, to points in Kansas, Nebraska, Iowa, Illinois, Kentucky, Tennessee, Arkansas, Oklahoma, Louisiana, Indiana, Ohio, Colorado, North Dakota, South Dakota, Wyoming, those points in Texas on and south of a line beginning at the Oklahoma-Texas State line, thence Texas Highway 83 to junction U.S. Highway 70, thence U.S. Highway 84 to the Texas-New Mexico State line; those points in Alabama on and south of a line beginning at the Mississippi-Alabama State line, and extending along Alabama Highway 56 to junction U.S. Highway 43, U.S. Highway 43 to junction Interstate Highway 65, Interstate Highway 65 to junction Alabama Highway 21, Alabama Highway 21 to the Alabama-Florida State line, those points in Mississippi on and south of a line beginning at the Arkansas-Mississippi State line and extending along Mississippi Highway 8 to junction U.S. Highway 61, U.S. Highway 61 to junction Mississippi Highway 12, Mississippi Highway 12 to junction U.S. Highway 49, U.S. Highway 49 to junction Interstate Highway 20, Interstate Highway 20 to junction Mississippi Highway 18, Mississippi Highway 18 to junction Mississippi Highway 15, Mississippi Highway 15 to junction to U.S. Highway 84, U.S. Highway 84 to junction U.S. Highway 45, and U.S. Highway 45 to the Mississippi-Alabama State line. The purpose of this filing is to eliminate the gateway of the facilities of General Printing Ink Corp., at or near Overland, Missouri, at North Kansas City, Missouri, and at Pine Bluff, Arkansas.

No. MC 83539 (Sub-No. E15), filed May 30, 1974. Applicant: C & H TRANSPORTATION CO., INC., 2010 W. Commerce St., Dallas, Tex. 75208. Applicant's representative: Kenneth Weeks (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Commodities*, the transportation of which, because of size or weight, requires the use of special equipment, and *parts* of such commodities when moving in connection therewith (except aircraft and missiles, and parts thereof), between points in that part of Indiana in and north of Posey, Vanderburgh, Gibson, Pike, Daviess, Greene, Monroe, Brown, Bartholomew, Decatur, and Franklin Counties, Ind., on the one hand, and, on the other, points in that part of South Carolina in, south, and east of York, Chester, Fairfield, Newberry, Saluda, and Edgefield, S.C. (points in Kentucky, Tennessee, North Carolina, and Georgia)*; (2) *Commodities*, the transportation of which, because of size or weight, require the use of special equipment (restricted against the transportation of steam shovels, cranes, crawler-type shovels and cranes, straddle trucks, fork trucks, and self-propelled building construction and moving machinery, from Benton Harbor, Mich., to points in Montana, North Dakota, South Dakota, and Wyoming)*, between points in Delaware, on the one hand, and, on the other, points in that part of Colorado in and west of Logan, Washington, Lincoln, Crowley, Otero, and Los Animas, Colo. (points in Wyoming and Pennsylvania)*; and (3) *Commodities*, the transportation of which, because of size or weight, require the use of special equipment, or handling, and *parts* thereof when their transportation is incidental to the transportation by carrier of commodities which by reason of size or weight, require special equipment, between points in that part of Alabama on and north of U.S. Highway 80, on the one hand, and, on the other, points in that part of New Jersey in and north of Gloucester and Atlantic Counties, N.J. (points in Tennessee, Virginia, and Pennsylvania)*.

The operations authorized in (1) and (3) above are restricted against the stringing and/or picking up of pipe in connection with the construction and dismantling of main or trunk pipelines between points in Louisiana, Mississippi, and North Carolina. The operations authorized in (1) and (2) above are restricted against the stringing or picking up of pipe along pipelines. The operations authorized in (1) above are restricted against the transportation of heavy machinery parts which are not transported with the machinery of which they are a part or on which they are to be installed, between points in Illinois, on the one hand, and, on the other, points in Mississippi, Louisiana, and that part of Arkansas on U.S. Highway 61. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 83539 (Sub-No. E18), filed May 31, 1974. Applicant: C & H TRANSPORTATION CO., INC., P.O. Box 5976, Dallas, Tex. 75208. Applicant's representative: Kenneth Weeks (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Commodities*, the transportation of which, because of size or weight, requires the use of special equipment, and (2) *Self-propelled articles*, each weighing 15,000 pounds or more, and *related machinery, tools, parts, and supplies* moving in connection therewith, restricted to commodities which are transported on trailers, between points in that part of West Virginia in and north of Cabell, Putnam, Kanawha, Clay, Nicholas, Webster, Randolph, and Pemdleton Counties, W. Va., on the one hand, and, on the other, points in that part of Alabama in and north of Sumter, Marengo, Dallas, Autauga, Elmore, Tallapoosa, and Lee Counties, Ala. The purpose of this filing is to eliminate the gateway of points in Tennessee.

No. MC 83539 (Sub-No. E64), filed May 30, 1974. Applicant: C & H TRANSPORTATION CO., INC., 2010 W. Commerce St., Dallas, Tex. 75208. Applicant's representative: Kenneth Weeks (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Heavy machinery*, between points in Rhode Island, on the one hand, and, on the other, points in that part of New Hampshire west and north of U.S. Highway 125. The purpose of this filing is to eliminate the gateway of Worcester, Mass., and points within 25 miles of Worcester.

No. MC 83539 (Sub-No. E65), filed May 30, 1974. Applicant: C & H TRANSPORTATION CO., INC., 2010 W. Commerce St., Dallas, Tex. 75208. Applicant's representative: Kenneth Weeks (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (I) *Self-propelled articles*, each weighing 15,000 pounds or more, which may be included in heavy machinery, and *related machinery, tools, parts, and supplies* moving in connection therewith (restricted to commodities which are transported on trailers); (a) between points in Idaho, on the one hand, and, on the other, points in North Carolina (points in Nebraska, Kansas, and that part of Montana on and west of a line extending north and south through Dupuyer and Butte, Mont.)*; (b) between points in Idaho, on the one hand, and, on the other, points in Virginia (points in Utah and that part of Montana on and west of a line extending north and south through Dupuyer and Butte, Mont.)*; (c) between points in Iowa, on the one hand, and, on the other, points in Washington (points in Montana and South Dakota)*; and (d) between points in Michigan, on the one hand, and, on the other, points in Washington (points in Montana)*; and (II) Self-propelled articles, each weighing 15,000 pounds or more, and related machinery, parts, tools, and supplies moving in connection therewith (restricted to commodities which are transported on trailers); (a) between points in Mississippi, on the one hand, and, on the other, points in Virginia (points in Tennessee)*; (b) between points in Nebraska, on the one hand, and, on the other, points in North Dakota (points in South Dakota)*; and (c) between points

in Nebraska, on the one hand, and, on the other, points in Texas (points in Kansas)*. The operations authorized in (I)(a) and (c) and (II)(b) and (c) above are restricted against the transportation of any shipment which (a) originates at St. Louis or Kansas City, Mo., and which is destined to any point in Iowa, Kansas, or Missouri, or (2) originates at any point in Iowa, Kansas, or Missouri and which is destined to St. Louis or Kansas City, Mo. The purpose of this filing is to eliminate the gateways, indicated by asterisks above.

No. MC 106920 (Sub-No. E5) (correction), filed June 4, 1974, published in the FEDERAL REGISTER, January 30, 1975. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 420, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sweet cream and milk*, processed or unprocessed, from points in Missouri to points in Indiana on and east of a line beginning at the Michigan-Indiana State line and extending along Interstate Highway 69 to junction Indiana Highway 3, thence along Indiana Highway 3 to junction U.S. Highway 40, thence along U.S. Highway 40 to the Indiana-Ohio State line. The purpose of this filing is to eliminate the gateways of Darke, Mercer, and Auglaize Counties, Ohio. The purpose of this correction is to clarify the territorial description.

No. MC 106920 (Sub-No. E13), filed June 4, 1974. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 805 McLachlen Bank Bldg., 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sweet cream and milk*, processed and unprocessed, from points in Minnesota to points in Pennsylvania, North Carolina, South Carolina, Maryland, Massachusetts, New York, Delaware, Connecticut, Rhode Island, West Virginia, Virginia, New Jersey, and the District of Columbia. The purpose of this filing is to eliminate the gateways of Darke, Mercer, and Auglaize Counties, Ohio.

No. MC 106920 (Sub-No. E16), filed June 4, 1974. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 805 McLanchlen Bank Bldg., 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen dairy products*, as classified under B in the Appendix to the report in *Modification of Permits of Motor Contract Carriers of Packing House Products*, 46 M.C.C. 23, from Elmira, N.Y., to those points in Florida south of a line beginning at the Florida-Alabama State line and extending along U.S. Highway 90 to junction Florida Highway 247, thence along Florida Highway 247 to junction U.S. Highway 129, thence along U.S. Highway 129 to junction U.S. Highway 19, thence along U.S. Highway 19 to junction Interstate Highway 75, thence along Florida Highway 247 junction Interstate Highway 4, thence along Interstate Highway 4 to junction U.S. Highway 92, thence along U.S. Highway 92 to junction Florida Highway 542, thence along Florida Highway 542 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction U.S. Highway 1, thence along U.S. Highway 1 to the Gulf of Mexico. The purpose of this filing is to eliminate the gateways of Darke, Mercer, and Auglaize Counties, Ohio.

No. MC 106920 (Sub-No. E31), filed June 4, 1974. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., 805 McLachlen Bank Bldg., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Milk, cream, and buttermilk* (except concentrated whole milk and concentrated skim milk), in bulk, in tank vehicles, from points in Wisconsin north of a line beginning at the Minnesota-Wisconsin State line and extending along Wisconsin Highway 35 to junction Wisconsin Highway 77, thence along Wisconsin Highway 77 to junction Wisconsin Highway 70, thence along Wisconsin Highway 70 to junction Wisconsin Highway 13, thence along Wisconsin Highway 13 to junction U.S. Highway 8, thence along U.S. Highway 8 to junction Wisconsin Highway 32, thence along Wisconsin Highway 32 to junction Wisconsin Highway 64, thence along Wisconsin Highway 64 to Lake Michigan, to points in Mississippi east of a line beginning at the Alabama-Mississippi State line and extending along U.S. Highway 80 to junction U.S. Highway 61, thence along U.S. Highway 61 to the Mississippi-Louisiana State line. The purpose of this filing is to eliminate the gateways of Darke, Mercer, and Auglaize Counties, Ohio.

No. MC 106920 (Sub-No. E46), filed June 3, 1974. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities classified as dairy products* under B in the Appendix to the report in *Modification of Permits of Motor Contract Carriers of Packing House Products*, 48 M.C.C. 628, except sweet cream and milk, processed and unprocessed, from points in Arkansas, west of a line beginning at the Arkansas-Texas State line and extending along U.S. Highway 67 to junction Arkansas Highway 7, thence along Arkansas Highway 7 to junction Arkansas Highway 5, thence along Arkansas Highway 5 to junction Arkansas Highway 9, thence along Arkansas Highway 9 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction Arkansas Highway 27, thence along Arkansas Highway 27 to junction Arkansas Highway 14, thence along Arkansas Highway 14 to junction Arkansas Highway 125, thence along Arkansas Highway 125 to the Arkansas-Missouri State line to points in West Virginia (except points in West Virginia on and north of U.S. Highway 50). The purpose of this filing is to eliminate the gateways of Darke, Mercer, and Auglaize Counties, Ohio.

No. MC 106920 (Sub-No. E73), filed June 3, 1974. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 805 McLachlen Bank Bldg., 666 Eleventh St., NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities classified as dairy products* under B in the Appendix to the report in *Modification of Permits of Motor Contract Carriers of Packing House Products*, 48 M.C.C. 628, from points in the Upper Peninsula of Michigan on and east of a line beginning at Lake Superior and extending along U.S. Highway 41 to junction U.S. Highway 2, thence along U.S. Highway 2 to Thompson, Mich., to points in Mississippi. The purpose of this filing is to eliminate the gateways of Darke, Mercer, and Auglaize Counties, Ohio.

No. MC 106920 (Sub-No. E105), filed June 3, 1974. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 27, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 666 Eleventh St., NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities classified as dairy products* under B in the Appendix to the report in *Modification of Permits of Motor Contract Carriers of Packing-House Products*, 49 M.C.C. 628, from points in Missouri on and north of a line beginning at the Illinois-Missouri State line and extending along Missouri Highway 51 to junction Missouri Highway 34, thence along Missouri Highway 34 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction Missouri Highway 21, thence along Missouri Highway 21 to the Arkansas-Missouri State line. The purpose of this filing is to eliminate the gateways of Darke, Mercer, and Auglaize Counties, Ohio.

No. MC 107403 (Sub-No. E468) (Correction), filed May 29, 1974, published in the FEDERAL REGISTER, January 29, 1975. Applicant: MATLACK, INC., 10 W. Baltimore Ave., Landsdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry commodities* (except fly ash) in bulk, in vehicles specially designed for the transportation of dry bulk commodities, from points in Ohio within 150 miles of Monongahela, Pa., to points in Indiana, Michigan, Kentucky, those

XUM

XUM

points in Pennsylvania east of U.S. Highway 220 which are not within 150 miles of Monongahela, Pa., and those points in West Virginia which are not within 150 miles of Monongahela, Pa. The purpose of this filing is to eliminate the gateways of those points in the counties of Ashtabula, Cuyahoga, Lake, Summit, Muskingum, Licking, Franklin, and Wayne, Ohio, which are within 150 miles of Monongahela, Pa. The purpose of this correction is to clarify the origin and destination descriptions.

No. MC 107515 (Sub-No. E34), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Rd., NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen meats, meat products, and meat by-products*, as described in Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, from Luling, Tex., to points in Connecticut, Delaware, Massachusetts, New Jersey, Maryland, and the District of Columbia; points in Virginia on and east of U.S. Highway 15; points in Pennsylvania on and east of U.S. Highway 219; and points in New York on and east of U.S. Highway 15. The purpose of this filing is to eliminate the gateway of Rocky Mount, N.C.

No. MC 110525 (Sub-No. E310) (Correction), filed May 8, 1974, published in the FEDERAL REGISTER, June 7, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except derivatives of petroleum or bituminous materials), in bulk, in tank vehicles, from points in Massachusetts to points in Florida. The purpose of this filing is to eliminate the gateways of Newark, N.J., and Greensboro, N.C. The purpose of this correction is to clarify the exception.

No. MC 110525 (Sub-No. E391) (Correction), filed May 8, 1974, published in the FEDERAL REGISTER, June 5, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except petro-chemicals and derivatives of coal tar), in bulk, in tank vehicles, from points in New Jersey to points in Kentucky. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Ironton, Ohio. The purpose of this correction is to clarify the exception.

No. MC 110525 (Sub-No. E392) (Correction), filed May 8, 1974, published in the FEDERAL REGISTER, June 5, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except derivatives of petroleum or bituminous materials), in bulk, in tank vehicles, from points in New Jersey to points in Louisiana. The purpose of this filing is to eliminate the gateway of Greensboro, N.C. The purpose of this correction is to clarify the exception.

No. MC 110525 (Sub-No. E395) (Correction) filed May 8, 1974, published in the FEDERAL REGISTER, June 5, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except derivatives of petroleum or bituminous materials), in bulk, in tank vehicles, from points in New Jersey to points in Mississippi. The purpose of this filing is to eliminate the gateway of Greensboro, N.C. The purpose of this correction is to clarify the exception.

No. MC 110525 (Sub-No. E420) (Correction), filed May 8, 1974, published in the FEDERAL REGISTER, June 10, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except derivatives of petroleum or bituminous products), in bulk, in tank vehicles, from points in New York to points in Florida. The purpose of this filing is to eliminate the gateway of Greensboro, N.C. The purpose of this correction is to correct the exception.

No. MC 110525 (Sub-No. E516), (Correction), filed May 20, 1974, published in the FEDERAL REGISTER, August 13, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Ohio to points in Connecticut, restricted against the transportation of liquid latex from Akron, Ohio. The purpose of this filing is to eliminate the gateway of Buffalo, N.Y. The purpose of this correction is to correct the restriction.

No. MC 110525 (Sub-No. E1240) (Correction), filed June 4, 1974, published in the FEDERAL REGISTER, December 2, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (C) *Coal tar products*, (1) from the District of Columbia and points in Delaware and Maryland to points in Connecticut, that part of New Jersey on and north of New Jersey Highway 70, and points in the New York, N.Y., Commercial Zone, as defined in the New York, N.Y., Commercial Zone, 1 M.C.C. 665. The purpose of this filing is to eliminate the gateways indicated by asterisks above. The purpose of this partial correction is to include a portion in (C) (1) above which was omitted in the previous publication. The remainder of this letter-notice remains as previously published.

No. MC 114019 (Sub-No. E351), filed June 3, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Rd., Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Asphalt, fibre board, wallboard, pulpboard, and strawboard, tin roofing caps, roofing cement, metal clamps, roof coating, creosote, metal fasteners, building or roofing felts, asbestos or felt paper roofing material, nails, asphaltum and coal tar paint, building and roofing paper, roofing pitch, composition roofing, asphalt siding, shingles, sheathing*, and *tin straps*, from Lockland, Ohio, to Baltimore, Md., and those points in Maryland east of the Intercoastal Waterway and points in Delaware, New Jersey, New York, Maine, New Hampshire, Vermont, Massachusetts, Connecticut, and Rhode Island. The purpose of this filing is to eliminate the gateway of Sunbury, Pa.

No. MC 114019 (Sub-No. E352), filed June 3, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Rd., Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, from points in Hancock County, W. Va., to those points in Indiana on and south of a line beginning at the Illinois-Indiana State line and extending along U.S. Highway 24 to junction U.S. Highway 150, thence along U.S. Highway 150 to junction Illinois Highway 164, thence along Illinois Highway 164 to the Illinois-Iowa State line. The purpose of this filing is to eliminate the gateways of Lansing, Ohio, and St. Marys, W. Va.

No. MC 114019 (Sub-No. E400), filed May 19, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 South Pulaski Road, Chicago, Illinois 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dairy products as described* in Section B of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, from Des Moines, Iowa, to those points in Pennsylvania north and east of a line beginning at the West Virginia-Pennsylvania State line and extending along U.S. Highway 22 to junction U.S. Highway 219, thence

U.S. Highway 219 to the Pennsylvania-Maryland State line, West Virginia, those points in Ohio on and north of a line beginning at the Ohio-Indiana State line and extending along U.S. Highway 20 to junction Ohio Highway 120, then U.S. Highway 40 to the West Virginia-Ohio State line, and Columbus, Mansfield, Massillon, Akron, Canton, Wooster, Ashland, Galion, Lima, Findlay, Toledo, Sandusky, Lorain, Elyria, Aven, Cleveland, Marion, and Bryan, Ohio. The purpose of this filing is to eliminate the gateway of Definance, Ohio.

No. MC 114019 (Snb-No. E401), filed June 3, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Rd., Chicago, Ill. 60609. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by wholesale and retail grocery business houses, from Cincinnati, Ohio to points in that part of Illinois on and south of U.S. Highway 40. The purpose of this filing is to elliminate the gateway of Jeffersonville, Ind.

No. MC 114211 (Sub-No. E634), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled tractors, road making machinery and contractors' equipment*, and *supplies*, each weighing 15,000 pounds or more and *related machinery tools, parts* and *supplies* moving in connection therewith, between points in that part of Illinois on, south, and west of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 30 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction U.S. Highway 136, thence along U.S. Highway 136 to the Iowa-Illinois State line, on the one hand, and, on the other, points in that part of Missouri on and west of a line beginning at the Illinois-Missouri State line extending along U.S. Highway 54 to junction U.S. Highway 65, thence along U.S. Highway 65 to the Missouri-Arkansas State line, restricted to commodities which are transported on trailers. The purpose of this filing is to eliminate the gateway of points in Iowa.

No. MC 114211 (Sub-No. E635), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Grading, paving and finishing machinery, equipment, parts, accessories*, and *attachments*, between Springfield, Illinois, on the one hand, and, on the other, points in Washington, Oregon, Nevada, Idaho, Montana, North Dakota, and South Dakota. Also portions of California, Utah, Wyoming, Minnesota, points in that part of California, on and north of a line beginning at the California-Arizona State line extending along Interstate Highway 10 Highway 74, thence along California Highway 74, to junction California Highway 74, thence along California Highway 74, to junction California Highway 71, thence along California Highway 71, to junction California Highway 79, thence along California Highway 79 to junction Interstate Highway 8, thence along Interstate Highway 8 to San Diego, California points in that part of Utah on and west of a line beginning at the Wyoming-Utah State line extending along U.S. Highway 189 to junction U.S. Highway 91, thence along U.S. Highway 91 to the Arizona-Utah State line, points in that part of Wyoming on and north of a line beginning at the Nebraska-Wyoming State line extending along U.S. Highway 25 to junction Wyoming Highway 220, thence along Wyoming Highway 220 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction Interstate Highway 80, thence along Interstate Highway 80 to the Utah-Wyoming State line, and points in that part of Minnesota on and west of a line beginning at the Iowa-Minnesota State line extending along U.S. Highway 59 to the United States-Canada Boundary line. The purpose of this filing is to eliminate the gateway of Canton, S. Dak., and points in Iowa.

No. MC 114211 (Sub-No. E636), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building equipment*, from McAllen, Tex., to points in Pennsylvania, New York, Vermont, New Hampshire, Maine, Massachusetts, Connecticut, Rhode Island, New Jersey, and to points in that part of Maryland on and north of a line beginning at the Maryland-West Virginia State line extending along U.S. Highway 50 to junction U.S. Highway 219, thence along U.S. Highway 219, to junction U.S. Highway 40, thence along U.S. Highway 40 to the Maryland-Delaware State line restricted to the transportation of traffic originating at or destined to the plant sites, warehouse sites, and experimental farms of Deere and Company. The purpose of this filing is to eliminate the gateway of Dubuque, Iowa, and points, in Kansas.

No. MC 114211 (Sub-No. E639), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements* and *parts* therefore when moving incidental to and in the same vehicle with said commodities (except, in each instance, commodities which because of size or weight require the use of special equipment, and except commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459) from Lincoln, Nebr., to points in Florida, Louisiana, and to points in that part of North Carolina on and south of a line beginning at the South Carolina-North Carolina State line extending along U.S. Highway 29 to junction U.S. Highway 74, to junction U.S. Highway 17, thence along U.S. Highway 17 to junction U.S. Highway 70, thence along U.S. Highway 70 to Cherry Point, to points in that part of South Carolina on and south of a line beginning at the Georgia-South Carolina State line extending along U.S. Highway 123 to junction U.S. Highway 29, thence along U.S. Highway 29 to the South Carolina-North Carolina State line, to points in that part of Georgia on and south of a line beginning at the Alabama-Georgia State line extending along Georgia Highway 48 to junction U.S. Highway 27, thence along U.S. Highway 27, to junction Georgia Highway 140, thence along Georgia Highway 140, to junction U.S. Highway 411, thence along U.S. Highway 411, to junction U.S. Highway 76, thence along U.S. Highway 76 to the Georgia-South Carolina State line, to points in that part of Alabama on and south of a line beginning at the Mississippi-Alabama State line extending along U.S. Highway 72 to junction Alabama Highway 117.

Thence along Alabama Highway 117 to the Alabama-Georgia State line, to points in that part of Mississippi on and south of a line beginning at the Tennessee-Mississippi State line extending along U.S. Highway 72 to the Mississippi-Alabama State line, to points in that part of Arkansas on and south of a line beginning at the Oklahoma-Arkansas State line extending along Interstate Highway 40 to the Arkansas-Tennessee State line, to points in that part of Oklahoma on, east and south of a line beginning at the Texas State line extending along H. E. Bailey Turnpike to junction Oklahoma Highway 7, thence along Oklahoma Highway 7, to junction Oklahoma Highway 1, thence along Oklahoma Highway 1, to junction Oklahoma Highway 99, thence along Oklahoma Highway 99, to junction Interstate Highway 44, thence along Interstate Highway 44, to junction Muskogee Turnpike, thence along Muskogee Turnpike to junction Interstate Highway 40, thence along Interstate Highway 40 to the Oklahoma-Arkansas State line, to points in that part of New Mexico on and south of a line beginning at the Texas-New Mexico State line extending along U.S. Highway 62-180 to the New Mexico-Texas State line, and to points in that part of Tennessee on and south of a line beginning at the Arkansas-Tennessee State line extending along Interstate Highway 40 to junction U.S. Highway 72, thence along U.S. Highway 72 to the Tennessee-Mississippi State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr. and Claremore, Okla.

No. MC 114211 (Sub-No. E640), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm commodities and farm machinery*, between Baxter Springs, Kans., on the one hand, and, on the other, points in that part of Iowa on and west of a line beginning at the Nebraska-Iowa State line extending along Iowa Highway 183 to junction Iowa Highway 141, thence along Iowa Highway 141 to junction Iowa Highway 31, thence along Iowa Highway 31 to junction Iowa Highway 3, thence along Iowa Highway 3 to junction U.S. Highway 71, thence along U.S. Highway 71 to the Iowa-Minnesota State line. The purpose of this filing is to eliminate the gateways of Beatrice and Nebraska City, Nebr.

No. MC 114211 (Sub-No. E641), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts* thereof, from Clay Center, Kans., to points in Minnesota, Wisconsin, Illinois, Indiana, Ohio, and to points in that part of Missouri on and north of a line beginning at the Iowa-Missouri State line extending along U.S. Highway 275 to junction U.S. Highway 136, thence along U.S. Highway 136 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction U.S. Highway 61, thence along U.S. Highway 61 to junction U.S. Highway 54, thence along U.S. Highway 54 to the Missouri-Illinois State line to points in that part of Texas on and south of a line beginning at the Louisiana-Texas State line extending along Interstate Highway 20 to junction U.S. Highway 259, thence along U.S. Highway 259 to junction Texas Highway 31, thence along Texas Highway 31 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction Texas Highway 21, thence along Texas Highway 21 to junction Texas Highway 71, thence along Texas Highway 71 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction U.S. Highway 180, thence along U.S. Highway 180 to the Texas-New Mexico State line, with no transportation for compensation on return except as otherwise authorized, restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E756), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural machinery* and *implements*, from Madison, S. Dak., to points in Texas, and to points in that part of Ohio on and south of a line beginning at the Ohio-Pennsylvania State line extending along U.S. Highway 36 to the Indiana-Ohio State line, to points in that part of Indiana on and south of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 136 to junction Indiana Highway 32, thence along Indiana Highway 32 to junction Indiana Highway 38, thence along Indiana Highway 38 to junction U.S. Highway 36, thence along U.S. Highway 36 to the Indiana-Ohio State line, to points in that part of Illinois on and south of a line beginning at the Illinois-Missouri State line extending along U.S. Highway 24 to junction U.S. Highway 136, thence along U.S. Highway 136 to the Illinois-Indiana State line, and to points in that part of Missouri on and south of a line beginning at the Kansas-Missouri State line extending along U.S. Highway 36 to junction Missouri Highway 6, thence along Missouri Highway 6 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Illinois-Missouri State line, restricted against commodities, the transportation of which, because of size or weight, require the use of special equipment or special handling, and restricted against movement of oil field movements. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E758), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicants representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm tractors* (except those with vehicle beds, bed frames and fifth wheels), *equipment* designed for use in conjunction with farm tractors, *parts thereof* in mixed loads with such commodities, from Valley, Nebr., to points in Washington; to points in that part of Oregon on and north of a line beginning at the Oregon-Washington State line extending along Oregon Highway 11 to junction U.S. Highway 395, thence along U.S. Highway 395 to junction Oregon Highway 74, thence along Oregon Highway 74 to junction Oregon Highway 206, thence along Oregon Highway 206 to junction Oregon Highway 19, thence along Oregon Highway 19 to junction Oregon Highway 218, thence along Oregon Highway 218 to junction U.S. Highway 97, thence along U.S. Highway 97 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction Oregon Highway 242, thence along Oregon Highway 242 to junction Oregon Highway 126, thence along Oregon Highway 126 to junction Interstate Highway 5, thence along Interstate Highway 5 to junction U.S. Highway 199, thence along U.S. Highway 199 to the Oregon-California State line; to points in that part of Idaho on and north of a line beginning at the Idaho-Montana State line extending along U.S. Highway 12 west to the Idaho-Washington State line; to points in that part of Montana on and north of a line beginning at the Montana-North Dakota State line extending along U.S. Highway 10 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Montana-Idaho State line; to points in that part of North Dakota on and north of a line beginning at the North Dakota-Minnesota State line extending along Interstate Highway 94 to the North Dakota-Montana State line; and to points in that part of Minnesota on and north of a line beginning at the Minnesota-North Dakota State line extending along U.S. Highway 10 to junction Minnesota Highway 34, thence along Minnesota Highway 34 to junction U.S. Highway 71, thence along U.S. Highway 71 north to the United States-Canada International Boundary line, restricted against the transportation of commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling and restricted against the transportation of those commodities described in *Mercer Extension—Oil Field Commodities*, 74 M.C.C. 459. The purpose of this filing is to eliminate the gateways of Nassau, Minn., Fargo, N. Dak., and points in South Dakota.

No. MC 114211 (Sub-No. E759), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Road building equipment*, between Perry, Okla., on the one hand, and, on the other, points in Colorado, South Dakota, Nebraska, Minnesota, Iowa, and Illinois. The purpose of this filing is to eliminate the gateway of points in Kansas.

No. MC 114211 (Sub-No. E760), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Grading, paving, and finishing machinery, equipment, parts, accessories, and attachments, between Durant, Okla., on the one hand, and, on the other, points in Minnesota, South Dakota, North Dakota, Washington, Montana; points in that part of Oregon on and north of a line beginning at the Idaho-Oregon State line extending along U.S. Highway 20 to junction U.S. Highway 395, thence along U.S. Highway 395 to junction Oregon Highway 140, thence along Oregon Highway 140 to junction U.S. Highway 97, thence along U.S. Highway 97 to the Oregon-California State line; points in that part of Idaho on and north of a line beginning at the Wyoming-Idaho State line extending along U.S. Highway 20 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction Idaho Highway 41, thence along Idaho Highway 41 to junction U.S. Highway 91, thence along U.S. Highway 91 to junction Idaho Highway 324, thence along Idaho Highway 324 to junction Idaho Highway 28, thence along Idaho Highway 28 to junction U.S. Highway 93, thence along U.S. Highway 93 to junction Idaho Highway 21, thence along Idaho Highway 21 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Idaho-Oregon State line; points in that part of Wyoming on and north of a line beginning at the South Dakota-Wyoming State line extending along U.S. Highway 18 to junction U.S. Highway 16, thence along U.S. Highway 16 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Wyoming-Idaho State line; and points in that part of Wisconsin on and north of a line beginning at Sheboygan, Wis., extending along Wisconsin Highway 23 to junction Wisconsin Highway 82, thence along Wisconsin Highway 82 to junction Wisconsin Highway 71, thence along Wisconsin Highway 71 to junction U.S. Highway 16, thence along U.S. Highway 16 to the Wisconsin-Minnesota State line. The purpose of this filing is to eliminate the gateways of points in Kansas and Canton, S. Dak.

No. MC 114211 (Sub-No. E761), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm tractors* (except those with vehicle beds, bed frames, and fifth wheels), *equipment* (designed for use in conjunction with farm tractors), and *parts* in mixed loads with such commodities, from Madison, S. Dak., to points in Washington, Oregon, Maine, Vermont, New Hampshire, Massachusetts, Rhode Island, Connecticut, New Jersey, Delaware, District of Columbia; to points in that part of California on and northwest of a line beginning at San Diego, Calif., extending along Interstate Highway 15 to junction California Highway 58, thence along California Highway 58 to junction California Highway 99, thence along California Highway 99 to junction U.S. Highway 50, thence along U.S. Highway 50 to the California-Nevada State line; to points in that part of Nevada on and west of a line beginning at the California-Nevada State line extending along U.S. Highway 50 to junction U.S. Highway 395, thence along U.S. Highway 395 to junction Alternate U.S. Highway 95, thence along Alternate U.S. Highway 95 to junction U.H. Highway 95, thence along U.S. Highway 95 to the Nevada-Oregon State line; to points in that part of Idaho on and northwest of a line beginning at the Oregon-Idaho State line extending along U.S. Highway 95 to junction Idaho Highway 55, thence along Idaho Highway 55 to junction Interstate Highway 80N, thence along Interstate Highway 80N to junction Interstate Highway 15W, thence along Interstate Highway 15W to junction Interstate Highway 15, thence along Interstate Highway 15 to the Idaho-Montana State line; to points in that part of Montana on the northwest of a line beginning at the Idaho-Montana State line extending along Montana Highway 43 to junction U.S. Highway 91, thence along U.S. Highway 91 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction Montana Highway 200, thence along Montana Highway 200 to junction Montana Highway 200S, thence along Montana Highway 200S to junction Interstate Highway 94, thence along Interstate Highway 94 to the Montana-North Dakota State line; to points in that part of North Dakota on and north of a line beginning at the Montana-North Dakota State line extending along U.S. Highway 94 to junction U.S. Highway 83.

Thence along U.S. Highway 83 to junction North Dakota Highway 200, thence along North Dakota Highway 200 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction Interstate Highway 94, thence along Interstate Highway 94 to the North Dakota-Minnesota State line; to points in that part of Minnesota on and north of a line beginning at the North Dakota-Minnesota State line extending along U.S. Highway 10 to junction U.S. Highway 75, thence along U.S. Highway 75 to junction U.S. Highway 2, thence along U.S. Highway 2 to junction Minnesota Highway 169, thence along Minnesota Highway 169 to junction Minnesota Highway 1, thence along Minnesota Highway 1 to junction U.S. Highway 61, thence along U.S. Highway 61 to the United States-Canada International Boundary line; to points in that part of Michigan on and north of a line beginning at the Lake Michigan extending along U.S. Highway 31 to junction Michigan Highway 72, thence along Michigan Highway 72 to junction Interstate Highway 75 Temp., thence along Interstate Highway 75 Temp. to junction U.S. Highway 10, thence along U.S. Highway 10 to junction Michigan Highway 25, thence along Michigan Highway 25 to junction Michigan Highway 142, thence along Michigan Highway 142 to Lake Huron; to points in that part of New York on and east of a line beginning at the Lake Erie, extending along Interstate Highway 20 to junction New York Highway 249, thence along New York Highway 249 to junction U.S. Highway 219, thence along U.S. Highway 219 to the New York-Pennsylvania State line; to points in that part of Pennsylvania on and east of a line beginning at the New York-Pennsylvania State line extending along U.S. Highway 219 to junction U.S. Highway 22, thence along U.S. Highway 22 to junction U.S. Highway 220, thence along U.S. Highway 220 to the Pennsylvania-Maryland State line.

To points in that part of Maryland on and east of a line beginning at the Pennsylvania-Maryland State line extending along U.S. Highway 220 to the Maryland-West Virginia State line; to points in that part of Virginia on and east of a line beginning at the West Virginia-Virginia State line extending along U.S. Highway 220 to the Virginia-North Carolina State line; to points in that part of West Virginia on and east of a line beginning at the Maryland-West Virginia State line extending along U.S. Highway 220 to the West Virginia-Virginia State line; to points in that part of North Carolina on and east of a line beginning at the Virginia-North Carolina State line extending along U.S. Highway 220 to junction U.S. Highway 421, thence along U.S. Highway 421 to junction North Carolina Highway 18, thence along North Carolina Highway 18 to junction U.S. Highway 64, thence along U.S. Highway 64 to junction U.S. Highway 221, thence along U.S. Highway 221 to the North Carolina-South Carolina State line; to points in that part of South Carolina on and east of a line beginning at the South Carolina-North Carolina State line extending along U.S. Highway 221 to the South Carolina-Georgia State line; to points in that part of Georgia on and east of a line beginning at the South Carolina-Georgia State line extending along U.S. Highway 221 to junction U.S. Highway 80, thence along U.S. Highway 80 to junction U.S. Highway 1, thence along U.S. Highway 1 to junction U.S. Highway 84, thence along U.S. Highway 84 to junction U.S. Highway 221, thence along U.S. Highway 221 to the Georgia-Florida State line; and to points in that part of Florida on and east of a line beginning at the Georgia-Florida State line extending along U.S. Highway 221 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction Florida Highway 361, thence along Florida Highway 361 to the Gulf of Mexico. The purpose of this filing is to eliminate the gateways of Nassau, Minn., and Fargo, N. Dak.

No. MC 114211 (Sub-No. E762), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled farm machinery and parts thereof*, from Valley, Nebr., to points in that part of Wisconsin on and north of a line beginning at the Minnesota-Wisconsin State line extending along Wisconsin Highway 25 to junction Wisconsin Highway 35, thence along Wisconsin Highway 35 to junction Wisconsin Highway 37, thence along Wisconsin Highway 37 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction Wisconsin Highway 95, thence along Wisconsin Highway 95 to junction Wisconsin Highway 73, thence along Wisconsin Highway 73 to junction Wisconsin Highway 54, thence along Wisconsin Highway 54 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 141, thence along U.S. Highway 141 to Manitowoc, Wis., restricted against the transportation of commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling, and restricted against the transportation of those commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459. The purpose of this filing is to eliminate the gateways of Omaha, Nebr., Council Bluffs, Iowa, and Minneapolis, Minn.

No. MC 114211 (Sub-No. E763), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Road building equipment (except commodities which because of size or weight, require the use of special equipment and except commodities described in *Mercer Extension—Oil Field Commodities*, 74 M.C.C. 459, from Madison, S. Dak., to points in Arkansas, Louisiana, Mississippi, Alabama, Georgia, Florida, South Carolina; to points in that part of North Carolina on and south of a line beginning at Beaufort, N.C., extending along U.S. Highway 70 to junction U.S. Highway 13, thence along U.S. Highway 13 to junction U.S. Highway 421, thence along U.S. Highway 421 to junction North Carolina Highway 27, thence along North Carolina Highway 27 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction U.S. Highway 70, thence along U.S. Highway 70 west to the North Carolina-Tennessee State line; to points in that part of Tennessee on and south of a line beginning at the Tennessee-North Carolina State line extending along U.S. Highway 70 to junction U.S. Highway 11, thence along U.S. Highway 11 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction Alternate U.S. Highway 41, thence along Alternate U.S. Highway 41 to junction Tennessee Highway 99, thence along Tennessee Highway 99 to junction Tennessee Highway 20, thence along Tennessee Highway 20 to the Tennessee-Missouri State line; and to points in that part of Oklahoma on and southeast of a line beginning at the Oklahoma-Missouri State line extending along U.S. Highway 66 to junction U.S. Highway 64, thence along U.S. Highway 64 to junction Oklahoma Highway 51, thence along Oklahoma Highway 51 to junction U.S. Highway 177, thence along U.S. Highway 177 to junction Oklahoma Highway 33, thence along Oklahoma Highway 33 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction Oklahoma Highway 9, thence along Oklahoma Highway 9 to junction Oklahoma Highway 34, thence along Oklahoma Highway 34 to the Oklahoma-Texas State line. The purpose of this filing is to eliminate the gateways of points in Kansas and Claremore, Okla.

No. MC 114211 (Sub-No. E764), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, from Springfield, Mo., to points in North Dakota, South Dakota, Minnesota; and to points in that part of Wisconsin on and north of a line beginning at the Iowa-Wisconsin State line extending along Wisconsin Highway 27 to junction Wisconsin Highway 171, thence along Wisconsin Highway 171 to junction Wisconsin Highway 131, thence along Wisconsin Highway 131 to junction Interstate Highway 90, thence along Interstate Highway 90 to junction Wisconsin Highway 173 thence along Wisconsin Highway 173 to junction Wisconsin Highway 54, thence along Wisconson Highway 54 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction Wisconsin Highway 66, thence along Wisconsin Highway 66 to junction Wisconsin Highway 49, thence along Wisconsin Highway 49 to junction Wisconsin Highway 29, thence along Wisconsin Highway 29 to Wisconsin Highway 22, thence along Wisconsin Highway 22 to junction U.S. Highway 141, thence along U.S. Highway 141 to junction Wisconsin Highway 64, thence along Wisconsin Highway 64 to Marinette, Wis. The purpose of this filing is to eliminate the gateways of Des Moines, Iowa, and Ft. Dodge, Iowa.

No. MC 114211 (Sub-No. E765), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery*, from Lincoln, Nebraska, to points in Wisconsin, and to points in that part of Minnesota on and east of a line beginning at the Iowa-Minnesota State line extending along U.S. Highway 71 to junction Minnesota Highway 92, thence along Minnesota Highway 92 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction Minnesota Highway 11, thence along Minnesota Highway 11 to junction U.S. Highway 75, thence along U.S. Highway 75 to the United States-Canada boundary line, to points in that part of Illinois on and east of a line beginning at the Illinois-Iowa State line extending along U.S. Highway 30 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction Illinois Highway 47, thence along Illinois Highway 47 to junction U.S. Highway 136, thence along U.S. Highway 136 to the Illinois-Indiana State line, to points in that part of Indiana on and east of a line beginning at the Illinois-Indiana State line extending along Indiana Highway 64 to junction U.S. Highway 41, thence along Indiana Highway 41 to junction Indiana Highway 68, thence along Indiana Highway 68, to junction Indiana Highway 61, thence along Indiana Highway 61 to junction Indiana Highway 66, thence along Indiana Highway 66 to junction U.S. Highway 231, thence along U.S. Highway 231 to the Kentucky-Indiana State line. The purpose of this filing is to eliminate the gateway of Fort Dodge, Iowa, and Nebraska City, Nebraska.

No. MC 114211 (Sub-No. E766), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: KENNETH R. NELSON (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, from Lincoln, Nebraska, to points in Maine, New Hampshire, Vermont, Massachusetts, New York, Pennsylvania, Rhode Island, Connecticut, New Jersey, Delaware, Maryland, Virginia, and the District of Columbia, restricted to the transportation of traffic originating at or destined to the plant sites, warehouse sites, and experimental farms of Deere and Company. The purpose of this filing is to eliminate the gateway of Dubuque, Iowa and Nebraska City, Nebraska.

No. MC 114211 (Sub-No. E767), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, from Independence, Mo., to points in North Dakota, Minnesota; to points in that part of South Dakota on and north of a line beginning at the Minnesota-South Dakota State line extending along Interstate Highway 90 to junction South Dakota Highway 73, thence along South Dakota Highway 73 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction South Dakota Highway 87, thence along South Dakota Highway 87 to the South Dakota-Nebraska State line; and to points in that part of Wisconsin on and northwest of a line beginning at the Minnesota-Wisconsin State line extending along U.S. Highway 18 to junction Wisconsin Highway 23, thence along Wisconsin Highway 23 to junction Wisconsin Highway 11, thence along Wisconsin Highway 11 to junction Wisconsin Highway 69, thence along Wisconsin Highway 69 to the Illinois-Wisconsin State line. The purpose of this filing is to eliminate the gateways of Des Moines and Fort Dodge, Iowa.

No. MC 114211 (Sub-No. E768), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof* (except commodities the transportation of which because of size or weight, requires the use of special equipment, and except commodities described in Mercer Extension-Oil Field Commodities, 74 M.C.C. 459), from Great Bend, Kans., to points in Louisiana, Mississippi, Tennessee, Alabama, Florida, Georgia, South Carolina, North Carolina, Virginia, West Virginia, District of Columbia, Kentucky, New Jersey; to points in that part of Oklahoma on, south, and east of a line beginning at the Oklahoma-Texas State line extending along U.S. Highway 271 to junction U.S. Highway 75, thence along U.S. Highway 75 to junction Oklahoma Highway 33, thence along Oklahoma Highway 33 to the Oklahoma-Arkansas State line; and to points in that part of Arkansas on and south of a line beginning at the Oklahoma-Arkansas State line extending along Arkansas Highway 68 to junction Arkansas Highway 16, thence along Arkansas Highway 16 to junction Arkansas Highway 45, thence along Arkansas Highway 45 to junction Arkansas Highway 68, thence along Arkansas Highway 68 to junction U.S. Highway 62, thence along U.S. Highway 62 to junction Arkansas Highway 101, thence along Highway 101 to the Arkansas-Missouri State line. The purpose of this filing is to eliminate the gateways of Claremore, Okla., and Beatrice, Nebr.

No. MC 114211 (Sub-No. E769), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements and parts thereof* when moving in mixed loads with agricultural implements (except commodities the transportation of which because of size or weight require the use of special equipment), from Lincoln, Nebr., to points in that part of Texas on and south of a line beginning at the New Mexico-Texas State line extending along U.S. Highway 60 to junction Texas Highway 86, thence along Texas Highway 86 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 83, thence along U.S. Highway 83 to junction U.S. Highway 62, thence along U.S. Highway 62 east to the Texas-Oklahoma State line (except Dallas, Ft. Worth, Houston, Galveston, Abilene, Sweetwater, Big Springs, Midland, Odessa, and El Paso). The purpose of this filing is to eliminate the gateways of Beatrice, Nebr., and Tulsa, Okla.

No. MC 114211 (Sub-No. E770), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled farm machinery* and *parts* thereof, the transportation of which, because of size or weight, requires special equipment, from Springfield, Missouri, to points in North Dakota, and to points in that part of Wisconsin on and north of a line beginning at the Wisconsin-Minnesota State line extending along Wisconsin Highway 25 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction Wisconsin Highway 13, thence along Wisconsin Highway 13 to junction Wisconsin Highway 54, thence along Wisconsin Highway 54 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction Wisconsin Highway 22, thence along Wisconsin Highway 22 to junction U.S. Highway 41, thence along U.S. Highway 41 to the Wisconsin-Michigan State line, to points in that part of South Dakota on and north of a line beginning at the South Dakota-Wyoming State line extending along U.S. Highway 212 to the South Dakota-Minnesota State line, to points in that part of Montana on and north of a line beginning at the Montana-Idaho State line extending along Montana Highway 324 to junction U.S. Highway 91, thence along U.S. Highway 91 to junction Montana Highway 41, thence along Montana Highway 41 to junction U.S. Highway 10.

Thence along U.S. Highway 10 to junction U.S. Highway 87, thence along U.S. Highway 87 to the Montana-Wyoming State line, to points in that part of Idaho on and north of a line beginning at the Idaho-Washington State line extending along U.S. Highway 12 to junction U.S. Highway 93, thence along U.S. Highway 93 to junction Idaho Highway 28, thence along Idaho Highway 28 to junction Idaho Highway 324, thence along Idaho Highway 324 to the Idaho-Montana State line, to points in that part of Washington on and northwest of a line beginning at the Washington-Oregon State line extending along Washington State Highway 11 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Washington-Idaho State line, and to points in that part of Oregon on and northwest of a line beginning at the Oregon-California State line extending along U.S. Highway 199 to junction Interstate Highway 5, thence along Interstate Highway 5 to junction Oregon Highway 126, then along Oregon Highway 126 to junction Oregon State Highway 242, thence along Oregon State Highway 242 to junction Oregon Highway 126, thence along Oregon State Highway 126 to junction U.S. Highway 97, thence along U.S. Highway 97 to junction Interstate Highway 80N, thence along Interstate Highway 80N to junction Highway 11, thence along Oregon State Highway 11 to the Oregon-Washington State line. The purpose of this filing is to eliminate the gateway of points in Iowa and Minneapolis, Minnesota.

No. MC 114211 (Sub-No. E771), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts* thereof, from Great Bend, Kansas, to points in Minnesota, Wisconsin, Indiana, Michigan, Ohio, and to points in that part of Illinois on, north and east of a line beginning at the Missouri-Illinois State line extending along U.S. Highway 54 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction Illinois Highway 16, thence along Illinois Highway 16 to junction Illinois Highway 127, thence along Illinois Highway 127 to the Illinois-Kentucky State line, and to points in that part of Missouri on and north of a line beginning at the Iowa-Missouri State line extending along Missouri Highway 13 to junction Missouri Highway 6, thence along Missouri Highway 6, to junction U.S. Highway 65, thence along U.S. Highway 65, to junction U.S. Highway 36, thence along U.S. Highway 36 to the Illinois-Missouri State line restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateway of Beatrice, Nebraska.

No. MC 114211 (Sub-No. E775), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, between Lincoln, Nebr., on the one hand, and, on the other, points in North Dakota; points in that part of Minnesota on and north of a line beginning at the Iowa-Minnesota State line extending along U.S. Highway 71 to junction U.S. Highway 14, thence along U.S. Highway 14 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction Minnesota Highway 68, thence along Minnesota Highway 68 to the Minnesota-South Dakota State line; and points in that part of Illinois on and west of a line beginning at the Illinois-Kentucky State line extending along Illinois Highway 127 to junction Illinois Highway 16, thence along Highway 16 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction Illinois Highway 97, thence along Illinois Highway 97 to junction U.S. Highway 150, thence along U.S. Highway 150 to the Illinois-Iowa State line. The purpose of this filing is to eliminate the gateway of points in Iowa.

No. MC 114211 (Sub-No. E776), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* (except in each instance, commodities which because of size or weight, require the use of special equipment, and except commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459), from Grandview, Mo., to points in Florida, Louisiana, Arizona, California; to points in that part of Alabama on and south of a line beginning at the Alabama-Mississippi State line extending along Alabama Highway 10 to junction U.S. Highway 331, thence along U.S. Highway 331 to junction County Highway 70, thence along County Highway 70 to junction U.S. Highway 84, thence along U.S. Highway 84 to the Alabama-Georgia State line; to points in that part of Mississippi on and south of a line beginning at the Mississippi-Arkansas State line extending along U.S. Highway 82 to junction U.S. Highway 49, thence along U.S. Highway 49 to junction Interstate Highway 20, thence along Interstate Highway 20 to junction Mississippi Highway 19, thence along Mississippi Highway 19 to the Mississippi-Alabama State line; to points in that part of Arkansas on and south of a line beginning at the Arkansas-Oklahoma State line extending along U.S. Highway 70 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction Arkansas

XUM

ASSIGNMENT OF HEARINGS

FEBRUARY 20, 1975.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after February 25, 1975.

MC 138276 Sub 2, J & G Transport Ltd., now assigned February 19, 1975 at Olympia, Wash., is postponed indefinitely.

MC-F-12194, F-B Truck Line Company—Purchase—Dalzell Corporation and MC 125433 Sub 50, F-B Truck Line Company, now assigned February 24, 1975, at San Francisco, Calif., is cancelled and application dismissed.

MC-F-12187, Hunt Transportation, Inc.—Investigation of control—Jack's Machinery Transportation Corporation, now assigned February 27, 1975 at Omaha, Nebr., is cancelled.

MC 126266 Sub 8, Dudley Boat & Trailer Transportation, Inc., Extension—Oregon and Washington, now assigned March 3, 1975, at Olympia, Washington is transferred to Room 2586, Federal Building, 915 2nd Ave., Seattle, Wash., same date.

MC 56640 Sub 32, Delta Lines, Inc., now assigned March 3, 1975, at Carson City, Nevada, is postponed to April 14, 1975 (2 wk) at Carson City, Nevada, in a hearing room to be later designated.

MC 95084 Sub 106, Hove Truck Line, now assigned April 4, 1975, at Omaha, Nebr., is postponed indefinitely.

MC 1263 Sub 18, McCarty Truck Line, Inc., now assigned March 10, 1975 at Lincoln, Nebr. is postponed to April 7, 1975, at Lincoln, Nebr., in a hearing room to be later designated.

MC 110683 Sub 99, Smith's Transfer Corporation, now being assigned April 21, 1975 (1 wk), at Indianapolis, Ind., in a hearing room to be designated later.

MC 44735 Sub 13, Klasick Truck Line, Inc., continued hearing now assigned March 19, 1975, at Kansas City, Mo. is postponed to March 20, 1975, at Kansas City, Mo. in Room 609, Federal Building, 911 Walnut St.

[Notice No. 238]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

FEBRUARY 25, 1975.

Synopses of orders entered by Division 3 of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's General Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before March 27, 1975. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-75322. By order entered 2.14.75 Division 3, acting as an Appellate Division, approved the transfer to National Mehl Tours, Inc., Springfield, Ill., of License No. MC-12543, issued by the Commission September 9, 1969, to Travel Systems International, Ltd., doing business as Vanderbilt Better Tours, Oak Brook, Ill., authorizing operations at Chicago, Ill., as a broker in connection with the transportation by motor vehicle of passengers and their baggage between all points in the United States (except Alaska and Hawaii). Harold M. Olsen, 712 South Second St., Springfield, Ill. 62704, attorney for applicants.

[Notice No. 19]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

FEBRUARY 14, 1975.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67, (49 CFR 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 4587 (Sub-No. 15TA), filed February 10, 1975. Applicant: BURGESS & COOK, INC., P.O. Box 458, 21 N. 2nd Street, Fernandina Beach, Fla. 32034. Applicant's representative: Archie B. [Notice No. 20]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

FEBRUARY 19, 1975.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67, (49 CFR 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

(1) *Motorcycles, recreational vehicles and machine accessories and parts,* and (2) *equipment materials and supplies* used in the manufacture, distribution, or sale of the commodities named in (1) above, for 180 days. Supporting shipper: Kawasaki Motors Corp., U.S.A., 1062 McGaw Avenue, Santa Ana, Calif. 92705. Send protests to: Carroll Russell, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 110 North 14th St., Omaha, Nebr. 68102.

No. MC 125474 (Sub-No. 45 TA), filed February 3, 1975. Applicant: BULK HAULERS, INC., P.O. Box 3601, Wilmington, N.C. 28401. Applicant's representative: Ralph Simmons (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Contaminated ethylene glycol*, (in bulk, in tank vehicles), between the plantsite of Fiber Industries, Inc., at or near Darlington, S.C., on the one hand, and, on the other, the plantsite of Fiber Industries, Inc., in or near Fiberton, N.C., for 180 days. Supporting shipper: Celanese Corporation, 1211 Avenue of the Americas, New York, N.Y. 10036. Send protests to: Archie W. Andrews, District Supervisor, Bureau of Operations, Interstate Commerce Commission, P.O. Box 26896, Raleigh, N.C. 27611.

No. MC 133095 (Sub-No. 72 TA), filed February 12, 1975. Applicant: TEXAS CONTINENTAL EXPRESS, INC., P.O. Box 434, Euless, Tex. 76039. Applicant's representative: Rocky Moore (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fresh meats, frozen meats and cured meats*, from Fort Worth, Dallas, and Paris, Tex., and Little Rock, Ark., to Landover, Md.; Newark, N.J.; New York, N.Y.; and Boston, Mass., for 180 days. Supporting shipper: Texas International Packers, Inc., 601 West Center St., Paris, Tex. 75460. Send protests to: H. C. Morrison, Sr., Room 9A27 Federal Bldg., 819 Taylor St., Fort Worth, Tex. 76102.

No. MC 133123 (Sub-No. 7 TA), filed February 10, 1975. Applicant: RUJAC TRUCKING CORP., 1133 Avenue of the Americas, Room 3210, New York, N.Y. 10009. Applicant's representative: Arthur J. Piken, Esq., One Lefrak City Plaza, Flushing, N.Y. 11368. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Electrical goods, and bicycles*, from points in the New York, N.Y., Commercial Zones and Terminal Areas, 53 M.C.C. 451, within which local operations may be conducted under the exemption provided in Section 203(b)(8) of the Act (the exempt zone), and Port Elizabeth and Port Newark, N.J., to points in that part of New Jersey south of New Jersey Highway 33 (except Atlantic City, N.J.), and points in that part of Pennsylvania east of a line beginning at the Pennsylvania-New York State line, and extending southerly and easterly along the western boundaries of Susquehanna, Wyo., Luzerne, Schuylkill, Berks, and Montgomery Counties, Pa., and the commercial zone of Philadelphia, Pa., with no transportation for compensation on return, except as otherwise authorized, for 180 days. Supporting shipper: Matsushita Electric Corporation of America, Herbert Cadel, General Manager, 50 Meadowlands Parkway, Secaucus, N.J. 07094. Send protests to: Stephen P. Tomany, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 26 Federal Plaza, New York, N.Y. 10007.

No. MC 133922 (Sub-No. 8TA), filed February 7, 1975. Applicant: JENKINS AND NAGEL TRUCKING CO., Box 98, Wolcott, Ind., 47995. Applicant's representative: Alki Scopelitis, 815 Merchants Bank Bldg., Indianapolis, Ind. 46204. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Cereal and dairy products*, between Chicago Heights and Decatur, Ill., on the one hand, and, on the other, points in the United States, (except Alaska and Hawaii), under a continuing contract or contracts with Dry Milk Products, Inc., for 180 days. Supporting shipper: Dry Milk Products, Inc., 1301 West 22nd Street, Oak Brook, Ill. 60521. Send protests to: J. H. Gray, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 345 W. Wayne St., Room 204, Ft. Wayne, Ind. 46802.

No. MC 134145 (Sub-No. 58TA), filed February 14, 1975. Applicant: NORTH STAR TRANSPORT, INC., Route 1, Hwy. 1 and 59 West, Thief River Falls, Minn. 56701. Applicant's representative: Robert P. Sack, P.O. Box 6010, West St. Paul, Minn. 55118. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Three wheeled utility truck*, self-propelled, weighing less than 1,500 pounds, from Roseau, Minn., to Houston, Dallas, and Arlington, Tex., Plainview, N.Y., Grove City and North Royalton, Ohio, New Kensington and Bethlehem, Penn., Bordentown, N.J., and Falmouth, Mass., for 180 days. Supporting shipper: Polaris, Division of Textron, Inc., Roseau, Minn. 56751. Send protests to: J. H. Ambs, District Supervisor, Bureau of Operations, Interstate Commerce Commission, P.O. Box 2340, Fargo, N. Dak. 58102.

No. MC 134182 (Sub-No. 29TA) (Correction), filed February 4, 1975, published in the FEDERAL REGISTER issue of February 18, 1975, and republished as corrected this issue. Applicant: MILK PRODUCERS MARKETING COMPANY, doing business as, ALL-STAR TRANSPORTATION, Second and West Turnpike Road, Lawrence, Kans. 66044. Applicant's representative: Lucy Kennard Bell, Suite 910, Fairfax Bldg., Kansas City, Mo. 64105. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass bottles*, with *metal closures*, from the plantsites of Brockway Glass Company at Muskogee, Okla., Keer Glass Company at San Springs, Okla., and Obear-Nestor Glass Company at East St. Louis, Ill. to the plantsite of Milk Producers Marketing Company at Lawrence, Kans., restricted to the transportation of shipments originating at and destined to the above named points; and (2) *fruit juices, fruit punches, and fruit flavored drinks*, from the plantsite of Milk Producers Marketing Company at Lawrence, Kans., to points in Arkansas, Colorado, Missouri, Montana, Nebraska, New Mexico, North Dakota, Oklahoma, South Dakota, and Wyoming, restricted to the transportation of shipments originating at the above named origin point, for 180 days. Supporting shipper: A. E. Staley Manufacturing Company, 220 Eldorado St., Decatur, Ill. 62525. Send protests to: Thomas P. O'Hara, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 234 Federal Bldg., Topeka, Kans. 66603. The purpose of this republication is to correct the name of the applicant.

No. MC 134454 (Sub-No. 7TA), filed February 10, 1975. Applicant: PRICE DELIVERY SERVICE, INC., 367 West Second St., Dayton, Ohio 45401. Applicant's representative: Paul F. Beery, 8 East Broad St., 9th Floor, Columbus, Ohio 43215. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Prestressed concrete pressure pipe and fittings thereto*, for the account of Price Brothers Company, from the site of Price Brothers Company in Dutchess County, N.Y., to Jefferson County, Ky. (except the Louisville, Ky., Commercial Zone), for 180 days. Supporting shipper: Price Brothers Company, 367 West Second St., Dayton, Ohio 45401. Send protests to: Paul J. Lowry, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 5514 B FOB, 550 Main St., Cincinnati, Ohio 45202.

No. MC 134992 (Sub-No. 113TA), filed February 12, 1975. Applicant: B. J. McADAMS, INC., Route 6, Box 15, North Little Rock, Ark. 72118. Applicant's representative: Don Garrison (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Outdoor furniture, in cartons*, from North Little Rock, Ark., to points in California. Supporting shipper: Arkco Manufacturing Company, Inc., 1312 East 8th St., North Little Rock, Ark. 72114. Send protests to: William H. Land, Jr., District Supervisor, Bureau of Operations, Interstate Commerce Commission, 2519 Federal Office Bldg., 700 West Capitol, Little Rock, Ark. 72201.

No. MC 135884 (Sub-No. 6TA), filed February 13, 1975. Applicant: STEVE CALDWELL, Route 1, Box 36, Adams, Oreg. 97810. Applicant's representative: Lawrence V. Smart, Jr., 219 Northwest 23rd Avenue, Portland, Oreg. 97210. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Furniture parts*, from Clark and Walla Walla Counties, Wash., and Linn County, Oreg. to points in Minnesota, Colorado, Texas, Illinois, Pennsylvania, Georgia, Massachusetts,

California, Wisconsin, New Jersey, Oregon, Washington, and Nebraska, for 180 days. Supporting shipper: Harris Pine Mills, Main Office, Drawer 1168, Pendleton, Oreg. 97801. Send protests to: W. J. Huetig, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 114 Pioneer Courthouse, Portland, Oreg. 97204.

No. MC 136375 (Sub-No. 5TA), filed February 11, 1975. Applicant: DONCO CARRIERS, INC., 1001 South Rockwell, P.O. Box 75354, Oklahoma City, Okla. 73107. Applicant's representative: William L. Peterson, Jr., P.O. Box 917, Oklahoma City, Okla. 73101. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Bicycles, bicycle parts, bicycle accessories and materials and supplies* used in the manufacture and for assembly of bicycle parts and bicycle accessories, between the plantsite of Raleigh Industries of America, Inc., Enid, Oklahoma, on the one hand, and, on the other, points in the United States (except Alaska, Hawaii and Oklahoma), restricted on shipments originating at Enid, Okla., to truckload shipments which require three or more stops in transit and one final stop for off loading of the commodities described therein, for 180 days. Supporting shipper: Raleigh Ind., of America, Inc., Douglas M. Martin, T. M. U.S. 64 & Raleigh St., Enid, Okla. 73701. Send protests to: C. L. Phillips, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Rm. 240, Old P.O. Bldg., 215 N.W. Third, Oklahoma City, Okla. 73102.

No. MC 139323 (Sub-No. 2 TA), filed February 10, 1975. Applicant: KARS TRANSPORT, INC., 666 Northwest 20th Street, Miami, Fla. 33178. Applicant's representative: Richard B. Austin, 214 Palm Coast II Bldg., 5255 Northwest 87th Avenue, Miami, Fla. 33178. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (excluding household goods, as defined by the Commission, Class A and B explosives, articles of unusual value, articles in bulk and articles which, by reason of size or weight require unusual handling), between points in Dade, Broward, and Palm Beach Counties, Fla., restricted to traffic having an immediate, prior or subsequent movement by rail or water, for 180 days. Supporting shippers: There are approximately 9 statements of support attached to the application, which may be examined at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: Joseph B. Teichert, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Palm Coast II Bldg., Suite 208, 5255 Northwest 87th Avenue, Miami, Fla. 33178.

[Ex Parte No. 293; Sub-No. 4]

ACQUISITIONS OF RAIL PROPERTIES

Consideration by the Commission Under Interstate Commerce Act and Request for Necessary and Appropriate Information; Proposal by U.S. Railway Association in Preliminary System Plan

Section 206(d)(3) of the Regional Rail Reorganization Act of 1973 requires that the Interstate Commerce Commission make the following determination: that each acquisition of rail properties by a profitable railroad operating in the region which is proposed by the United States Railway Association in its preliminary system plan "will be in full accord and comply with the provisions and standards of section 5 of Part I of the Interstate Commerce Act." The Commission's determinations must be completed within 90 days of release of the preliminary system plan, presently scheduled for February 26, 1975.

In compliance with the statutory plan and timetable for processing acquisitions of rail properties by profitable carriers as established by the Regional Rail Reorganization Act, the Commission's consideration of the proposals will be on an informal, expedited basis, without application or hearing. Use will be made of currently available resources within the Commission, including annual reports and other materials filed by the railroads themselves.

Consideration will be given in reaching each determination to numerous factors, including: the anticipated effect of each acquisition, and all acquisitions cumulatively, upon the continuation of adequate rail service to the public, the potential effect upon other railroads of each and all acquisitions, the propriety of fixed charges arising from each acquisition, and the impact of the acquisitions, individually and cumulatively, upon the availability of competitive rail service.

To assure an adequate data base for thorough consideration of each proposed acquisition, information with respect to and comments on each such proposal are requested from all interested persons, including but not limited to the United States Railway Association, railroads involved in or affected by proposed acquisitions, Amtrak, concerned State, regional, and local organizations, and shippers served by the rail properties involved, and the Commission's Rail Services Planning Office. Such materials should be filed with the Secretary of the Commission on or before March 28, 1975. Upon receipt of the preliminary system plan by the Commission, each acquisition proposed therein will be given a numerical designation, which will be published in the FEDERAL REGISTER, and all comments and information should be filed with reference thereto. It is requested that separate statements be filed for each individual proposed acquisition.

In particular, information should be submitted with respect to the following matters:

(1) The value of the rail properties proposed to be acquired or an estimate of such value, with supporting information on the method used to determine value.

(2) The compensation to be paid by the profitable railroad operating in the region in exchange for the rail properties to be acquired or the amount of compensation offered by the profitable carrier for such properties or an estimate of the compensation to be paid.

(3) The present uses or purposes of the rail properties proposed to be acquired, and the proposed uses or purposes of such properties under ownership of the profitable railroad, if different.

(4) The classes of service presently, and performed, such as passenger, commuter or inter-city), freight, express, switching, etc., and the kind of motive power used and to be used.

(5) Each station on the rail properties proposed to be acquired and its distance from a designated initial point.

(6) Those points located on a rail line proposed to be acquired which are presently served by a railroad other than the railroad in reorganization from which the rail properties would be acquired and the name of such other railroad or railroads.

(7) The railroads with which rail properties proposed to be acquired connect and the location, nature, and condition of those connections.

(8) Rail properties, other than lines, in the territory adjacent to the rail properties proposed to be acquired which are similar or comparable to those rail properties and the distance between such properties.

(9) Industry or industries existing in the area of the rail properties proposed to be acquired and their probable future growth and performance and reasons therefor.

(10) Whether a rail line proposed to be acquired has been or is presently operated for direct profit from rail operations or for the advantage of any other industry or business.

(11) If a rail line proposed to be acquired may become an extension, a branch, a connecting track, or a cutoff, the extent to which that line is expected to be directly profitable in itself and the extent to which acquisition of that line is expected to be justified by its effect on the business of other existing lines of the profitable carrier to whom it may be offered.

(12) If a rail line proposed to be acquired is presently and will remain or may become a connecting link between existing railroads, the kind and volume of traffic, expressed in tons or carloads, that is currently and will be interchanged and economies that are and would be thereby affected.

(13) If a rail line proposed to be acquired is or may become such a connecting link, the manner in which and carriers by which interchange traffic is currently and is proposed to be transported.

(14) Any agreement, tentative or otherwise, with existing railroads covering operation, interchange of traffic, division of rates, or trackage rights in connection with a rail line proposed to be acquired or any such agreements which could or should be undertaken.

(15) Whether any aid, gift, grant of right-of-way, or other donation has been promised or proposed in connection with the proposed acquisition of rail properties; if so, state specifically the nature, amount, and value of such promised donations.

(16) Detailed information as to traffic handled by or upon the rail properties proposed to be acquired, for the most extensive period available, including:

(a) Traffic volume by line, by station, and by industry, including overhead traffic and traffic originating on and destined for industries on the line, broken down by carload, by ton, and by commodity.

(b) Traffic densities per mile for a line.

(c) Cars handled by yard, terminal, and similar facilities on a daily, weekly, and annual basis.

(d) Frequency of service offered.

(e) Projections as to future changes in the above-requested data.

(17) Detailed information as to the directional flows of traffic presently handled by or on the rail properties proposed to be acquired and the relationship of those flows to the traffic patterns of the railroad from which the properties would be acquired, the profitable railroad operating in the region to which the properties may be offered, and of the region as a whole.

(18) Detailed information as to the potential for diversion of traffic from the rail properties proposed to be acquired and from other rail lines and facilities to the rail properties proposed to be acquired as a result of the proposed acquisition.

(19) Detailed cost and revenue figures for the rail properties proposed to be acquired, for the most extensive period available, including:

(a) Gross revenues derived from the traffic handled which is attributable to to a particular property.

(b) Operating expenses attributable to a particular property.

(c) Net revenue (or loss) attributable to a particular property, in total and by carload.

(d) Net railway operating income attributable to a particular property.

(e) Projections as to future changes in the above-requested data, if the proposed acquisition occurs and if such an acquisition is not completed.

(20) Information as to the effect of the proposed acquisition of rail properties upon the continued provision of adequate rail service to the public and upon the improvement of such rail service.

(21) Information as to the effect upon the public interest and upon other profitable railroads operating in the region of the proposed acquisitions of rail properties, including the specific effect on the profitability of those profitable railroads and the potential for diversion of traffic from those profitable railroads and from other railroads in reorganization.

(22) Information as to the effect of the proposed acquisition of rail properties upon the continued existence and quality of competition in the provision of rail service in the region.

(23) Information as to the economies in operation and improvements in efficiency which may result from the proposed acquisition of rail properties.

(24) Information as to the general benefits to be achieved through each proposed acquisition of rail properties and through the total acquisition proposal.

(25) Information as to the actual effect of the proposed acquisition of rail properties upon the viability, profitability, and operations of the Consolidated Rail Corporation.

Notice of the intent of the Interstate Commerce Commission to consider the acquisitions of rail properties proposed by the United States Railway Association and to request information from interested parties with regard thereto shall be given to: the United States Railway Association, the Rail Services Planning Office, Amtrak, all Class I and Class II railroads operating in the region, the Governors of all States located within the region, the Public Utility Commissions of all of the States located within the region, the Departments of Transportation of all of the States located within the region.

Dated: February 18, 1975.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Public Health Service

CRITICAL HEALTH MANPOWER SHORTAGE AREAS

Designations and Withdrawals

Section 329(b) of the Public Health Service Act, as amended by the Emergency Health Personnel Act Amendments of 1972 (Pub. L. 92-585), provides that the Secretary of Health, Education, and Welfare shall designate those areas which he determines have critical health manpower shortages and thus would be areas eligible for assignment of National Health Service Corps personnel. On October 23, 1974, a list of areas was so designated in the FEDERAL REGISTER (39 FR 37756).

The purpose of this notice is, first, to update the list of such areas by adding to such previously published list areas of the United States which the Secretary has now determined meet the criteria for such designation. Further, this notice sets forth and clarifies the procedures utilized by the Secretary in making such a designation. In addition, notice is also given that the designation of certain areas (specified separately below) as shortage areas will be withdrawn effective May 27, 1975.

With respect to the designation of areas, § 23.5(b) of the regulations governing the National Health Service Corps program (42 CFR Part 23) provides that in determining whether an area has a critical health manpower shortage the Secretary shall take into account, where applicable, the following factors:

(1) health resource statistics; (2) health status indicators; (3) accessibility of health care services in the community and the ability of the community to obtain those services on a timely basis; and (4) other socioeconomic, demographic, and environmental factors of community life affecting the ability to procure such services.

In applying the first and third of the above referred to factors, the Secretary adopted the specific measures listed below and requested the appropriate areawide comprehensive health planning agencies or State comprehensive health planning agencies to identify those areas within their respective jurisdictions which met or exceeded those measures:

(a) *For critical medical shortage areas* (physician and physician extenders): (1) If the area in question consists of a group of census tracts within a city it must have (i) a primary care physician-to-population ratio of less than 1 to 4,000, (ii) no neighborhood health center, (iii) no organized hospital outpatient department within 10 miles of the center of the area, and (iv) a primary care physician-to-population ratio of less than 1 to 3,000 within the entire county in which the shortage area is located; (2) If the area in question is a group of census tracts within a county (not located in a tracted city) it must have (i) a primary care physician-to-population ratio of less than 1 to 4,000, (ii) no neighborhood health center, (iii) no organized hospital outpatient department within 20 miles of the center of the area, and (iv) a primary care physician-to-population ratio of less than 1 to 3,000 within the entire county in which the shortage area is located; (3) If the area in question is made up of one or more minor civil divisions or census county divisions within an untracted county (or counties), it must have (i) a primary care physician-to-population ratio of less than 1 to 4,000 within the boundaries of the shortage area itself and (ii) a primary care physician-to-population ratio of less than 1 to 3,000 within the entire county in which the shortage area is located; (4) If the area in question is an entire county, it must have a primary care physician-to-population ratio of less than 1 to 4,000.

In making the above determinations, primary care physicians are defined to include: (1) in metropolitan areas, physicians in general or family practice, internal medicine and pediatrics; and (2) in non-metropolitan areas, physicians in general or family practice, internal medicine, pediatrics, obstetrics and gynecology, and general surgery; *provided, however*, that those physicians spend 50 percent or more of their time in the practice of primary care. Further, interns, residents, and physicians employed by the Federal Government are not included in making such determinations.

(b) *For critical dental shortage areas:* (A) If the area in question consists of an entire county, a minor civil division or a census county division or a group of census tracts within a county, the overall dentist-to-population ratio (including general and specialty practice dentists) in the county within which the area is located must be less than 1 to 5,000. (B) If the area in question consists of a group of census tracts within a city, the overall dentist-to-population ratio within that city must be less than 1 to 5,000.

In making the above determinations, only dentists spending 50 percent or more of their time giving direct patient care are counted and dentists employed by the Federal Government are not included.

After reviewing the areas identified by the health planning agencies, and also taking into account health status indicators as well as socioeconomic, demographic, and environmental factors affecting the community's ability to procure health services, the Secretary has designated the following areas (counties, or specified parts of counties) as having critical medical and/or dental shortages:

ALABAMA

Critical Medical Shortage Areas

Bibb
Blount
Bullock
Calhoun—the Piedmont medical service area
Chambers—the Lafayette medical service area

With respect to the withdrawal of designation of an area as a critical health manpower shortage area, § 23.5 (d) of the regulations governing the National Health Service Corps program (42 CFR Part 23) provides that the Secretary may withdraw such designation upon his determination that there has been a substantial change in the circumstances within the area upon which the previous designation was made. The determination having been made in each case either that there has been such a substantial change or that the previous designation was the result of the use of incorrect data concerning the circumstances in the area, 90 days after this publication the designation of the following areas (counties, or specified parts of counties) will be withdrawn:

ARKANSAS

federal register

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

CONTENTS

list of cfr parts affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, follows beginning with the second issue of the month.
A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1974, and specifies how they are affected.

Title 3—The President

PROCLAMATION 4352

Red Cross Month, 1975

By the President of the United States of America

A Proclamation

Since the first settlement on these shores, we Americans have worked together voluntarily to conquer problems and to care for one another in time of adversity. This neighbor-helping-neighbor approach is still with us today and is exemplified by an organization that has become known as the Good Neighbor—the American National Red Cross.

We can all be grateful that the Red Cross is here in time of need. When disasters occur, this Good Neighbor responds with quick and openhanded assistance to help the injured and homeless. When the need is blood, the Red Cross provides this precious fluid from volunteer donors to more than half of this nation's medical facilities. This Good Neighbor, through its first aid and water safety training programs, arms us with the knowledge and skill to save our own and the lives of others. Veterans and members of the military services, often separated far from their loved ones, also turn to the Red Cross for help in time of personal crisis.

The American Red Cross, governed both nationally and in our communities by boards made up of volunteers, is dependent upon each one of us for its existence. It is financed primarily by voluntary contributions and its services are made available largely through the work of volunteers.

Traditionally, March is Red Cross Month. During that month, more than half of the 3,100 Red Cross chapters will be asking Americans to be Good Neighbors by making contributions. In communities where the Red Cross is in partnership with United Way, these chapters will be asking us to lend our time and skills as volunteers in one of their many service programs.

NOW, THEREFORE, I, GERALD R. FORD, President of the United States of America, and Honorary Chairman of the American National Red Cross, do hereby designate March, 1975, as Red Cross Month.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-fourth day of February, in the year of our Lord nineteen hundred seventy-five, and of the Independence of the United States of America the one hundred ninety-ninth.

Gerald R. Ford

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 5—Administrative Personnel

CHAPTER XIV—FEDERAL LABOR RELATIONS COUNCIL AND FEDERAL SERVICE IMPASSES PANEL

PART 2401—AVAILABILITY OF OFFICIAL INFORMATION

Freedom of Information

Pursuant to the Freedom of Information Act, 5 U.S.C. 552, as amended November 21, 1974 (Pub. L. 93–502), which requires each agency to establish procedures applicable to disclosure of public information, the Federal Labor Relations Council and Federal Service Impasses Panel have amended Chapter XIV of Title 5 of the Code of Federal Regulations by amending Part 2401 to read as set forth below.

This amended Part 2401 contains the Council's and Panel's rules concerning the availability of information relating to the Council or the Panel or within their custody, and establishes the procedures and costs for obtaining information.

In accordance with the November 21, 1974, Freedom of Information Act Amendments, a proposed revision of § 2401.7 of Part 2401 specifying a uniform schedule of fees to be effective February 19, 1975, was published in the FEDERAL REGISTER on January 10, 1975 (40 FR 2214), for comment. In the amended rules set forth below, the proposed § 2401.7 has been revised and redesignated as § 2401.10.

By the Federal Labor Relations Council.

ROBERT E. HAMPTON,
Chairman.

By the Federal Service Impasses Panel.

JACOB SEIDENBERG,
Chairman.

The amended Part 2401 reads as follows:

Sec.
2401.1 Purpose and scope.
2401.2 Delegation of authority.
2401.3 Information policy.
2401.4 Procedure for obtaining information.
2401.5 Identification of information requested.
2401.6 Time limits for processing requests.
2401.7 Appeal from denial of request.
2401.8 Extension of time limits.
2401.9 Effect of failure to meet time limits.
2401.10 Fees.
2401.11 Compliance with subpoenas.
2401.12 Annual report.

AUTHORITY: The provisions of this Part 2401 issued under 5 U.S.C. 552, as amended; E.O. 11491, as amended, 3 CFR 264 (1974).

§ 2401.1 Purpose and scope.

This part contains the regulations of the Federal Labor Relations Council and the Federal Service Impasses Panel providing for public access to information from the Council or the Panel. These regulations implement the Freedom of Information Act, 5 U.S.C. 552, as amended by Pub. L. 93–502, November 21, 1974, and the policy of the Council and the Panel to disseminate information on matters of interest to the public and to disclose to members of the public on request such information contained in records insofar as is compatible with the discharge of their responsibilities, consistent with applicable law.

§ 2401.2 Delegation of authority.

(a) *Federal Labor Relations Council.* The General Council of the Federal Labor Relations Council (or person acting in his stead) is delegated the exclusive authority to act upon all requests for information, documents and records which are received from any person or organization.

(b) *Federal Service Impasses Panel.* The Executive Secretary of the Federal Service Impasses Panel (or person acting in his stead) is delegated the exclusive authority to act upon all requests for information, documents and records which are received from any person or organization.

§ 2401.3 Information policy.

(a) *Federal Labor Relations Council.*—(1) It is the policy of the Federal Labor Relations Council to make available for public inspection and copying final decisions and orders of the Federal Labor Relations Council, statements of policy and interpretations which have been adopted by the Council and are not published in the FEDERAL REGISTER, and administrative staff manuals and instructions to staff that affect a member of the public. To the extent required to prevent a clearly unwarranted invasion of personal privacy, identifying details may be deleted and, in each case, the justification for the deletion shall be fully explained in writing.

(2) It is the policy of the Federal Labor Relations Council to make promptly available for public inspection and copying, upon request by any person, other records where the request reasonably describes such records and otherwise conforms with the rules provided herein.

(b) *Federal Service Impasses Panel.*—(1) It is the policy of the Federal Service Impasses Panel to make available for public inspection and copying authorizations and directions by the Federal Service Impasses Panel of third-party factfinding and arbitration, final decisions and orders of the Panel, statements of policy and interpretations which have been adopted by the Panel and are not published in the FEDERAL REGISTER, and administrative staff manuals and instructions to staff that affect a member of the public. To the extent required to prevent a clearly unwarranted invasion of personal privacy, identifying details may be deleted and, in each case, the justification for the deletion shall be fully explained in writing.

(2) It is the policy of the Federal Service Impasses Panel to make promptly available for public inspection and copying, upon request by any person, other records where the request reasonably describes such records and otherwise conforms with the rules provided herein.

(c) The Council or the Panel may decline to disclose any matters exempted from the disclosure requirements in 5 U.S.C. 552(b), particularly those that are: (1) (i) Specifically authorized under criteria established by an Executive Order to be kept secret in the interest of national defense or foreign policy and (ii) are in fact properly classified pursuant to such Executive Order; (2) related solely to internal personnel rules and practices of the Council or the Panel; (3) specifically exempted from disclosure by statute; (4) trade secrets and commercial or financial information obtained from a person and privileged or confidential; (5) interagency and intra-agency memoranda or letters; (6) personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy; or (7) investigatory records compiled for law enforcement purposes, but only to the extent that the production of such records would (i) interfere with enforcement proceedings, (ii) deprive a person of a right to a fair trial or an impartial adjudication, (iii) constitute an unwarranted invasion of personal privacy, (iv) disclose the identity of a confidential source and, in the case of a record compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation, confidential information furnished only by the confidential source, (v) disclose investigative techniques and procedures, or (vi) endanger the life or physical safety of law enforcement personnel.

(d) Any person may examine and copy such document of record of the Council

XUM
V 40 39 FEB 26 75 XUM

or Panel under conditions prescribed by the General Counsel of the Council or the Executive Secretary of the Panel, as the case may be, at reasonable times during normal working hours so long as it does not interfere with the efficient operations of either the Council or the Panel.

(e) The Council and the Panel shall maintain and make available for public inspection and copying the current indexes and supplements thereto which are required by 5 U.S.C. 552(a)(2).

§ 2401.4 Procedure for obtaining information.

(a) *Federal Labor Relations Council.* Any person who desires to inspect or copy any records, documents or other information of the Council covered by this part shall submit a written request to that effect to the General Counsel, Federal Labor Relations Council, 1900 E Street NW., Washington, D.C. 20415.

(b) *Federal Service Impasses Panel.* Any person who desires to inspect or copy any records, documents or other information of the Panel covered by this part shall submit a written request to that effect to the Executive Secretary, Federal Service Impasses Panel, 1900 E Street NW., Washington, D.C. 20415.

(c) All requests under this part should be clearly and prominently identified as a request for information under the Freedom of Information Act and, if submitted by mail or otherwise submitted in an envelope or other cover, should be clearly identified as such on the envelope or other cover. If a request does not comply with the provisions of this paragraph, it shall not be deemed received by the Federal Labor Relations Council or the Federal Service Impasses Panel until the time it is actually received by the General Counsel or the Executive Secretary, as the case may be.

§ 2401.5 Identification of information requested.

(a) Each request under this part should reasonably describe the records being sought, in a way that they can be identified and located. A request should include all pertinent details that will help identify the records sought.

(b) If the description is insufficient, the officer processing the request will so notify the person making the request and indicate the additional information needed. Every reasonable effort shall be made to assist in the identification and location of the record sought.

(c) Upon receipt of a request for records, the General Counsel of the Council or the Executive Secretary of the Panel, as the case may be, shall enter it in a public log. The log shall state the date and time received, the name and address of the person making the request, the nature of the records requested, the action taken on the request, the date of the determination letter sent pursuant to paragraphs (b) and (c) of § 2401.6, the date(s) any records are subsequently furnished, the number of staff-hours and grade levels of persons who spent time responding to the request, and the payment requested and received.

§ 2401.6 Time limits for processing requests.

(a) All time limits established pursuant to this section shall begin as of the time at which a request for records is logged in by the officer processing the request pursuant to paragraph (c) of § 2401.5. An oral request for records shall not begin any time requirement. A written request for records sent to an office of the Council or the Panel other than the one having authority to grant or deny access to the records shall be redirected immediately to the appropriate officer for processing, and the time shall begin upon its being logged in as required by paragraph (c) of § 2401.5.

(b) Except as provided in § 2401.8, the General Counsel of the Council or the Executive Secretary of the Panel, as the case may be, shall, within ten (10) working days following receipt of the request, respond in writing to the requester, determining whether, or the extent to which, the request shall be complied with.

(1) If all the records requested have been located and a final determination has been made with respect to disclosure of all of the records requested, the response shall so state.

(2) If all of the records have not been located or a final determination has not been made with respect to disclosure of all the records requested, the response shall state the extent to which the records involved shall be disclosed pursuant to the rules established in this part.

(3) If the request is expected to involve an assessed fee in excess of $25.00, the response shall specify or estimate the fee involved and shall require prepayment before the records are made available.

(4) Whenever possible, the response relating to a request for records that involves a fee of less than $25.00, shall be accompanied by the requested records. Where this is not possible, the records shall be forwarded as soon as possible thereafter, consistent with other obligations of the Council or the Panel.

(c) If any request for records is denied in whole or in part, the response required by paragraph (b) of this section shall notify the requester of the denial. Such denial shall specify the reason therefor and also advise that, in case of denial by the General Counsel of the Council, the denial may be appealed to the Executive Director of the Council (or person acting in his stead) as specified in paragraph (a)(1) of § 2401.7, or, in case of denial by the Executive Secretary of the Panel, the denial may be appealed to the Chairman of the Federal Service Impasses Panel (or person acting in his stead) as specified in paragraph (b)(1) of § 2401.7.

§ 2401.7 Appeal from denial of request.

(a) *Federal Labor Relations Council.*—(1) Whenever any request for records is denied by the General Counsel, a written appeal may be filed with the Executive Director, Federal Labor Relations Council, 1900 E Street NW., Washington, D.C. 20415, within 30 days after the requester receives notification that the request has been denied or after the requester receives any records being made available, in the event of partial denial.

(2) A determination on the appeal shall be made within 20 working days from the time of receipt of the appeal, except as provided in § 2401.8. If on appeal the denial of the request for records is upheld in whole or in part, the Executive Director shall notify the requester of the reasons therefor, and shall advise the requester of the provisions for judicial review under 5 U.S.C. 552(a)(4).

(b) *Federal Service Impasses Panel.*—(1) Whenever any request for records is denied by the Executive Secretary, a written appeal may be filed with the Chairman, Federal Service Impasses Panel, 1900 E Street NW., Washington, D.C. 20415, within 30 days after the requester receives notification that the request has been denied or after the requester receives any records being made available, in the event of partial denial.

(2) A determination on the appeal shall be made within 20 working days from the time of receipt of the appeal, except as provided in § 2401.8. If on appeal the denial of the request for records is upheld in whole or in part, the Chairman shall notify the requester of the reasons therefor, and shall advise the requester of the provisions for judicial review under 5 U.S.C. 552(a)(4).

§ 2401.8 Extension of time limits.

In unusual circumstances as specified in this section, the time limits prescribed with respect to initial determinations or determinations on appeal may be extended by written notice from the officer handling the request (either initial or on appeal) to the person making such request setting forth the reasons for such extension and the date on which a determination is expected to be dispatched. No such notice shall specify a date that would result in a total extension of more than ten (10) working days. As used in this section, "unusual circumstances" means, but only to the extent reasonably necessary to the proper processing of the particular request—

(a) The need to search for and collect the requested records from field facilities or other establishments that are separate from the office processing the request;

(b) The need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are demanded in a single request; or

(c) The need for consultation, which shall be conducted with all practicable speed, with another agency having a substantial interest in the determination of the request or among two or more components of the agency having substantial subject matter interest therein.

§ 2401.9 Effect of failure to meet time limits.

Failure by the Council or the Panel to either deny or grant any request under this part within the time limits prescribed by the Freedom of Information Act (5 U.S.C. 552, as amended) and these regulations shall be deemed to be an exhaustion of the administrative remedies available to the person making this request.

§ 2401.10 Fees.

(a) The following fees shall be charged for disclosure of any record pursuant to this part.

(1) *Copying of records.* Ten cents per copy of each page.

(2) *Clerical searches.* $1.25 for each one-quarter hour spent by clerical personnel searching for and producing a requested record, including time spent copying any record.

(3) *Nonclerical searches.* $2.50 for each one-quarter hour spent by professional or managerial personnel searching for and producing a requested record, including time spent copying any record.

(4) *Forwarding material to destination.* Postage, insurance, and special fees will be charged on an actual cost basis.

(b) Requests by parties for copies of transcripts of hearings shall be made to the official hearing reporter.

(c) No charge shall be made for the time spent in resolving legal or policy issues or in examining records for the purpose of deleting nondisclosable portions thereof.

(d) All charges may be waved or reduced whenever it is in the public interest to do so.

(e) Payment of fees shall be made by check or money order payable to the U.S. Treasury.

§ 2401.11 Compliance with subpoenas.

No member of the Council or the Panel, or other officer or employee of the Council or the Panel, shall produce or present any files, documents, reports, memoranda, or records of the Council or the Panel or testify in behalf of any party to any cause pending in any arbitration or in any court or before the Council or the Panel, or any other board, commission, or administrative agency of the United States, territory, or the District of Columbia with respect to any information, facts, or other matter to his knowledge in his official capacity or with respect to the contents of any files, documents, reports, memoranda, or records of the Council or the Panel, whether in answer to a subpoena, subpoena duces tecum, or otherwise, without the written consent of the Council or the Panel, as the case may be. Whenever any subpoena, the purpose for which is to adduce testimony or require the production of records as described above, shall have been served on any member or other officer or employee of the Council or the Panel, he will, unless otherwise expressly directed by the Council or the Panel, as the case may be, move pursuant to the applicable procedure to have such subpoena invalidated on the ground that the evidence sought is privileged against disclosure by this rule.

§ 2401.12 Annual report.

On or before March 1 of each calendar year, the Executive Director of the Council shall submit a report of the activities of the Council and the Panel with regard to public information requests during the preceding calendar year to the Speaker of the House of Representatives and President of the Senate for referral to the appropriate committees of the Congress. The report shall include for such calendar year all information required by 5 U.S.C. 552(d) and such other information as indicates the efforts of the Council and Panel to administer fully the provisions of the Freedom of Information Act, as amended.

[FR Doc.75-5156 Filed 2-25-75;8:45 am]

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

PART 982—HANDLING OF FILBERTS GROWN IN OREGON AND WASHINGTON

Revised Free and Restricted Percentages for the 1974–75 Fiscal Year

Notice of a proposal to revise the free and restricted percentages applicable to filberts grown in Oregon and Washington was published in the FEDERAL REGISTER on January 28, 1975 (40 FR 4151). The free and restricted percentages of 61 percent and 39 percent, respectively, established November 29, 1974 (39 FR 41510), would be revised to 65 percent and 35 percent, respectively. These revised percentages would apply to filberts grown in the 1974–75 fiscal year, beginning August 1, 1974.

The free percentage prescribes that portion of the total merchantable supply which may be handled as inshell filberts. The restricted percentage prescribes that portion of the total merchantable supply which must be withheld from such handling. Restricted filberts may be shelled (for domestic or foreign consumption), exported, or disposed of in outlets determined by the Filbert Control Board to be noncompetitive with normal market outlets for inshell filberts.

The revised percentages would be established under § 982.41 of the marketing agreement, as amended, and Order No. 982, as amended (7 CFR Part 982), hereinafter referred to collectively as the "order". The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), hereinafter referred to as the "act".

Interested persons were afforded an opportunity to submit written data, views, or arguments on the proposal. None were received.

The Filbert Control Board, at a November 12, 1974, meeting estimated the total production of filberts for 1974 at 7,000 tons, of which 6,164 tons would be merchantable and the free and restricted percentages currently effective were established on the basis of those estimates. The Board, at a January 16, 1975, meeting revised its estimate of total production downward to 6,500 tons, of which an estimated 5,720 tons would be merchantable. The Board also increased its previous estimate of carryover not subject to regulation on August 1, 1974, from 1,629 tons to 1,695 tons. The downward revision in the production estimate makes necessary an increase in the free percentage in order to make available the same quantity of inshell filberts as were made available by the percentages established on November 29, 1974.

The revised percentages are based upon the following estimates for the 1974–75 fiscal year:

Inshell supply:

		Tons
(1)	Total production	6,500
(2)	Less substandard, etc	780
(3)	Total merchantable production	5,720
(4)	Carryover Aug. 1, 1974, subject to regulation	306
(5)	Total merchantable supply (item 3 plus item 4)	6,026

Inshell requirements:

		Tons
(6)	Trade demand	5,200
(7)	Carryover July 31, 1975	400
(8)	Total	5,600
(9)	Less carryover Aug. 1, 1974, not subject to regulation	1,695
(10)	Inshell requirements	3,905

Percentages:

(11)	Free percentage (item 10 divided by item 5)	65
(12)	Restricted percentage (100 percent minus 65 percent)	35

After consideration of all relevant matter presented, including that in the notice, the information and recommendation submitted by the Filbert Control Board, and other available information, it is found that to revise the free and restricted percentages for the 1974–75 fiscal year applicable to filberts grown in Oregon and Washington, to 65 percent and 35 percent, respectively, will tend to effectuate the declared policy of the act.

It is further found that good cause exists for not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that: (1) The relevant provisions of the amended marketing agreement and this part require that free and restricted percentages designated for a particular fiscal year shall be applicable to all inshell filberts handled during that fiscal year; (2) the current fiscal year began on August 1, 1974, and the percentages established by this action will automatically apply to all such filberts beginning with that date; and (3) no useful purpose would be served by delaying this action.

Therefore, the free and restricted percentages established for merchantable filberts during the 1974–75 fiscal year and set forth in § 982.224 of Subpart—Free and Restricted Percentages are revised to read as follows:

§ 982.224 Free and restricted percentages for merchantable filberts during the 1974–75 fiscal year.

The following percentages are established for merchantable filberts for the fiscal year beginning August 1, 1974:

Free percentage	65
Restricted percentage	35

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 75–NW–2–AD; Amendment 39–2105]

PART 39—AIRWORTHINESS DIRECTIVES

Boeing Model 737 Series Airplanes

There has been a failure of the wiring to the No. 2 engine fuel shutoff valve on a Boeing model 737 airplane which caused an unwanted fuel valve closure and engine shutdown due to fuel starvation during the takeoff roll. The takeoff was aborted. The wires adjacent to the fuel valve had chafed against each other wearing the insulation sufficiently to bare the metal conductors and shorting to each other, causing power to be shunted to the closing coil of the fuel shutoff valve actuator motor. A survey made of several other 737 operators revealed a significant number of cases of wire insulation in a chafed condition along with some worn clamps holding the wire bundles. Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive is being issued to provide the necessary inspections and modifications to ensure normal operation of the engine fuel shutoff valves and the fuel manifold crossfeed valve.

A situation exists that requires immediate adoption of this regulation and, therefore, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13687), § 39.13 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

BOEING: Applies to all model 737 series airplanes, certificated in all categories. Compliance required as indicated.

(1) Within the next 100 hours' time in service after the effective date of this AD, unless already accomplished, inspect the engine fuel shutoff and crossfeed valve wire bundles for chafing in accordance with Boeing Service Bulletin No. 737–28–1022, dated December 20, 1974, or later FAA approved revisions, or in a manner approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region.

(2) If wire or wire insulation chafing or clamp damage is found, replace and modify the wiring and replace the wiring harness clamps in accordance with Boeing Service Bulletin No. 737–28–1022, dated December 20, 1974, or later FAA approved revisions, or in a manner approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region.

(3) Within the next 1000 hours' time in service after the effective date of this AD, for airplanes with no wire or wire insulation chafing or clamp damage, replace and modify the wiring and replace the wiring harness clamps in accordance with Boeing Service Bulletin No. 737–28–1022, dated December 20, 1974, or later FAA approved revisions, or in a manner approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region.

The manufacture's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1).

All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Boeing Commercial Airplane Company, P.O. Box 3707, Seattle, Washington 98124. The documents may be examined at FAA Northwest Region, 9010 East Marginal Way South, Seattle, Washington.

This amendment becomes effective March 24, 1975.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Seattle, Washington on February 18, 1975.

C. B. WALK, JR.,
Director, Northwest Region.

NOTE.—The incorporation by reference provisions in the document were approved by the Director of the Federal Register on June 19, 1967.

[Docket No. 75–EA–2; Amdt. 39–2102]

PART 39—AIRWORTHINESS DIRECTIVE

Fairchild Hiller Aircraft

The Federal Aviation Administration is amending § 39.13 of Part 39 of the Federal Aviation Regulations so as to amend AD 62–1–1, applicable to Fairchild Hiller F–27 and FH–227 type airplanes.

The purpose of this amendment is to insert in the AD an alternative method of computing the life limit on the subject part in terms of cycles. Presently the computation is premised on hours in service.

Since this amendment is an alternative method of compliance, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 [31 FR 13697], § 39.13 of Part 39 of the Federal Aviation Regulations is amended by amending AD 62–1–1 by adding, "or 20,000 cycles of operation of the chemical drier (two cycles for each takeoff and landing sequence of the aircraft)." after the words and figures, "4300 hours' time in service."

This amendment is effective February 26, 1975.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Jamaica, N.Y., on February 14, 1975.

JAMES BISPO,
Acting Director, Eastern Region.

[FR Doc.75–5051 Filed 2–25–75;8:45 am]

[Airworthiness Docket No. 74–WE–49–AD; Amdt. 39–2104]

PART 39—AIRWORTHINESS DIRECTIVES

Lockheed L–1011–385–1 Series Airplanes

Amendment 39–2049 (39 FR 43621), AD 74–26–06, requires a functional check and modification of the Engine Shutoff Control Panel Assembly, P/N 1520324 or P/N 1580810, installed on Lockheed L–1011–385–1 series airplanes. After issuing Amendment 39–2049, due to later reported service experience, the agency determined that several Engine Shutoff Control Panel Assemblies, P/N 1520324 or P/N 1580810, of the later improved configuration, exempted from repair by AD 74–26–06, have failed in the same manner as those previously required to be modified. Therefore, the AD is being revised and rewritten in its entirety to require repair of those assembly configurations not previously covered by the AD, in accordance with the manufacturer's service document, Revision 1, to Lockheed Service Bulletin 093–26–010. Also, the functional test of paragraph (1) now required per the AD is being deleted.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure thereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39–2049 (39 FR 43621), AD 74–26–06, is amended as follows:

LOCKHEED-CALIFORNIA. Applies to all L–1011–385–1 Series Airplanes certificated in all categories, incorporating Engine Shutoff Control Panel Assemblies, P/N 1520324 or P/N 1580810, all configurations.

Compliance required as indicated, unless already accomplished.

To provide protection in the event of an unknown incipient failure condition in the housing of the fire pull handle assembly, P/N 1520324 or P/N 1580810, accomplish the following:

(1) Within 600 hours time in service after the effective date of this AD, as amended,

(a) Modify the Control Panel Assembly, 152034 or P/N 1580810, accomplish the P/N 152034 or P/N 1580810, in accordance 093–26–010, dated November 21, 1974, revised February 11, 1975 or later FAA-approved revisions.

(b) Re-identify all modified Control Panel Assemblies in accordance with Part 3B of Lockheed Service Bulletin 093–26–010, dated November 21, 1974, revised February 11, 1975, or later FAA-approved revisions.

(2) Equivalent repairs or modifications may be approved by the Chief, Aircraft Engineering Division, FAA Western Region, upon submission of adequate substantiating data.

NOTE.—Those engine shutoff control panel assemblies marked as P/N 1604009 or P/N 1605009 are in compliance with this AD.

This amendment to AD 74–26–06 becomes effective March 4, 1975.

(Secs. 313(a), 601 and 603 of Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421 and 1423) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Los Angeles, California on February 18, 1975.

LYNN L. HINK,
Acting Director,
FAA Western Region.

Title 29—Labor

CHAPTER XII—FEDERAL MEDIATION AND CONCILIATION SERVICE

PART 1401—PUBLIC INFORMATION

Procedures and Cost for Obtaining Information

On January 28, 1975, there was published in the FEDERAL REGISTER (40 CFR 4155) a notice of proposed rule-making to amend Part 1401 with respect to the procedures and costs for obtaining information. The proposed amendment created Subpart A dealing with the policy and procedure to be followed when information is requested in response to subpoenas. Subpart B would establish the policy, procedures and costs for the disclosure of information. Interested persons were given until February 14, 1975 in which to submit comments, data or arguments regarding the proposed regulations.

No written objections have been received and the proposed regulations are hereby adopted without change and are set forth below.

Effective date. These FMCS regulations are effective February 19, 1975.

Approved: February 19, 1975.

W. J. USERY, JR.,
National Director.

Part 1401 is revised to read as follows:

Subpart A—Information or Testimony in Response to Subpoenas

Sec.
1401.1 Purpose and scope.
1401.2 Production of records or testimony by FMCS employees.
1401.3 Procedure in the event of a demand for production disclosure or testimony.

Subpart B—Production or Disclosure of Information

Sec.
1401.20 Purpose and scope.
1401.21 Information policy.
1401.22 Partial disclosure of records.
1401.23 Preparation of new records.
1401.24 Notices of dispute are disclosable.
1401.30 Applicability of procedures.
1401.31 Filing a request for records.
1401.32 Description of information requested.
1401.33 Logging of written requests.
1401.34 Time for processing requests.
1401.35 Appeals from denials of request.
1401.36 Fees—duplication cost and search.
1401.37 Annual report.

AUTHORITY: Sec. 202, 61 Stat. 153, as amended; 29 U.S.C. 172; Pub. L. 90–23, 81 Stat. 54–56 as amended by Pub. L. 93–502, 88 Stat. 1561–1565 (5 U.S.C. 552).

Subpart A—Information in Response to Subpoenas

§ 1401.1 Purpose and scope.

This subpart contains the regulations of the Service concerning procedures to be followed when a subpoena, order, or other demand of a court or other authority is issued for the production or disclosure of (a) any material contained in the files of the Service; (b) any information relating to material contained in the files of the Service; or (c) any information or material acquired by any person as a part of the performance of his official duties or because of his official status, while such person was an employee of the Service.

§ 1401.2 Production of records or testimony by FMCS employees.

(a) Public policy and the successful effectuation of the Federal Mediation and Conciliation Service's mission require that commissioners and employees maintain a reputation for impartiality and integrity. Labor and management or other interested parties participating in mediation efforts must have the assurance and confidence that information disclosed to commissioners and other employees of the Service will not subsequently be divulged, voluntarily or because of compulsion, unless authorized by the Director of the Service.

(b) No officer, employee, or other person officially connected in any capacity with the Service, currently or formerly, shall, in response to a subpoena, subpoena duces tecum, or other judicial or administrative order, produce any material contained in the files of the Service, disclose any information acquired as part of the performance of his official duties or because of his official status, or testify on behalf of any party to any matter pending in any judicial, arbitral or administrative proceeding, without the prior approval of the Director.

§ 1401.3 Procedure in the event of a demand for production, disclosure or testimony.

(a) Any request for records of the Service, whether it be by letter, by subpoena duces tecum or by any other written demand, shall be handled pursuant to the procedures established in Subpart B. of this part, and shall comply with the rules governing public disclosure.

(b) Whenever any subpoena or subpoena duces tecum calling for production of records or testimony as described above shall have been served upon any officer, employee or other person as noted in § 1401.2(b), he will, unless notified otherwise appear in answer thereto, and unless otherwise expressly directed by the Director, respectfully decline to produce or present such records or to give such testimony, by reason of the prohibitions of this section, and shall state that the production of the record(s) involved will be handled by the procedures established in this part.

Subpart B—Production or Disclosure of Information

§ 1401.20 Purpose and scope.

This subpart contains the regulations of the Federal Mediation and Conciliation Service providing for public access to information from records of the Service. These regulations implement the Freedom of Information Act, 5 U.S.C. 552, as amended by Pub. L. 93–502, and the policy of the FMCS to disseminate information on matters of interest to the public and to disclose to members of the public on request such information contained in records in its custody insofar as is compatible with the discharge of its responsibilities and the principle of confidentiality of dispute resolution by third party neutrals, consistent with applicable law.

§ 1401.21 Information policy.

(a) Except for matters specifically excluded by subsection 552(b) of Title 5, United States Code, or other applicable statute, all documents and records maintained by this agency or within the custody thereof shall be available to the public upon request filed in accordance with these regulations. To the extent permitted by other laws, the Service also will make available records which it is authorized to withhold under 5 U.S.C. 552(b) whenever it determines that such disclosure is in the public interest.

(b) Any document released for inspection under the provisions of this part may be manually copied by the requesting party. The Service shall provide facilities for copying such documents at reasonable times during normal working hours so long as it does not interfere with the efficient operation of the agency.

(c) The Service will also publish and maintain a current index, revised quarterly, providing identifying information for the public as to statements of policy and interpretation adopted by the agency and still in force but not published in the FEDERAL REGISTER, and administrative staff manuals and instructions to staff that affect a member of the public. The Service will also maintain on file all material published by the Service in the FEDERAL REGISTER and currently in effect.

(d) Records or documents prepared by the Service for routine public distribution, e.g., pamphlets, speeches, and educational or training materials, shall be furnished free of charge upon request to the Office of Information, Federal Mediation and Conciliation Service, 14th Street and Constitution Avenue, NW., Washington, D.C. 20427, as long as the supply lasts. The provisions of § 1401.36 shall not be applicable to such requests except when the supply of such material is exhausted and it is necessary to reproduce individual copies upon specific request.

(e) All existing FMCS records are subject to routine destruction according to standard record retention schedules.

XUM V 40 139 FEB 26 75 XUM

§ 1401.22 Partial disclosure of records.

If a record contains both disclosable and nondisclosable information, the nondisclosable information will be deleted and the remaining record will be disclosed unless the two are so inextricably intertwined that it is not feasible to separate them or release of the disclosable information would compromise or impinge upon the nondisclosable portion of the record.

§ 1401.23 Preparation of new records.

(a) The Freedom of Information Act and the provisions of this part apply only to existing records that are reasonably described in a request filed with the Federal Mediation and Conciliation Service pursuant to the procedures established in §§ 1401.31–1401.34.

(b) The Director may, in his discretion, prepare new records in order to respond to a request for information when he concludes that it is in the public interest and promotes the objectives of the Labor-Management Relations Act, 1947, as amended.

§ 1401.24 Notices of dispute are disclosable.

Written notices of disputes received by the Service pursuant to sections 8(d)(3), 8(d)(A) and 8(d)(B) of the Labor-Management Relations Act, 1947, as amended, are not exempt from disclosure. Parties at interest have the right to receive certified copies of any such notice of dispute upon written request to the regional director of the region in which the notice is filed.

§ 1401.30 Applicability of procedures.

Requests for inspection or copying of information from records in the custody of the FMCS which are reasonably identifiable and available under the provisions of this part shall be made and acted upon as provided in the following sections of this subpart. The prescribed procedure shall be followed in all cases where access is sought to official records pursuant to the provisions of the Freedom of Information Act, except with respect to records for which a less formal disclosure procedure is provided specifically in this part.

§ 1401.31 Filing a request for records.

(a) Any person who desires to inspect or copy any record covered by this part shall submit a written request to that effect to the appropriate office of FMCS which has custody of the record. Standard forms for making a request are not required.

(1) If the records are kept in Washington, D.C., the request shall be directed to the Director of the office, as specified in paragraph (b).

(2) If the records are kept in a field office, the request shall be directed to the office of the regional Director of the region within which the field office maintains custody of such records, as specified in paragraph (c).

(3) If the person making the request does not know where the record is located, he may direct his request to the Director of Administration, FMCS, listed in paragraph (b), below.

(b) The Washington, D.C. offices of FMCS referred to in paragraph (a)(1) of this section, located at 14th Street and Constitution Avenue, NW., Washington, D.C., 20427, are as follows:

(1) Office of the National Director (202) 961–3501.
(2) Office of the General Counsel (202) 961–3714.
(3) Office of Mediation Services (202) 961–3505.
(4) Office of Arbitration Services (202) 961–3513.
(5) Office of Administration (202) 961–3566.
(6) Office of Technical Services (202) 961–3553.
(7) Office of Information (202) 961–3518.

(c) The regional Directors' office referred to in paragraph (a)(2) of this section are:

Region 1—Room 2937, Federal Building, 26 Federal Plaza, New York, N.Y. 10007; (212) 264–1000.

Region 2—Room 401, Mall Building, Fourth and Chestnut Streets, Philadelphia, Pa. 19106; (215) 597–7680.

Region 3—Suite 400, 1422 West Peachtree Street, NW., Atlanta, Ga. 30309; (404) 526–2473.

Region 4—Room 1525, Superior Building, 815 Superior Avenue, NE., Cleveland, Ohio 44114; (216) 522–4800.

Region 5—Room 1402, Everett McKinley Dirksen Building, 219 S. Dearborn Street, Chicago, Ill. 60604; (312) 353–7350.

Region 6—Room 3266, Federal Building, 1520 Market Street, St. Louis, Mo. 63103; (314) 622–4591.

Region 7—Room 13471, New Federal Office Building, 450 Golden Gate Avenue, P.O. Box 36007, San Francisco, Calif. 94102; (415) 556–4670.

§ 1401.32 Description of information requested.

(a) Each request should reasonably describe the records being sought, in a way that they can be identified and located. A request should include all pertinent details that will help identify the records sought.

(b) If the description is insufficient, the officer processing the request will so notify the person making the request and indicate the additional information needed. Every reasonable effort shall be made to assist in the identification and location of the records sought.

§ 1401.33 Logging of written requests.

(a) All requests for records should be clearly and prominently identified as a request for information under the Freedom of Information Act, and if submitted by mail or otherwise submitted in an envelope or other cover, should be clearly and prominently identified as such on the envelope or other cover.

(b) Upon receipt of a request for records, the officer processing the request shall enter it in a public log. The log shall state the date and time received, the name and address of the person making the request, the nature of the records requested, the action taken on the request, the date of the determination letter sent pursuant to § 1401.34 (b) and (d), the date(s) any records are subsequently furnished, the number of staff hours and grade levels of persons who spent time responding to the request, and the payment requested and received.

§ 1401.34 Time for processing requests.

(a) All time limitations established pursuant to this section shall begin as of the time at which a request for records is logged in by the officer processing the request pursuant to § 1401.33(b). An oral request for records shall not begin any time requirement. A written request for records sent to an office of FMCS other than the one having authority to grant or deny access to the records shall be redirected immediately to the appropriate officer for processing, and the time shall begin upon its being logged in there in accordance with § 1401.33(b).

(b) The officer passing upon the request for records shall, within ten (10) working days following receipt of the request, respond in writing to the requester, determining whether, or the extent to which, the agency shall comply with the request.

(1) If all of the records requested have been located and a final determination has been made with respect to disclosure of all of the records requested, the response shall so state.

(2) If all of the records have not been located or a final determination has not been made with respect to disclosure of all the records requested, the response shall state the extent to which the records involved shall be disclosed pursuant to the rules established in this part.

(3) If the request is expected to involve an assessed fee in excess of $50.00, the response shall specify or estimate the fee involved and shall require prepayment before the records are made available.

(4) Whenever possible, the response relating to a request for records that involves a fee of less than $50.00, shall be accompanied by the requested records. Where this is not possible, the records shall be forwarded as soon as possible thereafter, consistent with other obligations of the agency.

(c) In the following circumstances, the time for passing upon the request may be extended for up to an additional 10 working days by written notice to the person making the request, setting forth the reasons for such extension and the time within which a determination is expected to be made:

(1) The need to search for and collect the requested records from field facilities or other establishments that are separate from the office processing the request;

(2) The need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are demanded in a single request; or

(3) The need for consultation, which shall be conducted with all practicable speed, with another agency having a substantial interest in the determination of the request or among two or more components of the agency having substantial subject matter interest therein.

(d) If any request for records is denied in whole or in part, the response required by paragraph (b) of this section shall notify the requester of the denial. Such denial shall specify the reason therefor and also advise that the denial may be appealed to the Office of Deputy National Director of the agency as specified in § 1401.35.

§ 1401.35 Appeals from denials of request.

(a) Whenever any request for records is denied, a written appeal may be filed with the Deputy National Director, FMCS, Washington, D.C. 20427, within 30 days after the requester receives notification that the request has been denied or after the requester receives any records being made available, in the event of partial denial. The appeal shall state the grounds for appeal, including any supporting statements or arguments.

(b) Final action on the appeal shall be taken within 20 working days from the time of receipt of the appeal. Where novel and complicated questions have been raised or unusual difficulties have been encountered, the Deputy National Director may extend the time for final action up to an additional 10 days, depending upon whether there had been an extension pursuant to subsection 1401.34(c) at the initial stage. In such cases, the applicant shall be notified in writing of the reasons for the extension of time and the approximate date on which a final response will be forthcoming.

(c) If on appeal the denial of the request for records is upheld in whole or in part, the Deputy National Director shall notify the applicant of the reasons therefor, and shall advise the requester of the provisions for judicial review under 5 U.S.C. 552(a)(4) and (6).

§ 1401.36 Fees—duplication cost and search.

(a) Unless waived in accordance with paragraph (d) of this section, the following schedule of fees shall be imposed for the production and copying of any record pursuant to this part.

(1) *Copy of records.* Twenty ($0.20) cents per copy per page.

(2) *Clerical searches.* $1.25 for each one-quarter hour or fraction thereof spent in excess of the first quarter-hour in searching for or producing a requested record, including time spent copying any record.

(3) *Nonclerical searches.* $3.50 for each one-quarter hour spent by professional or managerial personnel searching for or producing a requested record, including time spent copying any record.

(4) *Certification or authentication of records.* $2.00 per certification or authentication.

(5) *Forwarding material to destination.* Postage, insurance, and special fees will be charged on an actual cost basis.

(b) Rule of construction: In providing the foregoing fee schedule pursuant to the provisions of 5 U.S.C. 552(a)(3), it is the intent of this section to apply 29 U.S.C. 9(b) and the user charge statute (31 U.S.C. 483(a)) to cover those situations where the agency is performing for a requester services which are not required under the Freedom of Information Act.

(c) No fee shall be charged if a record requested is not found or for any record that is totally exempt from disclosure.

(d) The officer processing the request for records may, in his discretion, waive or reduce fees otherwise applicable under paragraph (a) of this section for services in producing and copying record information under the following circumstances:

(1) Where inability to pay is demonstrated and it is clear that a significant public interest would be served by providing the service free of charge.

(2) Where it is in the public interest because furnishing the information can be considered primarily as benefiting the general public.

(3) In making a determination of the broad public interest involved, the officer shall weigh the agency resources involved against the likely benefit to the public.

(e) Payment of fees: Payment shall be made by check or money order payable to "Federal Mediation and Conciliation Service," and shall be sent to the Director of the Office of Administration, FMCS, 14th and Constitution Avenue NW., Washington, D.C. 20427.

§ 1401.37 Annual report.

(a) The Office of the National Director shall annually, within 60 days following the close of each calendar year, prepare a report covering each of the categories of records to be maintained in accordance with 5 U.S.C. 552(d) for such calendar year and shall forthwith submit the same to the Speaker of the House of Representatives and the President of the Senate for referral to the appropriate committees of the Congress.

[FR Doc.75–5034 Filed 2–25–75;8:45 am]

CHAPTER XIV—EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

PART 1610—AVAILABILITY OF RECORDS

Subpart A—Production or Disclosure Under 5 U.S.C. 552

The Equal Employment Opportunity Commission, by vote taken at a duly constituted meeting, has amended its procedural regulations concerning disclosure of information under the Freedom of Information Act (5 U.S.C. section 552), Pub. L. 90–23, as amended by Pub. L. 93–502. The revised regulations provide that certain records will be made available at district offices, that certain types of records will be routinely released, that records which are requested must be "reasonably described," that the General Counsel will render a determination within 10 working days on all requests for records which are not available in the Commission reading areas or not published and made available for sale, unless conditions for an extension are present, and that determinations and appeals will be rendered by the Commission with 20 days of receipt by the Chairman. The revised regulations also require that the General Counsel keep a Freedom of Information file of requests and dispositions and that he make a report to the Congress on the Commission's Freedom of Information Act activities as required by 5 U.S.C. 552(d). Finally, the regulations were amended to reflect that all 32 district offices of the Commission shall have public reading areas, and to indicate the addresses of litigation centers and regional offices.

The fee schedule was published in proposed form in 40 FR 3011 on Friday, January 17, 1975, as § 1610.17(a). Although the Commission invited the public to make comment, it received none. Section 1610.17(a) is published herein in final form and without change as § 1610.15(a).

Accordingly, Subpart A of Part 1610 of Title 29 of the Code of Federal Regulations is hereby revised, effective February 19, 1975, to read as follows:

Subpart A—Production or Disclosure Under 5 U.S.C. 552

Sec.
1610.1 Definitions.
1610.2 Statutory requirements.
1610.3 Purpose and scope.
1610.4 Public reference facilities and current index.
1610.5 Request for records.
1610.6 Records of other agencies.
1610.7 Where to make request; form.
1610.8 Authority to determine.
1610.9 Prompt response.
1610.10 Responses: Form and content.
1610.11 Appeals to the Commission from initial denials.
1610.13 Maintenance of files.
1610.14 Waiver of user charges.
1610.15 Schedule of fees and method of payment for services rendered.
1610.16 Payment of fees.
1610.17 Exemptions.
1610.18 Information to be disclosed.
1610.19 Deletion of exempted matters.
1610.20 Annual report.
1610.21 Other Commission Offices.

AUTHORITY: Sec. 713(a), 78 Stat. 265, 42 U.S.C. 2000e–12(a), 5 U.S.C. § 552, as amended by Pub. L. 93–502; for § 1610.15, non search or copy portions are issued under 31 U.S.C. 483a.

Subpart A—Production or Disclosure Under 5 U.S.C. 552

§ 1610.1 Definitions.

(a) "Title VII" refers to Title VII of the Civil Rights Act of 1964, as amended by Pub. L. 92–261, 42 U.S.C. (Supp. II) 2000e et seq.

(b) "Commission" refers to the Equal Employment Opportunity Commission.

(c) "Freedom of Information Act" refers to 5 U.S.C. 552 (Pub. L. 90–23 as amended by Pub. L. 93–502).

§ 1610.2 Statutory requirements.

5 U.S.C. 552(a)(3) requires each Agency, upon request for reasonably described records made in accordance with published rules stating the time, place, fees, if any, and procedure to be followed, to make such records promptly available to any person. 5 U.S.C. 552(b) exempts specified classes of records from the public access requirements of 5 U.S.C. 552(a) and permits them to be withheld.

XUM V 40 39 FEB 26 75 XUM

§ 1610.3 Purpose and scope.

This subpart contains the regulations of the Equal Employment Opportunity Commission implementing 5 U.S.C. 552. The regulations of this subpart provide information concerning the procedures by which records may be obtained from all organizational units within the Commission. Official records of the Commission made available pursuant to the requirements of 5 U.S.C. 552 shall be furnished to members of the public only as prescribed by this subpart. Officers and employees of the Commmisdon may continue to furnish to the public, informally and without compliance with the procedures prescribed herein, information and records which prior to the enactment of 5 U.S.C. 552 were furnished customarily in the regular performance of their duties. To the extent that it is not prohibited by other laws, the Commission also will make available records which it is authorized to withhold under 5 U.S.C. 552 whenever it determines that such disclosure is in the public interest.

§ 1610.4 Public reference facilities and current index.

(a) The Commission will maintain in a public reading area located in the Commission's library at 2401 E Street NW., Washington, D.C. 20506, the materials which are required by 5 U.S.C. 552(a)(2) and 552(a)(5) to be made available for public inspection and copying. The Commission will maintain and make available for public inspection and copying in this public reading area a current index providing identifying information for the public as to any matter which is issued, adopted, or promulgated after July 4, 1967, and which is required to be indexed by 5 U.S.C. 552(a)(2). The Commission in its discretion may, however, include precedential materials issued, adopted, or promulgated prior to July 4, 1967. The Commission will also maintain on file in this public reading area all material published by the Commission in the FEDERAL REGISTER and currently in effect.

(b) Each district office listed in paragraph (c) shall maintain a public reading room or area which shall contain a copy of:

(1) The Commission's notices and regulatory amendments which are not yet or have never been published in the Code of Federal Regulations,

(2) The Commission's annual reports,

(3) The Commission's Compliance Manual,

(4) Blank forms relating to the Commission's procedures as they affect the public,

(5) The Commission's Orders (agency directives), and

(6) "CCH Equal Employment Opportunity Commission Decisions" (1973) and Employment Practices Guide (vol. 1), both published by Commerce Clearing House, Inc.

(c) The Commission's District Offices are:

1. Atlanta District Office, Citizens' Trust Building, 10th Floor, 75 Piedmont Avenue, NE., Atlanta, Georgia 30303.
2. Birmingham District Office, 2121—8th Avenue, North, Room 824, Birmingham, Alabama 35203.
3. Charlotte District Offices, 411 North Tryon Street, 2nd Floor, Charlotte, North Carolina 28202.
4. Jackson District Office, 208 West Capitol Street, 2nd Floor, Jackson, Mississippi 39201.
5. Memphis District Office, The Dermon Building, Suite 1004, 46 North Third Street, Memphis, Tennessee 38103.
6. Miami District Office, Biscayne Terrace Hotel, 10th Floor, 340 Biscayne Boulevard, Miami, Florida 33132.
7. Chicago District Office, Federal Building, Room 234, 536 South Clark Street, Chicago, Illinois 60605.
8. Cincinnati District Office, Federal Building, Room 8525, 550 Main Street, Cincinnati, Ohio 45202.
9. Cleveland District Office, Engineers' Building, Room 402, 1365 Ontario Street, Cleveland, Ohio 44114.
10. Detroit District Office, Michigan Building, Suite 600, 220 Bagley Avenue, Detroit, Michigan 48226.
11. Indianapolis District Office, Federal Building, U.S. Courthouse, 46 East Ohio Street, Room 456, Indianapolis, Indiana 46204.
12. Milwaukee District Office, Veterans Administration Building, 342 North Water Street, 6th Floor, Milwaukee, Wisconsin 53202.
13. Albuquerque District Office, National Building, Suite 1717, 505 Marquette Avenue, N.W., Albuquerque, New Mexico 87101.
14. Dallas District Office, 400-A Lancaster-Kelst Shopping Center, Suite 10, Dallas, Texas 75216.
15. Houston District Office, Federal Building, Room 1161, 2320 La Branch, Houston, Texas 77004.
16. New Orleans District Office, Masonic Temple Building, Room 1711, 333 St. Charles Avenue, New Orleans, Louisiana 70130.
17. San Antonio District Office, 301 Broadway, Suite 200, San Antonio, Texas 78205.
18. Kansas City District Office, 911 Walnut Street, Room 500, Kansas City, Missouri 64106.
19. St. Louis District Office, Locust Building, Room 917, 1015 Locust Street, St. Louis, Missouri 63101.
20. Boston District Office, 150 Causeway Street, Boston, Massachusetts 02114.
21. Buffalo District Office, One West Genesee Street, Room 1020, Buffalo, New York 14202.
22. New York District Office, 90 Church Street, 15th Floor, New York, New York 10007.
23. Newark District Office, 9 Clinton Street, 2nd Floor, Newark, New Jersey 07102.
24. Baltimore District Office, The Rotunda, Room 201, 711 West 40th Street, Baltimore, Maryland 21211.
25. Philadelphia District Office, 219 North Broad Street, 2nd Floor, Philadelphia, Pennsylvania 19107.
26. Pittsburgh District Office, Federal Building, Room 2038A, 1000 Liberty Avenue, Pittsburgh, Pennsylvania 15222.
27. Washington District Office, 1717 H Street, N.W., Suite 409, Washington, D.C. 20006.
28. Denver District Office, Ross Building, 6th Floor, 1726 Champa Street, Denver, Colorado 80202.
29. Los Angeles District Office, 1543 West Olympic Boulevard, Suite 240, Los Angeles, California 90015.
30. Phoenix District Office, Greater Arizona Savings Building, 112 North Central Avenue, Suite 601, Phoenix, Arizona 85004.
31. San Francisco District Office, 1095 Market Street, Room 701, San Francisco, California 94103.
32. Seattle District Office, Time Square Building, 4th Floor, 414 Olive Way, Seattle, Washington 98101.

§ 1610.5 Request for records.

(a) A written request for inspection or copying of a record of the Commission may be presented in person or by mail to the Commission employee designated in § 1610.7. Requests must be presented during business hours on any workday.

(b) Each request must contain information which reasonably describes the records sought and, when known, should contain a name, date, subject matter and location for the record requested in order to permit the record to be promptly located.

(c) Where a request is not considered reasonably descriptive or requires the production of voluminous records, or necessitates the utilization of a considerable number of work hours to the detriment of the business of the Commission, the Commission may require the person making the request or such person's agent to confer with a Commission representative in order to attempt to verify the scope of the request and; if possible, narrow such request.

(d) When a requested record has been identified and is available, the person who made the request will be notified (1) when and where the record will be made available and (2) the cost assessed for processing the request. Fees for the processing of requests will be made in accordance with the schedule set forth in § 1610.15. Checks shall be made payable to the Treasurer of the United States.

§ 1610.6 Records of other agencies.

Request for records that originated in another Agency and are in the custody of the Commission, will be referred to that Agency for processing, and the person submitting the request shall be so notified. The decision made by that Agency with respect to such records will be honored by the Commission.

§ 1610.7 Where to make request; form.

(a) A request for any material in a district reading room or area as set forth by § 1610.4(b) or a request for existing statistical data, which is not confidential, relating to the case processing of the district office shall be submitted to the district director in charge of such reading room or area at the appropriate address listed in § 1610.4(c).

(b) A district director is authorized to grant a request as to those matters described in paragraph (a). A district director, when granting a request, will do so within 10 working days of its receipt. A district director is not authorized to deny a request, but shall, if he or she believes that good reason exists for not disclosing the data requested, immediately refer the matter to the General Counsel.

(c) A request for any record which is not available under paragraph (a) shall be submitted in writing to the General Counsel, Equal Employment Opportunity Commission, 2401 E Street, NW., Washington, D.C. 20506.

(d) A request must be clearly and prominently identified as a request for information under the Freedom of Information Act. If submitted by mail or otherwise submitted under any cover, the envelope or other cover must be similarly identified.

(e) When a request is one which by nature should properly be directed to the General Counsel, such request shall not be deemed to have been received by the Commission until the time it is actually received by the General Counsel.

(f) Any Commission official who receives a written Freedom of Information request, unless it be a district director who fills the request, shall promptly forward it to the General Counsel. Any Commission official who receives an oral request under the Freedom of Information Act shall inform the person making the request that it must be in writing and also inform such person of the provisions of this subpart.

§ 1610.8 Authority to determine.

The General Counsel, when receiving a request pursuant to these regulations, shall grant or deny each such request. The decision of the General Counsel shall be final, subject only to administrative review as provided in § 1610.11 of this subpart.

§ 1610.9 Prompt response.

(a) The General Counsel shall either grant or deny a request for records within 10 working days after receipt of the request unless additional time is required for one of the following reasons:

(1) It is necessary to search for and collect the requested records from field facilities or other establishments that are separate from the office processing the request;

(2) It is necessary to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are demanded in a single request; or

(3) It is necessary to consult with another agency having a substantial interest in the determination of the request or among two or more components of the agency having substantial subject-matter interest therein.

(b) When additional time is required for one of the reasons stated in paragraph (a), the General Counsel or his designee shall acknowledge receipt of the request within the 10-day period and include a brief notation of the reason for the delay and an indication of the date on which it is expected that a determination as to disclosure will be forthcoming. An extended deadline adopted for one of the reasons set forth above may not exceed 10 additional working days.

§ 1610.10 Responses: form and content.

(a) When a requested record has been identified and is available, the General Counsel shall notify the person making the request as to where and when the record is available for inspection or that copies will be available. The notification shall also advise the person making the request of any assessed fees under § 1610.15 hereof.

(b) A reply denying a written request for a record shall be in writing signed by the General Counsel and shall include:

(1) His name and title;

(i) A reference to the specific exemption under the Freedom of Information Act authorizing the withholding of the record, to the extent consistent with the purpose of the exemption, and a brief explanation of how the exemption applies to the record withheld or (ii) a statement that, after diligent effort, existing requested records have not been found or have not been adequately examined during the time allowed under § 1610.9(a), and that the denial will be reconsidered as soon as the search or examination is complete; (iii) a statement that the denial may be appealed to the Commission within 30 days of receipt of the denial or partial denial.

(c) If a requested record cannot be located from the information supplied, or is known to have been destroyed or otherwise disposed of, the person making the request shall be so notified.

§ 1610.11 Appeals to the Commission from initial denials.

(a) When the General Counsel has denied a request for records in whole or in part, the person making the request may, within 30 days of its receipt, appeal the denial to the Commission. The appeal must be in writing addressed to the Chairman, 2401 E Street, NW., Washington, D.C. 20506 and clearly labeled as a Freedom of Information Act appeal.

(b) The Commission will act upon the appeal within 20 working days of its receipt, and more rapidly if practicable. If the decision is in favor of the person making the request, the decision shall order records promptly made available to the person making the request. The Commission may extend the 20 day period in which to render an appeal for that period of time which could have been claimed and consumed by the General Counsel under § 1610.9 but which was either not claimed or consumed in making the initial determination.

(c) The Commission's action on an appeal shall be in writing signed by the Chairman of the Commission. A denial in whole or in part of a request on appeal shall set forth the exemption relied on, a brief explanation of how the exemption applies to the records withheld and the reasons for asserting it, if different from that described by the General Counsel under § 1610.10, and that the person making the request may, if dissatisfied with the decision on appeal, file a civil action in the district in which the person resides or has his principal place of business, in the district where the records reside, or in the District of Columbia.

(d) No personal appearance, oral argument or hearing will ordinarily be permitted in connection with an appeal to the Commission.

(e) On appeal, the Commission may reduce any fees previously assessed.

§ 1610.13 Maintenance of files.

(a) The General Counsel shall maintain files containing all material required to be retained by or furnished to him under this subpart. The material shall be filed by individual request, indexed according to the exemptions asserted, and, to the extent feasible, indexed according to the type of records requested.

(b) The General Counsel shall also maintain a file open to the public, which shall contain copies of all grants or denials of appeals by the Commission. The material shall be indexed as stated in paragraph (a).

§ 1610.14 Waiver of user charges.

(a) Except as provided in paragraph (b) the General Counsel shall assess fees for the search and, if necessary, duplication of records requested. He shall also have authority to furnish documents without charge, or at a reduced charge, where he determines that waiver or reduction of the fee is in the public interest because furnishing the information can be considered as primarily benefiting the general public.

(b) District directors are hereby authorized to collect fees for duplication of records which are available in the district office reading rooms or otherwise made available at the district office. District directors are hereby authorized to duplicate such records without charge, or at a reduced charge in accordance with the criteria of paragraph (a).

§ 1610.15 Schedule of fees and method of payment for services rendered.

(a) Except as otherwise provided, the following specific fees shall be applicable with respect to services rendered to members of the public under this subpart:

(1) Searching for records, per hour or fraction thereof	$3.60
(2) Other facilitative services and index assistance minimum charge	3.60
(3) Copies made by Xerox or otherwise (per page) (maximum of 10 copies)	.05
(4) Attestation of each record as a true copy	.75
(5) Certification of each record as a true copy, under the seal of the agency	1.00
(6) For each signed statement of negative result of search for record	1.00

(b) While the fees charged for services and copying will in no event exceed those as specified in paragraph (a), the Commission reserves the right to limit the number of copies that will be provided of any document or to require that special arrangements for copying be made in the case of records or requests presenting unusual problems of reproduction or handling.

§ 1610.16 Payment of fees.

(a) Unless a person making a request under the Freedom of Information Act states that he or she will bear all assessed fees levied by the Commission in

XUM
V 40 39 FEB 26 75 XUM

searching for and, where applicable, reproducing requested data, said person will be held liable for assessed fees not to exceed $50.00. A request which the Commission expects to exceed $50.00 and which does not state acceptance of responsibility for all assessed fees will not be deemed to have been received until the person making the request is promptly advised of the anticipated fees and agrees to bear them.

(b) A search fee will be assessable notwithstanding that no records responsive to the request or that no records not exempt from disclosure are found.

(c) Fees must be paid in full prior to issuance of requested copies of records. The Commission will inform the person making the request of the exact amount of the assessed fees at the time of granting or denying the request.

§ 1610.17 Exemptions.

(a) 5 U.S.C. 552 exempts from all of its publication and disclosure requirements nine categories of records which are described in 552(b). These categories include such matters as national defense and foreign policy information, investigatory files, internal procedures and communications, materials exempted from disclosure by other statutes, information given in confidence, and matters involving personal privacy.

(b) Section 706(b) of Title VII provides that the Commission shall not make public charges which have been filed. It also provides that (subsequent to the filing of a charge, an investigation, and a finding that there is reasonable cause to believe that the charge is true) nothing said or done during and as a part of the Commission's endeavors to eliminate any alleged unlawful employment practice by informal methods of conference, conciliation, and persuasion may be made public by the Commission without the written consent of the parties concerned; nor may it be used as evidence in a subsequent proceeding. Any officer or employee of the Commission who shall make public in any manner whatever any information in violation of section 706(b) shall be deemed guilty of a misdemeanor and upon conviction thereof shall be fined not more than $1,000 or imprisoned not more than 1 year.

(c) Section 709 of Title VII authorizes the Commission to conduct investigations of charges filed under § 706, engage in cooperative efforts with State and local agencies charged with the administration of State or local fair employment practices laws, and issue regulations concerning reports and record-keeping. Section (e) of section 709 provides that it shall be unlawful for any officer or employee of the Commission to make public in any manner whatever any information obtained by the Commission pursuant to its authority under section 709 prior to the institution of any proceeding under the Act involving such information. Any officer or employee of the Commission who shall make public in any manner whatever any information in violation of section 709(e) shall be guilty of a misdemeanor and upon conviction thereof shall be fined not more than $1,000 or imprisoned not more than 1 year.

(d) Special disclosure rules apply to the case files for charging parties, aggrieved persons on whose behalf a charge has been filed, and entities against whom charges have been filed. The special disclosure rules are available in the public reading areas of the Commission. Under sections 706 and 709, case files involved in the administrative process of the Commission are not available to the public.

(e) Each executed statistical reporting form required under Part 1602 of this Chapter, such as Employer Information Report EEO–1, etc., relating to a particular employer is exempt from disclosure to the public prior to the institution of a proceeding under Title VII involving information from such form.

(f) The medical, financial, and personnel files of employees of the Commission are exempt from disclosure to the public.

§ 1610.18 Information to be disclosed.

The Commission will provide information to the public in the following matters:

(a) The Commission will make available for inspection and copying some tabulations of aggregate industry, area, and other statistics derived from the Commission's reporting programs authorized by section 709(c) of Title VII where such tabulations have been previously compiled by the Commission and are available in documentary form, to the extent that such tabulations do not consist of aggregate data from less than three responding entities, and do not reveal the identity of an individual or the dominant entity in a particular industry or area in any manner.

(b) All blank forms utilized by the Commission.

(c) All signed contracts, final bids on all signed contracts, and agreements between the Commission and State or local agencies charged with the administration of State or local fair employment practices laws.

(d) All final reports which do not utilize statutorily confidential material in discernible individual form.

(e) All agency correspondence to members of the public, Members of Congress, or other persons not government employees or special government employees, except for matters the making public of which would constitute an invasion of privacy.

(f) All administrative staff manuals and instructions to Staff that affect a member of the public unless the materials are promptly published and copies offered for sale.

(g) All final votes of each Commissioner for every Commission meeting, except for votes pertaining to the filing of suit against respondents until such time as litigation is actually commenced.

§ 1610.19 Deletion of exempted matters.

Where requested records contain matters which are exempted under 5 U.S.C. 552(b) but which matters are reasonably segregable from the remainder of the records, they shall be disclosed by the Commission with deletions. To each such record the Commission shall attach a written justification for making deletions. A single such justification shall suffice for deletions made in a group of similar or related records.

§ 1610.20 Annual report.

The General Counsel shall, on or before March 1, 1975, and annually thereafter, submit a Freedom of Information Act report covering the preceding calendar year to the Speaker of the House of Representatives and President of the Senate. The report shall include those matters required by 5 U.S.C. 552(d).

§ 1610.21 Other Commission Offices.

(a) The Commission's litigation centers (other than at headquarters) are:

1. Atlanta Regional Litigation Center, 1389 Peachtree Street, NE., Atlanta, Georgia 30309.
2. Chicago Regional Litigation Center, 536 South Clark Street, Room 1012, Chicago, Illinois 60605.
3. Denver Regional Litigation Center, Rio Grande Building, 6th Floor, 1531 Stout Street, Denver, Colorado 80202.
4. Philadelphia Regional Litigation Center, 127 North Fourth Street, 3rd Floor, Philadelphia, Pennsylvania 19106.
5. San Francisco Regional Litigation Center, Fox Plaza, Suite 1010, 1390 Market Street, San Francisco, California 94102.

(b) The Commission's regional offices are:

1. Atlanta Regional Office, Citizens' Trust Building, Suite 1150, 75 Piedmont Avenue, NE., Atlanta, Georgia 30303 (covers Atlanta, Birmingham, Charlotte, Jackson, Memphis, and Miami District Offices).
2. Chicago Regional Office, 600 South Michigan Avenue, Room 611, Chicago, Illinois 60605 (covers Chicago, Cincinnati, Cleveland, Detroit, Indianapolis, and Milwaukee District Offices).
3. Dallas Regional Office, 1100 Commerce Street, Room 5A4, Dallas, Texas 75202, (covers Albuquerque, Dallas, Houston, New Orleans, and San Antonio District Offices).
4. Kansas City Regional Office, 601 East 12th Street, Room 113, Kansas City, Missouri 64106 (covers Kansas City and St. Louis District Offices).
5. New York Regional Office, 26 Federal Plaza, Room 1615, New York, New York 10007 (covers Boston, Buffalo, New York, and Newark District Offices).
6. Philadelphia Regional Office, 127 North 4th Street, 3rd Floor, Philadelphia, Pennsylvania 19106 (covers Baltimore, Philadelphia, Pittsburgh, and Washington District Offices).
7. San Francisco Regional Office, 300 Montgomery Street, Suite 740, San Francisco, California 94104 (covers Denver, Los Angeles, Phoenix, San Francisco and Seattle District Offices).

Signed at Washington, D.C. this 20th day of February 1975.

JOHN H. POWELL, Jr.,
Chairman.

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 72-231]

PART 117—DRAWBRIDGE OPERATION REGULATIONS

Drawbridges in Oregon Where Constant Attendance Is Not Required; Clarification

At the request of the Burlington Northern Railroad and the Spokane, Portland and Seattle Railroad Company, the regulations governing the operation of their drawbridges contained in § 117.740(a)(10) are being rewritten to clarify points of potential confusion. Specifically, the word "commercial" is inserted after "authorized" to identify the type of fishing period meant, and the words, "in the Columbia River Fishery below Bonneville Dam to the jetties at the mouth of the Columbia River as established by the Columbia River Compact (Washington State Department of Fisheries and the Fish Commission of Oregon)," are inserted in lieu of, "as established by the Oregon and Washington State Department of Fisheries."

As this change is editorial in nature and does not change any of the conditions in § 117.740(a)(10), notice of proposed rule making and public procedure are omitted. This change shall become effective in less than 30 days from date of publication in the FEDERAL REGISTER.

For the sake of clarification § 117.759b(f)(10), published in the FEDERAL REGISTER of September 13, 1974 (39 FR 32986) is modified to read as follows:

§ 117.759b Drawbridges in the State of Oregon where constant attendance is not required.

* * * * * *

(f) * * *

(10) Burlington Northern, Inc. (Spokane, Portland, and Seattle Railway Company) railroad bridges across the John Day River near Astoria, Blind Slough and the Clatskanie River near Clatskanie. The draws shall open on signal if at least one-hours notice is given. However, the draws shall open promptly on signal from four hours before to four hours after each day's authorized commercial fishing period in the Columbia River Fishery below Bonneville Dam to the jetties at the mouth of the Columbia River as established by the Columbia River Compact (Washington State Department of Fisheries and the Fish Commission of Oregon).

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05-1(c)(4)).

Effective date. This revision shall become effective on February 26, 1975.

Dated: February 20, 1975.

W. E. CALDWELL,
Captain, U.S. Coast Guard, Acting Chief, Office of Marine Environment and Systems.

[FR Doc.75-5091 Filed 2-25-75;8:45 am]

[CGD 74-87]

PART 117—DRAWBRIDGE OPERATION REGULATIONS

Longboat Pass, Florida

This amendment changes the regulations for the Longboat Pass bridge between Longboat Key and Anna Maria Key near Bradenton Beach, Florida to require that the draw open on signal from 6 a.m. to 6 p.m. and open on signal if at least 3 hours notice if given from 6 p.m. to 6 a.m. This amendment was circulated as a public notice dated April 29, 1974 by the Commander, Seventh Coast Guard District and was published in the FEDERAL REGISTER as a notice of proposed rule making (CG 74-87) on April 26, 1974 (39 FR 14724). Eight responses were received, one supported the proposal and one had no objection thereto. One response supported the proposal but recommended more restrictive periods, however the periods proposed appear adequate and this recommendation is not considered valid at this time. One response supported the proposal, but recommended that the time during which the draw would open on signal be changed to sunrise to sunset. While this recommendation has merit, it is the Coast Guard's position that the proposed regulations provide for the reasonable needs of navigation. Two responses took no position on the proposal. These two were not considered on the grounds that they were too vague. Two responses objected to the proposal, mainly on the grounds that the construction of a new channel with jetties exiting from Longboat Pass to the Gulf of Mexico may take place in the future, thus increasing the use of this channel. The Corps of Engineers is considering dredging such a channel but has no firm commitments at this time. The Coast Guard will continue to monitor the operation of the Longboat Pass drawbridge. If further changes in the regulations appear necessary, such action will be taken at that time.

Accordingly, Part 117 of Title 33 of the Code of Federal Regulations is amended by adding a new paragraph (1)(3-c) immediately after paragraph (1)(3-b) of § 117.245 to read as follows:

§ 117.245 Navigable waters discharging into the Atlantic Ocean south of and including Chesapeake Bay and into the Gulf of Mexico, except the Mississippi River and its tributaries and outlets; bridges where constant attendance of draw tenders is not required.

* * * * * *

(1) *Waterways discharging into Gulf of Mexico east of Mississippi River.*

* * * * * *

(3-c) Longboat Pass bridge between Longboat Key and Anna Maria Key near Bradenton Beach, Fla. From 6 a.m. to 6 p.m. the draw shall open on signal. From 6 p.m. to 6 a.m., the draw shall open on signal if at least 3 hours notice is given.

* * * * * *

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05-1(c)(4))

Effective date. This revision shall become effective on March 31, 1975.

Dated: February 20, 1975.

W. E. CALDWELL,
Captain, U.S. Coast Guard, Acting Chief, Office of Marine, Environment and Systems.

[FR Doc.75-5092 Filed 2-25-75;8:45 am]

[CGD 75-045]

PART 127—SECURITY ZONES

Termination

The security zone at Buttermilk Channel, New York established February 2, 1975 by the Captain of the Port of New York, as published on February 6, 1975 (40 FR 5508) was terminated on February 5, 1975.

§ 127.316 [Deleted]

In consideration of the foregoing Part 127 of Title 33 of the Code of Federal Regulations is amended by revoking § 127.316.

(50 U.S.C. 191; 49 U.S.C. 1655(b); E.O. 10173, E.O. 10277, E.O. 10352, E.O. 11249; 3 CFR, 1949-1953 Comp. 356, 778, 873, 3 CFR, 1964-1965 Comp. 349, 33 CFR Part 6, 49 CFR 1.46(b))

Effective date. This amendment was effective on February 5, 1975.

Dated: February 19, 1975.

W. E. CALDWELL,
Acting Chief, Office of Marine, Environment and Systems.

SUBCHAPTER N—ARTIFICIAL ISLANDS AND FIXED STRUCTURES ON THE OUTER CONTINENTAL SHELF

[CGD 73-177R]

PART 144—LIFESAVING APPLIANCES

Unmanned Platforms

The purpose of these amendments to the regulations concerning life saving appliances on unmanned platforms is to require certain life saving equipment to be readily accessible any time persons are on the platform. Present regulations in 33 CFR Subpart 144.10 require lifesaving equipment only when crews are working continuously for 24-hours.

The Coast Guard proposed these amendments in the January 8, 1974 issue of the FEDERAL REGISTER (39 FR 1360). It was also proposed to delete the word "supervisor" and add the words "person in charge" in 33 CFR 144.01-30, in reference to the person in custody of the first aid kit on each manned platform, and to revise the citation of authority for 33 CFR Part 144.

The proposal resulted from an explosion and fire on the *CHAMBERS and KENNEDY* offshore platform and fire on the *M/V CARRYBACK* in the Gulf of

XUM
V 40 39 FEB 26 75 XUM

Mexico on May 28, 1970. Adequate lifesaving equipment was not provided on the platform, and the standby vessel, manned and moored to the platform, could provide no assistance because it was engulfed in flames. As a result, there were 9 deaths: five workmen on the platform, and four men on board the vessel.

Most written comments received on the proposal expressed concern for theft and pilferage of the lifesaving equipment if they were required to be permanently stowed on the platform. This concern resulted from a misinterpretation of the proposal. The intent was only to require lifesaving equipment for each person on the unmanned platform. As a result of the comments, the requirements have been rewritten for clarification.

One commenter suggested that the lifesaving equipment be required to be reflectorized. Although this comment has merit, the Coast Guard decided not to adopt the suggestion at this time because a research and development project is being conducted to review all visual distress aids. Upon completion of the project, the Coast Guard will propose regulations that are considered neeessary.

Another commenter suggested that life preservers should be allowed to be stowed on a manned vessel that remains alongside the platform when persons are on the platform. This suggestion was not adopted by the Coast Guard. The intent of the change is to prevent another casualty similar to the *CHAMBERS and KENNEDY/M/V CARRYBACK*, in which the lifesaving equipment was not readily accessible on the platform but was on the attending vessel that was afire.

The second commenter also suggested adding a new paragraph to § 144.10–1 to read as follows: "Unmanned platforms designed to house a single borehole completion and small multi-well platforms are excepted from the requirements of paragraphs (a) and (b) and, in lieu thereof, all personnel are required to wear at all times while on the platform an approved life preserver (Type 1 PFD) or a work vest (Type V PFD)." Since this amendment was not in the proposal, and is a substantive addition, it is not being adopted at this time. After further study and analysis to determine its contribution to safety of life, the Coast Guard, if it accepts the change, will propose the amendment in the FEDERAL REGISTER.

In consideration of the foregoing, the proposed regulations are hereby adopted subject to the clarification discussed above. As adopted, Part 144 of Title 33, of the Code of Federal Regulations, is amended as follows:

1. By revising the citation of authority of Part 144 to read as follows:

AUTHORITY: Sec. 4(e), 67 Stat. 462 (43 U.S.C. 1333(e)); sec. 6(b)(1), 80 Stat. 937 (49 U.S.C. 1655(b)(1)); 49 CFR 1.46(b).

§ 144.01–30 [Amended]

2. By amending § 144.01–30 by striking the word "supervisor" and inserting the words "person in charge" in place thereof.

3. By revising Subpart 144.10 to read as follows:

Subpart 144.10—Unmanned Platforms

Sec.
144.10–1 Lifesaving equipment.
144.10–10 Other lifesaving equipment.

Subpart 144.10—Unmanned Platforms

§ 144.10–1 Lifesaving equipment.

(a) Except as allowed in paragraph (b) of this section, no person may be on an unmanned platform unless the following lifesaving equipment is readily accessible on the platform:

(1) A life preserver or a Type I—Personal flotation device, listed in Table 1, for each person.

TABLE 1 LIFE PRESERVERS AND EQUIVALENT PERFORMANCE FLOTATION DEVICES

Devices marked	*Equivalent to performance type marked*
160.002 Life preserver...	Type I—Personal flotation device.
160.003 Life preserver...	Type I—Personal flotation device.
160.004 Life preserver...	Type I—Personal flotation device.
160.005 Life preserver...	Type I—Personal flotation device.
160.055 Life preserver...	Type I—Personal flotation device.

(2) A ring life buoy with an attached floating electric water light constructed and marked in accordance with 46 CFR Subpart 161.010, or a Type IV—Personal flotation device, listed in Table 2, with the same attachment, for every two persons, but no more than 4 devices are required.

TABLE 2 RING LIFE BUOYS AND EQUIVALENT PERFORMANCE FLOTATION DEVICES

Devices marked	*Equivalent to performance type marked*
160.009 Ring life buoy...	Type IV—Personal flotation device.
160.050 Ring life buoy...	Type IV—Personal flotation device.

(b) The ring life buoys required in paragraph (a)(2) of this section may be kept on a manned vessel that remains alongside the platform if there is no available space to keep them on the platform.

§ 144.10–10 Other lifesaving equipment.

Any lifesaving equipment on an unmanned platform that is not required in § 144.10–1 must meet the standards contained in Subpart 144.01 of this Part.

(Sec. 4(e), 67 Stat. 462 (43 U.S.C. 1333(e)); sec. 6(b)(1), 80 Stat. 937 (49 U.S.C. 1655(b)(1)); 49 CFR 1.46(b))

Effective date. These amendments become effective on March 28, 1975.

Dated: February 20, 1975.

O. W. SILER,
Admiral, U.S. Coast Guard, Commandant.

Title 45—Public Welfare

CHAPTER I—OFFICE OF EDUCATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 126—SUPPLEMENTARY EDUCATIONAL CENTERS AND SERVICES SPECIAL PROGRAMS AND PROJECTS

Financial Assistance to Local Educational Agencies

Notice of proposed rule making was published in the FEDERAL REGISTER on August 13, 1974 (39 FR 28997) which set forth regulations and guidelines for financial assistance to local educational agencies for special programs and projects under section 306 of the Elementary and Secondary Education Act of 1965, as amended (20 U.S.C. 844b). Pursuant to section 503 of the Education Amendments of 1972 (Pub. L. 92–318), a public hearing was held on September 30, 1974, in Washington, D.C. However, no comments were received on the proposed regulations and guidelines. One written comment was received and considered as outlined below.

1. *Summary of comments. Comment.* Sections 126.4(b) and 126.8(a)(2) of the regulations and Part 3 of the guidelines should specify the utilization of newspaper general notices as the means to assure participation of persons broadly representative of the cultural and educational resources of the area to be served, and in dissemination to foster the attention and understanding of special audiences and of the general public.

Response. Because of the nature of the innovative and experimental programs funded under section 306 of the Act, local educational agencies are permitted and encouraged to exercise discretion in designing programs. To specify the means of assuring the proper participation in, and the dissemination of the projects would be unduly restricting the exemplary and innovative nature of the projects. No change was made to the regulations or guidelines.

2. *Effective date.* Pursuant to section 431(d) of the General Education Provisions Act, as amended (20 U.S.C. 1232(d)), these regulations and guidelines have been transmitted to the Congress concurrently with the publication of this document in the FEDERAL REGISTER. That section provides that regulations subject thereto should become effective on the forty-fifth day following the date of such transmission, subject to the provisions therein concerning Congressional action and adjournment.

(20 U.S.C. 844b)

(Catalog of Federal Domestic Assistance Program No. 13.516, Preschool, Elementary and Secondary Education—Special Programs and Projects (Title III, Section 306))

Dated: January 23, 1975.

T. H. BELL,
U.S. Commissioner of Education.

Approved: February 14, 1975.

CASPAR W. WEINBERGER,
Secretary of Health, Education, and Welfare.

Title 45 of the Code of Federal Regulations is amended by adding a new Part 126 reading as follows:

PART 126—SUPPLEMENTARY EDUCATIONAL CENTERS AND SERVICES; GUIDANCE, COUNSELING, AND TESTING—SPECIAL PROGRAMS AND PROJECTS

Sec.
126.1 Applicability.
126.2 Definitions.
126.3 Program purpose and availability of funds.
126.4 Applications for grants.
126.5 Maintenance of fiscal effort.
126.6 Participation by private school children.
126.7 Projects for handicapped children.
126.8 Criteria for review of project applications.
126.9 Review of project proposals by State educational agency.
126.10 Grants involving construction.

AUTHORITY: Secs. 301–309 of Pub. L. 89–10, as amended by Sec. 131(a)(1) of Pub. L. 91–230, 84 Stat. 130–140 (20 U.S.C. 841–847a), unless otherwise noted.

§ 126.1 Applicability.

(a) The provisions contained in this part are applicable to grants to local educational agencies for planning and establishing special programs and projects, supplementary educational centers and services and guidance, counseling, and testing programs pursuant to Section 306 of title III of the Elementary and Secondary Education Act of 1965. Regulations applicable to grants to States pursuant to title III of the Act are contained in part 118 of this title.

(b) Assistance provided under this part is subject to applicable provisions contained in Subchapter A of this chapter (General Provisions for Office of Education Programs) relating to fiscal, administrative, property management and other matters.

(20 U.S.C. 844b)

§ 126.2 Definitions.

As used in this part:

"Act" means the Elementary and Secondary Education Act of 1965, Pub. L. 89–10, as amended.

"Children with specific learning disabilities" means those children who have a disorder in one or more of the basic psychological processes involved in understanding or in using language, spoken or written, which disorder may manifest itself in imperfect ability to listen, think, speak, read, write, spell, or do mathematical calculations. Such disorders include such conditions as perceptual handicaps, brain injury, minimal brain dysfunction, dyslexia, and developmental asphasia. Such term does not include children who have learning problems which are primarily the result of visual, hearing, or motor handicaps, of mental retardation, of emotional disturbance, or of environmental disadvantage.

(20 U.S.C. 843(b)(3), 844b(b))

"Construction" means (a) the erection of new or the expansion of existing structures, and the acquisition and installation of equipment therefor; (b) the acquisition of existing structures not owned by the agency making application for assistance under the Act; (c) the remodeling or alteration (including the acquisition, installation, modernization, or replacement of equipment) of existing structures; or (d) a combination of any two or more of the foregoing.

(20 U.S.C. 844b, 881(b))

"Cultural and educational resources" includes State educational agencies, institutions of higher education, private schools, public and nonprofit private agencies such as libraries, museums, musical and artistic organizations, educational radio and television, and other cultural and educational resources.

(20 U.S.C. 844(a), 844b)

"Dissemination" means communications with people about the operation and outcomes of demonstrations of exemplary practices in education in order to facilitate the adoption and replication of tested educational innovations in the host school system and other school systems in the State.

(20 U.S.C. 843(c)(3), 844b)

"Exemplary," as applied to an educational program, project, service, or activity means one designed to serve as a model for a regular school program.

(20 U.S.C. 843(b)(2), 844b)

"Handicapped children" means those children who are mentally retarded, hard of hearing, deaf, speech impaired, visually handicapped, seriously emotionally disturbed, crippled, or other health impaired and who by reason thereof require special education and related services. The term includes children with specific learning disabilities to the extent that such children are health impaired children who by reason thereof require special education and related services.

(20 U.S.C. 844b(b))

"Innovative," as applied to an educational program, project, service, or activity means one utilizing new or improved ideas, practices, or techniques.

(20 U.S.C. 843(b)(3), 844b)

"Local educational agency" or "local education agency" means a public board of education or other public authority legally constituted within a State for either administrative control or direction of, or to perform a service function for, public elementary schools in a city, county, township, school district, or other political subdivision of a State, or such combination of school districts or counties as is recognized in a State as an administrative agency for its public elementary or secondary schools. The term also includes any other public institution or agency having administrative control and direction of a public elementary or secondary school, including a State operated school for the deaf, blind, mentally retarded, emotionally disturbed or crippled. "Service Function" as used in this paragraph means an educational service which is performed by a legal entity—such as an intermediate agency—whose jurisdiction does not extend to the whole of the State and which is authorized to provide consultative, advisory or educational program services to public elementary or secondary schools, or which has regulatory functions over agencies having administrative control or direction of public elementary or secondary schools, rather than a service which is performed by a cultural or educational resource.

(20 U.S.C. 844b, 881(f))

"Private school" means a nonprofit school which is operated or controlled by other than a public authority, and which complies with State compulsory school attendance laws or is otherwise recognized or accredited by some procedure customarily used in the State as having curricula similar to that required of comparable public schools.

(20 U.S.C. 843(b)(4), 844(b)(2)(B), 844b, 845(f))

"Seriously emotionally disturbed children" means (a) Those children who exhibit one or more of the following characteristics over a long period of time and to a marked degree:

(1) An inability to learn that which cannot be explained by intellectual, sensory, or health factors;

(2) An inability to build or maintain satisfactory interpersonal relationships with peers and teachers;

(3) Inappropriate types of behavior or feelings under normal circumstances;

(4) General pervasive mood of unhappiness or depression; and/or

(5) A tendency to develop physical symptoms, pains, or fears associated with personal or school problems.

(b) This term does not include those children who are socially maladjusted.

(20 U.S.C. 843(b)(3), 844b(b))

"State educational agency" means the State board of education or other agency or officer primarily responsible for the State supervision of public elementary and secondary schools, or, if there is no such officer or agency, an officer or agency designated by the Governor or by State law.

(20 U.S.C. 844b, 881(k))

"Testing," in relation to activities undertaken pursuant to section 303(b)(4) of the Act means the use of tests which measure abilities from which aptitudes for an individual's educational or career development may be validly inferred.

(20 U.S.C. 843(b)(4), 844a(b)(1)(B)(i), 844b)

§ 126.3 Program purpose and availability of funds.

(a) *Amounts not available to the State.* From the amount allotted to any State under section 302 of the Act for any fiscal year which is (1) not available to that State under a State plan fully or partially approved by the Commissioner pursuant to section 305 of the Act, or which is (2) not available to that State because there is no approved State

V 40 139 FEB 26 75 XUM XUM

plan, the Commissioner may make grants to local educational agencies in such State for programs, or projects (including programs or projects for handicapped children) which meet the purposes and requirements of section 306 of the Act and the regulations in this part.

(b) *Amounts not required by the State.* The amount of any State's allotment under title III of the Act for any fiscal year which the Commissioner determines will not be required by such State for the period for which that amount is available shall be available for grants pursuant to section 306 of the Act in such State. If the Commissioner further determines that such amount is not needed in such State for grants pursuant to section 306 of the Act, that amount may, in the Commissioner's discretion, either be used for grants pursuant to section 306 of the Act in other States or reallotted to other States pursuant to section 302(c) of the Act. Grants from allotments made pursuant to this paragraph may be made during the fiscal year of the original allotment and the succeeding fiscal year.

(20 U.S.C. 842 (c) and (d), 844b, 845)

§ 126.4 Applications for grants.

A local educational agency shall file an application which, in addition to meeting the requirements contained in Subpart A of this Chapter (General Provisions for Office of Education Programs), shall contain or have attached thereto:

(a) A description of a program or project for carrying out one or more of the purposes described in section 303 of the Act (including, in the case of an application submitted by a local educational agency located in a State which has a State plan approved under section 305 of the Act, a description of how the project holds promise of making a substantial contribution to the solution of critical educational problems common to all or several States);

(b) A description of the policies and procedures which assure that in the planning of the project there has been, and in the establishment and carrying out thereof there will be, participation of persons broadly representative of the cultural and educational resources of the area to be served, including persons representative of the interests of potential beneficiaries;

(c) An assurance that the services for which funds under section 306 of the Act are sought will be administered by or under the supervision of the applicant;

(d) A description of (1) such methods of administration as are necessary for the proper and efficient operation of the project, (2) such fiscal control and accounting procedures as are necessary to assure proper disbursement of, and accounting for, Federal funds paid to the local educational agency under section 306 of the Act, and (3) the program accountability procedures to be used in the assurance of performance quality during the project period through the implementation of procedures and techniques such as: community involvement, technical assistance, needs assessment, change strategies, management systems, performance objectives, performance budgeting, performance contracting for services, staff development, comprehensive evaluation, program audit and cost-effectiveness analysis.

(e) A description of the policies and procedures to assure that Federal funds made available under section 306 of the Act for a specified budget period will be so used to supplement and, to the extent practical, increase the level of funds that would be in the absence of such Federal funds, be made available by the applicant for the purposes described in section 303 of the Act, and in no case supplant such funds;

(f) A description of how the program or project will provide for the genuine and meaningful participation of private school children as required by § 126.6; and

(g) A description of the facilities available for the project and the use to which they will be put. If the project will involve construction or leasing of facilities, the proposal shall specify how such activity is consistent with, and why it is necessary to, the efficient operation of the proposed educational program.

(20 U.S.C. 843, 844, 844a, 844b)

§ 126.5 Maintenance of fiscal effort.

No payments shall be made to a local educational agency under section 306 of the Act unless the Commissioner finds that the combined fiscal effort of such agency and the State in which it is located with respect to the provision of free public elementary and secondary education by that agency for the fiscal year preceding the fiscal year for which assistance is sought under such section was not less than such combined fiscal effort for that purpose for the second fiscal year preceding the fiscal year for which such assistance is sought. For the purposes of this section, combined fiscal effort shall be deemed to be maintained if current expenditures per pupil for elementary and secondary education of a local educational agency from State and local funds (determined on either an aggregate or a per pupil basis) for such preceding fiscal year equal or exceed such expenditures for such second preceding fiscal year. In the event of a decrease of current expenditures (determined on both an aggregate and a per pupil basis), the Commissioner will determine whether the maintenance of effort requirements have been fulfilled based upon consideration of the causes for such decrease (including such factors as changes in the value or availability of economic resources (tax bases) from which such expenditures are funded beyond the control of State or local authorities).

(20 U.S.C. 844b, 845(e))

§ 126.6 Participation by private school children.

(a) In each project approved under section 306 of the Act, provision shall be made for the effective participation in the project, on an equitable basis, of children enrolled in private schools in the areas to be served whose educational needs are of the type which the project is designed to meet. The number of such children to be served, in relation to the total number of such children with educational needs of the type the project is designed to meet shall be consistent with the number of public school children to be served, in relation to the total number of public school children in the area served with educational needs of the type the project is designed to meet.

(b) Whenever practicable, educational services shall be provided to private school children on publicly controlled premises. Any project to be carried out in public facilities and involving joint participation by children enrolled in private schools and children enrolled in public schools shall include such provisions as are necessary to avoid the separation of participating children by school enrollment or religious affiliation.

(c) Provisions for serving private school children shall not include: (1) The payment of salaries to teachers or other employees of private schools except for services performed outside regular hours of duty and under public supervision and control, (2) financing of the existing level of instruction in private schools, (3) the placement of equipment on private school premises other than portable or mobile equipment which is capable of being removed from the premises each day and is used solely for title III purposes, (4) the construction of facilities for private schools; or (5) the use of funds for religious worship or instruction.

(d) Every project application submitted by a local educational agency under § 126.4 shall describe how the local educational agency will fulfill the requirements of paragraphs (a), (b), and (c) of this section. This description shall contain information indicating: (1) The number of private schools in the area to be served by the project and the number of children enrolled in such schools in the grades to be served by the project and the number of such children who have the needs to be served by the project; (2) the existence of any factors which limit the appropriateness of the project for private school children; (3) the manner in which and the extent to which representatives of private school children participated in the development of the project proposal (including participation in the determinations required under paragraph (d) (2) of this section); (4) the provisions which have been made for effective liaison with representatives of private school children in regard to operation and review of the project; (5) the places at which and methods by which private school children will be served in accordance with the requirements of paragraphs (b) and (c) of this section; and (6) the differences, if any, in the kind and extent of services to be provided private school children as compared with those to be provided public school children, and the reasons for such differences. Services provided to children on private school premises must not inure to the benefit or enrichment of the institution.

(20 U.S.C. 844(b)(2)(B), 844b, 845(f)(1), 885)

§ 126.7 Projects for handicapped children.

The Commissioner shall, on the basis of reviews of project proposals submitted for approval, ensure that 15 percent of the funds granted under section 306 of the Act in any fiscal year will be used for projects which are designed to demonstrate solutions to critical problems in the education of handicapped children, by meeting their special educational needs.

(20 U.S.C. 844b(b))

§ 126.8 Criteria for review of project applications.

In addition to the factors set forth in § 100a.26 of this chapter, the criteria to be applied by the Commissioner in reviewing project applications from local educational agencies shall be the extent to which there is/are:

(a) Documentation that in the planning of the project there has been, and in the operation and evaluation of the project there will be:

(1) Utilization of the best available talents and resources and;

(2) Participation of teachers, students, parents, school administrative personnel, private nonprofit school representatives, and other persons including those with low income, broadly representative of the cultural and educational resources of the area to be served;

(b) Evidence that the project is designed to demonstrate solutions to critical educational needs as identified and described by the applicant and will substantially increase the educational opportunities of children in the area to be served;

(c) Provisions for the development of concepts, practices, and techniques which can be adapted or adopted elsewhere;

(d) Promising concepts or practices recognized as unique, original, innovative or exemplary;

(e) Evidence that the project activities will facilitate the achievement of performance objectives;

(f) An awareness of information concerning similar programs, relevant research findings, and views of recognized experts;

(g) Provisions for budgeted expenditures for adequate and appropriate facilities, equipment, and materials which make a direct contribution to facilitating the achievement of the stated objectives; and

(h) An evaluation which in addition to meeting the requirements of § 100a.26 (b)(8)(ii) of this chapter, will provide evidence of the extent to which performance of the participants is improved.

(i) Additional criteria, in the form of the national priorities, may be published in the FEDERAL REGISTER from time to time.

(20 U.S.C. 844, 844b) (Sen. Report No. 91-634, 91st Cong. 2d Sess. p. 28 (1970))

§ 126.9 Review of project applications by State educational agency.

(a) The Commissioner shall not approve a project application from a local educational agency unless the application has first been submitted to the appropriate State educational agency for review and recommendation, by qualified personnel, with respect to the action to be taken by the Commissioner regarding the disposition of the proposal.

(b) Applications involving the handicapped shall be submitted to the appropriate State educational agency personnel responsible for education of handicapped children for review and recommendations.

(c) In order to afford State educational agencies a reasonable opportunity to review and make recommendations, the Commissioner will not take final action with regard to any project application until 30 days after the applicable closing date established for the filing of project applications by a local educational agency as published in the FEDERAL REGISTER unless the State educational agency agrees to a shorter review period.

(20 U.S.C. 844b)

§ 126.10 Grants involving construction.

(a) *General provisions.* (1) An application, submitted under section 306 of the Act by local educational agencies for programs or projects which involve construction, may be approved by the Commissioner only if it meets the applicable requirements of Subchapter A of this chapter (General Provisions for Office of Education Programs), in addition to the other applicable requirements of this part. (2) The applicant must provide satisfactory assurances required by section 304(a)(4) of the Act such as that upon completion of the construction, title to the facilities will be in and retained by a State or local educational agency, and the building will be operated and used for the educational and related purposes for which it was constructed for a period of not less than 20 years.

(20 U.S.C. 844(a)(4), 844b, 847)

(b) *Recovery of payments.* If within 20 years after the completion of any construction undertaken pursuant to a grant under section 306 of the Act (1) the owner of the facility shall cease to be a State or local educational agency, or (2) the facility shall cease to be used for the educational and related purposes for which it was constructed, the United States shall be entitled to recover all or a portion of the Federal funds used to pay for such construction, in accordance with the provisions of section 308 of the Act.

(20 U.S.C. 844b, 847)

GUIDELINES, TITLE III, ELEMENTARY AND SECONDARY EDUCATION ACT, SECTION 306, SUPPLEMENTARY EDUCATIONAL CENTERS AND SERVICES; GUIDANCE, COUNSELING, AND TESTING—SPECIAL PROGRAMS AND PROJECTS

CHAPTER I—INTRODUCTION

PART 1—GUIDELINES

Sec.
1.1 Scope of guidelines.

CHAPTER II—GENERAL INFORMATION FOR THE APPLICANT

PART 1—PROGRAM INFORMATION

1.1 National priorities.
1.2 Planning considerations.
1.3 Length of project period.

PART 2—MANAGEMENT AND ACCOUNTABILITY

2.1 An accountability model.
2.2 Particularly relevant factors.
2.3 Factors receiving lesser emphasis.

PART 3—DISSEMINATION

3.1 Importance of dissemination.
3.2 Linkage of evaluation and dissemination.
3.3 Planning for dissemination of results.
3.4 Relationship with the Office of Education.

CHAPTER I—INTRODUCTION

PART 1—GUIDELINES

1.1 *Scope of guidelines.* (a) These guidelines are recommendations and suggestions for meeting the legal requirements which apply to Federal assistance under the Elementary and Secondary Education Act, Title III, section 306. The legal requirements include the Act itself (20 U.S.C. 841-847a) and the regulations (45 CFR 126). The guidelines are not to be construed as requirements. However, where the guidelines set forth a permissible means of meeting a legal requirement, the guidelines may be relied upon.

(20 U.S.C. 844b, 113 Cong. Rec. 5936, 5939 (daily ed. May 23, 1967); *United States v. Jefferson County Board of Education*, 372 F. 2d 836, 857 (1966))

(b) Where a guideline is issued in connection with or affecting a provision in the regulations, the pertinent regulation will be cited after the citation of legal authority for the guideline, in the parentheses following the guideline. For example, if the legal authority for the guideline is section 306 of the Act (20 U.S.C. 844b) and the guideline affects § 126.1 of the regulations (45 CFR 126.1) the following citation will be placed on the line immediately following the guideline: (20 U.S.C. 844b); (45 CFR 126.1). If no particular section of the regulations is affected, no citation to the Code of Federal Regulations (CFR) will be made.

CHAPTER II—GENERAL INFORMATION FOR THE APPLICANT

PART 1—PROGRAM INFORMATION

1.1 *National priorities.* Periodically, the Office of Education will establish and publish in the FEDERAL REGISTER a number of national priorities to guide local education agencies in their development of projects. In determining these priorities, the Office will consult such agencies as other Federal Departments, State departments of education, local education agencies, institutions of higher education, educational policy groups, and representatives of various minority groups. Some States may wish to suggest priorities among these national areas of concern to better serve the particular interests of the State as well as to focus on national needs.

(20 U.S.C. 843, 844b); (45 CFR 126.3, 126.8)

1.2 *Planning considerations.* (a) Persons broadly representative of the cultural and educational resources of the area, including parents and youth, should participate in planning, implementing, and evaluating these programs. Parents of children in the projects may also be directly served by project activities, such as by an instructional program related to that of their children.

(20 U.S.C. 844(a), 844(b); (45 CFR 126.4(b), 126.8(a) (2))

(b) Stress the primary purpose of this program is to test the appropriateness of specific solutions to critical national educational needs, each project may choose to focus its resources on a limited number of students rather than try to serve directly all students who might benefit from the project.

(20 U.S.C. 844b(a)); (45 CFR 126.3)

1.3 *Length of project period.* Projects are generally supported for periods ranging from 1 to 3 years. The determination of the funding period will be based upon such considerations as whether the proposed project falls in the development or replication phase of educational innovation, whether a given school system and community are considered generally receptive or resistant to change and the availability of annual appropriations.

(20 U.S.C. 844b); (45 CFR 126.3)

PART 2—APPLICATION PROCESS

2.1 *Federal and State Title III support.* Local education agencies intending to submit a proposal for possible funding under title III of the Act should make a choice between submitting it to the State education agency under the State plan program of title III or to the Office of Education for consideration under title III, section 306. This procedure does not preclude the possibility of joint funding of a project under both title III programs, in which case separate projects proposed to the Office of Education and the State education agency would represent different segments of a comprehensive local educational plan.

(20 U.S.C. 841–47); (45 CFR 126.1, 126.2)

2.2 *State education agency review.* (a) Each State is asked to (1) provide to the Commissioner comments and recommendations on projects submitted from that State, and (2) rank in priority order the most promising projects for support.

(b) The local educational agency should submit projects involving the education of handicapped children to the State Director of Special Education for review, and his recommendations conveyed to the Commissioner, together with the recommendations of other State agency staff.

(20 U.S.C. 844b); (45 CFR 126.9)

2.3 *Final approval.* During the review of the application by the U.S. Commissioner one or more representatives of the U.S. Office of Education (U.S.O.E.) may make a site visit to a local education agency whose application has been tentatively selected. During that visit, the U.S.O.E. representatives will meet the local education agency personnel and project planners to review project planning and development or installation strategies. Final selection and funding will be based upon the application review and the findings of the site visit.

(20 U.S.C. 844, 844b); (45 CFR 126.8)

CHAPTER III—PROGRAM DESIGN AND MANAGEMENT

PART 1—MANAGEMENT PROCESS

1.1 *Effective program management.* The development of a project in a local education agency provides the opportunity to apply modern management processes. The local education agency should first be firmly committed to the development and utilization of an effective management system. Such a system is appropriate regardless of the size or nature of the project, be it limited in scope and requiring a relatively low level of support or be it comprehensive and requiring a large expenditure of funds. From a management viewpoint, it is advisable in many instances that the project be viewed as a subsystem within the total school system, serving a well-defined target area and requiring identified resources from the local education agency at specified points during the project's schedule of operation.

1.2 *Selection of the project director.* (a) The project director, i.e., the educational manager, should be experienced in acting as an educational change agent, in stimulating people to get things done, in making decisions, in evaluating educational programs, and in using outside resources to strengthen the school's capability to solve educational problems.

(b) The project director should also possess managerial skills which will enable him to identify systematically the various functions and/or tasks comprising the project. Borrowing from or employing a systems-analysis approach, he should take the following steps.

(1) Identify the problem.
(2) Analyze the problem.
(3) Consider alternate solutions.
(4) Determine strategy.
(5) Implement the project.
(6) Evaluate the project.

(c) Within the scope of overall school policy, the project director has the task of establishing both the framework and the methodology for planning and organizing, installing and operating, communicating, and evaluating the project. These functions, which are described in detail below, comprise only one way to categorize a management system. Each project director should determine the management system best suited to his project and the one that will enable him to act successfully as the chief coordinator of project activities. Efforts to identify a suitable candidate for the position of project director should be initiated during the planning phase before submission of the application in order that the person may be hired as soon as its approval is announced.

1.3 *Management functions of the project director*—(a) *Planning and organizing.* (1) An initial concern of the project director is the analysis of the problem. The purpose of the analysis of the problem is the development of clear and appropriate objectives which state what should be accomplished and the performance criteria which will be used to measure attainment of the objectives. Section 2.2 (a) (4) of Part 2 of this Chapter on Performance Objectives explains their essential elements.

(2) After the initial needs assessment has been conducted and objectives have been established, the project director and project planners should determine what components and activities will be needed to accomplish the objectives of the project. Various management tools can help the project director plan a strategy and build an organization for an effective program. Some of the management tools currently used in business, industry, and education are Program Evaluation and Review Techniques (PERT), Critical Path Method (CPM), and Line of Balance (LOB). Charts showing work-breakdown structures, work-flow networks, staff-line relationships, time lines (with milestone events identified), and monthly rate of expenditures can help planners analyze all the constituent parts of a project. These management products also serve as effective communication media for all personnel involved in the planning process.

(b) *Installing and operating.* (1) The effective installation of an innovative project depends in large measure on the quality of the planning. When planning is well done, the objectives and the procedures and management processes for meeting those objectives are clearly delineated. The project director's task then becomes that of installing and operating according to the plans and of providing management decisions to keep the program moving toward its stated objectives on schedule and within cost limitation. One of the critical tasks of the project director is staffing the positions provided for by the organization structure. Management activities include appraising and selecting candidates for positions and providing necessary training for personnel. Project directors should determine the policies and procedures they expect to follow for recruiting, selecting, training, and promoting project staff members.

(2) One of the major causes of operational delays is the lack of proper facilities (housing and equipment) at the time they are needed. Lead times must be charted carefully for the delivery and availability of each major item. The execution of the policies and procedures to install and/or modify the facilities should begin at the earliest practical date, and plans should be made for facilities to house the project adequately.

(3) Timely decision-making and clear delegation of decision-making authority are other critical elements. The local education agency should clearly establish the extent of management authority which has been delegated to the project director and procedures to insure that the project director maintains sufficient authority to manage the project effectively. The project director should also establish procedures through which he can take prompt corrective action when problems arise in project operation.

(c) *Communicating.* (1) The control of an operating program depends on timely, relevant, and valid feedback of information so that problems can be readily identified, alternate solutions considered, and decisions made and implemented. Project directors should establish an effective internal communication system so that timely feedback information is reported by and to project staff, regular school staff, and the project community council. The information-feedback system should be a process by which information about past and present performances is used to influence future performance. The communication system should also be linked to procedures for utilizing the information.

(2) Various reporting formats should be developed to provide the project director and

staff with information relating to the performance objectives, activity and event sequences, and schedules and costs. The reports may be needed on a daily, weekly, monthly, quarterly, or yearly basis. They should be designed to show present status, problem areas, and the permissible deviation limits. In addition to an internal communication system, the project director should determine what types of dissemination techniques should be used to inform the larger public of the project's achievements. For additional information, see Part 3 of this chapter on Dissemination.

(d) *Evaluating.* The project director is responsible for insuring that an adequate evaluation design has been developed for each project component and for the overall project and that provisions have been made for timely feedback of evaluation findings to appropriate personnel. An evaluation of the project is necessary to determine how well each component and the entire project function within the established framework of time, cost, and performance objectives. Section 2.2(a)(5) of Part 2 of this Chapter below on Evaluation Design explains in detail the elements involved. In addition, § 2.2 (a) (6) of Part 2 of this Chapter on the Educational Program Audit explains the essential elements of the audit and its relationship to the evaluation.

(20 U.S.C. 844a(b)(2)(b), 844b); (45 CFR 126.4(g), 126.10)

PART 2—MANAGEMENT AND ACCOUNTABILITY

2.1 *An accountability model.* (a) Effective management should enable project planners to design and implement goals and activities based on careful needs assessment and to determine the results achieved among all project participants. Accountability, therefore, depends upon good management.

(b) This section describes a quality control (accountability) model which will enable local education agencies to design and implement projects having specified goals and the means to determine their achievement. Eleven factors have been identified in this model as worthy of consideration in its implementation: community involvement, technical assistance, assessment of needs, performance objectives, evaluation design, educational program audit, staff development, change strategies, performance contracting, performance budgeting, and cost effectiveness.

2.2 *Particularly relevant factors.* (a) Of the eleven accountability factors, those considered particularly relevant to the development and implementation of an effective management system are as follows:

(1) *Community involvement*—(i) *Introduction.* The Commissioner recommends that representatives of all segments of the community be involved in the planning, development, operation, and evaluation of projects and that a formal community council consisting of these representatives be established for each project. The development of an effective structure of involvement will require extensive and careful planning on the part of each district. No single model is appropriate for all districts, and these guidelines do not propose a specific model. The Commissioner invites the establishment of channels of communication between the chairman of the community council and the Office of Education program officer regarding any aspects of the project's development and operation.

(ii) *General community participation.* Recognition of the competence and interest of a variety of groups both within and outside of the schools in planning and operating project activities should result in programs which can best meet the needs of the target population and sustain the interest and support of the community. The degree to which applicants develop an effective structure of broadly based participation will be an important determinant in the ultimate success or failure of their section 306 projects. Special emphasis should be given to plans for the participation of students and youth. Encouraging youth to originate and carry out ideas for increasing their role and participation in school and community activities and giving them opportunities to share responsibility with adults and to work with their peers and adults in a variety of relationships should reduce student alienation from the schools.

(iii) *Community council*—(a) *Formation.* It is recommended that a formal community council be formed for each Title III, section 306 project and that it include representatives from each of the following groups in the percent of the total as indicated:

(1) Appropriate school staff—both in the central administrative office and within the selected target schools (25 percent);

(2) Students and youth from the potential target population, and other students and youth considered to have relevant knowledge (25 percent); and

(3) Parents and other residents of the target area community, including representatives of nonprofit private schools and other persons broadly representative of the cultural, educational, business and government resources of the area to be served (50 percent).

(b) *Membership.* Additional council members may be drawn from among the following:

(1) Community groups such as social agencies, religious institutions, youth organizations, local community action groups, business and labor organizations, and municipal government offices;

(2) Other Federal or State programs such as the Model Cities Program of the Department of Housing and Urban Development, the Manpower Training Program of the Department of Labor, and the Head Start, Follow Through, and Bilingual Education Programs of the Department of Health, Education, and Welfare;

(3) Colleges and universities; and

(4) Business and industry.

(c) *Council size and organization.* While the community council must be large enough to represent several groups and interests, care should be taken to keep the membership limited enough for efficient operation. A single council will best serve the needs of the project in some cases, particularly small school systems, but other patterns of organization may be necessary to allow direct participation by larger numbers of people than is possible with a single council structure. For example, an advisory council may be designated for each target school, allowing participation at the grass roots level in the planning and operation of project activities for particular schools. In turn the central council, composed of one or more representatives elected by each of the target school councils, should be established to coordinate the project for all schools.

(d) *Selection of members.* When a school district decides to develop an application, it should form an ad hoc community council on a volunteer or appointive basis. Council officers should be selected by the council members. Such a group should then be appropriately modified, expanded, or established through more formal selection procedures as the project is developed. One approach to council formation would be to request that groups of administrators, teachers, parents, and students select their own representatives according to procedures which they determine. Although time consuming, holding formal elections within the community and the schools may be of great value both for the experience gained by those who plan and conduct the elections and for the widespread awareness of the project which will result.

(e) *Definition of roles.* The roles of the community councils in project planning and activities may vary substantially and should be defined in writing in order that there be a clear understanding of the council members' functions and roles and the extent of their decision-making authority in such areas as the identification of the target population and the assessment of the needs of that population, the determination of project priorities, the writing and review of all applications to be submitted, the selection of project personnel, recommendations for program changes once the project is underway, and evaluation of the operation and results of the project. The early establishment of precise, written guidelines concerning the relationship of the council to those with legal responsibility for the schools, and open discussion and dissemination of these relationships will help to avoid the misunderstandings and conflicts which commonly result from a lack of clear definition of roles and responsibilities.

(f) *Council functions.* Care should be taken to assure that the community councils have specific and meaningful functions during all stages of project development and operation. The designation of these functions should be arrived at through open discussion between the school district staff responsible for project development and the council members. Each council should play an active part in planning and implementing the project rather than serving merely to certify or approve what has already been decided or accomplished, and each representative should be recognized for the unique contributions and resources he can bring to the project. The following list is suggestive of the possible variety and scope of community council functions and responsibilities:

(1) Assistance in program planning, including the identification of the target population, the assessment of needs, and the selection of project activities and priorities. The application should be developed with the expectation that program ideas will emerge from a current examination and analysis of the local problem by a broadly representative planning group;

(2) Participation in the establishment of criteria for the selection of project personnel and the interviewing and screening of prospective staff members;

(3) Recruitment of volunteers and assistance in the mobilization of community resources;

(4) Assistance in staff development programs for project staff, school personnel, and community representatives;

(5) Assistance in program evaluation activities;

(6) Service as a channel for complaints and suggestions for program improvements;

(7) Assistance in the dissemination of information about the project throughout the community; and

(8) Coordination of the project with the entire local education agency, with other community groups, with professional organizations, and with public and private agencies.

(iv) *Other approaches to community participation—Introduction.* Each school district should also develop other channels of community involvement as part of the total section 306 program effort. The following illustrations encompass only a few of the wide variety of potential innovations which might be included as actual project components to be supported financially with project funds

XUM
V 40 N 39 FEB 26 75
XUM

or which might be coordinated with and supportive of other project activities.

(a) *Student involvement*—(1) Because a major factor cited by students for their disenchantment with school is disinterest in a curriculum which they view as boring and irrelevant, many programs should focus on curriculum modification. Efforts to restructure curriculum focus on content and methodology, and these range from the redesign of existing courses and traditional subjects to the introduction of entirely new curriculum areas. Among some of the more promising recent curriculum efforts are those in which students have had a major voice and have occupied a joint role as both the objects and the agents of an improved instructional program. In some instances, students are serving as advisers to teachers and department heads responsible for curriculum revision; while in others, working closely with teachers as resource persons, students themselves have developed and conducted complete courses, selected the materials and instructors, and arranged for speakers and outside consultants to assist them.

(2) Student advisory roles to school faculties, administrators, and boards of education should be an integral part of all section 306 projects. They give students a greater understanding of the complexities of school operations and an opportunity to identify, study, and discuss school problems, make recommendations, and help to implement solutions. As part of their responsibilities, such youth advisers should report their activities through various school media and thus help to create a better informed and more concerned student body.

(3) Additional opportunities for student participation in school and community-related experiences can be provided through work-study programs. In addition to local businesses and industries, project planners should consider community agencies, municipal government offices, and the schools themselves as potential placement sources for student training, work experience, and part-time paid positions. Within the schools, students should serve as classroom and library aides, tutors to other students, assistants in the operation of school stores and after-school and evening study groups or recreation centers, and apprentices in the building maintenance, food, clerical, and audio-visual supportive services.

(b) *Involvement of parents and other adult community residents.* (1) Parents and other adult residents of the community should similarly be given opportunities for program participation in addition to their representation on the community council. Many of the roles suggested for students—participating in curriculum development and serving as advisers and consultants to teachers, administrators, and school boards, and disseminating their activities to the community—are equally appropriate for all adults, while other activities are suited uniquely to the interests and resources of parents.

(2) Interaction between parents and project staff—in homes, classrooms, and elsewhere—can help parents learn how they may best support and influence their children's education by reinforcing the goals of the program. Such interaction, accomplished through home visits, orientation sessions, workshops, and other methods, assists the project staff in becoming more responsive to the needs and goals of the parents and community and in becoming more able to translate their goals into project activities.

(3) Instructional activities should be open to parent observers at reasonable and convenient times, and parents should be encouraged to observe classes periodically during the school year. Some activities might be conducted in the evening so that parents who work during the day may have an opportunity to observe the project in operation. Parental involvement should also take the form of educational programs designed to familiarize parents with the school curriculum or with specific project activities and to instruct them in the use of materials and techniques by which they might supplement and reinforce their children's classroom instruction at home.

(4) Paraprofessional roles for parents and other adults serve to provide additional job opportunities within a project target area and to strengthen rapport between the schools and community. Most important, however, are the direct benefits to students, since community residents employed as paraprofessions may be highly effective in communicating with students. Appropriate functions for paraprofessionals in projects may include services to both students and parents, such as handling attendance and health problems, interpreting the school program to the community, encouraging increased parental visits to the schools and participation in school activities, helping parents to find community and agency resource assistance in solving family problems, assisting classroom teachers, counseling and tutoring students, and organizing and supervising field trips and other school day and after-school activities.

(2) *Technical assistance*—(i) *Introduction.* "Technical assistance" for the purposes of this discussion is the use of other resources than those of the applicant to provide expertise in such areas as planning, developing, managing, operating, evaluating, and disseminating information. The use of such outside resources in these areas is a local decision; the use of technical assistance in conducting an educational audit of the project is extremely important. The purpose of the use of outside resources is to help the local education agency strengthen its capabilities to achieve the performance objectives stated in its proposed project.

(ii) *Resources for technical assistance.* Technical assistance may be provided by industry, business, labor, private and nonprivate organizations, colleges and universities, service clubs, community service groups, regional educational laboratories, research and development centers, State education agencies, other local education agencies, the U.S. Office of Education, other Federal agencies, employment bureaus, and other groups or organizations with the needed expertise. Because of their familiarity with improved techniques of management and quality control, business and industrial resources may be particularly helpful to local education agencies in improving their program management operations.

(iii) *Determining the need for technical assistance.* (a) The assessment of local education agency resources for the development and implementation of an educational program is a continuous and essential responsibility of program planners. The skill with which the program planners determine where technical assistance is needed and who will be selected to provide it is as important as the contribution of a technical assistance agency.

(b) The needs assessment, for example, may indicate that special efforts beyond the capability of the local school system should be made by an outside group in areas such as the following: improving the instructional program, strengthening the school management system, strengthening the staff's ability to write measurable and relevant objectives, and developing effective instruments and evaluation designs for programs. In clarifying the areas where technical assistance is needed, the local education agency should define each problem, state the performance objectives to be achieved, and describe the general scope of the work involved. Once this is done for each problem, the local education agency will be able to determine more effectively the priorities among the various problem areas and separate those which will require outside technical assistance from those which can be handled through the use of local resources.

(iv) *Contract for technical assistance.* (a) Local education agencies seeking to secure technical assistance often find it advisable to arrange for services to be provided under a performance contract. Through the development of performance specifications, the local education agency introduces another aspect of accountability into project management. Emphasis, as the term "performance contracting" implies, is placed upon the goals attained, output—rather than solely on the procedures used, inputs. Performance contracts can be developed using noncompetitive or competitive procedures. As in any contracts made by the local educational agency, these contracts must comply with State and local contracting requirements.

(b) Using noncompetitive procedures, the local education agency selects the specific consultant or agency directly. Depending on the scope of work needed, a request for technical assistance may take the form of a letter to a consultant or agency which states the local education agency's requirements. The written agreements between the local education agency and consultant or agency regarding the local education agency's requirements and the work of the consultant or agency and his fee become the performance contract.

(c) A more detailed formal contract may be preferred in securing services of outside individuals or agencies. Such a contract between the local education agency and the contractee should incorporate the essential elements described in section 2.2(a)(2)(iv) (d) of this Part and Chapter concerning Request for Proposals. Examples of formal contracting without the use of competitive bidding might include educational program audit or inservice training by an institution of higher education.

(d) If the scope of work is extensive, as is more typical with the utilization of a technical assistance agency, the local agency invites bids by competitive procedures through a Request for Proposals (RFP). The Request for Proposals states in a more formal way (1) the local education agency requirements, and (2) the manner in which the local education agency wants the proposals or bids submitted by the various technical assistance agencies.

(v) *Selecting technical assistance.* (a) Local education agencies should insure that any technical assistance obtained is furnished by reputable contractors. When a local education agency is considering a particular technical assistance group, the agency should request the names of previous clients and contact their representatives to gain an assessment of the organization's past performance in similar tasks. Moreover, program planners should examine the capabilities of prospective technical assistance groups in terms of the following:

(1) Evidence of staff expertise in the job area (résumés should provide specific information concerning the background and experience of personnel assigned to the contract work). The technical assistance agency should indicate the availability of those personnel, giving evidence of staff stability, experience, and performance which would tend to insure successful completion of the contract terms and conditions; and

(2) Evidence of cost effectiveness in terms of the end products and services provided.

(b) The local education agency should also give consideration to the following:

(i) *Degree to which the technical assistance agency proposes to involve the people to be affected by its services.* All too often the acceptability of the agency's services is jeopardized by the isolation of the technical assistance specialists from the persons who will implement their ideas and recommendations. Technical assistance personnel should be provided with adequate information about the school system, and the project should have sufficient time to study the problems before recommendations are made;

(2) *Degree to which the technical assistance group proposes to adapt its program to meet local needs.* A pitfall to avoid is adoption of a "ready-made" program which has worked in another location. Representatives of the technical assistance group should indicate that they will carefully examine local conditions and modify the program as necessary; and

(3) *Degree to which the local education agency will retain supervision over project activities.* If the technical assistance group is going to contribute heavily to the direction and operation of one or more component activities, the local education agency shall maintain ultimate decision-making control over the project. Essential initial considerations are the qualifications established for the selection of the project director and the development of a plan for building in staff capability to assume complete responsibility for project operation.

(3) *Assessment of needs*—(i) *Preparation.* A prerequisite to the conduct of a local needs assessment is an assessment by the school district of its resource capability to perform that function. Provision should be made to assure the availability of adequate resources within the local district; or consideration should be given to obtaining outside assistance within existing constraints of time, funds, and personnel available.

(ii) *Assessment as a continuing process.* The assessment of needs is a continuing process which is vital to several stages of the planning and operation of a project. Because the application must reflect a careful analysis of needs for the proposed program, an initial needs assessment should be conducted prior to its submission. In those districts selected for title III, section 306 support, there will undoubtedly be a need for continuous examination and interpretation of existing information concerning the target group or educational issue. Whatever the procedures and approaches adopted by the local district in its investigation of the target group or issue, the assessment of needs should result in information which enables project planners to develop relevant program activities and priorities demonstrating a direct relationship between the identified causes of the problem and its proposed cures. Provision for a continuous assessment of needs, and procedures for the implementation of program modifications shown to be appropriate as a result of continuous needs assessment, should be incorporated into the ongoing project. The assessment of needs should be viewed as a dynamic process, as critical to the operational stages of the project as to the initial planning of it.

(iii) *Related resources.* Several resources will be available to the planning group in carrying out its work. One of the first tasks of the group might be an examination of existing programs, research, and literature pertinent to the target group or educational issue under consideration.

(iv) *Local studies.* The planning committee should identify and review relevant information on the local situation. The status of local needs assessments will, of course, vary substantially in individual districts, depending on the target group or issue upon which the proposed project will focus. Most districts have considerable data which, with some updating and expansion, can serve as the basis for planning a project focusing, for example, in the area of reading. While districts have access to adequate information from national research and studies concerning disadvantaged client groups, they may lack sufficient data concerning the needs of the disadvantaged children in their community. Still other districts, which may choose to design a project dealing with more recently recognized problems such as ecological education or student dissent may find that the existing data on these topics are inadequate and inconsistent, since awareness of these concerns at the national level has only recently emerged. Current information regarding the local situation may therefore be almost nonexistent. For those areas where information is unavailable locally, a survey sample may provide valuable insights into the nature and scope of the problem.

(v) *Interpretation of information.* The following suggestions may be helpful to those districts in the process of reviewing and interpreting information gathered previously and to those districts which will conduct new surveys and studies during the planning period:

(a) *Distinction between causes and symptoms.* Particular care should be taken to assure that surveys provide the information necessary to distinguish between the causes and symptoms of a problem.

(b) *Sources of information.* Surveys based on as broad a sampling of opinion as possible are needed. Since information compiled only from the viewpoint of teachers, administrators, or other school district personnel may have too limited a perspective to serve as the basis for planning a comprehensive program, local studies should also include the views of community representatives and agencies, parents, students and client group members or former members where appropriate. Any discrepancies in viewpoint revealed through a broad sampling may themselves be important indicators of the nature of the problem and should be known to the project planners.

(c) *Selection of interviewers.* Care should be taken to assure that, where appropriate, personal interviews are conducted by those to whom the various groups being questioned will respond most openly and that those being interviewed are assured that the information they give is confidential.

(4) *Performance objectives*—(i) *Need for measurable objectives.* Accountability for project accomplishments rests heavily on the degree to which such accomplishments can be validly measured. But the adequacy of the measurement process in turn depends upon project planners' skill in determining and framing project objectives. Too often, objectives are stated in loose, general language with the result that their meaning is subject to a variety of interpretations. A clear statement of objectives identifying specific types of performances to be measured is therefore an essential task facing project planners.

(ii) *Types of performance objectives.* Performance objectives in an educational program are precise statements of anticipated project goals in terms of behaviors, outcomes, or material items which can be validly measured. For purposes of project planning, performance objectives should be considered for three distinct areas of program design—*operational products, instructional or operational processes,* and *management processes.* Product refers to a behavior—cognitive, affective, or psychomotor—or a material item such as a curriculum guide or a list of available vocational opportunities for a work-study program. Process is the means by which a product or series of products is obtained.

(iii) *Elements of an objective.* In approaching the development of performance objectives, program planners should consider the following five elements for an adequately defined performance objective.

(a) Identification of the individual or group that will perform the desired behavior is the first step in developing a performance objective.

(b) Identification of the behavior to be demonstrated or product to be developed is the second essential element. The behavior should be described as precisely as possible as an action or a product that can be observed.

(c) The primary conditions under which the performance is expected to be measured is a third consideration. Conditions might include restrictions placed upon the project participant during the performance of specified behaviors, such as the time imposed on a student in a test-taking situation. Conversely, conditions might refer to supporting services which would be available as resources to assist in the attainment of the anticipated behavior or product.

(d) A fourth element is the minimum level of acceptable performance. This step is critical and poses many problems for program planners. Not only is there an element of risk involved in predicting what a program will accomplish, but there is need for considerable care in: (a) Establishing the performance standard through an analysis of past experience or research data, and (b) determining and collecting baseline data (data on existing status of performance or programs). Without adequate baseline data, predictions become trial-and-error guesswork.

(e) Closely related to the establishment of a minimum level of acceptable performance is the means or instrument which will be used to measure the expected performance or terminal behavior, the fifth essential element of a performance objective.

(5) *Evaluation design*—(i) *The quality of the design.* A comprehensive evaluation design through which the school system can assess the degree to which the project objectives have been achieved should be developed as an integral part of an overall program design. The purpose of the evaluation is to determine how well each component and the entire project function within the established framework of time, cost, and objectives. If well planned and operated, the evaluation system should result in information which communicates clearly whether the standards of performance specified in the objectives have been met to a degree greater than, equal to, or less than the predetermined standards and why. The task of designing the evaluation plan is both complex and multifaceted. Each component and the total project will entail the evaluation of product, operational process, and management process goals.

(ii) *Staffing needs.* As one of his primary management responsibilities, the project director should oversee the design and implementation of the evaluation plan. Many districts will find it necessary to hire consultants or to seek the help of an outside technical assistance group for the planning, installation, or operation of the evaluation system, particularly if the program requires newly developed instruments or techniques.

(iii) *Nonpublic school participants.* Careful consideration should also be given to the evaluation of these areas as they apply to the nonpublic school participants. The evaluation design should identify those objectives that pertain to them, particularly if they differ from those formulated for public school participants.

XUM
V 40 139 FEB 26 75 5
XUM

(iv) *Elements of the evaluation plan.* Five important elements to include in an evaluation design are as follows:

(*a*) *Performance objectives.* The development of the evaluation design is linked to development of performance objectives. If performance objectives have been developed properly both for product outcomes and for operational and management processes, a major part of the task has been accomplished; the expected behaviors, the measurement instruments, the conditions of measurement, and the minimum levels of acceptable performance will have been specified within the objectives. Following a careful review of the objectives to verify that each one contains the minimum essential elements, those persons responsible for designing the evaluation should assist the project planners in strengthening any objectives which require greater specificity, refinement, or the addition of omitted elements.

(*b*) *Measurement instruments and techniques.* (*1*) The evaluation instrument for each objective should be identified and described briefly. Standardized tests, questionnaires, rating scales, interviews, observation schedules, and interest inventories may be among the instruments selected. It is of critical importance that the instruments be matched as closely as possible to the objectives and that the validity and reliability of each instrument have been ascertained prior to its use. If new instruments are to be developed, a plan for their design and pretesting should be included.

(*2*) The baseline data requirements should be considered as the instruments are selected, since the validity of the evaluation process may be affected if the appropriate prerequisite data on the target population are not secured or available at the beginning of the program. Baseline data on ability and achievement levels, socioeconomic status, attitudes, and other characteristics of project participants will be needed in most cases for accurate measurement of the attainment of project performance objectives. The process of establishing baseline data is a task of some magnitude and requires skill on the part of the project planners. Questions of appropriateness to objectives, recency of collection, sensitivity or responsiveness to short-term change, reliability and objectivity of data, and comparability of data-gathering situations are some of the considerations which program planners should take into account as they design their evaluation.

(*3*) In the case of process evaluation, program planners should consider at least the following three approaches toward establishing a standard against which operational and management processes can be measured: Does the process exist? Is the process the most effective one known as compared with the best practice, determined by recognized authorities? Is the process more effective than similar processes used in other school system projects or operations?

(*4*) The evaluation techniques should also be specified clearly. Those who design the evaluation should determine whether traditional pre-test and post-test techniques should be used to measure some of the objectives, for example, and if so, on what basis the scores and ratings will be evaluated.

(*c*) *Data collection procedures.* The plan for the collection of evaluation data should cover a specified period of time and should include the complete evaluation schedule, the target populations to be measured, those responsible for arranging and administering the measurements, and any conditions of measurement not specified in the objectives. Procedures for the selection and training of testers, observers, or interviewers should be described. Charts and diagrams may prove to be helpful tools in the planning and organization of data collection procedures.

(*d*) *Data analysis techniques.* The data analysis techniques to be used by the project evaluator should be specified and described in the evaluation plan. In addition to indicating the statistical tests which will be applied and the types of comparisons and correlations to be drawn, the plan should reflect adjustments for such considerations as possible differential effects of program treatments, the bases for assumed equivalencies among groups, and pertinent external factors which might affect program results.

(*e*) *Data analysis presentation.* (*1*) The evaluator should outline his procedures for presenting the results of data analysis to project personnel, specifying the schedule, format, and recipients of his reports; and

(*2*) The project director should see that a plan is included for the dissemination of the results of project evaluation to the staff and the community. This plan also should include a schedule and should identify the individuals and groups who will receive information, the form in which it will be presented, and the staff members responsible for the presentations. As the project planners develop such a plan, they should consider the U.S.O.E. reporting requirements, the degree to which the procedures will provide a feedback system to enable appropriate program modifications based on the evaluation results, and the critical importance of providing the local community, particularly the community council and those affected by project activities, with timely information about the status of the program.

(*v*) *Problems in evaluation design.* As in other areas of project management, project planners are exposed to a number of pitfalls in developing an evaluation system. Previous experiences indicate that project planners should devote special efforts to overcoming or avoiding the following problems:

(*a*) *Fitting objectives to available instruments.* Project planners may find themselves designing program objectives around evaluation instruments which are well known and/or easily accessible. As a consequence of limited exposure to different kinds of evaluation techniques and scarcity of locally developed instruments, planners may find that types and amounts of baseline data are limited. Confronted with such a situation, planners are constrained from establishing specific performance objectives based upon an analysis of needs assessment data. Project planners should make every effort to develop or identify a broad and appropriate set of instruments rather than reject the objectives as unmeasurable or partly measurable.

(*b*) *Sensitivity of instruments.* Evaluation instruments should also meet certain conditions. Undoubtedly, one of the most critical conditions is sensitivity to incremental change. Project planners should give attention to the evaluation instrument's responsiveness to short-term changes. In some instances, product and process objectives may be evaluated satisfactorily on a yearly basis. In others, evaluation techniques may require more frequent application. Still another evaluation plan may be warranted when interim products are expected, such as the development of an instrument to identify potential low achievers within the first 3 months of project operation or changes in teacher skills as a result of a training program lasting several weeks.

(*c*) *Feasibility of instrument usage.* A number of problems relate to the issue of instrument feasibility, but many can be avoided if project planners give attention to the development of a comprehensive evaluation design. Timing is one fundamental consideration. If an instrument needs to be developed locally, a time allowance should be made for determining its validity and reliability before it is utilized in project evaluation. Attention should also be paid to the spacing of evaluation measures and to the time consumed in the administration of the instrument by staff members with evaluation responsibilities.

(vi) *Evaluation design summary chart.* This display of the evaluation design in chart form will serve several useful purposes. It will readily pinpoint critical evaluation dates for both the evaluator and the project director. In addition, it will facilitate a review of the comprehensiveness of the design. The chart would also be of substantial value to an educational auditor in developing his audit plan. It would normally be completed jointly by the project director and project evaluator.

(*6*) *Educational program audit*—(i) *Introduction.* The educational program audit is suggested as a means to validate the evaluation of an educational project. It is an external review conducted by qualified outside technical personnel who are not directly involved in the planning or operation of the project. The audit is designed to assess the appropriateness of evaluation procedures for determining the effectiveness of program operation and management, and to verify the results of the evaluation of an educational program. Assuming that the evaluation is complete, relevant, and valid and that it includes procedures for assessing product, process, and program management, an educational audit will not often report to the local administrators any outcomes which they do not already know. Instead, the audit will provide an added measure of objectivity for the conclusions reached through the evaluation process. The audit may also identify weaknesses in the evaluation procedures and offer ideas for correcting such weaknesses in succeeding phases of the project.

(ii) *Considerations in employing educational program auditors.* The local educational agency should take into account the following considerations in employing an educational program auditor:

(*a*) *Independence of operation.* The educational auditor should be completely independent of the direction or operation of the program or system to be audited. An educational program auditor should not have been involved in providing outside technical assistance in one or more of the following areas: designing the project, planning the project, operating any component of the project, preparing or providing materials or equipment for the project, managing the project, and conducting the evaluation of the project. These should not preclude his preaudit services, i.e., an examination of the evaluation design to determine whether it provides the means for an adequate audit of the project and the development of an audit plan.

(*b*) *Proximity to project or site to be audited.* To save time and money, the audit agency should be geographically based within a reasonable distance from the site of the project to be audited.

(*c*) *Submission of audit reports.* The educational program auditor should prepare reports on the status of the project for the local education agency.

(*d*) *Qualifications and record of acceptable performance.* The audit agency should provide a team of two or more persons to perform the professional audit tasks and give evidence of their acceptable performance in the application of the following: Measurement and evaluation techniques, educational research design and/or evaluation, evaluation of management systems, development and validation of tests and

measuring instruments, analysis of educational data, and processing and presentation of data relating to educational problems. Such audit should be comprehensive in dealing with the various aspects of a school system. In addition, the audit team should demonstrate expertise in the substantive area with which the project is concerned, for example, reading, early childhood education, special education, etc. This expertise may be represented by an individual who works with the team on a consultant basis.

(*c*) *Organizational capability.* The agent should give evidence of staff expertise and organizational capability which would tend to insure successful completion of contract terms and conditions.

(*f*) *Budget for educational audit.* The budget for the outside auditing agency should be determined by the time devoted to the task, the nature of the work to be accomplished, and the amount budgeted for project evaluation. Evaluation costs in general might approximate 10 percent of the total budget, and those for the educational audit about 2 percent of the total budget. It is suggested that the total costs of evaluation and the educational audit in general would therefore approximate 12 percent of the total budget.

(*g*) *Time frame.* The amount of time spent on the audit will, of course, depend on the size, scope, and complexity of the project. As far as possible, the auditor should be employed before the project begins operation.

(iii) *Suggested educational auditing procedures.* The following are steps which are recommended for establishing an effective audit process:

(*a*) Soon after an application is approved, the applicant should contact and establish liaison with one or more prospective educational auditors. The Office of Education does not recommend specific agencies for any type of outside technical assistance, but it may suggest upon request several agencies or individuals who have had experience in educational auditing, or review the qualifications of potential auditors to determine if they meet the criteria referred to previously. When the district has tentatively selected an auditor, arrangements should be made for services to be provided by the auditor during the developmental period.

(*b*) As the first of his activities during the developmental period, the auditor should familiarize himself thoroughly with the intent and policies of the title III, section 306 program and with the proposed objectives and project activities which the applicant presented in the application. The local district should provide a number of documents to the auditor early in the developmental period, including the title III, section 306, regulations and guidelines, the approved application, and any evaluative comments or recommendations for the further development of the program provided by the Office of Education.

(*c*) The major function of the auditor during the initial stages of the project is his conduct of a preaudit, i.e., an examination of the proposed evaluation system to determine whether it provides a basis for an adequate educational audit of the project. The auditor should determine, for example, whether measurable performance objectives exist for product and process in all components, whether the baseline data, the types of instruments to be used, and the quantity of evaluation data to be collected are adequate and whether instruments and procedures are included for the evaluation of product, operational process, and management process objectives.

(*d*) While the preaudit is being conducted, the auditor will work closely with the prospective project evaluator as well as with the project director and his staff. The auditor should be given draft materials for the operational plan as they are developed and copies of specific evaluation instruments as they are selected or designed.

(*e*) In making his critique of the proposed evaluation design, the auditor should be careful to maintain objectivity and detachment, lest he later find himself in the position of auditing his own work. Designing or modifying the evaluation system is *not* the function of the auditor. Should the auditor note discrepancies between the project objectives and the proposed instruments or procedures for evaluating them, he should communicate these discrepancies to the local education agency and suggest various alternative methods of correcting them. The selection of a specific corrective action should always be a local decision if more than one action is possible.

(*f*) The audit plan and a performance contract for the operational period also should be developed during the developmental period.

(*g*) The importance of the local school district in providing the auditor with project evaluation documents at scheduled times throughout the project period cannot be overemphasized. Prior to his on-site visits, the auditor should have adequate time for a detailed analysis of the evaluation document, formulation of questions to be raised with the project director and the evaluator, and determination of the specific sampling to be conducted during the visit. In turn, the local education agency will need time to arrange and confirm with the auditor his on-site visit schedule.

(*h*) It is clear that the auditor cannot possibly examine all of the project evaluative data. The auditor will work largely from tabulations, data analyses, and written interpretations and summaries of the evaluation; but the local education agency should retain the complete raw data collected, including tests, questionnaires, interview sheets, rating sheets, observation schedules, material products, videotapes, and films. These should be available for the auditor's inspection at any time during the contract period. In addition to providing the auditor with the evaluation reports, the local education agency should submit to him a description of the data analysis techniques and procedures used by the project evaluator, any recommendations for revisions of the evaluation design which have been proposed as a result of a particular phase of the evaluation cycle, and any recommendations for program modification which have been suggested as a result of the evaluation.

(iv) *Audit critiques of evaluation design and procedures.* As he makes his periodic critiques of the project's evaluation design and procedures, the auditor should consider questions such as the following for each major section of the evaluation system:

(*a*) *Selection of instruments.* (*1*) Did the range of instruments match the range of objectives?

(*2*) Were the instruments valid, i.e., did they measure the actual behavior intended by the objectives?

(*3*) Were measures used for both pre- and post-testing suitable for such repetition?

(*b*) *Data collection procedures.* (*1*) Were the measures applied under the physical conditions required by the instruments?

(*2*) Were the testers, observers, or interviewers appropriately selected according to the requirements of the instruments?

(*3*) Did the testers, observers, or interviewers receive appropriate training?

(*4*) Was the measurement schedule followed?

(*c*) *Data analysis procedures.* (*1*) Was there an adequate basis for any statistical difference among groups?

(*2*) Were differential effects of the program treatment taken into consideration?

(*3*) Was the formula or source given for the statistical tests which were applied?

(*4*) Did the data meet the prerequisites for the statistical tests used?

(*5*) Was consideration given to important external factors which might have affected program results?

(*d*) *Data analysis presentation.* (*1*) Did the evaluator present the data in a clear form?

(*2*) Were statistical conclusions stated in language appropriate for the intended audience?

(*3*) Were the conclusions communicated promptly to the appropriate persons?

(*4*) Did the conclusions focus on areas of primary importance for program decision making?

(v) *Audit site visits.* (*a*) The auditor's review of the written documents prior to his visit will establish a framework for the scope and emphases of his on-site work, which will consist largely of spot checking and sampling what has been reported in the documents. The critique of the evaluation reports is an important preliminary activity, but it is only through the on-site visits that the auditor can actually verify the results of the evaluation and assess the appropriateness of the evaluation procedures.

(*b*) The sampling conducted by the auditor during his visits may include the following: Observation of evaluation procedures, such as the administration of tests or interviews being conducted; observation of project activities and process; study of management; interviewing of parents, teachers, or project staff members; spot checking of written tests, questionnaires, interview sheets, rating sheets, and observation schedules; and review of material products, such as curriculum units or student projects.

(*c*) If either the sampling or the written documents reveal major departures from the evaluation design or discrepancies such as the complete absence of data, incomplete data, or inconsistencies, the auditor may wish to review the complete evaluation information collected for program activities and retained by the local education agency for such a review. Discussion with the evaluator and the project director may also assist the auditor in determining whether his observations of discrepancies or departures are accurate.

(*d*) Before concluding his on-site visit, the auditor should discuss any findings of major discrepancies with the project director and, if deemed appropriate, the superintendent of schools so that procedures for their correction and for appropriate followup activities by the auditor can be established as soon as possible. If, for example, some phase of the evaluation had not been completed on schedule and, therefore, could not be audited, the auditor might plan to audit that phase at a later date. Or if the procedures for some phase of the evaluation are to be modified substantially, a reaudit of that phase might be appropriate at some time prior to the next regularly scheduled complete audit.

(vi) *Audit Reports.* The major task of the auditor after he completes his on-site visit is the preparation of the audit report, which should include the following content areas:

(*a*) Introductory comments describing those aspects of the evaluation system with which his report will be concerned, in order that there be no ambiguity regarding the deliberateness of his treatment of the scope and depth of the evaluation;

(*b*) General comments concerning the quality of the project evaluation and the

XUM
V 40 139 FEB 26 75 XUM

comparative findings of the project evaluation and the audit;

(c) A detailed critique of the product, process, and management evaluation conducted for each component, based on an assessment of the instruments used, data collection procedures, data analysis techniques, and data analysis presentation;

(d) A description of the auditor's on-site findings and their correlation with the evaluator's data and reports, on a component-by-component basis, summary of consistencies and discrepancies, and interpretation of the discrepancies;

(e) Recommendations for revisions in the evaluation design, including a rationale for each recommendation. Since the auditor's objectivity can be maintained only if the selection of a specific action is a local decision, he should provide general rather than specific recommendations, posing several alternative actions or possible sources of assistance to the local education agency in correcting deficiencies; and

(f) Confirmation or questioning of the need for program modifications which have been proposed as a result of project evaluation. The audit report should be written initially as a draft document, to be presented to and discussed with the project director and evaluator prior to its formal submission to the local board of education and the superintendent. Provisions for a meeting to discuss the draft audit report will enable both the auditor and the project director and evaluator to raise final questions concerning its content, accuracy, and completeness and can serve as the occasion for a review of the entire educational audit process and the degree to which both the local education agency and the auditor have fulfilled their contract responsibilities.

(vii) *Grantee's response.* The superintendent should respond in writing to the auditor upon receipt of each report, stating his agreement or disagreement with the report findings, his reactions to the auditor's recommendations and his plan for their implementation or rationale for choosing not to implement them.

(b) *Factors receiving lesser emphasis.* The remaining five accountability factors as listed in § 2.1 of this part have received lesser emphasis in the implementation of the model. A brief description of each of these follows:

(i) *Staff development.* The determination of the nature and extent of staff development needed for the successful implementation of the acccountability concept at the local, State, and Federal level, and the design and conduct of indicated development activities.

(ii) *Change strategies.* The development of effective strategies for systemic change in the educational enterprise and the incorporation of the strategies in project operations.

(iii) *Performance contracting.* The arrangement for technical assistance in project operations through contracts which condition compensation upon the accomplishment of specified performance objectives.

(iv) *Performance budgeting.* The allocation of fiscal resources in accordance with project objectives to be realized, rather than by objects or functions to be supported.

(v) *Cost effectiveness.* The analysis of unit results obtained in relation to unit resources consumed under alternative approaches to project operations, as a determinant in continued project planning.

(20 U.S.C. 844(a) (1), (2), and (6), 844b); (45 CFR 126.4(b))

PART 3—DISSEMINATION

3.1 *Importance of dissemination.* (a) Another important factor in effective program design and management is dissemination, the communications process that provides for the continuous two-way flow of information necessary to achieve maximum effectiveness in the planning, operation, and evaluation of project activities. The major goal of this process, when it is concerned with demonstration projects, is to develop an awareness of and interest in the project, and if the program proves effective, to stimulate support for the program and continuation and adoption of the program beyond the period of Federal funding.

(b) Dissemination is an important element in any title III, section 306 project, since the purpose of title III, according to section 301(a) of the Act, is "the development and establishment of exemplary elementary and secondary school educational programs to serve as models for regular school programs." If these model programs are to be replicated and adapted across the Nation, there must be mechanisms provided to effectively disseminate their results. Of even greater importance to the success of each project, however, will be its efforts to gain local community awareness and support so that successful practices will be institutionalized after Federal funding has ceased.

3.2 *Linkage of evaluation and dissemination.* (a) A formal linkage between evaluation and dissemination efforts should be developed and maintained throughout the life of the project. Evaluation findings should be continuously disseminated within the project area to promote understanding, support, development, and adoption of the project. These findings are a major source of dissemination information, but they are usually couched in technical language and need to be interpreted and presented in a manner designed to foster the attention and understanding of special audiences and of the general public. Planning for evaluation should, therefore, be accompanied by planning for dissemination of the resulting information. Without this type of linkage, the result often is an abundance of highly technical data which cannot be interpreted meaningfully. When a project has operated for a sufficient period of time to demonstrate some degree of success (perhaps two years), plans should be developed for the wider dissemination of project results in order to facilitate its replication in other localities with similar needs.

3.3 *Planning for dissemination of results.* As the project begins to demonstrate sufficient success in the achievement of its objectives, a dissemination plan aimed at developing awareness of its successful practices and products should be formulated. The plan should include provisions for the following critical elements:

(a) Dissemination objectives stated in measurable terms, which are related to project objectives;

(b) Audience analysis to determine which groups should receive the information, what their information needs are, and the most effective strategies for reaching them;

(c) Determination of the most effective methods and media for disseminating information to a variety of audiences;

(d) Schedule of dissemination activities;

(e) System for receiving and using feedback from various audiences.

3.4 *Relationship with the Office of Education.* (a) Each grantee may disseminate information about project activities, progress, and evaluation findings in the project area. The grantee should also keep the State education agency and the Office of Education informed about the status of the project, so that these agencies can meet their responsibilities for dissemination.

(b) The Office of Education is responsible for national dissemination of title III, section 306 projects. To fulfill its responsibility, the Office is heavily dependent on information and materials transmitted by each project. The Office recommends that each grantee submit two copies of printed materials disseminated by the project and one copy of audiovisual materials produced by the project. Printed materials include curriculum materials, teacher guides, newsletters, brochures, and other printed matter. Audiovisual materials include films, filmstrips, slides, and videotapes. All materials, together with a statement of the purpose and extent of distribution, should be sent to the Office of Education program officer.

(20 U.S.C. 843(c), 844b)

[FR Doc.75-5135 Filed 2-25-75;8:45 am]

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[FCC 75-182; Docket No. 19658]

PART 1—PRACTICE AND PROCEDURE

PART 13—COMMERCIAL RADIO OPERATORS

Fee Schedule and Commercial Radio Operator Licenses

1. On January 15, 1975, the Commission adopted a report and order (40 FR 3851) in the above-entitled matter which revised the Commission's entire schedule of fees effective March 1, 1975.[1] In that Report and Order the Commission also took note of the fact that it had suspended collection of the cable television and broadcast annual fees for the period between March 29, 1974 and the effective date of the revised schedule in view of the substantial questions raised by the opinion of the Supreme Court in "National Cable Television Association, Inc. v. United States," 415 U.S. 336 (1974). It announced that it would reassess those fees in accord with the principles used in the new fee schedule. We have now completed our recalculation of the fees to be imposed using the same method employed in the report and order, but with the budget for fiscal year 1973 as the cost base.

CABLE TELEVISION ANNUAL AUTHORIZATION FEE

2. The cable television annual authorization fee for 1973 and 1974, recalculated in the manner described above, is six cents per subscriber. Cable television systems will be required to submit the fee for both years to the Commission on or before August 1, 1975.

BROADCAST ANNUAL LICENSE FEE

3. The broadcast annual license fee applicable to the period covered by the suspension has also been recalculated using the same procedure employed in the report and order adopted January 15. Starting April 1, 1975, the first date following the effective date of the rules upon which any annual fees are due, all stations whose annual fees are due on that date or thereafter will pay a fee for the preceding twelve months, using a multiplier of 6.7 times the applicable spot rate for aural stations and 3.4 for television

[1] FCC 75-32, 40 FR 3844 (1975).

stations applicable to those months ending December 31, 1974, and a multiplier of 8.5 for aural stations and 4.25 for television stations for those months in the year period commencing January 1, 1975.

4. Payments are also due on August 1, 1975 covering past payments which were suspended. These were payments from April 1, 1974 to February 1, 1975. These are calculated as follows: For every station whose payments were due prior to February 1, 1975, the fee will be the applicable multiplier (6.7 or 3.4) times the spot rate for all months covered by the suspended payment. For stations whose payments would have been due on February 1, 1975 if not for the suspension, the fee will be apportioned using a multiplier of 6.7 or 3.4 for all months except January; for January the multiplier will be 8.5 or 4.25 for aural or television.

5. The applicable spot rate is the following: For all fees due on or after March 1, 1975 for the preceding twelve months, the applicable rate card is that in effect on the June 1st prior to payment. For all fees due August 1, 1975 covering previously suspended payments, i.e., those payments which would have been due through February 1, 1975, the applicable rate card is the same rate card which would have been used if the fee had not been suspended and had been paid on the original due date.

CHANGES REQUIRED IN THE PRIOR REPORT AND ORDER

6. In the revised schedule adopted on January 15, Note 1 to § 1.1111(a)(5) stated that gross revenues used to determine grant fees for assignments and transfers would be determined by taking the average of the annual gross revenue figures reported on line 19 of FCC Form 324 for the respective station(s) for the three full calendar years immediately preceding the date of the consummation of the assignment and transfer. We believe, however, that it is desirable for parties contemplating a sale to be able to calculate the fee in advance. Therefore, we are revising the note to indicate that the relevant years for determining the gross revenue figure will be those three calendar years immediately preceding the filing date, rather than the date of consummation. When the grant of an application filed early in the year is ready for approval in the same year prior to the filing of a Form 324 for the immediately preceding year, procedures will be developed for obtaining the gross revenue figure for this preceding year from the applicant prior to final approval of the grant.

7. We are amending the Commission's rules by adding the following language at the end of § 13.71:

EXCEPT for alien restricted radio-telephone operator permit applications, which must be submitted to Federal Communications Commission, Washington, D.C. 20554.

This provision is part of the rules presently and was inadvertently deleted in the further notice and the prior report and order in the docket, but is now included.

8. Two changes are necessary in the Common Carrier portion of the revised fee schedule. Paragraph 1.1113(i) of the schedule included a fee for applications for certification of priority of leased intercity private line service in emergency situations. The fee was originally proposed when the first notice of proposed rule making in this proceeding was adopted in December 1972. In view of changed circumstances with respect to the priority system and the interests of the Commission and the entire government in establishing an integrated emergency communications system, we have concluded that this fee should be abolished.

9. The footnote applicable to the method for calculating gross revenue as a basis for the fee charged for tariff filings referred to a form which is not required of all common carriers subject to this provision. It is therefore necessary to amend this footnote so as to make it applicable to all common carriers filing tariffs with the Commission.

10. The word "certification" as it appears in the parenthetical note following § 1.1120(a)(2) is revised to "registration." The Field Operations Bureau requires registration by users of industrial heating equipment under Part 18 rather than certification. The revision is, therefore, necessary.

11. One change is necessary in the Safety and Special Radio Services portion of the revised fee schedule. Section 1.1115(c)(9) was revised by an order released on August 8, 1974 (FCC 74-814, 48 F.C.C. 2d 350) to exempt applications for emergency position indicating radiobeacon (EPIRB) stations from application fees. The exemption was inadvertently deleted from the prior report and order, but is now included.

12. The amendments adopted herein will be effective as of March 31, 1975.

13. Authority for the adoption of the amendments herein is contained in section 4(i) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), and Title V of the Independent Offices Appropriation Act of 1952, 31 U.S.C. 483a.

14. Accordingly, *it is ordered*, That effective March 31, 1975, Parts 1 and 13 of the Commission's rules and regulations are amended as set forth below. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303.)

Adopted: February 11, 1975.

Released: February 20, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

Parts 1 and 13 of Chapter I of Title 47 of the Code of Federal Regulations are amended as follows:

In § 1.1102, new paragraphs (e)(2)–(5), Note 1 following (e)(5), and a new (f)(2) are added to read as follows:

§ 1.1102 Payment of fees.

* * * * * * *

(e) * * *

(2) Each broadcast station shall pay an annual license fee to the Commission for the period April 1, 1973–February 28, 1975. The fee applicable to the period after December 31, 1974 shall be the fee prescribed in §1.1111(a)(5) of this chapter. The fee applicable to the period April 1, 1973–December 31, 1974 is as follows:

(i) For AM and FM stations: The annual license fee will be a payment equal to 6.7 times the station's highest single "one-minute" spot announcement rate, but in no event shall the annual license fee for each AM and each FM station be less than $25.00.

(ii) For television broadcast stations: The annual license fee will be a payment equal to 3.4 times the station's highest "30-second" spot announcement rate, but in no event shall the annual fee be less than $100.00.

(3) Fees applicable to any twelve-month period ending on or before February 1, 1975 must be submitted on or before August 1, 1975. Fees applicable to any twelve-month period ending after February 1, 1975 must be submitted on or before the anniversary date of the expiration date of the station's license as provided above.

(4) For broadcast stations submitting a fee on August 1, 1975 applicable to the period April 1, 1973–April 1, 1974 or June 1, 1973–June 1, 1974, the rate card on which the fee will be based is that of June 1, 1973. For broadcast stations submitting a fee on August 1, 1975 applicable to the period August 1, 1973–August 1, 1974, October 1, 1973–October 1, 1974, December 1, 1973–December 1, 1974 or February 1, 1974–February 1, 1975, the rate card on which the fee will be based is that of June 1, 1974.

(5) For broadcast stations paying an annual license fee applicable in part to a portion of calendar year 1974 and in part to a portion of calendar year 1975, the broadcast annual license fee will be prorated between the annual fee prescribed in paragraph (e)(2) of this section and the annual fee prescribed in § 1.1111(a)(6) of this chapter. A station's annual license fee will be computed by taking the number of months from the anniversary date to December 31, 1974, divided by 12, times the full year annual fee which is required by paragraph (e)(2) of this section, and adding to that the fee computed by taking the number of months from January 1, 1975 to the anniversary date, divided by 12 times the full year annual fee which is required by §1.1111(a)(6) of this chapter.

NOTE.—Example: AM station X has a license expiration date on October 1, Station X's highest single "one-minute" spot announcement rate is $10 as of June 1, 1974 and $20 as of June 1, 1975. Station X is required to pay an annual fee for the period October 1, 1973–October 1, 1974 on August 1, 1975 and an annual fee for the period October 1, 1974–October 1, 1975 on October 1, 1975. The fee due on August 1, 1975 will be $67.00. This is calculated by multiplying 6.7, the fee multiplier specified in paragraph

XUM
V 40 39
FEB 26 75
XUM

(a)(2) above, times $10.00 the highest single "one minute" spot announcement rate as it appears on the applicable rate card, that of June 1, 1974. The fee due on October 1, 1975 is $161.00. To calculate this fee it is necessary to prorate the fee based on the portion of the twelve-month fee payment period during calendar year 1974 and that during calendar year 1975. The number of months from October 1, 1974 to December 31, 1974 is 3. The first step in calculating the fee is to multiply $\frac{3}{12} \times 6.7 \times \$20$, the portion of calendar year 1974 covered by the fee ($\frac{3}{12}$) times the applicable fee multiplier (6.7), times the spot rate ($20 here as the June 1, 1975 rate card is used). This portion of the fee is $33.50. Next it is necessary to multiply $\frac{9}{12} \times 8.5 \times \$20$, the portion of calendar year 1975 covered by the fee ($\frac{9}{12}$) times the fee multiplier from section 1.1111(a)(8) (8.5), times the spot rate. This portion of the fee is $127.50. The annual fee equals the sum of the two amounts $33.50 and $127.50 or $161.00.

(f) • • •

(2) Each CATV system shall pay an annual authorization fee to the Commission for calendar years 1973 and 1974 to be submitted on or before August 1, 1975. The fee for each system shall be equal to the number of subscribers times 6 cents. The number of subscribers shall be determined by averaging the number of subscribers on the last day of each calendar quarter.

• • • • • •

2. In § 1.1111, Note 1 following paragraph (a)(5) is revised to read as follows:

§ 1.1111 Schedule of fees for Radio Broadcast Services.

• • • • • •

NOTE 1.—Gross revenue will be determined by taking the average of the annual gross revenue figures appearing on line 19 of FCC Form 324 for the respective station(s) for the three years immediately preceding the date of filing the application for the assignment or transfer. Procedures will be initiated to obtain the gross revenue figure for the immediately preceding year in any case in which a grant may be approved prior to the filing of the Form 324.

• • • • • •

3. In § 1.1113, paragraph 1.1113(l) and Footnote 14 are revised to read as follows:

§ 1.1113 Schedule of fees for Common Carrier Services.

• • • • •

COMMON CARRIER NONRADIO APPLICATIONS

Sec. 214 application for construction or acquisition of landline domestic cable or waveguide.[14]	$60	$3 per route mile.
Sec. 214 application to establish or supplement domestic facilities by installation or acquisition of carrier equipment on wire, cable, waveguide, or radio routes.[15]	$15	$4.50 per 100 equivalent 4 kHz channel miles authorized.[11 13]
Sec. 214 application to lease channels from other carriers for domestic use [16]	$15	$3.50 per 100 equivalent 4 kHz channel miles authorized.[11 13]
Sec. 214 application to lease satellite transponder for domestic use (per transponder).	$25	None.
Sec. 214 application for overseas cable construction	$600	$30 per route mile (nautical).
Sec. 214 application to establish or supplement international facilities by installation or acquisition of carrier equipment on overseas cable or radio routes (except satellite) or to acquire such facilities on a capital basis other than ownership.	$30	$6 per 100 3 kHz channel miles authorized.[13]
Sec. 214 application to lease channels on overseas cable or radio routes (except satellites).	$30	$3.50 per 100 equivalent 3 kHz channel miles authorized.[13]
Sec. 214 application to lease circuits to interconnect international circuits:		
Circuits outside of the United States	$15	None.
Circuits within the United States or territories	$15	$3.50 per 100 equivalent 3 kHz channel miles authorized.[13]
Sec. 214 application to install carrier equipment to establish international channels of communication at an earth station.	$60	One-third of 1 percent of of equipment and installation cost as set forth in application.
Sec. 214 application to establish and provide international channels of communication via satellite.	$150	None.
Sec. 214 application to acquire satellite channels for international use	$30	$12 per equivalent 4 kHz channel.[13]
Cable landing license	$120	None.
Sec. 214 application to discontinue, reduce or impair service to the public:		
Telegraph offices and public coast stations [17]	$15	Do.
All other	$60	Do.
Interlocking directorate applications	$30	Do.
Sec. 221 applications	$30	Do.
All other common carrier nonradio applications	$15	Do.

• • • • • •

[13] Total operating revenues of filing carrier and its communications common carrier subsidiaries for the previous calendar year. The fees for tariff filings made by one carrier solely on behalf of another carrier shall be based on the total operating revenues of the carrier for which the filing is made.

• • • • • •

4. In § 1.1115, paragraph (c)(9) is revised to read as follows:

§ 1.1115. Schedule of fees for the Safety and Special Radio Services.

• • • • • •

(c) • • •

(9) Applications for licenses for aircraft stations to operate with only an emergency locator transmitter (ELT); or an application for only an emergency position indicating radio-beacon (EPIRB) station; or an application for modification of a ship station license to include authority for operation of an EPIRB.

5. In § 1.1120, paragraph (a)(2) is revised to read as follows:

§ 1.1120 Schedule of fees for equipment type approval, type acceptance and certification.

• • • • • •

(a) • • •

(2) Application for certification of equipment operating under Part 18.[1] (No fee required for registration for use of industrial heating equipment on Form 724 in accordance with § 18.116 of the Commission's rules) ---------- 150

• • • • • •

6. In § 13.71, paragraph (b) is revised to read as follows:

§ 13.71 Issue of duplicate or replacement licenses.

• • • • • •

(b) The holder of any license or permit whose name is legally changed may make application for a replacement document to indicate the new legal name by submitting a properly executed application accompanied by the license or permit affected. If the authorization is of the diploma form, the application should be submitted to the office where it was issued. If the authorization is of the card form (Restricted Radiotelephone Operator Permit) it should be submitted to the Federal Communications Commission, Gettysburg, Pa. 17325, except for alien restricted radiotelephone operator permit applications, which must be submitted to Federal Communications Commission, Washington, D.C. 20554.

CHAPTER I—DEPARTMENT OF TRANSPORTATION

SUBCHAPTER B—OFFICE OF PIPELINE SAFETY

[Docket No. OPS-26; Amdt. 192-17]

PART 192—TRANSPORTATION OF NATURAL AND OTHER GAS BY PIPELINE: MINIMUM FEDERAL SAFETY STANDARDS

Qualification of Pipe Transported by Railroad; Correction

FR Doc. 75-3792, published at page 8345 in the issue dated Tuesday, February 11, 1975, is corrected by changing the word "entered" to read "entitled" in the amended item 4 of section II.A of Appendix A to Part 192.

Issued in Washington, D.C., on February 20, 1975.

JOSEPH C. CALDWELL,
Director,
Office of Pipeline Safety.

[FR Doc.75-5140 Filed 2-25-75;8:45 am]

CHAPTER V—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 71-18; Notice 8]

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

Non-Passenger-Car Tires

This notice changes the effective date schedule of Standard No. 119, *New pneumatic tires for motor vehicles other than passenger cars*, 49 CFR 571.119, to permit a delay of 2 days in the implementation of the labeling scheme.

Firestone Tire and Rubber Company has petitioned for rulemaking to delay the effective date of Standard No. 119 from March 1, 1975, to March 3, 1975, to permit a transition to the new labeling scheme on a non-workday. The present March 1, 1975, date would require interruption of work on Friday or Saturday to effect changes to the tire molds, while a March 3, 1975, date will permit those changes to be made on Sunday, March 2, 1975.

While the NHTSA does not encourage requests for delays of labeling requirements, it concludes that the short delay requested in this case will not have a significant adverse effect on motor vehicle safety and that the change will aid in the orderly implementation of the standard. The effective date of Standard No. 119 as a whole remains March 1, 1975, and tires may be marked according to the requirements on that date. However, compliance with the labeling requirements of S6.5, *Tire Marking*, will be optional during the first 2 days of March, and conformity with S6.5 will first be required on March 3, 1975.

Because of the imminence of the effective date of the standard, and because this change in an effective date involves a minor relaxation of a rule that will not have a significant effect on motor vehicle safety, the National Highway Traffic Safety Administration finds, for good cause shown, that notice and public procedure thereon are impracticable and unnecessary.

(Secs. 103, 119, Pub. L. 89-563, 80 Stat. 718 (15 U.S.C. 1392, 1407); delegation of authority at 49 CFR 1.51)

Issued on February 24, 1975.

JAMES B. GREGORY,
Administrator.

[Docket No. R-75-267]

PART 275—LOW RENT PUBLIC HOUSING

Prototype Cost Limits; Nevada

In the FEDERAL REGISTER issued May 17, 1974, (39 FR 17678), prototype per unit cost schedules were published pursuant to section 15(5) of the United States Housing Act of 1937. Consideration of subsequent factual project cost data and other information received from the Reno Insuring Office and the San Francisco Area Office indicates a prototype per unit cost schedule should be established for the following Nevada prototype cost areas; Elko, Fallon and Gardnerville.

Written data, views or statements may be filed with the appropriate HUD Area Office. The offices were listed in our publication of May 17, 1974. Accordingly, 24 CFR Part 275 is amended as follows:

The new prototype per unit costs for Elko, Fallon and Gardnerville, Nevada are to be added to page 17742 as shown on the table set forth hereinafter entitled Prototype Per Unit Cost Schedule.

(Sec. 7(d) of Dept. of HUD Act, U.S.C. 3535 (d)).

Effective date. This amendment is effective February 26, 1975.

DAVID M. DEWILDE,
Acting Assistant Secretary-Commissioner.

Prototype per unit cost schedule—Region IX

PART 275—LOW RENT PUBLIC HOUSING

Prototype Cost Limits; Tennessee

In the FEDERAL REGISTER issued May 17, 1974, (39 FR 17678), prototype per unit cost schedules were published pursuant to section 15(5) of the United States Housing Act of 1937. Consideration of subsequent factual project cost data and other information received from the Knoxille Area Office indicates that certain prototype costs for Chattanooga, Tennessee published May 17, 1974, should be revised.

Written data, views or statements may be filed with the appropriate HUD Area Office. The offices were listed in our publication of May 17, 1974. Accordingly, 24 CFR Part 275 is amended as follows:

1. On page 17704 delete the existing prototype costs for Chattanooga and substitute in lieu thereof the revised prototype per unit costs shown on the table set forth hereinafter, entitled Prototype Per Unit Cost Schedule.

(Sec. 7(d) of Dept. of HUD Act, U.S.C. 3535 (d)).

Effective date. This amendment is effective February 26, 1975.

DAVID M. DEWILDE,
Acting Assistant Secretary-Commissioner.

CHAPTER IV—OFFICE OF ASSISTANT SECRETARY FOR HOUSING MANAGEMENT, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER A—INSURED MULTIFAMILY HOUSING—MANAGEMENT AND MORTGAGE SERVICING

[Docket No. R-75-314]

PART 403—LOCAL RENT CONTROL

Interim Rule

The Department of Housing and Urban Development (HUD) has received numerous inquiries relating to the jurisdiction of local rent control boards over FHA projects. This has become an area of great concern to the Department, because it has been determined that local rent control is a significant factor in causing owners of FHA projects, especially subsidized projects, to default on their mortgage payments. The defaults are leading to a substantial number of mortgage insurance claims by mortgagees upon HUD and to the withdrawal from the nation's housing stock of an increasing number of units for low income families. Since HUD already regulates, pursuant to the National Housing Act, the maximum permissible rents that an owner of a project financed by a mortgage insured by HUD may charge, and since each mortgage insurance claim typically requires the expenditure of several millions of dollars by the Department, HUD has an overriding interest to

V 40139 FEB 26 75 XUM

preempt state and local actions which contribute to such claims. Moreover, with respect to HUD-owned projects, they are property of the United States Government, and therefore not subject to local regulation.

It is for these reasons that the Department is adding to Chapter IV of Title 24 a new Part 403, "Local Rent Control," that formally sets forth HUD's position on local rent control of FHA projects. The rule essentially provides that the Department shall assert exclusive jurisdiction over the maximum rentals for unsubsidized projects with mortgages insured or held by HUD only when it deems that its economic interest in the project is jeopardized by the decision of the local rent control authority (or by a delay in making a decision). However, the Department has exclusive jurisdiction over the rents of all subsidized projects with mortgages insured or held by HUD and all HUD-owned projects. The rule also specifies procedures for handling cases where the local rent control board approves a lower maximum rent level than HUD does.

This regulation is being adopted as an interim rule to be effective upon publication, because the Department considers it vital to avoid further mortgage insurance claims caused by local rent control restrictions. However, the Department invites interested persons to submit data, views, and suggestions with respect to this rule and is providing 60 days in lieu of the usual 30 days in which to file comments. All relevant material received on or before April 25, 1975, will be considered before a final rule is adopted. Filings should refer to the above Docket number and should be filed with the Rules Docket Clerk, Office of General Counsel, Room 10245, 451 Seventh Street, SW., Washington, D.C. 20410. Copies of the comments submitted will be available during business hours at the above address for examination by interested persons.

The Department has determined that an Environmental Impact Statement is not required with respect to this rule. The Finding of Inapplicability is available for inspection at the above address.

Title 24, Chapter IV is amended by adding Part 403 to read as follows:

Subpart A—Unsubsidized Insured Projects

Sec.
403.1 Applicability.
403.2 Rental charges.
403.3 Procedures.

Subpart B—Subsidized Insured Projects

403.5 Applicability.
403.6 Rental charges.
403.7 Procedures.

Subpart C—HUD-Owned Projects

403.8 Rental charges.
403.9 Procedures.

AUTHORITY: Sec. 7(d) of the HUD Act (42 U.S.C. 3535(d); Sec. 211, 52 Stat. 23, as amended (12 U.S.C. 1715b).

Subpart A—Unsubsidized Insured Projects

§ 403.1 Applicability.

This subpart applies to all projects with mortgages insured or held by HUD, except those to which Subpart B applies.

§ 403.2 Rental charges.

The Department will generally not interfere in the regulation by local rent control boards of rents of unsubsidized projects with mortgages insured or held by HUD. However, HUD will assert exclusive jurisdiction over the regulation of the rents of such a project when the delay or decision of a local rent control authority jeopardizes the Department's economic interest in the project.

§ 403.3 Procedures.

(a) The local HUD office shall process a mortgagor's request for approval of increases in the maximum permissible rents pursuant to Part 401 of this Chapter and HUD Handbook 4350.1, "Insured Project Servicing Handbook," without regard to the existence or terms of a local rent control ordinance. The mortgagor should simultaneously submit a similar request to the local rent control board following the requirements of the local jurisdiction.

(b) The mortgagor is responsible for informing the local HUD office, if the rents for the project approved by the local board are lower than those approved by HUD, or if the board fails to act within a period of thirty (30) days following the filing of the application. The mortgagor shall furnish the local HUD office any financial data that was supplied to the local board, but not previously furnished to HUD, along with the reasons why he believes that HUD's economic interest in the project is jeopardized by the local board.

(c) Upon reviewing all the information submitted by the mortgagor, the local HUD office shall promptly send a written report to the Office of Loan Management (HUD Central Office) and a copy to the Regional Office, if it deems the delay or decision of the local rent control board jeopardizes the Department's economic interest in the project and the local board will not modify its position to the satisfaction of the local HUD office.

(d) The Office of Loan Management shall promptly review the local HUD office's report and make a recommendation to the Office of General Counsel if it thinks that legal action in the matter is desirable. Such action will be determined independently of any action taken by the mortgagor.

Subpart B—Subsidized Insured Projects

§ 403.5 Applicability.

This Subpart applies to all projects with mortgages insured or held by HUD, which receive a subsidy in the form of: (a) Interest reduction payments pursuant to section 236 of the National Housing Act; (b) below-market interest rates pursuant to section 221(d)(3) and (5) of the National Housing Act; (c) rent supplement payments pursuant to section 101 of the Housing and Urban Development Act of 1965; (d) direct loans at below-market interest rates pursuant to section 202 of the Housing Act of 1959; and (e) housing assistance payments pursuant to section 8 of the United States Housing Act of 1937.

§ 403.6 Rental charges.

The Department finds that it is in the national interest to assert exclusive jurisdiction over the regulation of the rents of subsidized projects with mortgages which it insures or holds. Therefore, the Department has determined to preempt the entire field of rent regulation by local rent control boards acting pursuant to state or local law as applied to subsidized projects with mortgages which are insured or held by HUD.

§ 403.7 Procedures.

(a) The mortgagor shall be responsible for notifying the local HUD office whenever a local rent control board takes any action to prevent the mortgagor from implementing a HUD-approved rent increase.

(b) Upon receiving such notification, the local HUD office shall promptly convey the Department's position on this subject, as reflected in this Subpart, to the local rent control board. If the local rent control board then fails to approve the rent schedule approved by HUD, the local HUD office shall promptly notify the Office of General Counsel, the Office of Loan Management, and the Regional Office.

Subpart C—HUD-Owned Projects

§ 403.8 Rental charges.

The Department has exclusive jurisdiction over the rents of all projects which it owns, irrespective of the existence or the terms of any local rent control ordinance.

§ 403.9 Procedures.

Whenever a local rent control board takes any action to prevent the Department from implementing a rent increase, the local HUD office shall promptly convey the Department's position on this subject to the local rent control board. If the local rent control board then fails to approve the rent schedule instituted by HUD, the local HUD office shall promptly notify the Office of General Counsel, the Office of Loan Management, and the Regional Office.

Effective date. This amendment is effective February 26, 1975.

H. R. CRAWFORD,
Assistant Secretary for Housing Management.

[FR Doc.75-5073 Filed 2-24-75;12:16 pm]

Title 32—National Defense

CHAPTER I—OFFICE OF THE SECRETARY OF DEFENSE

SUBCHAPTER R—RECORDS

PART 286—AVAILABILITY TO THE PUBLIC OF DEPARTMENT OF DEFENSE INFORMATION

Procedure and Requirements

The Deputy Secretary of Defense has approved the following revision to Part 286. This Part 286 provides overall guidance to Department of Defense components on how they should respond to requests from the public for records under the Freedom of Information Act, as amended. It also describes the procedures which must be followed by the public in requesting records under this Part.

In view of inadequate time to obtain public comments on these rules prior to their adoption, public comment is solicited before April 18, 1975 for consideration in connection with any further revision of this Part that may be accomplished in the near future.

Part 286 is revised to read as follows:

Sec.
286.1 Purpose.
286.2 Cancellation.
286.3 Applicability and scope.
286.4 Policy.
286.5 Availability of records.
286.6 Exemptions.
286.7 Responsibilities.
286.8 Implementation.
286.9 Effective date.
286.10 Uniform agency fees for search and duplication under the Freedom of Information Act Amendments, Pub. L. 93-502.
286.11 Inspection and copying of opinions, orders and manuals.
286.12 Identification and marking "for official use only."
286.13 Release procedures.
286.14 Judicial action.
286.15 Reporting requirement.
286.16 Release and authentication of copies of official records.

AUTHORITY: 5 U.S.C. 552, as amended by Pub. L. 93-502.

§ 286.1 Purpose.

This Part: (a) Implements the Freedom of Information Act by describing:

(1) The kinds of records that must be made available to the public and the procedures which shall be used in making them available by providing an opportunity to inspect and copy them at convenient locations, with current indices (§ 286.11), and by providing copies.

(2) The kinds of records which need not be made available to the public.

(b) Prescribes uniform policy for the identification and marking of records which need not be made public through the use of the term "for official use only" (FOUO). This designation will be used to identify records not to be released to the public for reasons other than security classification under DoD Directive 5200.1 and DoD Regulation 5200.1-R (32 CFR 159) or under Pub. L. 86-36 (50 U.S.C. 402 note) (National Security Information Exemption); 35 U.S.C. 181-188 (Patent Secrecy); or 42 U.S.C. 2161 (Restricted and Formerly Restricted Data); and the procedures for release and authentication or certification of official records requested by other governmental bodies, whether executive, legislative, judicial, or regulatory, in making official determinations (§ 286.16).

(c) Provides procedures for review of denials of requests for records to preclude unnecessary or unauthorized withholding, and for responding to court actions taken to compel release of records.

§ 286.2 Cancellation.

DoD Directive 5015.1 (17 FR 7183 and 23 FR 4519) is hereby cancelled.

§ 286.3 Applicability and scope.

This Part applies to the Office of the Secretary of Defense (including the organization of the Joint Chiefs of Staff), the military departments, and all other Department of Defense agencies, each hereinafter referred to singularly as a component and collectively as components, and governs all records of the Department of Defense. It provides specifically for making records available to the general public when requested under 5 U.S.C. 552, as amended by Pub. L. 93-502. Requests from members of Congress are governed by DoD Directive 5400.4, "Provision of Information to Congress," February 20, 1971,[1] from the General Accounting Office by DoD Directive 7650.1, "General Accounting Office," Comprehensive Audits, July 9, 1958,[1] and from other agencies and the courts by § 286.16. Receipt of service of process is determined by 32 CFR 257. National Security Agency official records and information are exempt from the provisions of this Part in accordance with Pub. L. 86-36 (50 U.S.C. 402 note) (National Security Information Exemption).

§ 286.4 Policy.

(a) It is the policy of the Department of Defense to make available to the public the maximum amount of information concerning its operations and activities. Exceptions to the general requirement for disclosure shall be made in accordance with the exemptions set forth in § 286.6 and the release procedures prescribed in § 286.13.

(b) A record exempt from public disclosure under the exemptions set forth in § 286.6 should, nevertheless, be made available to the public when its disclosure is not inconsistent with statutory requirements (see § 286.6(c)(3)), with security classification requirement (32 CFR 159), or with other requirements of law, and when a component official charged with this responsibility determines that no significant and legitimate governmental purpose would be served by withholding the record. A determination of whether a significant and legitimate governmental purpose is served by withholding a record under the provisions of § 286.6 is within the discretion of the responsible officials within the component, as designated in accordance with § 286.7.

(c) A record may be withheld from the public only as authorized by the Freedom of Information Act, this Part, and other implementing regulations issued pursuant to this Part. The possibility that release of a record may cause embarrassment by suggesting administrative error or inefficiency may *not* be considered in determining whether it should be released (DoD Directive 5230.13, "Public Information Principles," October 23, 1973[1]).

[1] Filed as part of original. Copies available at U.S. Naval Publications and Forms Center, 5801 Tabor Avenue, Philadelphia, Pennsylvania 19120, Attn: Code 300.

§ 286.5 Availability of records.

(a) Subject to the exemptions set forth in § 286.6 and the procedural requirements of § 286.13, a record of a component shall be made available in response to a request from any person under the authority of 5 U.S.C. 552, as amended by Pub. L. 93-502. Other requests for information, including some kinds of records, may be answered promptly in accordance with other established procedures and requirements available to requesters in particular categories (e.g., component personnel seeking access to their personal records), but a request identified as being made pursuant to 5 U.S.C. 552, as amended by Pub. L. 93-502, even by requesters in these particular categories, shall be processed in accordance with this Part. Records which are published in the FEDERAL REGISTER in accordance with 40 FR 4911 or made available for inspection and copying in a library, reading room, or other facility (§ 286.11) should, where practicable, also be copied and forwarded by the component to those who request copies. Requesters may, however, be directed to an established source from which members of the public may obtain the record sought (e.g., the Government Printing Office).

(b) In determining whether documentary material qualifies as a "record" consideration should be given to the Act of July 7, 1943, ch. 192, sec. 1 (44 U.S.C. 3301) (Records Disposal), which defines the word "records" for records disposal purposes as follows:

"Records include all books, papers, maps, photographs, or other documentary materials, regardless of physical form or characteristics, made or received by any agency of the United States Government under Federal law or in connection with the transaction of public business and preserved or appropriate for preservation by that agency or its legitimate successor as evidence of the organization, functions, policies, decisions, procedures, operations, or other activities of the Government or because of the informational value of data in them. Library and museum material made or acquired and preserved solely for reference or exhibition purposes, extra copies of documents preserved only for convenience of reference, and stocks of publications and of processed documents are not included."

(1) Records are not limited to permanent or historical documents but include current documents as well.

(2) The term "records" does not include objects or articles such as structures, furniture, paintings, sculpture, three-dimensional models, vehicles, equipment, etc., whatever their historical value or value as "evidence."

(3) The items listed in § 286.5(b) that are maintained in computers, as well as audiovisual documentary material, are not excluded from the provisions of this Part.

(4) Formulae, designs, drawings, research data, computer programs, technical data packages, and so forth, are not considered "records" within the Congressional intent of 5 U.S.C. 552, as amended by Pub. L. 93-502. Because of

XUM
V 40 39
FEB 26 75
XUM

development costs, utilization, or value, these items are considered exploitable resources to be utilized in the best interest of all the public and not preserved for informational value nor as evidence of agency functions. Requests for copies of such material shall be evaluated in accordance with policies expressly directed to the appropriate dissemination or use of these resources. Requests to inspect this material to determine its content for informational purposes shall normally be granted, unless inspection is inconsistent with the obligation to protect the property value of the material, as, for example, may be true for certain formulae, or is inconsistent with another significant and legitimate governmental purpose.

(c) A request for a record will be granted if:

(1) The requester reasonably describes in writing the record sought. This requires sufficient particularity in the description to enable the component to locate the requested record with reasonable effort. The component may require the requester to complete a form to facilitate efforts to locate a record not otherwise reasonably described.

(2) The requester is willing and able to pay the cost associated with searching for and duplicating the record sought, as determined by § 286.10. Costs attributable to determining the applicability of an exemption under § 286.6 or whether a significant and legitimate governmental purpose would be served by withholding the record shall not be included in the computation of costs chargeable to the requester. Charges shall be waived in whole or part in accordance with § 286.10 when it is determined by a component that release of a requested record primarily benefits the general public and is, therefore, in the public interest.

(3) The requester complies with reasonable requirements set forth in the regulations of each component regarding the time, place, and procedure for obtaining a copy of the record.

(d) A record must exist at the time of the request to be considered subject to this Part. A record that is maintained by computer normally is deemed to exist for this purpose only if retrievable in approximately the form requested without substantial reprogramming. There is no obligation to "create" or compile a record for the purpose of satisfying a request for information. When the information requested exists in the form of several records at several locations the applicant should be referred to these sources if gathering the information would be burdensome.

(e) When the record requested was originated by another agency or component, the request normally shall be referred promptly and directly to that agency or component for disposition, and the requester shall be notified of that referral.

(1) Coordination prior to transfer of a request for a record is recommended to insure that there is no valid basis for an exception to this normal procedure.

(2) The component which receives the request for a record originated by another component or agency may respond directly to that request pursuant to an agreement with the originator.

(3) Requests referred from other components or agencies for the records of a component shall be answered in accordance with the time limits applicable to direct requests from the public, and begin to run upon receipt of the referral.

(f) The originating component shall, whenever feasible, consult with other agencies or components having a significant interest in the content of a requested record before determining whether to make it available to the requester.

(g) Each component shall avoid creating artificial procedural obstacles when internal Department of Defense organizational questions arise, particularly where reorganization or transfer of functions contributes to an improperly directed request. Defense Department personnel shall make reasonable efforts to assist private persons in directing requests for information to the appropriate authorities.

(1) This assistance shall include advice to the public in framing requests, either in regulations implementing this Part or on a case-by-case basis, so as to minimize the burden on the public and on the component. When literal compliance with a request for a determinable category of voluminous records would be impracticable within any reasonable time, the component should advise the requester of the need to describe more reasonably and particularly the scope or nature of the request. Orderly procedures shall be established to facilitate a determination by the requester of the records of particular interest. Screening records (i.e., locating the requested records by searching and examining a large group of records among which the requested record is located) and transporting records for screening purposes may constitute a search cost payable by the requester, in advance, along with costs of duplication in accordance with § 286.10.

(2) Exempt portions of a record should be deleted by a component and the remaining reasonably segregable portions of the record released to the requester when the meaning of these portions is not distorted and it can be reasonably assumed that a skillful and knowledgeable person could not reconstruct the exempt information. A system of designating exempt portions at the time a record is originated provides a basis for reasonable segregation, although the continuing validity of the exemption must be reevaluated in response to the request. Paragraph marking of information which is required by DoD Directive 5200.1 and DoD Regulation 5200.1–R (32 CFR 159) is an example of such a system and a paragraph so marked may be considered to be a reasonably segregated portion of a record. Reevaluation of the continuing validity of an exemption may be accomplished on the basis of such segregable portions of a record rather than on the basis of individual sentences, phrases and words.

§ 286.6 Exemptions.

(a) Records which otherwise would have to be published or made available in the FEDERAL REGISTER (40 FR 4911), in a library or reading room (§ 286.11), or in response to a request for a record under § 286.5 may be withheld from public disclosure if they come within a specific exemption.

(b) Deletion or modification in this section of provisions contained in the earlier version of this Part is not necessarily indicative of any change in policy or position regarding the applicability of any exemption. An exempted record or reasonably segregable portion of a record, however, should be made available upon the request of any member of the public when, in the judgment of the releasing component or higher authority, no significant and legitimate governmental purpose would be served by withholding it under an applicable exemption. Consistency with a statutory requirement (e.g., 18 U.S.C. 1905 (Confidential Trade Information); DoD Directive 5200.1, "DoD Information Security Program," June 1, 1972, and DoD Regulation 5200.1–R, "DoD Information Security Program Regulation," November 15, 1973 (32 CFR 159)), or other requirement of law constitutes a significant and legitimate governmental purpose.

(c) The following types of records may be withheld in whole or part from public disclosure unless otherwise prescribed by law:

(1) Those properly and currently classified in the interest of national defense or foreign policy, as specifically authorized under the criteria established by Executive Order and implemented by regulations, such as DoD Directive 5200.1, "DoD Information Security Program," June 1, 1972, and DoD Regulation 5200.1–R "DoD Information Security Program Regulation," November 15, 1973 (32 CFR 159).

(2) Those containing rules, regulations, orders, manuals, directives, and instructions relating to the internal personnel rules or to the internal practices of a component if their release to the public would substantially hinder the effective performance of a significant function of the Department of Defense. Examples include:

(i) Operating rules, guidelines and manuals for Department of Defense investigators, inspectors, auditors, or examiners.

(ii) Certain schedules or methods of operation which would reveal:

(A) Negotiating and bargaining techniques.

(B) Bargaining limitations and positions.

(C) Inspection schedules and methods.

(D) Audit schedules and methods.

(iii) Personnel and other administrative matters such as examination questions and answers used in training

courses or in the determination of the qualifications of candidates for employment, entrance to duty, advancement, or promotion.

(3) Those containing information which statutes authorize or require be withheld from the public. The authorization or requirement may be found in the terms of the statute itself or in Executive Orders or regulations authorized by, or in implementation of, a statute. Examples include:

(i) 18 U.S.C. 1905 (Confidential Trade Information)—For trade, technical, and financial information provided in confidence by businesses.

(ii) Pub. L. 86–36 (50 U.S.C. 402 note) (National Security Information Exemption)—National Security Agency information.

(iii) 35 U.S.C. 181–188 (Patent Secrecy)—Any records containing information relating to inventions which are the subject of patent applications on which Patent Secrecy Orders have been issued.

(iv) 42 U.S.C. 2161 (Restricted and Formerly Restricted Data)—Restricted Data and Formerly Restricted Data.

(4) Those containing trade secrets or commercial or financial information which a component receives from a person with the understanding that it will be retained on a privileged or confidential basis in accordance with customary handling of such records. Such records are those the disclosure of which would cause substantial harm to the competitive position of the person providing the information; impair the Government's ability to obtain necessary information in the future; or impair some other legitimate governmental interest. Examples include records which contain:

(i) Commercial or financial information received in confidence in connection with loans, bids, contracts, or proposals, as well as other information received in confidence or privileged, such as trade secrets, inventions and discoveries, or other proprietary data.

(ii) Statistical data and commercial or financial information concerning contract performance, income, profits, losses and expenditures, if offered and received in confidence from a contractor or potential contractor.

(iii) Information customarily considered privileged or confidential under the rules of evidence in the Federal courts, such as information coming within the doctor-patient, lawyer-client, and priest-penitent privileges.

(iv) Personal statements given in the course of inspections, investigations, or audits, where such statements are received in confidence from the individual and retained in confidence because they cover trade secrets or commercial or financial information normally considered confidential or privileged or because they are essential to an effective inspection, investigation, or audit.

(v) Data provided in confidence by private employers in connection with locality wage surveys which are used to fix and adjust pay schedules applicable to prevailing rate employees within the Department of Defense.

(5) Except as provided in (ii) through (v) internal communications within and among agencies (as defined in 5 U.S.C. 551 (Section 2 of the Administrative Procedure Act). and components.

(i) Examples include:

(A) Staff papers containing staff advice, opinions, or suggestions.

(B) Information received or generated by a component preliminary to a decision or action, including draft versions of documents, where premature disclosure would interfere with the orderly conduct of government. (Preliminary or draft documents received from other governmental organizations are not Department of Defense records and may not be released by component without the agreement of the organization.)

(C) Advice, suggestions, or reports prepared on behalf of the Department of Defense by boards, committees, councils, groups, panels, conferences, commissions, task forces, or other similar groups that are formed by a component to obtain advice and recommendations, or by individual consultants.

(D) Those portions of component evaluations of contractors and their products which contain recommendations or advice by government employees about the contractor or product.

(E) Advance information on such matters as proposed plans to procure, lease, or otherwise acquire and dispose of materials, real estate, facilities, or functions when such information would provide undue or unfair competitive advantage to private personal interests.

(F) Records which are exchanged among agency personnel or within and among components or agencies preparing for anticipated legal proceedings before any Federal, State, or military court or before any regulatory body.

(G) Reports of inspections, audits, investigations or surveys which pertain to safety, security, or the internal management, administration, or operation of the Department of Defense or one of its components.

(ii) If any such intra- or inter-agency record, or reasonably segregable portion of such record would routinely be made available through the discovery process in the course of litigation with the agency (i.e., the process by which litigants obtain information from each other that is relevant to the issues in a trial or hearing), then it should not be withheld from the general public. If, however, the information would only be made available through the discovery process by special order of the court based on the particular needs of a litigant balanced against the interests of the agency in maintaining its confidentiality, then the record or document should not be made available to a member of the general public.

(iii) Intra- or inter-agency memorandums or letters which are factual, or those reasonably segregable portions which are factual, are routinely made available through discovery, and should, therefore, be made available to a requester unless the factual material is otherwise exempt from release under § 286.6(b).

(iv) A direction or order from a superior to a subordinate, though contained in an internal communication, generally cannot be withheld from a requester if it constitutes policy guidance or a decision, as distinguished from a discussion of preliminary matters that would compromise the decision-making process.

(v) An internal communication concerning a decision which subsequently has been made a matter of public record should normally be made available to a requester when it furnishes the best support, explanation, or rationale for the decision.

(6) Information in personnel and medical files, as well as information in similar files, that, if disclosed to a member of the public, would result in a clearly unwarranted invasion of personal privacy.

(i) Examples of files similar to personnel and medical files include:

(A) Those compiled to evaluate or adjudicate the suitability of candidates for civilian employment and the eligibility of individuals, civilian, military or industrial, for security clearances, or for access to particularly sensitive classified information.

(B) Files containing reports, records, and other material pertaining to personnel matters in which administrative action, including disciplinary action, may be taken.

(ii) In determining whether the release of information would result in a "clearly unwarranted invasion of personal privacy," consideration should be given to the stated or assumed purpose of the request. When determining whether a release is "clearly unwarranted," the public interest in satisfying this purpose must be balanced against the sensitivity of the privacy interest being threatened.

(iii) When the only basis for withholding information is protection of the personal privacy of an individual who is the subject of the record, the information should not be withheld from him or from his designated legal representative. A clearly unwarranted invasion of the privacy of others appearing in that record may, however, constitute a basis for deleting reasonably segregable portions of the record even when providing it to the subject of the record.

(iv) An individual's personnel, medical, or similar file may be withheld from him or from his designated legal representative only to the extent consistent with 5 U.S.C. 552a (The Privacy Act of 1974—Effective on September 27, 1975).

(7) Those investigative records compiled for the purpose of enforcing civil, criminal, or military law, including the implementation of Executive Orders, or regulations validly adopted pursuant to law,

XUM V40139 FEB 26 75 XUM

(i) But only to the extent that their release would:

(A) Interfere with enforcement proceedings;

(B) Deprive a person of the right to a fair trial or an impartial adjudication;

(C) Constitute an unwarranted invasion of personal privacy;

(D) Disclose the identity of a confidential source;

(E) Disclose confidential information furnished only from a confidential source obtained by a criminal law enforcement authority in a criminal investigation or by an agency conducting a lawful national security intelligence investigation;

(F) Disclose investigative techniques and procedures not already in the public domain and requiring protection against public disclosure to insure their effectiveness;

(G) Endanger the life or physical safety of law enforcement personnel.

(ii) Examples include:

(A) Statements of witnesses and other material developed during the course of the investigation and all materials prepared in connection with related government litigation or adjudicative proceedings.

(B) The identity of firms or individuals suspended from contracting with the Department of Defense or being investigated for alleged irregularities when no indictment has been obtained nor any civil action filed against them by the United States.

(C) Information obtained in confidence, express or implied, in the course of: (1) a criminal investigation by a criminal law enforcement agency or office within a component; or (2) a lawful national security intelligence investigation conducted by an authorized agency or office within a component for the purpose of obtaining: (i) affirmative or counterintelligence information, or (ii) background investigation information needed to determine suitability for employment or eligibility for access to classified information.

(iii) The right of individual litigants to investigative records currently available by law is not diminished.

(iv) When the subject of an investigative record is the requester of that record, it may be withheld after September 27, 1975, only in accordance with regulations implementing 5 U.S.C. 552a (The Privacy Act of 1974—Effective on September 27, 1975). After September 27, 1975, the effective date of 5 U.S.C. 552a (The Privacy Act of 1974), the identity of the source of information obtained in confidence may be withheld in accordance with an implied or express promise of confidentiality given prior to that date and in accordance with an express promise of confidentiality after that date. Information from which the confidential source can be deduced may also be withheld.

(8) Those contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of any agency responsible for the regulation or supervision of financial institutions.

(9) Those containing geological and geophysical information and data (including maps) concerning wells.

§ 286.7 Responsibilities.

(a) The head of each component shall be responsible for:

(1) Establishing procedures governing actions on initial and appealed requests for records under this Part.

(2) Establishing procedures in accordance with DoD Directive 5200.1, "DoD Information Security Program," June 1, 1972, and DoD Regulation 5200.1-R, "DoD Information Security Program Regulation," November 15, 1973 (32 CFR 159), to insure that all holders of copies of records classified by the component are notified when reviewed has resulted in their declassification.

(3) Issuing implementing regulations that clearly identify those officials responsible for responding to requests under this Part for records which are under the jurisdiction of the component.

(4) Insuring cooperation with the Assistant Secretary of Defense (Public Affairs) (ASD(PA)) in fulfilling his responsibilities for monitoring the implementation of this Part.

(5) Designating an office or official as the principal point of contact and coordination with the ASD(PA).

(6) Advising the ASD(PA) of cases of public interest, particularly those on appeal, when the issues raised are unusual, precedent setting, matters of disagreement among components, of concern to other agencies outside the Department of Defense, or otherwise requiring special attention or guidance.

(7) Advising the ASD(PA) concurrent with the denial of a request or an appeal when circumstances suggest a news media interest.

(8) Preparing and submitting reports in accordance with § 286.15.

(9) Establishing, in coordination with the ASD(PA), programs of instruction on the provisions and requirements of this Part for officials and employees who contribute to the component's implementation of the Freedom of Information Act.

(10) Responding to the corrective action recommended by the Civil Service Commission for arbitrary or capricious withholding of records requested pursuant to 5 U.S.C. 552, as amended by Pub. L. 93-502 by officers or employees of the component.

(b) The Assistant Secretary of Defense (Public Affairs) shall:

(1) Direct and administer the Department of Defense Freedom of Information Program through a Deputy Assistant Secretary and a Directorate for Freedom of Information, which are hereby designated and established in accordance with DoD Directive 5400.10, "OSD/OJCS Implementation of the Freedom of Information Program," February 19, 1975, 40 FR 7242.

(2) Accomplish program overview, in cooperation with the Assistant Secretary of Defense (Comptroller) and the General Counsel, to insure coordinated guidance to components and to provide the means of assessing the overall conduct of the Department's Freedom of Information Program.

(3) Provide Department-wide policy guidance to components as pertains to the overall conduct of the Department's Freedom of Information Program.

(4) Act upon information provided by components as specified in § 286.7(a)(6).

(5) Direct surveys and studies to facilitate implementation of this Part and activities related to the Freedom of Information Program.

(6) Develop a block of instructions on the provisions and requirements of this Part and 5 U.S.C. 552, as amended by Pub. L. 93-502 for inclusion in the curriculum of the Defense Information School.

(7) Evaluate the Freedom of Information education programs of components.

(8) Confer with the head of a component on the desirability of reconsidering a final decision to deny a record when that decision becomes a matter of special concern because it involves an issue of great public interest or DoD-wide consequence.

(9) Forward a composite annual report to Congress in accordance with § 286.15.

(10) Modify or supplement, with the concurrence on the General Counsel and the ASD(C), any of §§ 286.10–286.16 to this Part in a manner consistent with the policies set forth in this Part after such coordination with the military departments and Defense agencies as may be appropriate.

(11) Prepare implementing provisions for the Office of the Secretary of Defense, including the organization of the Joint Chiefs of Staff.

(c) The General Counsel of the Department of Defense shall insure uniformity in the legal position and interpretation of this Part by all DoD components and coordination with the Department of Justice, as necessary, on all final denials of requests for records under this Part that are likely to lead to litigation.

§ 286.8 Implementation.

(a) Each component of the Department of Defense shall issue and publish in the FEDERAL REGISTER regulations to implement 5 U.S.C. 552, as amended by Pub. L. 93-502, unless subject to the implementing regulations of another component. The implementing regulations of Defense agencies may incorporate this Part by reference as their substantive requirements, and limit their separate publications to a description of component responsibilities and procedures. Processing of requests for the records of Headquarters of Unified, Specified and Subordinate Unified Commands shall be processed under the administrative directives of the military departments indicated in DoD Directive 5100.3, "Support of the Headquarters of Unified, Specified, and Subordinate Unified Commands," March 16, 1967, (32 FR 5569) Any substantive inconsistencies between this Part and component regulations

shall be reconciled within ninety days of the effective date of this Part.

(1) By mutual agreement, facilities for the examination and copying of documents and records may be shared by more than one component if the public is not unduly inconvenienced by such an arrangement.

(2) When the provisions of this Part, related DoD issuances, or component regulations do not provide guidance adequate to insure consistency among the components in determining the disposition of requests for particular types of records, the matter shall be brought to the attention of the ASD(PA) with a request for supplementary guidance. Consistency does not preclude the ad hoc release of an individual record generally considered exempt from disclosure, when no significant or legitimate governmental purpose would be served by withholding it.

(b) Two copies of implementing regulations shall be submitted to the General Counsel of the Department of Defense no later than March 1, 1975.

§ 286.9 Effective date.

This Part is effective February 19, 1975. Public comments and recommendations received on or before April 18, 1975, however, will be considered in determining the need for modification of this Part, in conjunction with the reconciliation between component regulations and this Part.

§ 286.10 Uniform agency fees for search and duplication under the Freedom of Information Act Amendments—Pub. L. 93-502.

Introduction.—This section describes fees for search and duplication. It is not intended to substitute for any schedule of fees or a policy of not to charge a fee established in connection with the issuance of publications or other materials in the routine course of business of a component.

SCHEDULE OF FEES

DUPLICATION

Publications, Forms and Reports. Shelf stock of printed or microfiche medium (requesters may be furnished more than one copy of a publication or form if it does not deplete stock levels below projected planned usage).

Minimum fee, per request plus	$2.00
Forms, per copy	.05
Publications, per printed page	.01
Microfiche, per fiche	.06
Reports, per printed page	.05
(Examples: Cost of 20 forms, $3; cost of a printed publication with 100 pages, $3; cost of a microfiche publication consisting of 10 fiche, $2.60)	

OFFICE COPY REPRODUCTION WHEN SHELF STOCK IS NOT AVAILABLE

Minimum charge up to six reproduced pages	2.00
Minimum charge, first fiche	5.00
Each additional page	.05
Each additional fiche	.10

OTHER ISSUANCES

Minimum charge up to six pages	2.00
Each additional page	.05

SEARCH

Clerical search, per hour	5.50
Minimum charge	2.75
Professional search (includes computer programer time and review to determine whether a record comes within the scope of a request) per hour	11.00
Minimum charge	5.50

Computer service charges. Computer service charges will be based on actual computer configuration used and be based on direct costs only of the Central Processing Unit, plus Input/Output Devices, plus Memory Capacity. Transportation costs of records and personnel arising from searches for requesting reports will be charged at actual cost.

Audiovisual documentary material. Service charges for audiovisual documentary materials will include clerical and professional search fees as listed above as well as the direct costs of reproducing the photography or tape and shipping or mailing charges. Audiovisual materials provided a requester under provisions of this Part need not be in reproducible format or quality.

Waiver of fees. (a) In general, charges shall be waived or reduced when it is determined that release of a requested record primarily benefits the general public and, therefore, is in the public interest. Examples of common situations in which such a determination may be made include:

(1) The recipient of the benefits is engaged in a nonprofit activity designed for public safety, health or welfare;

(2) Payment of the full costs or fee by a state, local government or nonprofit group would not be in the interest of the program;

(3) The incremental cost of collecting the fees would be an unduly large part of the receipts from the activity;

(4) The request emanates from a representative of the public information media seeking a reasonable number of records.

(b) A refusal to waive charges by the official responsible for the initial decision on the request for the record may be appealed to the head of the component or his designee for purposes of final appeal.

Collections. (a) Normally, collection of charges and fees will be made in advance of rendering the service. In some instances, it may be more practical to collect charges and fees at the time of conveying the service or property to the recipient, but only in those instances where the request specifically states that whatever cost involved will be acceptable or acceptable up to specified limit that covers anticipated costs.

(b) Collection of scheduled fees and charges will normally be deposited to Miscellaneous Receipts of the Treasury.

(c) Search fees are assessable even when no records responsive to the request, or no records not exempt from disclosure are found, provided the requester is advised of the requirement at the time the estimated charges are presented to the requester for approval and he agrees to incur the cost of search.

§ 286.11 Inspection and copying of opinions, orders, and manuals.

(a) Subject to the exemptions set forth in § 286.6 of this Part, each component shall make available for public inspection and copying in an appropriate facility or facilities in accordance with rules published in the FEDERAL REGISTER the following materials, unless such materials are published and copies offered for sale:

(1) All final opinions (including concurring and dissenting opinions) and orders in adjudications (as defined in 5 U.S.C. 551 (section 2 of the Administrative Procedure Act) that may be cited, used, or relied upon as precendents in future adjudications.

(2) Statements of policy and interpretations of less than general applicability affecting the public but not published in the FEDERAL REGISTER.

(3) Administrative staff manuals and instructions, or portions thereof, which establish Department of Defense policy or interpretations of policy that affect a member of the public. This provision does not apply to instructions for employees on the tactics and techniques to be used in performing their duties, or to instructions relating only to the internal management of the agency. Examples of manuals and instructions not normally made available are:

(i) Those issued for audit and inspection purposes or those which prescribe operational tactics, standards of performance, or criteria for defense, prosecution, or settlement of cases.

(ii) Operations and maintenance maanuals and technical information concerning munitions, equipment, systems, and foreign intelligence operations.

(b) The cost to the component of copying any such opinion, order, or statement of policy or interpretation shall be imposed on the person requesting the copy in accordance with § 286.11.

(c) When feasible, all material that is published in the FEDERAL REGISTER should be made available for inspection and copying along with any available index of that published material, in the same facility or facilities provided for inspection and copying of opinions, orders and manuals.

(d) Identifying details which if revealed would create a clearly unwarranted invasion of personal privacy may be deleted from any final opinion, order, statement of policy, interpretation, staff manual, or instruction, made available for inspection and copying. In every such case, the justification for the deletion must be fully explained in writing. However, a component may publish in the FEDERAL REGISTER a description of the basis upon which it will de-

XUM
V 40 39 FEB 26 75 XUM

lete identifying details of particular types of documents in order to avoid clearly unwarranted invasions of privacy. In appropriate cases the component may refer to this description rather than write a separate justification for the deletion.

(e) Each component shall maintain, on a current basis, in each facility provided for inspection and copying, an index of material issued, adopted, or promulgated after July 4, 1967, which is made available or published under paragraph (a).

(1) The index should be arranged topically or by descriptive words, so that members of the public may be able to locate final opinions, orders, statements of policy, interpretations, staff manuals, or instructions by subject, rather than by case name or by numbering system. Case name and numbering arrangements may, however, also be included in the index for purposes of component convenience.

(2) Each component shall promptly publish quarterly or more frequently and distribute (by sale or otherwise) copies of each such index or supplement thereto unless it publishes an order in the FEDERAL REGISTER containing a determination that publication is unnecessary and impracticable. A copy of any index or supplement not published shall be provided to a requester at a cost which does not exceed the direct cost of duplication.

(f) No order, opinion, statement of policy, interpretation, staff manual, or instruction issued, promulgated, or adopted after July 4, 1967, which is not indexed and either made available or published, may be relied upon, used, or cited as precedent against any member of the public unless he has actual and timely notice of its terms. If the order, opinion, statement of policy, interpretation, staff manual, or instruction was issued, promulgated, or adopted before July 4, 1967, it need not be indexed but must be made available in accordance with § 286.5.

(g) In determining whether an order, opinion, statement of policy, interpretation, staff manual or instruction is likely to be used or relied upon as precedent, the primary test shall be whether it is intended to provide binding guidance for decisions or evaluations by subordinates or for future decisions by the same authority in adjudications of cases affecting the public, where similar facts or issues are presented.

§ 286.12 Identification and marking "for official use only".

(a) Records which are not classified under DoD Directive 5200.1, "DoD Information Security Program," June 1, 1972, and DoD Regulation 5200.1–R, "DoD Information Security Program Regulation," November 15, 1973 (32 CFR 159), but which at the time of their origination are authorized by 5 U.S.C. 552, as amended by Pub. L. 93–502, to be withheld from general public disclosure under § 286.6 of this Part, and which for a significant and legitimate governmental purpose should not be given general circulation shall be considered as being "for official use only" (FOUO). No other record may be considered as being "for official use only."

(b) A record that is considered "for official use only" may be marked "for official use only" when such marking is deemed necessary or desirable to ensure that all persons having access to the record are aware that it should not be publicly released and should not be handled indiscriminately. Individual folders, records, and files covering specific kinds of subject matter normally falling within the exemptions of § 286.6, such as personnel and medical files, bids, proposals, and the like, which are covered by rules and regulations specifying what may be released publicly, do not require the "FOUO" marking unless handled under circumstances where marking is desirable to ensure protection of the information involved.

(1) The marking, if otherwise proper under this Part, may be applied to information or material which has been declassified.

(2) The marking may not be employed as a less stringent security designation under conditions where classification under DoD Directive 5200.1, "DoD Information Security Program," June 1, 1972, and DoD Regulation 5200.1–R, "DoD Information Security Program Regulation," November 15, 1973 (32 CFR 159), is not warranted.

(3) Information contained in a technical document for which a determination has been made that a distribution statement under DoD Directive 5200.20, "Distribution Statements (Other Than Security) on Technical Documents," September 24, 1970,[1] is appropriate shall not be marked "FOUO."

(c) Material which is considered as being "for official use only" must be safeguarded from general disclosure irrespective of whether the material is physically marked with the term "for official use only."

(d) Whenever necessary to assure proper understanding, or appropriate as a means of facilitating segregation of exempt information in a lengthy record, individual paragraphs which contain FOUO information shall be marked "for official use only." In classified documents, this marking should be applied only to paragraphs which contain FOUO information and do not contain classified information.

(e) Instructions regarding marking, safeguarding, and transmitting FOUO materials are set forth in DoD Instruction 5025.9, "Control and Protection of FOR OFFICIAL USE ONLY Information," February 1, 1968.

§ 286.13 Release procedures.

(a) The policy of the Department of Defense is to make the maximum amount of information available to the public. Therefore, when a person requests in writing that a record be made available to him under the Freedom of Information Act that request may be denied only upon determination that:

(1) The record is subject to one or more of the exemptions set forth in § 286.6, and a significant and legitimate governmental purpose is served by withholding it.

(2) Release of the record is inconsistent with a statutory requirement or other requirement of law.

(3) The record cannot be found because it has not been described with sufficient particularity to enable the component to locate it with a reasonable amount of effort.

(4) The applicant has unreasonably failed to comply with the procedural requirements (including the payment of any required fee) imposed by the implementing regulations of the component concerned. When personally identifiable information in a record is requested by the subject of the record, for example, notarization of the request may be required.

(b) The initial determination of whether to make a record available upon request may be made at any suitable level and by any suitable official designated by the component in published regulations for the type of record sought. The marking or absence of the marking "for official use only" does not relieve the designated official of his responsibility to review the requested record for the purpose of determining whether an exemption under § 286.6 is applicable.

(c) The official designated by a component to make initial determinations, if not a public affairs officer, should consult with public affairs officers to familiarize himself with subject matter considered to be newsworthy, and advise them of all requests from news media representatives. In addition, he should inform public affairs officers in advance whenever he intends to release a record containing potentially newsworthy material or to withhold any record when it is likely that the withholding action will be publicly challenged.

(d) Initial determinations on whether to release a record shall:

(1) Normally be made and the decision reported to the requester within ten (10) working days of the date a request is received by the official designated to respond for the type of record sought, providing the requester indicates a willingness to reimburse the component for any search and duplication costs incurred in providing the record. If the willingness of the requester to reimburse the component for any required search and duplication costs is not expressed in the request, resolution of this issue is appropriate before the time for responding begins to run when these costs are likely to be substantial.

(2) When the request is addressed to another official in the component or to the wrong agency or component, it shall normally be forwarded promptly to the designated responsible official, of the appropriate agency or component, with the period for response commencing upon his receipt.

(3) When a decision is made to release a record, it should be forwarded promptly to the requester upon receipt of any required payment for search and duplication. Alternatively, the requester may be directed to an established source from which members of the public may obtain the record sought (e.g., the U.S. Government Printing Office).

(4) When a request is received for a record which:

(i) Was obtained by the Defense Component from a non-U.S. Government source; or

(ii) Contains *information* obtained by the Defense component from non-U.S. Government source; and, because of the source and the nature of the records or information, there is reason to believe that the source of the information or record may object to release and may have an enforceable right to prevent release, prompt notification of intended release shall be given to the source. Release shall normally be withheld until the source has a reasonable time to comment on the proposed release. Comments received shall be considered in determining the releasability of the document. When the source advises that it is seeking a restraining order or other court action to prevent release, release will normally not be made pending the outcome of the court action.

(5) In all cases where the time for response may become an issue, the official responsible for replying should acknowledge to the requester the date of the receipt of the request for purposes of determining time limits.

(6) If additional time is needed in unusual circumstances to respond the component should acknowledge the request in writing within the ten (10) day period, briefly cite one of the unusual circumstances requiring delay, and indicate the anticipated date for substantive response which may not exceed ten (10) additional working days. Unusual circumstances that may justify delay are:

(i) The requested record is located in whole or part at places other than the office processing the request.

(ii) The request requires the collection and coordination of a substantial number of records.

(iii) Consultation is required with other components or agencies having substantial interest in the subject matter of the requested records to determine whether the records requested in whole or part are exempt from disclosure under § 286.6 or should be released as a matter of discretion.

(e) The extension of time for responding to an initial request must be approved on a case by case basis by the final appellate authority for the component or in accordance with regulations of the component which establish guidance governing the circumstances in which such extensions may be granted.

(f) When a request for a record or records is denied in whole or part the designated official who has made that determination shall explain to the requester in writing (with at least one additional copy) the basis for the determination and of the opportunity and procedures for appealing that determination to a higher final authority within the component.

(1) Inability to process any part of the request within the specified time should be explained to the requester, with notification that he may treat this delay as an initial denial with a right to appeal, that he may agree to await a substantive response by an anticipated date. It should be made clear that any such agreement does not prejudice the right of the requester to appeal the initial decision after it is made.

(2) The explanation of the substantive basis for a denial shall include both specific citation of the statutory exemption applied pursuant to § 286.6 and a discussion of the significant and legitimate governmental purpose served by invoking an exemption. Reference to the marking "for official use only" on the requested record does not constitute a proper citation or explanation of the basis for invoking an exemption.

(3) The name and title or position of the official responsible for the denial shall be included in the written response to the requester.

(4) When the initial denial is based in whole or part on a security classification pursuant to § 286.6(c)(1) or § 286.6(c)(3), the explanation shall include a summary of the paragraph or paragraphs contained in DoD Directive 5200.1, "DoD Information Security Program," June 1, 1972, and DoD Regulation 5200.1–R, "DoD Information Security Program Regulation," November 15, 1973 (32 CFR 159), or other authoritative classification guidance which set forth the criteria or rationale for the current classification of the requested record, along with the reasons that demonstrate the logical relationship between the content of the requested record and the summarized criteria or rationale.

(5) Copies of all initial denials shall be maintained by each component in a form suitable for rapid retrieval, periodic statistical compilation, and management evaluation.

(g) If the official designated by the component to make initial determinations on requests for records declines to provide a record because he considers it exempt, and its withholding justified for a significant and legitimate governmental purpose, that decision may be appealed by the requester in writing to the head of the component having jurisdiction over the record or his designee for this purpose, along with a copy of the letter denying the initial request. Such appeals should contain the basis for disagreement with the initial refusal. In addition, the component may impose a reasonable time limit of not less than forty (40) days for filing an appeal.

(h) Final determination on appeals shall normally be made within twenty (20) working days of the receipt of the appeal by the official designated to make the decision. Misdirected appeals will be forwarded promptly to the proper appellate authority with the period for response commencing upon his receipt. If additional time is needed to decide the appeal because of unusual circumstances, as described in paragraph (d), the final determination may be delayed for the number of working days, not to exceed ten (10), which were not utilized as additional time for responding to the initial request.

(i) Final refusal to provide a requested record must be made in writing by the head of the component having jurisdiction over it, or by his designee for that purpose. Such a refusal shall be made in accordance with appeal procedures prescribed in regulations that shall include, as a minimum, the following elements:

(1) The basis for the refusal shall be explained to the requester, in writing, both with regard to the applicable statutory exemption invoked pursuant to § 286.6 and the significant and legitimate government purpose served by its withholding. More particularly:

(i) When the final refusal is based in whole or part on a security classification, pursuant to § 286.6(c)(1) or § 286.6(c)(3):

(A) The explanation shall include a determination that the record meets the cited criteria and rationale of DoD Directive 5200.1, "DoD Information Security Program," June 1, 1972, and DoD Regulation 5200.1–R, "DoD Information Security Program Regulation," November 15, 1973 (32 CFR 159), or other authoritative classification guidance, and that this determination is based on a declassification review, with an explanation of why that review confirmed the continuing validity of the security classification.

(B) The requester shall be advised of his optional right to seek review by the Interagency Classification Review Committee of a final denial by the head of a component or his designee on the basis of continued security classification. This review is in accordance with Executive Order 11652, March 8, 1972, and is in lieu of immediate judicial review.

(ii) The written final denial shall include the name and title or position of the official responsible for the denial and of the provision for judicial review of the denial as set forth in § 286.14.

(2) Final refusal ordinarily should not be made without prior consultation with the Office of the General Counsel of the Department of Defense when there is reason to believe that the requester will file a complaint in a U.S. District Court to force release of the refused record.

(3) Copies of all final denial letters shall be maintained by each component in a central repository. Whenever a complaint is filed in a U.S. District Court to force release of a record, a copy of the final denial letter from the component shall be forwarded to the General Counsel of the Department of Defense, together with a copy of the requester's complaint, and followed by such portions of the litigation report prepared by the

XUM V40139 FEB2675 XUM

component for the Department of Justice as may be necessary to understand the legal basis for the denial.

(4) When the refusal to provide the record is based in whole or part on a security classification, pursuant to § 286.6(c)(1) or § 286.6(c)(3), the litigation report shall include an affidavit from the head of the component or his designee for this purpose, explaining in as much detail as national security interests permit the basis under applicable statute, executive order and regulations for the current security classification of the requested record.

(j) The costs of searching for and duplicating a requested record must be paid or waived in accordance with § 286.10. The time limits for responding to requests begin to run upon receipt from the requester of clear evidence of willingness to pay any anticipated search and duplication costs under the schedule of fees set forth in § 286.10 for providing the requested record. The record need not be forwarded until actual receipt of payment.

(k) The time limits for responding to requests for records are, in summary, and subject to the conditions set forth in the previous paragraphs, as follows:

(1) Initial Responses—Ten (10) working days.

(2) Appeals for Denial—Twenty (20) working days.

(3) Extension of time available under certain circumstances for either the initial or final determination, but not both—ten (10) working days.

§ 286.14 Judicial action.

(a) A requester has exhausted his administrative remedy after he has been refused a record by the head of a component or his designee or when the component fails to respond to his request within any of the time limits set forth in § 286.13. The requester may then seek an order from a United States District Court (1) in the district in which he resides or has his principal place of business; (2) in the district in which the record is situated to produce the record; or (3) in U.S. District Court for the District of Columbia.

(b) The burden is on the component to justify its refusal to produce the record, and its justification will be evaluated *de novo* by the district court, which may examine any requested record in camera to determine whether the denial of the record, in whole or part, is justified under 5 U.S.C. 552, as amended by Pub. L. 93–502.

(c) The United States must answer or otherwise plead to the complaint within thirty days. Consideration of such cases by both trial courts and courts of appeal will be expedited in every way; except as to cases the court considers of greater importance.

(d) A court may retain jurisdiction and allow a component additional time to complete its review of records to determine their availability to the requester when the component demonstrates due diligence in exceptional circumstances.

(e) If the court orders production of a record and the responsible official designated in accordance with § 286.7 refuses to produce it, the court has statutory authority to punish the official whose decision and order govern the determination of whether to release the record. In addition, the court may assess against the United States reasonable attorney fees and other litigation costs when the requester has substantially prevailed. In such situations the court may also issue a written finding that the circumstances of withholding raise a question of whether agency personnel have acted arbitrarily or capriciously and the Civil Service Commission must determine whether disciplinary action against responsible agency officials, or employees is warranted.

§ 286.15 Reporting requirement.

(a) Each component shall prepare an annual report for the preceding calendar year on its implementation of 5 U.S.C. 552, as amended by Pub. L. 93–502, of this Part.

(b) Six copies of the annual report shall be furnished to the ASD(PA) on or before February 1 of each year for transmittal to the Speaker of the House of Representatives and to the President of the Senate.

(c) The annual report shall contain the following:

(1) The number and reasons for initial denial of records requested from the component.

(2) The number of appeals from initial denials and the disposition of each such appeal; with the reasons for any final denial of records requested from the component.

(3) The names and titles or positions of each person primarily responsible for an initial denial or for a final denial on appeal of a request for a record under 5 U.S.C. 552, as amended by Pub. L. 93–502, and the number of such denials by each such person.

(4) The results of any disciplinary proceeding, including an explanation of a decision not to discipline, that was initiated against an officer or employee because a court determined that a record requested from the component was arbitrarily or capriciously withheld.

(5) A copy of current component regulation implementing 5 U.S.C. 552, as amended by Pub. L. 93–502, and this Part.

(6) A copy of the component fee schedule for search and duplication of requested records, and the total amount collected for this purpose, as accurately as reasonably can be determined.

(7) A brief description of every court case brought against the component to force it to release or withhold a record requested under 5 U.S.C. 552, as amended by Pub. L. 93–502, including the status of the case; whether attorney fees have been awarded to the private party; and whether the court found that the circumstances of withholding raised questions of arbitrary and capricious personnel conduct.

(8) A description of all efforts undertaken by the component or by personnel of the component to instruct and educate employees or the public on the requirements of 5 U.S.C. 552, as amended by Pub. L. 93–502, and this Part.

(9) Such data on the costs of processing requests under 5 U.S.C. 552, as amended by Pub. L. 93–502, as can reasonably be ascertained or estimated.

(10) Any other information that demonstrates efforts by the component to implement 5 U.S.C. 552, as amended by Pub. L. 93–502, including problems with the implementation and any proposed solutions for those problems.

(11) This reporting requirement is assigned Report Control Symbol DD–PA (A) 1365.

§ 286.16 Release and authentication of copies of official records.

(a) Records available to a person requesting them under § 286.5 of this Part shall be authenticated with an appropriate seal whenever necessary to fulfill an official governmental or other legal function.

(b) Subject to the provisions of DoD Directive 5200.1, "DoD Information Security Program," June 1, 1972, and DoD Regulation 5200.1–R, "DoD Information Security Program Regulation," November 15, 1973 (32 CFR 159); applicable to classified information, records exempt from release under § 286.6 to a person requesting them may, nevertheless, be authenticated on request and released in accordance with component regulations to local, state, or other Federal governmental bodies, whether legislative, executive, administrative, or judicial, as follows:

(1) To the courts; whenever ordered as appropriate to the proper administration of justice.

(2) To the Congress; in accordance with DoD Directive 5400.4, "Provision of Information to Congress," February 20, 1971.[1]

(3) To local and state legislative bodies; in accordance with the determination of the head of the component or his designee.

(4) To other Federal agencies, both executive and administrative, as determined by the head of the agency or his designee, as consistent with efficient administration and in accordance with law, including 5 U.S.C. 552a (The Privacy Act of 1974), which becomes effective on September 27, 1975.

(5) To local and state executive and administrative agencies as determined by the head of the component or his designee.

MAURICE W. ROCHE,
Director, Correspondence and Directives OASD Comptroller.

FEBRUARY 24, 1975.

Title 15—Commerce and Foreign Trade

CHAPTER III—DOMESTIC AND INTERNATIONAL BUSINESS ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 373—SPECIAL LICENSING PROCEDURES

PART 376—SPECIAL COMMODITY POLICIES AND PROVISIONS

Distribution and Export Licenses

DELETION OF DOLLAR-VALUE LIMITATION ON DISTRIBUTION LICENSES

Applicants for Distribution Licenses (§ 373.3) have been required to indicate dollar values for the commodities they intended to ship during the validity period of the license. Modifications to the procedure and computerized accounting for shipments have diminished the need for these value estimates. Consequently, values need not be shown on future applications for Distribution Licenses.

ESTABLISHMENT OF SPECIAL REQUIREMENTS FOR MACHINE TOOLS AND/OR NUMERICAL CONTROLS

The *Export Administration Regulations* are revised to require certain essential information relating to performance characteristics of machine tools and/or numerical controls (Export Control Commodity Nos. 71510 and 7295) on applications for licenses for export to Country Groups Q, W, or Y. Previously, the issuance of an export license has often been delayed pending receipt of this information.

PARTS, COMPONENTS, AND MATERIALS IN FOREIGN-MADE END PRODUCTS

The *Export Administration Regulations* (§ 376.12) state that the use abroad of U.S.-origin parts and components in the manufacture or production of foreign-made end products is subject to the export control laws of the United States. Prior written authorization from the Office of Export Administration to use U.S.-origin parts and components in the manufacture or production of a foreign-made end product that is to be exported from the country of manufacture has not been required when the end product, if it were of U.S. origin, could be exported from the United States to the new country of destination under General License *G-DEST*.

The *Export Administration Regulations* are now revised to indicate that prior written authorization from the Office of Export Administration is not required when *either* the U.S.-origin parts and components, *or* the foreign-made end product if it were of U.S.-origin, could be exported from the United States to the new country of destination under General License *G-DEST*.

1. Accordingly, the Export Administration Regulations (15 CFR Part 373) are amended by deleting and reserving paragraph (d)(3)(ii)(e) and revising paragraphs (d)(3)(ii)(*g*), (h)(1) and (k) to read as follows:

§ 373.3 Distribution license.

• • • • •

(d) • • •
(3) • • •
(ii) • • •
(*e*) [Reserved]

• • • • •

(*g*) Leave blank the space entitled "Quantity To Be Shipped," "Export Control Commodity No. and Processing No.," "Unit Price," and "Total Price."

• • • • •

(h) *Export Clearance*—(1) Value of shipments. There is no value limitation on shipments under a valid distribution license. The value of each shipment must be shown on the Shipper's Export Declaration.

• • • • •

(k) *Amendment of License*—If the exporter desires to add a new consignee, he should file a Form DIB–678P or FC–1143 together with Form IA–763, Request for and Notice of Amendment Action (see Supplement S–4 for facsimile of form) in accordance with the provisions of § 372.11. If the new consignee is a foreign government agency, a Form DIB–678P or FC–1143 need not be submitted, but this fact must be entered in the "Amend License to Read as Follows" space on the Form IA–763. An amendment request to extend the validity period of an existing Distribution License shall be submitted on Form IA–763, every other renewal period, supported by the following certification:

I (We) certify that all the facts and intentions set forth in our previously submitted comprehensive narrative statement remain the same, except (enter the word "none", or specify the changes).

In addition, any new consignees added to the license must be documented by submitting a Form DIB–678P or FC–1143. The extended validity period will be of two-year duration unless a one-year period is specifically requested. In those years when renewal by Form IA–763 will not be allowed, a complete new application must be submitted in accordance with the provisions of § 373.3(d)(3).

• • • • •

2. Accordingly, the Export Administration Regulations (15 CFR Part 376) are amended by adding new § 376.11 to read as follows:

§ 376.11 Machine tools and/or numerical controls.

An application for a license to export or reexport machine tools and/or numerical controls (Export Control Commodity Numbers 71510 and 7295) to Country Groups Q, W, and Y shall include the following information as applicable:

(a) *Machine tools*—(1) Name and model number;

(2) Type;

(3) The number of continuous path controlled axes;

(4) The number of machine axes that can be simultaneously controlled in a contouring mode regardless of the number of axes that are simultaneously controlled by the control system;

(5) The number of positioning axes;

(6) The slide travel for each axis (X, Y, Z, U, V, W, R, or Other);

(7) The guaranteed no load positioning accuracy of each slide over total travel (X, Y, Z, U, V, W, R, or Other);

(8) The spindle horsepower;

(9) The maximum variable controlled feedrate;

(10) The rapid traverse rate; and

(11) The number of working spindles.

(b) *Control systems*—(1) Name and model number;

(2) Specify whether CNC (Computerized Numerical Control);

(3) Specify whether completely hardwired;

(4) Specify read only memory;

(5) Specify number of simultaneously controlled contouring axes and Interpolation (Linear and/or Circular);

(6) Specify number of simultaneously controlled contouring axes that can be optionally procured with this control system and Interpolation (Linear and/or Circular);

(7) The number of positioning axes;

(8) Specify the minimum programable increment for each axis;

(9) Specify tape reader speed in characters per second;

(10) Specify whether buffered storage;

(11) Specify incorporation of interface for direct computer input;

(12) Describe any software to be supplied as part of the transaction; and

(13) Describe optional accessories that are to be included as part of the subject control system.

3. Accordingly, the Export Administration Regulations (15 CFR Part 376) are amended by revising the Note in § 376.12 to read as follows:

§ 376.12 Parts, components, and materials in foreign-made end products.

• • • • •

NOTE.—Consistent with the provisions of § 374.2, regarding permissive reexports, prior written authorization is *not* required from the Office of Export Administration for the incorporation abroad of U.S.-origin parts and components in a foreign-made end product that will be exported to another country, *provided* that either the U.S.-origin parts and components, or the end product if it were of United States origin, could be exported from the United States to the new country of destination under General License *G-DEST*.

Effective date: The above actions are effective February 21, 1975.

RAUER H. MEYER,
Director, Office of Export Administration.

Title 41—Public Contracts and Property Management

CHAPTER 105—GENERAL SERVICES ADMINISTRATION

[ADM 7900.2 CHGE 2]

PART 105–60—PUBLIC AVAILABILITY OF AGENCY RECORDS AND INFORMATIONAL MATERIALS

GSA Regulations Pursuant to "Freedom of Information Act"

The following is an extensive revision of existing General Services Administration regulations pertaining to the Freedom of Information Act primarily to implement the Freedom of Information Act Amendments of 1974, and to make other changes.

Part 105–60 is revised as follows:

Sec.
105–60.000 Scope of part.

Subpart 105–60.1—General Provisions

105–60.101 Purpose.
105–60.102 Application.
105–60.103 Definitions.
105–60.104 Policy.
105–60.104–1 Availability of records and other informational materials.
105–60.104–2 Exemptions.
105–60.105 Congressional information.
105–60.106 Records of other agencies.
105–60.107 Records involved in litigation or other judicial process.
105–60.108 Inconsistent issuances of GSA superseded.

Subpart 105–60.2—Publication of General Agency Information and Rules in the Federal Register

105–60.201 Published information and rules.
105–60.202 Published materials available for sale to the public.
105–60.203 Effect of failure to publish.
105–60.204 Coordination of publication.
105–60.205 Incorporation by reference.

Subpart 105–60.3—Availability of Opinions, Orders, Policies, Interpretations, Manuals, and Instructions

105–60.301 General.
105–60.302 Available materials.
105–60.303 Rules for public inspection and copying.
105–60.304 Deletion of identifying details.
105–60.305 Index.
105–60.306 Effect of failure to make informational materials available.
105–60.307 Fees.
105–60.307–1 Scope of section.
105–60.307–2 Record material available without charge.
105–60.307–3 Copy of GSA records available at a fee.
105–60.307–4 Exemptions from fee.
105–60.307–5 Searches.
105–60.307–6 Prepayment of fees over $25.
105–60.307–7 Form of payment.
105–60.307–8 Fee schedule.

Subpart 105–60.4—Described Records

105–60.401 General.
105–60.402 Procedures for making records available.
105–60.402–1 Submission of requests for described records.
105–60.402–2 Review of requests.
105–60.402–3 Approval of requests.
105–60.403 Denial of request for records.
105–60.404 Appeal within GSA.
105–60.405 Extension of time limits.
105–60.406 Exhaustion of administrative remedies.
105–60.407 Judicial relief available to the public.
105–60.408 Disciplinary action against employees for "arbitrary or capricious" denial.
105–60.409 Contempt for noncompliance.

Subpart 105–60.5—Exemptions

105–60.501 General.
105–60.502 Categories of records exempt from disclosure under 5 U.S.C. 552.
105–60.503 Executive privilege exemption.

Subpart 105–60.6—Subpoenas or Other Legal Demands for Records and Authentication of Copies of Records

105–60.601 Service of subpoena or other legal demand.
105–60.601–1 GSA records.
105–60.601–2 Records transferred to the National Archives and Records Service.
105–60.602 Compliance with subpoena or other legal demand.
105–60.603 Authentication and attestation of copies.

Subpart 105–60.7—Annual Report

105–60.701 Time and requirements.

AUTHORITY: The provisions of this Part 105–60 are issued under section 205(c) of the Federal Property and Administrative Services Act of 1949, as amended, 63 Stat. 390, 40 U.S.C. 486(c); and 5 U.S.C. 552 (Pub. L. 90–23, as amended by Pub. L. 93–502).

§ 105–60.000 Scope of part.

This part sets forth policies and procedures concerning the disclosure and availability to the public of records and information held by GSA with respect to: (a) Agency organization, functions, decisionmaking channels, and rules and regulations of general applicability, (b) agency final opinions and orders, including policy statements and staff manuals, (c) operational and other appropriate agency records, and (d) agency proceedings. The part also covers exemptions from disclosure of such materials, procedures for the guidance of the public in obtaining information and inspecting records, service or subpoena or other legal demand with respect to records, and authentication and attestation of record copies.

Subpart 105–60.1—General Provisions

§ 105–60.101 Purpose.

This Part 105–60 implements the provisions of 5 U.S.C. 552 (Pub. L. 90–23, which codified Pub. L. 89–487, popularly known as the "Freedom of Information Act," which amended section 3 of the Administrative Procedure Act, formerly 5 U.S.C. 1002 (1964 ed.); and Pub. L. 93–502, popularly known as the "Freedom of Information Act Amendments of 1974"). This part prescribes procedures under which the public may obtain information and inspect records of GSA.

§ 105–60.102 Application.

This Part 105–60 applies to all records and informational materials generated, developed, or held by GSA which come within the purview of 5 U.S.C. 552, as amended.

§ 105–60.103 Definitions.

For purposes of this Part 105–60, the following terms have the meanings ascribed to them in this section.

(a) *Records.* The term "records" means all books, papers, maps, photographs, or other documentary materials, regardless of physical form or characteristics made or received by GSA in pursuance of Federal law or in connection with the transaction of public business and preserved or appropriate for preservation as evidence of the organization, functions, policies, decisions, procedures, operations, or other activities of GSA or because of the informational value of data contained therein. The term does not include:

(1) Library and museum material made or acquired and preserved solely for reference or exhibition purposes, extra copies of documents preserved only for convenience of reference, and stocks of publications and of processed documents; or

(2) Objects or articles, such as structures, furniture, paintings, sculpture, models, vehicles, or equipment; or

(3) Donated historical materials (as defined in § 105–61.001.4) accepted by GSA from a source other than an agency of the United States Government in accordance with the provisions of 44 U.S.C. 2107.

(b) *Availability.* The term "availability" signifies the right of the public to obtain information, purchase materials, and inspect and copy records and other pertinent information.

(c) *Reasonably described.* The term "reasonably described," when applied to a requested record, means identifying it to the extent that it will permit the location of the particular document with a reasonable effort.

(d) *Requester.* The term "requester" means any party who submits a written request for records pursuant to this part.

(e) *Agency.* The term "agency," as defined in section 552(e) of title 5, United States Code, includes any executive department, military department, Government corporation, Government-controlled corporation, or other establishment in the executive branch of the Government (including the Executive Office of the President), or any independent regulatory agency.

§ 105–60.104 Policy.

§ 105–60.104–1 Availability of records.

GSA records are available to the greatest extent possible in keeping with the spirit and intent of the Freedom of Information Act and will be furnished promptly to any member of the public upon request addressed to the office designated in § 105–60.402–1 at such fees as are specified in § 105–60.307. The person making the request need not have a particular interest in the subject matter, nor must he provide justification for the request. The requirement of 5 U.S.C. 552 that records be available to the public refers only to records in being at the time the request for them is made. The Freedom of Information Act imposes no

obligation to compile a record in response to a request, although where it is not burdensome to do so, GSA will endeavor to compile such requested information.

§ 105–60.104–2 Exemptions.

Requests for GSA records may be denied if disclosure is exempted under the provisions of 5 U.S.C. 552, as outlined in Subpart 105–60.5 or precluded by executive privilege (see § 105–60.503). Except when a record is classified or when disclosure would violate any other Federal statute, the authority to withhold a record from disclosure is permissive rather than mandatory. The authority for nondisclosure will not be invoked unless there is a compelling reason to do so. In the absence of such compelling reason, records and other information will be disclosed although otherwise subject to exemption.

§ 105–60.105 Congressional information.

Nothing in this Part 105–60 authorizes withholding information from the Congress except when executive privilege is invoked by the President. (See § 105–60.503.)

§ 105–60.106 Records of other agencies.

(a) *Other agencies' records managed and administered by GSA.* The availability of records of other agencies located in the National Archives of the United States and Federal Records Centers are governed by Part 105–61 (Public Use of Records, Donated Historical Materials, and Facilities in the National Archives and Records Service).

(b) *Current records of other agencies.* If a request is submitted to GSA to make available current records which are the primary responsibility of another agency, GSA will refer the request to the agency concerned for appropriate action. GSA will advise the requester that the request has been forwarded to the responsible agency.

§ 105–60.107 Records involved in litigation or other judicial process.

Where there is reason to believe that any records requested may be involved in litigation or other judicial process in which the United States is a party, including discovery procedures pursuant to the Federal Rules of Civil Procedure or Federal Rules of Criminal Procedure, the request shall be referred to appropriate legal counsel for immediate coordination with the Department of Justice.

§ 105–60.108 Inconsistent issuances of GSA superseded.

Any policies and procedures in any GSA issuance which are inconsistent with the policies and procedures set forth in this Part 105–60 are superseded to the extent of that inconsistency.

Subpart 105–60.2—Publication of General Agency Information and Rules in the Federal Register

§ 105–60.201 Published information and rules.

In accordance with 5 U.S.C. 552(a)(1), there are separately stated and currently published, or from time to time will be published, in the Federal Register, for the guidance of the public, the following general information concerning GSA:

(a) Description of the organization of the Central Office and regional offices and the established places at which, the employees from whom, and the methods whereby the public may obtain information, make submittals or requests, or obtain decisions.

(b) Statements of the general course and method by which GSA functions are channeled and determined, including the nature and requirements of all formal and informal procedures available.

(c) Rules of procedure, descriptions of forms available or the places at which forms may be obtained, and instructions as to the scope and contents of all papers, reports, or examinations.

(d) Substantive rules of general applicability adopted as authorized by law, and statements of general policy or interpretations of general applicability formulated and adopted by GSA.

(e) Each amendment, revision, or repeal of the materials described in this § 105–60.201.

§ 105–60.202 Published materials available for sale to the public.

Substantive rules of general applicability adopted by GSA as authorized by law which are published in the Federal Register and which are also available for sale to the public comprise the Federal Procurement Regulations, the General Services Administration Procurement Regulations, the Federal Property Management Regulations, regulations of the Office of Federal Management Policy, GSA, regulations of the Office of Preparedness, GSA, and the General Services Administration Property Management Regulations. These series of regulations are codified in titles 32, 32A, 34, and 41 of the Code of Federal Regulations and are also published in looseleaf volume form. The looseleaf version of the Federal Procurement Regulations is available for purchase from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, at prices established by that office. In addition, all of these regulations are available for sale by the Superintendent of Documents in (a) daily FEDERAL REGISTER form, and (b) in Code of Federal Regulations form, at prices established by that office.

§ 105–60.203 Effect of failure to publish.

5 U.S.C. 552(a)(1) provides that, except to the extent that a person has actual and timely notice of the terms thereof, a person may not in any manner be required to resort to, or be adversely affected by, a matter required to be published in the FEDERAL REGISTER and not so published. (See § 105–60.201.)

§ 105–60.204 Coordination of publication.

Coordination of GSA materials required to be published in the FEDERAL REGISTER in accordance with § 105–60.201 is accomplished by the Office of Administration, GSA.

§ 105–60.205 Incorporation by reference.

When deemed appropriate, matter covered by § 105–60.205 which is reasonably available to the class of persons affected thereby may be incorporated by reference in the FEDERAL REGISTER in accordance with standards prescribed from time to time by the Director of the FEDERAL REGISTER. (See 1 CFR Part 51; 37 FR 23614, November 4, 1972.)

Subpart 105–60.3—Availability of Opinions, Orders, Policies, Interpretations, Manuals, and Instructions

§ 105–60.301 General.

GSA makes available for public inspection and copying the materials described in 5 U.S.C. 552(a)(2), which are enumerated in § 105–60.302, and an index of those materials as described in § 105–60.305, at convenient locations and times. Central Office materials are situated in Washington, D.C.; some are also available at GSA regional offices. Each regional office has the materials of its region. All locations provide public reading rooms for the inspection and copying of documents. Reasonable copying services are furnished at fees specified in § 105–60.307.

§ 105–60.302 Available materials.

GSA materials which are available under this Subpart 105–60.3 are as follows:

(a) Final opinions, including concurring and dissenting opinions and orders, made in the adjudication of cases.

(b) Those statements of policy and interpretations which have been adopted by GSA and are not published in the FEDERAL REGISTER.

(c) Administrative staff manuals and instructions to staff that affect a member of the public; unless such materials are promptly published and copies offered for sale. (Any materials published and offered for sale will also be available in each reading room.)

§ 105–60.303 Rules for public inspection and copying.

(a) *Locations.* Reading rooms containing the materials available for public inspection and copying, described in § 105–60.302, are located in the following places:

Seattle, Washington (Comprising the States of Alaska, Idaho, Oregon, and Washington). Telephone: 206-442-5556.	Business Service Center, General Services Administration, 440 Federal Building, 915 Second Avenue, Seattle, WA 98174.

(b) *Time.* The reading rooms will be open to the public during the established hours of business.

(c) *Copying.* GSA will furnish reasonable copying services at fees specified in § 105-60.307. The fees will be posted at each reading room. In suitable circumstances, a member of the public may receive authorization to copy materials himself, under such procedures as the authorizing official, i.e., the Director of Information in the Central Office or the Regional Director of Business Affairs in the Regional Offices, may determine.

(d) *Reading Room rules*—(1) *Age.* Permission to inspect materials will not be given to a person under 16 years of age unless accompanied by an adult who agrees to remain with the minor while the materials are in use.

(2) *Handling of materials.* The unlawful removal or mutilation of materials is forbidden by law and is punishable by fine or imprisonment or both. When requested by a reading room attendant, a person inspecting materials must present for examination any briefcase, notebook, package, envelope, book, or other article that could contain GSA informational materials.

(3) *Reproduction Services.* The GSA Central Office Library or the Regional Business Service Centers will furnish reasonable reproduction services of materials available.

§ 105-60.304 Deletion of identifying details.

To the extent required to prevent a clearly unwarranted invasion of personal privacy, GSA may delete identifying details when making available or publishing an opinion, statement of policy, interpretation, or staff manual or instruction. However, the justification for each deletion will be explained fully in writing, and will require the concurrence of appropriate legal counsel. A copy of the justification will be attached to the material containing the deletion and a copy also will be furnished to the appropriate Regional Director of Business Affairs and the Director of Information (ALI).

§ 105-60.305 Index.

GSA will maintain and make available for public inspection and copying current indexes arranged by subject matter providing identifying information for the public regarding any matter issued, adopted, or promulgated after July 4, 1967, and described in § 105-60.302. GSA will publish quarterly and make available copies of each index or supplements thereto. The index will be maintained for public inspection in each reading room.

§ 105-60.306 Effect of failure to make informational materials available.

Materials available pursuant to § 105-60.302 that effect a member of the public may be relied upon, used, or cited as precedent by GSA against any private party only if (a) they have been indexed and either made available or published as required by 5 U.S.C. 552(a)(2), or (b) the private party has actual and timely notice of their terms.

§ 105-60.307 Fees.

§ 105-60.307-1 Scope of section.

This section sets forth policies and procedures to be followed in the assessment and collection of fees from a requester for the search and reproduction of GSA records.

§ 105-60.307-2 Record material available without charge.

Each GSA reading room provides a rack displaying GSA records available to the public in that region. Normally, material related to bids (excluding construction plans and specifications) and any material displayed on the rack may be obtained without charge upon request.

§ 105-60.307-3 Copy of GSA records available at a fee.

One copy of GSA records not available free of charge will be provided at a fee as provided in § 105-60.307-8. A reasonable number of additional copies will be provided for the applicable fee where reproduction services are not readily obtainable from private commercial sources.

§ 105-60.307-4 Exemptions from fee.

When the Director of Information or Regional Director of Business Affairs handling the request for GSA records determines that at least one of the following conditions exists, he shall waive the fee requirement and provide one copy of the GSA records without charge to the requester:

(a) When the incremental cost of collecting the fee would be an unduly large part of or an amount greater than the fee;

(b) When the reproduction is for a foreign, state, or local Government or international agency and furnishing it without charge is an appropriate courtesy; or

(c) When furnishing the records without charge conforms to generally established business custom, such as furnishing personal reference data to prospective employers of former employees.

§ 105-60.307-5 Searches.

(a) The time spent in the following activities may be computed in determining "search time" subject to applicable fees as provided in § 105-60.307-8:

(1) Time spent in trying to locate GSA records which come within the scope of the request;

(2) Time spent either in transporting a necessary agency searcher to a place of record storage or in transporting records to the location of a necessary agency searcher (GSA must document in writing the necessity of transporting either the searcher or the records); and

(3) Direct costs involving the use of computer time to locate and extract requested records.

(b) The time spent in the following activities may not be computed in determining search time subject to applicable fees as provided in § 105-60.307-8:

(1) Time spent in examining a requested record for the purpose of determining whether an exemption can and should be asserted;

(2) Time spent in deleting exempt matter being withheld from records to be made available;

(3) Time spent in monitoring a requester's inspection of agency records made available to him; and

(4) Time spent in operating reproduction facilities.

§ 105-60.307-6 Prepayment of fees over $25.

(a) When the Director of Information or Regional Director of Business Affairs handling a request for GSA records determines that the anticipated total fee (search and reproduction) is likely to exceed $25, he shall notify the requester that he must prepay the anticipated fee prior to GSA's making the records available. GSA will remit the excess paid by the requester or bill the requester for an additional amount according to variations between the final fee charged and the amount prepaid.

(b) When a GSA official notifies a requester of the necessity of prepayment as provided in paragraph (a) of this subsection, the official also shall notify the requester that the computation of the applicable time limits for GSA's response to an initial request for records or an appeal will be suspended from the mailing date of the notification until the receipt of the prepayment.

§ 105-60.307-7 Form of payment.

Payment shall be by check or money order payable to the General Services Administration and shall be addressed to the official designated by GSA in correspondence with the requester or to the Director of Information for requests directed to the central office or to the Regional Director of Business Affairs for regional requests.

§ 105-60.307-8 Fee schedule.

In computing applicable fees, GSA will consider only the following costs in providing the requested records.

(a) *Reproduction fees.* (1) The fee for reproducing copies of GSA records (by routine electrostatic copying) up to and including material 8½ x 14 inches shall be $0.10 per page.

(2) The fee for reproducing copies of GSA records over 8½ x 14 inches or whose physical characteristics do not permit reproduction by routine electrostatic copying shall be the direct cost of reproducing the records through Government or commercial sources.

(b) *Search fees.* (1) The standard search fee shall be $4 per hour or fraction thereof beyond the initial half hour used to locate the requested records.

(2) When professional staff must be used to search for the requested records because clerical staff would be unable to locate them, the search fee shall be $8 per hour or fraction thereof beyond the initial half hour used to locate the requested records.

(3) When the search includes non-personnel expenditures to locate and extract requested records, such as computer time or transportation expenses, the applicable fee shall be the direct cost to GSA.

Subpart 105-60.4—Described Records

§ 105-60.401 General.

(a) Except for records made available pursuant to Subparts 105-60.2 and 105-60.3, GSA shall promptly make records available to a requester pursuant to a request which reasonably describes such records unless GSA invokes an exemption pursuant to § 104-60.104-2. Although the burden of reasonable description of the records rests with the requester, GSA will assist in identification to the extent practicable. Where requested records may be involved in litigation or other judicial proceedings in which the United States is a party, the procedures set forth under § 105-60.107 shall be followed.

(b) Upon receipt of a request which does not reasonably describe the records requested, GSA may contact the requester to seek a more specific description. The 10 day time limit set forth in § 105-60.402-2 will not start until a request reasonably describing the records is received in the office of the appropriate official identified in § 105-60.402-1.

§ 105-60.402 Procedures for making records available.

This section sets forth initial procedures for making records available when they are requested. These procedures do not apply to records of other agencies that have been transferred to the National Archives and Records Service in accordance with the Federal Records Act of 1950 (44 U.S.C. 2103 and 3103). The procedures on availability of these records are governed by Part 105-61.

§ 105-60.402-1 Submission of requests for described records.

(a) For records located in the GSA Central Office, requests shall be submitted in writing, to the Director of Information, General Services Administration, Washington, D.C. 20405. For records located in the GSA Regional Offices, requests shall be submitted to the Regional Director of Business Affairs for the relevant region, at the address listed in § 105-60.303(a). Requests should bear the legend, "FREEDOM OF INFORMATION REQUEST," prominently marked on both the face of the request letter and the envelope. The 10 day time limit for agency determinations set forth in 105-60.402-2 shall not start until a request is received in the office of the appropriate official identified in this paragraph. Misdirected requests shall be forwarded promptly to the appropriate official identified in this paragraph.

(b) The Director of Information shall respond to questions concerning the proper office to which Freedom of Information requests should be addressed.

§ 105-60.402-2 Review of requests.

(a) Upon receipt of a request for information, the Director of Information, for the Central Office, Washington, D.C., or the Regional Director for Business Affairs for a regional office, will forward the request to the GSA office which has custody of the record.

(b) Upon any request for records made pursuant to § 105-60.201, § 105-60.302, and § 105-60.401, the office having custody of the records shall determine within 10 days (excepting Saturdays, Sundays, and legal public holidays) after receipt of any such request in the office of the appropriate official identified in § 105-60.402-1 whether to comply with the request. If the request is approved, an official of the office having custody of the record shall promptly notify the requester.

§ 105-60.402-3 Approval of requests.

When a request is approved, records will be made available promptly in accordance with the terms of the request. Copies may be furnished or the records may be inspected at the reading rooms, as provided in § 105-60.303, or at such other places as the Director of Information or the Regional Director of Business Affairs shall prescribe.

§ 105-60.403 Denial of request for records.

(a) Each of the following officials within GSA, or any official acting for him, shall have the authority to make initial denials of requests for disclosure of records within his custody, and shall, in accordance with 5 U.S.C. 552(a)(6)(C), be the responsible official for denials of records made under this Part 105-60.

(2) Region Offices:

Regional Administrator

(b) If a request is denied, the appropriate official listed in paragraph (a) shall advise the requester within 10 days (excepting Saturdays, Sundays, and legal public holidays) of receipt of the request by the official specified in § 105–60.402–1 and furnish written reasons for the denial. The denial will (1) describe briefly the record or records requested, (2) state the legal basis for nondisclosure pursuant to Subpart 105–60.5, (3) state the name and titles or positions of the official responsible for the denial of such request, and (4) state the requester's appeal rights.

(c) In the event GSA cannot locate requested records the appropriate official specified in (a) above will inform the requester (1) that the agency has determined at the present time to deny the request because the records have not yet been found or examined, but (2) that the agency will review the request within a specified number of days, when the search or examination is expected to be complete. The denial letter will state the name and title or position of the official responsible for the denial of such request. In such event, the requester may file an agency appeal immediately, pursuant to § 105–60.404.

(d) To assure uniformity of determinations on information requested, the Director of Information shall be furnished a copy of each denial letter and the corresponding request.

§ 105–60.404 Appeal within GSA.

(a) A requester denied access, in whole or in part, to GSA records may appeal that decision within GSA. All appeals should be addressed to the Director of Information, General Services Administration, Washington, DC 20405, regardless of whether the denial being appealed was made by a central office official or a regional administrator.

(b) An appeal must be received in the Office of the Director of Information no later than thirty calendar days after receipt by the requester of the initial denial of access in the case of a total denial, or thirty calendar days after receipt by the requester of records made available in the case of a partial denial.

(c) An appeal must be in writing and should contain a brief statement of the reasons why the records should be released, and enclose copies of the initial request and denial. The appeal letter should bear the legend, "FREEDOM OF INFORMATION APPEAL," conspicuously marked on both the face of the appeal letter and on the envelope. GSA has twenty days (excepting Saturdays, Sundays and legal public holidays) after the receipt of an appeal to make a determination with respect to such appeal. The twenty day time limit shall not begin to run until the appeal is received in the Office of the Director of Information. Misdirected appeals should be promptly forwarded to that office.

(d) Upon receipt of an appeal, the Director of Information will consult with the official who made the initial denial and other appropriate central office and regional officials to consider the appeal. If the Director of Information, in consultation with these officials, determines that the appeal should be granted, he or such other agency official, as is appropriate, shall so notify the requester, and make the records available to him in accordance with § 105–60.402–3.

(e) If the Director of Information, in consultation with appropriate GSA officials, recommends that the appeal should be denied, he then shall arrange with the Office of General Counsel for consultation with appropriate officials of the Department of Justice. After consulting with the Department of Justice, the Director of Information will submit the appeal file to the Deputy Administrator for final administrative determination.

(f) The Deputy Administrator shall be the deciding official on all appeals except in those cases in which the initial denial was made by the Administrator or the Deputy Administrator. If the Deputy Administrator made the initial denial, the Administrator shall be the deciding official on appeal. If the Administrator made the initial denial, there shall be no right of appeal within GSA. In the absence of the Deputy Administrator, the Administrator will be the deciding official on all appeals.

(g) If an appeal is filed in response to a tentative denial pending location and/or examination of records, as described in § 105–60.403(c), GSA will continue to search for and/or examine the requested records and will issue a response immediately upon completion of the search and/or examination. Such action in no way suspends the time for GSA's response to the requester's appeal which GSA will continue to process regardless of the response under this subsection.

(h) If a requester files suit pending an agency appeal, GSA nonetheless will continue to process the appeal, and will furnish a response within the twenty day time limit set out in paragraph (c) above.

(i) If, on appeal, the denial of the request for records is in whole or in part upheld, the Deputy Administrator will promptly furnish his ruling in writing to the requester within the twenty day time limit set out in paragraph (c), above. The notification letter shall contain: (1) A brief description of the record or records requested; (2) a statement of the legal basis for nondisclosure; (3) a statement of the name and title or position of the official or officials responsible for the denial of the initial request as described in § 105–60.403(a) and the denial of the appeal as described in paragraph (f) above; and (4) a statement of the requester's rights of judicial review.

§ 105–60.405 Extension of time limits.

In unusual circumstances as specified in this section, the time limits prescribed in § 105–60.402–2 and § 105–60.404(c) may be extended by the Director of Information. GSA will provide written notice to the requester setting forth the reasons for such extension and the date on which a determination is expected. Such notice will specify no date that would result in an extension of more than ten work days. In unusual circumstances, the Director of Information may authorize more than one extension, divided between the initial request stage, described in § 105–60.404, but in no event will the combined periods of extension exceed ten work days. As used in this subsection, "unusual circumstances" means, but only to the extent reasonably necessary to the proper processing of the particular request:

(a) The need to search for and collect the requested records from field facilities or other establishments that are separate from the office processing the request; or

(b) The need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are demanded in a single request; or

(c) The need for consultation, which shall be conducted with all practicable speed, with another agency having a substantial interest in the determination of the request or among two or more components of the agency having substantial subject matter interest therein.

§ 105–60.406 Exhaustion of administrative remedies.

Any person making a request to GSA for records under § 105–60.201, § 105–60.302, or § 105–60.401 shall be deemed to have exhausted his administrative remedies with respect to the request if the agency fails to comply with the applicable time limit provisions set forth in §§ 105–60.402–2 and 105–60.404.

§ 105–60.407 Judicial relief available to the public.

(a) Upon denial of a requester's appeal by the Deputy Administrator, the requester may file a complaint in a district court of the United States in the district in which the complainant resides, or has his principal place of business, or in which the agency records are situated, or in the District of Columbia, pursuant to 5 U.S.C. 552(a)(4)(B).

(b) The Administrator of GSA will be the named defendant in any action filed under this Part 105–60.

§ 105–60.408 Disciplinary action against employees for "arbitrary or capricious" denial.

Pursuant to 5 U.S.C. 552(a)(4)(F), whenever the district court, described in § 105–60.407, orders the production of any GSA records improperly withheld from the complainant and assesses against the United States reasonable

attorney fees and other litigation costs, and the court additionally issues a written finding that the circumstances surrounding the withholding raise questions whether GSA personnel acted arbitrarily or capriciously with respect to the withholding, the Civil Service Commission is required to initiate a proceeding to determine whether disciplinary action is warranted against the officer or employee who primarily was responsible for the withholding. The Civil Service Commission, after investigation and consideration of the evidence submitted, submits its findings and recommendations to the Administrator of General Services and sends copies of the findings and recommendations to the officer or employee or his representative. The law requires the Administrator to take any corrective action which the Civil Service Commission recommends.

§ 105–60.409 Contempt for noncompliance.

In the event of noncompliance by GSA with an order of a district court pursuant to § 105–60.407, the district court may punish for contempt the GSA employee responsible for the noncompliance, pursuant to 5 U.S.C. 552(a)(4)(G).

Subpart 105–60.5—Exemptions

§ 105–60.501 General.

The exemptions enumerated in 5 U.S.C. 552(b), under which the provisions for availability of records and informational materials will not apply, are general in nature. GSA will decide each case on its merits in accordance with the GSA policy expressed in § 105–60.104.

§ 105–60.502 Categories of records exempt from disclosure under 5 U.S.C. 552.

5 U.S.C. 552(b) provides that the requirements of the statute do not apply to matters that are:

(a) Specifically authorized under criteria established by an Executive Order to be kept secret in the interest of national defense or foreign policy and are, in fact, properly classified pursuant to such Executive Order.

(b) Related solely to the internal personnel rules and practices of an agency.

(c) Specifically exempted from disclosure by statute.

(d) Trade secrets and commercial or financial information obtained from a person and privileged or confidential.

(e) Inter-agency or intra-agency memorandums or letters which would not be available by law to a party other than an agency in litigation with the agency.

(f) Personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

(g) Investigatory records compiled for law enforcement purposes, but only to the extent that the production of such records would:

(1) Interfere with enforcement proceedings;

(2) Deprive a person of a right to a fair trial or an impartial adjudication;

(3) Constitute an unwarranted invasion of personal privacy;

(4) Disclose the identity of a confidential source and, in the case of a record compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation, confidential information furnished only by the confidential source;

(5) Disclose investigative techniques and procedures; or

(6) Endanger the life or physical safety of law enforcement personnel.

(h) Contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of an agency responsible for the regulation or supervision of financial institutions.

(i) Geological and geophysical information and data, including maps, concerning wells.

Any reasonably segregable portion of a record shall be provided to any person requesting the record after deletion of the portions which are exempt under this section.

§ 105–60.503 Executive privilege exemption.

Where application of the executive privilege exemption is desired, the matter shall be forwarded to the Administrator for consideration. If the request for information is Congressional, only the President may invoke the exemption. Presidential approval is not necessarily required if the request for information is in connection with judicial or adjudicatory proceedings or otherwise. In connection with judicial proceedings, the response shall be coordinated with the Department of Justice.

Subpart 105–60.6—Subpoenas or Other Legal Demands for Records and Authentication of Copies of Records

§ 105–60.601 Service of subpoena or other legal demand.

§ 105–60.601–1 GSA records.

(a) A subpoena duces tecum or other legal demand for the production of records held by GSA should be addressed to the appropriate Regional Director of Business Affairs or Regional Administrator with respect to regional records; to the Director of Information, General Services Administration, Washington, DC 20405, with respect to Central Office records; or to the Administrator of General Services.

(b) The General Counsel, Deputy General Counsels, Assistant General Counsels, and, with respect to records in a GSA regional office, the Regional Counsel are authorized to accept services of a subpoena duces tecum or other legal demand on behalf of the officials designated in paragraph (a) of this section.

(c) When such a subpoena or demand is served on any officer or employee of GSA other than as provided in paragraphs (a) and (b) of this section, unless otherwise directed by the Administrator, he shall decline respectfully to produce such records on the ground that he is without authority under this Subpart 105–60.6 to do so.

§ 105–60.601–2 Records transferred to the National Archives and Records Service.

(a) Access to records transferred to a Federal Records Center (§ 105–61.001–3) is controlled by the instructions and restrictions imposed on GSA by the Federal agency which transferred the records to the Federal Records Center. Accordingly, a subpoena duces tecum or other legal demand for the production of these records will be honored by GSA if no restrictions have been imposed by the transferring agency. On the other hand, where restrictions have been imposed by the transferring Federal agency, the authority issuing the subpoena or other legal demand will be notified of that fact and be requested to take up the matter further with the transferring agency since GSA must decline to release the records. The subpoena or other legal demand for these records may be served only on the Administrator of General Services, the Archivist of the United States, the General Counsel, a Regional Administrator or a Regional Counsel, as appropriate, or the manager of the Federal Records Center in which the records are stored. Any such demands will be reported to the agency whose records are involved.

(b) A subpoena duces tecum or other legal demand for the production of records designated as "archives" or "donated historical materials" administered by the National Archives and Records Service (§§ 105–61.001–2 and 105–61.001–4) may be served only on the Administrator of General Services, the Archivist of the United States, the General Counsel, or the appropriate Assistant Archivist or, as appropriate, on a Regional Administrator, a Regional Counsel, a manager of a Federal Records Center, or a Director of a Presidential Library.

(c) When such a subpoena or demand is served on any officer or employee of GSA other than as provided in paragraphs (a) and (b) of this § 105–60.601–2, he shall, unless otherwise directed by the Administrator, respectfully decline to produce such records on the ground that he is without authority under this Subpart 105–60.6 to do so.

§ 105–60.602 Compliance with subpoena or other legal demand.

(a) Officials served with subpoenas will comply with the subpoena or demand insofar as it is practicable by submitting authenticated copies of the records. Original records should be provided only if necessary.

(b) The served official or the Administrator of General Services may determine that such demanded records will be denied. In the event of a determination to deny, the served official should seek the assistance of legal counsel.

§ 105–60.603 Authentication and attestation of copies.

The Head of the Service or Staff Office having the records, the General

XUM

XUM

Counsel, Deputy General Counsels, and Assistant General Counsels, or if the records are in a GSA regional office, the Regional Administrator, the Head of the Regional Service or Staff Office concerned, and the Regional Counsel, are authorized to authenticate and attest, for and in the name of the Administrator of General Services, copies of reproductions of the records. Appropriate fees will be charged for such copies or reproductions. (See § 105–60.307.) With respect to records transferred to the National Archives and Records Service, authentication and attestation and fee procedures set forth in Subpart 105–61.52 will be followed.

Subpart 105–60.7—Annual Report

§ 105–60.701 Time and requirements.

On or before March 1 of each calendar year, GSA shall submit to the Speaker of the House of Representatives and President of the Senate, for referral to the appropriate committees of the Congress a report on GSA's implementation of 5 U.S.C. 552 which covers the preceding calendar year. Procedures for preparation of this Freedom of Information Annual Report are in GSA Order ADM 1035.

Effective date: This regulation is effective February 19, 1975.

ARTHUR F. SAMPSON,
Administrator of General Services.

FEBRUARY 21, 1975.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 52]

CANNED DRIED BEANS (OTHER THAN PORK AND BEANS)

Proposed Grade Standards

Notice is given that the United States Department of Agriculture is considering a revision of the United States Standards for Grades of Canned Dried Beans (7 CFR, 52.411–52.424). These grade standards are issued under the authority of the Agricultural Marketing Act of 1946 (Sec. 205, 60 Stat. 1090, as amended; 7 U.S.C. 1624) which provides for the issuance of official U.S. grades to designate different levels of quality for the voluntary use of producers, buyers, and consumers. Official grading services are also provided under this act upon request and upon payment of a fee to cover the cost of such services.

NOTE.—Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act, or with applicable State laws and regulations.

All persons who desire to submit written views, data, or arguments for consideration in connection with the proposed revision should file the same in duplicate, not later than April 15, 1975 with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250. All written submissions made under this notice will be available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR, 1.27(b)).

Statement of consideration leading to the proposed revision of the standards.

The Department, on its own initiative, proposes to revise the U.S. Standards for Grades of Canned Dried Beans.

The U.S. Standards for Grades of Canned Dried Beans were first published to become effective January 10, 1934. Since 1934, the standards were revised only once—October 24, 1947. Since 1947, no major changes have been made in the standards.

The major portion of canned dried beans packed today, consists largely of canned pork and beans—which are popular among consumers. The current U.S. Standards for Grades of Canned Dried Beans include many types and styles other than pork and beans; thus, the standards do not adequately cover the attributes of canned pork and beans.

During an informal survey, conducted early in 1974, the Department received comments from two large processors of canned dried beans, indicating that a revision of the U.S. standards is desirable at this time.

Proposed changes are as follows:

(1) Remove canned pork and beans from the U.S. Standards for Grades of Canned Dried Beans. Canned pork and beans shall be considered under a separate proposal.

(2) Rewords the product description to provide for the addition of "safe and suitable" optional ingredients.

(3) Broadens the classifications of types and styles of canned dried beans, to include, pinto beans, pink beans, black beans, yelloweye beans, and garbanzos; and beans packed in highly seasoned sauces.

(4) Introduces a washed drained weight procedure and a recommended minimum washed drained weight that may be used to establish the amount of dried beans that should be present in a given container.

(5) Provides new criteria for the factors of similar varietal characteristics, consistency, flavor, color, and defects.

At the present time, the U.S. Standards for Grades of Canned Dried Beans are the only Federal standards that have been promulgated specifically for this product. In the absence of other Federal standards, the Department concludes that this proposal to revise the U.S. standards would provide useful criteria for the voluntary use of both producers and consumers. The proposed revision is as follows:

Sec.

52.411 Product description.
52.412 Types.
52.413 Styles.
52.414 Grades.
52.415 Recommended fill of container.
52.416 Recommended minimum washed drained weight.
52.417 Sample unit size.
52.418 Determining the grade.
52.419 Determining the rating of the factors which are scored.
52.420 Color.
52.421 Absence of defects.
52.422 Character.
52.423 Determining the grade of a lot.
52.424 Score sheet for canned dried beans.

AUTHORITY: Agricultural Marketing Act of 1946, Sec. 205, 60 Stat. 1090, as amended; 7 U.S.C. 1624.

§ 52.411 Product description.

Canned dried beans is the product prepared from dry mature beans or peas used for canning; but not including soybeans (Soja Max) and sweet peas or early peas (Pisum sativum); and with a packing medium or sauce consisting of water and any other safe and suitable ingredients permissible under the provisions of the Federal Food, Drug, and Cosmetic Act. Pork or pork fat may be used as an optional ingredient. The product is prepared by washing, soaking, blanching, cooking, baking, or other processing. It is packed in hermetically sealed containers and sufficiently processed by heat to assure preservation.

§ 52.412 Types.

(a) White beans.
(b) Lima beans.
(c) Red beans.
(d) Pinto beans.
(e) Pink beans.
(f) Garbanzos or chick-peas.
(g) Black beans.
(h) Yelloweye beans.
(i) Black-eye peas or field peas.
(j) Beans of other colors or types (except soybeans, sweet peas, and early peas).

§ 52.413 Styles.

(a) "In tomato sauce" means packed in tomato pulp or a similar tomato product; with or without any other safe and suitable ingredients. The sauce may be highly seasoned.

(b) "In sweetened sauce" means packed with nutritive carbohydrate sweetening ingredients; with or without any other safe and suitable ingredients. The sauce may be highly seasoned .

(c) "In sweetened brine" means packed in water, with salt and nutritive carbohydrate sweetening ingredients; with or without any other safe and suitable ingredients.

(d) "In brine" means packed in water, with salt; with or without any other safe and suitable ingredients.

§ 52.414 Grades.

(a) "U.S. Grade A" (or "U.S. Fancy") is the quality of canned dried beans that have the following attributes:

(1) Practically similar varietal characteristics;

(2) At least a reasonably good consistency for the styles of "In tomato sauce" and "In sweetened sauce";

(3) Practically free from defects;

(4) Good character;

(5) Good flavor;

(6) Score at least 17 points for color; and

(7) Total not less than 90 points when scored in accordance with the scoring system outlined in this subpart.

(b) "U.S. Grade B" (or "U.S. Extra Standard") is the quality of canned dried beans that have at least the following attributes:

(1) Reasonably similar varietal characteristics;

(2) Reasonably good consistency for the styles of "In tomato sauce" and "In sweetened sauce";

(3) Reasonably free from defects;

(4) Reasonably good character;

(5) Reasonably good flavor;

XUM V 40 39 FEB 26 75 XUM

(6) Reasonably good color; and

(7) Total not less than 80 points when scored in accordance with the scoring system outlined in this subpart.

(c) "Substandard" is the quality of canned dried beans that fail to meet the requirements of U.S. Grade B.

§ 52.415 Recommended fill of container.

The recommended fill of container is not incorporated in the grades of the finished product since fill of container, as such, is not a factor of quality for the purposes of these grades. It is recommended that each container of canned dried beans be filled as full as practicable without impairment of quality and that the beans and packing medium shall occupy not less than 90 percent of the total capacity of the container. Total capacity of the container means the maximum weight of distilled water at 20 degrees C. (68 degrees Fahrenheit) which the scaled container will hold.

§ 52.416 Recommended minimum washed drained weight.

(a) *General.* The minimum washed drained weight recommendations of this section are not incorporated in the grades of the finished product, since washed drained weight, as such, is not a factor of quality for the purposes of these grades. It is recommended that the ratio of net weight to washed drained weight be not more than 1.65:1 (sample average).

(b) *Procedure.* The washed drained weight of canned dried beans is determined by emptying the contents of the container upon a United States Standard No. 8 circular sieve of proper diameter containing eight meshes to the inch (square openings 0.0937 inch (2.3 mm), ±3 percent) so as to distribute the product evenly, rinsing any remaining product from the container and adding same to the sieve. Immerse the sieve and the contents in water at 20 degrees C. (68 degrees Fahrenheit) ±10 percent. Agitate the sieve with a vigorous swirling motion for a period of 1 minute; breaking up clumps to free any sauce adhering to the beans. Withdraw the sieve and contents from the water and immerse momentarily twice in succession. Incline the sieve to an angle of approximately 17–20° to facilitate drainage, and allow to drain for 2 minutes. The washed drained weight is the weight of the sieve, beans and optional ingredient(s) such as pork or pork fat, less the weight of the wet sieve. A sieve 8 inches in diameter is used for the No. 2 size can (307 x 409) and smaller sizes, and a sieve 12 inches in diameter is used for containers larger than No. 2 size can.

(c) *Determination.* The net weight to washed drained weight ratio is determined as follows:

$$\frac{\text{Net Weight of Contents}}{\text{Washed Drained Weight of Product}} = \text{Net Weight to washed drained weight ratio}$$

§ 52.417 Sample unit size.

Compliance with requirements for factors of quality is based on a sample unit consisting of the entire contents of one container, irrespective of container size.

§ 52.418 Determining the grade.

(a) *General.* The grade of canned dried beans is determined by considering, in addition to the requirements of the respective grade, the following factors:

(b) *Factors not rated by score points.*

(1) Similar varietal characteristics;

(2) Consistency; and

(3) Flavor and odor.

(c) Factors rated by score points. The relative importance of each factor is expressed numerically on the scale of 100. The maximum number of points that may be given for each factor is:

Factors:	Points
Color	20
Absence of defects	40
Character	40
Total score	100

(d) *Definitions.*—(1) Similar varietal characteristics.

(i) "Contrasting varieties" means dried beans of the same type or of other types that are of a noticeably different color, size, or shape from the dried beans of the predominating variety (such as red beans in white beans).

(ii) "Varieties that blend" means dried beans of the same type or of other types that are similar in color, size, or shape to the dried beans of the predominating variety (such as pea beans with small white beans).

(iii) "Practically similar varietal characteristics" means that the beans are practically alike in size, shape, color, general characteristics, and that there may be present not more than 0.5 percent, by weight, of varieties that blend.

(iv) "Reasonably similar varietal characteristics" means that the beans are reasonably alike in size, shape, color, general characteristics, and that there may be present not more than 1 percent, by weight, of contrasting varieties; and not more than 5 percent, by weight, of varieties that blend.

(2) Consistency. The factor of consistency is not a requirement for the styles of "In sweetened brine" or "In brine".

(i) "Reasonably good consistency" means that, the sauce is reasonably smooth and may be slightly grainy or slightly lumpy; the product may have a thick consistency but is not compacted in the bottom of the container and when emptied on a flat surface has practically no separation of liquid; or, the product may have a thin consistency with separation of liquid but it shall not be watery.

(3) "Good flavor" means that the product has a good, normal flavor and odor, characteristic of the style of pack, and is free from objectionable flavors and objectionable odors of any kind.

(4) "Reasonably good flavor" means that the product may be lacking in good flavor and odor, but is characteristic of the style of pack, and is free from objectionable flavors and objectionable odors of any kind.

§ 52.419 Determining the rating of the factors which are scored.

The essential variations within each factor which are scored are so described that the value may be determined for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "18 to 20 points" means 18, 19, or 20 points).

§ 52.420 Color.

(a) *(A) classification.* Canned dried beans that have a good color may be given a score of 18 to 20 points. "Good color" means that the beans have a color that is bright and reasonably uniform, typical of the type of canned dried beans; and that the surrounding sauce or brine has a color typical of the style of pack.

(b) *(B) classification.* Canned dried beans that have a reasonably good color may be given a score of 16 or 17 points. Canned dried beans that score 16 points for color shall not be graded above "U.S. Grade B" (or "U.S. Extra Standard"), regardless of the total score for the product (this is a partial limiting rule). "Reasonably good color" means that the beans have a color that is fairly uniform, typical of the type of canned dried beans; may be dull but not off color; and that the surrounding sauce or brine has a color typical of the style of pack.

(c) *(SStd.) classification.* Canned dried beans that fail to meet the requirements of Grade B may be given a score of 0 to 15 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.421 Absence of defects.

(a) *General.* The factor of absence of defects refers to the degree of freedom from extraneous vegetable material, loose skins, broken and mashed units, and blemished and seriously blemished units.

(b) *Definitions.*—(1) A "unit" means two cotyledons and a skin, or portions thereof, whether or not attached or combined as a whole bean. A single skin or pieces of loose skin aggregating the equivalent of a whole skin will be considered as one-third of a unit. A cotyledon or portions of cotyledons aggregating the equivalent of a cotyledon will be considered as one-third of a unit.

(2) "Loose skin" means a skin or portions of a skin which have become separated wholly from the cotyledons.

(3) "Broken unit" means a cotyledon or portions of a cotyledon which have become separated from a unit.

(4) "Mashed unit" means a unit that is crushed or flattened to the extent that its appearance is seriously affected.

(5) "Blemished unit" means a bean that is spotted or discolored or otherwise blemished to such an extent that its appearance or edibility is materially affected. Beans that have a characteristic darkening around the hilum are not considered blemished units.

(6) "Seriously blemished unit" means a beam affected by discoloration, insect or similar type injury, or otherwise defective to such an extent that its appearance or edibility is seriously affected.

(7) "Extraneous vegetable material" means vegetable material common to the bean plant or plants that is harmless upon eating and includes but is not limited to, peas (Pisum sativum), lentils (Lens culinaris), cereal grains, and corn.

(c) *(A) classification.* Canned dried beans that are practically free from defects may be given a score of 36 to 40 points. "Practically free from defects" means that the canned dried beans comply with the requirements in Table I.

(d) *(B) classification.* Canned dried beans that are reasonably free from defects may be given a score of 32 to 35 points. Canned dried beans that fall into this classification shall not be graded above "U.S. Grade B" (or "U.S. Extra Standard"), regardless of the total score for the product (this is a limiting rule). "Reasonably free from defects" means that the canned dried beans comply with the requirements in Table II.

(e) *(SStd) classification.* Canned dried beans that fail to meet requirements of Grade B may be given a score of 0 to 31 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

TABLE I.—*Allowances for defects in canned dried beans*
(A) Classification

Defect	Maximum amount of defects permitted in a sample unit—by weight	Maximum amount of defects permitted in a sample
Loose skin, broken, and mashed.	4 percent	
Blemished and seriously blemished.	8 percent	
Seriously blemished	2 percent	
Extraneous vegetable material.	No limit	1 piece per 50 ozs. net weight.

TABLE II.—*Allowances for defects in canned dried beans*
(B) Classification

Defect	Maximum amount of defects permitted in a sample unit—by weight	Maximum amount of defects permitted in a sample
Loose skin, broken, and mashed.	8 percent	
Blemished and seriously blemished.	6 percent	
Seriously blemished	4 percent	
Extraneous vegetable material.	No limit	1 piece per 50 ozs. net weight.

§ 52.422 Character.

(a) *General.* The factor of character refers to the degree of freedom from hard units, mushy units, units with tough skins; and the overall texture of the product.

(b) *(A) classification.* Canned dried beans that have a good character may be given a score of 36 to 40 points. "Good character means that the beans have a good, typical texture, that may be slightly soft or slightly firm; and that the skins are tender.

(c) *(B) classification.* Canned dried beans that have a reasonably good character may be given a score of 32 to 35 points. Canned dried beans that fall into this classification shall not be graded above "U.S. Grade B" (or "U.S. Extra Standard"), regardless of the total score for the product (this is a limiting rule). "Reasonably good character" means that the beans have a reasonably good, typical texture, that the beans may be firm or soft but not hard or mushy; and that the skins may be slightly tough.

(d) *(SStd) classification.* Canned dried beans that fail to meet the requirements of Grade B may be given a score of 0 to 31 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.423 Determining the grade of a lot.

The grade of a lot of canned dried beans covered by these standards is determined by the procedures set forth in the Regulations Governing Inspection and Certification of Processed Fruits and Vegetables, Processed Products Thereof, and Certain Other Processed Food Products (§§ 52.1 to 52.83).

§ 52.424 Score sheet for Canned Dried Beans.

[7 CFR Part 52]

CANNED PORK AND BEANS

Proposed Grade Standards

Notice is given that the United States Department of Agriculture is considering a proposal to establish United States Standards for Grades of Canned Pork and Beans (7 CFR, 52.6441–52.6452). These grade standards are issued under the authority of the Agricultural Marketing Act of 1946 (Sec. 205, 60 Stat. 1090, as amended; 7 U.S.C. 1624) which provides for the issuance of official U.S. grades to designate different levels of quality for the voluntary use of producers, buyers, and consumers. Official grading services are also provided under this act upon request and upon payment of a fee to cover the cost of such services.

NOTE: Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act, or with applicable State laws and regulations.

All persons who desire to submit written views, data, arguments for consideration in connection with the proposed U.S. standards should file the same in duplicate, not later than April 15, 1975 with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250. All written submissions made under this notice will be available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR, 1.27(b)).

Statement of consideration leading to the proposed standards. The Department, on its own initiative, proposes to establish U.S. Standards for Grades of Canned Pork and Beans.

Canned pork and beans (and other canned dried beans) are currently graded under the U.S. Standards for Grades of Canned Dried Beans which were published in the FEDERAL REGISTER to become effective October 24, 1947. Canned pork and beans—which are popular among consumers—comprise a major portion of the canned dried bean pack today. The current U.S. Standards for Grades of Canned Dried Beans include many different types and styles of the product; thus, the characteristics of canned pork and beans are not evaluated equitably.

Recently, the Department received comments from two large processors of canned pork and beans, indicating that U.S. Standards for Grades of Canned Pork and Beans are desirable at this time.

This proposal contains the following provisions:

1) Introduces separate U.S. Standards for Grades of Canned Pork and Beans.

2) Permits the addition of "safe and suitable" optional ingredients.

3) Establishes the bean to sauce ratio, absence of defects, and character as market quality levels of the product which are rated by score points; color, flavor, odor, and similar varietal characteristics are prerequisites (non-scoring factors).

XUM
V 40139 FEB 26 75 XUM

4) Offers the bean to sauce ratio as an objective guide to determine the quantity of bean ingredient present in a given container.

At the present time, the U.S. Standards for Grades of Canned Dried Beans are the only Federal standards that have been promulgated for canned pork and beans. In the absence of other Federal standards, the Department concludes that this proposal to establish U.S. Standards for Grades of Canned Pork and Beans (separate from canned dried beans) would provide useful criteria for the voluntary use of both producers and consumers.

The proposed standards are as follows:

Sec.
52.6441 Product description.
52.6442 Types.
52.6443 Grades.
52.6444 Recommended fill of container.
52.6445 Sample unit size.
52.6446 Determining the grade.
52.6447 Determining the rating for the factors which are scored.
52.6448 Bean to sauce ratio.
52.6449 Absence of defects.
52.6450 Character.
52.6451 Determining the grade of a lot.
52.6452 Score sheet for canned pork and beans.

AUTHORITY: Agricultural Marketing Act of 1946, Sec. 205, 60 Stat. 1090, as amended; 7 U.S.C. 1624.

§ 52.6441 Product description.

Canned pork and beans (canned dried white beans with pork) is the product prepared from dry mature white beans of the species Phaseolus vulgaris L., with pork or pork fat; and with a packing medium or sauce consisting of water, tomato products, and any other safe and suitable ingredients permissible under the provisions of the Federal Food, Drug, and Cosmetic Act. The product is prepared by washing, soaking, blanching, or other processing. It is packed in hermetically sealed containers and sufficiently processed by heat to assure preservation.

§ 52.6442 Types.

(a) Pea beans (The type as grown in the Great Lakes region known also as Navy beans).

(b) Small white beans (The type as grown in the Pacific coast region, not including Tepary beans).

(c) Flat small white beans (The type as grown in northern Idaho).

(d) Great northern beans.

(e) Other types of white beans (except white lima beans).

§ 52.6443 Grades.

(a) "U.S. Grade A" (or "U.S. Fancy") is the quality of canned pork and beans that have the following provisions:

(1) Practically similar varietal characteristics;

(2) At least a reasonably good bean to sauce ratio;

(3) Practically free from defects;

(4) Good character;

(5) Good flavor;

(6) Good color; and

(7) Total not less than 90 points when scored in accordance with the scoring system outlined in this subpart.

(b) "U.S. Grade B" (or "U.S. Extra Standard") is the quality of canned pork and beans that have at least the following attributes:

(1) Reasonably similar varietal characteristics;

(2) Reasonably good bean to sauce ratio;

(3) Reasonably free from defects;

(4) Reasonably good character;

(5) Good flavor;

(6) Reasonably good color; and

(7) Total not less than 80 points when scored in accordance with the scoring system outlined in this subpart.

(c) "Substandard" is the quality of canned pork and beans that fail to meet the requirements of U.S. Grade B.

§ 52.6444 Recommended fill of container.

The recommended fill of container is not incorporated in the grades of the finished product since fill of container, as such, is not a factor of quality for the purposes of these grades. It is recommended that each container of canned pork and beans be filled as full as practicable without impairment of quality and that the beans and sauce shall occupy not less than 90 percent of the total capacity of the container. Total capacity of the container means the maximum weight of distilled water at 20 degrees C. (68 degrees Fahrenheit) which the sealed container will hold.

§ 52.6445 Sample unit size.

Compliance with requirements for factors of quality is based on a sample unit consisting of the entire contents of one container, irrespective of container size.

§ 52.6446 Determining the grade.

(a) *General.* The grades of canned pork and beans may be determined by considering, in addition to the requirements of the respective grade, the following factors:

(b) *Factors not rated by score points.*

(1) Similar varietal characteristics;

(2) Color; and

(3) Flavor and odor.

(c) *Factors rated by score points.* The relative importance of each factor is expressed numerically on the scale of 100. The maximum number of points that may be given each factor is:

Factors:	Points
Bean to sauce ratio	20
Absence of defects	40
Character	40
Total score	100

(d) *Definitions.*—(1) Similar varietal characteristics.

(i) "Contrasting varieties" means varieties of dried beans other than those specified in § 52.6442 (such as red beans).

(ii) "Varieties that blend" means one or more of the varieties of dried beans specified in § 52.6442 other than the predominating variety of white beans (such as pea beans with small white beans).

(iii) "Practically similar varietal characteristics" means that the beans are practically alike in size, shape, color, general characteristics, and that there may be present not more than 0.5 percent, by weight, of contrasting varieties; and not more than 5 percent, by weight, of varieties that blend.

(iv) "Reasonably similar varietal characteristics" means that the beans are reasonably alike in size, shape, color, general characteristics, and there may be present not more than 1 percent, by weight, of contrasting varieties; and not more than 5 percent, by weight, of varieties that blend.

(2) "Good color" means that the beans have a color that is bright and reasonably uniform; and that the surrounding sauce is reasonably bright and has the distinguishing color characteristics of the addition of tomato products.

(3) "Reasonably good color" means that the beans have a color that is fairly uniform, that may be slightly dull but not off color; and that the surrounding sauce may be dull but not off color and may be lacking in the distinguishing color characteristics of the addition of tomato products.

(4) "Good flavor" means that the product has a good, normal flavor and odor, and is free from objectionable flavors and objectionable odors of any kind; and that the flavor of the sauce is distinct and characteristic of the ingredients.

(5) "Reasonably good flavor" means that the product may be lacking in good flavor and odor, but is free from objectionable flavors and objectionable odors of any kind; and that the flavor of the sauce may be weak.

§ 52.6447 Determining the rating of the factors which are scored.

The essential variations within each factor which are scored are so described that the value may be determined for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "18 to 20 points" means 18, 19, or 20 points).

§ 52.6448 Bean to sauce ratio.

(a) *General.* The bean to sauce ratio requirements of this section are based upon the weight of the bean and pork or pork fat ingredients, exclusive of any surrounding sauce, and is determined on the finished product by using the washed drained weight procedure specified in this section.

(b) *Procedure.* The washed drained weight of canned pork and beans is determined by emptying the contents of the container upon a United States Standard No. 8 circular sieve of proper diameter containing eight meshes to the inch (square openings 0.0937 inch (2.3 mm), ±3 percent) so as to distribute the product evenly, rinsing any remaining product from the container and adding same to the sieve. Immerse the sieve and the contents in water at 20 degrees C. (68 degrees Farenheit) ±10 percent. Agitate the sieve with a vigorous swirling motion for a period of 1 minute, breaking up clumps to free any sauce adhering to the beans. Withdraw the sieve and contents from the water and immerse momentarily twice in succession. Incline the sieve to an angle of approximately 17–20° to facilitate drainage, and allow to drain for 2 minutes. The washed drained weight is the weight of the sieve and beans and pork, less the weight of the wet sieve. A sieve 8 inches in diameter is used for the No. 2 size can (307 x 409) and smaller sizes, and a sieve 12 inches in diameter is used for containers larger than the No. 2 size can.

(c) *Determination.* The bean to sauce ratio is determined as follows:

$$\text{Bean to Sauce Ratio} = \frac{\text{Weight of Sauce} = \text{Net Weight of Contents} - \text{Washed Drained Weight of Beans}}{\text{Washed Drained Weight of Beans}}$$
$$\text{Weight of Sauce}$$

(d) *(A) classification.* Canned pork and beans that have a good bean to sauce ratio may be given a score of 18 to 20 points. "Good bean to sauce ratio" means that the bean to sauce ratio of the finished product meets the requirements of Table I.

(e) *(B) classification.* Canned pork and beans that have a reasonably good bean to sauce ratio may be given a score of 16 to 17 points. "Reasonably good bean to sauce ratio" means that the bean sauce ratio of the finished product meets the requirements of Table I.

(f) *(SStd) classification.* Canned pork and beans that fail to meet the requirements of Grade B may be given a score of 0 to 15 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

TABLE I.—*Bean to sauce ratio in canned pork and beans*

Sample unit	Sample average		
	(A) Classification		
Minimum	1.45:1	Minimum	1.55:1
Maximum	1.75:1	Maximum	1.65:1
	(B) Classification		
Minimum	No limit	Minimum	1.40:1
Maximum	do.	Maximum	1.80:1

§ 52.6449 Absence of defects.

(a) *General.* The factor of absence of defects refers to the degree of freedom from extraneous vegetable material, loose skins, broken and mashed units, and blemished and seriously blemished units.

(b) *Definitions.* (1) A "unit" means two cotyledons and a skin, or portions thereof, whether or not attached or combined as a whole bean. A single whole skin or pieces of loose skin aggregating the equivalent of a whole skin will be considered as one-third of a unit. A cotyledon or portions of cotyledons aggregating the equivalent of a cotyledon will be considered as one-third of a unit.

(2) "Loose skin" means a skin or portions of a skin which have become separated wholly from the cotyledons.

(3) "Broken unit" means a cotyledon or portions of a cotyledon which have become separated from a unit.

(4) "Mashed unit" means a bean that is crushed or flattened to the extent that its appearance is seriously affected.

(5) "Blemished unit" means a bean that is spotted or discolored or otherwise defective to such an extent that its appearance or edibility is materially affected. Beans that have a characteristic darkening around the hilum are not considered blemished units.

(6) "Seriously blemished unit" means a bean affected by discoloration, insect or similar type injury, or otherwise defective to such an extent that its appearance or edibility is seriously affected.

(7) "Extraneous vegetable material" means vegetable material common to the bean plant or other plants that is harmless upon eating and includes but is not limited to, peas (Pisum sativum), lentils (Lens culinaris), field peas (Vigna sinensis), corn and cereal grains.

(c) *(A) classification.* Canned pork and beans that are practically free from defects may be given a score of 36 to 40 points. "Practically free from defects" means that canned pork and beans comply with the requirements in Table II.

(d) *(B) classification.* Canned pork and beans that are reasonably free from defects may be given a score of 32 to 35 points. Canned pork and beans that fall into this classification shall not be graded above "U.S. Grade B" (or "U.S. Extra Standard"), regardless of the total score for the product (this is a limiting rule). "Reasonably free from defects" means that the canned pork and beans comply with the requirements in Table III.

(e) *(SStd) classification.* Canned pork and beans that fail to meet the requirements of Grade B may be given a score of 0 to 31 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.6450 Character.

(a) *General.* The factor of character refers to the degree of freedom from hard units, mushy units, units with tough skins, and from granulation; and to the overall palatability and texture of the beans and sauce.

(b) *(A) classification.* Canned pork and beans that have a good character may be given a score of 36 to 40 points. "Good character" means that the beans have a good, typical texture, that may be slightly granular or slightly firm; that the skins are tender; and that the sauce is smooth and is neither grainy nor lumpy.

(c) *(B) classification.* Canned pork and beans that have a reasonably good character may be given a score of 32 to 35 points. Canned pork and beans that fall into this classification shall not be graded above "U.S. Grade B" (or "U.S. Extra Standard"), regardless of the total score for the product (this is a limiting rule). "Reasonably good character" means that the beans have a reasonably good, typical texture, that the beans may be firm or soft but not hard or mushy; that the skins may be slightly tough; that the beans may be granular; and that the sauce is reasonably smooth and may be slightly grainy, or slightly lumpy.

TABLE II.—*Allowances for defects in canned pork and beans*

(A) Classification

Defect	Maximum amount of defects permitted in a sample unit—by weight	Maximum amount of defects permitted in a sample
Loose skin, broken, and mashed.	4 percent	
Blemished and seriously blemished.	3 percent	
Seriously blemished	2 percent	
Extraneous vegetable material.	No limit	1 piece per 80 ozs. net weight.

TABLE III.—*Allowances for defects in canned pork and beans*

(B) Classification

Defect	Maximum amount of defects permitted in a sample unit—by weight	Maximum amount of defects permitted in a sample
Loose skin, broken, and mashed.	8 percent	
Blemished and seriously blemished.	6 percent	
Seriously blemished	4 percent	
Extraneous vegetable material.	No limit	1 piece per 20 ozs. net weight.

(d) *(Substd.) classification.* Canned pork and beans that fail to meet the requirements of Grade B may be given a score of 0 to 31 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.6451 Determining the grade of a lot.

The grade of a lot of canned pork and beans covered by these standards is determined by the procedures set forth in the Regulations Governing Inspection and Certification of Processed Fruits and Vegetables, Processed Products Thereof, and Certain Other Processed Food Products (§§ 52.1 to 52.83).

Farmers Home Administration

[7 CFR Part 1817]

[FmHA Instruction 440.]

UNSATISFACTORY PERFORMANCE OR IMPROPER ACTION BY PERSONS DEALING WITH APPLICANTS, BORROWERS, AND GRANTEES

Proposed Debarment Regulation

Notice is hereby given that the Farmers Home Administration (FmHA) has under consideration the amendment of Subchapter A, General Regulations, Chapter XVIII, Title 7, Code of Federal Regulations, by adding a new Part 1817, "Unsatisfactory Performance or Improper Action by Persons Dealing with Farmers Home Administration Applicants, Borrowers and Grantees." This new regulation, when it becomes effective, will replace the present regulation, Subpart J of Part 1822, and will prescribe the action to be taken by the FmHA when there is need for administrative action against any person or any representative or affiliate thereof in any program administered by FmHA.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed regulation to the Chief, Directives Management Branch, Farmers Home Administration, U.S. Department of Agriculture, Room 6315, South Building, Washington, D.C. 20250, on or before April 28, 1975. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Chief, Directives Management Branch during regular business hours (8:15 a.m. to 4:45 p.m.).

As proposed, the new Part 1817 reads as follows:

PART 1817—UNSATISFACTORY PERFORMANCE OR IMPROPER ACTION BY PERSONS DEALING WITH FARMERS HOME ADMINISTRATION APPLICANTS, BORROWERS, AND GRANTEES

Sec.
1817.1 General.
1817.2 Sanctions.
1817.3 Grounds for debarment.
1817.4 Procedure for debarment and temporary suspension.
1817.5 Suspension and debarment lists.

AUTHORITY: 7 U.S.C. 1989; 42 U.S.C. 1480; 40 U.S.C. 442; 42 U.S.C. 2942; 5 U.S.C. 301, Sec. 10, Pub. L. 93-357, 88 Stat. 392; delegation of authority by the Sec. of Agri., 7 CFR 2.23; delegation of authority by the Asst. Sec. for Rural Development, 7 CFR 2.70; delegation of authority by Dir., OEO, 29 FR 14764, 33 FR 9850.

§ 1817.1 General.

(a) *Purpose.* This Part prescribes the action to be taken by the Farmers Home Administration (FmHA) when there is need for administrative action against any person, or any representative or affiliate thereof in connection with any program administered by FmHA. FmHA debarment deals with third party contractors rather than Government contractors. Any action to be taken under this regulation is to be corrective or for the protection of the public interest.

(b) *Definitions.* (1) Person: An individual, unincorporated association, trust, corporation, partnership, or other entity, such as purchaser, builder, contractor, dealer, realtor, broker, packager, salesman, escrow agent, sales agent, lender, holder, engineer, architect, inspector, or attorney, or any representative, affiliate or successor in interest thereof.

(2) Affiliates: Persons are affiliates of each other when directly or indirectly one person controls or has the power to control another or when a third party controls or has the power to control both.

(3) FmHA: Farmers Home Administration.

(4) OGC: The Office of the General Counsel performing legal services for the FmHA.

(5) List Officer: The Deputy Administrator—Financial and Administrative Operations, or any person designated by the Administrator of FmHA to compile and maintain a list of persons suspended and debarred by the Agency.

(6) FmHA Representative: The State Director or a qualified individual designated by the State Director to preside over a meeting under these regulations.

(7) Days: This refers to calendar days.

(8) Filing: An item is filed when it is delivered in hand.

(c) *Notices.* All notices to be sent to a person in accordance with these regulations will be sent by certified mail, return receipt requested.

§ 1817.2 Sanctions.

Debarment and temporary suspension are drastic actions which may severely affect the economic well being of the persons debarred or suspended. They shall not be based upon an unsupported accusation. In assessing whether adequate evidence exists for invoking this procedure, consideration should be given to the amount of credible evidence which is available, to the existence or absence of corroboration as to important allegations, as well as to the inference which may be properly drawn from the existence or absence of affirmative facts.

(a) *Debarment.* Debarment is the exclusion from participation in FmHA programs for a reasonable period of time commensurate with the seriousness of the person's offense or failure, or the inadequacy of his performance. Debarment may be imposed by the State Director, for a specified period of time, generally not to exceed 3 years, except in more serious cases. Debarment may also be imposed for a short, indefinite period of time, pending correction of the conditions which led to the debarment.

(b) *Temporary suspension.* Temporary suspension is the disqualification from FmHA programs for a temporary period of time in conjunction with debarment proceedings. Temporary suspension may be imposed only in cases where immediate action is necessary to protect the interests of FmHA and its program borrowers or grantees by the State Director, pending the debarment determination and based on adequate evidence supporting at least one of the grounds listed under § 1817.3. When a debarment determination adverse to the person is appealed, temporary suspension is automatic.

§ 1817.3 Grounds for debarment.

(a) A person may be debarred if any of the following have occurred within a reasonable period of time prior to institution of debarment proceedings:

(1) Serious or repetitive violation of any of the provisions of any laws administered by FmHA or any regulation issued thereunder.

(2) Serious or repetitive failure to perform obligations or carry out representations or warranties made to FmHA or to any borrower or grantee under any program administered by FmHA.

(3) Acts of misconduct where a lack of business integrity directly affecting responsibility to participate in FmHA programs is indicated, including but not limited to false misrepresentation, embezzlement, theft, forgery, bribery, falsification of records, and receiving stolen property.

(4) Conviction of one of the following criminal offenses:

(i) One involving any statute authorizing a program administered by FmHA, or

(ii) As an incident to obtaining or attempting to obtain a private or a public contract, or subcontract thereunder, or in the performance of such contract or subcontract, or

(iii) Under the Organized Crime Control Act of 1970, or

(iv) Where a lack of business integrity directly affecting responsibility to participate in FmHA programs is indicated, including but not limited to false misrepresentation, embezzlement, theft, forgery, bribery, falsification or destruction of records, and receiving of stolen property, or

(v) Under the Federal Antitrust Statutes arising out of the submission of bids or proposals.

(5) The lack of the right to do business or practice at his profession in the jurisdiction where the contractual services are to be performed.

§ 1817.4 Procedure for debarment and temporary suspension.

(a) *Notice.* (1) When a matter subject to action under § 1817.3 arises, the County Supervisor, assisted by the District Director, will obtain as much relevant, factual information about the specific problem as is feasible and will forward such information to the State Director. The State Director may proceed on this information or on information revealed by an audit or investigation, or by a complaint or information from any source.

(2) Debarment proceedings may not commence and notice of proposed debarment or temporary suspension may not be issued without the approval of OGC. In addition, debarment proceedings involving loans or grants under Parts 1823 and 1842 of this Chapter will be reviewed and concurred in by the Administrator of FmHA before notice is given under this part.

(3) Notice shall be provided to the person and its known concerned affiliates against whom debarment is proposed in writing and signed by the State Director, and shall include all of the following elements:

(i) That debarment is proposed and that debarment is an exclusion from participation in all FmHA programs and may last as long as 3 years or may be permanent.

(ii) The scope thereof as to affiliates.

(iii) One or more of the grounds specified in § 1817.3.

(iv) A short, plain statement of the reasons for the proposed debarment.

(v) A statement that the person has a right to a meeting at which all charges may be rebutted, if requested in an answer filed with the State Director within 20 days, following receipt of the notice.

(vi) That the answer may contain additional factual statements, legal arguments, and any other writings deemed relevant to the person.

(vii) Whether or not a temporary suspension has been imposed pending a determination and in cases of temporary suspension, that a suspension is a temporary disqualification from participation in FmHA programs.

(viii) The date of the commencement of any such temporary suspension, which date may not be before the receipt of the notice.

(ix) That after 20 days following the receipt of the notice by the person, of no meeting has been requested, the debarment determination will be made by the State Director, after due consideration of such information as may be available to him.

(x) Citation of these regulations.

(b) *Answer.*—(1) Filing: The answer shall be filed with the State Director within 20 days of receipt of the notice.

(2) Contents: The answer shall contain a short and plain statement of facts which constitute ground of defense and shall admit or deny averments on which FmHA relies, unless the person is without knowledge, in which case the answer shall so state. The answer shall contain a request for a meeting with an FmHA representative if such a meeting is desired. The answer may contain additional factual statements, legal arguments, and any other writing deemed relevant by the person.

(3) Effect of failure to deny averments or submit an answer: Averments on the notice are admitted when not denied in an answer.

(4) Extension of time: The State Director, for good cause shown, may grant a timely request for an extension of time to file an answer.

(c) Meeting. (1) Request for meeting: Any person who has been notified of a proposed debarment is entitled to a meeting with an FmHA representative at which all charges may be rebutted, if requested in an answer filed with the State Director within 20 days following receipt of the notice.

(2) Time and place: The meeting shall be scheduled and shall be held promptly after receipt of the answer. The State Director, in setting the time and place for the meeting shall give consideration to the convenience of the person.

(3) Notice: The State Director shall promptly notify the parties of the time and place of the meeting.

(4) Procedure: The meeting will be an informal proceeding at which the person will be given an opportunity to rebut the charges. The person may be represented by counsel. The proceeding will not, however, be a formal hearing and will not include presentation of evidence by FmHA.

(5) Evidence: Technical rules of evidence shall not apply.

(6) Record: The record of a debarment proceeding shall include any notices and orders, the answer, any written evidence in the possession of the government or adduced by the person, and a synopsis of any oral evidence presented at the meeting. The synopsis will be prepared by FmHA and be submitted to the person for his approval and any noted exceptions.

(7) Prior adjudication: If a person has been a party to an action in a court involving any issue or issues involved in the proceeding, or if a person has been debarred by another Federal agency and such debarment involves any issue or issues involved in the proceeding, evidence of such a court holding or Federal agency debarment determination may be made a part of the record.

(8) Failure to appear: If any party to the proceeding, after being duly notified, fails to appear at the meeting without reasonable cause, he shall be deemed to have waived the right to a meeting.

(d) *Debarment determination.*—(1) Meeting held: Within 10 days after the meeting, the State Director, upon the basis of and after due consideration of the record and any other information he happens to possess, shall make a debarment determination.

(2) Meeting waived: If no meeting has been requested, the State Director, after 20 days following receipt of the notice by the person, on the basis of and after due consideration of the information he possesses, including any written rebuttal, shall make a debarment determination.

(3) Proof required: Any debarment determination in the proceeding shall be supported by and in accordance with the reliable, probative, and substantial evidence in the possession of FmHA.

(4) Prior adjudication: If a person has been a party to an action in a court involving any issue or issues involved in the proceeding, or if a person has been debarred by another Federal agency and such debarment involves any issue or issues involved in the proceeding, the State Director may accept the decision of the court or other Federal agency as to the issue or issues decided by it.

(5) Effective date: A person will be debarred upon issuance of the notice of debarment determination by the State Director.

(e) *Notice of debarment determination.*—(1) Notice of the debarment determination may not be issued without the approval of OGC.

(2) Notice of the debarment determination shall be provided to the persons affected in writing and signed by the State Director.

(3) In cases of an adverse debarment determination, the notice shall include all of the following elements:

(i) That debarment has been imposed.

(ii) The scope thereof as to affiliates.

(iii) The period of time for which debarment is imposed.

(iv) One or more of the grounds specified in § 1817.3 on which the debarment is based.

XUM
V 40 39 FEB 26 75 XUM

(v) That the debarment determination may be appealed to the USDA Board of Contract Appeals.

(vi) That appeals must be filed within 30 days of the issuance of the notice of the debarment determination and in accordance with the rules of the USDA Board of Contract Appeals as found in 7 CFR 2400. All communications shall be directed to the Executive Secretary, Board of Contract Appeals, U.S. Department of Agriculture, Washington, D.C. 20250.

(vii) That a copy of any notice of appeal to the Board must be filed concurrently with the FmHA State Director.

(viii) That if the debarment determination is appealed, the person will be in a status of temporary suspension until final decision by the Board.

(4) In cases of a favorable debarment determination, the notice shall indicate:

(i) That debarment will not be imposed.

(ii) In cases where a temporary suspension has been imposed, that the suspension has been lifted.

(f) *Appeals.* Appeals may be taken from an adverse debarment determination within 30 days of the issuance of the notice of such determination, unless an extension is granted by the State Director for good cause. The manner of filing appeals and the procedure on appeal shall be governed by the rules of the Board of Contract Appeals. See 7 CFR 2400. A copy of the notice of appeal required by the Board shall be forwarded concurrently to the State Director. No appeal may be taken to the Board of Contract Appeals from any temporary suspension imposed under these regulations.

(g) *Recision and reinstatement.*—(1) A person debarred under this regulation for one year or more may request reinstatement any time after 6 months have passed from the final determination as indicated by:

(i) The issuance of the notice of debarment determination by the State Director if no appeal is taken or,

(ii) Decision of the appeal by the USDA Board of Contract Appeals.

(2) A person debarred under this regulation for less than 1 year may request reinstatement at any time after the final determination.

(3) The State Director will review the request. In reaching a decision to reinstate, the State Director must be satisfied that the original wrongful act has been righted and is not likely to recur and also be persuaded by the assurance of the person in writing that the person understands the requirements of all applicable statutes and regulations, and that he will compy with them in the future.

§ 1817.5 Suspension and debarment lists.

(a) Temporary suspension. When a person is temporarily suspended either pending debarment or pending appeal, the State Director shall notify the List Officer. The List Officer will keep a list of all persons temporarily suspended under these regulations, and will distribute copies of the list to all FmHA State Directors and to the Administrator. The list of persons temporarily suspended shall not be released to any person or agency outside FmHA.

(b) *Debarment.* (1) When a person is debarred after a final decision by the USDA Board of Contract Appeals or, in cases where no appeal is taken, when the time allowed for appeal has passed, the State Director shall notify the List Officer of the debarment. The List Officer will keep a list of all persons debarred under those regulations, and will distribute copies of the list to the Administrator and to all FmHA State Directors, District Directors, and County Supervisors.

(2) The List Officer shall coordinate the debarment list with similar lists compiled by other Federal agencies by informing such agencies of additions and deletions on the debarment list and obtaining the lists of the other agencies. Such lists are obtained for informational purposes only and are not of themselves grounds for suspension or debarment by FmHA.

Dated: February 20, 1975.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 1]

NUTRITION LABELING OF FRESH FRUITS AND FRESH VEGETABLES

Notice of Proposed Rule Making

The Commissioner of Food and Drugs issued an order, published in the FEDERAL REGISTER of November 28, 1973 (38 FR 32786), temporarily exempting fresh fruits and fresh vegetables from the nutrition labeling provisions under § 1.17 (21 CFR 1.17) pending further rule making. The exemption was occasioned by a need for consideration of three separate factors:

I. Labeling of fresh fruits and fresh vegetables: Section 1.17, which establishes rules for the labeling of food with regard to nutritional value, was promulgated primarily with prepackaged food in mind. As published in the FEDERAL REGISTER of March 14, 1973 (38 FR 6951), § 1.17 envisions a food packaged and labeled in retail-sized units by the manufacturer, packer, or distributor. Moreover, § 1.8d (21 CFR 1.8d) provides that labeling required by § 1.17 must appear either on the principal display panel or on the information panel of the retail food package. However, fresh fruits and fresh vegetables are frequently not packaged in retail-sized units by the grower or distributor, and indeed are often retailed from open bins that have no principal display panel, information panel, or any other labeling.

The Commissioner has concluded that, in view of the nature of existing retail marketing practices for fresh fruits and fresh vegetables, it would be unreasonable to impose on fresh produce the provision of § 1.17 that any nutrition claim or information included in advertising by a manufacturer, packer, or distributor requires that nutrition information, in conformity with § 1.17, appear on the label of the food sold at retail. Accordingly, the Commissioner proposes that nutrition labeling, in conformity with § 1.17, be required for fresh fruits and fresh vegetables only as a part of each article of labeling which includes any nutrition claim or information. For example, if a placard over a bin of oranges in a retail food store or a "give-away" leaflet next to the bin states that oranges are "high in vitamin C," the placard or leaflet would be required also to include full nutrition labeling in conformity with § 1.17. If the labeling which provides the nutrition claim or information is a package, then the format requirements of § 1.8d would apply, i.e., the nutrition information would be required to be included either on the principal display panel or on the information panel, in the manner required by that section for all other packaged foods.

When a grower, packer or distributor of fresh fruits or fresh vegetables includes a nutrition claim or other nutrition information in his advertising but no labeling concerning nutrition is provided at the point of retail sale, the Commissioner proposes that nutrition labeling not be required on fresh fruits or fresh vegetables. Should such advertising be false or misleading in any respect, the Food and Drug Administration would seek regulatory action by the Federal Trade Commission. Thus, under this proposal it would simply be necessary for a grower, packer, distributor or retailer to assure, whenever he provides any retail labeling for fresh fruits or fresh vegetables which includes any nutrition claim or information, that the labeling include the full nutrition information required by § 1.17 and, if the labeling is a package, that the format requirements of § 1.8d be obeyed.

II. Applicability of section 405 of the Federal Food, Drug, and Cosmetic Act: The Commissioner concluded at the time of the November 28, 1973 order, which temporarily exempted fresh fruits and fresh vegetables from § 1.17 pending further rule making, that it would not be proper to subject fresh produce to the nutrition labeling regulation without articulation of the applicability of section 405 of the act (21 U.S.C. 345). Section 405 provides that, "The Secretary shall promulgate regulations exempting from any labeling requirement of this Act (1) small open containers of fresh fruits and fresh vegetables . . ."

Section 405 of the act, by its own terms, was intended to exempt small open containers of fresh fruits and fresh vegetables from the labeling "requirements" of the act. Clearly, Congress did not feel that it was necessary for an

open bin of a fresh fruit or fresh vegetable place of business of the packer or distributor, or to state the quantity of contents, or to state the name of the fruit or vegetable, all of which, in the absence of section 406 (or in the absence of an applicable exemption promulgated by the Commissioner within the scope of his discretion, e.g., §§ 1.1c(a)(1) and 1.10a(b)(21 CFR 1.1c(a)(1) and 1.10a(b)), would be required on small open containers of fresh produce, as on any other food, by sections 403(e), (g)(2) and (i)(1) of the act (21 U.S.C. 343(e), (g)(2) and (i)(1)); section 403(e) of the act also provides for exempting "small packages" from stating the quantity of contents. However, the Commissioner concludes that Congress did not intend to allow labeling voluntarily employed by a seller to be false or misleading or otherwise in violation of labeling prohibitions of the act.

This construction of the statute was first articulated by the Commissioner of Food and Drugs shortly after promulgation of the act, and it has stood unchanged since 1938. See § 1.10a(c) (21 CFR 1.10a(c)), which implements section 405 of the act. This regulation was first promulgated in the FEDERAL REGISTER of December 28, 1938 (3 FR 3161, 3165).

Thus, no one is required to provide nutrition information in labeling of fresh fruits and fresh vegetables. However, if someone chooses to provide such information, it is the Commissioner's conclusion that if the information is false or misleading, the fresh produce so labeled must be deemed to be misbranded pursuant to section 403(a) of the act (21 U.S.C. 343(a)), which provides that a food shall be deemed to be misbranded if its labeling is false or misleading in any particular, and that section 405 of the act provides no immunity. The Commissioner further concludes that when any nutrition claim or information is included in the labeling of a fresh fruit or fresh vegetable, the failure to provide full information about the nutritional value of the food, as required by § 1.17, would cause the food to be deemed to be misbranded within the meaning of section 403(a) of the act, pursuant to section 201(n) of the act (21 U.S.C. 321(n)), which provides that if an article is alleged to be misbranded because the labeling is misleading then there shall be taken into account not only representations made but also the extent to which the labeling fails to reveal facts material in the light of such representations. Section 1.17 sets forth the material facts which must be provided to avoid misbranding pursuant to sections 403(a) and 201(n) of the act whenever any nutrition claim or information is included in the labeling.

III. Compliance criteria regarding accuracy of claims concerning nutrient content: The Commissioner is aware that representatives of the fresh fruit and fresh vegetable industry objected to § 1.17 at the time of its promulgation on the grounds that the compliance criteria were unnecessarily and unreasonably restrictive. Section 1.17(e) requires that the nutrient value of a composite of 12 subsamples, i.e., consumer units, taken 1 from each of 12 different randomly chosen shipping cases of a food containing naturally occurring nutrients must equal at least 80 percent of the nutrient value declared on the label. The representatives of the fresh fruit and fresh vegetable industry complained that this was too restrictive, in that the natural and uncontrollable variation of nutrient content of fresh produce at time of harvest is allegedly so considerable that any reasonable declaration of nutrient value would be subject to more than a 20 percent variation.

The Commissioner is not at all certain that this complaint is valid. The milk industry and the canned food industry must contend with variations in nutrient content of raw produce, and yet experience with nutrition labeling of milk products and of canned foods, as discussed in this preamble, indicates that the compliance criteria in § 1.17 are reasonable.

It should be noted that, not only is there a 20 percent allowance below the labeled value in the compliance criteria of § 1.17 for naturally occurring nutrients, but also compliance is based on the average of 12 consumer units, such averages being considerably less variable than individual unit values. In addition, § 1.17 requires that the nutrient content be declared in increments of 2 percent up to and including 10 percent of the U.S. RDA, in increments of 5 percent above 10 percent and up to and including 50 percent of the U.S. RDA, and in increments of 10 percent above 50 percent of the U.S. RDA. Thus, variability leading to a range of values between two permitted labeling increments is of no consequence since the lower incremental value is automatically the choice for labeling. The latitude encompassed in these provisions is fully illustrated in "Compliance Procedures for Nutrition Labeling" (Ref. 1).

The milk industry must contend with considerable natural variation in the nutrient content of raw milk, and yet through a joint effort by its trade associations, i.e., the Milk Industry Foundation (MIF), the American Dry Milk Institute, and the Evaporated Milk Association (EMA) this industry has developed reliable data for the nutrition labeling of milk products. For example, EMA has conducted a nutrient test program involving products from different industry members, geographical areas and time periods, and also different methods of analysis. Despite inclusion of all of these sources of variation, the program data readily permitted determination of nutrient values for label declaration within the compliance criteria of § 1.17. The results of the EMA program are summarized in "Nutrition Labeling—They Said It Couldn't be Done" (Ref. 2).

A somewhat different industry-effort was carried out by a task force sponsored by MIF. In this program, the task force carefully researched the existing scientific literature and demonstrated sufficient existing data and sufficient consistency of reported nutrient values to permit derivation of nutrition labeling values for various milk products (Ref. 2). The MIF subsequently produced an instructional manual for nutrition labeling of milk and milk products (Ref. 3). More recent efforts of the MIF have involved a nutrient test program for cottage cheese and yogurt. Again the nutrient test data readily permitted determination of nutrient levels for label declaration satisfying the compliance criteria of § 1.17, and a supplement for these products has been added to the MIF labeling manual.

As examples of other industry efforts to develop reliable data for nutrition labeling, two studies by the National Canners Association can be cited: "Determination of Nutritional Changes in Canned Whole Kernel Corn As a Result of Varietal and Processing Changes" (Ref. 4), and "Nutritive Value of Canned Tomato Juice" (Ref. 5). The corn study data of 1971 indicate a noticeable change in the content of vitamin A and iron when compared to earlier analyses conducted in 1942–1943. Other portions of these data demonstrate consistence with the compliance procedures of § 1.17 when evaluating nutritional variation due to growing areas and different processing methods. The tomato juice study, which reported on nutrient content of the 1969 production, evidenced some regional differences in nutrient levels for vitamin A and ascorbic acid (vitamin C) but likewise shows that the variability is within the compliance requirements of § 1.17.

The fresh fruit and fresh vegetable industry could similarly pursue such research. Perhaps members of the industry can secure the cooperation of State university schools of agriculture and agriculture experiment stations in reviewing existing literature and conducting analyses with regard to nutrient value of fresh produce. Trade associations might assist in procuring such assistance and in pooling available data.

The Commissioner will cooperate with any reasonable industry-sponsored program genuinely designed to determine expeditiously reliable nutrient information needed for nutrition labeling. For example, as published in the FEDERAL REGISTER of August 24, 1973 (38 FR 22791), the Commissioner stayed the initial effective date of § 1.17 for certain milk and cottage cheese products, in view of the milk industry program to develop nutrient data.

The Commissioner recognizes, however, that the fresh produce industry must contend with an additional variable, i.e., nutrient loss in fresh produce during shipment to points of retail sale and interim storage. It appears that such loss may be considerable, but subject to substantial variation depending upon the type and age of the product, as well as care in handling the product during shipment and storage. In the paper, "The Influence of Storage, Transportation and

XUM
V 40 39 FEB 26 75 XUM

Marketing Conditions on the Composition and Nutritional Values," prepared by Dr. P. H. Heinze of the U.S. Department of Agriculture for presentation at the American Medical Association Symposium on Nutritional Qualities of Fresh Fruits and Vegetables, November 9, 1972 (Ref. 7), some of the contributing factors to loss of vitamin and mineral content of fresh fruits and vegetables are discussed along with various methods for minimizing and controlling such losses. Dr. Heinze's paper indicates that, although there are losses in nutritive value of fresh fruits and vegetables during storage, transportation, and marketing, such losses are not likely to be great if (1) care is taken to keep physical damage at a minimum, (2) the time between harvesting and receipt by the consumer is not prolonged, and (3) the temperature and humidity conditions are kept near optimum for the commodity. The existence of a potentially wide variation of nutrient values based upon different conditions of shipment and storage demonstrates the need for determining that claims for nutrient values at the time of purchase are supportable by reliable data. Limited information concerning such nutrient loss is found in "Agriculture Handbook No. 8" (U.S. Department of Agriculture) (Ref. 6) with regard to specific fruits and vegetables. For example, the handbook states in Appendix B that after several months of storage, apples lose approximately one-half of their original vitamin C (ascorbic acid) content and that the vitamin C (ascorbic acid) content of individual potatoes has been reported to vary from 50–100 milligrams in freshly dug, immature potatoes to less than 10 milligrams in potatoes stored for periods of many months.

The Commissioner will entertain any reasonable comment requesting amendment of the compliance criteria now in § 1.17 as they would apply to fresh produce. This proposed regulation makes no change in the existing compliance criteria in § 1.17; it is simply a proposal designed to elicit useful public comment and does not represent a final decision with regard to the compliance criteria that should be employed for fresh fruits and fresh vegetables. However, as discussed above, other industries using raw agricultural commodities have been able to comply with § 1.17. It therefore appears to the Commissioner that those who wish to make nutrient claims for fresh fruits and fresh vegetables may likewise be able to make nutrient claims within the limits of accuracy now set forth in § 1.17, if they are willing to make a reasonable effort to determine the nutrient value commonly provided by such fresh produce at the point of retail sale.

The Commissioner advises that any proposal simply to use nutrient values for fresh produce set forth in "Agriculture Handbook No. 8" (U.S. Department of Agriculture) (Ref. 6) without further corroboration, would not appear to be justifiable. The handbook attests to its own inadequacies, as can be noted when reviewing the introductory and background portions of the publication. The figures given are not necessarily arithmetic means of all acceptable analyses for each nutrient, nor do they necessarily represent the same number of analyses. Some are weighted figures that have taken into account variables such as variety, stage of maturity, seasonal and geographic differences as well as analytical differences. They do not necessarily take into account the nutrient loss during shipment and storage noted above. Therefore, although the handbook data represent essentially average nutrient levels for particular foods, these levels have been developed, where possible, to represent general nutrient levels on a country-wide, yearround basis with no indication of the extent of variability or of the sources of variability involved in arriving at the average value given. Thus, it is not known what statistical validity is associated with each tabled value. Furthermore, it appears that some of the data in the handbook are more than 20 years old, and that changes in varieties of produce, methods of handling and processing, and in analytical methods may well make certain of these values inappropriate at present. Because of these considerations, the U.S. Department of Agriculture, with Food and Drug Administration support, has recently initiated the development of an automated nutrient data bank which may ultimately lead to the replacement of Handbook No. 8. This data bank will include information as to sample sizes and extent and sources of variation, thus permitting assessment of statistical validity, as well as encouraging updating of the recorded data as warranted.

No one has a right to engage in false or misleading labeling concerning the value of his food products simply because he finds it difficult or impractical or expensive to determine the truth about their value. If a packer or distributor cannot make accurate labeling claims about the nutrient levels in his fresh produce, then the law requires that he make no such nutrient claims at all. This requirement of accuracy applies to any labeling claim, but it is particularly pertinent with regard to nutrient claims, upon which a consumer may be expected to rely in attempting to select the most helpful foods for his diet. Now that the canned food industry is beginning to provide accurate label information about the nutrient value of canned fruits and vegetables, it would be unconscionable for the Commissioner to allow fresh produce to be sold with nutrient claims which are without valid support but which may make the fresh produce appear to be of greater nutrient value than competing canned articles, while in fact, because of nutrient losses encountered in shipment and storage of fresh produce, the nutrient value of canned produce in the retail store may be equal to or greater than that of fresh produce.

A copy of each of the following documents, to which reference is made in this preamble, will be available for public inspection in the office of the Hearing Clerk, Food and Drug Administration, as a part of the record in this rule making proceeding:

1. "Compliance Procedures for Nutrition Labeling," prepared by the Division of Mathematics, Bureau of Foods, Food and Drug Administration.

2. "Nutrition Labeling—They Said It Couldn't be Done," paper presented by Howard R. Roberts, Ph.D., Food and Drug Administration, at Joint FDA-Industry Seminar, March 14, 1974.

3. "MIF Labeling Manual," Milk Industry Foundation, Washington, D.C.

4. "Determination of Nutritional Changes in Canned Whole Kernel Corn as a Result of Varietal and Processing Changes," National Canners Association.

5. "Nutritive Value of Canned Tomato Juice," National Canners Association.

6. "Composition of Foods, Agriculture Handbook No. 8," Agricultural Research Service, U.S. Department of Agriculture, revised December 1963.

7. "The Influence of Storage, Transportation and Marketing Conditions on the Composition and Nutritional Values," paper presented by Dr. P. H. Heinze, Nutritional Program Staff, Agricultural Research Service, U.S. Department of Agriculture, at the Symposium on Nutritional Qualities of Fresh Fruits and Vegetables sponsored by the American Medical Association and held in San Diego, CA, November 9, 1972.

Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201(n), 403(a), 701(a), 52 Stat. 1041, 1047, 1055; 21 U.S.C. 321(n), 343(a), 371(a)), and under the authority delegated to him (21 CFR 2.120), the Commissioner proposes to amend § 1.17 by revoking paragraph (h)(10) and by adding a new paragraph (j) to read as follows:

§ 1.17 Food; nutrition labeling.

* * * * * *

(h) * * *

(10) [Revoked]

* * * * * *

(j) Fresh fruits and fresh vegetables are subject to this section with the following limitations:

(1) The declaration of nutrition information as provided in paragraph (c) of this section is required to appear only as a part of each article of labeling which includes any nutrition claim or information. If the labeling is a package, the requirements of § 1.8d apply.

(2) The information required by paragraph (c) of this section shall be set forth in the manner required by that paragraph, except that the information referred to in paragraph (c)(2) of this section is not required.

Interested persons may, on or before April 28, 1975, file with the Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Received comments may be

seen in the above office during working hours, Monday through Friday.

Dated: February 7, 1975.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 39]

[Docket No. 75-NW-4-AD]

CESSNA MODEL 337 SERIES

Proposed Airworthiness Directives

The Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an airworthiness directive applicable to Cessna Model 337 modified in accordance with Robertson Aircraft Corporation STC SA1627WE. There have been reported icing problems with the Robertson extended pitot tube that could result in loss of airspeed indication in certain icing conditions. Since this condition is likely to exist or develop in other airplanes of the same type design, the proposed airworthiness directive would require modification of the pitot tube in accordance with FAA approved Robertson Aircraft Corporation instructions.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Department of Transportation, Federal Aviation Administration, Northwest Region, Attention: The Regional Counsel, Airworthiness Rules Docket, 9010 East Marginal Way South, Seattle, Washington 98108. All communications received on or before April 1, 1975 will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

In consideration of the foregoing, it is proposed to amend § 39.13 of the Federal Aviation Regulations by adding the following new airworthiness directive:

CESSNA: Applies to the following Model 337 modified in accordance with Robertson Aircraft Corporation STC SA1627WE, certificated in all categories.

337-0058	337-0566
337-0063	337-0577
337-0124	337-0685
337-0205	337-0695
337-0220	337-0726
337-0291	337-0728
337-0305	337-0732
337-0327	337-0741
337-0382	337-0817
337-0443	337-0822

Compliance required as indicated unless already accomplished.

To prevent possible loss of the pitot system accomplish the following:

Unless already accomplished, within the next 100 hours of operation after the effective date of this AD, rework the extended pitot tube by installation of Robertson Kit No. 14-118-100 in accordance with Robertson modification instructions No. 14-118-10 dated January 23, 1975, or later FAA approved revisions.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Seattle, Washington, February 18, 1975.

C. B. WALK, JR.,
Director, Northwest Region.

[FR Doc. 75-5050 Filed 2-25-75;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 75-EA-1]

TRANSITION AREA

Proposed Alteration and Designation

The Federal Aviation Administration is considering amending § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the Oswego, N.Y., Transition Area (40 FR 561) and designate a Cranberry Lake, N.Y., Transition Area.

There is a requirement to designate several areas of uncontrolled airspace in northwest New York State as 1200-foot floor transition area airspace to provide additional flexibility in routing aircraft via direct and radar vector routes in the enroute system. There are three irregular-shaped areas east of Watertown, N.Y., which it is proposed to designate as the Cranberry Lake, N.Y., 1200-foot floor transition area. There are several small irregular-shaped areas of uncontrolled airspace west of Watertown which it is proposed to include in the Oswego, N.Y., 1200-foot floor Transition Area.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York 11430. All communications received on or before March 28, 1975, will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Oswego, N.Y., proposes the airspace action hereinafter set forth:

1. Amend Part 71, Federal Aviation Regulations so as to designate the Cranberry Lake, N.Y., 1200-foot floor Transition Area as follows:

CRANBERRY LAKE, NEW YORK

That airspace extending upward from 1200 feet above the surface beginning at the Saranac Lake, N.Y. VOR, thence southeast via the Saranac Lake VOR 134° radial to its point of intersection with the Burlington, Vermont VORTAC 215° radial; thence southwest along the Burlington, Vermont VOR TAC 206° radial to its point of intersection with the Watertown, N.Y. VORTAC 123° radial; thence northwest along the Watertown VORTAC 123° radial to the Watertown VORTAC; thence northeast along the Watertown VORTAC 038° radial to its point of intersection with the Saranac Lake VOR 311° radial; thence southeast along the Saranac Lake VOR 311° radial to Saranac Lake VOR excluding the airspace in Canada.

2. Amend Part 71, Federal Aviation Regulations by deleting the description of the Oswego, N.Y., 1200-foot floor Transition Area and by substituting the following in lieu thereof:

OSWEGO, NEW YORK

That airspace extending upward from 1200 feet above the surface beginning at latitude 43°24'00" N., longitude 76°45'00" W., to latitude 43°24'00" N., longitude 77°50'00" W.; to latitude 43°20'00" N., longitude 77°50'00" W.; to latitude 43°20'00" N., longitude 78°00'00" W.; thence north along longitude 78°00'00" W. to the U.S./Canadian border, thence east along the U.S./Canadian border to longitude 75°00'00" W.; thence to latitude 43°32'00 N., longitude 76°23'0" W.; to latitude 43°24'00" N., longitude 76°40'00" W.; to point of beginning.

(Sec. 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Jamaica, N.Y., on February 12, 1975.

ROBERT H. STANTON,
Director, Eastern Region.

[FR Doc.75-5052 Filed 2-25-75;8:45 am]

[Docket No. 14317; Notice No. 75-5]

CIVIL SUBSONIC TURBOJET ENGINE-POWERED AIRPLANES: NOISE RETROFIT REQUIREMENTS

Proposed Regulations Submitted to the FAA by the Environmental Protection Agency

This notice of proposed rule making contains proposed regulations submitted by the Environmental Protection Agency (EPA) to the Federal Aviation Administration (FAA), pursuant to section 611 (c)(1) of the Federal Aviation Act of 1958, as amended by the Noise Control Act of 1972 (Pub. L. 92-574). Section 611 (c)(1) of the Federal Aviation Act of 1958 provides that EPA shall submit to the FAA proposed regulations to provide such control and abatement of aircraft noise and sonic boom as EPA determines is necessary to protect the public health and welfare. That section also provides that the FAA "shall consider such proposed regulations submitted by EPA under this paragraph and shall, within thirty days of its submission to the FAA, publish the proposed regulations in a notice of proposed rulemaking." This notice is published pursuant to this provision of law.

The EPA proposals contained herein would amend Part 91 of the Federal Aviation Regulations to require civil subsonic turbojet engine-powered airplanes to comply with the noise standards of Part 36 of the Federal Aviation Regulations.

Interested persons are invited to participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC-24. Comments on the overall environmental aspects of the proposed rules are specifically invited. All communications received by the FAA on or before April 4, 1975, will be considered by the FAA Administrator before taking action upon the proposed rules. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the FAA Rules Docket for examination by interested persons. EPA has also indicated that information copies of public comments may be sent to: Director, Standards and Regulations Division, Office of Noise Abatement and Control (AW-571) U.S. Environmental Protection Agency, 1921 Jefferson Davis Highway, Arlington, Virginia 20460.

Pursuant to section 611(c) of the Federal Aviation Act of 1958, the FAA will hold one or more hearings with respect to the proposals contained in this notice. A separate notice of hearing will be published in the FEDERAL REGISTER in the near future. As required by section 611(c), these hearings will be held no later than 60 days after publication of this document in the FEDERAL REGISTER.

The following EPA opinions, conclusions, and proposed regulatory language are published verbatim as received by the FAA on January 28, 1975.

EPA Proposal to FAA. Under the requirements of section 7(a) of the Noise Control Act of 1972 (Pub. L. 92-574, 86 Stat. 1234), the Administrator of the Environmental Protection Agency conducted a study of aircraft and airport noise and submitted a report thereon to the Congress. (Report on Aircraft/Airport Noise, Senate Committee on Public Works, Serial No. 93-8, Aug. 1973). Under section 611 of the Federal Aviation Act, as amended by the Noise Control Act of 1972, the Administrator of the EPA is also required, not earlier than the date of submission of his report to the Congress, to submit to the Federal Aviation Administration proposed regulations to provide such control and abatement of aircraft noise and sonic boom (including control and abatement of aircraft noise through the exercise of any of the FAA's regulatory authority over air commerce or transportation or over aircraft or airport operations) as the Administrator of the EPA determines is necessary to protect the public health and welfare. In accordance with the foregoing requirement, the EPA published in the FEDERAL REGISTER on February 19, 1974 (39 FR 6112) a notice of public comment period containing a synopsis of the proposed rules it is considering to achieve a satisfactory level of aircraft noise control and abatement for the protection of the public health and welfare.

The proposed rules and the type of control which each rule would implement are as follows:

Flight procedures noise control

(1) Takeoff procedures.
(2) Approach procedures.
(3) Minimum altitudes.

Source noise control

(4) Retrofit/fleet noise level.
(5) Supersonic civil aircraft noise.
(6) Modifications to Part 36 of the Federal Aviation Regulations.
(7) Propeller driven small airplanes.
(8) Short haul aircraft.

Airport operations noise control

(9) Airport goals, mechanisms and processes by which noise exposure of communities around airports can be limited to levels consistent with public health and welfare requirements.

This proposed rule, identified as the retrofit portion of item (4) above, is one of the five whose purpose is to implement engineering noise control at the source. As proposed herein the EPA believes that the rule, if adopted, would control and reduce the noise of civil subsonic turbojet engine-powered airplanes to levels as low as is consistent with available safe technological capability without imposing unreasonable economic burdens on the users of those airplanes.

A. *Regulatory background.* (1) Part 36, "Noise Standards: Aircraft Type Certification," became effective December 1, 1969 (34 FR 18355), prescribing noise measurement, noise evaluation, and noise levels for the type certification, and changes to those certificates, for subsonic transport category airplanes, and for subsonic turbojet engine-powered airplanes regardless of category.

(2) Part 36, "Noise Standards: Aircraft Type Certification" was subsequently amended on October 26, 1973 (38 FR 29574), to require new production subsonic transport category and subsonic turbojet engine powered airplanes regardless of category to comply with the noise requirements of Part 36 irrespective of the date of the type certification.

(3) Advance notice of proposed rulemaking 70-44, "Civil Airplane Noise Reduction Retrofit Requirements," published on November 4, 1970 (35 FR 16980), proposed the retrofit of existing subsonic turbojet engine powered airplanes. This proposal has not been adopted as a final rule.

(4) Advance notice of proposed rulemaking 73-3, "Civil Airplane Fleet Noise (FNL) Requirements," published on January 30, 1973 (38 FR 2769), proposed the establishment of an interim upper limit on the cumulative noise levels of each fleet operator. Under the FNL concept there would then be a phased progressive reduction of those noise levels in accordance with a logarithmic equation until July 1978, when every airplane would be required to meet the noise standards of Appendix C of Part 36. Although the FAA was of the opinion that the FNL concept is considered to be the most appropriate course to follow within current technological capabilities, it expressly stated in the notice that the FNL concept did not imply a rejection of the retrofit program.

(5) After considering the comments in response to the foregoing ANPRM 73-3, NPRM 74-14—"Civil Aircraft Fleet Noise Requirements" was published on March 27, 1974 (39 FR 11302). Under the proposal civil subsonic turbojet engine-powered airplanes with maximum weights of 75,000 pounds or more would be required to conform to Part 36—"Noise Standards: Aircraft Type and Airworthiness Certification". As distinguished from the former ANPRM 73-3, Notice 74-14 would not utilize a logarithmic equation for the determination of fleet noise levels and would apply to all civil subsonic turbojet engine-powered airplanes having standard airworthiness certificates, weighing 75,000 pounds or more, and operated under Parts 91, 121, 123, 129 and 135. Although the FAA preferred that environmental problems affecting international civil aviation be resolved by ICAO, it did not believe that foreign registered aircraft should be excluded from a fleet noise level rule pending the development of appropriate international standards. Accordingly, as proposed, the rule was made applicable to foreign aircraft while operating in the U.S., except in the case of overflights.

B. *References.* In the development of this proposed rule, the EPA conducted its own studies and evaluated several pertinent studies made by other Federal agencies and private contractors. Those studies are listed herein for the information of all interested persons and are available for examination at the FAA Rules Docket Office, GC-24, 800 Independence Avenue, SW., Washington, D.C. 20590, or the EPA Office of Noise Control Programs, Crystal Mall No. 2, 1921 Jefferson Davis Highway, Arlington, Va. 20460. Copies of these studies prepared by Government Agencies are also for sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

C. *Introduction.* As applied to aircraft, source noise control is the application of basic design principles or special hardware to the engine/airframe combination to minimize the generation and radiation of noise. The technology of source noise control is time-dependent in that it is based upon the results of current, available, and future technology.

Current technology includes "shelf item" hardware and commonly known techniques and procedures that have been used effectively by some manufacturers. Available technology represents the results of research and development that have not been put into common practice but are available for implementation. Some performance testing may still be necessary, but reliability and effectiveness have been demonstrated in the laboratory and on model and full scale tests. Future technology represents the results of research now in progress that have not been fully tested but the results to date indicate high potential to a reasonable degree of confidence.

There is no doubt that the most effective use of technology to achieve maximum noise control is the design and development of new aircraft types. Applications of basic design principles and acoustical treatment for the control of noise can be exploited optimally when they can be integrated into the overall aircraft/engine design. Admittedly, modifications such as retrofit hardware are the least efficient use of that technology. The EPA believes that regulations for the control of aircraft noise should be constructed to be equally responsive to all technology, i.e., current, available and future, and to the extent practicable, be made applicable to all aircraft, i.e., existing, new production of an older type design, and new production aircraft of a new type design.

At the present time, there is a choice between two possible technical retrofits for noise reduction. One is known as "Quiet Nacelles" with "SAM", a sound absorbing material technology and the other is known as "Refan", a replacement of selected fan and turbine components within the engine, as well as nacelles with SAM. The Quite Nacelle technology is current for JT8D engines and available for JT3D engines, while the Refan technology may be available in the near future.

The noise proposals set forth in NPRM 74-14 only apply to available and current technology, i.e., Quiet Nacelles with SAM. Applications of future technology, i.e., Refan technology, would not be required unless subsequent amendments are adopted. Therefore, the EPA has advised the FAA that although it supports the proposals set forth in NPRM 74-14, some modifications would be necessary to bring significant relief to the public exposed to the airplanes covered by the proposed rule.

This new notice of proposed rule making is based upon the requirements proposed in NPRM 74-14 as modified by the recommendations submitted by the EPA pursuant to the mandates of section 611 of the Federal Aviation Act. Initially, it should be noted that these modified proposals apply to all civil subsonic turbojet engine-powered airplanes, regardless of weight, certificated in the standard airworthiness category. As proposed herein, they would also apply to foreign registered airplanes, operated within the U.S., except those engaged in overflights. However, since the retrofit requirements contained in this proposal reflect current and available SAM technology only, the EPA believes that the concept of a fleet noise level (FNL) similar to that proposed in NPRM 73-3 should also be considered to apply the benefits of future technology, such as a Refan, Core Engine, or Quiet Engine retrofit. The EPA accordingly is proposing a FNL rule to the FAA which would provide information that would be of assistance once future technology is determined to be current and available, in determining how and when such future technology should be applied to existing fleets.

The NASA Refan program directed to the JT8D powered airplanes indicates that a Refan retrofit for those airplanes may be practicable and perhaps superior to Quiet Nacelles in terms of lower noise levels as well as performance benefits. If so, a careful consideration should be given to a further retrofit or double retrofit program for those JT8D engine propelled airplanes previously retrofitted with Quiet Nacelles. The NASA Refan program, however, will not be completed before June of 1975, and even then additional performance and airworthiness testing will be required before the results of that program can be categorized as available technology.

The Air Transport Association (ATA) has stated in its comments to NPRM 74-14 that if any technology is to be applied to an existing machine as complex as a transport airplane, it should be fully developed, its effects should be known, the cost should be determinable, and the environmental improvement should be sufficient to justify the expenditure. The EPA shares this concern. Therefore, pending the results of the NASA Refan program the EPA has advised the FAA that it will withhold the submission of any proposal to implement the Refan retrofit of turbojet engine-powered airplanes. Should the results of that program indicate that Refan retrofit is practicable, economically reasonable, and will provide meaningful relief, the EPA will then submit a recommendation proposing to adjust Fleet Noise Level (FNL) requirements consistent with the noise level reductions available from Refan or other programs.

As previously stated, the EPA strongly supports the noise reduction requirements proposed by the FAA in NPRM 74-14. Therefore, to the extent that those standards are included herein it appears unnecessary to repeat the detailed justification set forth in that NPRM in support of those requirements. However, the principal differences between that NPRM and this proposed rule in regard to its applicability and the required installation of engine/nacelles listed by an operator are discussed herein under separate headings.

D. *Applicability.* As proposed in NPRM 74-14 the noise reduction requirements

XUM V40139 FEB 26 75 XUM

would apply to airplanes having a maximum weight of 75,000 pounds or more. The EPA believes that all turbojet engine-powered airplanes having a maximum weight of less than 75,000 pounds that do not meet the noise levels prescribed in Part 36, are capable of meeting those levels by applications of various retrofit or reengine options. Since all newly produced airplanes of that type must comply after January 1, 1975 with the noise levels prescribed in Part 36 (§§ 21.183(e) and 36.1(d) of the Federal Aviation Regulations, there appears to be no valid justification to permit those airplanes in the existing fleets to be operated indefinitely at their present noise levels. Therefore, as proposed herein, § 91.301 would apply the noise requirements of the proposed subpart E to all civil subsonic turbojet engine-powered airplanes regardless of weight.

For the reasons stated in NPRM 74–14, this proposal would also apply to all foreign civil airplanes when operating in the U.S. except when engaged in overflights. Since such overflights would not involve a takeoff or landing at an airport in the U.S., there is no need to include them in this proposal. The rule as proposed herein would also except airplanes not having standard airworthiness certificates such as those airplanes having an experimental, provisional, or restricted airworthiness certificate. As stated in NPRM 74–14, the FAA has not determined that a retrofit to Part 36 noise levels for those airplanes would be technologically practicable at this time.

E. *Installation of engine/nacelles.* As distinguished from NPRM 74–14, § 91.305 (c) of this proposal would require the scheduled installation of each engine/nacelle on operational airplanes of the operator, if he lists such engine/nacelles as part of his "on-the-shelf" inventory. The EPA believes that a proper noise reduction for each airplane is not achieved until all of the engine/nacelles for that airplane are retrofitted. Therefore, proposed § 91.305(a)(2) would also require the operator, after June 30, 1976, to have at least one-half of the modified engine/nacelles for those airplanes listed by the operator in its aircraft record or operations specifications. But under the proposed § 91.305(c) the remaining engine/nacelles stored in its warehouse, for example, could not be included as part of the required number, unless a schedule is established and maintained for the installation of those engine/nacelles on operational airplanes at the next periodic inspection that will permit their installation.

As drafted, the provisions of the proposed § 91.305(c) permit the Administrator to authorize the installation at a time other than that specified in the operator's schedule upon demonstration to the Administrator that compliance with the schedule would adversely affect the safety of the airplane involved due to such intermix problems as unbalanced weight, thrust, drag, etc.

F. *Compliance dates.* As proposed herein the compliance dates are the same as those proposed in NPRM 74–14. Comments received in response to that NPRM contained estimates for the lead time to deliver retrofit kits for the various U.S. manufactured airplanes which ranged from 9 to 12 months for the B–747 airplane, and 10 months for the B–727 airplane. For the DC–8, however, one commentator estimated 30 months.

In response to previous comments regarding the availability of retrofit hardware, an investigation was conducted by the FAA and it was determined that retrofit designs are either available, or are being flight tested for the many types of airplanes covered by this and previous retrofit proposals. Research and development done to date has demonstrated that the basic concepts of noise suppression of turbofan engines are valid acoustically, and materials and fabrication technologies can be developed to translate these concepts into hardware that could provide an economically reasonable and a technologically practicable means of significantly reducing the noise generated by most currently certificated turbofan engine-powered airplanes. The FAA believes that if all persons (manufacturers and operators) make a determined effort to comply with the retrofit of the airplanes covered by this proposal it can be accomplished within the compliance dates specified. The FAA is aware that this proposal includes the relatively few pure turbojet engine-powered airplanes currently in service. Since no acoustic modification exists for these engines, reengineing may be required to achieve conformance with the noise levels proposed herein by July, 1978. However, based upon the rate which these airplanes are being retired from service by U.S. operators it appears that few, if any, would remain in service in the U.S. by that date.

Retrofit technology is available for all other transports and most of the business jets. The remainder of the business jets as subsequently discussed under the retrofit technology (G), could be in compliance with Part 36 noise levels by July 1, 1978, by implementation of one of the reengine options.

As proposed in this notice, all airplanes covered by the proposal, (including those airplanes operated by air taxi operators, air travel clubs, and by persons in the furtherance of a business under Part 91) would be required to be in compliance with the Part 36 noise standards not later than July 1, 1978. However, since the air carriers (U.S. and foreign) operate most of the flights of the airplanes covered by this proposal, those operations far exceed operations by other persons in terms of community noise exposure nationwide. For that reason, the intermediate compliance date for one phase of the retrofit was retained in this proposal for airplanes having a maximum weight of 75,000 pounds or more and operated by the holder of a certificate under Parts 121 or 129 of the Federal Aviation Regulations.

G. *Current and available retrofit technology.* In May 1967, NASA contracted with the McDonnell Douglas Corporation and the Boeing Company to investigate nacelle noise control modifications for operational Douglas and Boeing transports powered by JT3D turbofan engines. The NASA program successfully demonstrated by flight tests in 1969, conceptual feasibility of nacelle modifications for controlling both approach and takeoff noise of JT3D propelled aircraft.

In June 1971, the FAA initiated a nacelle noise control project directed to retrofit of the current fleet of narrow body aircraft. This project extended the NASA program to include research and development of takeoff and approach noise control for both JT3D and JT8D propelled aircraft. The purpose of this project was to provide test data to assist in determining whether certain classes of turbofan propelled airplanes in the current fleet could be modified for meaningful noise reduction in a feasible manner. The research and development work was directed to providing acoustical treatment for engines/nacelles which would permit compliance with specified noise reduction goals and which would be flight weight, flight worthy, and capable of being certificated.

The FAA project was implemented by means of three separate contracts with appropriate airframe manufacturers. A task force consisting of representatives from the research and development, regulatory, and airworthiness services of the FAA was also established to monitor the progress of those contractors and to insure that a judgment of the feasibility of noise abatement retrofit modifications was based upon production hardware that would not compromise safety.

The results of the foregoing FAA nacelle retrofit project produced flight performance and cost data for 707, DC–8, 727, 737, and DC–9 type airplanes equipped with acoustical treatment which would permit compliance with the FAR 36 noise levels. The acoustical treatment investigated included sound absorption material (SAM) and a combination of SAM and a jet noise reducer (JNR). It was found that the least complex system consisting of SAM would enable the airplanes to achieve the FAR 36 noise levels or lower in some cases. It was also found that the more complex systems consisting of SAM+JNR have the capability of decreasing the noise to levels appreciably lower than those required by FAR 36.

Quiet Nacelles containing SAM have a negligible effect on aircraft performance and provide a practicable means for the older narrow bodied transport type airplanes to comply with FAR 36. There appears to be no appreciable degradation in field length requirements and direct operating costs but possibly a small loss in range for the airplanes so modified. However, there would be a meaningful reduction in airport community noise exposure; mainly for approach operations for JT8D propelled aircraft and for both takeoff and approach operations for JT3D propelled aircraft.

It was found that quiet nacelles containing SAM+JNR, in addition to costing more per shipset, would introduce substantial degradation in performance. The performance losses, however, are not necessarily irreversible. Uprating the airframe for loading and the engine for thrust (e.g., JT8D–9 to JT8D–15) will increase the range and reduce the required field length to values approaching those of the baseline production version. Quiet Nacelles with SAM are current and available technology for the Boeing family of JT3D and JT8D propelled airplanes. For the B–727 and B–737 airplanes, the treatment is minimal; the noise reduction benefits are negligible for sideline and takeoff but significant on approach, and the costs and performance losses are so modest that it is unreasonable not to include such treatment on all new aircraft. For B–707 airplanes, the treatment is more extensive: the noise reduction benefits are substantial at all three measuring positions but especially dominant at approach; the performance losses are small; and the costs are significant but not necessarily unreasonable from a cost-effectiveness viewpoint.

Quiet Nacelles with SAM are also current and available for the Douglas family of JT3D and JT8D propelled airplanes. The QN technology is current and available state of the art and the first nacelles or retrofit kits for those airplanes covered by this proposal could be delivered about six months after the effective date of a retrofit regulation.

With respect to those airplanes covered by this proposal which have a maximum weight less than 75,000 pounds, approximately 20 percent of those airplanes (the Falcon 20 and Cessna Citation) are powered by moderate bypass ratio turbofan engines certificated in accordance with the noise requirements of Part 36. The remaining 80 percent are powered by turbojet or very low bypass ratio turbofan engines with noise characteristics similar to that of the straight turbojet. The Gulfstream 2, the largest airplane in this class, has a takeoff and sideline noise level in excess of the FAR 36 requirements. However, Grumman, in concert with Rolls Royce, has defined a program to develop a noise suppression kit for that airplane utilizing hardware developed for the F28 and BAC111 which will meet the FAR 36 requirements.

The rest of the airplanes in the General Aviation fleet are powered by small (3000 to 3500 lbs. thrust) turbojet engines which are extremely compact engines. Since small engines are less tolerant of disturbances to the basic thermodynamic cycle, small size in itself can be a problem with regard to the application of sound absorption materials (SAM) in the engine nacelle. There are, however, reengine options available for the airplanes that will permit compliance with the FAR 36 requirements before the June 30, 1978, compliance date proposed herein.

For those airplanes that are marginally shy of meeting the FAR 36 requirements (Learjet, for example), a modified exhaust nozzle may be all that is necessary to meet the current standard. Such a program is being conducted with the potential to certify the Learjet to the FAR 36 noise requirement with a redesigned exhaust nozzle.

H. *Cost/Effectiveness of Retrofit.* As stated in the preamble to NPRM 74–14 an economic analysis of the cost impact of a retrofit on the collective operators indicates that it is economically reasonable, although individual operators may consider the costs to be financially burdensome. With respect to those airplanes covered by this proposal that are operated by U.S. and foreign air carriers the FAA has noted that the Civil Aeronautics Board generally allows fare adjustments in the domestic air carrier industry to reflect increases in operating costs. This adjustment would undoubtedly include the impact of retrofit as it affects the individual carriers. Fare adjustments to reflect increases in the operating costs for U.S. or foreign flag carriers should be made in a similar manner by the International Air Transport Association (IATA). Other means of financing may be considered.

For both JT8D and JT3D airplanes, the investment cost would be approximately 648 million dollars. Based upon the projected 1980 fleet of its members, the ATA estimates the cost of a SAM retrofit to be in excess of one-half billion dollars, including $27,674,000 for increased fuel costs and $2,420,000 for increased maintenance costs for the B–707 airplanes. (Comments of the ATA to NPRM 74–14.) The IATA estimates the modifications to cost approximately one million dollars for each 4 engine turbojet airplane, and roughly $250,000 for each two and three engine turbojet airplane. It estimates the total cost for all its world wide members to be approximately 1.5 billion dollars. (Policy Statement on Noise Retrofit, IATA).

EPA estimated that the cost of modifying the jet fleet of airplanes having a weight of less than 75,000 pounds to comply with FAR 36 levels is approximately 0.3 billion dollars.

Implementation of the retrofit options of Quiet Nacelles to the JT3D and JT8D fleet would effect a substantial decrease in the impact of noise on people. Based upon the noise impact methodology of Reference 14, the EPA estimates that the equivalent number of persons exposed to a Day-Night Level (Ldn) of 75 dB will be over 800,000 fewer people, nationally. This estimate includes, in addition to Quiet Nacelles, the combined effects of the introduction of new quieter aircraft into the fleet and the use of a two-segment approach procedure.

In consideration of the foregoing, it is proposed to amend Part 91 of the Federal Aviation Regulations by adding a new Subpart E to read as follows:

Subpart E—Noise Requirements

Sec.
91.301 Applicability.
91.303 Relation to Part 36.
91.305 Interim noise requirements: subsonic turbojet engine-powered airplanes having a maximum weight of 75,000 pounds or more.
91.307 Noise requirements: all subsonic turbojet engine-powered airplanes.

Subpart E—Noise Requirements

§ 91.301 Applicability.

This subpart prescribes noise requirements for the operation within the United States of any civil subsonic turbojet engine-powered airplane having

(a) A U.S. registration certificate and a standard category airworthiness certificate; or

(b) A foreign registration certificate and lands or takes off in the United States in the conduct of an operation for which a U.S. registered airplane is required to have a standard category airworthiness certificate.

§ 91.303 Relation to Part 36.

Unless otherwise specified, all references in this subpart to the requirements of Part 36 of this chapter, include the noise levels of Appendix C of that Part, as effective on December 1, 1969, notwithstanding the provisions of that part excepting certain aircraft from those noise levels and notwithstanding the tradeoff provisions of that part.

§ 91.305 Interim noise requirements: subsonic turbojet engine-powered airplanes having a maximum weight of 75,000 pounds or more.

(a) *U.S. air carriers and commercial operators.* After June 30, 1976, no person holding a certificate under the provisions of Part 121 of this chapter may operate, under that certificate, an airplane covered by this subpart having a maximum weight of 75,000 pounds or more, unless—

(1) That airplane meets the requirements of Part 36 of this chapter; or

(2) The certificate holder has demonstrated to the Administrator that at least one-half of the engine/nacelles for all the airplanes covered by this subpart having a maximum weight of 75,000 pounds or more and listed by the certificate holder in its aircraft record or operations specifications, as the case may be, are of a design that permits those aircraft types to meet the requirements of Part 36 if the engine/nacelles were deployed in a full set.

(b) *Foreign air carriers.* After June 30, 1976, no foreign air carrier holding operations specifications under the provisions of Part 129 of this chapter may operate, under those operations specifications, any airplane covered by this subpart having a maximum weight of 75,000 pounds or more unless—

(1) That airplane meets the requirements of Part 36 of this chapter; or

(2) The air carrier has demonstrated compliance with the requirements of paragraph (a)(2) of this section.

(c) *Installation of engine/nacelles.* Each person authorized to operate an airplane under the provisions of paragraph (a)(2) of this section shall establish and maintain a schedule for the installation of the engine/nacelles required by that paragraph on airplanes listed in its aircraft record or operations specifications, as the case may be. Unless

XUM
V 40 39 FEB 26 75 XUM

otherwise authorized by the Administrator for reasons of safety, such as unbalanced weight, thrust, or drag, each installation shall be scheduled to be performed at the first periodic inspection of the airplane at which the ground time is adequate to perform the installation.

§ 91.307 Noise requirements; all subsonic turbojet engine-powered airplanes.

After June 30, 1978, no person may operate any airplane covered by this subpart unless that airplane meets the requirements of Part 36 of this chapter.

(Secs. 313(a) 601, 603, and 611, Federal Aviation Act of 1958 (49 U.S.C. 1354(a)), 1421, 1423, 1424, and 1431 as amended by the Noise Control Act of 1972 (Pub. L. 92-574); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Washington, D.C. on February 20, 1975.

CHARLES R. FOSTER,
Director of Environmental Quality.

[FR Doc.75-5096 Filed 2-25-75;8:45 am]

[14 CFR Parts 121 and 129]

[Docket No. 14318; Notice No. 75-6]

FLEET NOISE LEVEL REQUIREMENTS

Proposed Regulations Submitted to the FAA by the Environmental Protection Agency

This notice of proposed rule making contains proposed regulations submitted by the Environmental Protection Agency (EPA) to the Federal Aviation Administration (FAA), pursuant to section 611 (c)(1) of the Federal Aviation Act of 1958, as amended by the Noise Control Act of 1972 (Pub. L. 92-574). Section 611(c)(1) of the Federal Aviation Act of 1958 provides that EPA shall submit to the FAA proposed regulations to provide such control and abatement of aircraft noise and sonic boom as EPA determines is necessary to protect the public health and welfare. That section also provides that the FAA "shall consider such proposed regulations submitted by EPA under this paragraph and shall, within thirty days of its submission to the FAA, publish the proposed regulations in a notice of proposed rulemaking." This notice is published pursuant to this provision of law.

The EPA proposals contained herein would amend Parts 121 and 129 of the Federal Aviation Regulations to require initial and annual reporting of noise data and operational information required to establish each operator's Fleet Noise Levels.

Interested persons are invited to participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC-24. Comments on the overall environmental aspects of the proposed rules are specifically invited. All communications received by the FAA on or before April 28, 1975, will be considered by the FAA Administrator before taking action upon the proposed rules. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the FAA Rules Docket for examination by interested persons. EPA has also indicated that information copies of public comments may be sent to: Director, Standards and Regulations Division, Office of Noise Abatement and Control (AW-571) U.S. Environmental Protection Agency, 1921 Jefferson Davis Highway, Arlington, Virginia 20460.

Pursuant to section 611(c) of the Federal Aviation Act of 1958, the FAA will hold one or more hearings with respect to the proposals contained in this notice. A separate notice of hearing will be published in the FEDERAL REGISTER in the near future. As required by section 611 (c), these hearings will be held no later than 60 days after publication of this document in the FEDERAL REGISTER.

The following EPA opinions, conclusions, and proposed regulatory language are published verbatim as received by the FAA on January 28, 1975.

EPA Proposal to FAA. Under the requirements of section 7(a) of the Noise Control Act of 1972 (Pub. L. 92-574, 86 Stat. 1234), the Administrator of the Environmental Protection Agency conducted a study of aircraft and airport noise and submitted a report thereon to the Congress. (Report on Aircraft/Airport Noise, Senate Committee on Public Works, Serial No. 93-8, Aug. 1973). Under section 611 of the Federal Aviation Act, as amended by the Noise Control Act of 1972, the Administrator of the EPA is also required, not earlier than the date of submission of his report to the Congress, to submit to the Federal Aviation Administration proposed regulations to provide such control and abatement of aircraft noise and sonic boom (including control and abatement of aircraft noise through the exercise of any of the FAA's regulatory authority over air commerce or transportation or over aircraft or airport operations) as the Administrator of the EPA determines is necessary to protect the public health and welfare. In accordance with the foregoing requirement, the EPA published in the FEDERAL REGISTER on February 19, 1974 (39 FR 6112) a notice of public comment period containing a synopsis of the proposed rules it is considering to achieve a satisfactory level of aircraft noise control and abatement for the protection of the public health and welfare.

The proposed rules and the type of control which each rule would implement are as follows:

Flight procedures noise control

(1) Takeoff procedures.
(2) Approach procedures.
(3) Minimum Altitudes.

Source noise control

(4) Retrofit/fleet nois level.
(5) Supersonic civil aircraft noise.
(6) Modifications to Part 36 of the Federal Aviation Regulations.
(7) Propeller driven small airplanes.
(8) Short haul aircraft.

Airport operations noise control

(9) Airport goals, mechanisms and processes by which noise exposure of communities around airports can be limited to level consistent with public health and welfare requirements.

This proposed rule, identified as the Fleet Noise Level portion of item (4) above, is one of the five whose purpose is to monitor and assess the fleet operator's implementation of operational control and/or engineering noise control at the source. As proposed herein the EPA believes that the rule, if adopted, will encourage control and reduction of civil airplane fleet noise to levels as low as is consistent with available safe technological capability without imposing unreasonable economic burdens on the users of those airplanes.

A. *Regulatory Background.* (1) Part 36, "Noise Standards: Aircraft Type Certification", became effective December 1, 1969 (34 FR 18355), prescribing noise measurement, noise evaluation, and noise levels for the type certification, and changes to those certificates, for subsonic transport category airplanes, and for subsonic turbojet engine-powered airplanes regardless of category.

(2) Part 36, "Noise Standards: Aircraft Type Certification" was subsequently amended on October 26, 1973 (38 FR 29574), to require new production subsonic transport category and subsonic turbojet engine-powered airplanes regardless of category to comply with the noise requirements of Part 36 irrespective of the date of the type certification.

(3) Advance Notice of Proposed Rulemaking 70-44, "Civil Airplane Noise Reduction Retrofit Requirements", published on November 4, 1970 (35 FR 16980), proposed the retrofit of existing subsonic turbojet engine-powered airplanes. This proposal has not been adopted as a final rule.

(4) Advance Notice of Proposed Rulemaking 73-3, "Civil Airplane Fleet Noise (FNL) Requirements", published on January 30, 1973 (38 FR 2769), proposed the establishment of an interim upper limit on the cumulative noise levels of each fleet operator. Under the FNL concept there would then be a phased progressive reduction of those noise levels in accordance with a logarithmic equation until July, 1978, when every airplane would be required to meet the noise standards of Appendix C of Part 36. Although the FAA was of the opinion that the FNL concept was considered to be the most appropirate course to follow within current technological capabilities, it expressly stated in the notice that the FNL concept did not imply a rejection of the retrofit program.

(5) After considering the comments in response to the foregoing ANPRM 73-3, the FAA issued NPRM 74-14 "Civil Aircraft Fleet Noise Requirements" on March 27, 1974 (39 FR 11302). Under that proposal civil subsonic turbojet engine-powered airplanes with maximum weights of 75,000 pounds or more would be required to conform to Part 36—"Noise Standards: Aircraft Type and Airworthiness Certification". As distinguished from the former ANPRM 73-3, NPRM 74-14 would not utilize a logarithmic equation for the determination of fleet noise levels. It would apply to all civil subsonic turbojet engine-powered airplanes having standard airworthiness certificates, weighing 75,000 pounds or more, and operated under Parts 91, 121, 123, 129 and 135. Although the FAA preferred that environmental problems affecting international civil aviation be resolved by ICAO, it did not believe that foreign registered aircraft should be excluded from a fleet noise level rule pending the development of appropriate international standards. Accordingly, as proposed, the rule was made applicable to foreign aircraft while operating in the U.S., except in the case of overflights.

B. *References.* In the development of this proposed rule, the EPA conducted its own studies and evaluated several pertinent studies made by other Federal agencies and private contractors. Those studies are listed herein for the information of all interested persons and are available for examination at the FAA Rules Docket Office, GC-24, 800 Independence Avenue, SW., Washington, D.C. 20590, or the EPA Office of Noise Control Programs, Crystal Mall No. 2, 1921 Jefferson Davis Highway, Arlington, Va. 20460. Copies of these studies prepared by Government Agencies are also for sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

C. *Introduction.* The Fleet Noise Level (FNL) concept was initially proposed by the FAA in ANPRM 73-3 described in paragraph (4), above, of the regulatory background. As proposed in that notice, the FNL concept is based upon the principle that a meaningful single-number evaluator (figure-of-merit) of the noise generated by a fleet of airplanes could be expressed by the logarithmic average of the product of the noise level of each type of airplane and the number of operations performed by that type of airplane over a representative period of time. The EPA studies leading to the EPA report to Congress on aircraft and airport noise (Ref. 1, above), which included a study of FAA regulatory actions, made the following conclusion in regard to the concept and structure of the FNL:

> The concept and structure of the FNL proposal appears adequate to effectively exploit the current technology (nacelle retrofit) and to allow and encourage the near future technology (refan retrofit) to contribute as it becomes operable, and to encourage the phaseout of existing aircraft by the introduction of new wide-body and other quiet aircraft. In addition, the FNL concept would periodically provide a great deal of useful information to the Government on air-carrier fleet size, mix, and utilization.

Although the principle and concept are sound, the FAA's proposal for the use of this concept in the noise control rule proposed in ANPRM 73-3 met with considerable opposition, and it was subsequently reissued in a modified form as a new notice of proposed rule making (NPRM 74-14). That NPRM required either the retrofit of operational aircraft which do not meet the requirements of Part 36 with current and available noise control technology, or the retirement of those aircraft from fleet operations. In a separate rule making action the EPA has recommended the adoption of the retrofit proposals made by the FAA, but recommends that the provisions of the retrofit proposal be extended to all turbojet engine-powered airplanes.

The EPA believes that the concept and principle of deriving a quantitative noise figure-of-merit for fleet operations such as FNL, as originally proposed by the FAA, is good, and can be modified as a reporting requirement that may be used to provide the operator, the Government, and the public with a mechanism for evaluating and adjusting fleet composition and utilization to achieve lower individual and overall FNLs.

D. *Applicability.* The original FAA proposal met with some opposition because, among other things, it was applicable only to air-carriers engaging in interstate air commerce. Therefore, although it applied to United States domestic air carrier fleets, it did not apply to overseas operations of domestic air carriers, intrastate operators, or to operations into and out of the United States by foreign air carriers. To correct that deficiency the rule as proposed herein would apply to all U.S. and foreign air carriers conducting operations within, into, or out of the United States. Moreover, it would apply to commercial operators such as contract carriers and intrastate commerce carriers conducting operations under Part 121. As proposed the rule would apply to all civil subsonic turbojet engine-powered airplanes regardless of weight, and to future supersonic airplanes, i.e., those airplanes for which an application for a type certificate is made after August 6, 1970. This date would not include the present Concorde or TU-144 supersonic airplanes for which an environmental noise impact assessment would be required under a separate rule making action recommended by the EPA. In addition, the proposed rule would not include fleets operated by air taxi operators, travel clubs, or persons operating an aircraft as an incident to their business. Application to those fleet operations is believed to be impractical and unwarranted at this time.

E. *Purpose.* The air-carrier fleets are the primary cause of the noise impact areas in the vicinity of the approximately 400 major air-carrier airports in the United States. Separate rulemaking action related to retrofit of airplanes in these fleets, if promulgated as a rule, will insure implementation of current noise control technology on the existing air-carrier fleet. After such action, however, there are no plans for implementation of future technology as it becomes current and available. Therefore, the EPA believes that a noise level, using a single-number figure-of-merit denoted as FNL, should be established for each air carrier. This FNL would offer the public, the Government and the operators a convenient method of monitoring the relative noise output of each fleet. In addition, it would provide a uniform method of determining whether the fleet operators were taking advantage of current and available noise reduction options.

Although the EPA believes that the establishment of a FNL would also provide a regulatory mechanism, if necessary, for lowering noise levels whenever future technology becomes current and available, this proposal only requires the reporting of the actual FNLs, of those operators covered by the proposal. Should it appear necessary to establish a mandatory FNL it would, of course, be accomplished by separate rulemaking actions if the FAA finds that sufficient technology options are available to achieve a particular level and those options are technologically practicable and economically reasonable.

XUM
V 40 39 FEB 26 75 XUM

F. *Methodology.* The logarithmic average formula used in the FNL computation weights the noise from each airplane approximately as the human ear responds (in the same manner, for example, as the Ldn methodology recommended by the EPA for cumulative noise exposure). The noisiest airplanes are given the most emphasis by the formula, clearly indicating which airplanes produce the greatest noise impact and which need the most noise control. All of the information required for the formula (noise levels of each airplane type and their number of operations) is routinely available. The noise levels of all airplanes involved are available from the FAA Advisory Circular AC 36-1, or in the case of future airplanes will be available as a result of Part 36 noise certification. The yearly operations of all air carrier and commercial operators are also available since they are routinely provided to the FAA and/or the CAB by these operators. It is not anticipated that any additional information or data acquisition will be necessary under this proposal. Although the computation of the FNL of each operator will be necessary, it can be readily accomplished by the operators concerned by using a scientific desk or pocket calculator or slide rule.

The proposed rule would also require the airlines and operators covered by the rule to provide their FNLs for publication in the Federal Register each calendar year. This publication would also include the relative difference between the actual FNL and the FNL that would result if the airplanes complied with the FAR 36 noise levels. It is this difference that would be the true figure-of-merit by which all airlines could be compared.

The foregoing establishment of a FNL is simple and imposes no undue burden upon the operators covered by this proposal. The EPA believes that establishing FNLs on an annual average basis is more appropriate and administratively far more practicable than the original FAA proposal of ninety day evaluation periods. Additionally, the reported FNLs could easily constitute a concise noise assessment for current or proposed operational changes by one or more operators.

In consideration of the foregoing, it is proposed to amend Parts 121 and 129 of the Federal Aviation Regulations as follows:

1. By amending Part 121, by adding a new subpart X and Appendix G to read as follows:

Subpart X—Fleet Noise Levels (FNL)

Sec.
121.801 Applicability.
121.803 Inspection authority.
121.805 Relation to Part 36.
121.807 Weight limits: operating limitations.
121.809 Noise level data and information.
121.811 Procedure for determining initial FNL values.
121.813 Annual reporting requirements.
121.815 Annual publication of FNLs.
Appendix G—Fleet noise level calculations.

Subpart X—Fleet Noise Level Requirements

§ 121.801 Applicability.

(a) This subpart prescribes noise data and information reporting requirements effective on and after January 1, 1976, for the operation within the United States of any civil subsonic or future supersonic turbojet engine-powered airplane by each certificate holder covered by § 121.1.

(b) As used in this subpart, a future supersonic turbojet engine-powered airplane means an airplane of that type for which an application for a type certificate or an amendment thereto, is made after August 6, 1970.

§ 121.803 Inspection authority.

Each certificate holder shall allow the Administrator at any time or place, to make any inspections of records, data, and facilities necessary to determine continuing compliance with this subpart. All required records and data shall be maintained in current status by the operator for this purpose at his business office or operations base.

§ 121.805 Relation to Part 36.

(a) Unless otherwise specified, all references in this subpart to the requirements of Part 36 of this chapter, include the noise levels of Appendix C of that Part, as effective on December 1, 1969, notwithstanding the tradeoff provisions of that part.

(b) All data and information submitted under this subpart for the purpose of establishing sideline, takeoff, and approach noise levels of individual airplane types must be adequate to show equivalence with §§ 36.3, 36.5, 36.101, 36.103, 36.1501, 36.1581, C36.1, C36.3, C36.7, and C36.9 of Part 36 of this chapter. The noise levels for a particular airplane type are determined by the Administrator in accordance with those sections.

§ 121.807 Weight limits: operating limitations.

Any weight, less than maximum weight or design landing weight, that is used in determining the sideline, takeoff, or approach noise, respectively, for any airplane under this subpart must be established as an operating limitation for that airplane. The noise levels associated with weights less than maximum, not determined in accordance with Part 36 of this chapter, shall be approved by the Administrator.

§ 121.809 Noise level data and information.

(a) Except as provided in paragraph (b) of this section, no certificate holder may operate an airplane covered by this subpart unless he has submitted to the Administrator:

(1) The total number of takeoffs and approaches conducted by him during the 12 months preceding January 1, 1976;

(2) All data and information necessary to determine the sideline, takeoff, and approach noise levels of each airplane covered by this subpart and operated by him during the 12 months preceding January 1, 1976; and

(3) Based upon the data and information in subparagraphs (1) and (2) of this section, the sideline, takeoff, and approach FNLs computed under Appendix G of this part, that were generated by that operator for the 12 month period described in paragraph (b) of this section.

(b) A person who is issued an operating certificate on or after January 1, 1976, shall submit the data and information required in paragraph (a) of this section for operations conducted within the 12 months immediately after the date on which that certificate was issued.

§ 121.811 Procedure for determining initial FNL values.

(a) For the information of all interested persons, the initial set of sideline, takeoff and approach FNLs computed by each certificate holder under § 121.809 (b)(3) and concurred in by the Administrator are published in the FEDERAL REGISTER as soon as practicable after receipt thereof by the Administrator.

(b) If an operator is unable to establish a representative sideline, takeoff, or approach FNL, an FNL that the Administrator determines is reasonable and representative of that certificate holder's experience is published in the FEDERAL REGISTER as the FNL for that certificate holder.

(c) Each determination made by the Administrator under paragraph (b) of this section becomes effective 60 days after publication thereof in the FEDERAL REGISTER unless the operator petitions the Administrator personally to reconsider that determination. The petition must be accompanied by all data and information upon which the reconsideration is based.

(d) Unless otherwise notified by the Administrator, whenever a petition for reconsideration of a FNL is made under paragraph (c) of this section, the effective date of that FNL is postponed pending the disposition thereof by the Administrator.

(e) After consideration of all relevant material presented in the petition, the Administrator republishes any changes in the FNL that he finds reasonable and representative for that certificate holder, or notifies the certificate holder of the denial.

(f) Unless otherwise notified by the Administrator, each FNL for which an operator has requested a reconsideration under this section shall become effective 30 days after the date that the change is published in the FEDERAL REGISTER, or the certificate holder is notified of the denial.

§ 121.813 Annual reporting requirements.

Each certificate holder shall prepare a report containing the data and information required in § 121.809 for each calendar year in which he conducts operations under this Part. It shall be submitted to the Administrator within 60 days after the last day of the calendar year covered by the report.

§ 121.815 Annual publication of FNLs.

Within thirty days after receipt of the annual data and information required in § 121.813, a notice of the Fleet Noise Levels appropriate to each certificate holder is published in the FEDERAL REGISTER for the information of all interested persons. The notice includes the name of each certificate holder, his most recently reported FNLs and the relative differences between his actual FNLs and the FNLs that could be achieved if the noise levels of his airplane were equal to those required by Part 36 of this chapter for airplanes having corresponding weights.

APPENDIX G—FLEET NOISE LEVEL CALCULATIONS

SECTION 1. *General.* This Appendix contains the methods of calculating the sideline, takeoff, and approach fleet noise levels (FNL) of an operator's fleet under Subpart X of this Part.

SEC. 2. *Mean Logarithmic Equation.* The following mean logarithmic equation shall be used:

$$FNL = 10 \log \frac{\sum_{j=1}^{n} (Nj) \text{ ant } (Lj/10)}{\sum_{j=1}^{n} (Nj)}$$

where:
FNL = Fleet Noise Level, in units of dB.
Nj = Number of operations for airplane type j.
Lj = Noise level of airplane type j at a Part 36 measuring point, determined as specified in § 121.805, in units of EPNdB.

Three Fleet Noise Levels are computed using the above formula; one for each of the three (sideline, takeoff, and approach) noise levels, Lj, for each aircraft type.

2. By amending Part 129 by adding new sections and an appendix to that Part prescribing the same FNL requirements proposed in section 1, above, for those operations conducted by each foreign air carrier to or from an airport located within the United States.

(Secs. 313(a), 601, 603, 604, 607, and 611 of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1354, 1421, 1423, 1424, 1427, and 1431); sec. 2(b)(2) and 6(c) of the Department of Transportation Act (49 U.S.C. 1651 (b)(2) and 1655(c)).)

Issued in Washington, D.C. on February 20, 1975.

CHARLES R. FOSTER,
Director of Environmental Quality.

SOUTH CAROLINA

Proposed Supplements to Approved Plan; Correction

The document concerning proposed supplements to the South Carolina Plan under Subpart C of Part 1952 of Chapter XVII of Title 29 of the Code of Federal Regulations, published in the FEDERAL REGISTER on Thursday, January 23, 1975, at 40 FR 3606, is corrected by changing the address of the State designee, the South Carolina Department of Labor, from 1710 Gervais Street, Columbia, South Carolina 29201, to 3600 Forest Drive, Fourth floor, Columbia, South Carolina 29204.

The mailing address of the South Carolina Department of Labor remains Post Office Box 11329, Columbia, South Carolina 29211.

Signed at Washington, D.C. this 20th day of February, 1975.

JOHN STENDER,
Assistant Secretary of Labor.

(FRL 336-8)

INDIANA IMPLEMENTATION PLAN

Proposed Revision

On May 31, 1972 (37 FR 10864), pursuant to section 110 of the Clean Air Act, 42 U.S.C. 1857c5, the Administrator approved, with specific exceptions, the implementation plan submitted by the State of Indiana for attainment of the national ambient air quality standards.

On September 26, 1974 (39 FR 34563), the Administrator disapproved the legal authority of selected States having previsions in their State codes which would deny the public free access to all emission data collected by any State agency. The State of Indiana was included in those States that were disapproved.

On October 10, 1974, the State of Indiana submitted a plan revision to the Regional Administrator. The revision specifically excludes "effluent or emission data" from those records which will be considered, treated, or protected as confidential by the technical secretary of the Indiana Air Pollution Control Board. The purpose of this notice is to announce receipt of this plan revision and to invite public comment.

Copies of this plan revision submitted by the State of Indiana are available for public inspection during regular business hours at the EPA Regional Office, Region V, Federal Building, 230 South Dearborn, Chicago, Illinois 60604 and the Freedom of Information Center, EPA, 401 M Street, SW., Washington, D.C. 20460.

Interested persons may participate in this rulemaking by submitting comments in triplicate to the Division of Stationary Source Enforcement, Washington, D.C. Attention: Mr. Barry Russell. All comments received on or before March 28, 1975 will be considered.

(42 U.S.C. sec. 1857C-5(a))

Dated: February 20, 1975.

ROGER STRELOW,
Assistant Administrator for Air and Waste Management.

[40 CFR Part 52]

[FRL 336-2]

APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Kansas: Approval and Disapproval of Compliance Schedules

On May 31, 1972 (37 FR 10842), pursuant to section 110 of the Clean Air Act and 40 CFR Part 51, the Administrator approved portions of State plans for implementation of the national ambient air quality standards, and on September 22, 1972, in the FEDERAL REGISTER (37 FR 19809), the Administrator promulgated § 52.876 Compliance Schedules as a part of the Kansas Implementation Plan.

The State of Kansas submitted to the Environmental Protection Agency compliance schedules as variances and enforcement orders to be considered as proposed revisions to the approved plans pursuant to 40 CFR 51.6 and 40 CFR 51.7(d)(2). 40 CFR 51.8 requires the Administrator to approve or disapprove compliance schedules submitted by the States. Therefore, the Administrator proposes the approval and disapproval of the compliance schedules listed below.

The approvable schedules were adopted by the States and submitted to the Environmental Protection Agency after notice and public hearings in accordance with the procedural requirements of 40 CFR 51.4, 51.6, and 51.7(d) (2) and the substantive requirements of 40 CFR 51.15 pertaining to compliance schedules. The compliance schedules have been reviewed and determined to be consistent with the approved control strategies of Kansas.

Each approved revision establishes a new date by which the individual source must comply with the applicable emission limitation in the federally approved State Implementation Plan. This date is indicated in the table below, under the heading "Final Compliance Date."

The following schedules are amendments to previously proposed compliance schedules: Clay Center Dehydrating Company, Clay Center; Colorado Interstate Gas Company, Lakin; Predonia Dehydrating & Milling Company, Fredonia; Mid-America Dairymen, Sabetha; North Central Foundry, Inc., Enterprise; Satanta District Hospital, Satanta; U.S.D. #256, Moran; U.S.D. 457, Garden City; Western Alfalfa Corporation, Lowe; Certain-Teed Products, Kansas City; C. K. Products Company, Inc., Salina; Northern Natural Gas, Holcomb; Owens-Corning Fiberglas Corp., Kansas City; Rodney Milling Company, Topeka; U.S.D. #415, Hiawatha; U.S.D. #506, Altamont; Buffalo Industry, Inc., Garden City; Central Non-Ferrous, Inc., Fort Scott; Mesa Petroleum Company, Ulysses; National Gypsum Company (Gold Bond Products), Medicine Lodge; C. K. Processing Company, Manhattan; Western Alfalfa, Belle Plaine; Western Alfalfa, Garden City; Western Alfalfa, Larned; Western Alfalfa, Oxford; Western Alfalfa, Peterson; Coffeyville Memorial Hospital, Coffeyville; Bayer Construction Company,

V 40 39 FEB 26 75 XUM

Manhattan, and Greenwood County Hospital, Greenwood.

The schedules proposed to be disapproved in this notice fail to meet the requirements of 40 CFR 51.15(b)(1), in that the compliance schedules extend beyond the attainment date in the State Implementation Plan. The schedule for Western Iron & Foundry Company, Wichita, is disapproved as not being expeditious.

In the indication of proposed approval and disapproval of individual compliance schedules, the individual schedules are included by reference only. In addition, since the large number of compliance schedules preclude setting forth detailed reasons for approval or disapproval of individual schedules in the FEDERAL REGISTER, an evaluation report has been prepared for each individual compliance schedule. Copies of these evaluation reports are available for public inspection at the Environmental Protection Agency Regional Office, 1735 Baltimore, Kansas City, Missouri 64108. The compliance schedules proposed to be approved or disapproved, and the State Implementation Plans are available for public inspection at the Environmental Protection Agency Regional Office; the Environmental Protection Agency, Division of Stationary Source Enforcement, 401 M Street, Washington, D.C.; and the Kansas State Department of Health and Environment, Forbes Air Force Base, Building 740, Topeka, Kansas.

Interested persons may participate in this rulemaking by submitting written comments in triplicate to the Region VII Office at the above address. All comments submitted by March 28, 1975, will be considered. All comments received, as well as copies of the applicable implementation plans, will be available for inspection during normal business hours at the Regional Office.

This proposed rulemaking is issued under the authority of section 110(a) of the Clean Air Act, as amended, 42 U.S.C. 1857c-5.

Dated: February 12, 1975.

CHARLES V. WRIGHT,
Acting Regional Administrator.

It is proposed to amend Part 52 of Chapter I, Title 40 of the Code of Federal Regulations as follows:

Subpart R—Kansas

1. In § 52.876, the tables in paragraph (c)(1) and (c)(2) are amended by adding the following:

§ 52.876 Compliance schedules.

(c) • • •

[40 CFR Part 52]

[FRL 337-6]

COMMONWEALTH OF MASSACHUSETTS

Approval and Promulgation of State Implementation Plans

On May 31, 1972 (37 FR 10842) pursuant to section 110 of the Clean Air Act and 40 CFR 52, the Administrator approved with exceptions the Massachusetts Implementation Plan for attainment of national ambient air quality standards. Included in this approval were the Regulations for the Control of Air Pollution in the six Massachusetts Air Pollution Control Districts. Regulation 50—Variances thereof, as originally submitted was disapproved by EPA on July 16, 1973 (38 FR 18879) and EPA substituted a new regulation for it, 40 CFR 52.1131, (38 FR 18880). On November 14, 1974 the Massachusetts Governor, Francis W. Sargent, submitted for EPA approval a proposed revision to Regulation 50. This new revision is to take the the place of that promulgated by the Environmental Protection Agency. The Administrator hereby issues this notice setting forth the Massachusetts submittal as proposed rulemaking and advises the public that comments may be submitted as to whether it meets the requirements of section 110(a)(2)(A-H) of the Clean Air Act and EPA regulations in 40 CFR Part 51.

Prior to this amendment, a variance for one year could be granted freely, or upon application, to any person as deemed necessary for the public good or to allay hardships.

The proposed change would list specific criteria which must be met by the applicant, before the variance could be granted for the period prescribed by the Federal law.

The amended variance regulation would require the applicant to have made good faith efforts to comply with the Regulations prior to the variance petition. Variances may then be granted under this proposal if the department finds that (a) compliance or enforcement of the regulation is impractical due to lack of technology, (b) compliance is impossible due to unavoidable delays in obtaining control equipment, (c) compliance is interfered with due to acts of nature, or (d) when the benefits anticipated would be substantially outweighed by the cost to the applicant and to the public and granting the variance would not have a significantly deleterious effect on public health. Variances granted may not extend beyond May 31, 1975 and are subject to approval by the Administrator of EPA.

Copies of the Massachusetts submission are available for public inspection during normal business hours at the Environmental Protection Agency, Region I, J.F.K. Federal Building, Room 2113, Boston, Massachusetts 02203; the Commonwealth of Massachusetts, Department of Public Health, Division of Environmental Health, Bureau of Air Quality Control, Room 320, 600 Washington Street, Boston, Massachusetts 02111; Board of Health Office, Pittsfield, Massachusetts, Central Massachusetts Air Pollution Control District, 75B Grove Street, Worcester, Massachusetts; Merrimack Valley Air Pollution Control District, Tewksbury State Hospital, Regional Health Office, Tewksbury, Massachusetts, Pioneer Valley Air Pollution Control District, 1414 State Street, Springfield, Massachusetts; Southeastern Massachusetts Air Pollution Control District, Southeast Regional Health Office, Lakeville State Hospital, Lakeville, Massachusetts; and the Freedom of Information Center, Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460.

Interested persons may participate in this rulemaking by submitting written comments, preferably in triplicate, to the Regional Administrator, Environmental Protection Agency, Region I, J.F.K. Federal Bldg, Room 2113, Boston, Massachusetts 02203. Relevant comments received within 30 days of this notice will be considered. Receipt of comments will be acknowledged but substantive responses to individual comments will not be provided. Comments received will be available during normal working hours at the Region I office. All relevant matter presented shall be evaluated and the agency will incorporate in the rules adopted a concise general statement of their basis and purpose.

Authority: Sec. 110(a) of the Clean Air Act, as amended, 42 U.S.C. 1857c-5(a).

Dated: February 18, 1975.

JOHN A. S. MCGLENNON,
Regional Administrator,
Environmental Protection Agency.

[FR Doc.75-5021 Filed 2-25-75;8:45 am]

FEDERAL ENERGY ADMINISTRATION

[10 CFR Part 211]

CRUDE OIL RUNS FOR OLD OIL ALLOCATION PROGRAM

Inclusion of Canadian Plant Condensate

The Federal Energy Administration hereby gives notice of a proposal to amend Part 211, Chapter II of Title 10, Code of Federal Regulations to permit inclusion of plant condensate imported from Canada in a refiner's crude oil runs to stills for purposes of the old oil allocation program. The plant condensate so imported is a natural gas liquid produced in Canadian gas processing plants.

Because Canadian plant condensate is not currently considered crude oil for purposes of calculating the volume of a refiner's crude oil runs to stills under the old oil allocation program, its price is effectively raised relative to imported crude oil which receives entitlements under the program when processed by a refiner. As a consequence of the present treatment of Canadian plant condensate under the program, nominations by United States refiners for purchases of the product have fallen significantly due to its higher effective cost. FEA has been advised that the volumes of unsold condensate will necessarily result in curtailments in the operations of Canadian gas plants, since the unsold volumes will within a short period of time exceed the capacity of their storage facilities. Furthermore, curtailments in the operations of Canadian gas plants will also cause a substantial decrease in Canadian natural gas production for export. FEA did not intend the structure of the program to have the effect of reducing deliveries of natural gas, which is already in short supply, with the resulting adverse impact on the regions of the United States which are dependent on Canadian natural gas.

For these reasons, FEA proposes to amend its regulations to provide that Canadian plant condensate constitutes an eligible component of a refiner's crude oil runs to stills for purposes of the old oil allocation program. Under the proposed amendment to § 211.67, the volume of a refiner's crude oil runs to stills would be increased by the volume of plant condensate imported from Canada which is processed by that refiner. In addition, a definition of "plant condensate" would be added in § 211.62. Plant condensate is defined as a natural gas liquid composed of mostly pentanes and heavier hydrocarbons, recovered and separated as a liquid at gas inlet separators or scrubbers in processing plants or field facilities and which is not suitable for blending with natural gasoline or refinery gasoline.

The proposed amendment, if adopted, would be effective with respect to volumes of Canadian plant condensate included in refiners' crude runs in the month of February 1975 and subsequent months.

As required by section 7(c)(2) of the Federal Energy Administration Act of 1974, Pub. L. 93-275, a copy of this notice has been submitted to the Administrator of the Environmental Protection Agency for his comments concerning the impact of this proposal on the quality of the environment. The Administrator had no comments to offer in this regard.

A public hearing on this proceeding will be held beginning at 9:30 a.m. on March 12, 1975, Room 3000, FEA, 12th and Pennsylvania Avenue, NW., Washington, D.C., to receive comments from interested persons on the matters set forth herein. Any person who has an interest in the subject of the hearing, or who is a representative of a group or class of persons which has an interest in the subject of the hearing, may make a written request for an opportunity to make an oral presentation. Such a request should be directed to Executive Communications, Room 3309, FEA, and must be received before 4:30 p.m., e.s.t., March 5, 1975. Such a request may be hand delivered to Room 3309, Federal Building, 12th and Pennsylvania Avenue, NW., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday. The person making the request should be prepared to describe the interest concerned; if appropriate, to state why he is a proper representative of a group or class of persons which has such an interest; and to give a concise summary of the proposed oral presentation and a phone number where he may be contacted through March 11, 1975.

Each person selected to be heard will be so notified by the FEA before 4:30 p.m., e.s.t., March 7, 1975 and must submit 100 copies of his statement to Executive Communications, FEA, Room 3309, Federal Building, Washington, D.C. 20461, before 4:30 p.m., e.s.t., March 11, 1975.

The FEA reserves the right to select the persons to be heard at the hearing, to schedule their respective presentations, and to establish the procedures governing the conduct of the hearing. Each presentation may be limited, based on the number of persons requesting to be heard.

An FEA official will be designated to preside at the hearing. It will not be a judicial or evidentiary-type hearing. Questions may be asked only by those conducting the hearing, and there will be no cross-examination of persons presenting statements. Any decision made by the FEA with respect to the subject matter of the hearing will be based on all information available to the FEA. At the conclusion of all initial oral statements, each person who has made an oral statement will be given the opportunity, if he so desires, to make a rebuttal statement. The rebuttal statements will be given in the order in which the initial statements were made and will be subject to time limitations.

Any interested person may submit questions, to be asked of any person making a statement at the hearing, to Executive Communications, FEA, before 4:30 p.m., e.s.t., March 10, 1975. Any person who makes an oral statement and who wishes to ask a question at the hearing may submit the question, in writing, to the presiding officer. The FEA or the presiding officer, if the question is submitted at the hearing, will determine whether the question is relevant, and whether time limitations permit it to be presented for answer.

Any further procedural rules needed for the proper conduct of the hearing will be announced by the presiding officer.

A transcript of the hearing will be made and the entire record of the hearing, including the transcript, will be retained by the FEA and made available for inspection at the Administrator's Reception Area, FEA, Room 3400, 12th and Pennsylvania Avenue, NW., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday. Anyone may purchase a copy of the transcript from the reporter.

Interested persons are invited to participate in this rulemaking by submitting data, views, or arguments with respect to the proposed regulations set forth in this notice to Executive Communications, Room 3309, Federal Energy Administration, Box CH, Washington, D.C. 20461.

Comments should be identified on the outside envelope and on documents submitted to the FEA, Executive Communications, with the designation "Canadian Plant Condensate". Fifteen copies should be submitted. All comments received by March 10, 1975 and all other relevant information will be considered by the FEA before final action is taken on the proposed regulations.

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in writing, one copy only. The FEA reserves the right to determine the confidential status of the information or data and to treat it accordingly.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93-159; Federal Energy Administration Act of 1974, Pub. L. 93-275; E.O. 11790, 39 FR 23185)

In consideration of the foregoing, it is proposed to amend Part 211, Chapter II of Title 10, Code of Federal Regulations, as set forth below.

Issued in Washington, D.C. on February 21, 1975.

ROBERT E. MONTGOMERY, JR.,
General Counsel.

1. Section 211.62 is amended by adding a definition for "plant condensate" in the appropriate alphabetical order to read as follows:

§ 211.62 Definitions.

• • • • • •

"Plant condensate" means a natural gas plant product, mostly pentanes and heavier hydrocarbons, recovered and separated as a liquid at gas inlet separators or scrubbers in processing plants or field facilities and which is not suitable for blending with natural gasoline or refinery gasoline.

• • • • • •

2. Section 211.67 is amended by adding a new paragraph (d)(3) to read as follows:

§ 211.67 Allocation of Old Oil.

• • • • • •

(d) *Adjustments to volume of crude oil runs to stills.*

• • • • • •

(3) The volume of a refiner's crude oil runs to stills in a particular month for purposes of calculating its old oil supply ratio and the adjusted national old oil supply ratio shall include the total number of barrels of plant condensate imported from Canada which is utilized in that month as an input to distillation

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR—Parts 2, 91, 93, 95]

[Docket 20120]

CITIZENS RADIO SERVICE

Operating Rules for Class D Stations; Extending Time To File Reply Comments

1. Special Industrial Radio Service Association, Inc. (SIRSA) requests an extension of time until March 14, 1975, within which to file reply comments in the captioned matter. The closing date for reply comments is February 15, 1975.

2. The request is predicated on the inability of the parties to study nearly 400 pages of comments, background data and economic issues and effectively address the issues raised within the short time allotted by the notice of proposed rule making.

3. E. F. Johnson Company opposes any extension for filing reply comments. E. F. Johnson contends that sufficient time in which to file replies is automatically provided since, under the rules, where the reply filing date falls on a holiday or weekend (as here) replies may be filed up to and including the next business day. In this case that would be February 18, 1975. It further points to common issues of this proceeding and those of the Class E Citizens radio proposal in Docket 19759. It asserts that the Class E matter is scheduled for a Commission discussion during the week of March 2, 1975, and an extension beyond the filing period would deprive the Commission of the opportunity of simultaneously considering Dockets 20120 and 19759.

4. It appears that E. F. Johnson misunderstands the nature of the March meeting before the Commission. This meeting on the Class E Citizens proposal is scheduled to be a staff report on the status of the proceeding and a discussion applicable to policy formulation. It is not intended to be decisional in scope.

5. We believe a showing of good cause has been made for a grant of SIRSA's request for an extension of time in which to file reply comments. Since the additional time to prepare replies will not materially affect the interests of other known parties and should not unduly delay the Commission's action on the instant proposal, the request for extension of time in which to file reply comments will be granted.

6. Accordingly, *it is ordered*, Pursuant to section 5(d) of the Communications Act of 1934, as amended, and § 0.331 of the Commission's rules, that the date for filing reply comments in the above-entitled proceeding is extended to and including March 14, 1975.

Adopted: February 14, 1975.

Released: February 19, 1975.

[SEAL] CHARLES A. HIGGINBOTHAM,
Chief, Safety and Special Radio Services Bureau.

[47 CFR Part 31]

[Docket No. 20188; RM–2259]

UNIFORM SYSTEM OF ACCOUNTS

Class A and B Telephone Companies; Extension of Time

In the matter of amendment of Part 31 (Uniform System of Accounts for Class A and Class B Telephone Companies) so as to permit depreciable property to be placed in groups comprised of units with expected equal life for depreciation under the straight-line method.

1. The Commission has received by letter dated February 6, 1975, a copy of a January 21, 1975, letter from the New York Public Service Commission (New York Commission), the original of which the Commission has not received, requesting reconsideration of an order adopted on December 3, 1974, by the Chief, Common Carrier Bureau, granting in part, and denying in part, the New York Commission's October 25, 1974, request for an extension of time for the filing of comments in this proceeding. In its letter of October 25, the New York Commission requested that the time for filing comments in this proceeding be extended from January 20, 1975, to May 20, 1975. The Wisconsin Public Service Commission, in a letter dated November 22, 1974, also requested an extension of time for filing comments to May 20, 1975. In an order adopted on December 3 and released on December 5, 1974, by the Chief, Common Carrier Bureau, the time for filing comments and reply comments in this proceeding was extended from January 20 and March 20, 1975, respectively, to February 20 and April 21, 1975. In an Order adopted on January 8 and released on January 10, 1975, by the Chief, Common Carrier Bureau, a request dated December 23, 1974, by the NARUC Subcommittee of Staff Experts on Accounting (NARUC Subcommittee) for an extension of time to May 20, 1975, was denied except to the extent that it was granted, in part, by the Order adopted on December 3, 1974.

2. In its letter of January 21, 1975, the New York Commission reiterates the position stated in its earlier letter, viz., that the time for filing comments in this proceeding, even with the extension of time granted in our December 3, 1974, Order, does not allow sufficient time for its staff to make the examination it feels is necessary of the New York Telephone Company's engineering procedures for implementing Equal Life Group (ELG) depreciation. This matter was addressed in both our December 3, 1974, and January 8, 1975, orders, and there is nothing additional in this regard offered in the New York Commission's January 21, 1975, request to warrant a further extension of the time for filing comments in this proceeding. However, we have been advised that the American Telephone and Telegraph Company is planning on making a presentation to the NARUC Sub-Committee in early March with regard to the subcommittee's concern regarding potential difficulties in verifying ELG depreciation rate data should the procedures be accepted by this Commission and made a part of our accounting Rules. To the extent, therefore, that certain additional material or information in this matter may be made available to members of the NARUC Subcommittee at that time, a further extension of time for filing comments in this proceeding beyond the date of the subcommitte's meeting appears justified in order to provide additional time for review of such data.

3. Accordingly, *it is ordered*, Pursuant to authority delegated by § 0.303(c) of the Commission's rules, that the time for filing comments in the above captioned proceeding is hereby further extended to March 24, 1975, and the time for filing reply comments is hereby further extended to May 26, 1975. In granting this further extension of time, we believe sufficient time has been made available to all interested persons within which to file their comments. We, therefore, urge all interested persons to take appropriate steps to file their comments within the time periods established in this proceeding.

Adopted: February 13, 1975.

Released: February 19, 1975.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] WALTER R. HINCHMAN,
Chief, Common Carrier Bureau.

[FR Doc.75–5114 Filed 2–25–75;8:45 am]

[47 CFR Part 73]

[Docket No. 20358; RM–2266]

FM BROADCAST STATIONS, TENNESSEE

Table of Assignments

1. On October 3, 1973, Sam C. Phillips (Phillips) filed a petition proposing the assignment of FM Channel 232A to Germantown, Tennessee. Germantown (population 3,474),[1] incorporated in 1912, is located in Shelby County (population 722,014) on U.S. Highway 72, adjacent to the eastern city limits of Memphis, Tennessee, and is a part of the Memphis Urbanized Area. Channel 232A could be assigned to Germantown in conformance with the Commission's minimum mileage separation rule and without affecting any other FM assignment in the FM Table of Assignments. Germantown has no local broadcast transmission service.

2. In support of the petition, Phillips submitted information and data with respect to Germantown, e.g. population, education, industry, employment and income, the form of government, and facilities. In addition, Phillips submitted statements from 35 Germantown city officials, civic leaders, business and professional men, and average residents regarding the growth of the community and the need for a first local transmission service. The petitioner also submitted population density and growth figures from a 1973 study report by Allen and Hoshall, consulting engineers, Memphis. This report indicates that Germantown's population has increased 214.7 percent between 1960 and 1970 (from 1,104 to 3,474 population). Germantown is located within the service contours of many Memphis stations. However, Phillips states that Germantown has a separate economic viability and public community interest that can be aided by assignment of the facility requested.

3. The petitioner avers that the proposed assignment would cause no preclusions on the six adjacent channels. However, we are told that assignment of Channel 232A would be precluded in a roughly rectangular area, approximately 48 miles in an east-west direction and approximately 22 miles in a north-south direction including within it the city of Memphis. However, the channel cannot be utilized as a Memphis assignment because of the large area covered by Memphis. Phillips indicates that the proposed assignment operating with a transmitter site in the vicinity of Germantown would serve more than one-half of this precluded area. A staff study shows that West Memphis, Arkansas (population 25,892) with only a daytime-only station (KSUD) is located in the preclusion area. Since the proposed assignment would foreclose its usage at West Memphis, petitioner should indicate whether any other channels are available for assignment there.

4. We believe that petitioner has made a sufficient public interest showing to warrant issuance of a notice of proposed rule making.

5. Accordingly, pursuant to authority contained in sections 4(i), 303 and 307 (b) and 5(d) (1) of the Communications Act of 1934, as amended, and § 0.281(b) (6) of the Commission's rules and regulations, it is proposed to amend § 73.202 (b) of the Commission's rules and regulations, the FM Table of Assignments as follows:

City	Channel No.	
	Present	Proposed
Germantown, Tenn.		232A

6. *Showings required.* Comments are invited on the proposal discussed and set forth above. The proponent of the proposed assignment is expected to file comments that are responsive to all questions raised by this Notice. The proponent should also restate his present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

7. *Cut-off procedure.* The following procedures will govern the consideration of filings in this proceeding:

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments.

(b) With respect to petitions for rule making which conflict with the proposal in this notice, they will be considered as comments in this proceeding, and public notice to this effect will be given, as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision herein.

8. Pursuant to applicable procedures set out in § 1.415 of the Commission's rules and regulations, interested parties may file comments on or before April 11, 1975, and reply comments on or before April 30, 1975. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments must be served on the petitioner. Reply comments must be served on the person(s) who filed the comments to which the reply is directed.

9. In accordance with the provisions of § 1.419 of the rules and regulations, an original and 14 copies of all comments, reply comments, pleadings, briefs, and other documents shall be furnished the Commission. These will be available for public inspection during regular business hours in the Commission's Public Reference Room at its Headquarters, 1919 M Street, NW., Washington, D.C.

Adopted: February 12, 1975.

Released: February 20, 1975.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

[FR Doc.75–5117 Filed 2–25–75;8:45 am]

[47 CFR Part 73]

TELEVISION BROADCAST STATIONS IN CALIFORNIA

[Docket No. 20361, RM–2408]

Table of Assignments

1. The Commission, by the Chief, Broadcast Bureau, has before it for consideration the petition for rule making filed by the Associates for Creative Enterprise in Media (ACE Media) requesting the amendment of § 73.606(b) of the Commission's rules and regulations, proposing the assignment of Channel 35 to Salinas-Monterey, California. Presently assigned to Salinas-Monterey are Channels 8, 46, *56 and 67.

2. Salinas (pop. 58,896)[1] is the largest city in Monterey County (pop. 250,071). Monterey (pop. 26,302) is the third largest city in that county. Neighboring communities, including Seaside (pop. 35,935), Pacific Grove (pop. 13,505) and Carmel-by-the-Sea (pop. 4,525), comprise the Salinas-Monterey standard metropolitan statistical area (pop. 139,163).

3. Currently the Salinas-Monterey area is served by two local commercial television stations—KMST, Channel 46, a CBS affiliate, and KSBW, Channel 8, an NBC affiliate. (An application for use of Channel 67 is pending (BPET–464).) Additional direct broadcast commercial service is offered to part of the area by KNTV, Channel 11, San Jose, an ABC affiliate. Television translator Station K56AA, operated by the Monterey County Office of Education, uses Channel *56 to rebroadcast signals originated by KTEH, Channel *54, San Jose. Supplemental indirect service is provided by KGSC–TV, Channel 36, San Jose, which operates translator Station K29AB, Salinas-Monterey. Other services are provided by CATV systems which import signals from San Francisco, Oakland, San Jose, and other localities. Two local newspapers are available to Salinas-Monterey residents.

4. Petitioner has compiled a program typology by surveying and monitoring stations for certain hours during a thirty-day period. The results demonstrate that during approximately 68 percent of the aggregate of those hours viewers watched network or syndicated entertainment. Petitioner emphasized in its analysis that minority group oriented programming, provided by one station, comprised only 0.14 percent of the total viewing hours. It was also noted that 21 percent of the Salinas-Monterey residents were Spanish speaking or Spanish surname individuals and 20.45 percent of the contiguous community of Seaside are listed as Black. Petitioner cited these figures to support its allegation that there is a deficiency of minority-oriented programming and expressed an intent to serve the needs of minority groups.

5. Petitioner states that it intends to apply for a construction permit if the proposed assignment is made and if granted, will promptly begin to construct a station.

6. With respect to the technical feasibility of the proposed assignment, existing TV assignments will not be affected. However, opposition is noted by the Continental Urban TV Corporation, licensee of Station KGSC–TV, Channel 36, San Jose, California. It complains that its translator station, K29AB, serving part of the Salinas-Monterey area, will be unable to effectively operate due to interference to reception of the signal of its primary station caused by the proposed assignment of Channel 35 to the Salinas-Monterey area.

[1] All population figures are from the 1970 U.S. Census, unless otherwise indicated.

[1] All population figures are from the 1970 Census unless otherwise specified.

XUM V 40139 FEB 26 75 XUM

7. Alleged interference to the operation of translator stations is of relatively minor consequence in considering TV channel assignments. It is Commission policy, as expressed in § 74.702(c)(3) of the Commission's rules and regulations, that ". . . [c]hanges in the Television Table of Assignments (§ 73.606(b) of this chapter) may be made without regard to existing or proposed television broadcast translator stations. . .". Thus, new assignments of TV channels may be made irrespective of interference to an existing translator station, with the translator operator having the burden of making necessary adjustments. In the present case, operation of the proposed Channel 35 at Salinas-Monterey (if the channel is assigned as proposed) would have the potential of serving an area of 15,000 square miles, while the translator in that community can serve only a limited area. In connection with the alleged interference to reception by the translator of the signal of its parent station, the extent of such interference, if it occurs, could not be determined until such time as a transmitter for the use of the proposed Channel 35 assignment is made known. Various methods do exist for correcting interference problems in many cases.

8. In view of the above, and pursuant to authority found in sections 4(i), 5(d)(1), 303(g) and (r) and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules and regulations, it is Proposed to Amend § 73.606(b) of the Commission's rules and regulations, the TV Table of Assignments, as follows:

City	Channel No.	
	Present	Proposed
Salinas-Monterey, Calif.....	8+, 46−, *56, 67−	8+, 35−, 46−, *56, 67−

9. *Showings required.* Comments are invited on the proposal discussed above. In initial comments, proponent will be expected to answer whatever questions are presented herein. The proponent of the proposed assignment is expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

10. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered, if advanced in reply comments. (See § 1.420(d) of Commission rules.)

(b) With respect to petitions for rule making which conflict with the proposal in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision in this docket.

11. *Comments and reply comments; service.* Pursuant to applicable procedures set out in § 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments on or before April 11, 1975, and reply comments on or before April 30, 1975. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission's rules.)

12. *Number of copies.* In accordance with the provisions of § 1.419 of the Commission's rules and regulations, an original and fourteen copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

13. *Public inspection of filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW, Washington, D.C.

Adopted: February 14, 1975.

Released: February 26, 1975.

[47 CFR—Part 73]

[Docket No. 20357 RM-2379]

TELEVISION BROADCAST STATIONS, WASHINGTON

Table of Assignments

1. Notice of proposed rule making is hereby given concerning proposed amendment of § 73.606(b) of the Commission's rules and regulations, the Television Table of Assignments, to delete Channel 24 from Bellingham, Washington, and reassign it to Anacortes, Washington.

2. Anacortes (pop. 7,701),[1] located in northwest Washington on Fidalgo Island, is the second largest city in Skagit County (pop. 52,381). We are told that it is an important seaport, handling commercial and ferry traffic from Vancouver Island (British Columbia) and that it has a firm industrial base consisting of petroleum refining, fisheries and lumber and plywood manufacture. The petitioner, Ceorl Corporation, indicates that economy of Skagit County will be enhanced in the near future due to recent zoning and planning approval for a new nuclear plant and the zoning of 120 acres of land for industrial purposes with the hope that it will become a new industrial park.

3. Bellingham (pop. 39,375) from which the petitioner proposes to delete Channel 24, is located eighteen miles north-northeast of Anacortes. The petitioner states that it intends to locate its antenna on Erie Mountain in Anacortes and, from that location, provide service to the western portion of Skagit County (which would include the communities of Mt. Vernon, pop. 8,804; Burlington, pop. 3,133; and Sedro-Wooley, pop. 4,593) and San Juan (pop. 3,856) and Island (pop. 27,011) counties. The petitioner avers that the eastern portion of Skagit County, which it does not propose to serve, is timberland, mountainous and sparsely populated. Although not stated, it appears that the proposed assignment would also provide service to Bellingham.

4. The petitioner states that the more than 65,000 persons who would be served by the proposed assignment are presently within the Grade A contour of only one television station (KVOS-TV, Bellingham) and are on the fringe of Grade B contours of three commercial television stations (KOMO-TV, KING-TV, Seattle; KSTW, Tacoma) and an educational station (KCTS-TV), Seattle). It further states that this proposal is in the public interest because it would provide a first local television service. It should be noted that deletion of Channel 24 from Bellingham would still leave Bellingham with two unoccupied television assignments, one commercial and one noncommercial educational, as well as operating Station KVOS-TV. As such it would appear that the petitioner has made a sufficient public interest showing to merit further consideration of its proposal in a rule making proceeding.

5. Anacortes is located within 250 miles of the U.S.-Canadian border. Therefore, under the Canadian-United States Television Agreement, the proposed amendment requires the consent of the Canadian government. This consent has been obtained.

6. Accordingly, pursuant to authority contained in sections 4(i), 303 and 307(b) and 5(d)(1) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules and regulations, it is proposed to amend § 73.606(b) of the Commission's rules, the Television Table of Assignments, as follows:

City	Channel No.	
	Present	Proposed
Anacortes, Wash.....		24
Bellingham, Wash.....	12+, 24, *34, 64	12+, *34, 64

[1] All population figures are from the 1970 U.S. Census.

7. *Showings required.* Comments are invited on the proposals discussed and set forth above. The proponent of the proposed assignment is expected to file comments even if it only resubmits or incorporates by reference its former pleadings. The proponent should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

8. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered if advanced in initial comments so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d).)

(b) With respect to petitions for rule making which conflict with the proposal in this Notice, they will be considered as comments in this proceeding, and Public Notice to this effect will be given, as long as they are filed before the date for filing initial comments herein. If filed after that date, they will not be considered in connection with the decision herein.

9. Pursuant to applicable procedures set out in § 1.415 of the Commission's rules and regulations, interested parties may file comments on or before April 11, 1975, and reply comments on or before April 30, 1975. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments must be served on the petitioner. Reply comments must be served on the person(s) who filed the comments to which the reply is directed.

10. In accordance with the provisions of § 1.419 of the rules and regulations, an original and fourteen copies of all comments, reply comments, pleadings, briefs, and other documents shall be furnished the Commission. These will be available for public inspection during regular business hours in the Commission's Public Reference Room at its Headquarters, 1919 M Street NW., Washington, D.C.

Adopted: February 12, 1975.

Released: February 20, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

[47 CFR Parts 81, 83]

[Docket No. 20355]

CLASS II PUBLIC COAST STATION

Ship to Shore Communications

In the matter of amendment of Parts 81 and 83 of the Commission's rules to provide for a Class II Public Coast Station in the vicinity of Agana, Guam.

1. Notice of proposed rule making in the above-entitled matter is hereby given.

2. This proposal is being issued as a result of an application for a Class II Public Coast Station at Agana, Guam, from the Marianas Telephone Company. The petitioner's application, in effect, requests that the Commission's rules be amended so as to make available for assignment a pair of frequencies for public ship-shore communications in the vicinity of Agana, Guam.

3. The applicant states that there is presently no public ship-shore communications available in the vicinity of Guam and that such service is urgently needed in the area as the nearest U.S. authorized Class II Public Coast Station is located in Honolulu, Hawaii, which cannot serve the needs of the local boating public.

4. It is proposed that the coast station carrier frequency 2506 kHz and the ship carrier frequency 2009 kHz be assigned for Class II Public Coast service at Agana, Guam.

5. It is believed that the proposed rule amendment would provide for more effective utilization of maritime frequencies in the public interest in that it would make a frequency pair available for direct service to an area which apparently is not now adequately served under the present frequency plan.

6. The proposed amendment, as set forth below, is issued pursuant to the authority contained in sections 4(i) and 303(c), (d), (f), and (r) of the Communications Act of 1934, as amended.

7. Pursuant to the applicable procedures set forth in § 1.415 of the Commission's rules, interested persons may file comments on or before April 1, 1975, and reply comments on or before April 11, 1975. Section 1.419 of the rules requires the original and fourteen (14) copies of comments or reply comments to be filed. Comments and reply comments received in response to this notice of proposed rule making will be available for public inspection during regular business hours in the Commission's Public Reference Room at its Headquarters in Washington, D.C.

Adopted: February 11, 1975.

Released: February 24, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

Parts 81 and 83 of Chapter 1 of Title 47 of the Code of Federal Regulations are amended as follows:

A. The table in § 81.306(b) is amended by the addition of the following new location and frequencies before the entry for Boston, Massachusetts:

§ 81.306 Frequencies available below 27.5 MHz.

• • • • •

Agana, Guam.....	2,506	.....	5	2,009 5

• • • • •

B. The Table in § 83.354(b) is amended by the addition of the following new location and frequencies before the entry for Boston, Massachusetts.

§ 83.354 Frequencies below 5000 kHz for public correspondence.

• • • • •

Agana, Guam.....	2,009	.....	5	2,506 5

• • • • •

DEFENSE SCIENCE BOARD TASK FORCE ON NAVAL SURFACE WARFARE

Meeting

A Defense Science Board Task Force on "Naval Surface Warfare" will meet in closed session on March 24-25, 1975 at the Pentagon, Arlington, Virginia.

The mission of this Task Force is to advise the Secretary of Defense and the Director of Defense Research and Engineering regarding the adequacy and directions of U.S. programs in surface offensive operations in the face of continuing increases in Soviet capabilities in naval weapons, command and control, and out-of-area operations.

The Task Force will concentrate first on U.S. programs in tactical surface surveillance, targeting, command and control, and weaponry for surface engagement to help assure that our R&D investments yield the greatest improvement in our total force capabilities, when deployed in quantities we can afford.

In accordance with Pub. L. 92-463, section 10, paragraph (d), it has been determined that the Task Force meetings concern matters listed in section 552(b) of Title 5 of the United States Code, particularly subparagraph (1) thereof, and that the public interest requires such meetings to be closed insofar as the requirements of subsections (a)(1) and (a)(3) of section 10, Pub. L. 92-463 are concerned.

MAURICE W. ROCHE,
Director, Correspondence and Directives OASD (Comptroller).

DEFENSE SCIENCE BOARD TASK FORCE ON "TRAINING TECHNOLOGY"

Advisory Committee Meeting

Pursuant to the provisions of Pub. L. 92-463, notice is hereby given that the Defense Science Board Task Force on "Training Technology" will meet in open session on 17 March 1975 at the Institute for Defense Analyses, Arlington, Virginia.

The mission of the Defense Science Board is to advise the Secretary of Defense and Director of Defense Research and Engineering on overall research and engineering and to provide long range guidance in these areas to the Department of Defense.

The Task Force will provide an evaluation of the current effectiveness of DoD programs and management in the R&D area of Training Technology to serve as the basis for DoD policy decisions to reduce costs and increase effectiveness and efficiency of DoD Training.

At this meeting, a presentation will be given by Mr. Ray Fox and others of the National Security Industrial Association, on Industry Views on Training Technology.

Due to limited time and space availability, it is requested that persons interested in attending the DSB Task Force meeting provide written notice to the address listed below by March 13, 1975. Notices should include information with respect to interest and degree of participation.

Lt. Col. Henry L. Taylor, Executive Secretary, DSB Task Force on Training Technology, ODDR&E, Room 3D129, Pentagon, Washington, D.C. 20301.

Telephone inquiries may also be made to Lt. Col. Taylor at (202) 695-9777.

MAURICE W. ROCHE,
Director, Correspondence and Directives, OASD (Comptroller).

Application

FEBRUARY 18, 1975.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), Montana-Dakota Utilities Company has applied for a 4 inch natural gas pipeline right of way across the following lands:

PRINCIPAL MERIDIAN, MONTANA

T. 2 N., R. 45 E.,
Sec. 34, NE¼NE¼.

This pipeline will convey natural gas across 0.299 miles of national resource lands in Custer County, Montana.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their names and address to the District Manager, Bureau of Land Management, P.O. Box 940, Miles City, Montana 59301.

DONALD W. WIRTH,
Acting Chief, Branch of Lands and Minerals Operations.

NEW MEXICO

Application

FEBRUARY 18, 1975.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), El Paso Natural Gas Company has applied for a dehydration site right-of-way across the following lands:

NEW MEXICO PRINCIPAL MERIDIAN,
NEW MEXICO

T. 25 S., R. 29 E.,
Sec. 25, NE¼NW¼.

This 5-acre site is necessary to maintain and operate natural gas pipeline on national resource lands in Eddy County, New Mexico.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, P.O. Box 1397, Roswell, NM 88201.

FRED E. PADILLA,
Chief, Branch of Lands and Minerals Operations.

NEW MEXICO

Notice of Applications

FEBRUARY 18, 1975.

Notice is hereby given that, pursuant to section 28 of the Mieral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), El Paso Natural Gas Company has applied for seven 4½-inch natural gas pipelines rights-of-way across the following lands:

NEW MEXICO PRINCIPAL MERIDIAN,
NEW MEXICO

T. 23 S., R. 26 E.,
Sec. 20, NE¼NE¼, S½NE¼.
T. 20 S., R. 28 E.,
Sec. 15 SW¼NE¼, SE¼SW¼, W½SE¼.
T. 21 S., R. 29 E.
Sec. 5, lots 10, 11, 12, 14, 15;
Sec. 6, lot 9.
T. 19 S., R. 34 E.,
Sec. 8, SE¼NE¼;
Sec. 9, S½N½.

These pipelines will convey natural gas across 3.358 miles of national resource lands in Eddy and Lea County, New Mexico.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the applications should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, P.O. Box 1397, Roswell, NM 88201.

FRED E. PADILLA,
Chief, Branch of Lands and Minerals Operations.

WATERFOWL ADVISORY COMMITTEE

Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following Committee meeting:

Name: Waterfowl Advisory Committee.
Date: March 16, 1975.
Place: Ballroom 3, Pittsburgh Hilton Hotel, Gateway Center, Pittsburgh, Pennsylvania 15230.
Time: 4 p.m.
Purpose of meeting: The Committee will discuss selected waterfowl management issues, including shooting hours.

This meeting will be open to the public. Persons wishing to attend should notify the Director, United States Fish and Wildlife Service, U.S. Department of the Interior, Washington, D.C. 20240, or call AC 202-343-8827. Statements of interested persons other than Committee members must be filed in writing with the Director before or after the meeting. To the extent time permits, the chairman of the meeting will accept brief oral statements from the public at the close of the Committee's agenda providing such statements are also submitted in writing before or after the meeting.

LYNN A. GREENWALT,
Director, United States Fish and Wildlife Service.

[Docket No. M75-83]

BELL CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. section 861(c) (1970), Bell Company has filed a petition to modify the application of 30 CFR 77.1605(k) to its No. 4 and No. 5 mines, Arjay, Kentucky.

30 CFR 77.1605(k) provides:

Berms or guards shall be provided on the outer bank of elevated roadways. Petitioner's alternate method is as follows:

1. A daily inspection of all coal-hauling vehicles shall be made and any defects detected shall be corrected before the vehicle is put into service. A record of the inspection shall be kept and maintained by a supervisory employee.

2. Roadway surfaces shall be kept free of debris, excessive water, snow and ice, and maintained as free as practicable of small ditches (washboard effects).

3. A traffic system shall be put into use for these roads requiring that loaded vehicles have the right-of-way on the highwall side of roads regardless of their direction of travel.

4. Warning signs shall be posted designating curves, steep grades where trucks should shift to a lower gear, and where roadways are reduced to one-lane traffic. Stop signs shall be posted where one road intersects another, giving main haulage road traffic the right-of-way. Signs shall also be posted designating passing points.

5. All equipment operators shall be trained in the use of haulage equipment and the safety of vehicles on haulage roads.

6. All haulage vehicles shall have:
(a) Original manufacturers brakes.
(b) Engine or Jacobs brakes.
(c) Emergency (parking) braking system.

7. Adequate supplies of crushed stone or other suitable materials shall be stored at strategic locations along the haulage roads for use when the road surface becomes slippery.

8. A minimum width of 30 feet shall be provided and maintained. Where widths of less than 30 feet are provided and maintained, the roads shall be designated as single-lane roads.

9. On roads that afford only one traffic lane, a minimum width of 16 feet shall be maintained, with passing points provided at intervals of not more than 1,000 feet.

10. Where abrupt drop-offs are present along the outer banks, super elevation shall be provided to cause the vehicles to gravitate toward the highwall side of the road.

11. All rules of the road (traffic system) shall be posted on the bulletin boards throughout the mine area, and such rules of the road shall be made part of the training and retraining programs.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before March 26, 1975. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

JAMES R. RICHARDS,
Director, Office of Hearings and Appeals.

FEBRUARY 19, 1975.

[FR Doc.75-5043 Filed 2-25-75;8:45 am]

[Docket No. M 74-130]

ISLAND CREEK COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. Section 861(c) (1970), Island Creek Coal Company has filed a petition[1] to modify the application of 30 CFR 75.1405 to its Providence Mine located in Providence, Kentucky, and the following mines located in Madisonville, Kentucky:

Crescent Mine
No. 9 Mine
Hamilton #1 Mine
Ohio #11 Mine
Hamilton #2 Mine

30 CFR 75.1405 provides:

XUM
V 40 I 39 FEB 26 75 XUM

All haulage equipment acquired by an operator of a coal mine on or after March 30, 1971, shall be equipped with automatic couplers which couple by impact and uncouple without the necessity of persons going between the ends of such equipment. All haulage equipment without automatic couplers in use in a mine on March 30, 1970, shall also be so equipped within 4 years after March 30, 1970. Petitioner seeks to amend its petition as follows:

1. All statements made in Petitioner's original petition for modification filed April 17, 1974, and all statements made in Petitioner's amended petition filed August 23, 1974, with the Office of Hearings and Appeals are hereby reaffirmed and restated, as if recited verbatim herein.

2. Petitioner states that the alternate type of coupling device noted in its amended petition is a semi-automatic type coupler consisting of frame-mounted metal coupling devices with a bar mechanism for placement of the coupling pin which allows the operator to couple and uncouple the cars without positioning himself between cars. The bar mechanism has the further capability of being locked in the open position to allow the operator to maneuver a battery tractor into coupling position while remaining in the tractor seat. The particular design of the coupler allows coupling to be perfected without complications or danger to any person even at a wide angle from the center point and also allows considerable movement (not found in automatic-type couplers) necessary to compensate for unlevel track and mine floor, curves, and off-track operation. There will be no necessity of manual movement of coupling parts, other than the external bar-lever apparatus. (See attached drawing.)[2]

3. Petitioner states that the alternate type of coupling system will at all times guarantee no less than the same measure of protection afforded the miners at the subject mines by application of the mandatory standard, and because of the specific circumstances encountered in the subject mines will actually provide a greater measure of protection than the mandatory standard.

4. Petitioner further states that the use of automatic coupling devices in the subject mines would create safety hazards which are a factor in neither the currently used coupling system nor in the alternate system hereinabove mentioned.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before March 28, 1975. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

JAMES R. RICHARDS,
Director,
Office of Hearings and Appeals.

[FR Doc.75-5042 Filed 2-25-75;8:45 am]

[2] The original petition was published in 39 FR 8673 on May 29, 1974.

[2] The drawing referred to as attached to the petition will be available for inspection at the address mentioned in the last paragraph of the notice.

Office of Hearings and Appeals

[Docket No. 75-85]

YOUGHIOGHENY AND OHIO COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. 861(c) (1970), Youghiogheny and Ohio Coal Company has filed a petition to modify the application of 30 CFR 75.1701 to its Nelms No. 1 Mine, Martins Ferry, Ohio.

30 CFR 75.1701 provides:

Whenever any working place approaches within 50 feet of abandoned areas in the mine as shown by surveys made and certified by a registered engineer or surveyor, or within 200 feet of any other abandoned areas of the mine which cannot be inspected and which may contain dangerous accumulations of water or gas, or within 200 feet of any workings of an adjacent mine, a borehole or boreholes shall be drilled a distance of at least 20 feet in advance of the working face of such working place and shall be continually maintained to a distance of at least 10 feet in advance of the advancing working face. When there is more than one borehole, they shall be drilled sufficiently close to each other to insure that the advancing working face will not accidentally hole through into abandoned areas or adjacent mines. Boreholes shall also be drilled not more than 8 feet apart in the rib of such working place to a distance of at least 20 feet and at an angle of 45 degrees. Such rib holes shall be drilled in one or both ribs of such working place as may be necessary for adequate protection of miners in such place.

1. Petitioner's alternate method calls for drilling 35-foot deep holes at a 30 degree angle to the rib at intervals of 20 feet.

2. The alternate method provides certain safety advantages over the application of the mandatory safety standard. Whereas test holes required by § 75.1701 assure protection to a point 14.14 feet from the gob-side rib and 6.41 feet in advance of where the face will be when the cut is completed, the alternative test holes assure protection 17.5 feet from the gob-side rib and 10.31 feet in advance of where a 20-foot continuous miner cut will be completed.

3. The proposed alternate method will at all times provide no less than the same measure of protection afforded by the application of the mandatory safety standard.

Persons interested in this petition may request a hearing on the petition for furnish comments on or before March 28, 1975. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

JAMES R. RICHARDS,
Director,
Office of Hearings and Appeals.

Office of the Secretary

NATIONAL PETROLEUM COUNCIL

Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given of the following meeting:

The Industrial Task Group of the Committee on Energy Conservation will meet on March 13, 1975, in the offices of the National Petroleum Council, 1625 K Street NW., Washington, D.C., starting at 9:30 a.m. The agenda includes the following items:

1. Review task group members' progress on the Phase II report on energy conservation.
2. Discuss the Coordinating Subcommittee's/Consumer Task Group's input regarding Phase II.
3. Discuss any other matters pertinent to the overall assignment of the Task Group.

The meeting will be open to the public to the extent that space and facilities permit. Any member of the public may file a written statement with the Council either before or after the meeting. Interested persons who wish to speak at the meeting must apply to the Council and obtain approval in accordance with its established procedure.

The purpose of the National Petroleum Council is to provide advice, information and recommendations to the Secretary of the Interior, upon request, on any matter relating to petroleum or the petroleum industry.

Further information with respect to this meeting may be obtained from Ben Tafoya, Office of the Assistant Secretary—Energy and Minerals, Department of the Interior, Washington, D.C., telephone number 343-7976.

Dated: February 21, 1975.

C. K. MALLORY,
Deputy Assistant Secretary of the Interior.

DEPARTMENT OF AGRICULTURE

Agricultural Stabilization and Conservation Service

NATIONAL PEANUT ADVISORY COMMITTEE

Renewal

Notice is hereby given that the Secretary of Agriculture has renewed the National Peanut Advisory Committee for the purpose of advising the Secretary and other officials on domestic and export requirements for peanuts, production adjustments, and stabilization programs, and other matters relating to this commodity. The Secretary has determined that renewal of this committee is in the public interest in connection with the duties imposed on the Department by law.

The chairman of this committee is the Assistant Secretary for International Affairs and Commodity Programs, U.S. Department of Agriculture, Washington, D.C. 20250.

This notice is given in compliance with Pub. L. 92-463.

Signed at Washington, D.C. on February 21, 1975.

JOSEPH R. WRIGHT, JR.,
Assistant Secretary for Administration.

[FR Doc.75-5078 Filed 2-25-75;8:45 am]

PROPOSED RICE ACT

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Agricultural Stabilization and Conservation Service, Department of Agriculture, has prepared a draft environmental statement on the proposed Rice Act. While the draft environmental statement was prepared in connection with H.R. 15263 which failed of passage in the 93rd Congress, it is also applicable to H.R. 201 introduced in the new Congress. The proposed legislation would provide authority for a program relating to the production and marketing of rice for the 1975 through 1977 crops.

The impact of this commodity on the environment is limited and the proposed program is not anticipated to substantially change the effect. There are, however, some environmental effects associated with the crop that are inescapable under any type of agricultural commodity program. This commodity is almost totally grown on irrigated farms and as with other crops, fertilizers, herbicides, pesticides, etc., are a necessary part of production practices.

The draft statement was filed with the CEQ on December 11, 1974. Copies of the statement are being forwarded to all State Clearinghouses in the major Rice Producing States of Arkansas, California, Louisiana, Mississippi and Texas, various conservation and environmental organizations and Federal agencies as outlined in the CEQ guidelines. Copies of the statement are available for inspection during regular working hours at USDA, Agricultural Stabilization and Conservation Service, Room 4702-South Building, 14th & Independence Avenue, SW., Washington, D.C. 20250, and at the State office for the Agricultural Stabilization and Conservation Service in each State. A limited number of single copies are available upon request to the Washington, D.C. office.

Comments concerning the proposed action should be addressed to the Director, Cotton, Rice, and Oilseeds Division, Agricultural Stabilization and Conservation Service, Washington, D.C. 20250.

Any substantive comments received on this draft environmental statement before final action on the legislation will be forwarded to the appropriate congressional committee(s).

Signed at Washington, D.C. on February 19, 1975.

GLENN A. WEIR,
Acting Administrator, Agricultural Stabilization and Conservation Service.

COMMITTEE OF NINE

Meeting

Pursuant to the Federal Advisory Committee Act, Pub. L. 92-463, notice is hereby given of a meeting of the Committee of Nine at 8:30 A.M., April 16-17, 1975, in Room 104-A, Administration Bldg., U.S. Department of Agriculture, Washington, D.C.

The purpose of the meeting is to evaluate and recommend proposals for cooperative research on problems that concern agriculture in two or more States, and to make recommendations for allocation of funds for fiscal year 1976. The meeting is open to the public and written statements can be filed with the Committee before or after the meeting.

The names of the members of the Committee, the agenda, minutes, and other information pertaining to the meeting may be obtained from the Recording Secretary, Committee of Nine, Cooperative State Research Service, U.S. Department of Agriculture, Washington, D.C. 20250. Telephone 202-447-2301.

Dated: February 18, 1975.

R. L. LOVVORN,
Administrator.

Farmers Home Administration

[Designation Number A147]

IOWA

Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in the following counties in Iowa:

Buena Vista	Mitchell
Cherokee	O'Brien
Chickasaw	Osceola
Clay	Plymouth
Lyon	Sioux

The Secretary has found that this need exists as a result of natural disasters consisting of a blizzard January 10 through 12, 1975, in all counties except Chickasaw County which had drought May 5 through June 23, 1974, excessive rainfall July 6 through July 30, 1974, and a killing frost September 22, 1974; and Mitchell County which had a killing frost September 3, 1974.

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Robert D. Ray that such designation be made.

Applications for Emergency loans must be received by this Department no later than April 21, 1975, for physical losses and November 19, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C. this 21st day of February, 1975.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

[FR Doc.75-5143 Filed 2-25-75; 8:45 am]

[Designation Number A144]

TEXAS

Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in the following counties in Texas:

Hunt Reagan

The Secretary has found that this need exists as a result of a natural disaster consisting of drought June 20 to August 26, 1974, excessive rainfall August 27 to December 12, 1974, and severe insect damage caused by the adverse weather conditions August 26 to December 12, 1974, in Hunt County and drought September 30, 1973, to September 15, 1974, and excessive rainfall September 15 to October 30, 1974, in Reagan County.

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3 (b) including the recommendation of Governor Dolph Briscoe that such designation be made.

Applications for Emergency loans must be received by this Department no later than April 11, 1975, for physical losses and November 11, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 20th day of February, 1975.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

ROCK CREEK ADVISORY COMMITTEE

Notice of Meeting

The Rock Creek Advisory Committee will meet at 7 p.m. on March 18, 1975. Meeting place will be in Drummond, Montana in the Catholic Church basement.

The purpose of this meeting is to continue Committee review of the planning processes and review and critique of management options in Upper Rock Rock Creek.

The meeting will be open to the public. Any member of the public who wishes to do so shall be permitted to file a written

V 40 139 FEB 26 75 XUM

statement with the Committee before or after the meeting. To the extent that time permits, the Committee Chairman may permit interested persons to present oral statements at the meeting.

General participation by members of the public, or questioning of Committee members or other participants shall not be permitted unless approved by the majority of Committee members.

Dated: February 12, 1975.

ROBERT W. DAMON,
Forest Supervisor,
Deerlodge National Forest.

[FR Doc.75-5047 Filed 2-25-75;8:45 am]

EXPERT PANEL ON NITRITES AND NITROSAMINES

Meeting and Agenda

Notice is hereby given of a meeting of the Expert Panel on Nitrites and Nitrosamines to be held in Room 218A (Conference Room), Administration Building, 14th and Independence Avenue, SW., Washington, D.C., March 28, 1975, at 9:30 a.m. This is the sixth scheduled meeting of the Panel.

There will be no formal agenda for the Panel meeting. The Panel will continue developing recommendations with respect to nitrite use for submittal to the Secretary of Agriculture. Discussions will be primarily limited to Panel participation; however, where appropriate, public comment and questions will be solicited during the course of the meeting.

The meeting will be open to the public and under the direction of the Panel Chairman or his designee. Written statements may be filed with the Panel before or after the meeting. Any member of the public who wishes to attend or who has further questions should contact the Issuance Coordination Staff, Technical Services, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Room 4905, South Agriculture Building, Washington, D.C. 20250, Area Code (202) 447-6189. Any person who wishes to file a statement may send such statement to the Issuance Coordination Staff at the above address.

Dated: February 20, 1975.

HARRY C. MUSSMAN,
Executive Secretary.

DEPARTMENT OF COMMERCE

Maritime Administration

SS SANTA ROSA

Invitation for Bids for Sale for Operation or for Scrapping

Notice is hereby given that pursuant to the provisions of section 1105 of the Merchant Marine Act, 1936, as amended, the Maritime Administration has issued Invitation for Bids No. PD-X-994, dated February 25, 1975, inviting sealed bids for the purchase of the SS Santa Rosa, Official No. 276598, located at the James River, Virginia, Reserve Fleet.

The SS Santa Rosa is a P2-S2-11A twin kingpost steam screw passenger and freight vessel built in 1958 by Newport News Shipbuilding and Dry Deck Company. The ship is of 11,353 gross registered tons, 540.3' registered length, 64.1' in breadth, 29.5' in depth and with a draft of 27' 2".

The Maritime Administration is inviting sealed bids from citizens and noncitizens of the United States. The ship may be purchased for operation in permissible world trade or for scrapping within the United States or in a friendly foreign country.

The ship is offered for sale on an "as is, where is" basis under the terms and conditions set forth in the Invitation.

No published minimum acceptable bid price is placed on this ship. The Contract of Sale to be given in connection therewith shall be executed within 45 days from the date of award of the ship to the Buyer. The Buyer shall pay to the Maritime Administration, in cash, or certified or cashier's check made payable to "Maritime Adm.-Commerce", concurrently with the execution of the contract, the full purchase price of the ship, if purchased for cash, or an amount not less than twenty-five (25) percent of the purchase price of the ship, if purchased under mortgage terms.

A ten (10) percent bid deposit is required with each bid.

The Maritime Administration reserves the right to reject any and all bids received.

Each bid for operation is to be accompanied by a suitably detailed outline of the proposed operation of the ship, together with sufficient detail concerning the financial resources of the bidder to enable the Maritime Administration to determine the ability of the bidder to consummate the transaction and operate the ship in the manner contemplated.

Bids will be received until 2:15 p.m., Eastern Daylight Time, March 27, 1975, and public opening will be held at that time on that date at the offices of the Maritime Administration, Room 3708, Commerce Building, 14th Street between E and Constitution Avenue, NW., Washington, D.C. 20230.

Any person, firm or corporation desiring to submit bids pursuant to the foregoing notice may obtain copies of the Invitation for Bids No. PD-X-994 by writing to Burt Kyle, Director, Office of Domestic Shipping, Maritime Administration, Room 6616, Commerce Building, Washington, D.C. 20230, or if calling in person may pick up same in Room 6628, Department of Commerce, Washington, D.C.

Dated: February 20, 1975.

By Order of the Maritime Administration.

JAMES S. DAWSON, JR.,
Secretary.

AQUARIUM SYSTEMS INC.

Withdrawal of Permit Application for Marine Mammals

On October 15, 1974, notice was published in the FEDERAL REGISTER (39 FR 36882), that an application had been filed with the National Marine Fisheries Service by the Aquarium Systems Inc., 1450 East 289 Street, Wickliffe, Ohio 44092 and the Aquarium of Niagara Falls, New York, for a permit to take two (2) California sea lions (*Zalophus californianus*), for the purpose of public display at the Aquarium of Niagara Falls, New York.

Notice is hereby given that the Aquarium Systems Inc. and the Aquarium of Niagara Falls have requested to withdraw the application, and that the request to withdraw was acknowledged and accepted without prejudice by the National Marine Fisheries Service on November 27, 1974.

Dated: February 18, 1975.

JACK W. GEHRINGER,
Acting Director, National Marine Fisheries Service.

[FR Doc.75-5130 Filed 2-25-75;8:45 am]

BROOKFIELD ZOO

Receipt of Application for Public Display Permit

Notice is hereby given that the following applicant has applied in due form for a permit to take marine mammals for public display as authorized by the Marine Mammal Protection Act of 1972 and the Regulations Governing the Taking and Importing of Marine Mammals.

Brookfield Zoo, Chicago Zoological Park, Brookfield, Illinois 60513, to take one (1) Atlantic bottlenose dolphin (*Tursiops truncatus*) for the purpose of public display.

The bottlenosed dolphin will be taken by a professional collector from the Gulf of Mexico, either in coastal waters of the State of Florida or coastal waters of the State of Mississippi, by means of standard shallow water net techniques. The dolphin is intended to be taken during 1975.

The dolphin will be maintained and displayed, along with three other dolphins, in an enclosed pool measuring 100 feet long, 25 feet wide and up to 18 feet deep, with a capacity of 190,000 gallons of water.

Care and maintenance is provided by a staff of five senior staff members, with from six to thirteen years experience, and a staff veterinarian.

The arrangements and facilities for transporting and maintaining the marine mammal requested in the above described application have been inspected by a licensed veterinarian, who has certified that such arrangements and facilities are adequate to provide for the well-being of the marine mammal involved.

Documents submitted in connection with the above application are available for review in the Office of the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235, and the Offices of the Regional Director, National Marine Fisheries Service, Southeast Region, Duval Building, 9450 Gandy Boulevard, St. Petersburg, Florida 33702, and the Regional Director, National Marine Fisheries Service, Northeast Region, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930.

Concurrent with the publication of this notice in the FEDERAL REGISTER, the Secretary of Commerce is forwarding copies of this application to the Marine Mammal Commission and the Committee of Scientific Advisors.

Written data or views, or requests for a public hearing on this application should be submitted to the Director, National Marine Fisheries Service, Washington, D.C. 20235 on or before March 28, 1975. The holding of such a hearing is at the discretion of the Director.

All statements and opinions contained in this notice in support of this application are summaries of those of the Applicant and do not necessarily reflect the views of the National Marine Fisheries Service.

Dated: February 20, 1975.

ROBERT F. HUTTON,
Associate Director for Resource Management, National Marine Fisheries Service.

LAFAYETTE PARK ZOO

Receipt of Application for Public Display Permit

Notice is hereby given that the following applicant has applied in due form for a permit to take marine mammals for public display as authorized by the Marine Mammal Protection Act of 1972 and the Regulations Governing the Taking and Importing of Marine Mammals.

Lafayette Park Zoo, 3500 Granby Street, Norfolk, Virginia 23508, to take one (1) California sea lion (*Zalophus californianus*) for the purpose of public display.

The Applicant requests a permit in order to retain a female California sea lion, which was found stranded in a coastal area of Norfolk, Virginia on October 8, 1974, and was placed into the care of the Applicant by local officials for the purpose of nursing it back to health, in accordance with the provisions of section 109 of the Marine Mammal Protection Act. In the opinion of the Applicant this sea lion could not survive in the wild.

This sea lion will be maintained, along with three other sea lions currently held at the Lafayette Park Zoo, in a facility with a pool 4½ feet deep, 41 feet wide, 55 feet long, and a 65,000 gallon capacity.

James L. Bousquet, the superintendent of the Zoo, has had considerable experience with marine mammals. He has worked with seals at Lodi, California; Fresno, California; San Francisco, California; and Providence, Rhode Island. The Zoo also has a full-time zoologist on the staff, and a veterinarian who is available on call.

The Lafayette Park Zoo is a municipal zoo which hosts an estimated 350,000 persons annually.

The arrangements and facilities for maintaining the marine mammal requested in the above application have been inspected by a licensed veterinarian, who has certified that such arrangements and facilities are adequate to provide for the well-being of the California sea lion.

Documents submitted in connection with the above application are available for review in the Office of the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235, and the Office of the Regional Director, National Marine Fisheries Service, Northeast Region, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930.

Concurrent with the publication of this notice in the FEDERAL REGISTER, the Secretary of Commerce is forwarding copies of this application to the Marine Mammal Commission and the Committee of Scientific Advisors.

Interested parties may submit written data or views on this application on or before March 28, 1975 to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235.

All statements and opinions contained in this Notice in support of this application are summaries based upon information supplied by the Applicant and, therefore, do not necessarily reflect the views of the National Marine Fisheries Service.

Dated: February 6, 1975.

ROBERT F. HUTTON,
Associate Director for Resource Management National Marine Fisheries Service.

MARINE MAMMALS

Notice of Fish Import Certifications From Iceland, Ireland, and France

Regulations established in accordance with the Marine Mammal Protection Act of 1972, 16 U.S.C. 1361-1407, (published in 39 FR 32117 on September 5, 1974) provide that a nation may make certification regarding vessels fishing under its flag in order to permit importation into the United States of certain of its fish and fishery products.

The Director, National Marine Fisheries Service, has received and accepted certifications from the Governments of Iceland, Ireland, and France that vessels fishing under their flags are fishing in conformance with U.S. regulations regarding the taking of marine mammals incidental to commercial fishing operations.

Copies of certifications are on file and available for review in the Office of the Director, National Marine Fisheries Service, Washington, D.C. 20235.

Dated: February 28, 1975.

JOSEPH W. SLAVIN,
Acting Director.

OHIO STATE UNIV.

Receipt of Application for Scientific Research Permit

Notice is hereby given that the following applicant has applied in due form for a permit to take and import marine mammals for scientific research as authorized by the Marine Mammal Protection Act of 1972 and the Regulations Governing the Taking and Importing of Marine Mammals.

Dr. Tony J. Peterle, Chairman, Department of Zoology, College of Biological Sciences, The Ohio State University, 1735 Neil Avenue, Columbus, Ohio 43210, to import tissues of the following cetacean species for the purpose of scientific research.

Fin whale	*Balaenoptera physalus.*
Sei whale	*Balaenoptera borealis.*
Minke whale	*Balaenoptera acutorostrata.*
Humpback whale	*Megaptera novaeangliae.*
Right whale	*Eubalaena australis.*
Sperm whale	*Physeter catadon.*
Common dolphin	*Delphinus delphis.*
Common dolphin	*Delphinus sp.*
Bottlenosed dolphin.	*Tursiops truncatus.*
Striped dolphin	*Stenella coeruleoalba.*
Risso's dolphin	*Grampus griseus.*
Ganges dolphin	*Platanista gangetica.*
Franciscana dolphin.	*Pontoporia blainvillei.*
Amazon dolphin	*Inia geoffrensis.*
Finless dolphin	*Neomeris phocaenoides.*
Dall's porpoise	*Phocoenoides dalli.*
True's porpoise	*Phocoenoides truei.*

The Applicant requests a permit to import these samples for research on the level of pollutants found in the marine ecosystem. The samples are of brain blubber, muscle, liver, endocrine glands and bone. From each a sample part of the tissue will be immediately analyzed while the remainder will be preserved for future study. The techniques of analyses include gas and thin-layer chromotography, atomic absorption spectrometry and mass spectrometry. The specimen materials were previously collected by Dr. George Pilleri, of the Brain Anatomy Institute, Bern, Switzerland, in the course of his work at various locations throughout the world. The Applicant states that no live animals are to be imported for this research.

The Applicant has been advised that a separate application for a permit under the Endangered Species Act of 1973 is necessary for specimens of species subject to that legislation.

Documents submitted in connection with the above applications are available

PORTLAND ZOOLOGICAL GARDENS

Receipt of Application for a Public Display Permit

Notice is hereby given that the following applicant has applied in due form for a permit to take marine mammals for public display as authorized by the Marine Mammal Protection Act of 1972 and the Regulations Governing the Taking and Importing of Marine Mammals.

Portland Zoological Gardens, 4055 S.W. Canyon Road, Portland, Oregon 97221, to take up to ten (10) Pacific harbor seals (*Phoca vitulina richardii*) for the purpose of public display.

The applicant proposes to take up to ten harbor seal pups and maintain them as part of the zoo's display. The animals to be taken are principally those reported by the Oregon Game Department or other government agency as abandoned. The applicant states that mature animals are not to be taken.

The seals will be held in the zoo's nursery area while the zoo's seal pool is being renovated. The nursery includes two indoor enclosures of 175 square feet each with adequate pool facilities and two adjacent outdoor areas of 700 square feet each. The renovated seal pool will measure 55 feet in diameter and 8 feet in depth with a capacity of about 50,000 gallons.

The Portland Zoo is operated by the city of Portland and is visited by some two-thirds of a million people a year. A nominal admission fee is charged.

The arrangements and facilities for transporting and maintaining the marine mammals requested in the above described application have been inspected by a licensed veterinarian who has certified that such arrangements and facilities are adequate to provide for the well-being of the marine mammals involved.

Documents submitted in connection with the above application are available for review at the following locations: Office of the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235 and the Office of the Regional Director, National Marine Fisheries Service, Northwest Region, 1700 Westlake Avenue, North, Seattle, Washington 98109.

Concurrent with the publication of this notice in the FEDERAL REGISTER, the Secretary of Commerce is forwarding copies of this application to the Marine Mammal Commission and the Committee of Scientific Advisors.

Written data or views, or requests for a public hearing on this application should be submitted to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235 on or before March 28, 1975. The holding of such a hearing is at the discretion of the Director.

All statements and opinions contained in this notice in support of this application are summaries based upon information supplied by the Applicant and therefore, do not necessarily reflect the views of the National Marine Fisheries Service.

Dated: February 12, 1975.

WALTER KIRKNESS,
Acting Associate Director for Resource Management, National Marine Fisheries Service.

MORRO BAY AQUARIUM

Receipt of Application for a Public Display Permit

Notice is hereby given that the following applicant has applied in due form for a permit to take marine mammals for public display as authorized by the Marine Mammal Protection Act of 1972 and the Regulations Governing the Taking and Importing of Marine Mammals.

Morro Bay Aquarium, 595 Embarcadero, Morro Bay, California 93442, to take two (2) California sea lions (*Zalophus californianus*) and two (2) Pacific harbor seals (*Phoca vitulina richardii*) for the purpose of public display.

The California sea lions will be taken by a professional collector from the California Channel Islands. The animals will be collected during the period of November to April.

The Pacific harbor seals will be taken in the Morro Bay area by the applicant.

The animals will be maintained in three tanks which measure 16 feet long by 10 feet wide by six feet deep, 12 feet long by 10 feet wide by 4 feet deep and ten feet long by 10 feet wide by 2½ feet deep, respectively. Two of the tanks are equipped with haul-out platforms and each tank is supplied with 47,000 gallons of sea water every day.

The display is open seven days a week and is visited by over 20,000 people a year. The Morro Bay Aquarium is a profit making corporation. School groups regularly visit the facility. Mr. Dean Tyler, Curator, has ten years experience in displaying marine mammals. Veterinary services are available, if needed, by a local veterinarian.

The arrangements and facilities for transporting and maintaining the marine mammals requested in the above described application have been inspected by a licensed veterinarian who has certified that such arrangements and facilities are adequate to provide for the well-being of the marine mammals involved.

Documents submitted in connection with the above application are available for review in the Office of the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235, and the Office of the Regional Director, Southwest Region, National Marine Fisheries Service, 300 South Ferry Street, Terminal Island, California 90731.

Concurrent with the publication of this notice in the FEDERAL REGISTER, the Secretary of Commerce is forwarding copies of this application to the Marine Mammal Commission and the Committee of Scientific Advisors.

Interested parties may submit written data or views on this application on or before March 26, 1975, to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235.

All statements and opinions contained in this notice in support of this application are summaries based upon information supplied by the Applicant and, therefore, do not necessarily reflect the views of the National Marine Fisheries Service.

Dated: February 6, 1975.

NAVAL UNDERSEA CENTER

Modification of Permit

Notice is hereby given that, pursuant to the provisions of §§ 216.33 (d) and (e) of the Regulations Governing the Taking and Importing of Marine Mammals (39 FR 1851, January 15, 1974), the Scientific Research Permit issued to the Naval Undersea Center, Biosystems Research Department, on March 5, 1974, as modified on July 8, 1974 (39 FR 24932) and on August 2, 1974 (39 FR 27933), is further modified, by means of modification No. 4, in the following manner:

The Period of validity of the Permit is extended from June 30, 1975, to December 31, 1975.

This modification is effective on February 26, 1975.

The permit as modified is available for review in the Office of the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235, and in the Office of the Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90732.

Dated: February 11, 1975.

SAN DIEGO ZOOLOGICAL GARDEN

Receipt of Application for a Public Display Permit

Notice is hereby given that the following applicant has applied in due form to take and import marine mammals for public display as authorized by the Marine Mammal Protection Act of 1972 and the Regulations Governing the Taking and Importing of Marine Mammals.

San Diego Zoological Garden, P.O. Box 551, San Diego, California 92112, to take and import four (4) Southern sea lions (*Otaria bryonia*) for the purpose of public display.

The southern sea lions are requested to supplement a pair of this species already on exhibit. The applicant intends to establish a reproductive group of this species similar to that found in the wild in hopes of increasing the chances of the animals reproducing in captivity.

The sea lions are to be captured by a professional collector in the vicinity of Lima, Peru. The animals will be transported to the United States via a commercial airline which has previous experience in transporting sea lions.

A fresh water pool of 165,000 gallon capacity and a large haul out area will house the animals. The water is changed every other day and the pool is flushed and hosed clean three times a week. A staff of five veterinarians is available for animal health care maintenance.

The San Diego Zoo is a nonprofit corporation. Over 3 million visitors a year are recorded. The zoo employs on its staff, teachers who work with the local schools and universities in utilizing the Zoo's displays.

The arrangements and facilities for transporting and maintaining the marine mammals requested in the above described application, have been inspected by a licensed veterinarian who has certified that such arrangements and facilities are adequate to provide for the well-being of the marine mammals involved.

Documents submitted in connection with this application are available in the Office of the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235, the Office of the Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731 and the Office of the Regional Director, National Marine Fisheries Service, Southeast Region, Duval Building, 9450 Gandy Boulevard, St. Petersburg, Florida 33702.

Concurrent with the publication of this notice in the FEDERAL REGISTER, the Secretary of Commerce is sending copies of the application to the Marine Mammal Commission and the Committee of Scientific Advisors.

Written views or data, or requests for a public hearing on this application should be submitted to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235 on or before March 28, 1975. The holding of such hearing is at the discretion of the Director.

All statements and opinions contained in this Notice in support of this application are summaries based upon information supplied by the Applicant and, therefore, do not necessarily reflect the views of the National Marine Fisheries Service.

Dated: February 18, 1975.

SEA WORLD

Modification of Permit

Notice is hereby given that, pursuant to the provisions of § 216.33 (d) and (e) of the Regulations Governing the Taking and Importing of Marine Mammals (39 FR 1851, January 15, 1974), the Public Display Permit issued to Sea World, Incorporated, San Diego, California 92109, on September 27, 1974, is modified, by means of Modification No. 1, in the following manner:

A special condition is added to the Permit, stating that the authorized marine mammals are to be taken by Sea World personnel, under the supervision of qualified individuals identified in the application, or other such individuals as are approved by the Director.

This modification is effective on February 26, 1975.

The Permit, as modified, is available for review in the Office of the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235, and in the Offices of the Regional Director, National Marine Fisheries Service, Southeast Region, Duval Building, 9450 Gandy Boulevard, St. Petersburg, Florida 33702, and the Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731.

Dated: February 6, 1975.

Social and Economic Statistics Administration

CENSUS ADVISORY COMMITTEE ON POPULATION STATISTICS

Public Meeting

The Census Advisory Committee on Population Statistics will convene on April 4, 1975 at 9:30 a.m. The Committee will meet in Room 2113, Federal Building 3, at the Bureau of the Census in Suitland, Maryland.

The Census Advisory Committee on Population Statistics was established in 1965 to advise the Director, Bureau of the Census, on current programs, on plans for the 1970 Census of Population and on other matters dealing with the collection and issuance of population statistics.

The agenda for the meeting is: (1) The statistical system planning process; (2) Current commuting data from the Annual Housing Survey supplement; (3) Data for statistical areas—current vs. 1970 Standard Metropolitan Statistical Area boundaries, urban townships, and larger minimum size of urban areas; (4) Current status of 1980 Census planning; (5) Follow-on survey after the 1980 Census; (6) Research on ethnic identification, income, voting, relationship, and the counting of Indians; and (7) Subnational population projections.

A limited number of seats—approximately 15—will be available to the public. A brief period will be set aside for public comment and questions. Extensive questions or statements must be submitted in writing to the Committee Control Officer at least three days prior to the meeting.

Persons planning to attend and wishing additional information concerning this meeting should contact the Committee Control Officer, Dr. Paul C. Glick, Senior Demographer, Population Division, Bureau of the Census, Room 2011, Federal Building 3, Suitland, Maryland. (Mail address: Washington, D.C. 20233). Telephone (301) 763-7030.

VINCENT P. BARABBA,
Director, Bureau of the Census.

COAL MINE HEALTH RESEARCH ADVISORY COMMITTEE

Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), the Director, Center for Disease Control announces the meeting date and other required information for the following National Advisory body of the National Institute for Occupational Safety and Health which is scheduled to assemble during the month of March 1975.

XUM
V 40 39 FEB 26 75 XUM

Committee name	Date/Time/Place	Type of meeting and/or contact person
Coal Mine Health Research Advisory Committee.	March 20, 1975, 9 a.m., conference room G, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open—9 a.m. to 4 p.m. Closed—remainder of meeting. Contact: Dr. Jack Butler, NIOSH, room 2-30 Park Bldg., 5600 Fishers Lane, Rockville, Md. 20852.

Purpose: The Committee is charged with advising the Secretary, Department of Health, Education, and Welfare on matters involving or relating to coal mine health research, including grants and contracts for such research.

Agenda: From 9 a.m. to 4 p.m. on March 20, the Committee will be open for discussion of current status of the autopsy program, background of computer-assisted chest x-ray readings, project site visit report on computer chest x-ray analysis, program plans in mining research, second-round medical examinations of coal miners, and current activities of NIOSH research programs. From 4 p.m. through the end of the meeting, the Committee will review research grant applications and will not be open to the public, in accordance with the determination by the Director, Center for Disease Control, pursuant to the provisions of Pub. L. 92-463, section 10 (d).

Agenda items are subject to change as priorities dictate.

A roster of members and other relevant information regarding the meeting may be obtained from the contact person listed above.

Dated: February 18, 1975.

Food and Drug Administration

[FAP 4B2989]

E. I. DUPONT DE NEMOURS & CO., INC.

Filing of Petition for Food Additive

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409 (b)(5), 72 Stat. 1786; 21 U.S.C. 348(b)(5)), notice is given that a petition (FAP 4B2989) has been filed by E. I. DuPont de Nemours & Co., Inc., 1007 Market St., Wilmington, DE 19898, proposing that § 121.2555 *Perfluorocarbon resins* (21 CFR 121.2555) be amended to provide for safe use of lithium polysilicate as a component of perfluorocarbon resins intended to contact food.

The environmental impact analysis report and other relevant material have been reviewed, and it has been determined that the proposed use of the additive will not have a significant environmental impact. Copies of the environmental impact analysis report may be seen in the office of the Assistant Commissioner for Public Affairs, Rm. 15B-42 or the office of the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, during working hours, Monday through Friday.

Dated: February 19, 1975.

HOWARD R. ROBERTS,
Acting Director, Bureau of Foods.

[DESI 740; Docket No. FDC-D-664; NDA 4-038, etc.]

ESTROGENS FOR ORAL OR PARENTERAL USE

Drugs for Human Use; Drug Efficacy Study Implementation; Amended Notice

A notice (DESI 740) was published in the FEDERAL REGISTER of September 26, 1973 (38 FR 26824), concerning, among other things, the labeling conditions for certain estrogens for oral or parenteral use. These products are used in patients with deficiency of estrogen or other disease conditions.

A notice was published in the FEDERAL REGISTER of February 5, 1975 (40 FR 5351) amending § 310.501 to set forth the conditions for approval and safe and effective use of 25 mg. tablets of diethylstilbestrol (DES) as an oral postcoital contraceptive. That notice requires that these 25 mg. tablets be specially packaged and accompanied by a patient leaflet fully explaining the use of the product. There are no other dosage forms or strengths of any drug product, including those referred to in the notice of September 26, 1973 (DESI 740), approved for this use.

In order to discourage use for postcoital contraception of dosage strengths of DES other than the specially packaged 25 mg. tablets which are accompanied by the patient leaflet, the Director of the Bureau of Drugs concludes that labeling for such other strengths should state that the product should not be used for postcoital contraception. This notice announces that conclusion.

Therefore, paragraph B.2. Labeling conditions, appearing in the notice of September 26, 1973, is hereby amended to read as follows:

2. Labeling conditions. The labeling conditions are the same as those described in the notice of November 10, 1971, with the following exceptions:

a. The probably effective and possibly effective indications are no longer allowable.

b. Labels and labeling for products containing diethylstilbestrol, diethylstilbestrol diphosphate, or diethylstilbestrol dipropionate shall include the following statement in block capital letters: THIS DRUG PRODUCT SHOULD NOT BE USED AS A POSTCOITAL CONTRACEPTIVE.

In the case of the physician's package insert, the statement shall appear before the description of the drug. In the case of container and carton labels, the statement shall appear in a prominent, conspicuous location. Complete labeling guidelines are available on request.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050-1053, as amended; 21 U.S.C. 352, 355) and under the authority delegated to the Director, Bureau of Drugs (21 CFR 2.121).

Dated: February 19, 1975.

J. RICHARD CROUT,
Director, Bureau of Drugs.

[FR Doc.75-5071 Filed 2-25-75;8:45 am]

National Institute of Education

NATIONAL COUNCIL ON EDUCATIONAL RESEARCH

Meeting

Notice is hereby given that the next meeting of the National Council on Educational Research will be held on March 7, 1975 at the Lyndon B. Johnson Library, Austin, Texas.

The National Council on Educational Research is established under section 405(b) of the General Education Provisions Act (20 U.S.C. 1221e(b)). Its statutory duties include:

(a) Establishing general policies for, and reviewing the conduct of the Institute;

(b) Advising the Assistant Secretary for Education and the Director of the Institute on development of programs to be carried out by the Institute;

(c) Recommending to the Assistant Secretary and the Director ways to strengthen educational research, to improve the collection and dissemination of research findings, and to insure the implementation of educational renewal and reform based upon the findings of educational research.

This meeting will be open to the public except for the closed session. The tentative agenda includes:

9:15	Convene open session.
9:15–10:15	Director's remarks: Fiscal year 1975 status. Fiscal year 1976 budget and program.
10:15–10:30	Reviews of NIE management.
10:30–11:30	Fiscal year 1977 planning issues.
11:30–12:30	Luncheon.
12:30–2	Congressional reauthorization and consideration of Fiscal year 1976 appropriation (end of open session).
2–3	Executive session.
3	Adjourn.

Members of the public are invited to attend the open sessions. Written statements relevant to an agenda item (or to any other item considered of interest to the Institute) may be submitted at any

time and should be sent to the Chairman and the Executive Secretary of the Council at the address shown below. Requests to address the Council meeting should be submitted in writing to the Chairman and the Executive Secretary at least five days in advance of the meeting. The Chairman will determine whether a presentation should be scheduled.

In accordance with Council policy (NCER Resolution No. 013074-8) copies of Council resolutions and minutes of Council meetings can be obtained by contacting the Executive Secretary. Resolutions are available shortly after the particular meeting at which adopted. Because minutes require approval by the Council at a subsequent meeting, they are usually available approximately four to six weeks after the date of the meeting to which they refer.

In order to verify the tentative agenda, assure adequate seating arrangements, or to obtain summaries of this meeting and copies of any resolutions adopted by the Council at this meeting, interested persons are requested to contact Ms. Caroline Phillips, Executive Secretary, National Council on Educational Research, whose address and telephone number are listed below:

National Council on Educational Research, Office of Planning and Management, National Institute of Education, Washington, D.C. 20208, 202-254-7900.

Dated: February 21, 1975.

EMERSON J. ELLIOTT,
Acting Director, National Institute of Education.

Office of the Secretary

NATIONAL PROFESSIONAL STANDARDS REVIEW COUNCIL

Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following meeting:

Name: National Professional Standards Review Council Ad Hoc Subcommittee on Physician Reimbursement for Review

Date and Time: March 31, 1975 (9 a.m. to 12 noon)

Place: Room 5051, DHEW North Building, 330 Independence Avenue, SW., Washington, D.C.

Purpose of Meeting: The Ad Hoc Subcommittee on Physician Reimbursement for Review was established to assist the National Professional Standards Review Council in the area of reimbursement of physicians by PSROs for medical care review. The Council was established to advise the Secretary of Health, Education, and Welfare on the administration of Professional Standards Review (Title XI, Part B, Social Security Act). Professional Standards Review is the procedure to assure that the services for which payment may be made under the Social Security Act are medically necessary and conform to appropriate professional standards for the provision of quality health care. The Subcommittee's agenda will include a discussion of issues relevant to the reimbursement of physicians by PSROs for medical care review.

Meeting of the Subcommittee is open to the public. Public attendance is limited to space available.

Any member of the public may file a written statement with the Subcommittee before, during, or after the meeting. To the extent that time permits, the Subcommittee Chairman may allow public presentation of oral statements at the meeting.

All communications regarding this Subcommittee should be addressed to John R. Farrell, M.D., Director, Office of Professional Relations, Office of Professional Standards Review, Room 16A-16, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20852.

Dated: February 18, 1975.

HENRY E. SIMMONS,
Executive Secretary, National Professional Standards Review Council.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[Docket Nos. 14318 and 14317; Reference Notice Nos. 75-6 & 75-5]

FLEET NOISE LEVEL AND CIVIL SUBSONIC TURBOJET ENGINE POWERED AIRPLANES: NOISE RETROFIT REQUIREMENTS

Public Hearings

The Federal Aviation Administration will hold public hearings March 18 and 19, and April 17 and 18, 1975, on two proposed amendments to the Federal Aviation Regulations (14 CFR Chapter 1) submitted to the FAA by the Environmental Protection Agency (EPA) under section 611(c)(1) of the Federal Aviation Act of 1958, as amended by the Noise Control Act of 1972 (Pub. L. 92-574). These hearings will afford interested persons the opportunity to present views, data, and arguments regarding the substance and issues raised in the proposals contained in Notice 75-6, "Fleet Noise Level Requirements" (40 FR 8222; February 26, 1975) and Notice 75-5, "Civil Subsonic Turbojet Engine Powered Airplanes" (40 FR 8218; February 26, 1975).

These hearings will be conducted in the Auditorium on the 3rd Floor of the Federal Aviation Administration Building, 800 Independence Avenue, SW., Washington, D.C., convening at 9 a.m. each day, according to the following schedule:

March 18 and 19—"Civil Subsonic Turbojet Engine Powered Airplanes: Noise Retrofit Requirements"; Notice No. 75-5 (40 FR 8218; 1975; Docket No. 14317).

April 17 and 18—"Fleet Noise Level Requirements"; Notice No. 75-6 (40 FR 8222; 1975; Docket No. 14318).

In the event that the response to this notice exceeds the time allotted to the hearing on the "Noise Retrofit Requirements," that hearing will be continued to March 20, 1975, in the FAA Auditorium.

The hearings will be informal in nature and will be conducted by a designated representative of the Administrator under 14 CFR 11.33. At each hearing, FAA spokesmen will make a brief opening statement regarding the proposals contained in the respective notices. Since the hearings will not be evidentiary or judicial in nature, there will be no cross-examination or other adjudicatory procedure applied to the presentations. However, interested persons wishing to make rebuttal statements will be given an opportunity to do so at the conclusion of the presentations in the same order in which initial statements are made.

Interested persons are invited to attend the hearings and to participate by making oral or written statements concerning the respective proposals. Written statements should be submitted in duplicate and will be made a part of the regulatory docket of each proposed amendment. Persons wishing to make oral statements at one or both of the hearings must notify the FAA as to which proceeding and the date they desire to be heard, and indicate the amount of time requested for their initial statements. Presentations will be scheduled on a first-come-first-served basis, as time may permit. Requests to be heard should be addressed: "Attention: Presiding Officer, Public Hearing on Notice No. 75-(5 or 6, as may be appropriate), Office of the Chief Counsel, Rules Docket, AGC-24, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591."

In addition to material presented for the purpose of the hearings, persons not participating in the hearings are invited to submit relevant written comments to the regulatory docket established for each notice of proposed rule making. As stated in those notices, such written comments should identify the notice or docket number and be submitted in duplicate to: Office of the Chief Counsel, Rules Docket, AGC-24, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591. The closing date for submitting written comments is announced in the respective notices of proposed rule making. All comments will be available for examination in the FAA Rules Docket both before and after the closing date for comments.

Notice No. 75-5 and Notice No. 75-6 were issued by the FAA in accordance with section 611(c)(1) of the Federal Aviation Act of 1958, as amended by the Noise Control Act of 1972 (Pub. L. 92-574). Each notice contains proposed regulations submitted to the FAA by EPA to provide such control and abatement of aircraft noise as EPA determines is necessary to protect the public health and welfare. The notices present EPA's analysis of the background of the respective proposals and contain the material that is the subject of the public hearing. While all relevant comments are of interest, the FAA specifically invites

XUM
V 40 0139
FEB 26 75
XUM

relevant statements or comments concerning the following:

(a) Available data relating to aircraft noise, including the results of research, development, testing, and related evaluation activities.

(b) The views and positions of other Federal, State, and interstate agencies.

(c) Whether the proposed regulations would be consistent with the highest degree of safety in air commerce and air transportation in the public interest.

(d) Whether the proposed regulations would be—

(1) Economically reasonable;

(2) Technologically practicable; and

(3) Appropriate for the particular types of aircraft, aircraft engines, appliance or certificate to which they would apply.

(e) The extent to which the proposed regulations would contribute to providing protection to the public health and welfare and to carrying out the other purposes of section 611 of the Federal Aviation Act of 1958, as amended.

(f) The overall environmental impacts of the proposed regulations (including environmental factors other than noise).

Before taking further action under section 611(c) of the Federal Aviation Act of 1958, the FAA will consider all statements presented at the hearings and all relevant written statements and comments submitted and made part of the regulatory dockets. The specific terms and substance of proposals contained in the respective notices may be changed in the light of those statements and comments presented.

Transcripts of the hearings will be made and anyone may purchase copies of each from the reporter. A transcript of the hearings will be available for examination in the respective rule dockets.

AUTHORITY: Secs. 313(a), 601, 603, 604, 605, and 611(c) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1349 (a) and (c), 1354(a), 1421, 1423, 1424, 1425, and 1431(c)), sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c), and 44 U.S.C. 1506).

Issued in Washington, D.C., on February 21, 1975.

CHARLES R. FOSTER,
Director,
Office of Environmental Quality.

CIVIL AERONAUTICS BOARD

[Docket 26310]

ACCEPTANCE AND CARRIAGE OF LIVE ANIMALS IN DOMESTIC AIR FREIGHT TRANSPORTATION

Prehearing Conference

Notice is hereby given that a second prehearing conference in the above-captioned proceeding will be convened on April 8, 1975 at 10 a.m. (local time) in Room 911, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C. 20428 with the undersigned presiding.

The Bureau of Economics will serve four copies of the following documents on the Administrative Law Judge and one copy thereof on each person named in the service list of the preliminary prehearing conference report served in this proceeding on July 11, 1974, on or before March 17, 1975.

1. *Proposed statement of issues.* (a) *The Statutory issues.*

Refer to Orders 74-1-79, January 14, 1974; 74-5-66, May 10, 1974; 74-7-26, July 5, 1974 and Appendix A, preliminary prehearing conference report served July 11, 1974.

(b) *The Sub-issues.*

Sub-issues must be concisely stated and grouped under the following functional classifications:

(i) Acceptance.
(ii) Packaging.
(iii) Documentation.
(iv) Health certification.
(v) Care and handling.
(vi) Priority of shipment.
(vii) Flight environment.
(viii) Pickup and delivery.
(ix) Embargoes.

2. *Proposed stipulations.* The Bureau of Economics will summarize, by each functional classification set forth in paragraph 1(b) preceding, all understandings reached by the various Working Groups with respect to narrowing and resolving the several issues, the drafting of proposed tariff rules, and the development of a mutually agreeable request for information and evidence.

3. *Request for information and evidence.* The Bureau of Economics will prepare a request for information and evidence by functional classification as set forth in paragraph 1(b) preceding.

4. *Tentative statement of position.*

5. *Proposed procedural dates.* The carrier parties and the intervenors may respond to the Bureau's submissions pursuant to paragraphs 1, 2, 3, 4, and 5, on or before March 31, 1975. The parties will serve four copies of their responses on the Administrative Law Judge and one copy on each person named in the service list of the preliminary prehearing conference report. Responses to the Bureau's material submitted by the various parties will be restricted to matters on which there is substantial disagreement with the Bureau and each response will be cross-referenced to the precise Bureau submission in question.

Dated at Washington, D.C., February 21, 1975.

[SEAL] ALEXANDER N. ARGERAKIS,
Administrative Law Judge.

[Docket 27530; Order 75-2-88]

AEROPERU

Statement of Tentative Findings and Conclusions and Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 21st day of February, 1975.

AeroPeru (Empresa de Transportes Aero del Peru) is the holder of a foreign air carrier permit, issued pursuant to Order 74-7-121,[1] which authorizes it to perform foreign air transportation with respect to persons, property, and mail, over a route between: (1) a point or points in Peru; the intermediate points Guayaquil and Quito, Ecuador; Bogota and Cali, Colombia; Panama City, Panama; Caracas, Venezuela; and Miami, Florida; and the terminal point Montreal, Canada; and (2) a point or points in Peru; the intermediate points Guayaquil, Ecuador; and Mexico City, Mexico; and the terminal point Los Angeles, California; and to engage in charter trips subject to Part 212 of the Board's Economic Regulations. This permit, issued pursuant to the Air Transport Services Agreement between the Government of the United States and the Government of Peru, enables AeroPeru to operate to the United States with whatever number of frequencies and combination of authorized points it desires, utilizing whatever type aircraft it alone chooses.

The Government of Peru has issued operating permits to the United States-designated carrier (Braniff Airways, Inc.) authorizing scheduled air services between specified points in the United States and Lima, via named intermediate points and beyond Lima to named points. Frequencies, itineraries and equipment are all specified. Should the carrier wish to implement any changes in its operations, it must obtain the prior approval of the aeronautical authorities of Peru.

On April 3, 1974 the Government of Peru canceled the U.S.-designated carrier's operating permit, which was due to expire in June 1975, under the terms of a Decree which provided for the cancellation of all operating permits whose terms had exceeded three years. Braniff was advised by the Peruvian authorities that renewal of its operating permit would be contingent upon the existence of real reciprocity, defined as an equivalence in the number of frequencies operated by the U.S. carrier and AeroPeru or, in the event this situation did not exist, upon the U.S. carrier providing effective compensation, either in the form of payments of 20 percent of its receipts on certain sectors or in the form of technical or other assistance.

In May 1974 the U.S.-designated carrier applied to the aeronautical authorities of Peru for authority to operate two additional frequencies to that country. When the Government of Peru indicated that it would not approve the U.S. carrier's application, the United States Government noted its objections and requested the Peruvian authorities to reconsider their decision pending consultations. The Peruvian authorities declined to do so, in clear violation of the Air Transport Services Agreement.[2]

[1] Approved by the President on July 25, 1974 (Docket 26600).

[2] The Air Transport Services Agreement between the United States and Peru provides that:

"1. The two Governments find themselves in agreement that under the terms of the Air Transport Agreement the responsibility for the determination of the appropriate capacity, frequency, and type of aircraft used over agreed routes, consonant with the terms of the Agreement, rests in the first instance with the designated airlines. In light of the requirement of Peruvian legislation with regard to the filing of schedules, it is agreed that each Government may require the airlines designated by the other Government to submit schedules, for information purposes only, thirty days prior to the proposed entry into effect of such schedules.

2. Neither Government will delay nor deny the entry into effect of proposed schedules."

On October 22, 1974 the Government of Peru issued the U.S. carrier a new operating permit with an expiration date of February 28, 1975. The permit reduced the number of flights permitted the U.S. carrier between the United States and Peru and beyond and required the carrier to adhere to a prescribed itinerary on those flights which it could continue to operate. Further restrictions were placed on the number of flights that the carrier might operate to individual points along the route. The U.S. carrier's services between Lima, La Paz and Asuncion; Lima, La Paz and Buenos Aires; Lima, La Paz and Santiago and between Lima, Sao Paulo and Rio de Janeiro were authorized provisionally for a period of 45 days, on the grounds that they were not contemplated in the Route Annex of the U.S.-Peru Air Transport Services Agreement, thus further reducing the U.S. carrier's operation beyond Peru to one flight per week. The U.S. carrier was given 45 days, or until January 7, 1975, to comply with the terms of the new permit. Subsequently, this period was extended to January 31, 1975.

Representatives of the Government of Peru and the Government of the United States met for consultations in Lima November 11–15, 1974, and January 8–24, 1975. During the talks the U.S. representatives made clear the United States Government's view that the restrictions the Government of Peru had unilaterally imposed on the U.S. carrier constituted a violation of the Agreement. They urged that the two delegations explore bilateral solutions to the civil aviation problems between the two countries. These talks were unsuccessful. Inter-carrier discussions were similarly unproductive. Beginning February 1, 1975 the U.S.-designated carrier conducted its reduced operations pursuant to the terms of its new permit. Services were continued in order to minimize the impact upon the traveling public of curtailed services and did not constitute acceptance by the United States of the actions taken by the Government of Peru.

The U.S.-Peru Air Transport Services Agreement grants the U.S. carrier rights to freely operate services beyond Peru. In the route definition "and beyond Peru to points in Chile and Bolivia or beyond," Chile and Bolivia are named to provide an indication of the direction in which the beyond traffic might flow. The listing of these two countries does not impose the requirement that they be served, in the order listed, nor does it imply that only Chile and/or Bolivia may be served on any flight beyond Peru. Since it is not mandatory to serve points in Chile or Bolivia, flights may serve points beyond Chile or Bolivia.

Upon consideration of these matters, the Board finds that the Government of Peru has taken unilateral restrictive action against the U.S.-designated carrier's operations, over the objection of the United States Government, which has significantly impaired, limited and denied operating rights in a manner inconsistent with and in violation of the United States-Peru Air Transport Services Agreement. The underlying foundation for the grant of a foreign air carrier permit to AeroPeru rests upon the faithful adherence to the terms of the United States-Peru Air Transport Services Agreement, *i.e.*, the grant to U.S. carriers of the rights exchanged and provided for in that Agreement. Since Peru has denied these rights to the U.S. carrier designated under the Agreement, Braniff Airways, the Board finds that the foundation for the grant of a permit to AeroPeru no longer exists. Accordingly, the Board tentatively finds that cancellation of the foreign air carrier permit held by AeroPeru would be in the public interest.

Accordingly, *it is ordered* That: 1. All interested persons are hereby directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated herein, and which would, subject to the approval of the President, cancel the foreign air carrier permit held by AeroPeru (Empresa de Transportes Aero del Peru) (Order 74-7-121);

2. Any interested perhon having objection to the issuance, without hearing, of an order making final the tentative findings and conclusions stated herein shall file a statement of objections supported by evidence within 20 days of service of this order. If an evidentiary hearing is requested, the objector should state in detail why such hearing is considered necessary and what relevant and material facts he would expect to establish through such hearing which cannot be established in written pleadings;

3. If timely and properly supported objections are filed, further consideration will be accorded the matters and issues raised by the objections before further action is taken by the Board; *Provided,* That the Board may proceed to enter an order in accordance with the tentative findings and conclusions herein if it determines that there are no factual issues presented that warrant the holding of an evidentiary hearing;

4. In the event no objections are filed, all further procedural steps will be deemed to have been waived, and the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth herein; and

5. Copies of this order shall be served upon AeroPeru and the Ambassador of Peru in Washington, D.C.

This order will be published in the FEDERAL REGISTER, and will be transmitted to the President.

By the Civil Aeronautics Board.

[SEAL] PHYLLIS T. KAYLOR,
Acting Secretary.

[FR Doc.75-5138 Filed 2-25-75;8:45 am]

[Docket 22659; Order 75-2-86]

PAN AMERICAN WORLD AIRWAYS, INC.

Order of Suspension

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 21st day of February, 1975.

By tariff revisions filed January 24, and marked to become effective February 23, 1975, Pan American World Airways, Inc. (Pan American) proposes, *inter alia*, to increase certain joint general commodity bulk rates between Fairbanks and various U.S. Mainland cities between 18 and 39 percent.

In support of the proposal, Pan American states, *inter alia*, it is filing the increased joint rates in order to incorporate the various local rate increases that were filed by Pan American and/or its interline partners; the rates were constructed over the gateways of New York, Seattle, and Portland, and the lowest rate obtained was selected; other than the 9 percent increase filed effective April 15, 1974, the current rates have been in effect since 1956 and 1958, except for the 100-pound rates, which were reduced May 7, 1961, and Pan American's revenue from the pro rata share of these joint rates will be $8,680, or less than 1 percent of its total Alaskan revenue.

The proposed rates and charges come within the scope of the Domestic Air Freight Rate Investigation, Docket 22859, and their lawfulness will be determined in that proceeding. The issue now before the Board is whether to suspend the proposals or to permit them to become effective pending investigation.

The Board has reviewed the instant proposals in the light of industry-average costs of carrying air freight (including taxes and a full return on investment and reflecting recent cost increases) and finds that many of the proposed significantly increased rates (those indicated in Appendix A) are higher than costs.

With respect to Pan American's assertion that its share of the joint rates are unduly low, the carrier's share would seem to depend upon interline agreements with other carriers and that is not in issue in the proposals. In view of the foregoing and all other relevant factors, the Board concludes that the rates indicated above as above costs should be suspended. This action would be consistent with our suspension (on the ground that they exceeded industry-average costs) of joint rates proposed between points on the Mainland, on the one hand, and those in Alaska, Hawaii, Puerto Rico, and the Virgin Islands, on the other (Orders 74-4-76, 74-6-89, 74-9-26, and 74-9-59).

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof,

It is ordered, That: 1. Pending hearing and decision by the Board, the increased rates described in Appendix A hereto are suspended and their use deferred to and including May 23, 1975, unless otherwise ordered by the Board and that no change be made therein during the period of suspension except by order or special permission of the Board; and

2. Copies of this order shall be filed with the tariffs.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] PHYLLIS T. KAYLOR,
Acting Secretary.

NATIONAL AIR POLLUTION MANPOWER DEVELOPMENT ADVISORY COMMITTEE

Meeting

Pursuant to Pub. L. 93-463, notice is hereby given that the National Air Pollution Manpower Development Advisory Committee meeting will be held March 14 and 15, 1975 in Las Vegas, Nevada and will begin 9 a.m. The March 14 meeting will be held in the Conference Room of the National Environmental Research Center, 944 East Harmon Street, Las Vegas, Nevada 89114. On March 15 the meeting will convene in the Nevada Room of the Royal Inn, 305 Convention Center Drive, Las Vegas, Nevada.

This is the regular quarterly meeting of the Advisory Committee. Primarily the meeting will be devoted to Committee review of the status of the fellowships, training grants, and direct training programs and the impact of the current trends and changes in these areas.

The meeting will be open to the public. Any member of the public wishing to attend or participate should contact: Mr. Ronnie E. Townsend, Executive Secretary, National Air Pollution Manpower Development Advisory Committee, Research Triangle Park, North Carolina, (919) 549-8411, extension 2482.

Dated: February 20, 1975.

WATER POLLUTION PREVENTION AND CONTROL

Addition to the List of Categories of Sources

Section 306(b)(1)(A) of the Federal Water Pollution Control Act, as amended October 18, 1972 (Pub. L. 92-500), directs the Administrator of the Environmental Protection Agency to publish, and from time to time revise a list of categories of sources which shall, at the minimum, include those listed in section 306(b)(1)(A). As soon as practicable, but in no case more than one year after the inclusion of a category of sources in such list, the Administrator is required to propose and publish regulations establishing Federal standards of performance for new sources within such categories. The original list of 27 source categories was published January 16, 1973 (38 FR 1624). Standards of performance have been promulgated for 26 of the source categories.

The Administrator, after evaluating available information, has determined that paint formulating and printing ink formulating are additional categories of point sources which meet the above requirements. Evaluation of other point source categories is in progress, and the list will be supplemented from time to time as the Administrator deems appropriate. Accordingly, notice is given that the Administrator, pursuant to section 306(b)(1)(A) of the Act amends the list of categories of sources as follows:

LIST OF CATEGORIES OF SOURCES

29. Paint formulating.
30. Printing ink formulating.

Proposed effluent limitations guidelines for existing sources and standards of performance and pretreatment standards for new sources applicable to the above point source categories appear elsewhere in this issue of the FEDERAL REGISTER.

Dated: February 12, 1975.

JOHN QUARLES,
Acting Administrator.

FEDERAL COMMUNICATIONS COMMISSION

[FCC 75-183]

BROADCAST ANNUAL FEES

Procedure for Payment

FEBRUARY 14, 1975.

This public notice sets forth the procedure for payment of the recalculated broadcast annual fees that the Commission outlined in paragraph 10 of the Report and Order released January 20, 1975 (FCC 75-32). Broadcast annual fees were suspended March 29, 1974 pending the Commission's adoption of a new basis for calculation of broadcast annual fees to be paid in place of the broadcast annual fees that would have been due April 1, June 1, August 1, October 1, December 1, 1974, and February 1, 1975. By adoption of the Second Report and Order on February 11, 1975 (FCC 75-182), the Commission has now established the basis for recalculation of broadcast annual fees for the six dates mentioned herein. Therefore, each station will pay a recalculated broadcast annual fee, and such payment will be made on or before August 1, 1975.

On or about July 10, 1975, each station will receive a special notice from the Commission setting forth the particular formula for computation of its respective recalculated broadcast annual fee that will be due and payable on August 1, 1975.

Action by the Commission February 11, 1975. Commissioners Wiley (Chairman), Lee, Hooks, Quello, Washburn, and Robinson.

FEDERAL COMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

MELVIN PULLEY AND H & G. C. INC.

Construction Permits

In re Applications of Melvin Pulley, tr/as Philadelphia Broadcasting Co. Philadelphia, Mississippi and H & G. C., Inc. Philadelphia, Mississippi for construction permits.

By the Review Board. 1. Melvin Pulley, tr/as Philadelphia Broadcasting Company (Pulley) requests the addition of an ascertainment issue against its competitor, H & G. C., Inc. (H & G. C.) urging that there are a number of deficiencies in the latter applicant's ascertainment

showing.[2] Q. and A. 6 and 7 of the *Primer*[3] detail the efforts which must be made to learn what community problems exist in areas which an applicant will serve outside its principal community, and it is petitioner's argument that H & G. C.'s efforts were inadequate because it has conducted no survey of community leaders and the general public outside the city limits of Philadelphia. This contention will be rejected. The *Primer* affords an applicant wide latitude as to how he ascertains community problems in outlying areas, and since several of the community leaders interviewed by H & G. C. hold positions in organizations having to do with the entire county in which Philadelphia is located, rather than Philadelphia exclusively, more is not required. Furthermore, it is clear that Philadelphia is the only large community in the entire county, the other "communities" referred to in the petition being extremely small.

2. Pulley's attack on the "mechanics" employed in H & G. C.'s community leader survey is not well taken. The affidavit attached to H & G. C.'s opposition makes it clear that the surveys were conducted by principals or management level employees, as required by the "Primer."[4] The Board can find nothing objectionable in the fact that when H & G. C. submitted an amended showing on the ascertainment of community needs, some of the community leaders listed in its original showing were repeated. The May 2, 1974 amendment does not assert that these interviews were newly made.

3. Pulley questions its opponent's survey of the general public because some of the interviews were made by a person who was then an employee of Station WHOC, Philadelphia,[4] and was not listed as a prospective employee of the FM station. It is clear from the opposition that this person was a prospective employee of the FM station. The fact that she has left WHOC and is no longer a prospective employee of H & G. C. does not render that portion of the survey conducted by her invalid. "Itawamba County Broadcasting, Inc.," et al, 46 FCC 2d 60, 29 RR 2d 1154 (1974); "Western Television Co.," FCC 2d, 32 RR 2d 350 (1974).

4. Petitioner's argument that H & G C has failed to consult leaders of significant groups in the community raises a more serious problem. H & G C's demographic data reveals that various types of industry constitute a significant segment of the economic activity of Philadelphia and the county in which it is situated and that the largest labor force and income group in the county is composed of industrial workers. Yet, it is asserted, no leaders of employee groups have been interviewed. H & G C responds, as it did in reply to a pre-designation inquiry from the Commission, that the industry in that area is not unionized so that there are no union leaders to consult, although it does show, by an amendment, that it interviewed three officers of unions of employees in two non-industrial activities. H & G C also, by amendment, supplements its survey to show that in December 1974, officers or managers of a number of industries in the area were interviewed. Viewing H & G C's showing in terms of Question and Answer 13(a) of the Primer,[5] the Board must conclude that there may be deficiencies which require the addition of an issue. The Commission states as follows in its answer to Question 13(a):

> . . . Groups with the greatest problems may be the least organized and have the fewest recognized spokesmen. Therefore, additional efforts may be necessary to identify their leaders so as to establish a dialogue with such groups and better ascertain their problems.

H & G C cannot satisfy the obligation imposed on it by the *Primer*, as it attempted to in its latest amendment, by interviewing persons in management positions in the various industrial concerns in its service area. The survey still lacks contacts with leaders among the employees of any of these organizations. By H & G C's own demographic showing, these persons constitute a significant groups, and by failing to interview representatives of this group, its ascertainment efforts are fatally defective, necessitating the specification of an issue. "Voice of Dixie, Inc.," 45 FCC 2d 1027, 29 RR 2d 1127, reconsideration denied 47 FCC 2d 526, 30 RR 2d 851 (1974); "Folkways Broadcasting Company, Inc.," 48 FCC 2d 723, RR 2d (1974).

5. While H & G C has made some effort to correlate its ascertained needs with its proposed programming, it has apparently failed to do this in a way to satisfy the requirements of the "Primer," and, therefore, petitioner's contention that this is an additional reason for specifying an ascertainment issue is correct. When H & G C revised its *Suburban* showing in an amendment filed May 2, 1974, it listed a series of programs, with their broadcast times, but failed to state which programs would treat which ascertained needs or problems. Responding to the instant petition to enlarge, one part of the most recent amendment attempts to correct this deficiency but fails to do so. The "Primer,"[6] in Question and Answer 29, provides that an applicant "should give the description, and anticipated time segment, duration and frequency of broadcast of the program, or program series, and the community problem or problems to be treated by it." The Board is able to identify four and one-half hours per week of programming purportedly designed to deal with specific problems, but of this total, all but one hour and fifteen minutes is directed to providing "more spiritual guidance" which was one of twenty-one needs and problems identified in H & G C's survey. Although several other programs, with the problems they will treat, are listed, no time segment and frequency can be found; in that category are the "Woman's Club Program" (which will be for 15 minutes once or twice a month), the Representative G. V. Montgomery program, and the "State College Program." The one hour and fifteen minutes a week that is regularly scheduled will deal with six or seven of the twenty-one ascertained problems. Thus, an issue must be added on this ground as well as that referred to in paragraph 4, *supra*. See "Southeast Arkansas Radio, Inc.," 47 FCC 2d 835, 30 RR 2d 769 (1974); "Azalea Corp.," 38 FCC 2d 95, 25 RR 2d 975 (1972).

6. Accordingly, *it is ordered*, That the motion to enlarge issues, filed on December 11, 1974, by Melvin Pulley, tr/as Philadelphia Broadcasting Company IS GRANTED, and that the issues herein are enlarged by addition of the following:

> To determine the efforts made by H & G.C., Inc. to ascertain the problems of the community to be served and the means by which the applicant proposes to meet these problems.

7. *It is further ordered*, That the burdens of proceeding and proof under the issue added herein SHALL BE on H & G C., Inc.

Adopted: February 12, 1975.

Released: February 19, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[FCC 75R-71; Docket Nos. 20219, 20220; File Nos. BPH-8660, BPH-8663]

MELVIN PULLEY AND H & G. C. INC.

Construction Permits

In re Applications of Melvin Pulley, tr/as Philadelphia Broadcasting Co., Philadelphia, Mississippi, and H & G. C., Inc., Philadelphia, Mississippi. For construction permits.

By the Review Board, Board Member Zias absent.

1. Before the Board for consideration are a motion and further motion to enlarge issues, filed December 4 and 11, 1974, respectively, by H & G. C., Inc. (H & G. C.), seeking inter alia, the addition of financial qualifications, misrepresentation, "Suburban," Rule 1.65 and site availability/misrepresentation issues, against Melvin Pulley tr/as Philadelphia Broadcasting Co. (Pulley).[1]

2. With respect to the first request, it is the Board's view that H & G. C.'s allegations fail to raise a substantial question as to Pulley's financial qualifications. Thus, although less than half of

[1] The pleadings before the Board are: (a) Pulley's motion to enlarge, filed December 11, 1974; (b) the Broadcast Bureau's comments, filed on December 26, 1974; and (c) an opposition filed by H & G. C. on January 2, 1975.

the amount of savings relied upon in Pulley's application is now available,[2] the applicant has acquired a bank loan commitment, which is sufficient in amount to cover this reduction and provide a surplus of funds over and above the amount required for the construction and operation of its proposal.[3] In this connection, H & G. C.'s contentions concerning the availability of the $50,000 bank loan from the People's Bank of Mississippi must be rejected. As noted by the Bureau, the bank letter, although stating at one point that the bank "would consider most favorably" a $50,000 commitment, provides the information called for by Form 301, including the amount of the loan, terms of repayment, interest rate, collateral required, as well as specifics concerning a moratorium on principal and interest. In view of this documentation and petitioner's failure to allege any extrinsic facts which would cast doubt on the reliability of the letter,[4] there is no basis for assuming that Pulley does not have reasonable assurance of the availability of its proposed loan.

3. In light of Pulley's failure to amend its application to reflect the reduction in available funds in savings [5] upon which it initially proposed to rely and the pendency of its Quitman application, referred to above, the Board will add a Rule 1.65 issue. Contrary to Pulley's argument, the critical consideration is not whether the applicant actually continued to have available the aggregate amount of funds represented to the Commission, but, whether the applicant kept the Commission timely informed of significant changes in its financial proposal. "Cf. St. Cross Broadcasting, Inc.," 39 FCC 2d 514, 26 RR 2d 941 (1973). Thus, although the applicant represented in its November 1, 1973, Quitman application that it had $25,000 rather than $50,000 in savings, it did not report this substantial change in this proceeding, nor did it inform the Commission of its acquisition of a $50,000 bank loan commitment until two months later on January 30, 1974. More important, however, is the applicant's failure to amend its application to reflect its application for a FM facility in Quitman, particularly in light of the fact that Pulley amended its application in other respects on four occasions subsequent to filing the Quitman application. As a related matter, the Board will deny the request for a misrepresentation issue. Petitioner's allegation that Pulley misrepresented the amount of savings it possessed at the time it filed the instant application is totally without foundation and, as such, must be regarded as speculation and surmise.

4. H & G C's allegations also serve to raise a substantial question as to whether Pulley complied with the requirements of the Commission's "Primer on the Ascertainment of Community Problems by Broadcast Applicants," 27 FCC 2d 650, 21 RR 2d 1507 (1971), in four major respects. First, the applicant's demographic showing does not appear to be sufficiently specific with respect to organizations, activities or other factors which would readily distinguish Philadelphia from any other community.[6] The applicant's generality of description, coupled with Pulley's inaccurate use of population figures derived from the U.S. Census,[7] which is the only specified source of demographic information, cast sufficient doubt upon Pulley's assessment of its proposed community of license to draw its "Suburban" efforts into question. See "Media, Inc.," 41 FCC 2d 30, 27 RR 2d 1077 (1973), pet. for rev. den. FCC 74-767, released July 16, 1974. In any event, even assuming that Pulley's demographic study were a sufficiently precise reflection of its community, it appears that the applicant has failed to survey leaders of significant population groupings. Thus, it is of critical importance that although Pulley stresses the significance of industry and agriculture within its proposed service area, it has not interviewed leaders of these concededly important groups. [8] As a related matter, Pulley has not shown that a significant number of its community leader surveys were in fact made with leaders who are representative of the significant groups comprising the community. For example, a consultation with a secretary employed by one of the major industrial firms in Philadelphia cannot be regarded as an adequate subsitute for an interview with a management-level representative of the significant employers in the city. Finally, as noted by H & G C and the Bureau, there is no indication as to who conducted Pulley's survey of the general public, as required by the "Primer." Accordingly, a "Suburban" issue will be added.

5. In the Board's view, H & G C has raised substantial questions as to the availability of Pulley's proposed antenna site and the representations of the applicant with respect to the site. The petitioner has submitted an affidavit executed by an engineer describing the precise coordinate description of the proposed site and an affidavit of owners of land, which matches that description, who state that they have signed no option, nor granted an easement to anyone for a radio antenna tower installation on their land. Pulley's response does not serve to counter these affidavits. We first note that, although an applicant need not have a binding agreement or absolute assurance of the availability of a site, it must show reasonable assurance of availability, rather than mere possibility that the site will be available.[10] Given this standard, Pulley's argument that the narrow language employed in the landowners' affidavit does not foreclose the possibility of other types of agreement, such as an oral option, clearly does not constitute an appropriate showing. A misrepresentation issue will also be added. The specification of a site is an implied representation that an applicant has obtained reasonable assurance that the site will be available, and a total failure to inquire as to actual availability is inconsistent with such a representation.[11] Here, Pulley has failed to allege that it approached the owners of the land which is apparently proposed as an antenna site,[12] let alone received reasonable assurance that the owners would be favorably disposed toward entering into some form of agreement.

[1] Other related pleadings before the Board for consideration are: (a) Broadcast Bureau's comments on motion to enlarge issues, filed December 18, 1974; (b) opposition, filed January 3, 1975, by Pulley; (c) reply, filed January 15, 1975, by H & G C and (d) Broadcast Bureau's comments on further motion to enlarge issues, filed December 26, 1974.

[2] In its application, filed October 15, 1973, Pulley stated that it had $50,000 in savings available to it; two weeks later, on November 1, 1973, the applicant indicated that it had $25,000 in savings in its Quitman, Mississippi, FM application. Now, in an attachment to its opposition, Pulley indicates that it has approximately $17,000 in savings.

[3] The reduction in savings to some $17,000 does not affect Pulley's financial capability to construct and operate both its instant proposal and its proposal for Quitman, Mississippi. Thus, relying on this reduced amount of savings, the applicant will, nevertheless, have available funds in the approximate amount of $122,000 to meet total costs of some $130,000 for the two proposals.

[4] Compare *REO General, Inc.*, 48 FCC 2d 397, 30 RR 2d 1691 (1974) in which corroborating testimony of an officer of the proposed institution indicated that a bank letter was no more than an "expression of interest." Also compare *Parkell Broadcasting, Inc.*, Mimeo No. 45507, —— FCC 2d ——, released January 27, 1975.

[5] Pulley's argument that the reduction in savings actually represents reinvestment of funds is unsubstantiated. In any event, assuming that Pulley were to reply on these reinvestment funds, the applicant would be required to show the value and liquidity of the newly-purchased assets.

[6] Rather, Pulley states in its ascertainment showing that . . . "Significant groups are relatively few, particularly in the light of the limited population [approximately 7000] of Philadelphia . . .".

[7] According to H & G C's unrebutted allegations, Pulley erred in describing the racial breakdown of its community by as much as nearly 6 percent with respect to the black population and 8 percent with respect to Indian population.

[8] See *Voice of Dixie, Inc.*, 45 FCC 2d 1027, 29 RR 2d 1127 (1974), recon. den., 47 FCC 2d 526, 30 RR 2d 851 (1974); *A. V. Bamford*, ---- FCC 2d ----, 31 RR 2d 790 (1974).

[9] In contrast, H & G C has not shown that women and student leaders comprise significant groups within the community. See Q. and A. 10 of the *Primer, supra*.

[10] See *William F. Wallace*, —— FCC 2d ——, 32 RR 2d 105 (1974); *Marvin C. Hanz*, 21 FCC 2d 420, 18 RR 2d 310 (1970); *El Camino Broadcasting Corp.*, 12 FCC 2d 25, 12 RR 2d 720 (1968).

[11] See *Lake Erie Broadcasting Co.*, 31 FCC 2d 45, 22 RR 2d 647 (1971); *Marbro Broadcasting Co.*, 4 FCC 2d 290, 8 RR 2d 51 (1966).

[12] In this connection, we note that Pulley has not attempted to precisely describe the site it is proposing; thus, the applicant argues both that the landowners approached by H & G C might be willing to enter into negotiations, but that, in any event, another adjacent landowner has indicated that he would be willing to sell property to Pulley in the event it were granted a construction permit. However, this latter argument is based on an affidavit executed by Pulley, rather than the landowner

6. Finally, H & G C's request for an issue which is contingent upon the addition of misrepresentation and abuse of process issues against Pulley in the Quitman, Mississippi proceeding will be denied, since the Board has recently denied the requests in the Quitman proceeding which are the basis of the instant requests. See *A. C. Elliot, Jr.*, FCC 75R-41, released January 28, 1975, and FCC 75R-48, released February 10, 1975.

7. Accordingly, *it is ordered*, That the motion to enlarge issues and the further motion to enlarge issues, filed December 4 and 11, 1974, by H & G C., Inc. ARE GRANTED to the extent indicated herein, and ARE DENIED in all other respects.

8. *It is further ordered*, That the issues in this proceeding ARE ENLARGED to include the following:

1. To determine whether Melvin Pulley tr/as Philadelphia Broadcasting Company has failed to comply with the provisions of Section 1.65 of the Commission's Rules by not reporting substantial changes in its liquid assets and interests in other broadcast applications, and if so, to determine the effect of such noncompliance on the applicant's basic or comparative qualifications to be a Commission licensee.

2. To determine whether Melvin Pulley tr/as Philadelphia Broadcasting Company has ascertained the needs and interests of its proposed service area.

3. To determine whether Melvin Pulley tr/as Philadelphia Broadcasting Company has reasonable assurance of the availability of its proposed transmitter site.

4. To determine whether Melvin Pulley tr/as Philadelphia Broadcasting Company made a willful misrepresentation to the Commission by proposing a site without having made adequate inquiries as to its availability, and, if so, the effect upon that applicant's basic and/or comparative qualifications to be a broadcast licensee.

9. *It is further ordered*, That the burden of proceeding with the introduction of evidence under issues 1 and 4 shall be on H & G C, Inc.; that the burden of proceeding with the introduction of evidence under Issues 2 and 3 shall be on Melvin Pulley, tr/as Philadelphia Broadcasting Company; and the burden of proof under all issues shall be on Melvin Pulley, tr/as Philadelphia Broadcasting Company.

Adopted: February 18, 1975.

Released: February 24, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[FCC 75-181; Docket No. 18875]

OVERSEAS COMMUNICATION

Further Notice of Inquiry

1. By notice of inquiry, released June 16, 1970, the Commission instituted formal proceedings to inquire into the policy to be followed in future licensing of facilities for overseas communications. (FCC Docket No. 18875). This proceeding primarily concerned the development of a policy with respect to the nature and timing of additional facilities to be used in the now current decade for communications between the United States and overseas points. It was anticipated that the enunciation of a licensing policy covering a future period would reduce uncertainty and establish a firm basis for planning communication facilities. On June 25, 1971, the Commission issued a Statement of Policy and Guidelines for Overseas Communications, 30 F.C.C. 2d 571, in which a policy was delineated regarding the future licensing of transatlantic facilities for the 1971-80 decade.[1]

2. At the outset, we note that the pace of technological progress in overseas communications has increased rapidly in recent years with indications of extensive further development. Specifically, we note significant improvements in long distance submarine cables as well as technological advances in satellite communications and the increasing necessity not only for insuring that the totality of facilities is adequate, but also for achieving the combination of facilities that will best serve the public interest. With the increasing complexity of communications systems and the continuing growth in communication requirements including new services, a requirement exists for continuing Commission review of relevant information for the purpose of establishing and refining where necessary principles and guidelines under which planning and implementation of needed communication facilities may proceed on a timely basis. Therefore, it appears necessary and desirable to reopen Docket No. 18875 in order to initiate further inquiry into this subject. We recognize that the United States carriers in cooperation with their foreign correspondents and Comsat, with its responsibilities in INTELSAT, are continually reviewing the adequacy of existing facilities and the desirability and need to supplement and replace such facilities. However, the Commission has the responsibility and obligations to establish sound policies and guidelines based upon public interest requirements to insure that a well planned, coordinated, reliable and efficient telecommunications system is available to the public at reasonable rates. In carrying out our responsibilities regarding international communications we are keenly mindful of the fact that the United States is a party of interest in a broad community of many countries that also have concerns and responsibilities with regard to international communication systems which provide services among countries. It is therefore imperative that the Commission develop, adopt and review its policies regarding facilities required to serve U.S. needs in light of the international nature of such facilities and do so after full consideration of all factors involved and in consultation with the responsible entities in other countries.

3. We anticipate this proceeding to be an evolving process, looking toward the continuing refinement of the Commission's principles and guidelines for future facilities planning. The specific purpose of the present Notice of Inquiry is to obtain necessary information and data and solicit comments and/or recommendations concerning those factors which should be addressed and studied in order to refine and more precisely formulate these principles and guidelines. We have chosen to focus our efforts initially on the transatlantic route because of the high concentration of traffic and consequent large investments in facilities now serving and required in the future to serve the important North American-European communications requirements. However, principles and guidelines for the transatlantic route should be beneficial in formulating policies applicable to other regions.

4. The initial phase of this further inquiry will be concerned primarily with the collection of information concerning the future requirements for telecommunications in the North Atlantic, a review of existing and authorized facilities, and a discussion and analysis of those factors which should be considered in establishing principles and guidelines for the planning and implementation of future facilities. This process will include discussion, submission of written information, studies, reports, and written comments. We plan in particular to conduct a series of meetings open to all United States interested parties for the purpose of identifying, discussing and analyzing information on service requirements and alternative means for meeting such requirements. We also envision a requirement to consult from time to time with interested foreign entities for the purpose of exchanging information and discussing those factors deemed necessary in formulating our policies. In this regard we note that similar meetings have been held in the past with European and Canadian authorities, with the most recent conference held in Munich in October 1974. Such meetings have been very useful and are required for the Commission to carry out its regulatory responsibilities. In addition, by keeping each other advised of future needs and seeking to develop mutual understanding of the basic principles governing fulfillment of those

[1] The Commission in this statement of policy and guidelines set forth the following criteria for formulating planning requirements in the 1971-80 decade.

(a) The public interest requires that we promote the continued development of both cable and satellite technologies and their most effective and timely applications to meet future requirements for international communications services;

(b) The public interest also requires that we authorize the most modern and effective facilities available via both cable and satellite technology with due regard for efficiency, economy, diversity and redundancy.

(c) The public interest and due regard for the concerns of the Administrations which operate the foreign end of cables require that care should be taken to minimize the need for imposing artificial formulae to govern the distribution of traffic among available media;

(d) The public interest requires that the economies available from each advance in technology be reflected in charges for service.

XUM
V 40 I 39 FEB 26 75
XUM

needs, we believe further meetings can play a significant role in ensuring that planning both in the United States and in the other countries concerned will result in the establishment of adequate and economic facilities on a timely basis.

5. We expect to focus, but not limit our inquiry on the general topics of traffic requirements; methods of traffic forecasting; reliability of service; service standards; timing, size, and proper mix of the types of facilities foreseen to be available. We also plan to review the state of the technology, expected service life of facilities, service outages associated with both cable and satellite facilities, and cost studies and comparison of those types of facilities envisioned to be available in the late 1970's and early 1980's.

6. In order to insure a timely and orderly commencement of this Inquiry we hereby give notice to all interested parties of a meeting to be held at the Commission office in Washington, D.C. on March 11, 1975 at 10 a.m., for the purpose of discussing in more detail the subject matter of the Inquiry and to decide upon the most appropriate means of obtaining the necessary data. Any party desiring to participate in this phase of the Inquiry should file notice to that effect with the Commission no later than March 6, 1975. In addition, although the scheduled meeting is open to the public, we request that those planning to attend notify the Chief, Common Carrier Bureau of the Commission by March 6, 1975. It should be noted that this proceeding is not a rule making proceeding and will not directly result in changes in, or addition to, Commission Rules and Regulations. However, as indicated above, it is anticipated that one or more Statements of Policy will be issued, and the proceeding may also lead to proposals for modification of the Commission's rules and regulations. During the course of the Inquiry, we will provide all interested parties at appropriate times the opportunity to file written positions concerning the matters involved. We also emphasize that this Inquiry will not specifically consider individual applications for particular facilities.

7. Authority for the initiation of the Inquiry is contained in sections 4(i), 214, and 413 of the Communications Act of 1934, as amended, and section 201(c) of the Communications Satellite Act of 1962.

Adopted: February 12, 1975.

Released: February 25, 1975.

FEDERAL HOME LOAN BANK BOARD

GREAT WESTERN FINANCIAL CORP.

Permission To Purchase Certain Assets of Six Rivers Savings and Loan Association

FEBRUARY 21, 1975.

Notice is hereby given that the Federal Savings and Loan Insurance Corporation has received an application from Great Western Financial Corporation, Beverly Hills, California, a unitary savings and loan holding company, for approval of acquisition of certain assets of the Six Rivers Savings and Loan Association, Eureka, California, an insured institution, under the provisions of section 408(e) of the National Housing Act, as amended (12 U.S.C. 1730a(3)), and § 584.4 of the Regulations for Savings and Loan Holding Companies, by Great Western Savings and Loan Association, an insured subsidiary of Great Western Financial, said acquisition to be effected by the assumption of savings accounts and other liabilities and the payment of cash for certain specified assets. Comments on the proposed acquisition should be submitted to the Director, Holding Companies Section, Office of Examinations and Supervision, Federal Home Loan Bank Board, Washington, D.C. 20552, on or before March 28, 1975.

[SEAL] GRENVILLE L. MILLARD, JR.,

FEDERAL POWER COMMISSION

[Docket No. RP74-94-2]

ARKANSAS LOUISIANA GAS CO.

Order Denying Petition

FEBRUARY 13, 1975.

On December 16, 1974, Riceland Foods, Inc. (Riceland), filed a Petition for Extraordinary Relief from the operation of the currently effective curtailment plan of Arkansas Louisiana Gas Company (Arkla). Riceland is an industrial customer of Arkla which operates two soybean processing plants in Stuttgart and Helena, Arkansas. It alleges that the daily gas requirements at these two plants are 5,750 Mcf and 4,250 Mcf, respectively, and that the gas is used primarily in the processing of soybeans into soybean meal and vegetable oils. Riceland asserts in its petition that relief from curtailment by Arkla is necessary to forestall shutdowns at the plant which would result in employee layoffs and the possibility of loss of foreign and domestic markets because of lack of reliability in production and processing.

Specifically, Riceland requests that all its gas requirements at both plants be placed in Priority 2 of Arkla's curtailment plan until such time as Riceland is able to complete installation of alternate fuel capabilities at each plant. Installation of the necessary facilities at the Stuttgart plant is scheduled for completion in December, 1975 while the Helena plant should have its equipment in place and operational by November, 1975. Currently, a major portion of Riceland's gas requirements are classified as Priority 4 volumes.[1]

On January 29, 1975 Arkla filed a response to Riceland's petition as well as a petition to intervene in the proceeding. In the response, Arkla took no position regarding the merits of Riceland's petition but submitted data indicating Riceland's requested volumes were in excess of service agreement volumes and that only a portion of Riceland's daily requirements might be subjected to curtailment for a total of 15 days during the current winter heating season. There was no indication that Arkla was curtailing Riceland at the time of Arkla's response. Indeed, neither did Riceland in its petition indicate that it is currently being curtailed.

Arkla's filing indicated that Riceland's total entitlements for both plants on a peak day are 7,180 Mcf of which 2,430 is categorized as Priority 2 gas. This amount is the quantity Riceland uses for soybean drying processes. The remaining volumes, 4,750 Mcf per day, is that amount Riceland uses for boiler fuel in both plants and is consequently classified in Priority 4. In addition, the average daily usage at both plants during the three year base period utilized by Arkla, which ended in September of 1971, totalled 5,465 Mcf.

It is clear that Priority 5 curtailments will not affect the Riceland operation at all this winter. It is also readily apparent that Priority 4 curtailments will not be excessive since, as pointed out above, Arkla has projected only 15 days of curtailment this winter in that category. There is no indication in Arkla's filing if curtailment in Priority 4 in those days will be total, but the Commission is of the opinion that even if that was the case, relief would still not be warranted. In addition, there is absolutely no information in Arkla's filing which indicates any Priority 2 curtailments this winter.

As a result of Arkla's data submission, we find that Riceland's Priority 2 volumes are in no danger of being presently curtailed and its Priority 4 volumes may only be subject to intermittent curtailment. In such a situation, however, there would be no loss of property such as spoilage of soybeans. In view of this, the Commission believes that Riceland is not subjected to undue risks and that the present filing is premature and should be rejected without prejudice. Consequently if curtailments on Arkla's system reach the point where Riceland believes it is entitled to relief, it is free to so plead at a later date before this Commission.

Finally, Arkla has requested intervention in the instant docket. Because of its status as the supplier of natural gas to Riceland, Arkla's participation herein may be in the public interest, and thus we will grant intervention.

The Commission finds. (1) Riceland's petition for extraordinary relief is prematurely submitted because it is not currently suffering curtailment of volumes from Arkla.

(2) The participation of Arkla in this proceeding may be in the public interest.

[1] Firm industrial requirements for boiler fuel use at less than 3,000 Mcf per day, but more than 1500 Mcf per day, where alternate fuel capabilities can meet such requirements (see Opinion No. 642-A).

The Commission orders. (A) Riceland's petition for extraordinary relief is hereby denied without prejudice.

(B) The petitioner hereinabove set forth is permitted to intervene in this proceeding subject to the Rules and Regulations of the Commission; *Provided, however,* That the participation of such intervener shall be limited to matters affecting asserted rights and interests specifically set forth in the petition to intervene, and, *Provided, further,* That the admission of said intervener shall not be construed as recognition by the Commission that it might be aggrieved because of any order of the Commission entered in this proceeding.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.75-5035 Filed 2-25-75;8:45 am]

[Docket No. RP75-32]

ARKANSAS LOUISIANA GAS CO.

Accepting for Filing and Suspending Tendered Tariff Sheet, Granting Request for Waiver, Providing for Hearing, Granting Interventions and Establishing Procedures

FEBRUARY 13, 1975.

On November 5, 1974, Arkansas Louisiana Gas Company (Arkla) tendered for filing an amended Rate Schedule XT-17, which schedule is applicable solely to transportation of gas by Arkla for Reynolds Metals Company (Reynolds).[1] The proposed amendments would increase the rate charged for the transportation service rendered as well as modify certain conditions of such service. Arkla requested that the proposed changes be permitted to become effective as of January 1, 1975.

By letter dated December 31, 1974, the Commission Secretary, by direction of the Commission, rejected Arkla's filing because it was "inconsistent with § 154.22 of the Commission's regulations, which requires prior issuance of a certificate covering the proposed changes of service." The letter added that such rejection was without prejudice to Arkla's right to file a rate increase for service under Rate Schedule XT-17 either under existing terms and conditions of service or under modified conditions of service after such modifications have received certificate authorization.

On January 14, 1975, Arkla tendered for filing a revised tariff sheet[2] which would increase the rate for transportation service for Reynolds from 4.5 cents per Mcf to 18.95 cents per Mcf. This filing is based on existing terms and conditions of service, and proposes only to increase the rate to Reynolds. Based on volumes transported during the 12 months ended October 31, 1974, the proposed rate would increase annual revenues from such service from $273,877 to $1,153,326. Consistent with its earlier filing, Arkla requests that the proposed rate be permitted to become effective as of January 1, 1975.

In support of the proposed 18.95 cents per Mcf rate, Arkla states that Arkla and Reynolds "intended that whatever rate is approved by the Commission for the 5-year period beginning January 1, 1975, will remain constant for the full 5 years." Accordingly, Arkla contends, in order to derive a compensatory rate, it was necessary to take into account not only the current cost of service but also the fact that the rate will remain fixed for five years. Therefore, the proposed revised tariff sheet included in Arkla's filing "projects the actual cost to the median year 1977 to get a flat rate to be effective over the full five years."[3] Such projection was made on the assumption that Arkla's cost to provide the transportation service will increase by ten percent annually for the years 1976 and 1977.

Notice of Arkla's January 14, 1975, filing was issued on January 24, 1975, with comments, protests, or petitions to intervene due on or before February 10, 1975. In response to such notice, Reynolds Metals Company (Reynolds) timely filed a Petition to Intervene in this proceeding. Good cause appearing, said petition shall be granted, as hereinafter ordered.

As noted above, Arkla has requested that the proposed increase be permitted to become effective as of January 1, 1975. Accordingly, Arkla asks that the Commission waive its 30-day prior notice requirement for rate increase filings.[4] In support of this request, Arkla states that the rate proposed in its January 14, 1975, filing is the same rate the Company proposed in its November 5, 1974, filing, which was noticed by the Commission on November 18, 1974. Therefore, Arkla concludes, because the public was notified of this rate increase almost two months ago,[5] the purpose of the 30-day notice requirement has been served.

We find that good cause does exist to waive § 154.22 of the Commission's Regulations. However, for the reasons stated below, we find that the proposed rate should be suspended for five months from January 1, 1975, to become effective June 1, 1975.

Based on our review of Arkla's proposed rate increase, including the documents, information and studies submitted therewith as required by the Commission's Regulations, we find that the requested increase may be excessive or otherwise unlawful under the Natural Gas Act. Accordingly, the proposed increase shall be accepted for filing, as hereinafter conditioned, suspended for the full statutory period, and set for hearing.

We note that Arkla has included in the tariff sheet proposed herein approximately $9,885,000 of Construction Work in Progress (CWIP) as a rate base item. While there is currently pending a proposed rulemaking which, if adopted, would permit inclusion in rate base of certain amounts expended for CWIP,[6] our presently-existing regulations specifically exclude from rate base plant in process of construction.[7] Therefore, we shall permit said amounts for CWIP to be included in Arkla's filing; *provided, however,* That if the facilities presently represented by such CWIP amounts are not in service on the date the proposed rates take effect, subject to refund, Arkla shall file substitute tariff sheets including rates which reflect only those facilities which are in service as of that date.

The Commission finds. (1) First Revised Sheet No. 5 of Arkla's FPC Gas Tariff, First Revised Volume No. 2, tendered by Arkla on January 14, 1975, should be accepted for filing as hereinafter conditioned, and suspended as hereinafter ordered.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in Arkla's FPC Gas Tariff, as proposed to be amended in Docket No. RP75-32.

(3) Good cause exists to grant Arkla's request for waiver of § 154.22 of the Commission's Regulations, as discussed hereinabove.

(4) Participation of Reynolds Metals Company in this proceeding may be in the public interest, provided that such participation is limited as hereinafter ordered.

The Commission orders. (A) The tariff sheet proffered by Arkla in Docket No. RP75-32 is accepted for filing and suspended for the full statutory period of five months until June 1, 1975, or until such times as it is made effective in the manner provided by the Natural Gas Act, subject to refund; *Provided, however,* That Arkla shall file substitute tariff sheets to become effective June 1, 1975, reflecting exclusion of the CWIP costs included in its proposed rates which are associated with facilities which have not been placed in service as of June 1, 1975.

[1] As amended, Rate Schedule XT-17 consists of First Revised Sheet Nos. 2 through 21 and Original Sheet Nos. 21-A, 21-B, and 21-C of Arkla's FPC Gas Tariff, Original Volume No. 2. These proposed tariff sheets are a complete restatement of the contract between the parties reflecting amendments to said contract made July 1, 1974.

[2] First Revised Sheet No. 5, superseding Original Sheet No. 5 of Arkla's FPC Gas Tariff, First Revised Volume No. 2.

[3] "Statement of the Nature, Reasons and Basis for the Proposed Change", at page 5.

[4] See § 154.22 of the Commission's Regulations.

[5] As Arkla correctly states, no comments, protests or petitions to intervene have been filed in response to the November 18, 1974, notice. However, as previously noted, Reynolds Metals Company timely filed a Petition to Intervene in response to the notice or Arkla's January 14, 1975, filing.

[6] See "Notice of Proposed Rulemaking", issued November 15, 1974, in Docket No. RM 75-13.

[7] See § 154.63(f) (Schedule C-1) of the Commission's Regulations.

(B) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, 8 and 15 thereof, and the Commission's Rules and Regulations, a hearing shall be held to determine the justness and reasonableness of the rates proposed in Arkla's January 14, 1975 filing.

(C) On or before April 15, 1975, the Commission Staff shall serve its prepared testimony and exhibits. Prepared testimony and exhibits of intervenors shall be served on or before April 29, 1975. Company rebuttal shall be served May 13, 1975. Cross-examination of the evidence shall commence on May 28, 1975, at 10 a.m., EDT in a hearing room at the Federal Power Commission, Washington, D.C. 20426.

(D) Arkla's request for waiver of § 154.22 of the Commission's Regulations is hereby granted.

(E) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5 (d)), shall preside at the hearing in this proceeding, shall prescribe necessary procedures not provided for by this order, and shall otherwise conduct the hearing in accordance with the terms of this order and the Commission's Rules and Regulations.

(F) Reynolds Metals Company is hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervenors shall be limited to matters affecting rights and interests specifically set forth in the respective petitions to intervene, and *Provided, further,* That the admission of such intervenors shall not be construed as recognition by the Commission that they, or any of them, might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(G) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[Docket No. E-9254]

BOSTON EDISON CO.

Rate Schedule Filing

FEBRUARY 13, 1975.

Take notice that on February 3, 1975, Boston Edison Company (Edison) tendered for filing an initial rate schedule between itself and the Electric Light Department of Cambridge, Massachusetts (Cambridge). The rate schedule sets forth the payment provisions for Cambridge's use of Edison's Substation #509. Edison requests that the Commission allow the rate schedule to become effective as of March 1, 1975, the date upon which support payments by Cambridge will commence.

Any person desiring to be heard or to make any protest with reference to the subject matter of this Notice, should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All such petitions or protests should be filed on or before February 28, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of the documents referred to herein are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[Docket No. RP74-82]

COLUMBIA GAS TRANSMISSION CORP.

Proposed Changes in FPC Gas Tariff

FEBRUARY 13, 1975.

Take notice that Columbia Gas Transmission Corporation (Columbia), on January 31, 1975, tendered for filing proposed changes in its FPC Gas Tariff, Original Volume No. 1.

The revised tariff sheet, proposed to be effective March 3, 1975, reflects an increase in the overall level of Columbia's rates to provide additional annual revenue of $6,500,317. Such increase is necessary to reflect the inclusion in rate base of the actual balance in Account 166 (Advance Payments for Gas) as of December 31, 1974, adjusted to include an additional advance payment to British Petroleum Oil Corporation of $55 million.

Copies of the filing were served upon the Company's jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, Union Center Plaza Building, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before February 26, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[Docket No. RP75-47-3]

COLUMBIA GAS TRANSMISSION CORP. (WEST OHIO GAS COMPANY AND THE OHIO PUBLIC UTILITIES COMMISSION)

Order Denying Relief, Denying Motion To Dismiss, Permitting Interventions, and Establishing Hearing Procedures

FEBRUARY 12, 1975.

On December 27, 1974, as supplemented January 7, 1975, Teledyne Ohio Steel (Teledyne), Lima, Ohio, filed a petition, pursuant to § 1.7(b) of the Commission's rules of practice and procedure, seeking relief from the currently effective curtailment procedures of Columbia Gas Transmission Corporation (Columbia Transmission) and an emergency priority allocation of natural gas to become effective as soon as possible and to remain in effect until June 1, 1975. Teledyne requests the following emergency priority allocation of natural gas: December, 1974—86,104 Mcf; January, 1975—98,608 Mcf; February, 1975—103,074 Mcf; March, 1975—112,050 Mcf; April, 1975—89,475 Mcf; and May, 1975—82,388 Mcf.

In support of its petition for a grant of extraordinary relief Teledyne states that it is engaged in manufacturing rolls for rolling mills in the steel and nonferrous industries and sells its product to more than 150 plants located throughout the United States. At its Lima facility it operates approximately 100 or more gas furnaces in the production of rolling mill rolls. Such production requires a continuous process, including the heat treating operation, for a period of time ranging up to four and one-half weeks. Teledyne asserts that it has no realistic alternate fuel supply available for most of the furnaces now utilizing natural gas. It claims to have made expenditures in excess of $1,000,000 since 1970 for the purchase of new, more efficient gas utilization equipment and to have renovated all remaining furnaces for more efficient operation with resulting decreased gas consumption.

Teledyne purchases its natural gas supply from West Ohio Gas Company (West Ohio), whose principal supplier is Columbia Transmission. West Ohio notified Teledyne that effective December 20, 1974, it would sustain a fifty percent curtailment of its natural gas allocation, a level of curtailment at which Teledyne claims that it cannot continue operations.

On December 18, 1974, Teledyne requested an emergency priority allocation of natural gas from the Public Utilities Commission of Ohio, but no action has been taken upon that request.

Pursuant to Notice published in the FEDERAL REGISTER, petitions for and notices of intervention were due on or before January 25, 1975. Timely petitions for leave to intervene were filed by the Columbia Gas Distribution Companies,[1] General Motors Corporation, The Dayton Power and Light Company, and West Ohio. The Ohio Public Utilities Commission filed a timely notice of intervention,

and Columbia Transmission filed a timely petition for leave to intervene, motion for dismissal and/or request for hearing.

In its pleading which includes a motion to dismiss, Columbia Transmission urges that this Commission is not the appropriate forum for adjudicating a request for special relief by an indirect customer of an interstate pipeline such as Teledyne, and that Teledyne has not exhausted its administrative remedy before the Public Utilities Commission of Ohio.

In a telegram dated December 31, 1974, West, Ohio, Teledyne's distributor, requested leave to intervene herein in support of Teledyne's petition for special relief, and the Ohio Public Utilities Commission has filed a notice of intervention in regard to that petition in order to participate in any proceeding before this Commission. In these circumstances, we deem it appropriate to construe West Ohio's telegram as a request for extraordinary relief on behalf of Teledyne, thus rendering invalid Columbia Transmission's lack of jurisdiction argument. The Commission staff already has requested West Ohio to furnish the additional information required of distributors by Commission Order No. 467-C as well as to conform its aforementioned petition to certain formal requirements of the Commission's Rules of Practice and Procedure. In addition, we request the Ohio Commission, which has shown a desire for active participation in this matter, to direct West Ohio to provide immediately the information referenced in the deficiency telegrams that were sent some time ago by our Staff.

We believe that the factual and legal issues raised by the above-mentioned pleadings require development in an evidentiary hearing. Accordingly, we shall schedule an expedited hearing in this matter. In view of the lack of relevant data with which to evaluate the instant request for immediate extraordinary relief for Teledyne, we must deny the request for such an emergency allocation of natural gas until the necessary factual data are filed.

The Commission finds. (1) Good cause exists to deny without prejudice Teledyne's request for an immediate emergency priority allocation of natural gas, all as set forth above.

(2) Good cause exists to set for public hearing the matters raised by Teledyne's petition for relief from natural gas curtailment and for an emergency priority allocation of natural gas filed December 27, 1974, as supplemented January 7, 1975.

(3) Good cause exists to construe the notice and petition to intervene filed by the Ohio Public Utilities Commission and West Ohio, respectively, as petitions for extraordinary relief filed under § 1.7(b) of our rules and regulations on behalf of Teledyne.

(4) Since West Ohio, Teledyne's natural gas distributor supplier, has requested intervention in support of Teledyne's petition for extraordinary relief, the principal basis for Columbia Transmission's motion for dismissal has been removed; and, accordingly, the motion for dismissal should be denied, and its alternate request for hearing should be granted, as hereinafter ordered.

(5) The participation of the abovenamed petitioners in this proceeding may be in the public interest.

The Commission orders. (A) Teledyne's request for an immediate emergency priority allocation of natural gas filed on December 27, 1974, as supplemented January 7, 1975, as a part of its petition for extraordinary relief is hereby denied without prejudice.

(B) The notice of intervention by the Ohio Public Utilities Commission and the petition to intervene by West Ohio are hereby construed as petitions for extraordinary relief filed under § 1.7(b) of our rules and regulations on behalf of Teledyne.

(C) Columbia Transmission's motion for dismissal is hereby denied; and its alternative request for hearing is hereby granted.

(D) Pursuant to the authority of the Natural Gas Act, the Commission's rules of practice and procedure, and the Regulations under the Natural Gas Act (18 CFR, Chapter I), a public hearing shall be held on March 6, 1975, at 10 a.m., in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, to determine the issue of whether or not extraordinary relief should be granted to Teledyne as requested.

(E) All parties, including intervenors and Staff, will file their direct evidence and testimony on or before February 25, 1975.

(F) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)) shall preside at the hearing initiated by this order, and shall conduct such hearing in accordance with the Natural Gas Act, the Commission's Rules and Regulations, and the terms of this order.

(G) The aforementioned petitioners for intervention shall be permitted to intervene in this proceeding, subject to the Commission's rules and regulations; *Provided, however,* That the admission of such intervenors shall not be construed as recognition by the Commission that they might be aggrieved by any orders entered in this proceeding and *Provided, further,* That the participation of such intervenors shall be limited to matters affecting rights and interests specifically set forth in their petitions to intervene.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-5030 Filed 2-25-75;8:45 am]

[Docket No. RP75-14]

CONSOLIDATED GAS SUPPLY CORP.

Petition for Rehearing

FEBRUARY 12, 1975.

On September 9, 1974, Consolidated Gas Supply Corporation (Consolidated) tendered for filing certain "Pro Forma" tariff sheets which would permit Consolidated to include in rate base amounts expended for construction work in progress (CWIP). Such treatment would be accorded to any gas supply or gas supply—related project exceeding $10 million in cost and requiring a construction period of more than twelve months. Acceptance by the Commission of Consolidated's proposal would permit the Company to recover in its current rates the cost of capital associated with such construction work. Consolidated does not seek to make the proposed tariff sheets effective prior to approval by the Commission, but requests that a hearing be convened as soon as possible to consider the proposed sheets.

By order issued December 13, 1974, the Commission rejected Consolidated's September 9, 1974, filing because it found such filing to be premature "in light of the 'Proposed Rulemaking' issued in Docket No. RM75-13."[1] This rejection was without prejudice to Consolidated's right to file data, views, comments or suggestions concerning said "Proposed Rulemaking", and without prejudice to Consolidated's right to file such new tariff sheets, if any, as may be appropriate after the Commission has acted on said "Proposed Rulemaking".

On January 13, 1975, Consolidated filed a Petition for Rehearing of the aforementioned December 13, 1974, order. In support of its petition, Consolidated reiterates its contention expressed in the September 9, 1974, filing that "the public interest would be served by undelayed hearing and implementation of Consolidated's pro forma tariff sheets." Consolidated further contends that the Commission had no authority to reject Consolidated's filing as "premature". Finally, Consolidated asserts that the Commission's December 13, 1974, order "makes no finding that Consolidated has failed to meet the procedural requirements of filing . . ." which finding, Consolidated contends, is a prerequisite to summary rejection of a filing by this Commission. For the reasons stated below, we find that Consolidated's contentions are without merit.

The Commission's currently-existing Regulations specifically exclude from rate base plant in process of construction.[2] However, as noted in the December 13, 1974, order in this docket, a "Proposed Rulemaking" is currently pending[3] which, if adopted, would permit in-

[1] Columbia Gas of Kentucky, Inc., Columbia Gas of Maryland, Inc., Columbia Gas of New York, Inc., Columbia Gas of Ohio, Inc., Columbia Gas of Pennsylvania, Inc., Columbia Gas of Virginia, Inc., and Columbia Gas of West Virginia, Inc.

[1] *Consolidated Gas Supply Corporation*, Docket No. RP75-14, order issued December 13, 1974, at page 2.

[2] See Section 154.63(f) (Statement C) (Schedule C-1).

[3] See "Notice of Proposed Rulemaking" issued November 14, 1974, in Docket No. RM75-13.

XUM
V 40 39 FEB 26 75 XUM

clusion in rate base of certain amounts expended for CWIP. It is in this context that we found Consolidated's September 9, 1974, filing to be "premature". Our rejection of such filing was, therefore, based on the premise that the sole purpose of Consolidated's filing was to effectuate a result which is now specifically proscribed by our Regulations. Our authority to reject a proposed filing which contravenes our Regulations is clear.[4] We conclude, therefore, that the Commission acted well within its discretion in rejecting Consolidated's filing. Accordingly, we shall deny Consolidated's Petition for Rehearing.

The Commission finds. Consolidated's Petition for Rehearing filed on January 13, 1975, raises no facts or principles of law which would provide an appropriate basis for modification of the Commission's order of December 13, 1974.

The Commission orders. (A) Consolidated's Petition for Rehearing filed January 13, 1975, is hereby denied.

(B) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[FR Doc.75-5041 Filed 2-25-75;8:45 am]

[Docket Nos. RP72-150 (Rate Design), RP73-104, RP73-109 and RP74-57; RP73-109 and RP74-95]

EL PASO NATURAL GAS CO.

Consolidating Proceedings and Extending Procedural Dates

FEBRUARY 13, 1975.

On May 12, 1973, the El Paso Natural Gas Company ("El Paso") tendered for filing copies of Twelfth Revised Sheet No. 10 as part of its FPC Gas Tariff, First Revised Volume No. 3. This filing was assigned Docket No. RP73-109 and constituted a rate increase for El Paso's Northwest Division System customers. On November 25, 1973, El Paso placed these rates into effect subject to refund. By court order, El Paso was divested of the Northwest Division System properties as of January 31, 1974, when it was replaced by the newly-formed Northwest Pipeline Corporation ("Northwest"), an independent pipeline company. Northwest's first proposed rate increase was filed on May 31, 1974, and was allowed to become effective as of December 1, 1974, subject to refund. The January 31, 1974 divestiture effectively divided the refund obligations in Docket No. RP73-109. El Paso's obligation extends from November 25, 1973 through January 31, 1974. Northwest's obligation extends from February 1, 1974, through November 30, 1974.

El Paso's current rate increase proceedings are pending in Docket Nos. RP72-150 (Rate Design), RP73-104, and RP74-57. Northwest's current rate increase proceedings are pending in Docket No. RP74-95.

By joint motion of January 7, 1975, El Paso and Northwest suggest that their respective locked-in periods in Docket No. RP73-109 be consolidated with their respective current rate increase proceedings. Movants emphasize that they do not seek consolidation of El Paso's rate cases with Northwest's rate cases.

Only Staff has filed an answer (out of time) to the joint motion for consolidation of El Paso and Northwest. Staff does not object in substance to the proposed consolidation but conditions its concurrence therewith upon approval by the Commission of an extension of the presently established procedural data in Docket No. RP74-95[1] in order to allow Staff and Northwest time to prepare their respective cases. Finding Staff's request to be reasonable, we will order that the presently established procedural dates be extended, as provided in Ordering Paragraph (C), below, subject to review by the Commission in the event of alleged inconvenience or hardship to the parties concerned.

The Commission finds. (1) Good cause exists to allow staff to file out of time its answer to the joint motion for consolidation filed by El Paso and Northwest.

(2) Good cause exists to consolidate proceedings for purposes of hearing and disposition as provided in Ordering Paragraph (B), below.

(3) Good cause exists to extend the presently established procedural dates in Docket No. RP74-95, as hereinafter provided.

The Commission orders. (A) Permission is granted Staff to file out of time its answer to the joint motion to consolidate proceedings filed by El Paso and Northwest on January 7, 1975.

(B) The following proceedings are hereby consolidated for purposes of hearing and disposition:

(1) That portion of Docket No. RP73-109 which involves consideration of El Paso's refund obligations during the locked-in period from November 25, 1973 through January 31, 1974 with the proceedings in Docket Nos. RP72-150, RP73-104 and RP74-57;

(2) That portion of Docket No. RP73-109 which involves consideration of Northwest's refund obligations during the locked-in period from February 1, 1974 through November 30, 1974, with the proceedings in Docket No. RP74-95.

(C) The procedural dates established in Docket No. RP74-95, now consolidated with Docket No. RP73-109 as provided above, are hereby modified as follows:

April 4, 1975—Northwest's submission of Case-in-Chief.
May 30, 1975—Service of Staff's testimony.
June 13, 1975—Service of Intervenor's testimony.
June 27, 1975—Service of Company's testimony.
July 11, 1975—Hearing.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-5037 Filed 2-25-75;8:45 am]

[Docket Nos. G-4769, et al., AR-64-1, et al. and AR61-1, et al.]

EL PASO NATURAL GAS CO.

Report of Refunds Due

FEBRUARY 13, 1975.

Take notice that on November 15, 1974, El Paso Natural Gas Company (El Paso) tendered for filing and acceptance its report of intended disposition of producer-refunds received in compliance with ordering paragraph (E) of the Commission's order denying petition for special relief from refund obligations issued March 18, 1974, as implemented by the Commission's letter order to Phillips Petroleum Company (Phillips) dated September 18, 1974, at Docket No. AR64-1, and ordering paragraph (K) (1) of the Commission's order implementing opinion Nos. 468 and 468-A issued August 9, 1968, at Docket No. AR61-1.

El Paso states the instant report pertains to producer-supplier refunds received and retained by El Paso, aggregating $41,457,426.54, applicable to gas purchased by El Paso for resale in its interstate system. Such aggregate refund amount results from refunds received by El Paso on October 3, 1974, from Phillips in the amount of $41,449,099.97 and other producer refund amounts received by El Paso since January 1, 1973, in the total amount of $8,326.57 and retained pending flow through. El Paso's intended disposition of such amount is consistent with El Paso's obligation to flow through refunds received from its producer-suppliers to its jurisdictional customers, pursuant to the stipulation and agreement dated as of November 1, 1963, approved by Commission order issued December 4, 1963, at Docket Nos. G-4769, et al. Additionally, included in said report is the intended disposition of refunds to certain of El Paso's direct industrial customers whose sales agreements are keyed to the refund obligations to El Paso's jurisdictional customers subject to said Stipulation and Agreement.

El Paso states that it intends to flow through the jurisdictional amount of $35,973,534.85 of such refunds to individual jurisdictional customers in accordance with Article IV of the said Stipulation and Agreement dated as of November 1, 1963. Likewise, El Paso intends to flow through the non-jurisdictional keyed portion thereof, aggregating $2,580,006.68, to its non-jurisdictional keyed customers, who, by contractual agreements are treated in like manner as those foregoing jurisdictional customers

[4] See, for example, *Municipal Lights Boards of Reading and Wakefield, Massachusetts F.P.C.*, 450 F.2d 1341 (D.C. Cir. 1971), *cert. denied* 406 U.S. 969; *Mississippi River Fuel Corp. v. F.P.C.*, 202 F.2d 809 (CA3, 1953), *cert. dismissed*, 345 U.S. 968; 18 CFR § 1.14 (a) (2).

[1] The presently established procedural dates are those listed in our October 30, 1974, Notice of Extension of Procedural Dates in Docket No. RP74-95.

under the said Stipulation and Agreement. El Paso will retain the remaining non-jurisdictional amount of $2,903,885.01. Additionally, El Paso will flow through interest accrued on the jurisdiction and non-jurisdictional keyed amount of $8,326.57 of refunds received and retained pending flowthrough in accordance with the Commission's Opinion Nos. 468 and 468-A.

El Paso states copies of the filing were the subject refund amounts to those customers entitled thereto on January 31, 1975, or immediately thereafter, upon receiving Commission approval of the instant report.

El Paso states copies of the filing were served on all of El Paso's interstate transmission system customers and interested state regulatory commissions.

Any person desiring to be heard or to make any protest with reference to this filing should, on or before February 21, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[Docket Nos. RP74-75 and RP74-80]

NORTHERN NATURAL GAS CO.

Order Consolidating Proceedings

FEBRUARY 13, 1975.

On January 15, 1975, Commission staff filed a motion in the above-referenced dockets in which Staff requests the Commission to sever the advance payments issues under consideration in Docket No. RP74-75 therefrom and consolidate them with the Docket No. RP74-80 proceeding, and to extend the presently established procedural dates in Docket No. RP74-80.

Docket No. RP74-75 was created by Commission order of March 22, 1974, in Docket Nos. RP71-107 (Phase II) and RP72-127. The March 22, 1974, order was issued in response to Northern's January 23, 1974, filing of proposed revised tariff sheets, said sheets having been filed pursuant to the Commission's order of January 4, 1974, which approved a settlement in the Docket Nos. RP71-107, RP72-127 proceedings, subject to certain conditions. The order of March 22, 1974, accepted and effectuated without suspension the bulk of Northern's January 23, 1974, filing, excepting only selected advance payments, a list of which was marked Appendix A and attached to the order. With respect to these advances, the Commission accepted them for filing, suspending the use thereof for one day until December 28, 1973, and set the matter for hearing.

Docket No. RP74-75 was subsequently enlarged by Commission order issued May 20, 1974, in Docket No. RP74-80. Said order provided that the hearing on the advance payments authorized in the March 22, 1974, order would also include consideration of cost-of-service treatment for post October 7, 1969, leases in the Hugoton-Anadarko area.[1]

Northern's currently proposed rate increases are pending in Docket No. RP74-80. Revised tariff sheets were filed April 11, 1974, and, by order of May 20, 1974, were suspended until October 27, 1974, becoming effective as of that date by order issued November 12, 1974. Our order of May 20, 1974, further provided that Northern would not be allowed to extend its authority to track advance payments[2] beyond the effective date of the rates proposed in Docket No. RP74-80. Northern's subsequent application for rehearing on that point was denied.

Staff proposes that we sever the advance payments issues from Docket No. RP74-75, and consolidate them with the Docket No. RP74-80 rate proceedings, leaving only the Hugoton-Anadarko issue for consideration in Docket No. RP74-75. No party to either proceeding has filed timely opposition to Staff's proposal. We are of the opinion that the suggested consolidation will serve to expedite these proceedings. We find a likelihood that common principles of law and issues of fact will be raised between the challenged advances in Docket No. RP74-75 and rate base considerations in Docket No. RP74-80.

Staff further requests that we extend the procedural dates in Docket No. RP74-80 that we established by notice issued September 25, 1974. We have already issued notice on January 21, 1975, that, in view of Staff's motion of January 15, 1975, in these proceedings, the procedural dates in Docket Nos. RP74-75 and RP74-80 have been deferred pending further action by the Commission. Finding the extension suggested by Staff to be reasonable, we shall adopt them. We note that the procedural dates established below apply only to Docket No. RP74-80.

The Commission finds. (1) Good cause exists to sever the advance payments issues from Docket No. RP74-75 and consolidate said issues with the proceedings now pending in Docket No. RP74-80.

(2) Good cause exists to extend the presently established procedural dates in Docket No. RP74-80, as hereinafter provided.

[1] The Hugoton-Anadarko issue had been reserved from the January 4, 1974, order approving the rate settlement in Docket No. RP71-107, et al.

[2] This authority was granted Northern by our order of January 4, 1974, approving the settlement in the Docket Nos. RP71-107, et al., proceeding.

The Commission orders. (A) Pursuant to § 1.20(b) of the Regulations of the Commission, the advance payments issues assigned to Docket No. RP74-75 by our order of March 22, 1974, are hereby severed therefrom and consolidated with the proceedings now pending in Docket No. RP74-80, for purposes of hearing and decision.

(B) The procedural dates established by notice issued September 25, 1974, in Docket No. RP74-80 are hereby modified as follows:

March 24, 1975—Service of Staff's Testimony.
April 7, 1975—Service of Intervenor's Testimony.
May 5, 1975—Service of Company's Rebuttal.
May 20, 1975—Hearing.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-5036 Filed 2-25-75;8:45 am]

[Docket No. RP74-102]

NORTHERN NATURAL GAS CO.

Proposed Stipulation and Agreement

FEBRUARY 14, 1975.

Take notice that Presiding Administrative Law Judge William Jensen, on January 30, 1975 certified to the Commission for action a proposed settlement agreement filed by Northern Natural Gas Company (Northern) in the above-mentioned docket on December 6, 1974. On January 17, 1975, Northern filed pro forma tariff sheets with the Presiding Judge reflecting the settlement agreement. The proceeding involves modifications proposed by Northern to its approved curtailment plan (48 FPC 669), as previously modified (48 FPC 1149).

The proposed settlement agreement consists of the following proposals:

1. Paragraph 9.2 of Northern's Gas Tariff, Third Revised Volume No. 1 will be revised to provide that:

a. On any day during the billing months of October through March, i.e. September 27 through March 26, EG plant sales would be subject to 100% curtailment.

b. On any day during the billing months of April through September, i.e. March 27 through September 26 referred to as Summer Period, EG plant sales are subject to curtailment as follows:

(1) During 1975, EG plant sales will be subject to curtailment down to 60 percent of the billing group contract demand.

(2) During 1976, EG plant sales will be subject to curtailment down to 30 percent of billing group contract demand.

(3) Commencing September 27, 1976, and thereafter, all EG plant sales will be subject to complete curtailment.

2. Northern will promptly file an application with the Federal Power Commission to establish contract demands for the communities comprising the so-called Argus System served by the Peoples Natural Gas Division of Northern.

3. Pipelines will be curtailed in accordance with the presently effective Paragraph 9.3 of Northern's tariff.

4. Paragraph 9.5 will be amended to provide that an "EG Plant Sale" means

XUM
V 40 39 FEB 26 75 XUM

gas used by a Gas Utility itself in, or resold by a Gas Utility to, an electrical generation plant, with total fuel input requirements of more than 200 Mcf per day, or equivalent.

a. New Paragraph 9.51 provides that EG Plants meeting the following conditions will be curtailed in accordance with the provisions of paragraph 9.52 and 9.53:

(1) Maximum day requirements of 3,000 Mcf per day or less;

(2) Lack of electric interconnection facilities capable of providing electric power service for the current total electric system requirements; and a contract with another electric utility for purchase of its current base load system requirements.

b. New Paragraph 9.52 provides that EG Plants meeting the requirements of paragraph 9.51 shall use due diligence to reduce their natural gas requirements and, in any event, after September 1, 1977, shall be subject to year-round curtailment under the provisions of paragraph 9.2. Before September 1, 1977, said EG plants shall be curtailed under the provisions of paragraph 9.2 during the winter period and paragraph 9.4 during the summer period.

c. New Paragraph 9.53 provides that if any EG Plant listed in paragraph 9.51 uses natural gas on any day in excess of 3,000 Mcf or exceeds in any year the annual sales listed in paragraph 9.51 for such plant, it shall thereafter be subject to year-round curtailments under the provisions of paragraph 9.2.

d. New Paragraph 9.54 provides that each EG Plant listed in paragraph 9.51 shall within seven months of the effective date of paragraph 9.5 and each six months thereafter, submit in writing to the Secretary of the Federal Power Commission, with copies to Northern and the Gas Utility, the following information:

(1) Maximum day usage of natural gas during the preceding six-month period;

(2) Amount of electricity purchased during the preceding six-month period;

(3) Description and quantification of the steps taken to reduce gas usage during the preceding six-month period.

5. The penalty charge for CD–1 and PL–1 unauthorized overrun gas taken up to the larger of 3 percent of the Contract Demand or 50 Mcf will be increased from $2.00 per Mcf to $5.00 per Mcf.

6. Clarkson Memorial Hospital, served by the Metropolitan Utilities District of Omaha, Nebraska, shall be exempt from the curtailment provisions of paragraph 9 due to the unique circumstances under which gas is now being rendered to that facility.

Initial comments on the proposed settlement agreement may be filed with the Commission on or before March 5, 1975. Reply comments may be filed on or before March 20, 1975.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP75–30]

UNITED GAS PIPE LINE CO.

Late Intervention

FEBRUARY 13, 1975.

On November 4, 1974, the United Gas Pipe Line (United) tendered for filing proposed changes in its FPC Gas Tariff, First Revised Volume No. 1 and Original Volume No. 2. United's Filing was noticed by the Commission on November 8, 1974, with protests and petitions to intervene due on or before November 25, 1974.

An untimely petition to intervene was filed by the United Municipal Distributors Group on January 20, 1975.

Having reviewed the above petitions to intervene, we believe that the petitioners have sufficient interest in the proceedings to warrant interventions.

The Commission finds. It is desirable and in the public interest to allow the above-named petitioners to intervene.

The Commission orders. (A) The above-named petitioners are hereby permitted to intervene in these proceedings subject to the rules and regulations of the Commission; *Provided, however,* That participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in the petition to intervene; and *Provided, further,* That the admission of such intervenors shall not be construed as recognition by the Commission that they might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(B) The intervention granted herein shall not be the basis for delaying or deferring any procedural schedules heretofore established for the orderly and expeditious disposition of this proceeding.

(C) The Secretary shall cause prompt publication of this order in the Federal Register.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

KWB OIL PROPERTY MANAGEMENT INC.

Notice Reconvening Hearing

FEBRUARY 20, 1975.

Take notice that the hearing indefinitely postponed by the Presiding Administrative Law Judge on September 19, 1974, shall reconvene on February 26, 1975, at 10:00 a.m. (e.s.t.).

KENNETH F. PLUMB,
Secretary.

[FR Doc.75–5222 Filed 2–25–75;8:45 am]

FEDERAL RESERVE SYSTEM

AMERIBANC, INC.

Order Approving Acquisition of Bank

Ameribanc, Inc., St. Joseph, Missouri, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 84 percent or more of the voting shares of Bank of Higginsville, Higginsville, Missouri ("Bank").

Notice of this application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the fourteenth largest banking organization in Missouri, controls four subsidiary banks with aggregate deposits of about $144 million, representing approximately 1 percent of total commercial bank deposits in Missouri.[1] Acquisition of Bank, with deposits of about $15.4 million, would increase Applicant's share of commercial bank deposits by approximately 0.1 of one percentage point and would not result in any significant increase in the concentration of banking resources in Missouri.

Bank is the third largest of seven banks in the relevant banking market,[2] and controls approximately 19.3 per cent of market deposits. Applicant's closest subsidiary bank is located approximately 99 road miles northeast of Higginsville. No significant competition exists between Bank and any of Applicant's bank or nonbank subsidiaries. Moreover, it is unlikely that significant future competition will develop in view of the distances involved and Missouri's restrictive branching laws. Prospects for *de novo* entry do not appear favorable due to the only moderate growth of the market and a low deposits per banking office ratio. On the basis of the record, it appears that consummation of the proposed acquisition would have no significant adverse effects upon existing or potential competition within the market.

The financial and managerial resources and future prospects of Applicant, its subsidiaries and Bank are all regarded as satisfactory and consistent with approval. Affiliation with Applicant would result in some expansion of Bank's services. Accordingly, the Board regards considerations relating to the convenience and needs of the community to be served as being consistent with approval of the application. It is the Board's judgment that the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Kansas City pursuant to delegated authority.

By order of the Board of Governors,[3] effective February 18, 1975.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.75–5107 Filed 2–25–75;8:45 am]

[1] All banking data are as of June 30, 1974.

[2] The relevant banking market is approximated by Lafayette County excluding the northeast and northwest corners.

[3] Voting for this action: Chairman Burns and Governors Sheehan, Bucher, Holland and Wallich. Absent and not voting: Governors Mitchell and Coldwell.

WYOMING BANCORPORATION

Order Approving Acquisition of Bank

Wyoming Bancorporation, Cheyenne, Wyoming, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares (less directors' qualifying shares) of Bank of Wyoming, Hanna, Wyoming ("Bank"), a proposed new bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant is the largest banking organization in Wyoming and controls 16 subsidiary banks with aggregate deposits of $236.2 million, representing approximately 18 percent of the total commercial bank deposits in the State.[1] Since Bank is a proposed new bank, consummation of the proposed acquisition would not immediately increase the concentration of banking resources in the State.

Bank will be the only bank in Hanna, a community located in southeastern Wyoming with a population of approximately 460 persons according to the 1970 census, and will compete in a banking market approximated by Carbon County. Applicant's nearest subsidiary bank, located 40 miles west of Hanna, is the largest of three banks operating in the relevant banking market and has total deposits of $37 million, representing approximately 56 per cent of total commercial bank deposits in the market. The two other banks presently in the market, one located 40 miles west and the other 40 miles south of Hanna, control 36 and 8 per cent, respectively, of the total market deposits. Since the proposal involves the establishment of a *de novo* bank, no existing or potential competition between any of Applicant's existing subsidiary banks and Bank would be eliminated and no immediate increase in the concentration of banking resources would result in the relevant market. Accordingly, the Board concludes that consummation of the proposal would not have an adverse effect on competition in any relevant area and that competitive considerations are consistent with approval of the application.

The financial and managerial resources and future prospects of Applicant and its subsidiary banks are regarded as generally satisfactory. Bank, as a proposed new bank, has no financial or operating history; however, its prospects as a subsidiary of Applicant appear favorable. Considerations relating to the banking factors are consistent with approval of the application. The proposed new bank would provide a new and convenient source of banking services to the residents of the Hanna area who presently must travel 40 miles to obtain any banking services. The recent growth experienced by Carbon County, and particularly in the Hanna area, has produced a strong demand for all types of loans. Upon consummation herein, Bank, with Applicant's assistance, would provide mobile home financing, mortgage lending, and other consumer lending services to Hanna residents. Applicant would also assist Bank internally with investments, training of personnel, advertising, operations and accounting guidance, audits, and master blanket bond insurance coverage. Accordingly, considerations relating to convenience and needs of the community to be served lend weight toward approval of the application. It is the Board's judgment that the proposed acquisition is in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after that date, and (c) Bank of Wyoming, Hanna, Wyoming, shall be opened for business not later than six months after the effective date of this Order. Each of the periods described in (b) and (c) may be extended for good cause by the Board, or by the Federal Reserve Bank of Kansas City pursuant to delegated authority.

By order of the Board of Governors,[2] effective February 18, 1975.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.75–5108 Filed 2–25–75;8:45 am]

[1] All banking data are as of June 30, 1974 and reflect bank holding company formations and acquisitions approved by the Board as of December 31, 1974.

[2] Voting for this action: Chairman Burns and Governors Sheehan, Bucher, Holland and Wallich. Absent and not voting: Governors Mitchell and Coldwell.

FEDERAL TRADE COMMISSION

PUBLIC INVESTIGATION OF COMPLIANCE BY FRANCHISORS WITH LAWS ADMINISTERED BY THE COMMISSION

Requirements for Submission of Special Reports

On October 2, 1973, the Commission issued its final order and opinion in Docket 8884—Chock Full O'Nuts Corporation, Inc. (38 FR 29317), holding that a franchisor of sit-down counter service restaurants which required its franchisees to purchase products manufactured by the franchisor, or by the franchisor from others, was engaged in per se violations of the Federal Trade Commission Act, absent affirmative proof by the franchisor that such purchase restrictions are "necessary to ensure the quality of its products, or that no less restrictive means than the tie-in may be used to ensure such quality." With respect to some products, the franchisor convinced the Commission that such purchase restrictions were so necessary; with respect to other products, the franchisor failed to adduce convincing proof that its purchase restrictions were necessary.

Subsequent to the aforementioned decision, the Commission's Bureau of Competition has continued to receive numerous complaints of alleged tie-ins, exclusive dealing arrangements and coercive practices by franchisors, primarily in the fast food market.

Notice is hereby given that the Federal Trade Commission has approved, adopted, and entered of record the following resolution requiring certain franchisors of drive-in, carry out, or restaurant-type retail food establishments, to file Special Reports in order for the Commission to determine whether the franchisors have brought their franchise operations into compliance with the Commission's decision in the Chock Full O'Nuts case.

RESOLUTION DIRECTING USE OF COMPULSORY PROCESS IN A PUBLIC INVESTIGATION OF COMPLIANCE BY FRANCHISORS WITH LAWS ADMINISTERED BY THE COMMISSION

Whereas, the Federal Trade Commission has the authority under section 6 of the Federal Trade Commission Act to investigate the business practices of any person, partnership, or corporation engaged in, or whose business affects, commerce and its relation to other persons, partnerships, and corporations engaged in, or whose business affects, such commerce to file written special reports with the Commission, in such form as the Commission may prescribe, as to their business practices and relation to other persons, partnerships and corporations, and

Whereas, it appears to the Federal Trade Commission that it is in the public interest to conduct a survey for the purpose of determining whether franchisors who sell goods and/or services to their franchisees or who approve the sales of goods and/or services to their franchisees by others are complying with section 5 of the Federal Trade Commission Act, section 3 of the Clayton Act or any other statute administered by the Federal Trade Commission;

Now, therefore, it is hereby resolved that the Federal Trade Commission, in the exercise of the power vested in it by law, and pursuant to its published procedures and rules of practice, and with the aid of any and all compulsory processes available to it; forthwith proceed to conduct an investigation of such franchisors who sell goods and/or services to their franchisees or who approve the sale of goods and/or services to their franchisees by others as may be designated by the Commission for the reasons and purposes stated herein.

Dated: January 15, 1975.

By direction of the Commission dated February 18, 1975.

[SEAL] CHARLES A. TOBIN,
Secretary.

XUM V40139 FEB 26 75 XUM

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

National Endowment for the Arts

EXPANSION ARTS ADVISORY PANEL

Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given that a meeting of the Expansion Arts Advisory Panel to the National Counsel on the Arts will be held on March 13, 14, 15, 1975 from 9:00 a.m.–5:30 p.m. each day, in the 1st floor conference room of the Shoreham Building, 805 15th Street, NW, Washington, D.C.

A portion of this meeting will be open to the public on March 15 from 12:30 p.m. to 5:30 p.m. on a space available basis. Accommodations are limited. During the open session, policy and planning will be discussed.

The remaining sessions of this meeting on March 13, 14, and March 15 from 9 a.m.–12:30 p.m. are for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman published in the FEDERAL REGISTER of January 10, 1973, these sessions, which involve matters exempt from the requirements of public disclosure under the provisions of the Freedom of Information Act (5 U.S.C. 552(b), (4) and (5)), will not be open to the public.

Further information with reference to this meeting can be obtained from Mrs. Luna Diamond, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call (202) 634-7144.

EDWARD M. WOLFE,
Administrative Officer, National Endowment for the Arts, National Foundation on the Arts and the Humanities.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-6]

BATTELLE MEMORIAL INSTITUTE

Intent to Issue Order Authorizing Dismantling of Facility

By application dated September 13, 1974, Battelle Memorial Institute requested authorization to dismantle the Battelle Research Reactor in accordance with its dismantling plan.

The Commission has reviewed the application in accordance with the provisions of the Commission's regulations and has found that the dismantling and disposal of component parts will be accomplished in accordance with the regulations in 10 CFR Chapter I, and the application, and will not be inimical to the common defense and security or to the health and safety of the public. The basis for the findings is set forth in the Safety Evaluation by the Division of Reactor Licensing which is being issued concurrently with this notice.

Accordingly, an appropriate order will be issued after March 13, 1975 authorizing Battelle Memorial Institute to dismantle the Battelle Research Reactor covered by Facility License No. R-4, as amended.

Dated at Bethesda, Maryland, this 18th day of February, 1975.

For the Nuclear Regulatory Commission.

GEORGE LEAR,
Chief, Operating Reactors Branch No. 3, Division of Reactor Licensing.

[Docket No. 50-219]

JERSEY CENTRAL POWER AND LIGHT CO.

Amendment to Provisional Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 7 to Provisional Operating License No. DPR-16 issued to Jersey Central Power & Light Company which revised Technical Specifications for operation of the Oyster Creek Nuclear Generating Station, located in Lacey Township, Ocean County, New Jersey. The amendment is effective as of its date of issuance.

The amendment permits lowering the main steamline isolation valve low main steamline pressure closure set point.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment is not required since the amendment does not involve a significant hazards consideration.

For further details with respect to this action, see (1) the application for amendment dated November 26, 1974, (2) Amendment No. 7 to License No. DPR-16 with Change No. 23, and (3) The Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Ocean County Library, 15 Hooper Avenue, Toms River, New Jersey.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 14th day of February, 1975.

For the Nuclear Regulatory Commission.

GEORGE LEAR,
Chief, Operating Reactors Branch No. 3, Division of Reactor Licensing.

[Docket Nos. 50-514, 50-515]

PORTLAND GENERAL ELECTRIC CO. (PEBBLE SPRINGS NUCLEAR PLANT, UNITS 1 & 2)

Schedule for Special Prehearing Conference

In accordance with the rules or practice of the Commission,[1] a special prehearing conference in the above proceeding will be held on March 25, 1975, at 10 a.m., local time, in the Arlington Elementary School, Arlington, Oregon 97812.

Matters to be taken up at the conference include identification and simplification of the issues; outstanding petitions for intervention; the need for discovery and the time required for it, and establishment of schedules for further action in the proceeding.

Members of the public are welcome to attend the prehearing conference. However, there will be no evidence presented nor will there be opportunity for individuals to make oral or written statements by way of limited appearance. Such statements will be received at the evidentiary hearing to be scheduled at a later date.

It is so ordered.

Dated at Bethesda, Maryland this 21st day of February 1975.

For the Atomic Safety and Licensing Board.

JAMES R. YORE,
Chairman.

[FR Doc.75-5057 Filed 2-25-75;8:45 am]

[Docket No. 50-206]

SOUTHERN CALIFORNIA EDISON CO.

Amendment to Provisional Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 10 to Provisional Operating License No. DPR-13 issued to Southern California Edison Company which revised Technical Specifications for operation of the San Onofre Nuclear Generating Station, Unit 1, located in San Diego, California. The amendment is effective as of its date of issuance.

This amendment authorizes an increase of the core average burnup for Cycle 4 and succeeding cores from 19,000 MWD/MTM to 21,000 MWD/MTM.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

For further details with respect to this action, see (1) the application for amendment dated December 4, 1974, (2) Amendment No. 10 to License No. DPR-13, with any attachments, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., and at the San Clemente Public Library, 233 Granada Street, San Clemente, California.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 18th day of February 1975.

For the Nuclear Regulatory Commission.

ROBERT A. PURPLE,
Chief, Operating Reactors Branch #1, Division of Reactor Licensing.

[Docket Nos. 50-327 and 50-328]

TENNESSEE VALLEY AUTHORITY AND SEQUOYAH NUCLEAR PLANT, UNITS 1 AND 2

Issuance of Amendments to Provisional Construction Permits and Availability of Initial Decision

Notice is hereby given that pursuant to an Agreement of the Parties presented to the Atomic Safety and Licensing Board during the evidentiary hearing held July 1, 1974 and July 30–31, 1974 in Chattanooga, Tennessee, the Nuclear Regulatory Commission has issued Amendment No. 2 to Provisional Construction Permit No. CPPR-72 and Amendment No. 2 to Provisional Construction Permit No. CPPR-73 issued to the Tennessee Valley Authority for construction of the Sequoyah Nuclear Plant, Units 1 and 2, located in Hamilton County, Tennessee. The Agreement modifies the construction permits to include certain conditions for the protection of the environment. This Agreement was noted in the Initial Decision issued by the Atomic Safety and Licensing Board on December 2, 1974. The Initial Decision is subject to review by an Atomic Safety and Licensing Appeal Board prior to its becoming final. Any decisions or actions taken by the Atomic Safety and Licensing Appeal Board in connection with the Initial Decision may be reviewed by the Commission.

A copy of the Initial Decision dated December 2, 1974, Amendment No. 2 to

[1] The Nuclear Regulatory Commission is the successor organization to the Atomic Energy Commission as provided by legislation enacted by the Congress in Pub. L. 93-438.

XUM
V 40 39 FEB 26 75 XUM

Provisional Construction Permit No. CPPR–72, Amendment No. 2 to Provisional Construction Permit No. CPPR–73, the Agreement of the Parties, and the Tennessee Valley Authority's Final Environmental Statement are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., and in the Chattanooga Public Library, 601 McCalley Street, Chattanooga, Tennessee 37403.

The above noted documents are also being made available at the Office of Urban and Federal Affairs, Suite 1025, Andrew Jackson State Office Building, Nashville, Tennessee, 37219; the Chattanooga Area Regional Council of Governments, 423 James Building, 735 Broad Street, Chattanooga, Tennessee 37402; and the Office of Urban and Federal Affairs, 321 Seventh Avenue, North, Nashville, Tennessee 37219.

The Nuclear Regulatory Commission has found that the provisions of these amendments comply with the requirements of the Atomic Energy Act of 1954, as amended, and the Commission's regulations published in 10 CFR Chapter I and has concluded that the issuance of these amendments will not be inimical to the common defense and security or to the health and safety of the public.

The record developed in the public hearing in the above captioned matter modified in certain respects the contents of the Final Environmental Statement relating to the construction of the Sequoyah Nuclear Plant, Units 1 and 2, prepared by the Tennessee Valley Authority. Pursuant to the provisions of § 51.52(b)(3) of 10 CFR Part 51, the Final Environmental Statement is deemed modified to the extent that the conditions relating to environmental matters contained in the Agreement of the Parties presented in the hearing record and noted in the Initial Decision are different from those contained in the Final Environmental Statement issued February 1974. As required by § 51.52(b)(3) of 10 CFR Part 51, a copy of the Initial Decision and the Agreement of the Parties which modified the Final Environmental Statement, have been transmitted to the Council on Environmental Quality and distributed to the Environmental Protection Agency and other interested agencies and persons in accordance with § 51.26(c) of 10 CFR Part 51.

Single copies of the Initial Decision, Amendment No. 2 to Provisional Construction Permit No. CPPR–72, Amendment No. 2 to Provisional Construction Permit No. CPPR–73, the Final Environmental Statement and the Agreement of the Parties may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 19th day of February 1975.

For the Nuclear Regulatory Commission.

KARL KNIEL,
Chief, Light Water Reactors Branch 2–2, Division of Reactor Licensing.

[Docket No. 50–186]

UNIVERSITY OF MISSOURI—COLUMBIA

Amendment to Facility Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 3 to Facility Operating License No. R–103 issued to University of Missouri ("the licensee") which revised Technical Specifications for operation of the University of Missouri Research Reactor (MURR), located in Columbia, Missouri. The amendment is effective as of its date of issuance.

The amendment increases the maximum allowable fuel burnup from 99 megawatt days (MWD) for the UA1, intermetallic fuel to 150 megawatt days (MWD) per element. It also increases the allowable time between inspections of fuel elements.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. No request for a hearing or petition for leave to intervene was filed following notice of the proposed action.

For further details with respect to this action, see (1) the application for amendment dated October 21, 1974, and Supplement dated November 20, 1974, (2) Amendment No. 3 to License No. R–103, with Change No. 11 and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 14th day of February, 1975.

For the Nuclear Regulatory Commission.

GEORGE LEAR,
Chief, Operating Reactors Branch No. 3, Division of Reactor Licensing.

[Docket No. 50–513A]

WASHINGTON PUBLIC POWER SUPPLY SYSTEM

Receipt of Attorney General's Advice and Time for Filing of Petitions To Intervene on Antitrust Matters

The Commission has received, pursuant to section 105c. of the Atomic Energy Act of 1954, as amended, a letter of advice from the Attorney General of the United States, dated February 13, 1975, a copy of which is attached as Appendix A.

Any person whose interest may be affected by this proceeding may, pursuant to § 2.714 of the Commission's rules of practice, 10 CFR Part 2, file a petition for leave to intervene and request a hearing on the antitrust aspects of the application. Petitions for leave to intervene and requests for hearing shall be filed by March 28, 1975 either (1) by delivery to the NRC Public Docketing and Service Section at 1717 H Street, NW., Washington, D.C., or (2) by mail or telegram addressed to the Secretary, Nuclear Regulatory Commission, Washington, D.C. 20555, ATTN: Docketing and Service Section.

For the Nuclear Regulatory Commission.

ABRAHAM BRAITMAN,
Chief, Office of Antitrust and Indemnity Nuclear Reactor Regulation.

APPENDIX A

WASHINGTON PUBLIC POWER SUPPLY SYSTEM
NUCLEAR PROJECT NO. 4
NRC DOCKET NO. 50–513A
DEPARTMENT OF JUSTICE FILE NO. 60–415–114

FEBRUARY 13, 1975.

You have requested our advice pursuant to the provisions of section 105 of the Atomic Energy Act of 1954, as amended, in regard to the above-captioned application.

The Washington Public Power Supply System (WPPSS), a power generating agency, has applied for a construction permit and operating license for a utilization facility to be known as WPPSS Nuclear Project No. 4 (WPPSS No. 4) at its site on the Hanford Reservation in Benton County, Washington. Operation is scheduled for 1982. The facility will have a nominal capacity of 1,250,000 kilowatts.

WPPSS will be entitled to all of the output of WPPSS No. 4. This output will be offered to 104 systems in the Pacific Northwest, of which 29 are municipalities, 28 are public utility districts and 47 are cooperatives, all are statutory preference customers of the Bonneville Power Administration (Bonneville). No other entities have expressed a desire to acquire a portion of the output of WPPSS No. 4.

Applicant. WPPSS is a municipal corporation and a joint operating agency of the State of Washington. Its membership, which is established by Washington State law, is made up of eighteen operating public utility districts in the State of Washington and the Cities of Richland, Seattle, and Tacoma, Washington. The management and control of WPPSS is vested in a Board of Directors consisting of representatives of each of the public utility districts and the cities.

WPPSS presently operates the Packwood Lake Hydroelectric Project in Lewis County, Washington, and the Hanford Electric Generating Project of the Energy Research and Development Administration's reactor near Richland, Washington. WPPSS previously applied to your predecessor commission for licenses with respect to WPPSS Nuclear Projects Nos. 1 and 2. The Department of Justice advised the Atomic Energy Commission that it need not conduct an antitrust hearing with respect to those projects. We have recently advised the Nuclear Regulatory Commission that it need not conduct an antitrust hearing with respect to an application by WPPSS for WPPSS Nuclear Project No. 3. WPPSS also anticipates acquiring a 15 per cent ownership interest in the Skagit Nuclear Project now being planned by the Puget Sound Power & Light Company.

Interconnection and Coordination with Others. The Pacific Northwest is an area where there is a high degree of coordination and cooperation between utilities involved in the generation and transmission of electrical power.

The dominant factor in the area in terms of energy transmission is Bonneville; it has over 12,000 miles of transmission facilities in the Pacific Northwest representing about 80 per cent of the bulk power transmission capacity in that region. Bonneville is generally described as the leading force promoting coordination and joint planning with respect to electrical power. Bonneville markets power to 149 customers, including the 104 preference customers which may elect to participate in WPPSS No. 4.

In the Pacific Northwest, five private utilities, 110 publically-owned agencies, WPPSS and Bonneville have formed the Joint Power Planning Council to coordinate planning for existing and future thermal and hydroelectric resources for the region. The area includes the States of Washington, Oregon, and portions of northern California, Idaho and Montana. The Joint Power Planning Council has developed the Hydro Thermal Power Program plan for power generation to meet the area's anticipated load growth.

The major portion of power supply for the Pacific Northwest has historically been from hydroelectric generating sources. Most of the hydroelectric projects were built by the federal government as part of the Columbia River Power System. However, in recent years, the region has turned to thermal generation for its base-load resources since virtually all the hydropower sites have been developed.

Results of Antitrust Review. With one exception, our study of this application did not indicate any antitrust problem. The only matter requiring exploration pertained to allegations that the City of Tacoma, Washington, one of the possible 104 participants, was refusing to wheel power from Bonneville to five utilities who were, at one time, served by Tacoma. These five utilities are members of the Pierce County Cooperative Power Association (PCCPA). Many of the details concerning this controversy were presented to the United States Senate Committee on Appropriations on H.R. 8947, Public Works for Water and Power Development and Atomic Energy Commission Appropriations, Fiscal Year 1974, 93rd Congress, 1st Session, Part 6, at pages 7,175–7,194.

Negotiations between the PCCPA group and Tacoma for transmission service from Bonneville to the PCCPA group have now been concluded, and since July 1, 1974, power from Bonneville has been wheeled over Tacoma facilities to the PCCPA group in accordance with an agreement between them. This agreement is subject to approval by the Tacoma City Council. On the assumption that the Tacoma City Council will approve the transmission agreement in the near future, we conclude that an antitrust hearing will not be necessary with respect to the instant application.

[Docket Nos. 50–440, 50–441]

CLEVELAND ELECTRIC ILLUMINATING (PERRY NUCLEAR POWER PLANT, UNITS 1 AND 2)

Modification of Order To Show Cause

FEBRUARY 18, 1975.

Before the Atomic Safety and Licensing Board.

I. By Order dated January 20, 1975, the Cleveland Electric Illuminating Company, the Duquesne Light Company, the Ohio Edison Company, the Pennsylvania Power Company, and the Toledo Edison Company ("the licensees") were ordered to:

(a) Show cause why all work activities under the LWA, issued by the Director of Regulation on October 21, 1974 and supplemented on November 8, 1975, should not be suspended pending completion of the Nuclear Regulatory Commission's (NRC) review and evaluation of the environmental and site suitability considerations raised by the licensees' proposed permanent dewatering system described in Amendement 22 to the licensees' Preliminary Safety Analysis report (PSAR); and

(b) Immediately suspended all LWA work activities pending further order.

II. On February 4, 1975, the licensees filed an Answer to Order to Show Cause. In their Answer, and other documents submitted to the NRC Staff,[1] and in technical presentations at meetings with the NRC Staff,[2] that licensees have identified work activities, previously authorized under the LWA that would not affect either the ultimate cost benefit balance for the environmental review for the facility as provided in the National Environmental Policy Act of 1969, as amended, or the availability of one of several satisfactory alternatives to the dewatering system.[3] These submittals also provided an evaluation of the environmental impacts to be expected from the proposed dewatering system. This information was not available when the Acting Director issued his January 20, 1975, Order to Show Cause. In view of the information submitted by the licensees and the NRC Staff's review and evaluation of this information, the Acting Director for the Office of Nuclear Reactor Regulation has determined that the public health, safety or interest does not require that all work activities under the LWA remain suspended. Based on a worst case analysis of potential environmental impacts, the Acting Director has determined that the suspension of those LWA construction activities, other than those activities which may effect the selection of a satisfactory alternative to the dewatering system, be withdrawn and authority for the continued performance of those work activities be reinstated.

III. Attachment A to the January 20, 1975, Order specified the LWA work activities which were suspended. This Modification of Order withdraws the suspension of the following work activities as enumerated in Attachment A to the Order to Show Cause:

1. Preparation of the site for construction of the facility, including 1a through 1h.
2. Installation of temporary construction support facilities, including 2a through 2g.
4. Construction of service facilities, including 4a through 4m.
5. Construction of the structures, systems and components which are not subject to the provisions of Appendix B to 10 CFR Part 50, including 5a and 5f only.

IV. The basis for withdrawing the suspension on these activities is that the construction activities involved would require minimum disturbance of the existing ground surface (in most cases excavation would be limited in depth to about 5 feet below the existing ground surface) and that these activities are not directly related to safety-related structures, systems or components. None of the enumerated activities affect the final disposition of the proposed dewatering system nor will their completion, in turn, affect the final resolution of proposed design changes or the imposition of possible alternative designs or systems.

Furthermore, based on a worst case analysis, none of the environmental impacts discussed in the Order to Show Cause and the affidavit of Lewis G. Hulman attached to the NRC Staff's Motion to Supplement the "Commission's Staff's Motion to Reopen the Record on Environmental and Site Suitability Matters" would change the ultimate conclusion of the benefit-cost balance originally struck in the Final Environmental Statement for the Perry Nuclear Power Plant, Units 1 and 2.

V. In view of the foregoing and pursuant to the Atomic Energy Act of 1954, as amended, the Regulations in 10 CFR Parts 2 and 50, and the Order to Show Cause of January 20, 1976, addressed to the licensees, it is hereby determined that: The public health, interest or safety does not require the continued suspension of the work activities under the LWA unrelated to the selection of a

[1] These documents were submitted by the licensees on January 17, 29 and 31, 1975. Copies of these documents are on file in the Nuclear Regulatory Commission's Public Document Room at 1717 H Street, NW., Washington, D.C. 20555 and the Nuclear Regulatory Commission's local Public Document Room, Perry Public Library, 3553 Main Street, Perry, Ohio 44081.

[2] These meetings were held at the NRC Staff offices in Bethesda, Maryland on January 10, 21 and 22, 1975.

[3] The Director has also considered information in a letter from Robert F. Koblenzer, East Ohio Gas Co., to Ralph A. Maselli, Public Utilities Commission of Ohio, which alleged that submission by the licensees to the NRC regarding a 16-inch natural gas line endangered by the suspension of work activities at the Perry site were incorrect. This information, if determined to be correct after review, would not effect issuance of this Modification of Order to Show Cause.

XUM
V 40 39 FEB 26 75 XUM

satisfactory alternative to the dewatering system; these activities are specified in section III of this Modification of Order to Show Cause.

And it is hereby ordered, That: Effective this date the Order to Show Cause of January 20, 1975, is modified to delete the suspension of work activities specified in Section III of this Modification of Order to Show Cause. All other provisions of said Order to Show Cause shall remain in full force and effect.

Dated at Bethesda, Maryland this 18th day of February, 1975.

EDSON G. CASE,
Acting Director, Office of Nuclear Reactor Regulation.

SECURITIES AND EXCHANGE COMMISSION

[811-2431]

CHARTER INVESTMENT CO. INC.

Filing of Application Declaring That Company Has Ceased To Be an Investment Company

FEBRUARY 14, 1975.

In the matter of Charter Investment Company Inc., c/o Burton Spraker, 2000 First Maryland Building, 25 South Charles Street, Baltimore, Maryland 21201.

Notice is hereby given that Charter Investment Company Incorporated ("Applicant"), registered under the Investment Company Act of 1940 ("Act") as a closed-end diversified management investment company, filed an application on October 25, 1974, pursuant to section 8(f) of the Act for an order of the Commission declaring that Applicant has ceased to be an investment company. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant was organized as a Maryland corporation on November 5, 1973. It filed its Notification of Registration on Form N-8A under the Act and a Registration Statement under the Securities Act of 1933 ("Securities Act"), on November 5, 1973. Applicant's Securities Act Registration Statement never became effective, and on September 23, 1974, the Commission consented to its withdrawal.

Applicant represents that due to unfavorable market conditions it never commenced operations as an investment company, and that it is not engaged in any investment company activity nor does it propose to engage in any investment company activity.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than March 12, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[70-5531]

NATIONAL FUEL GAS CO.

Note to Parent Holding Company

In the matter of National Fuel Gas Company, 30 Rockefeller Plaza, New York, New York 10020, National Fuel Gas Distribution Corporation, 10 Lafayette Square, Buffalo, New York 14203, National Fuel Gas Supply Corporation, 308 Seneca Street, Oil City, Pennsylvania 16301.

Notice is hereby given that National Fuel Gas Company ("National Fuel Gas"), a registered holding company, and National Fuel Gas Distribution Corporation ("Distribution Corp.") and National Fuel Gas Supply Corporation ("Supply Corp."), its non-utility subsidiary companies, have filed with this Commission a post-effective amendment to its previously amended application-declaration in this proceeding pursuant to sections 6(a), 6(b), 7, 9(a), 9(c), 10, 12(b) and 12(f) of the Public Utility Holding Company Act of 1935 ("Act") and Rules 43 and 45 thereunder regarding the following proposed transactions. All interested persons are referred to said post-effective amendment, which is summarized below, for a complete statement of the proposed transactions.

On October 22, 1974, National Fuel Gas extended an emergency credit to Supply Corp. in the amount of $3,500,000. The funds advanced by National Fuel Gas were derived from a special $3,500,000 dividend paid by Distribution Corp. Prior thereto, on September 30, 1974, the Commission approved proposals in this proceeding of Distribution Corp. and Supply Corp. to issue long-term notes in the aggregate amounts of $14,000,000 and $6,000,000, respectively, to National Fuel Gas (see Holding Company Act Release No. 18583).

In order to comply with Rule 45(b)(3), the applicants-declarants now propose to resolve the extension of credit to Supply Corp. by amending the terms of the authorization given in this filing. Accordingly, they propose to consummate a two-step transaction by which (1) $3,500,000 principal amount of the note issued by Distribution Corp. to National Fuel Gas will be cancelled and a contribution of capital in like amount from National Fuel Gas to Distribution Corp. made and, (2) Supply Corp. will issue its note in the principal amount of $3,500,000 to National Fuel Gas.

The proposed transactions will have the effect of converting the $3,500,000 non-interest bearing emergency credit to Supply Corp. into long-term debt. By cancelling an equivalent amount of long-term debt from Distribution Corp. to National Fuel Gas, the $20,000,000 overall subsidiary indebtedness to National Fuel Gas heretofore authorized will remain unchanged.

The note to be issued by Supply Corp. will mature, bear interest and contain other terms identical to those of the equivalent note of Distribution Corp. to be cancelled. The note issued by Supply Corp. will bear interest from October 22, 1974, the date of the emergency extension of credit. To reflect this, no accrued interest will be payable to National Fuel Gas by Distribution Corp. on the $3,500,000 note to be cancelled.

The fees, commissions and expenses to be paid or incurred in connection with the proposed transactions will total $1,650, which includes legal fees of $1,500. It is stated that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than March 19, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said post-effective amendment to the previously amended application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated addresses and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the post-effective amendment to the previously amended application-declaration may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem

XUM

appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, By the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[70-5621]

PENNSYLVANIA ELECTRIC CO.

Issue and Sale of Cumulative Preferred Stock at Competitive Bidding

Notice is hereby given that Pennsylvania Electric Company ("Penelec"), 1001 Broad Street, Johnstown, Pennsylvania 15907, an electric utility subsidiary company of General Public Utilities Corporation, a registered holding company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(b) and 12(c) of the Act and Rule 50 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the application, which is summarized below, for a complete statement of the proposed transaction.

Penelec proposes to issue and sell for cash, subject to the competitive bidding requirements of Rule 50 under the Act, up to 350,000 additional shares of its cumulative preferred stock, percent Series J ("new preferred stock"). Terms of the new preferred stock will include a mandatory redemption provision commencing on April 1, 1976, to retire annually 5 percent of the number of shares of the new preferred stock that are originally issued at $100 per share, plus accrued dividends to the redemption date on April 1 of each year. This mandatory redemption provision is designed to retire all the new preferred stock by April 1, 1995. Terms of the new preferred stock will also provide that Penelec shall not refund the new preferred stock by the issuance of debt securities at a lower interest cost or other preferred stock at a lower dividend cost within five years of the issuance of the new preferred stock.

The dividend rate and the optional redemption prices will be determined by the competitive bidding. The bidding procedure will require that (1) the price per share (and the price at which each share shall be initially offered by the underwriters to the public) shall be $100, which is the par value of the new preferred stock, (2) the dividend rate for the new preferred stock be specified by such bids and be a multiple of 1/25th of 1 percent and (3) the underwriting commission per share to be paid by Penelec to the successful bidders be specified in the bids. The bidding procedure will not establish a minimum or maximum dividend rate or commission within which bids may be submitted.

The entire proceeds to be realized from the sale of the new preferred stock will be used to pay a portion of Penelec's short-term bank loans expected to be outstanding at the date of sale or to reimburse Penelec's treasury for previous expenditures therefrom for construction purposes. Penelec expects to have approximately $67,115,000 of bank loans outstanding immediately prior to the date of sale of the new preferred stock.

Fees and expenses to be incurred in connection with the proposed transaction will be supplied by amendment. It is stated that the Pennsylvania Public Utility Commission has jurisdiction over the proposed transaction and that no other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than March 14, 1975, request in writing that a hearing be held on such matter stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant at the above stated address, and proof of service (by affidavit or, in case of an attorney-at-law, by certificate) should be filed with the request. At any time after said date, the application, as filed or as it may be amended, may be granted as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

FEDERAL ENERGY ADMINISTRATION

CONCERNING VOLUNTARY AGREEMENT AND PROGRAM TO IMPLEMENT THE INTERNATIONAL ENERGY PROGRAM

Notice of Proposed Agreement

After consultations with representatives of the petroleum industry and other members of the public, pursuant to section 708(a) of the Defense Production Act, the Federal Energy Administration in cooperation with the Department of State has developed a proposed voluntary agreement and program to facilitate participation by U.S. oil companies in the International Energy Program. Copies of the proposed agreement and program are available in the Office of General Counsel, Federal Energy Administration, in Room 5116, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C. Prior to recommending this agreement to the Administrator of General Services for his approval as required by law, FEA would like to receive written data, views and arguments from the public concerning the proposed agreement.

Such views should be submitted no later than 4:30 e.d.s.t. on Tuesday, March 4, 1975. Fifteen copies of these comments should be submitted to Executive Communications, Box CI, Room 3309, Federal Energy Administration, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461.

This accelerated timetable is undertaken in order to facilitate the efforts of the United States and other consuming nations in connection with the Agreement on International Energy Program. Further procedures under the Defense Production Act require approval of the Attorney General of any request to enter into such an agreement and the official making the request (the Administrator of General Services) must consult with the Attorney General and the Chairman of the Federal Trade Commission not less than ten days before any such request. This will provide additional opportunity for public comment.

All comments received, including comments in response to this Notice, together with the proposed agreement and any proposed modifications will be available in Room 3400, Federal Energy Administration, Federal Building, 12th & Pennsylvania Avenue NW., Washington, D.C. Additional background information and material will also be available.

ROBERT E. MONTGOMERY, Jr.,
General Counsel.

FEBRUARY 25, 1975.

DEPARTMENT OF LABOR

Manpower Administration

FEDERAL COMMITTEE ON APPRENTICESHIP

Meeting

Pursuant to section 10 (a) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. 1) of October 6, 1972, notice is hereby given that the Federal Committee on Apprenticeship will conduct an open meeting on Thursday, March 13, from 9 a.m.–4:30 p.m.; Friday, March 14, 1975, from 9 a.m.–12 Noon in Room B-102 (A, B, C, D,), Conference Level, U.S. Department of Labor, 14th & Constitution Avenue, NW., Washington, D.C.

The Agenda for the meeting on the 13th will include:

1. Report of Subcommittee on AGC Proposed Master Training Plan for the Construction Industry.
2. Reports of Subcommittee on 29 CFR Parts 5 & 5a—Trainee and Apprenticeship.
3. Status of 29 CFR Part 29—Labor Standards for the Registration of Apprenticeship Programs (proposed rulemaking).
4. 29 CFR Part 30—Equal Employment Opportunity in Apprenticeship—Discussion of Problems.
5. Overview of Bureau of Apprenticeship and Training Operations.

The Agenda for the meeting on March 14, 1975, will include completion of recommendations of New Initiatives in Apprenticeship.

Members of the public are invited to attend the proceedings. Any member of the public who wishes to file written data, views or arguments pertaining to the agenda may do so by furnishing it to the Executive Secretary at any time prior to the meeting. Thirty duplicate copies are needed for the members and for inclusion in the minutes of the meeting.

Any member of the public who wishes to speak at this meeting should so indicate in such a written statement, also the nature of intended presentation and amount of time needed. The Chairman will announce at the beginning of the meeting the extent to which time will permit the granting of such requests.

Communications to the Executive Secretary should be addressed as follows:

Mrs. M. M. Winters, Bureau of Apprenticeship and Training, MA, U.S. Dept. of Labor, 601 D St. NW. (Rm. 5434), Washington, D.C. 20213.

Signed at Washington, D.C. this 19th day of February 1975.

BEN BURDETSKY,
Acting Assistant Secretary for Manpower.

Occupational Safety and Health Administration

STANDARDS ADVISORY COMMITTEE ON HAZARDOUS MATERIALS LABELING

Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (5 U.S. C. App. I), notice is hereby given that the Standards Advisory Committee on Hazardous Materials Labeling, established under section 7(b) of the Williams-Steiger Occupational Safety and Health Act of 1970 (29 U.S.C. 656) will hold its sixth meeting on March 18 and 19, 1975. The location of the meeting is Conference Room B, Departmental Auditorium, Constitution Avenue and 14th Street, NW., Washington, D.C. The meeting will begin at 10 a.m. on the 18th and 9 a.m. on the 19th and will be open to the public.

The proposed agenda for this meeting calls for the full Committee to begin its consideration of Subgroup working papers on classification of hazardous materials and on safety data sheets. Agenda items are subject to change as priorities dictate.

Any member of the public wishing to submit written presentations or recommendations to the Committee may do so by filing such a statement, together with 20 duplicate copies, with the Committee Management Officer at least seven days prior to the meeting date. These statements will be submitted to the Committee members and will be included in the record of the meeting.

The Committee Chairman may permit oral statements before the Committee by interested persons if time permits. Anyone desiring to make an oral presentation should submit a written request to the Committee Management Officer at least seven days before the meeting. The request must have the name and address of the person wishing to appear, the capacity in which he will appear, a short summary of the intended presentation, and the approximate amount of time required for his presentation. These requests will be submitted to the Chairman for his consideration.

All materials which have been submitted to or developed by the Committee, as well as the official record of all Committee proceedings, are available for public inspection and copying at the Committee Management Office. Any copying will be done at the cost of 20¢ per page. However, no arrangement will be made to supply Committee materials to the public at any meeting site.

Any questions concerning Committee activities or requests of copies of Committee materials should be addressed to:

Nancy L. Hucke, Committee Management Officer, Occupational Safety and Health Administration, 1726 M Street, NW., Room 200, Washington, D.C. 20210, Phone: 202/961-2248, 3181.

Signed at Washington, D.C. this 20th day of February, 1975.

JOHN STENDER,
Assistant Secretary of Labor.

[FR Doc.75-5062 Filed 2-25-75;8:45 am]

Office of the Secretary

FEDERAL-STATE EXTENDED BENEFITS AND FEDERAL SUPPLEMENTAL BENEFITS

Availability in Certain States

The heads of the State employment security agencies of the States of Florida, Indiana, and Maryland have determined that there was a State "on" indicator in their respective States for the week ending on January 18, 1975, and an Extended Benefit Period therefore commenced in each of those States with the week beginning on February 2, 1975. Similarly, I have determined that there was a Federal Supplemental Benefit "on" indicator in each of the States of Florida, Indiana, and Maryland for the week ending on January 18, 1975, and a Federal Supplemental Benefit Period therefore commenced in each of those States with the week beginning on February 2, 1975.

A program for the payment of Federal-State Extended Benefits in Florida, Indiana, and Maryland is contained in those States' unemployment compensation laws in accordance with the Federal-State Extended Unemployment Compensation Act of 1970, 84 Stat. 708. During an Extended Benefit Period individuals who are unemployed and qualify may receive up to 13 weeks of Federal-State Extended Benefits, after they have exhausted their rights to regular unemployment benefits.

In addition, the Emergency Unemployment Compensation Act of 1974, 88 Stat. 1869, provides further rights to unemployment benefits (referred to herein as Federal Supplemental Benefits) to unemployed individuals who have exhausted their rights to regular unemployment benefits and Federal-State Extended Benefits (or are not entitled to such extended benefits because of the ending of their eligibility periods) in States such as Florida, Indiana, and Maryland, which have entered into an agreement with the Secretary of Labor of the United States pursuant to the Act. Up to 13 weeks of Federal Supplemental Benefits are payable under the Act during a Federal Supplemental Benefit Period.

The requirements of the law with respect to the beginning of an Extended Benefit Period and a Federal Supplemental Benefit Period in a State are satisfied when the rate of insured unemployment in the State reaches 4.0 per centum and remains at or above that level for 13 weeks, or the rate of insured unemployment nationally reaches 4.0 percentum or 4.5 percentum (depending on the provisions of the State law) and remains at or above that level for three consecutive calendar months. The week which triggers the beginning of an Extended Benefit Period or a Federal Supplemental Benefit Period is the thirteenth week for a State "on" indicator and is the first week following the three-month period for a National "on" indicator. An Extended Benefit Period or a Period will last for a period of at least 13 tually begins with the third week following the week for which there is an "on" indicator. An Extended Benefit Period will last for a period of at least 13 weeks, and a Federal Supplemental Benefit Period will last for a period of not less than 26 weeks.

Similarly, the "off" indicator ending an Extended Benefit Period or a Federal Supplemental Benefit Period occurs when the rate of insured unemployment

V 40 39 FEB 26 75 XUM

in a State is less than 4.0 percentum for a 13-week period, and when the rate of insured unemployment nationally is less than 4.0 percentum or 4.5 percentum (depending on the provisions of the State law) for three consecutive calendar months. An Extended Benefit Period or Federal Supplemental Benefit Period actually ends with the third week after the week for which there is an "off" indicator, but not earlier than the thirteenth or twenty-sixth week as stated above.

Persons who believe they may be entitled to Federal-State Extended Benefits or Federal Supplemental Benefits in the States of Florida, Indiana, or Maryland, or who wish to inquire about their rights under these programs, should contact the State employment security office or unemployment insurance claims office in their locality.

Signed at Washington, D.C. this 19th day of February, 1975.

PETER J. BRENNAN,
Secretary of Labor.

INTERSTATE COMMERCE COMMISSION

[Notice No. 239]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

FEBRUARY 26, 1975.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before March 18, 1975. Pursuant to section 17 (8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-75557. By order of February 12, 1975, the Motor Carrier Board approved the transfer to Terminal Transportation Company, a corporation, Philadelphia, Pa., of the operating rights in Certificate No. MC 136773 issued May 13, 1974, to S.T.S. Motor Freight, Inc., Stratford, N.J., authorizing the transportation of general commodities, with the usual exceptions, between points in the Philadelphia, Pa., Commercial Zone as defined by the Commission, on the one hand, and, on the other, Vineland, Millville, Minotola, Landisville, Newfield, Clayton, Glassboro, Malaga, Woodbury, Runnemede, Bridgeton, Pitman, Ions, and Franklinville, N.J. Alan Kahn, 1920 Two Penn Center Plaza, Philadelphia, Pa. 19102, and Mervin J. Hartman, 1100 Western Saving Fund Building, Philadelphia, Pa. 19107, Attorneys for applicants.

No. MC-FC-75661. By order of February 13, 1975 the Motor Carrier Board approved the transfer to Wesley A. Costa, doing business as Costa Trucking Company, North Brunswick, N.J., of the operating rights in Permit No. MC 136370 (Sub-No. 2) issued February 2, 1973 to Shore Fruit, Inc., East Brunswick, N.J., authorizing the transportation of bananas and agricultural commodities exempt from economic regulation under section 203(b)(6) of the Interstate Commerce Act, when transported in mixed loads with bananas, from the facilities of United Fruit Co. at Albany, N.Y., and Baltimore, Md., to points in Bronx County, N.Y. George A. Olsen, 69 Tonnele Ave., Jersey City, N.J. 07306, Representative for applicants.

No. MC-FC-75668. By order entered February 13, 1975, the Motor Carrier Board approved the transfer to Arctic-Air Transport, Inc., Fremont, Wis., of the operating rights set forth in Certificates Nos. MC 119816, MC 119816 (Sub-No. 1), MC 119816 (Sub-No. 2), MC 119816 (Sub-No. 3), MC 119816 (Sub-No. 4), MC 119816 (Sub-No. 5), and MC 119816 (Sub-No. 6), issued by the Commission December 23, 1960, December 12, 1962, September 1, 1966, November 30, 1964, January 17, 1969, January 24, 1967, and July 30, 1968, to Fleetline, Inc., West St. Paul, Minn., authorizing the transportation of meats, meat products, and meat by-products, dairy products, and articles distributed by meat packinghouses, as described in Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, and materials, supplies, and equipment used in the manufacture and distribution of the commodities specified above, eggs, poultry, from, to, or between points in Minnesota, Wisconsin, Illinois, Indiana, Michigan, North Dakota, South Dakota, and Iowa; general commodities, between Newport, Minn., on the one hand, and, on the other, Minneapolis and St. Paul, Minn.; and wood charcoal and charcoal briquettes, from Marquette, Mich., to specified points in Wisconsin. Robert P. Sack, 33 E. Wentworth, Room 220, West St. Paul, Minn. 55118, practitioner for applicants.

ROBERT L. OSWALD,
Secretary.

[FR Doc.75-5152 Filed 2-25-75;8:45 am]

[Notice No. 5]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

FEBRUARY 21, 1975.

The following letter-notices of proposals (except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application), to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules-Motor Carriers of Passengers, 1969 (49 CFR 1042.2(c)(9)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.2(c)(9)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.2(c)(9)) at any time, but will not operate to stay commencement of the proposed operations unless filed by March 28, 1975.

Successively filed letter-notices of the same carrier under the Commission's revised Deviation Rules-Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PASSENGERS

No. MC 1515 (Deviation No. 692) (Cancels Deviation Nos. 671 and 674), GREYHOUND LINES, INC. (Eastern Division), P.O. Box 6903, 1400 W. Third Street, Cleveland, Ohio 44101, filed February 6, 1975. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage*, and *express* and *newspapers* in the same vehicle with passengers, over deviation routes as follows: From Fayetteville, N.C., over Interstate Highway 95 to junction U.S. Highway 17 south of Hardeeville, S.C., with the following access routes: (a) From Florence, S.C., over U.S. Highway 52 to junction Interstate Highway 95, (b) From Florence, S.C., over U.S. Highway 76 to junction Interstate Highway 95, (c) From Sumter, S.C., over U.S. Highway 378 to junction Interstate Highway 95, (d) From Sumter, S.C., over U.S. Highway 521 to junction Interstate Highway 95, (e) From Manning, S.C., over U.S. Highway 521 to junction Interstate Highway 95, (f) From Manning, S.C., over U.S. Highway 301 to junction Interstate Highway 95, (g) From Summerton, S.C., over access highway to junction Interstate Highway 95, (h) From junction Interstate Highway 26 and U.S. Highway 15 over Interstate Highway 26 to junction Interstate Highway 95, (i) From St. George, S.C., over U.S. Highway 78 to junction Interstate Highway 95, (j) From Walterboro, S.C., over South Carolina Highway 64 to junction Interstate Highway 95, (k) From Walterboro, S.C., over South Carolina Highway 63 to junction Interstate Highway 95.

(l) From Yemassee, S.C., over South Carolina Highway 68 to junction Interstate Highway 95, (m) From Pocotaligo, S.C., over U.S. Highway 17 to junction Interstate Highway 95, (n) From Ridgeland, S.C., over U.S. Highway 17 to junction Interstate Highway 95, north of Ridgeland, S.C., and (o) From Ridgeland, S.C., over U.S. Highway 17 to junction

Interstate Highway 95, south of Ridgeland, S.C., and return over the same routes for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property, over a pertinent service route as follows: From Fayetteville, N.C., over U.S. Highway 401 to junction U.S. Highway 15, thence over U.S. Highway 15 to junction U.S. Highway 52 at Society Hill, S.C., thence over U.S. Highway 52 to junction U.S. Highway 76 at Florence, S.C., thence over U.S. Highway 76 to Sumter, S.C., thence over U.S. Highway 521 to junction U.S. Highway 301 at Manning, S.C., thence over U.S. Highway 301 to junction U.S. Highway 15 at Summerton, S.C., thence over U.S. Highway 15 to Walterboro, S.C., thence over Alternate U.S. Highway 17 to Pocotaligo, S.C., thence over U.S. Highway 17 to junction Interstate Highway 95 near Hardeeville, S.C., and return over the same routes.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.75-5133 Filed 2-25-75;8:45 am]

[Notice No. 7]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

FEBRUARY 21, 1975.

The following letter-notices of proposals (except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application), to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969 (49 CFR 1042.4(c)(11)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.4(c)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.4(c)(12)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

No. MC 33641 (Deviation No. 84), IML FREIGHT, INC., 2175 So. 3270 West, P.O. Box 2277, Salt Lake City, Utah 84110, filed February 11, 1975. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Kansas City, Mo., over Interstate Highway 35 to junction U.S. Highway 54 near Wichita, Kans., thence over U.S. Highway 54 to Tucumcari, N. Mex., thence over Interstate Highway 40 (using segments of U.S. Highway 66 where Interstate Highway 40 is not completed) to Kingman, Ariz., thence over U.S. Highway 93 to Las Vegas, Nev., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Kansas City, Mo., over U.S. Highway 24 to junction U.S. Highway 281, thence over U.S. Highway 281 to Smith Center, Kans., thence over U.S. Highway 36 to Denver, Colo., thence over U.S. Highway 40 to Heber, Utah, thence over U.S. Highway 189 to Provo, Utah, thence over U.S. Highway 91 to Las Vegas, Nev., and return over the same route.

No. MC 89723 (Deviation No. 33), MISSOURI PACIFIC TRUCK LINES, INC., 210 N. 13th St., St. Louis, Mo. 63103, filed February 14, 1975. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From junction Texas Farm Road 2004 and Texas Highway 288, over Texas Farm Road 2004 to junction Texas Highway 6 and return over the same routes for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From junction Texas Farm Road 2004 and Texas Highway 288 over Texas Highway 288 to Angleton, Tex., thence over Texas Highway 35 to Alvin, Tex., thence over Texas Highway 6 to junction Texas Farm Road 2004, and return over the same routes.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice No. 706]

Assignment of Hearings

FEBRUARY 21, 1975.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after February 26, 1975.

MC 128007 Sub 61, Hofer, Inc., now assigned February 26, 1975, at Kansas City, Mo., hearing is cancelled and application dismissed.

FF-C-53, Down-East Shippers, Inc., Bay State Shippers, Inc., and Trailer Train, Inc.—Investigation of Operations, now assigned February 25, 1975, at Boston, Mass., is cancelled.

MC-F-12336; Atl, Inc.—Purchase—Associated Truck Lines, Inc., now being assigned preconference hearing on April 11, 1975, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 126714 Sub 3, Southwest Delivery Co., Inc.—Seattle—Portland, now assigned March 11, 1975 at Seattle, Wash. will be held in Room 2886 28th Floor, Federal Bldg. 915 2nd Ave.

MC 53965 Sub 95, Graves Truck Line, Inc., now assigned March 18, 1975 at Denver, Colo., will be held in Room B-230 New Custom House, 721 19th St.

MC 118520 Sub 10, Alaska Truck Transport, Inc., now asigned March 25, 1975 at Seattle, Wash., will be held in Room 2886, Federal Bldg., 915 2nd Ave.

MC-F-12368, Harry Schreiber, Schreiber Freight Carriers, Inc., Schreiber Freight Lines, Inc., W-P Truck Lines, Inc., and Gerald S. Lesher—Investigation of Control—Dorothy H. Loughman, DBA as Waynesburg-Pittsburgh Local Express, now being assigned May 3, 1975, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 31389 Sub 184, McLean Trucking Company, now being assigned April 2, 1975 (2 days) at Lexington, Ky., in a hearing room to be designated later.

MC 139946, B & L Express, Inc., now being assigned April 7, 1975 (1 week), at Lexington, Ky., in a hearing room to be designated later.

[SEAL] ROBERT L. OSWALD,
Secretary.

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

FEBRUARY 21, 1975.

The following publications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed by the new Special Rule 1100.247 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1964.

The publications hereinafter set forth reflect the scope of the applications as filed by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable by the Commission.

MOTOR CARRIER OF PROPERTY

No. MC-F-12440. Authority sought for purchase by M & M TRANSPORTATION COMPANY, 186 Alewife Brook Parkway, Cambridge, MA 02138, of a portion of the operating rights and property of NELSON FREIGHTWAYS, INC., 47 East St., P.O. Box 356, Rockville, CT 06066, and for acquisition by QUALPECO

V 40 39 FEB 26 75 XUM XUM

SERVICES, INC., 750 Third Ave., New York, NY 10017, of control of such rights and property through the purchase. Applicants' attorneys: John A. Vuono, and William A. Gray, both of 2310 Grant Bldg., Pittsburgh, PA 15219 and James E. Wilson, Suite 1032, Pennsylvania Bldg., Pennsylvania Ave., & 13th St., N.W., Washington, DC 20004. Operating rights sought to be transferred: *General commodities*, except explosives, poles frozen foods, frozen foodstuffs, dairy products as described in Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, imitation liquid milk and cream, and chocolate candies, as a *common carrier* over regular routes, between Bridgeport, N.J., and Washington, D.C., between Chester, Pa., and Washington, D.C., serving certain specified points in Delaware, Maryland, and Virginia, with restriction; *general commodities*, except those of unusual value, livestock, Classes A and B explosives, commodities in bulk, commodities requiring special equipment, those injurious or contaminating to other lading, frozen foods, frozen foodstuffs, dairy products as described in Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, imitation liquid milk and cream, and chocolate candies, over irregular routes, between Boston, Mass., on the one hand, and, on the other, points in Maine and New Hampshire. Vendee is authorized to operate as a *common carrier* in all of the States in the United States (except Alaska and Hawaii). Application has been filed for temporary authority under section 210a(b).

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

ASSIGNMENT OF HEARINGS

Correction

In FR Doc. 75-3596 appearing at pages 5832-5950 in the issue of Friday, February 7, 1975 the first and third entries should read as follows:

MC 72243 Sub 42, The Aetna Freight Lines, Inc., now being assigned April 1, 1975 (1 day), at Birmingham, Alabama, in a hearing room to be designated later.

MC 72243 Sub 39, The Aetna Freight Lines, Inc., now being assigned April 7, 1975 (1 wk.), at Birmingham, Alabama, in a hearing room to be designated later.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY—ELIMINATION OF GATEWAY LETTER-NOTICES

Notice

FEBRUARY 18, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's *Gateway Elimination* Rules (49 CFR 1065(a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission within 10 days from the date of this publication. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 104887 (Sub-No. E1), filed June 3, 1974. Applicant: AMERICAN VAN & STORAGE, INC., 2125 N.W. 1st Ct., Miami, Fla. 33127. Applicant's representative: Earle J. Lerette (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, (1) between points in the counties of Armstrong, Carson, Collinsworth, Dallam, Deafsmith, Donley, Gray, Hansford, Hartley, Hemphill, Hutchinson, Lipcombe, Moore, Ochitree, Old Ham, Potter, Randall, Roberts, Wherman, and Wheeler, Tex., on the one hand, and, on the other, points in those portions of Maryland, Virginia, North Carolina, South Carolina, Georgia, Alabama, and Mississippi south of a line beginning at the Delaware-Pennsylvania State line and extending along U.S. Highway 13 to junction Maryland Highway 413, thence along Maryland Highway 413 to the Chesapeake Bay near Gusfield, Md., thence across the Chesapeake Bay to U.S. Highway 360 near Reedville, Va., thence along U.S. Highway 360 to junction U.S. Highway 301, thence along U.S. Highway 301 to junction U.S. Highway 460 to junction U.S. Highway 29, thence along U.S. Highway 29 to junction Virginia Highway 57, thence along Virginia Highway 57 to junction U.S. Highway 220, thence along U.S. Highway 220 to junction U.S. Highway 311, thence along U.S. Highway 311 to junction U.S. Highway 421, thence along U.S. Highway 421 to junction North Carolina Highway 115, thence along North Carolina Highway 115 to junction Interstate Highway 40, thence along Interstate Highway 40 to junction U.S. Highway 64, thence along U.S. Highway 64 to junction U.S. Highway 221, thence along U.S. Highway 221 to junction U.S. Highway 29, thence along U.S. Highway 29 to junction U.S. Highway 123, thence along U.S. Highway 123 to junction U.S. Highway 23.

Thence along U.S. Highway 23 to junction U.S. Highway 78, thence along U.S. Highway 78 to junction Alabama Highway 53, thence along Alabama Highway 53 to junction Alabama Highway 145, thence along Alabama Highway 145 to junction Interstate Highway 65, thence along Interstate Highway 65 to junction Alabama Highway 22, thence along Alabama Highway 22 to junction Alabama Highway 8, thence along Alabama Highway 8 to junction Alabama Highway 5, thence along Alabama Highway 5 to junction U.S. Highway 43, thence along U.S. Highway 43 to junction Alabama Highway 35, thence along Alabama Highway 35 to junction Alabama Highway 96, thence along Alabama Highway 96 to junction Alabama Highway 594, thence along Alabama Highway 594 to junction Mississippi Highway 63, thence along Mississippi Highway 63 to junction U.S. Highway 98, thence along U.S. Highway 98 to junction Mississippi Highway 26, thence along Mississppi Highway 26 to junction U.S. Highway 49, thence along U.S. Highway 49 to the Mississippi State line at the Gulf of Mexico (Florida)*; (2) between points in El Paso County, Tex., on the one hand, and, on the other, points in Connecticut, Delaware, Georgia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, North Carolina, Rhode Island, South Carolina, Vermont, Virginia, Washington, D.C., and those portions of New York, Pennsylvania, West Virginia, Kentucky, Tennessee, Alabama, and Mississippi east of a line beginning at the Lake Ontario-New York Coast line and extending south along New York Highway 57 to junction New York Highway 5, thence along New York Highway 5 to junction New York Highway 14-A, thence along New York Highway 14-A to junction New York Highway 245, thence along New York Highway 245 to junction New York Highway 21, thence along New York Highway 21 to junction New York Highway 17, thence along New York Highway 17 to junction New York Highway 19, thence along New York Highway 19 to junction Pennsylvania Highway 449, thence along Pennsylvania Highway 449 to junction Pennsylvania Highway 144, thence along 144 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction Pennsylvania Highway 879, thence along Pennsylvania Highway 879 to junction U.S. Highway 322.

Thence along U.S. Highway 322 to junction Pennsylvania Highway 350, thence along Pennsylvania Highway 350 to junction U.S. Highway 220, thence along U.S. Highway 220 to junction U.S. Highway 22, thence along U.S. Highway 22 to junction Pennsylvania Highway 271, thence along Pennsylvania Highway 271 to junction Pennsylvania Highway 403, thence along Pennsylvania Highway 403 to junction U.S. Highway 219, thence

along U.S. Highway 219 to junction Pennsylvania Highway 403, thence along Pennsylvania Highway 403 to junction U.S. Highway 219, thence along U.S. Highway 219 to junction Pennsylvania Highway 81, thence along Pennsylvania Highway 81 to junction U.S. Highway 40, thence along U.S. Highway 40 to junction U.S. Highway 119, thence along U.S. Highway 119 to junction Kentucky Highway 292, thence along Kentucky Highway 292 to junction Kentucky Highway 40, thence along Kentucky Highway 40 to junction U.S. Highway 460, thence along U.S. Highway 460 to junction Kentucky Highway 30, thence along Kentucky Highway 30 to junction U.S. Highway 25, thence along U.S. Highway 25 to junction U.S. Highway 25E, thence along U.S. Highway 25E to junction Tennessee Highway 33, thence along Tennessee Highway 33 to junction Tennessee Highway 61 near Graveston, Tenn., thence west along Tennessee Highway 61 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction Tennessee Highway 68, thence along Tennessee Highway 68 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction Tennessee Highway 58, thence along Tennessee Highway 58 to junction Tennessee Highway 30, thence along Tennessee Highway 30 to junction U.S. Highway 11.

Thence along U.S. Highway 11 to junction U.S. Highway 72, thence along U.S. Highway 72 to junction U.S. Highway 231 in Alabama, thence along U.S. Highway 231 to junction Alabama Highway 26, thence along Alabama Highway 26 to junction U.S. Highway 31, thence along U.S. Highway 31 to junction U.S. Highway 11, thence along U.S. Highway 11 to junction Alabama Highway 69, thence along Alabama Highway 69 to junction U.S. Highway 43, thence along U.S. Highway 43 to junction Alabama Highway 35, thence along Alabama Highway 35 to junction Alabama Highway 96, thence along Alabama Highway 96 to junction Alabama Highway 594, thence along Alabama Highway 594 to junction Mississippi Highway 63, thence along Mississippi Highway 63 to junction U.S. Highway 98, thence along U.S. Highway 98 to junction Mississippi Highway 26, thence along Mississippi Highway 26 to junction U.S. Highway 49, thence along U.S. Highway 49 to the Mississippi State line at the Gulf of Mexico (Florida)*; (3) between points in the counties of Brewster, Crane, Culberson, Ector, Hudspeth, Jeff Davis, Loving, Midland, Pecos, Presidio, Reeves, Terrell, Upton, Ward, and Winkler, Tex., on the one hand, and, on the other, points in Connecticut, Delaware, Maine, Massachusetts, New Hampshire, New Jersey, North Carolina, Rhode Island, South Carolina, Vermont, Virginia, Washington, D.C., and those portions of New York, Pennsylvania, Maryland, West Virginia, Kentucky, Tennessee, Georgia, and Alabama east of a line beginning at the U.S.-Canada International Boundary line and extending south along New York Highway 30, thence along New York Highway 30 to junction U.S. Highway 11, thence along U.S. Highway 11 to junction New York Highway 56, thence along New York Highway 56 to junction New York Highway 3, thence along New York Highway 30, thence along New York Highway 30 to junction New York Highway 28, thence along New York Highway 28 to junction New York Highway 12, thence along New York Highway 12 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 11, thence along U.S. Highway 11 to junction New York Highway 13.

Thence along New York Highway 13 to junction New York Highway 14, thence along New York Highway 14 to junction New York Highway 328, thence along New York Highway 328 to junction U.S. Highway 15 in Pennsylvania, thence along U.S. Highway 15 to junction Pennsylvania Highway 287, thence along Pennsylvania Highway 287 to junction U.S. Highway 220, thence along U.S. Highway 220 to junction Pennsylvania Highway 26, thence along Pennsylvania Highway 26 to junction U.S. Highway 322, thence along U.S. Highway 322 to junction U.S. Highway 220, thence along U.S. Highway 220 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 219, thence along U.S. Highway 219 to junction U.S. Highway 60 in West Virginia, thence along U.S. Highway 60 to junction U.S. Highway 21, thence along U.S. Highway 21 to junction West Virginia Highway 3, thence west along West Virginia Highway 3 to junction West Virginia Highway 99, thence along West Virginia Highway 99 to junction West Virginia Highway 85, thence along West Virginia Highway 85 to junction West Virginia Highway 10, thence along West Virginia Highway 10 to junction U.S. Highway 119, thence along U.S. Highway 119 to junction U.S. Highway 25-E near Middlesboro, Ky., thence along U.S. Highway 25-E to junction Tennessee Highway 33, thence along Tennessee Highway 33 to junction U.S. Highway 11, thence along U.S. Highway 11 to junction Interstate Highway 75 near Ooltewah, Tenn., thence along Interstate Highway 75 to junction Georgia Highway 53, thence along Georgia Highway 53 to junction U.S. Highway 411, thence along U.S. Highway 411 to junction Alabama Highway 21.

Thence along Alabama Highway 21 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction Alabama Highway 22, thence along Alabama Highway 22 to junction Alabama Highway 5, thence along Alabama Highway 5 to junction U.S. Highway 43, thence along U.S. Highway 43 to termination at Mobile Bay, Mobile, Ala. (Florida)*; (4) between those points in the counties of Edwards, Kinney, Maverick, Real, and Val Verde, Tex., on the one hand, and, on the other, points in Connecticut, Delaware, Georgia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia, Washington, D.C., West Virginia, and those portions of Michigan, Indiana, Ohio, Kentucky, Tennessee, and Alabama east of a line beginning at Sault St. Marie, Mich., and extending south along interstate Highway 75 to junction U.S. Highway 31, thence along U.S. Highway 31 to junction Michigan Highway 37, thence along Michigan Highway 37 to junction Michigan Highway 113, thence along Michigan Highway 113 to junction U.S. Highway 131, thence along U.S. Highway 131 to junction Michigan Highway 55, thence along Michigan Highway 55 to junction Michigan Highway 37, thence along Michigan Highway 37 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction Michigan Highway 78, thence along Michigan Highway 78 to junction Michigan Highway 66, thence along Michigan Highway 66 to junction Michigan Highway 60, thence along Michigan Highway 60 to junction Michigan Highway 66, thence south along Michigan Highway 66 to junction Interstate Highway 80.

Thence along Interstate Highway 80 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 30S, thence along U.S. Highway 30S to junction U.S. Highway 25, thence along U.S. Highway 25 to junction Ohio Highway 29, thence west along Ohio Highway 29 to junction Indiana Highway 67, thence along Indiana Highway 67 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction Indiana Highway 67, thence along Indiana Highway 67 to junction U.S. Highway 35, thence along U.S. Highway 35 to junction Indiana Highway 227, thence along Indiana Highway 227 to junction Ohio Highway 177, thence along Ohio Highway 177 to junction U.S. Highway 127, thence along U.S. Highway 127 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction Indiana Highway 62, thence along Indiana Highway 62 to junction U.S. Highway 421, thence along U.S. Highway 421 to junction U.S. Highway 42, thence along U.S. Highway 42 to junction Interstate Highway 65, thence along Interstate Highway 65 to junction Kentucky Highway 90, thence along Kentucky Highway 90 to junction Kentucky Highway 163, thence along Kentucky Highway 163 to junction Tennessee Highway 52, thence along Tennessee Highway 52 to junction Tennessee Highway 53, thence long Tennessee Highway 53 to junction Tennessee Highway 135, thence along Tennessee Highway 135 to junction Tennessee Highway 42, thence along Tennessee Highway 42 to junction Interstate Highway 40, thence along Interstate Highway 40 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction Tennessee Highway 99, thence along Tennessee Highway 99 to junction U.S. Highway 43, thence along U.S. Highway 43 to junction U.S. Highway Alternate 72, thence along U.S. Highway Alternate 72 to junction U.S.

V 40-39 FEB 26 75 XUM XUM

Highway 31, thence along U.S. Highway 31 to junction Interstate Highway 65, thence along Interstate Highway 65 to junction U.S. Highway 31, thence along U.S. Highway 31 to junction Alabama Highway 22 near Clanton, thence along Alabama Highway 22 to junction Alabama Highway 5, thence along Alabama Highway 5 to junction U.S. Highway 43, thence along U.S. Highway 43 to termination at Mobile, Ala. (Florida)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 114211 (Sub-No. E737), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled tractors, road-making machinery and contractors' equipment and supplies*, from Green Island, Minn., to points in New York. The purpose of this filing is to eliminate the gateway of the plant site of Stinar Corporation located at or near Minneapolis, Minn.

No. MC 114211 (Sub-No. E738), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building equipment*, from Green Isle, Minn., to points in Louisiana, and to points in that part of California on and south of a line beginning at the California-Nevada State line extending along California Highway 178 to junction California Highway 127, thence along California Highway 127 to junction Interstate Highway 15, thence along Interstate Highway 15 to junction California Highway 58, thence along California Highway 58 to junction California Highway 99, thence along California Highway 99 to junction California Highway 137, thence along California Highway 137 to junction California Highway 41, thence along California Highway 41 to junction California Highway 46, thence along California Highway 46 to junction U.S. Highway 101, thence along U.S. Highway 101 to junction California Highway 1, thence along California Highway 1 to Santa Cruz, Calif., to points in that part of Nevada on and south of a line beginning at the Nevada-Arizona State line extending along U.S. Highway 93 to junction U.S. Highway 95, thence along U.S. Highway 95 to junction Nevada Highway 16, thence along Nevada Highway 16 to junction Nevada Highway 52, thence along Nevada Highway 52 to the California-Nevada State line, to points in that part of Arizona on and south of a line beginning at the Arizona-New Mexico State line extending along U.S. Highway 66 to junction U.S. Highway 93, thence along U.S. Highway 93 to the Arizona-Nevada State line, to points in that part of New Mexico on and south of a line beginning at the Texas-Oklahoma State line extending along New Mexico Highway 102 to junction New Mexico Highway 65.

Thence along New Mexico Highway 65 to junction U.S. Highway 85, thence along U.S. Highway 85 to junction U.S. Highway 285, thence along U.S. Highway 285 to junction U.S. Highway 85, thence along U.S. Highway 85 to junction Interstate Highway 25, thence along Interstate Highway 25 to junction U.S. Highway 66, thence along U.S. Highway 66 to the Arizona-New Mexico State line to points in that part of Oklahoma on and south of a line beginning at the Oklahoma-Arkansas State line extending along U.S. Highway 62 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction Oklahoma Highway 33, thence along Oklahoma Highway 33 to junction Oklahoma Highway 88, thence along Oklahoma Highway 88 to junction Oklahoma Highway 20, thence along Oklahoma Highway 20 to junction U.S. Highway 75, thence along U.S. Highway 75 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction U.S. Highway 64, thence along U.S. Highway 64 to junction Oklahoma Highway 15, thence along Oklahoma Highway 15 to junction U.S. Highway 283, thence along U.S. Highway 283 to junction Oklahoma Highway 51, thence along Oklahoma Highway 51 to the Oklahoma-Texas State line, to points in that part of Arkansas on and south of a line beginning at the Oklahoma-Arkansas State line extending along U.S. Highway 62 to junction Arkansas Highway 16, thence along Arkansas Highway 16 to junction Arkansas Highway 23, thence along Arkansas Highway 23 to junction Interstate Highway 40, thence along Interstate Highway 40 to junction Arkansas Highway 130, thence along Arkansas Highway 130 to junction U.S. Highway 79, thence along U.S. Highway 79 to junction U.S. Highway 49, thence along U.S. Highway 49 to the Arkansas-Mississippi State line, to points in that part of Mississippi on and south of a line beginning at the Mississippi-Arkansas State line extending along U.S. Highway 49 to junction U.S. Highway 61.

Thence along U.S. Highway 61 to junction U.S. Highway 49 to junction Mississippi Highway 12, thence along Mississippi Highway 12 to junction Mississippi Highway 35, thence along Mississippi Highway 35 to junction Mississippi Highway 14, thence along Mississippi Highway 14 to the Mississippi-Alabama State line, to points in that part of Alabama on and south of a line beginning at the Alabama-Mississippi State line extending along Alabama Highway 32 to junction Alabama Highway 17, thence along Alabama Highway 17 to junction U.S. Highway 80, thence along U.S. Highway 80 to junction Alabama Highway 97, thence along Alabama Highway 97 to junction U.S. Highway 331, thence along U.S. Highway 331 to junction U.S. Highway 29, thence along U.S. Highway 29 to junction U.S. Highway 231, thence along U.S. Highway 231 to the Alabama-Florida State line, and to points in that part of Florida on and west of a line beginning at the Florida-Alabama State line extending along U.S. Highway 231 to junction U.S. Highway 90, thence along U.S. Highway 90 to junction U.S. Highway 319, thence along U.S. Highway 319 to junction U.S. Highway 98, thence along U.S. Highway 98 to St. Teresa, Fla. The purpose of this filing is to eliminate the gateways of points in Kansas and Claremore, Okla.

No. MC 114211 (Sub-No. E739), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts* thereof, from Clay Center, Kans., to points in Iowa. The purpose of this filing is to eliminate the gateways of Beatrice and Nebraska City, Nebr.

No. MC 114211 (Sub-No. E740), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts* thereof, (except commodities the transportation of which because of size or weight requires the use of special equipment), from Maize, Kans., to points in that part of Texas on and south of a line beginning at the U.S.-Mexico Boundary line extending along U.S. Highway 377 to junction U.S. Highway 84, thence along U.S. Highway 84 to junction Interstate Highway 35, thence along Interstate Highway 35 to junction Interstate Highway 35E, thence along Interstate Highway 35E to junction U.S. Highway 75, thence along U.S. Highway 75 to the Texas-Oklahoma State line (excluding Dallas, Fort Worth, Houston, Galveston, Abilene, Sweetwater, Big Springs, Midland, Odessa, and El Paso). The purpose of this filing is to eliminate the gateway of Tulsa, Okla.

No. MC 114211 (Sub-No. E741), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts* thereof (except commodities the transportation of which, because of size or weight requires the use of special equipment), from Great Bend, Kans., to points in that part of Texas on and east of a line beginning at the Oklahoma-Texas State line extending along U.S. Highway 75 to junction Interstate Highway 35E, thence along Interstate Highway 35E to junction Interstate Highway 35, thence along Interstate Highway 35 to junction Texas Highway 85, thence along Texas Highway 85 to junction U.S. Highway 277, thence along U.S. Highway 277 to U.S.-Mexico Boundary line (except Dallas, Fort Worth, Houston, Galveston, Abilene, Sweetwater, Big Springs, Midland, Odessa and El Paso). The purpose of this filing is to eliminate the gateway of Tulsa, Okla.

No. MC 114211 (Sub-No. E742), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts* thereof, (except commodities the transportation of which because of size or weight requires the use of special equipment), from Clay Center, Kans., to points in that part of Texas on and south of a line beginning at the Arkansas-Texas State line extending along U.S. Highway 82 to junction U.S. Highway 75, thence along U.S. Highway 75 to junction Interstate Highway 35E, thence along Interstate Highway 35E to junction Texas Highway 22, thence along Texas Highway 22 to junction Texas Highway 218, thence along Texas Highway 218 to junction U.S. Highway 84, thence along U.S. Highway 84 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction U.S. Highway 285, thence along U.S. Highway 285 to junction U.S. Highway 80, thence along U.S. Highway 80 to McNary, Tex., (except Dallas, Fort Worth, Houston, Galveston, Abilene, Sweetwater, Big Springs, Midland, Odessa, and El Paso). The purpose of this filing is to eliminate the gateway of Tulsa, Okla.

No. MC 114211 (Sub-No. E743), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts* thereof, from Green Isle, Minn., to points in that part of South Dakota on and west of a line beginning at the North Dakota-South Dakota State line extending along U.S. Highway 281 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction South Dakota Highway 45, thence along South Dakota Highway 45 to junction South Dakota Highway 34, thence along South Dakota Highway 34 to junction South Dakota Highway 47, thence along South Dakota Highway 47 to junction U.S. Highway 16, thence along U.S. Highway 16 to junction U.S. Highway 83, thence along U.S. Highway 83 to the South Dakota-Nebraska State line, and to points in that part of Nebraska on and west of a line beginning at the South Dakota-Nebraska State line extending along U.S. Highway 83 to junction Nebraska Highway 2, thence along Nebraska Highway 2 to junction U.S. Highway 183, thence along U.S. Highway 183 to the Kansas-Nebraska State line, and to points in Wyoming. The purpose of this filing is to eliminate the gateways of Nassau, Minn., and points in South Dakota.

No. MC 114211 (Sub-No. E744), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts* thereof (except commodities the transportation of which because of size or weight requires the use of special equipment, and except commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459), from Maize, Kans., to points in Arkansas, Louisiana, Mississippi, Alabama, Georgia, Florida, Tennessee, Kentucky, South Carolina, North Carolina, Virginia, New Jersey, West Virginia, and to points in that part of Washington on and west of a line beginning at the Washington-Oregon State line extending along U.S. Highway 97 to the United States-Canada Boundary line, to points in that part of Oregon on and west of a line beginning at the Oregon-California State line extending along U.S. Highway 97 to the Oregon-Washington State line, to points in that part of California on and west of a line beginning at the California-Arizona State line extending along Interstate Highway 10 to junction Interstate Highway 15, thence along Interstate Highway 15 to junction California Highway 58, thence along California Highway 58 to junction U.S. Highway 395, thence along U.S. Highway 395 to junction California Highway 120, thence along California Highway 120 to junction California Highway 99, thence along California Highway 99 to junction Interstate Highway 5, thence along Interstate Highway 5 to junction U.S. Highway 97, thence along U.S. Highway 97 to the California-Oregon State line, and to points in that part of Oklahoma on and southeast of a line beginning at the Oklahoma-Arkansas State line extending along Oklahoma Highway 20 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction U.S. Highway 75, thence along U.S. Highway 75 to junction Indian National Turnpike, thence along Indian National Turnpike to Junction U.S. Highway 271, thence along U.S. Highway 271 to the Oklahoma-Texas State line. The purpose of this filing is to eliminate the gateway of Claremore, Okla.

No. MC 114211 (Sub-No. E745), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building equipment* (except in each instance, commodities which because of size or weight, requires the use of special equipment, and except commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459), from Perry, Okla., to points in Washington, Oregon, California, Nevada, Idaho, Montana, North Dakota, Minnesota, Wisconsin, Arkansas, Louisiana, Kentucky, Tennessee, Mississippi, Alabama, Georgia, Florida, South Carolina, North Carolina, Virginia, West Virginia, New Jersey; to points in that part of Oklahoma on and east of a line beginning at the Oklahoma-Missouri State line extending along U.S. Highway 66 to junction Oklahoma Highway 88, thence along Oklahoma Highway 88 to junction Oklahoma Highway 33, thence along Oklahoma Highway 33 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction U.S. Highway 64, thence along U.S. Highway 64 to the Oklahoma-Arkansas State line; to points in that part of Iowa on and north of a line beginning at the Iowa-Nebraska State line extending along U.S. Highway 275, to junction U.S. Highway 34, thence along U.S. Highway 34 to junction U.S. Highway 169, thence along U.S. Highway 169 to the Iowa-Missouri State line; to points in that part of South Dakota on and north of a line beginning at the South Dakota-Minnesota State line extending along U.S. Highway 16 to junction South Dakota Highway 37.

Thence along South Dakota Highway 37 to junction U.S. Highway 212, thence along U.S. Highway 212 to junction South Dakota Highway 79, thence along South Dakota Highway 79 to junction U.S. Highway 18, thence along U.S. Highway 18 to the South Dakota-Wyoming State line; to points in that part of Wyoming on and north of a line beginning at the Wyoming-South Dakota State line extending along U.S. Highway 18 to junction U.S. Highway 16, thence along U.S. Highway 16 to junction Wyoming Highway 59, thence along Wyoming Highway 59 to junction Wyoming Highway 387, thence along Wyoming Highway 387 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction U.S. Highway 20/26, thence along U.S. Highway 20/26 to junction Wyoming Highway 789, thence along Wyoming Highway 789 to junction Wyoming Highway 28, thence along Wyoming Highway 28 to junction U.S. Highway 187, thence along U.S. Highway 187 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Wyoming Highway 530, thence along Wyoming Highway 530 to the Wyoming-Utah State line; to points in that part of Utah on and west of a line beginning at the Utah-Wyoming State line extending along Utah Highway 44 to junction U.S. Highway 40, thence along U.S. Highway 40 to junction Utah Highway 33, thence along Utah Highway 33 to junction U.S. Highway 6/50, thence along U.S. Highway 6/50 to junction Utah Highway 10, thence along Utah Highway 10 to junction Utah Highway 4, thence along Utah Highway 4 to junction U.S. Highway 89, thence along U.S. Highway 89 to junction Utah Highway 20, thence along Utah Highway 20 to junction U.S. Highway 91, thence along U.S. Highway 91 to junction Utah Highway 14, thence along Utah Highway 14 to junction U.S. Highway 89, thence along U.S. Highway 89 to the Utah-Arizona State line; and to points in that part of Arizona on and west of a line beginning at the Utah-Arizona State line extending along U.S. Highway 89 to junction U.S. Highway 66/180, thence along U.S. Highway 66/180 to junction Arizona Highway 87, thence along Arizona Highway 87 to junction Arizona Highway 188, thence along Arizona Highway 188 to junction Arizona Highway 88, thence along Arizona High-

way 88 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction U.S. Highway 70, thence along U.S. Highway 70 to the Arizona-New Mexico State line. The purpose of this filing is to eliminate the gateway of Claremore, Okla.

No. MC 114211 (Sub-No. E746), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building equipment* (except in each instance, commodities which because of size or weight requires the use of special equipment, and except commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459, from Springfield, Ill., to points in California, Arizona, New Mexico; to points in that part of Oregon on and west of a line beginning at the Oregon-California State line extending along U.S. Highway 97 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction Oregon Highway 126, thence along Oregon Highway 126 to junction Oregon Highway 22, thence along Oregon Highway 22 to junction Interstate Highway 5, thence along Interstate Highway 5 to junction U.S. Highway 30, thence along U.S. Highway 30 to Kelso, Wash.; to points in that part of Nevada on and southwest of a line beginning at the Nevada-Utah State line extending along U.S. Highway 6 to junction U.S. Highway 93, thence along U.S. Highway 93 to junction U.S. Highway 40, thence along U.S. Highway 40 to junction Nevada Highway 49, thence along Nevada Highway 49 to junction Nevada Highway 81, thence along Nevada Highway 81 to the California-Nevada State line; to points in that part of Utah on and south of a line beginning at the Utah-Colorado State line extending along U.S. Highway 6 to junction Interstate Highway 70, thence along Interstate Highway 70 to junction Utah Highway 26, thence along Utah Highway 26 to junction U.S. Highway 6, thence along U.S. Highway 6 to the Utah-Nevada State line; to points in that part of Colorado on and south of a line beginning at the Colorado-Kansas State line extending along U.S. Highway 160 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 50, thence along U.S. Highway 50 to the Colorado-Utah State line; and to points in that part of Oklahoma on and west of a line beginning at the Oklahoma-Arkansas State line extending along U.S. Highway 70 to junction U.S. Highway 75, thence along U.S. Highway 75 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction Oklahoma Highway 20, thence along Oklahoma Highway 20 to junction Oklahoma Highway 18, thence along Oklahoma Highway 18 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Oklahoma-Kansas State line. The purpose of this filing is to eliminate the gateways of points in Kansas and Claremore, Okla.

No. MC 114211 (Sub-No. E747), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Grading, paving, and finishing machinery, equipment, parts, accessories, and attachments*, between Streator, Ill., on the one hand, and, on the other, points in South Dakota; points in that part of Minnesota on and west of a line beginning at the Iowa-Minnesota State line extending along Minnesota Highway 60 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction Minnesota Highway 7, thence along Minnesota Highway 7 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Minnesota-South Dakota State line; points in that part of Iowa on and west of a line beginning at the Nebraska-Iowa State line extending along Iowa Highway 10 to junction U.S. Highway 75, thence along U.S. Highway 75 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction Iowa Highway 60, thence along Iowa Highway 60 to the Iowa-Minnesota State line; points in that part of Nebraska on and northwest of a line beginning at the Colorado-Nebraska State line extending along Nebraska Highway 19 to junction U.S. Highway 385, thence along U.S. Highway 385 to junction Nebraska Highway 87, thence along Nebraska Highway 87 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 81, thence along U.S. Highway 81 to the Nebraska-South Dakota State line; and points in that part of Colorado on and west of a line beginning at the Nebraska-Colorado State line extending along Colorado Highway 113 to junction U.S. Highway 138, thence along U.S. Highway 138 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Colorado Highway 71, thence along Colorado Highway 71 to junction U.S. Highway 350, thence along U.S. Highway 350 to junction Interstate Highway 25, thence along Interstate Highway 25 to the Colorado-New Mexico State line. The purpose of this filing is to eliminate the gateway of Canton, S. Dak.

No. MC 114211 (Sub-No. E748), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors* (except those with vehicle beds, bed frames, and fifth wheels), *equipment* designed for use in conjunction with tractors, *attachments* for the above-described commodities, and *parts* for the above-described commodities in mixed loads with such commodities limited to commodities utilized as road building equipment, from Perry, Okla., to points in that part of Oregon on and north of a line beginning at the Washington-Oregon State line extending along U.S. Highway 395/730 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction U.S. Highway 26, thence along U.S. Highway 26 to Cannon Beach Jct., Oreg.; to points in that part of Washington on and north of a line beginning at the Montana-Washington State line extending along U.S. Highway 12 to the Washington-Oregon State line; to points in that part of Idaho on and north of a line beginning at the Idaho-Montana State line extending along U.S. Highway 12 to the Washington-Idaho State line; to points in that part of Montana on and north of a line beginning at the South Dakota-Montana State line extending along Interstate Highway 94 to Junction U.S. Highway 12, thence along U.S. Highway 12 to junction U.S. Highway 91, thence U.S. Highway 91 to junction Interstate Highway 90, thence along Interstate Highway 90 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Idaho-Montana State line; to points in that part of North Dakota on and north of a line beginning at the Minnesota-North Dakota State line extending along Interstate Highway 94 to the Montana-North Dakota State line; and to points in that part of Minnesota on and north of a line beginning at the North Dakota-Minnesota State line extending along Interstate Highway 94 to junction Minnesota Highway 210, thence along Minnesota Highway 210 to the Minnesota-Wisconsin State line. The purpose of this filing is to eliminate the gateway of points in Kansas, and that part of the Fargo, N. Dak., commercial zone, located in Moorhead, Minn.

No. MC 114211 (Sub-No. E749), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, from Grandview, Mo., to points in Washington; to points in that part of Wisconsin on and north of a line beginning at the Minnesota-Wisconsin State line extending along Wisconsin Highway 25 to junction Wisconsin Highway 35, thence along Wisconsin Highway 35 to junction Wisconsin Highway 37, thence along Wisconsin Highway 37 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction Wisconsin Highway 73, thence along Wisconsin Highway 73 to junction Wisconsin Highway 54, thence along Wisconsin Highway 54 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction U.S. Highway 141, thence along U.S. Highway 141 to junction Wisconsin Highway 29, thence along Wisconsin Highway 29 to Kewaunee, Ill.; to points in that part of North Dakota on and north of a line beginning at the South Dakota-North Dakota State line extending along U.S. Highway 12 to the Montana-North Dakota State line; to points in that part of South Dakota on and north of a line beginning at the South Dakota-Minnesota State line extending along U.S. Highway 12 to the North Dakota-South Dakota State line; to points in that part of Montana on and north of a line beginning at the North Dakota-Montana State line extending along U.S. Highway 12 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 91, thence along U.S. Highway 91 to junction Montana Highway 43, thence along Montana Highway 43 to junction U.S. Highway 93, thence along U.S. Highway 93 to the Idaho-Montana State line; to points in that part of Idaho on and north of a line beginning at the Idaho-Montana State line extending along U.S. Highway 12 to junction Idaho Highway 13, thence along Idaho Highway 13 to junction U.S. Highway 95, thence along U.S. Highway 95 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Washington-Idaho State line; and to points in that part of Oregon on and northwest of a line beginning at the Washington-Oregon State line extending along Oregon Highway 11 to junction Interstate Highway 80N, thence along Interstate Highway 80N to junction Interstate Highway 5, thence along Interstate Highway 5 to junction Oregon Highway 42, thence along Oregon Highway 42 to Coquille, Oreg. The purpose of this filing is to eliminate the gateways of Des Moines, Iowa, and Minneapolis, Minn.

No. MC 114211 (Sub-No. E750), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Road building equipment (except in each instance, commodities which because of size or weight, require the use of special equipment, and except commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459), from Deerfield, Ill., to points in Arizona, New Mexico; and to points in that part of Oklahoma on and southwest of a line beginning at the Arkansas-Oklahoma State line extending along Interstate Highway 40 to junction Muskogee Turnpike, then along Muskogee Turnpike to junction U.S. Highway 75, thence along U.S. Highway 75 to the Oklahoma-Kansas State line; to points in that part of Colorado on and south of a line beginning at the Kansas-Colorado State line extending along U.S. Highway 50 to junction Interstate Highway 25, thence along Interstate Highway 25 to junction U.S. Highway 160, thence along U.S. Highway 160 to the Colorado-New Mexico State line; to points in that part of Utah on and southwest of a line beginning at the Arizona-Utah State line extending along U.S. Highway 91 to junction Utah Highway 56, thence along Utah Highway 56 to the Utah-Nevada State line; to points in that part of Nevada on and southwest of a line beginning at the Utah-Nevada State line extending along Nevada Highway 26 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction U.S. Highway 95, thence along U.S. Highway 95 to junction Alternate U.S. Highway 95, thence along Alternate U.S. Highway 95 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction U.S. Highway 395, thence along U.S. Highway 395 to the Nevada-California State line; to points in that part of California on and west of a line beginning at the Nevada-California State line extending along U.S. Highway 395 to junction California Highway 299, thence along California Highway 299 to junction California Highway 139, thence along California Highway 139 to the California-Oregon State line; and to points in that part of Oregon on and south of a line beginning at the California-Oregon State line extending along Oregon Highway 39 to junction Oregon Highway 140, thence along Oregon Highway 140 to junction Oregon Highway 66, thence along Oregon Highway 66 to junction Interstate Highway 5, thence along Interstate Highway 5 to junction U.S. Highway 199, thence along U.S. Highway 199 to the California-Oregon State line. The purpose of this filing is to eliminate the gateways of points in Kansas, and Claremore, Okla.

No. MC 114211 (Sub-No. E751), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building equipment*, between Streator, Ill., on the one hand, and, on the other, points in Texas and Oklahoma. The purpose of this filing is to eliminate the gateway of points in Kansas.

No. MC 114211 (Sub-No. E753), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors*, with or without attachments, *tractors attachments*, and *parts* of tractors and tractor attachments when moving in mixed loads with commodities specified above, between Deerfield, Ill., on the one hand, and, on the other, points in Washington, Oregon, California, Nevada, Utah, Arizona, New Mexico, Alaska; points in that part of Idaho on and west-south-east of a line beginning at the United States-Canada International Boundary line extending along U.S. Highway 95 to junction Interstate Highway 80N, thence along Interstate Highway 80N to junction Interstate Highway 15, thence along Interstate Highway 15 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Idaho-Montana State line; points in that part of Wyoming on and southwest of a line beginning at the Montana-Wyoming State line extending along U.S. Highway 20 to junction Wyoming Highway 120, thence along Wyoming Highway 120 to junction Wyoming Highway 789, thence along Wyoming Highway 789 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction U.S. Highway 85, thence along U.S. Highway 85 to the Wyoming-Colorado State line; points in that part of Colorado on, west, and south of a line beginning at the Wyoming-Colorado State line extending along U.S. Highway 85 to junction Colorado Highway 14, thence along Colorado Highway 14 to junction U.S. Highway 6, thence along U.S. Highway 6 to the Colorado-Nebraska State line; points in that part of Nebraska on and south of a line beginning at the Colorado-Nebraska State line extending along U.S. Highway 6 to junction U.S. Highway 83.

Thence along U.S. Highway 83 to the Nebraska-Kansas State line; points in that part of Kansas on and southwest of a line beginning at the Nebraska-Kansas State line extending along U.S. Highway 83 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction U.S. Highway 69, thence along U.S. Highway 69 to the Kansas-Oklahoma State line; points in that part of Oklahoma on and west of a line beginning at the Kansas-Oklahoma State line extending along U.S. Highway 69 to junction Indian Nation Turnpike, thence along Indian Nation Turnpike to junction U.S. Highway 271, thence along U.S. Highway 271 to the Oklahoma-Texas State line; and points in that part of Texas on and west of a line beginning at the Oklahoma-Texas State line extending along U.S. Highway 271 to junction Texas Highway 49, thence along Texas Highway 49 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction U.S. Highway 69, thence along U.S. Highway 69 to the Gulf of Mexico, restricted to the transportation of commodities originating at or destined to Topeka, Kans., except commodities in foreign commerce. The purpose of this filing is to eliminate the gateway of Topeka, Kans.

No. MC 114211 (Sub-No. E780), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled farm machinery and parts thereof*, from Independence, Mo., to points in Washington; to points in that part of North Dakota on and northwest of a line beginning at the Minnesota-North Dakota State line extending along Interstate Highway 94 to junction U.S. Highway 281, thence along U.S. Highway 281 to the North Dakota-South Dakota State line, thence along the North Dakota-South Dakota State line to junction U.S.

XUM

Highway 12, thence along U.S. Highway 12 to the North Dakota-Minnesota State line; to points in that part of South Dakota on and north of a line beginning at the North Dakota-South Dakota State line extending along U.S. Highway 281 to junction U.S. Highway 12, thence along U.S. Highway 12 to the South Dakota-North State line; to points in that part of Wisconsin on and north of a line beginning at Kewaunee, Wis., extending along Wisconsin Highway 29 to junction Wisconsin Highway 25, thence along Wisconsin Highway 25 to the Wisconsin-Minnesota State line; to points in that part of Montana on and north of a line beginning at the North Dakota-Montana State line extending along U.S. Highway 12 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Montana-Idaho State line; to points in that part of Idaho on and north of a line beginning at the Montana-Idaho State line extending along U.S. Highway 12 to the Idaho-Washington State line; and to points in that part of Oregon on and northwest of a line beginning at the Washington-Oregon State line extending along Oregon Highway 11 to junction Interstate Highway 80N, thence along Interstate Highway 80N to junction Interstate Highway 5, thence along Interstate Highway 5 to junction Oregon Highway 38, thence along Oregon Highway 38 to junction U.S. Highway 101, thence along U.S. Highway 101 to Coquille Pt., Oreg. The purpose of this filing is to eliminate the gateways of Des Moines, Iowa, and Minneapolis, Minn.

No. MC 114211 (Sub-No. E781), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, the transportation of which because of size or weight, requires special equipment, between Independence, Mo., on the one hand, and, on the other, points in North Dakota, Minnesota, and points in that part of Illinois on and north of a line beginning at the Iowa-Illinois State line extending along U.S. Highway 136 to junction U.S. Highway 67, thence along U.S. Highway 167 to junction Illinois Highway 125, thence along Illinois Highway 125 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction U.S. Highway 45, Iowa-Illinois Statel ine extending along thence along U.S. Highway 45 to junction Illinois Highway 16, thence along Illinois Highway 16 to junction Illinois Highway 1, thence along Illinois Highway 1 to junction U.S. Highway 40, thence along U.S. Highway 40 to the Illinois-Indiana State line. The purpose of this filing is to eliminate the gateway of points in Iowa.

No. MC 114211 (Sub-No. E782), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements and parts* for agricultural implements, the transportation of which, because of size or weight, requires special equipment, between Independence, Mo., on the one hand, and, on the other, points in South Dakota; points in that part of Colorado on and northwest of a line beginning at the Colorado-Kansas State line extending along U.S. Highway 24 to junction Colorado Highway 71, thence along Colorado Highway 71 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 350, thence along U.S. Highway 350 to junction Interstate Highway 25, thence along Interstate Highway 25 to the New Mexico-Colorado State line; points in that part of Kansas on and north of a line beginning at the Colorado-Kansas State line extending along U.S. Highway 24 to junction U.S. Highway 383, thence along U.S. Highway 383 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction U.S. Highway 183, thence along U.S. Highway 183 to the Kansas-Nebraska State line; and points in that part of Iowa on and west of a line beginning at the South Dakota-Iowa State line extending along U.S. Highway 75 to junction Iowa Highway 60, thence along Iowa Highway 60 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction U.S. Highway 59, thence along U.S. Highway 59 to the Minnesota-Iowa State line. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E783), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, between Richardton N. Dak., on the one hand, and, the other, points in that part of Nebraska on and east of a line beginning at the South Dakota-Nebraska State line extending along U.S. Highway 81 to the Nebraska-Kansas State line, restricted against the transportation of commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling and restricted against the transportation of those commodities described in *Mercer Extension—Oil Field Commodities*, 74 M.C.C. 459. The purpose of this filing is to eliminate the gateways of Nassau, Minn., and points in South Dakota.

No. MC 114211 (Sub-No. E784), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors, road making machinery and contractors' equipment*, from Mitchell, S. Dak., to points in Maine, Vermont, New Hampshire, Connecticut, Rhode Island, Massachusetts, New York, Pennsylvania, Virginia, Maryland, Delaware, District of Columbia, and New Jersey, restricted to the transportation of traffic originating at or destined to the plant sites, warehouse sites, and experimental farms of Deere and Company. The purpose of this filing is to eliminate the gateway of Dubuque, Iowa.

No. MC 114211 (Sub-No. E785), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors, road making and contractors' equipment*, from Madison, S. Dak., to points in Virginia, Maryland, District of Columbia, Delaware, New Jersey, Pennsylvania, Connecticut, Rhode Island, New York, Massachusetts, Vermont, New Hampshire, and Maine, restricted to the transportation of traffic originating at or destined to the plant sites, warehouse sites, and experimental farms of Deere and Company. The purpose of this filing is to eliminate the gateway of Dubuque, Iowa.

No. MC 114211 (Sub-No. E786), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, between Richardton N. Dak., on the one hand, and, the other, points in that part of Nebraska on and east of a line beginning at the South Dakota-Nebraska State line extending along U.S. Highway 81 to the Nebraska-Kansas State line, restricted against the transportation of commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling and restricted against the transportation of those commodities described in *Mercer Extension—Oil Field Commodities*, 74 M.C.C. 459. The purpose of this filing is to eliminate the gateways of Nassau, Minn., and points in South Dakota.

No. MC 114211 (Sub-No. E787), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors, road making machinery and contractors' equipment*, from Mitchell, S. Dak., to points in Maine, Vermont, New Hampshire, Connecticut, Rhode Island, Massachusetts, New York, Pennsylvania, Virginia, Maryland, Delaware, District of Columbia, and New Jersey, restricted to the transportation of traffic originating at or destined to the plant sites, warehouse sites, and experimental farms of Deere and Company. The purpose of this filing is to eliminate the gateway of Dubuque, Iowa.

No. MC 114211 (Sub-No. E788), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof* (except in each instance, commodities which because of size or weight require the use of special equipment, and except commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459), from Richardton, N. Dak., to points in Arkansas, Louisiana, Mississippi, Alabama, Florida; to points in that part of South Carolina on and south of a line beginning at the Georgia-South Carolina State line extending along U.S. Highway 76 to junction U.S. Highway 178, thence along U.S. Highway 178 to junction U.S. Highway 378, thence along U.S. Highway 378 to junction U.S. Highway 501, thence along U.S. Highway 501 to Myrtle Beach, S.C.; to points in that part of Georgia on and south of a line beginning at the North Carolina-Georgia State line extending along Georgia Highway 11 to junction U.S. Highway 76, thence along U.S. Highway 76 to the Georgia-South Carolina State line; to points in that part of Tennessee on and west of a line beginning at the Kentucky-Tennessee State line extending along Tennessee Highway 69 to junction Interstate Highway 40, thence along Interstate Highway 40 to junction Tennessee Highway 13, thence along Tennessee Highway 13 to junction Tennessee Highway 50, thence along Tennessee Highway 50 to junciton U.S. Highway 451, thence along U.S. Highway 431 to junction U.S. Highway 64, thence along U.S. Highway 64 to the Tennessee-Georgia State line; and to points in that part of Oklahoma on and east of a line beginning at the Kansas-Oklahoma State line extending along U.S. Highway 75 to junction Interstate Highway 44, thence along Interstate Highway 44 to junction Bailey Turnpike, thence along Bailey Turnpike to the Oklahoma-Texas State line. The purpose of this filing is to eliminate the gateways of points in Iowa; Beatrice and Nebraska City, Nebr.; and Claremore, Okla.

No. MC 114211 (Sub-No. E789), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm tractors* (except those with vehicle beds, bed frames, and fifth wheels), *equipment* designed for use in conjunction with farm tractors, *parts thereof*, the transportation of which, because of size or weight, requires special equipment, from Springfield, Mo., to points in Washington; to points in that part of Minnesota on and northwest of a line beginning a the North Dakota-Minnesota State line extending along U.S. Highway 10 to junction Minnesota Highway 34, thence along Minnesota Highway 34 to junction U.S. Highway 71, thence along U.S. Highway 71 to the U.S.-Canada International Boundary line; to points in that part of North Dakota on, north, and west of a line beginning at the Minnesota-North Dakota State line extending along Interstate Highway 94 to junction North Dakota Highway 3, thence along North Dakota Highway 3 to the North Dakota-South Dakota State line; to points in that part of Montana on and north of a line beginning at the North Dakota-Montana State line extending along U.S. Highway 12 to junction Interstate Highway 94, thence along Interstate Highway 94 to junction Interstate Highway 90, thence along Interstate Highway 90 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Montana-Idaho State line; to points in that part of Idaho on and north of a line beginning at the Montana-Idaho State line extending along U.S. Highway 12 to the Washington-Idaho State line; and to points in that part of Oregon on and northwest of a line beginning at the Washington-Oregon State line extending along Oregon Highway 11 to junction Interstate Highway 80N, thence along Interstate Highway 80N to junction Interstate Highway 5, thence along Interstate Highway 5 to junction U.S. Highway 199, thence along U.S. Highway 199 to the Oregon-California State line. The purpose of this filing is to eliminate the gateways of points in Iowa, and Fargo, N. Dakota.

No. MC 114211 (Sub-No. E790), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery*, between Richardton, N. Dak., on the one hand, and, on the other, points in that part of Oklahoma on and east of a line beginning at the Kansas-Oklahoma State line extending along U.S. Highway 281 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction Oklahoma Highway 19, thence along Oklahoma Highway 19 to junction U.S. Highway 283, thence along U.S. Highway 283 to the Oklahoma-Texas State line, and points in that part of Kansas on and east of a line beginning at the Nebraska-Kansas State line extending along U.S. Highway 81 to junction Kansas Highway 9, thence along Kansas Highway 9 to junction Kansas Highway 14, thence along Kansas Highway 14 to junction U.S. Highway 156, thence along U.S. Highway 156 to junction U.S. Highway 281, thence along U.S. Highway 281 to the Kansas-Oklahoma State line. The purpose of this filing is to eliminate the gateways of points in Iowa and Beatrice and Nebraska City, Nebr.

No. MC 114211 (Sub-No. E791), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, between Springfield, Mo., on the one hand, and, on the other, points in Minnesota, North Dakota, and points in that part of Illinois on and north of a line beginning at the Iowa-Illinois State line extending along U.S. Highway 136 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction Illinois Highway 9, thence along Illinois Highway 9 to the Illinois-Indiana State line. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa.

No. MC 114211 (Sub-No. E792), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled tractors, road making machinery, and contractors' equipment and supplies*, from Mitchell, S. Dak., to points in Alabama, Georgia, Florida, South Carolina, North Carolina, Kentucky, West Virginia, Indiana, Ohio, Michigan; to points in that part of Louisiana on and east of a line beginning at the Louisiana-Mississippi State line extending along Interstate Highway 55 to junction Interstate Highway 12, thence along Interstate Highway 12 to junction Interstate Highway 10, thence along Interstate Highway 10 to junction U.S. Highway 167, thence along U.S. Highway 167 to junction Louisiana Highway 82, thence along Louisiana Highway 82 to junction Louisiana Highway 333, thence along Louisiana Highway 333 to the Gulf of Mexico; to points in that part of Mississippi on and east of a line beginning at the Mississippi-Tennessee State line extending along U.S. Highway 45 to junction Natchez Trace National Parkway, thence along the Natchez Trace National Parkway to junction Interstate Highway 55, thence along Interstate Highway 55 to the Mississippi-Louisiana State line; to points in that part of Tennessee on and east of a line beginning at the Tennessee-Missouri State line extending along Tennessee Highway 79 to junction Tennessee Highway 78, thence along Tennessee Highway 78 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction Tennessee Highway 20, thence along Tennessee Highway 20 to junction U.S. Highway 45, thence along U.S. Highway 45 to the Tennessee-Missouri State line; to points in that part of Missouri on and east of a line beginning at the Missouri-Illinois State line extending along Missouri Highway 146 to junction Interstate Highway 55, thence along Interstate Highway 55 to junction Missouri Highway 84, thence along Missouri Highway 84 to the Missouri-Tennessee State line.

To points in that part of Illinois on and east of a line beginning at the Illinois-Wisconsin State line extending

along Illinois Highway 26 to junction Illinois Highway 29, thence along Illinois Highway 29 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction Illinois Highway 127, thence along Illinois Highway 127 to junction Illinois Highway 146, thence along Illinois Highway 146 to the Illinois-Missouri State line; to points in that part of Wisconsin on and northeast of a line beginning at the Wisconsin-Minnesota State line extending along U.S. Highway 14 to junction Wisconsin Highway 69, thence along Wisconsin Highway 69 to the Wisconsin-Illinois State line; to points in that part of Minnesota on and east of a line beginning at the United States-Canada International Boundary line extending along U.S. Highway 71 to junction Minnesota Highway 6, thence along Minnesota Highway 6 to junction Minnesota Highway 286, thence along Minnesota Highway 286 to junction Minnesota Highway 38, thence along Minnesota Highway 38 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction Minnesota Highway 210, thence along Minnesota Highway 210 to junction Minnesota Highway 371, thence along Minnesota Highway 371 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 61, thence along U.S. Highway 61 to the Minnesota-Wisconsin State line. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E793), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts* thereof (except commodities requiring special equipment), between Richardton, N. Dak., on the one hand, and, on the other, points in that part of South Dakota on and east of a line beginning at the Nebraska-South Dakota State line extending along U.S. Highway 81 to junction South Dakota Highway 23, thence along South Dakota Highway 23 to junction South Dakota Highway 15, thence along South Dakota Highway 15 to the North Dakota-South Dakota State line. The purpose of this filing is to eliminate the gateway of Nassau, Minn.

No. MC 114211 (Sub-No. E796), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled tractors, road-making machinery and contractors' equipment and supplies*, from points in that part of South Dakota on and north of a line beginning at the South Dakota-Minnesota State line extending along U.S. Highway 14 to junction Interstate Highway 90, thence along Interstate Highway 90 to junction U.S. Highway 16, thence along U.S. Highway 16 to the Wyoming-South Dakota State line, to points in that part of Missouri on and east of a line beginning at the Iowa-Missouri State line extending along U.S. Highway 63 to junction Missouri Highway 17, thence along Missouri Highway 17 to the Arkansas-Missouri State line. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E797), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building equipment* (except in each instance, commodities which because of size or weight requires special equipment and except commodities described in *Mercer Extension—Oil Field Commodities*, 74 M.C.C. 459), from points in Illinois, to points in Arizona, New Mexico, to points in that part of Nevada on and southwest of a line beginning at the Nevada-Arizona State line extending along U.S. Highway 91 to junction U.S. Highway 93, thence along U.S. Highway 93 to junction Nevada Highway 25, thence along Nevada Highway 25 to junction U.S. Highway 6, thence along U.S. Highway 6 to the Nevada-California State line and to points in that part of California on and southwest of a line beginning at the California-Nevada State line extending along U.S. Highway 6 to junction California Highway 120, thence along California Highway 120 to junction Interstate Highway 5, thence along Interstate Highway 5 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction California Highway 128, thence along California Highway 128 to junction U.S. Highway 101, thence along U.S. Highway 101 to junction California Highway 116, thence along California Highway 116 to California Highway 1 to Jenner, Calif. The purpose of this filing is to eliminate the gateways of points in Kansas and Claremore, Okla.

No. MC 114211 (Sub-No. E798), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building equipment* (except in each instance, commodities which because of size or weight requires special equipment and except commodities described in *Mercer Extension—Oil Field Commodities*, 74 M.C.C. 459), from points in that part of Illinois on and south of a line beginning at the Illinois-Missouri State line extending along U.S. Highway 24 to junction U.S. Highway 136, thence along U.S. Highway 136 to junction Illinois Highway 10, thence along Illinois Highway 10 to junction Interstate Highway 74, thence along Interstate Highway 74 to the Illinois-Indiana State line, to points in that part of Oklahoma on and west of a line beginning at the Oklahoma-Texas State line extending along U.S. Highway 271 to junction Oklahoma Highway 3, thence along Oklahoma Highway 3 to junction U.S. Highway 281, thence along U.S. Highway 281 to junction U.S. Highway 64, thence along U.S. Highway 64 to junction U.S. Highway 283, thence along U.S. Highway 283 to the Oklahoma-Kansas State line and to points in that part of California on and south of a line beginning at the California-Nevada State line extending along Interstate Highway 80 to San Francisco, Calif., points in that part of Utah on and south of a line beginning at the Nevada-Utah State line extending along U.S. Highway 50 to junction Utah Highway 26, thence along Utah Highway 26 to junction Interstate Highway 70, thence along Interstate Highway 70 to junction U.S. Highway 163, thence along U.S. Highway 163 to junction Utah Highway 46, thence along Utah Highway 46 to the Utah-Colorado State line, points in that part of Nevada on and south of a line beginning at the California-Nevada State line extending along Interstate Highway 80 to junction U.S. Highway 40, thence along U.S. Highway 40 to junction U.S. Alternate Highway 95, thence along U.S. Alternate Highway 95 to junction U.S. Highway 50, thence along U.S. Highway 50 to the Nevada-Utah State line. The purpose of this filing is to eliminate the gateways of points in Kansas and Claremore, Okla.

No. MC 114211 (Sub-No. E799), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Self-propelled tractors, road-making machinery and contractors' equipment and supplies* each weighing 15,000 pounds or more, (2) *tractors, road-making machinery and contractors' equipment and supplies* which because of size or weight require special equipment, between points in that part of Illinois on a line beginning at the Indiana-Illinois State line extending along Interstate Highway 74 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction U.S. Highway 136, thence along U.S. Highway 136 to the Iowa-Illinois State line, on the one hand, and, on the other, points in that part of Missouri on and north of a line beginning at the Illinois-Missouri State line extending along U.S. Highway 36 to junction U.S. Highway 61, thence along U.S. Highway 61 to junction Missouri Highway 19, thence along Missouri Highway 19 to junction Missouri Highway 22, thence along Missouri Highway 22 to junction U.S. Highway 54, thence along U.S. Highway 54 to junction Missouri Highway 73, thence along Missouri Highway 73 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction U.S. Highway 60, thence along U.S. Highway 60 to the Oklahoma-Missouri State line. The purpose of this filing is to eliminate the gateway of points in Iowa.

No. MC 114211 (Sub-No. E800), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building equipment* (except commodities which because of size or weight requires the use of special equipment and except commodities described in *Mercer Extension—Oil Field Commodities*, 74 M.C.C. 459), between points in Illinois, on the one hand, and, on the other, points in that part of Texas on and west of a line beginning at the Texas-Oklahoma State line extending along U.S. Highway 75 to junction Interstate Highway 35E, thence along Interstate Highway 35E to junction Interstate Highway 35, thence along Interstate Highway 35 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction Interstate Highway 37, thence along Interstate Highway 37 to and ending at Corpus Christi, Tex., points in that part of Oklahoma on and west of a line beginning at the Oklahoma-Missouri State line extending along Interstate Highway 44 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction U.S. Highway 75, thence along U.S. Highway 75 to the Oklahoma-Texas State line. The purpose of this filing is to eliminate the gateway of points in Kansas.

No. MC 114211 (Sub-No. E803), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled farm machinery and parts thereof*, from points in that part of Illinois on and north of a line beginning at the Indiana-Illinois State line extending along U.S. Highway 34 to junction Interstate Highway 74, thence along Interstate Highway 74 to the Indiana-Illinois State line, to points in that part of California on and north of a line beginning at the United States-Mexico Boundary line extending along U.S. Highway 395 to junction Interstate Highway 15, thence along Interstate Highway 15 to the California-Nevada State line, to points in that part of Utah on and west of a line beginning at the Idaho-Utah State line extending along U.S. Highway 91, thence along U.S. Highway 91 to junction U.S. Highway 89, thence along U.S. Highway 89 to junction Interstate Highway 215, thence along Interstate Highway 215 to junction Interstate Highway 15, thence along Interstate Highway 15 to the California-Nevada State line extending along Interstate Highway 15 to the Arizona-Nevada State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E804), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled tractors, road making machinery* and *contractor's equipment* and *supplies*, from points in that part of Illinois on and north of a line beginning at the Iowa-Illinois State line extending along U.S. Highway 34 to Interstate Highway 74, thence along Interstate Highway 74 to the Indiana-Illinois State line, to points in that part of Utah on and west of a line beginning at the Idaho-Utah State line extending along U.S. Highway 91 to junction U.S. Highway 89, thence along U.S. Highway 89 to Interstate Highway 215, thence along Interstate 215 to junction Interstate 15, thence along Interstate 15 to the Arizona-Utah State line; points in that part of Nevada on and north of a line beginning at the California-Nevada State line extending along U.S. 91 Interstate 15 to the Nevada-Utah State line; points in that part of California on and north of a line at the United States-Mexico Boundary line extending along U.S. Highway 395 to junction Interstate 15, thence along Interstate Highway 15 to the California-Nevada State line. The purpose of this filing is to eliminate the gateway of Minneapolis, Minnesota.

No. MC 114211 (Sub-No. E805), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* from points in Iowa, to points in that part of Texas on, west and north of a line beginning at the Oklahoma-Texas State line extending along U.S. Highway 62 to junction U.S. Highway 83, thence along U.S. Highway 83 to junction U.S. Highway 84, thence along U.S. Highway 84 to U.S. 67, thence along U.S. 67 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction U.S. Highway 281, thence along U.S. Highway 281 to junction U.S. Highway 87, thence along U.S. Highway 87 to Port Lavaca, Texas, with no transportation for compensation on return, except as otherwise authorized, restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateway of Beatrice and Nebraska City, Nebraska.

No. MC 114211 (Sub-No. E806), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Contractors' equipment*, between points in Illinois, on the one hand, and, in the other, points in South Dakota, restricted against operations in foreign commerce. The purpose of this filing is to eliminate the gateway of Garner, Iowa.

No. MC 114211 (Sub-No. E807), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, from points in that part of Iowa on and north of a line beginning at the Illinois-Iowa State line extending along U.S. Highway 20 to junction U.S. Highway 71, thence along U.S. Highway 71 to the Minnesota-Iowa State line, to points in Kansas. The purpose of this filing is to eliminate the gateway of Ft. Dodge, Iowa.

No. MC 114211 (Sub-No. E808), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts therefor* (except in each instance, commodities which because of size or weight require the use of special equipment and except commodities described in *Mercer Extension—Oil Field Commodities*, 74 M.C.C. 459), from points in Iowa to points in that part of New Mexico on and west of a line beginning at the Texas-New Mexico State line and extending along U.S. Highway 285 to the junction of U.S. Highway 66, thence along U.S. Highway 66 to junction Interstate Highway 40, thence along Interstate Highway 40 to the New Mexico-Arizona State line; to points in that part of Arizona on and south of a line beginning at the New Mexico-Arizona State line, extending along Interstate Highway 40 to the Arizona-California State line; and to points in that part of California on and south of a line beginning at the Arizona-California State line extending along Interstate Highway 40 to the junction of California Highway 58, thence along California Highway 58 to the junction of California Highway 99, thence along California Highway 99 to the junction of California Highway 166, thence along California Highway 166 to Santa Maria, Calif., with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateways of Omaha and Beatrice, Nebr., and Claremore, Okla.

No. MC 114211 (Sub-No. E809), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled grading, paving, and finishing machinery, equipment, parts, accessories, and attachments*, from points in California, to points in that part of Illinois north and east of a line beginning at the Iowa-Illinois State line extending along U.S. Highway 20 to junction Illinois Highway 26, thence along Illinois Highway 26 to junction Illinois Highway 64,

thence along Illinois Highway 64 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction Illinois Highway 18, thence along Illinois Highway 18 to junction Illinois Highway 17, thence along Illinois Highway 17 to the Indiana-Illinois State line, points in that part of Indiana on, north, and east of a line from the Illinois-Indiana State line extending along Indiana Highway 10 to junction Indiana Highway 110, thence along Indiana Highway 110 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction Indiana Highway 14, thence along Indiana Highway 14 to junction U.S. Highway 421, thence along U.S. Highway 421 to junction Indiana Highway 14, thence along Indiana Highway 14 to junction U.S. Highway 31, thence along U.S. Highway 31 to Indiana Highway 114, thence along Indiana Highway 114 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction U.S. Highway 27/33, thence along U.S. Highway 27/33 to junction U.S. Highway 33, thence along U.S. Highway 33 to the Indiana-Ohio State line, points in that part of Ohio north and east of a line beginning at the Indiana-Ohio State line extending along U.S. Highway 33 to the Ohio-West Virginia State line, points in that part of West Virginia north and east of a line beginning at the Ohio-West Virginia State line, extending along U.S. Highway 33 to junction Interstate Highway 77, thence along Interstate Highway 77 to junction U.S. Highway 21, thence along U.S. Highway 21 to junction Interstate Highway 64/U.S. Highway 60, thence along Interstate Highway 65/U.S. Highway 60 to the West Virginia-Virginia State line, and to points in Michigan, Wisconsin, the District of Columbia, Maine, Vermont, New Hampshire, and Rhode Island, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateways of Canton, S. Dak., and Minneapolis, Minn.

No. MC 114211 (Sub-No. E810), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery*, from points in that part of Minnesota on, west, and north of a line beginning at the Minnesota-Iowa State line extending along U.S. Highway 169 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Minnesota-Wisconsin State line to points in Missouri. The purpose of this filing is to eliminate the gateway of Ft. Dodge, Iowa.

No. MC 114211 (Sub-No. E811), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe* (other than pipe used in or in connection with the discovery, development, production, refining, manufacturing, processing, storage, transmission, and distribution of natural gas, and petroleum and their products, and by-products), and fittings and accessories therefor when moving with such pipe, from points in that part of Missouri north of a line beginning at the Kansas-Missouri State line and extending along U.S. Highway 24/40 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction U.S. Highway 50, thence along U.S. Highway 50 to the Illinois-Missouri State line, to points in Arizona, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E812), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, from points in that part of Iowa on, north, and east of a line beginning at the Iowa-Illinois State line extending along U.S. Highway 34 to junction U.S. Highway 61, thence along U.S. Highway 61 to junction Iowa Highway 92, thence along Iowa Highway 92 to junction U.S. Highway 218, thence along U.S. Highway 218 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction Interstate Highway 35, thence along Interstate Highway 35 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction Iowa Highway 9, thence along Iowa Highway 9 to junction Iowa Highway 4, thence Iowa Highway 4 to the Minnesota-Iowa State line, to points in that part of Colorado on and northwest of a line beginning at the Wyoming-Colorado State line extending along Colorado Highway 13 to junction U.S. Highway 40, thence along U.S. Highway 40 to junction Interstate Highway 25, thence along Interstate Highway 25 to the Colorado-New Mexico State line. The purpose of this filing is to eliminate the gateways of Fort Dodge, Iowa, and Beatrice, Nebr.

No. MC 114211 (Sub-No. E813), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Tractors* (except those with vehicle beds, bed frames, and fifth wheels), (2) *equipment* designed for use in conjunction with tractors, (3) *attachments* for the above-described commodities, and (4) *parts* of the commodities in (1) through (3) above, in mixed loads with such commodities, from points in that part of Minnesota on and south of a line beginning at the United States-Canada International Boundary line, to points in Washington, Oregon, Idaho, to points in that part of California on and north of a line beginning at the Nevada-California State line extending along Interstate Highway 40 to junction Interstate Highway 15, thence along Interstate Highway 15 to the Pacific Ocean, to points in that part of Nevada on and north of a line beginning at the Utah-Nevada State line extending along New Mexico Highway 30 to junction U.S. Highway 40, thence along U.S. Highway 40 to west junction Nevada Highway 21, thence along Nevada 21 south to junction Nevada Highway 91, thence along Nevada Highway 91 west to junction New Mexico Highway 23, thence along New Mexico Highway 23 to junction U.S. Highway 95, thence along U.S. Highway 95 to junction Nevada Highway 31, thence along Nevada Highway 31 to the California-Nevada State line; to points in that part of Montana on and north of a line beginning at the Montana-North Dakota State line extending along U.S. Highway 12 to junction Interstate Highway 94, thence along Interstate Highway 94 west to junction Interstate Highway 90, thence along Interstate Highway 90 to junction U.S. Highway 89, thence along U.S. Highway 80 to the Washington-Montana State line, with no transportation of compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateways of that part of the Fargo, N. Dak., commercial zone located in Moorhead, Minn.

No. MC 114211 (Sub-No. E814), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural machinery and implements*, other than hand and parts thereof when transported with such agricultural machinery and implements as described in Sections B and C of Appendix XII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, (except those requiring the use of special equipment), from Corpus Christi, Tex., to points in Michigan, with no transportation for compensation on return except as otherwise authorized restricted against movement to oil field locations and further restricted against the transportation of commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling. The purpose of this filing is to eliminate the gateway of Plymouth and Beatrice, Nebr.

No. MC 114211 (Sub-No. E815), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural machinery and implements*, and parts, the transportation of which, because of size or weight, requires special equipment, from points in that part of Missouri on and west of a line beginning at the Iowa-Missouri State line extending along Missouri Highway 5 to

junction U.S. Highway 36, thence along U.S. Highway 36 to junction Missouri Highway 11, thence along Missouri Highway 11 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction Missouri Highway 41, thence along Missouri Highway 41 to junction U.S. Highway 65, thence along U.S. Highway 65 to the Arkansas-Missouri State line; to points in that part of Wisconsin on and north of a line beginning at the Wisconsin-Minnesota State line extending along U.S. Highway 63 to junction Interstate Highway 94, thence along Interstate Highway 94 to junction Wisconsin Highway 29, thence along Wisconsin Highway 29 to junction Wisconsin Highway 52, thence along Wisconsin Highway 52 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction U.S. Highway 8, thence along U.S. Highway 8 to junction Wisconsin Highway 101, thence along Wisconsin Highway 101 to junction Wisconsin Highway 70, thence along Wisconsin Highway 70 to junction U.S. Highway 2, thence along U.S. Highway 2 to the Michigan-Wisconsin State line. The purpose of this filing is to eliminate the gateway of Fort Dodge, Iowa.

No. MC 114211 (Sub-No. E1017), filed July 3, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled rollers*, from Mitchell, S. Dak., to points in Connecticut and Massachusetts. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E1034), filed July 3, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 204, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building equipment*, between Madison, S. Dak., on the one hand, and, on the other, points in Texas and Oklahoma. The purpose of this filing is to eliminate the gateway of points in Kansas.

No. MC 114211 (Sub-No. E1038), filed July 3, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 204, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building equipment*, from Thief River Falls, Minn., to points in Texas and Oklahoma. The purpose of this filing is to eliminate the gateway of points in Kansas.

No. MC 114211 (Sub-No. E1039), filed July 3, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, from Armstrong, Iowa, to points in Texas. The purpose of this filing is to eliminate the gateway of Beatrice and Nebraska City, Nebr.

No. MC 114211 (Sub-No. E1040), filed July 3, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled farm machinery and parts thereof*, from Thief River Falls, Minn., to points in New York. The purpose of this filing is to eliminate the gateway of the plant site of the Stinar Corp., located at or near Minneapolis, Minn.

No. MC 114211 (Sub-No. E1042), filed July 3, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Hod buggies and self-propelled sweepers*, from Thief River Falls, Minn., to points in New York, Massachusetts, Connecticut, New Jersey, Pennsylvania, Delaware, Maryland, and Virginia. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E1047), filed July 3, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, from Thief River Falls, Minn., to points in Colorado, Kansas, and Oklahoma. The purpose of this filing is to eliminate the gateway of points in Iowa, Beatrice & Nebraska City, Nebr.

No. MC 114211 (Sub-No. E1057), filed July 3, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building equipment*, from Green Isle, Minn., to points in Texas and Oklahoma. The purpose of this filing is to eliminate the gateway of Topeka, Kans.

No. MC 114211 (Sub-No. E1062), filed July 3, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled tractors, road-making machinery and contractors' equipment and supplies*, from Barnesville, Minn., to points in New York. The purpose of this filing is to eliminate the gateway of the plant site of the Stinar Corporation at Minneapolis, Minn.

No. MC 114211 (Sub-No. E1063), filed July 3, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled rollers* from Barnesville, Minn., to points in Massachusetts and Connecticut. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E1064), filed July 3, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Hod buggies and self-propelled sweepers*, from Barnesville, Minn., to points in New York, Massachusetts, Connecticut, New Jersey, Pennsylvania, Maryland, Delaware and Virginia. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E1085), filed July 3, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled rollers* from Madison, South Dakota to points in Connecticut and Massachusetts. The purpose of this filing is to eliminate the gateway of Minneapolis, Minnesota.

No. MC 114211 (Sub-No. E1086), filed July 3, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled farm machinery* and *parts* thereof, except commodities the transportation of which because of size or weight requires the use of special equipment, from Madison, South Dakota to points in New York. The purpose of this filing is to eliminate the gateway of the plant site of the Stinar Corporation located at or near Minneapolis, Minnesota and Nassau, Minnesota.

No. MC 114211 (Sub-No. E1087), filed July 3, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled farm machinery* and *parts* thereof, except commodities the transportation of which because of size or weight requires the use of special equipment, from Mitchell, South Dakota to points in New York. The purpose of this filing is to eliminate the gateway of the plant site of the Stinar Corporation located at or near Minneapolis, Minnesota and Nassau, Minnesota.

No. MC 114211 (Sub-No. E1091), filed July 3, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* between Great Bend, Kansas on the one hand, and, on the other points in Iowa. The purpose of this filing is to eliminate the gateway of Beatrice and Nebraska City, Nebraska.

No. MC 114211 (Sub-No. E1092), filed July 3, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Hod buggies* and *self-propelled sweepers* from Madison, South Dakota to points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, and Virginia. The purpose of this filing is to eliminate the gateway of Minneapolis, Minnesota.

No. MC 114211 (Sub-No. E1097), filed July 3, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Grading, paving*, and *finishing machinery, equipment, parts, accessories*, and *attachments*, between Streator, Illinois on the one hand, and, on the other, points in Wyoming restricted against the transportation of commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling and restricted against the transportation of those commodities described in *Mercer Extension—Oil Field Commodities*, 74 M.C.C. 459. The purpose of this filing is to eliminate the gateway of Canton, South Dakota.

No. MC 114211 (Sub-No. E1114), filed July 3, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, between Canton, Ill., on the one hand, and, on the other, points in Nebraska and South Dakota, restricted against the transportation of commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling, and restricted against the transportation of those commodities described in *Mercer Extension—Oil Field Commodities*, 74 M.C.C. 459. The purpose of this filing is to eliminate the gateways of Council Bluffs, Iowa, and Omaha, Nebr.

No. MC 114211 (Sub-No. E1122), filed July 3, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery*, between Enid, Okla., on the one hand, and, on the other, points in Iowa. The purpose of this filing is to eliminate the gateways of Beatrice and Nebraska City, Nebr.

No. MC 114211 (Sub-No. E1126), filed July 3, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled tractors, road making machinery, and contractors' equipment and supplies*, from Pueblo, Colo., to points in New York. The purpose of this filing is to eliminate the gateway of the plant site of the Stinar Corporation located at or near Minneapolis, Minn.

No. MC 114211 (Sub-No. E1152), filed July 3, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building equipment*, between Enid, Okla., on the one hand, and, on the other, points in Illinois, Iowa, Minnesota, South Dakota, Nebraska, and Colorado. The purpose of this filing is to eliminate the gateway of points in Kansas.

No. MC 114211 (Sub-No. E1068), filed July 3, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, except commodities the transportation of which because of size or weight, requires the use of special equipment or special handling, from Barnesville, Minn., to points in Nebraska and Wyoming. The purpose of this filing is to eliminate the gateways of Nassau, Minn., and points in South Dakota.

No. MC 114211 (Sub-No. E1074), filed July 3, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled farm machinery and parts thereof*, from Green Island, Minn., to points in New York. The purpose of this filing is to eliminate the gateway of the plant site of the Stinar Corporation located at or near Minneapolis, Minn.

No. MC 117344 (Sub-No. E37), filed May 22, 1974. Applicant: THE MAXWELL CO., 10380 Evensdale Drive, Cincinnati, Ohio 45215. Applicant's representative: James R. Stiverson, 50 W. Broad St., Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lacquers, paints, resins, stains, varnishes, and plastics*, in bulk, in tank vehicles, from Dayton, Ohio, to points in Alabama, Arkansas; those in Georgia on and south of a line beginning at Columbus, Georgia, and extending east along U.S. Highway 280 to its junction with Georgia Highway 26, thence east along Georgia Highway 26 to Perry, Ga., thence southeast along U.S. Highway 341 to Brunswick, Illinois on and south of U.S. Highway 460 (except points in the St. Louis, Mo.-St. Louis., Ill., commercial zone as defined by the Commission), Kansas, Louisiana, Mississippi, Oklahoma, those in Tennessee on and west of a line beginning at the Tennessee-Kentucky State line and extending south along U.S. Highway 431 to its junction with U.S. Highway 41, thence southeast along U.S. Highway 41 to junction Tennessee Highway 56, thence south along Tennessee Highway 56 to the Tennessee-Alabama State line, and Texas, restricted against the transportation of dry chemicals to points in Ohio, and points in Chambers, Montgomery, Harris, Fort Bend, Galveston, Liberty, and Brazoria Counties, Tex. The purpose of this filing is to eliminate the gateway of the facilities of the Polymers & Chemical Division of W. R. Grace & Co., at Owensboro, Ky.

No. MC 117344 (Sub-No. E39), filed May 22, 1974. Applicant: THE MAXWELL CO., 10380 Evendale Drive, Cincinnati, Ohio 45215. Applicant's representative: James R. Stiverson, 50 W. Broad St., Cincinnati, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, except commodities the transportation of which because of size or weight, requires the use of special equipment or special handling, from Barnesville, Minn., to points in Nebraska and Wyoming. The purpose of this filing is to eliminate the gateways of Nassau, Minn., and points in South Dakota.

No. MC 114211 (Sub-No. E1074), filed July 3, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled farm machinery and parts thereof*, from Green Island, Minn., to points in New York. The purpose of this filing is to eliminate the gateway of the plant site of the Stinar Corporation located at or near Minneapolis, Minn.

No. MC 117344 (Sub-No. E37), filed May 22, 1974. Applicant: THE MAXWELL CO., 10380 Evensdale Drive, Cincinnati, Ohio 45215. Applicant's representative: James R. Stiverson, 50 W. Broad St., Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lacquers, paints, resins, stains, varnishes, and plastics*, in bulk, in tank vehicles, from Dayton, Ohio, to points in Alabama, Arkansas; those in Georgia on and south of a line beginning at Columbus, Georgia, and extending east along U.S. Highway 280 to its junction with Georgia Highway 26, thence east along Georgia Highway 26 to Perry, Ga., thence southeast along U.S. Highway 341 to Brunswick, Illinois on and south of U.S. Highway 460 (except points in the St. Louis, Mo.-St. Louis., Ill., commercial zone as defined by the Commission), Kansas, Louisiana, Mississippi, Oklahoma, those in Tennessee on and west of a line beginning at the Tennessee-Kentucky State line and extending south along U.S. Highway 431 to its junction with U.S. Highway 41, thence southeast along U.S. Highway 41 to junction Tennessee Highway 56, thence south along Tennessee Highway 56 to the Tennessee-Alabama State line, and Texas, restricted against the transportation of dry chemicals to points in Ohio, and points in Chambers, Montgomery, Harris, Fort Bend, Galveston, Liberty, and Brazoria Counties, Tex. The purpose of this filing is to eliminate the gateway of the facilities of the Polymers & Chemical Division of W. R. Grace & Co., at Owensboro, Ky.

No. MC 117344 (Sub-No. E39), filed May 22, 1974. Applicant: THE MAXWELL CO., 10380 Evendale Drive, Cincinnati, Ohio 45215. Applicant's representative: James R. Stiverson, 50 W. Broad St., Cincinnati, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vegetable oil*, in bulk, in tank vehicles, from Jacksonville, Ill., to points in Connecticut, Massachusetts, and Rhode Island. The purpose of this filing is to eliminate the gateways of Cincinnati and Columbus, Ohio.

No. MC 116915 (Sub-No. E6), filed June 3, 1974. Applicant: ECK MILLER TRANSPORTATION CORPORATION, 1125 Sweeney Street, Owensboro, Ky. 42301. Applicant's representative: William P. Sullivan, 1819 H. Street, N.W., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Oil well and mine machinery, pipe and supplies made of aluminum, and equipment, materials and supplies* (except in bulk), used in the manufacture and processing of the foregoing commodities (1) between points in Illinois on and south of U.S. Highway 50, points in Indiana on and south of U.S. Highway 150, points in Kentucky on and west of Interstate Highway 65 and points in Tennessee on and west of U.S. Highway 231 and on and east of Tennessee Highway 22, on the one hand, and, on the other, points in Connecticut, New York, New Jersey and Pennsylvania, (2) between points in Illinois on and south of U.S. Highway 50, on the one hand, and, on the other, points in North Carolina and South Carolina, (3) between points in Indiana on and south of Indiana Highway 26, on the one hand,

and, on the other, points in Florida, and (4) between points in Indiana on and south of Indiana Highway 18, on the one hand, and, on the other, points in Texas. The purpose of this filing is to eliminate the gateway of Hawesville, Ky.

No. MC 117344 (Sub-No. E35) filed June 2, 1974. Applicant: MAXWELL COMPANY, 10380 Evendale Drive, Cincinnati, Ohio 45215. Applicant's representative: Thomas L. Maxwell (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Vegetables oils* in bulk, in tank vehicles, (a) from points in Illinois (except Chicago, Decatur and Bloomington); and Kentucky (except Louisville) to points in Connecticut, Massachusetts and Rhode Island (b) from Indiana (except Indianapolis) to points in Connecticut and Rhode Island, and (2) *soybean oil* from Chicago, Decatur and Bloomington, Illinois, and Louisville, Kentucky to points in Connecticut, Massachusetts and Rhode Island. The purpose of this filing is to eliminate the gateways of Cincinnati and Columbus, Ohio.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

PRINTING INK AND PAINT FORMULATING POINT SOURCE CATEGORIES

Effluent Guidelines and Standards

V40-39 FEB 26 75 XUM

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 446]

[FRL 335-8]

EFFLUENT LIMITATIONS AND GUIDELINES FOR EXISTING SOURCES AND STANDARDS OF PERFORMANCE AND PRETREATMENT STANDARDS FOR NEW SOURCES

Paint Formulating Point Source Category

Notice is hereby given that effluent limitations and guidelines for existing sources and standards of performance and pretreatment standards for new sources set forth in tentative form below are proposed by the Environmental Protection Agency (EPA). The regulation proposed below will cover the oil-base paint subcategory (Subpart A) and the water-base paint subcategory (Subpart B) of the paint formulating point source category pursuant to sections 301, 304 (b) and (c), 306(b) and 307(c) of the Federal Water Pollution Control Act as amended 33 U.S.C. 1251, 1311, 1314 (b) and (c), 1316(b) and 1317 (c); 86 Stat. 816 et seq.; Pub. L. 92-500 (the Act).

(a) Legal authority. (1) Existing point sources. Section 301(b) of the Act requires the achievement by not later than July 1, 1977, of effluent limitations for point sources, other than publicly owned treatment works, which require the application of the best practicable control technology currently available as defined by the Administrator pursuant to section 304(b) of the Act. Section 301 (b) also requires the achievement by not later than July 1, 1983, of effluent limitations for point sources, other than publicly owned treatment works, which require the application of best available technology economically achievable which will result in reasonable further progress toward the national goal of eliminating the discharge of all pollutants, as determined in accordance with regulations issued by the Administrator pursuant to section 304(b) of the Act.

Section 304(b) of the Act requires the Administrator to publish regulations providing guidelines for effluent limitations setting forth the degree of effluent reduction attainable through the application of the best practicable control technology currently available and the degree of effluent reduction attainable through the application of the best control measures and practices achievable including treatment techniques, process and procedure innovations, operating methods and other alternatives. The regulation proposed herein sets forth effluent limitations and guidelines, pursuant to sections 301 and 304(b) of the Act, for the oil-base paint subcategory (Subpart A) and the water-base paint subcategory (Subpart B) of the paint formulating point source category.

(2) New sources. Section 306 of the Act requires the achievement by new sources of a Federal standard of performance providing for the control of the discharge of pollutants which reflects the greatest degree of effluent reduction which the Administrator determines to be achievable through application of the best available demonstrated control technology, processes, operating methods, or other alternatives, including, where practicable, a standard permitting no discharge of pollutants.

Section 306(b)(1)(B) of the Act requires the Administrator to propose regulations establishing Federal standards of performance for categories of new sources included in a list published pursuant to section 306(b)(1)(A) of the Act. The regulations proposed herein set forth the standards of performance applicable to new sources for the oil-base paint subcategory (Subpart A) and the water-base paint subcategory (Subpart B) of the paint formulating point source category.

Section 307(c) of the Act requires the Administrator to promulgate pretreatment standards for new sources at the same time that standards of performance for new sources are promulgated pursuant to section 306. Sections 446.16 and 446.26, proposed below, provide pretreatment standards for new sources within the oil-base paint subcategory (Subpart A), and the water-base paint subcategory (Subpart B) of the paint formulating point source category.

Section 304(c) of the Act requires the Administrator to issue to the States and appropriate water pollution control agencies information on the processes, procedures or operating methods which result in the elimination or reduction of the discharge of pollutants to implement standards of performance under section 306 of the Act. The report or "Development Document" referred to below provides, pursuant to section 304(c) of the Act, information on such processes, procedures or operating methods.

(b) Summary and basis of proposed effluent limitations guidelines for existing sources and standards of performance and pretreatment standards for new sources.

(1) General methodology.

The effluent limitations, guidelines and standards of performance proposed herein were developed in the following manner. The point source category was first studied for the purpose of determining whether separate limitations and standards are appropriate for different segments within the category. This analysis included a determination of whether differences in raw material used, product produced, manufacturing process employed, age, size, waste water constituents and other factors require development of separate limitations and standards for different segments of the point source category. The raw waste characteristics for each such segment were then identified. This included an analysis of the source, flow and volume of water used in the process employed, the sources of waste and waste waters in the operation and the constituents of all waste water. The constituents of the waste waters which should be subject to effluent limitations and standards of performance were identified.

The control and treatment technologies existing within each segment were identified. This included an identification of each distinct control and treatment technology, including both in-plant and end-of-process technologies, which are existent or capable of being designed for each segment. It also included an identification of, in terms of the amount of constituents and the chemical, physical, and biological characteristics of pollutants, the effluent level resulting from the application of each of the technologies. The problems, limitations and reliability of each treatment and control technology were also identified. In addition, the non-water quality environmental impact, such as the effects of the application of such technologies upon other pollution problems, including air, solid waste, noise and radiation were identified. The energy requirements of each control and treatment technology were determined as well as the cost of the application of such technologies.

The information, as outlined above, was then evaluated in order to determine what levels of technology constitute the "best practicable control technology currently available," "best available technology economically achievable" and the "best available demonstrated control technology, processes, operating methods, or other alternatives." In identifying such technologies, various factors were considered. These included the total cost of application of technology in relation to the effluent reduction benefits to be achieved from such application, the age of equipment and facilities involved, the process employed, the engineering aspects of the application of various types of control techniques, process changes, non-water quality environmental impact (including energy requirements) and other factors.

The data upon which the above analysis was performed included EPA permit applications, EPA sampling and inspections, consultant reports, and industry submissions.

The pretreatment standards proposed herein are intended to be complementary to the pretreatment standards proposed for existing sources under 40 CFR 128. The basis for such standards is set forth in the FEDERAL REGISTER of July 19, 1973, 38 FR 19236. The provisions of Part 128 are equally applicable to sources which would constitute "new sources," under section 306 if they were to discharge pollutants directly to navigable waters, except for § 128.133. That section provides a pretreatment standard for "incompatible pollutants" which requires application of the "best practicable control technology currently available," subject to an adjustment for amounts of pollutants removed by the publicly owned treatment works. Since the pretreatment standards proposed herein apply to new sources, §§ 446.16 and 446.26 below amend § 128.133 to specify the application of the standard of performance for new sources rather than the "best practicable" standard applicable to existing sources under sections 301 and 304(b) of the Act.

(2) Summary of conclusions with respect to the oil-base paint subcategory (Subpart A), and the water-base paint

subcategory (Subpart B), of the paint formulating point source category.

(i) Categorization. For the purpose of studying waste treatment and effluent limitations, the paint formulating category was divided into two discrete subcategories, primarily based upon the differences in the waste water treatability as described in the Development Document for the paint and printing ink point source categories. When a plant is subject to effluent limitations covering more than one subcategory, the discharge limitation shall be the aggregate of the limitations applicable to the total production covered by each subcategory.

The industry produces paints, varnishes and lacquers, which consist of film-forming binders (resins or drying oils) dissolved in volatile solvents or dispersed in water. In addition, all paint and most lacquers contain pigments and extenders (calcium carbonate, clays and silicates). The industry also produces such products as putty, caulking compounds, sealants, paint and varnish removers, and thinners. The paint formulating category was broken into two subcategories, oil-base and water-base paints. Subpart A, oil-base paints, includes all of the above items that use oil as the major carrier vehicle. Subpart B, water-base paints, includes all of the above items that use water as the major carrier vehicle.

(ii) Waste characteristics. The significant pollutant parameters in waste waters resulting from the paint formulating category include five-day biochemical oxygen demand (BOD5), total suspended solids (TSS), pH, and selected metals. There are possibly other pollutants to be found in paint wastes but as they are intermittent each plant should be treated on a case-by-case basis.

Effluent limitations guidelines and standards of performance are established below to control each of the above pollutants.

(iii) Origin of waste water pollutants. The origin of waste water pollutants in the paint formulating category is principally from cleanup of mixing and milling equipment. Minor sources are from cleanup of product and raw material spills, and from leaking product transfer equipment in both oil- and water-base paint production.

(iv) Treatment and control technology. Waste water treatment and control technologies have been studied for each subcategory of the industry to determine what is (a) the best practicable control technology currently available, (b) the best available technology economically achievable, and (c) the best available demonstrated control technology, processes, operating methods or other alternatives.

Oil-base paints—Best practicable control technology currently available for the oil-base paint subcategory is no discharge of waste water pollutants to navigable waters. The most commonly employed system to achieve this standard includes redistillation and reuse of solvents, improved maintenance to prevent product leaks, utilization of dry or minimum water use floor cleanup procedures and closed loop tub washing systems with excess solids being landfilled.

Water-base paints—Best practicable control technology currently available for the water-base paint subcategory is no discharge of waste water pollutants to navigable waters. The most commonly employed treatment systems to achieve these standards are the use of closed loop washing machines with sludge sent to a landfill, improved maintenance to prevent product leaks and the utilization of dry or minimum water use floor cleanup procedures. Some small plants may conserve wash water and drum the entire flow for subsequent disposal by a scavenger company. At least one small paint manufacturer has programmed production methods to use all wash water in subsequent product batches.

Solid waste control must be considered. Solid residue and sludge are potential problems because of the need for periodic disposal. Solid waste must be handled properly to assure that no landfill or associated problems develop. Best practicable control technology and best available control technology, as they are known today, require disposal of the pollutants removed from waste waters in this industry in the form of solid wastes and liquid concentrates. In most cases these are non-hazardous substances requiring only minimal custodial care. However, some constituents may be hazardous and may require special consideration. In order to ensure long term protection of the environment from these hazardous or harmful constituents, special consideration of disposal sites must be made. All landfill sites where such hazardous wastes are disposed should be selected so as to prevent horizontal and vertical migration of these contaminants to ground or surface waters. In cases where geologic conditions may not reasonably ensure this, adequate precautions (e.g. impervious liners) should be taken to ensure long term protection to the environment from hazardous materials. Where appropriate, the location of solid hazardous materials disposal sites should be permanently recorded in the appropriate office of the legal jurisdiction in which the site is located.

(v) Cost estimates for control of waste water pollutants.

It is estimated that the treatment technology required to achieve no discharge of waste water pollutants would increase paint costs in a range from $0.006 to $0.017 per gallon depending on the methods used to meet the requirements and the size of the producing unit.

(vi) Energy requirements and non-water quality environmental impacts.

There should be no significant impact caused by these discharge limitations on energy requirements, noise, air pollution or radiation pollution. There would be an increased need to dispose of waste sludge in landfills.

(vii) Economic impact analysis.

The proposed guidelines are expected to have a significant impact on certain segments of the paint industry. As many as 88 plant closures are possible in 1977 as a result of the guidelines, primarily in the very small plant categories (less than $33,000 gal/yr of final product). These closures would represent 44 percent of the estimated 199 plants which are currently discharging directly to surface water, or 5.4 percent of all plants in the industry. The threatened plants account for 10.6 percent of production from all existing direct discharge plants or 1.7 percent of total industry production. Approximately 2400 employees would be affected by closure, but it is not expected that they would be regionally concentrated and most closures would occur in large cities where they would have little effect on the city economic base.

The predicted closures would be concentrated among plants which produce primarily industrial finishes, with a lesser number occurring in trade sales and none expected in allied products.

Possible closures as a direct result of effluent control costs will occur in the paint industry as a result of the required new investment which is a high (up to 44%) percentage of current fixed investment, and annual costs which are a substantial (up to 1.5%) percentage of sales (in the case of very small plants exceeding profit before taxes as a percent of sales). Both factors combine to reduce profitability on the threatened plants such as to cast serious doubts on their access to capital markets; and in the case of some very small plants, the increase in annual costs will be greater than their current profit before taxes.

The threatened plants are neither sufficiently large nor numerous to be able to pass forward their increased costs in a highly price-competitive market. Therefore, no general price increases are expected in the paint industry as a result of the proposed guidelines.

Considerable data discrepancy exists between the cost study performed by the EPA National Field Investigation Center (Denver) and the economic analysis performed by Arthur D. Little, Inc., particularly on the subject of the existing number of directly discharging paint and ink plants. The ADL data, derived from recent trade association surveys, indicate the existence of 199 plants and 46 ink plants which are currently directly discharging their process effluent to surface waters. The NFIC data, drawn from EPA permit program data, show only 27 paint plants and 8 ink plants as direct dischargers. Plant closures predicted herein are based on the ADL data, though efforts are continuing to resolve this discrepancy.

New source performance standards and new source pretreatment standards are not expected to deter or otherwise influence industry growth other than possibly to further an existing industry trend toward a declining number of very small plants. No other secondary effects are expected.

The report entitled "Development Document for Proposed Effluent Limitations Guidelines and New Source Performance Standards for the Paint and Printing Ink Formulating Point Source Categories"

XUM V 40 I 39 FEB 26 75 XUM

details the analysis undertaken in support of the regulation being proposed herein and will be made available for inspection in the EPA Information Center, Room 204, West Tower, Waterside Mall, Washington, D.C., at all EPA regional offices, and at State water pollution control offices. A supplementary analysis prepared for EPA of the possible economic effects of the proposed regulation is also available for inspection at these locations. Copies of both of these documents are being sent to persons or institutions affected by the proposed regulation, or who have placed themselves on a mailing list for this purpose (see EPA's Advance Notice of Public Review Procedures, 38 FR 21202, August 6, 1973). An additional limited number of copies of both reports will be made available. Persons wishing to obtain a copy may write the EPA Information Center, Environmental Protection Agency, Washington, D.C. 20460, Attention: Ms. Ruth Brown, A–107.

On June 14, 1973, the Agency published procedures designed to insure that, when certain major standards, regulations, and guidelines are proposed, an explanation of their basis, purpose and environmental effects is made available to the public (38 FR 15653). The procedures are applicable to major standards, regulations and guidelines which are proposed on or after December 31, 1973, and which prescribe national standards of environmental quality or require national emission, effluent or performance standards and limitations.

The Agency determined to implement these procedures in order to insure that the public was apprised of the environmental effects of its major standards setting actions and was provided with detailed background information to assist it in commenting on the merits of a proposed action. In brief, the procedures call for the Agency to make public the information available to it delineating the major nonenvironmental factors affecting the decision, and to explain the viable options available to it and the reasons for the option selected.

The procedures contemplate publication of this information in the FEDERAL REGISTER, where this is practicable. They provide, however, that where, because of the length of these materials, such publication is impracticable, the material may be made available in an alternate format.

The report entitled "Development Document for Proposed Effluent Limitations Guidelines and New Source Performance Standards for the Paint and Printing Ink Formulating Point Source Categories" contains information available to the Agency concerning the major environmental effects of the regulation proposed below, including:

(1) The pollutants presently discharged into the Nation's waterways by manufacturers of paint and the degree of pollution reduction obtainable from implementation of the proposed guidelines and standards (see particularly sections IV, V, VI, IX, X, and XI);

(2) The anticipated effects of the proposed regulation on other aspects of the environment including air, solid waste disposal and land use, and noise (see particularly section VIII); and

(3) Options available to the Agency in developing the proposed regulatory system and the reasons for its selecting the particular levels of effluent reduction which are proposed (see particularly sections VI, VII, and VIII).

The supplementary report entitled "Economic Analysis of Proposed Effluent Guidelines for the Paint and Allied Products and the Printing Ink Industries" contains an estimate of the cost of pollution control requirements and an analysis of the possible effects of the proposed regulation on prices, production levels, employment, communities in which paint manufacturing plants are located, and international trade. In addition, the Development Document describes, in section VIII, the cost and energy consumption implications of the proposed regulations.

The two reports described above in the aggregate exceed 100 pages in length and contain a substantial number of charts, diagrams, and tables. It is clearly impracticable to publish the material contained in these documents in the FEDERAL REGISTER. To the extent possible, significant aspects of the material have been presented in summary form in foregoing portions of this preamble. Additional discussion is contained in the following analysis of comments received and the Agency's response to them. As has been indicated, both documents will be made available for inspection at the Agency's Washington, D.C. and regional offices and at State water pollution control agency offices. Copies of each have been distributed to persons and institutions affected by the proposed regulations or who have placed themselves on a mailing list for this purpose. Finally, so long as the supply remains available, additional copies may be obtained from the Agency as described above.

When this regulation is promulgated, revised copies of the Development Document will be available from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. Copies of the Economic Analysis will be available through the National Technical Information Service, Springfield, Virginia 22151.

(c) Summary of public participation. Prior to this publication, the agencies and groups listed below were consulted and given an opportunity to participate in the development of effluent limitations, guidelines and standards proposed for the paint formulating category. All participating agencies have been informed of project developments. An initial draft of the Development Document was sent to all participants and comments were solicited on that report. The following are the principal agencies and groups consulted: (1) Effluent Standards and Water Quality Information Advisory Committee (established under section 515 of the Act); (2) all State and U.S. Territory Pollution Control Agencies; (3) National Paint and Coatings Association; (4) U.S. Department of the Treasury; (5) Government of Guam and Government of Samoa Trust Territories of the Pacific Islands; (6) Puerto Rico; (7) The Conservation Foundation; (8) American Society of Mechanical Engineers; (9) Hudson River Sloop Restoration, Inc.; (10) Conservation Foundation; (11) Businessmen for the Public Interest; (12) Environmental Defense Fund, Inc.; (13) Natural Resources Defense Council; (14) American Society of Civil Engineers; (15) National Wildlife Federation; (16) Water Pollution Control Federation; (17) Ohio River Valley Sanitation Commission; (18) New England Interstate Water Pollution Control Commission; (19) Delaware River Basin Commission; (20) U.S. Department of Health, Education, and Welfare; (21) U.S. Department of Commerce; (22) U.S. Department of Agriculture; (23) Water Resources Council; (24) U.S. Department of the Interior; (25) Federation of Societies for Paint Technology; (26) East Bay Municipal Utilities District; (27) Midland Division—Dexter Corporation; (28) Celanese Coatings Company; (29) Reliance Universal; (30) Benjamin Moore & Company; (31) Sherwin Williams Company; (32) E. I. Dupont De Nemours; (33) PPG Industries; (34) DeSoto, Inc.; (35) Kohler McLister Paint Company; (36) Porter Paints Company; (37) Morwear Paint Company; (38) Wellco Chemical Company and (39) Permutit Corporation.

The following responded with comments: New York State Department of Environmental Conservation; Delaware River Basin Commission; Benjamin Moore and Company; Glidden Durkee Company; Minnesota Pollution Control Agency; Colorado Department of Health; U.S. Water Resources Council; Westvaco; National Paint and Coatings Association; Federation of Societies for Paint Technology; Sherwin-Williams Company; U.S. Department of Agriculture; Reliance Universal Inc.; Delaware Department of Natural Resources; E. I. du Pont de Nemours & Company; North Carolina Department of Natural and Economic Resources and the California State Water Resources Board.

The primary issues raised in the development of the proposed effluent limitations guidelines and standards of performance and the treatment of these issues herein are as follows:

(1) A commenter stated that the requirement of no discharge of waste water pollutants to navigable waters was beyond the authority of the law at this time.

The requirement does not go beyond the intent of the law as, in the surveys made by the EPA, at least 44 plants of varying sizes and ages were found that did not discharge process waste waters. These plants included manufacturers of both oil-base and water-base paints. There is at least one commercial washing system on the market that discharges only sludge from the system. There were other cases of modified systems and total wash water reuse systems that discharge no process waste waters.

As there was sufficient demonstration that the technology to control process waste waters was available and in use, there was no choice but to pick no discharge of process waste waters to surface waters. This was determined to meet the statutory criteria for the best practicable control technology currently available.

(2) Others commented that the economic impact would be so great that many small paint plants would be forced out of business.

The information available to the Agency indicates that in the paint formulating industry, a very small number of direct dischargers have applied for NPDES permits, which indicates a minimal economic impact. However, the Agency's economic contractor has indicated that there are a large number of direct dischargers and that the economic impact to the smaller producers would be severe. These results are contradictory and need to be clarified. The Agency solicits information from the industry concerning number of direct dischargers and economic impact so that the guidelines might be properly adjusted to account for any adverse economic impacts.

(3) Of major concern to several commenters was the problem of disposal of the large quantities of sludge to landfills as many local agencies are severely restricting what can be placed in landfills.

As the requirements for air and water pollution control are increased, the residual solids will increase. Where possible, these residuals should be recycled or reclaimed. Incineration and secure landfills are considered environmentally adequate for disposal of these types of wastes. Ink and paint manufacturers concerned with adequate land disposal may have to seek out or cause the creation of adequate, secure disposal sites.

(4) Several comments were received which claimed the "no discharge" limitations would restrict their option to leave a municipal system and discharge to a water course. The reasoning was that the municipal systems were increasing their discharge fees and becoming unduly restrictive in what they would accept.

The comment that this degree of control removed the option to leave a municipal system and discharge to a navigable water course is not considered valid since methods for achieving "no discharge" have been demonstrated.

(5) There were a considerable number of comments where the reviewer completely agreed with the guidelines.

(6) Several commenters expressed the fear that setting a limitation of "no discharge" to surface waters would encourage municipalities to forbid discharge of paint wastes to publicly owned plants.

The setting of a limitation of no discharge of paint wastes to surface waters is not meant to encourage municipalities to prohibit paint manufacturers from discharging their wastes to publicly owned plants. With proper pretreatment, as described in the Development Document, paint wastes are compatible with municipal treatment system and will not cause the municipality to exceed its permit conditions.

(7) Several commenters stated that a zero discharge limit would be technologically difficult to meet as the recycle cleaning systems described in the development document would require occasional discharges due to buildup of salts and rinse waters in the cleaning solution which would make the cleaning solution unusable.

The Agency's current data base does not support an occasional cleaning solution discharge. The Agency solicits information from the industry concerning the need for this discharge, the volumes involved, its raw waste constituents, and the quality of the discharge after treatment.

(8) Questions have been raised concerning the availability of standards or guidelines applicable to the disposal of solid wastes resulting from the operation of pollution control systems.

The principles set forth in "Land Disposal of Solid Wastes Guidelines" (40 CFR 241) may be used as guidance for acceptable land disposal techniques. Potentially hazardous wastes may require special considerations to ensure their proper disposal. Additionally, state and local guidelines and regulations should be considered wherever applicable.

Interested persons may participate in this rulemaking by submitting written comments in triplicate to the EPA Information Center, Environmental Protection Agency, Washington, D.C. 20460, Attention: Ms. Ruth Brown, A–107. Comments on all aspects of the proposed regulation are solicited. In the event comments are in the nature of criticisms as to the adequacy of data which are available, or which may be relied upon by the Agency, comments should identify and, if possible, provide any additional data which may be available and should indicate why such data are essential to the development of the regulations. In the event comments address the approach taken by the Agency in establishing an effluent limitations guideline or standard of performance, EPA solicits suggestions as to what alternative approach should be taken and why and how this alternative better satisfies the detailed requirements of sections 301, 304(b), 306 and 307 of the Act.

A copy of all public comments will be available for inspection and copying at the EPA Information Center, Room 204, West Tower, Waterside Mall, 401 M Street, SW., Washington, D.C. A copy of preliminary draft contractor reports, the Development Document and economic study referred to above, and certain supplementary materials supporting the study of the industry concerned will also be maintained at this location for public review and copying. The EPA information regulation, 40 CFR Part 2, provides that a reasonable fee may be charged for copying.

All comments received by March 28, 1975 will be considered. Steps previously taken by the Environmental Protection Agency to facilitate public response within this time period are outlined in the advance notice concerning public review procedures published on August 6, 1973 (38 FR 21202).

Dated: February 12, 1975.

JOHN QUARLES,
Acting Administrator.

PART 446—PAINT FORMULATION POINT SOURCE CATEGORY

Subpart A—Oil-Base Paint Subcategory

Sec.
446.10 Applicability; description of the oil-base paint subcategory.
446.11 Specialized definitions.
446.12 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
446.13 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
446.14 [Reserved.]
446.15 Standards of performance for new sources.
446.16 Pretreatment standards for new sources.

Subpart B—Water-Base Paint Subcategory

446.20 Applicability; description of the water-base paint subcategory.
446.21 Specialized definitions.
446.22 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
446.23 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
446.24 [Reserved.]
446.25 Standards of performance for new sources.
446.26 Pretreatment standards for new sources.

Subpart A—Oil-Base Paint Subcategory

§ 446.10 Applicability; description of the oil-base paint subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of oil-base paint. When a plant is subject to effluent limitations covering more than one subcategory, the discharge limitation shall be the aggregate of the limitations applicable to the total production covered by each subcategory.

§ 446.11 Specialized definitions.

For the purpose of this subpart:

Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR 401 shall apply to this subpart.

§ 446.12 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such

XUM
V 40139 FEB 26 75 E
XUM

as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategorization and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

The following limitations establish the quantity or quality of pollutants or pollutant properties by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available: There shall be no discharge of process waste water pollutants to navigable waters.

§ 446.13 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable: There shall be no discharge of process waste water pollutants to navigable waters.

§ 446.14 [Reserved]

§ 446.15 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties which may be discharged by a new source subject to the provisions of this subpart: There shall be no discharge of process waste water pollutants to navigable waters.

§ 446.16 Pretreatment standards for new sources.

The pretreatment standards under section 307(c) of the Act for a source within the oil-base paint subcategory, which is a user of a publicly owned treatment works (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR 128, except that, for the purpose of this section, 40 CFR 128.133 shall be amended to read as follows: "In addition to the prohibitions set forth in 40 CFR 128.131, the pretreatment standard for incompatible pollutants introduced into a publicly owned treatment works shall be the standard of performance for new sources specified in 40 CFR 446.15; provided that, if the publicly owned treatment works which receives the pollutants is committed, in its NPDES permit, to remove a specified percentage of any incompatible pollutant, the pretreatment standard applicable to users of such treatment works shall, except in the case of standards providing for no discharge of pollutants, be correspondingly reduced in stringency for that pollutant."

Subpart B—Water-Base Paint Subcategory

§ 446.20 Applicability; description of the water-base paint subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of water-base paint: When a plant is subject to effluent limitations covering more than one subcategory, the discharge limitation shall be the aggregate of the limitations applicable to the total production covered by each subcategory.

§ 446.21 Specialized definitions.

For the purpose of this subpart:

Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR 401 shall apply to this subpart.

§ 446.22 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategorization and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

The following limitations establish the quantity or quality of pollutants or pollutant properties which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available: There shall be no discharge of process waste water pollutants to navigable waters.

§ 446.23 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable: There shall be no discharge of process waste water pollutants to navigable waters.

§ 446.24 [Reserved]

§ 446.25 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties which may be discharged by a new source subject to the provisions of this subpart: There shall be no discharge of process waste water pollutants to navigable waters.

§ 446.26 Pretreatment standards for new sources.

The pretreatment standards under section 307(c) of the Act for a source within the water-base paint subcategory, which is a user of a publicly owned treatment works (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR 128, except that, for the purpose of this section, 40 CFR 128.133 shall be amended to read as follows: "In addition to the prohibitions set forth in 40 CFR 128.131, the pretreatment standard for incompatible pollutants introduced into a publicly owned treatment works shall be the standard of performance for new sources specified in 40 CFR 446.25; provided that, if the publicly owned treatment works which receives the pollutants is committed, in its NPDES permit, to remove a specified percentage of any incompatible pollutant, the pretreatment standard applicable to users of such treatment works shall, except in the case of standards providing for no discharge of pollutants be correspondingly reduced in stringency for that pollutant."

[40 CFR Part 447]

[FRL 336-1]

EFFLUENT LIMITATIONS AND GUIDELINES FOR EXISTING SOURCES AND STANDARDS OF PERFORMANCE AND PRETREATMENT STANDARDS FOR NEW SOURCES

Printing Ink Formulating Point Source Category

Notice is hereby given that effluent limitations and guidelines for existing sources and standards of performance and pretreatment standards for new sources set forth in tentative form below are proposed by the Environmental Protection Agency (EPA). The regulation proposed below will cover the oil-base ink subcategory (Subpart A) and the water-base ink subcategory (Subpart B) pursuant to sections 301, 304 (b) and (c), 306 (b) and 307(c) of the Federal Water Pollution Control Act as amended 33 U.S.C. 1251, 1311, 1314 (b) and (c), 1316(b) and 1317(c); 86 Stat. 816 et seq.; Pub. L. 92-500 (the Act).

(a) Legal authority. (1) Existing point sources. Section 301(b) of the Act requires the achievement by not later than July 1, 1977, of effluent limitations for point sources, other than publicly owned treatment works, which require the application of the best practicable control technology currently available as defined by the Administrator pursuant to section 304(b) of the Act. Section 301(b) also requires the achievement by not later than July 1, 1983, of effluent limitations for point sources, other than publicly owned treatment works, which require the application of best available technology economically achievable which will result in reasonable further progress toward the national goal of eliminating the discharge of all pollutants, as determined in accordance with regulations issued by the Administrator pursuant to section 304(b) to the Act.

Section 304(b) of the Act requires the Administrator to publish regulations providing guidelines for effluent limitations setting forth the degree of effluent reduction attainable through the application of the best practicable control technology currently available and the degree of effluent reduction attainable through the application of the best control measures and practices achievable including treatment techniques, process and procedure innovations, operating methods and other alternatives. The regulation proposed herein sets forth effluent limitations and guidelines, pursuant to sections 301 and 304(b) of the Act, for the oil-base ink subcategory (Subpart A) and the water-base ink subcategory (Subpart B) of the printing ink formulating point source category.

(2) New sources. Section 306 of the Act requires the achievement by new sources of a Federal standard of performance providing for the control of the discharge of pollutants which reflects the greatest degree of effluent reduction which the Administrator determines to be achievable through application of the best available demonstrated control technology, processes, operating methods, or other alternatives, including, where practicable, a standard permitting no discharge of pollutants.

Section 306(b)(1)(B) of the Act requires the Administrator to propose regulations establishing Federal standards of performance for categories of new sources included in a list published pursuant to section 306(b)(1)(A) of the Act. The regulations proposed herein set forth the standards of performance applicable to new sources for the oil-base ink subcategory (Subpart A) and the water-base ink subcategory (Subpart B) of the printing ink formulating point source category.

Section 307(c) of the Act requires the Administrator to promulgate pretreatment standards for new sources at the same time that standards of performance for new sources are promulgated pursuant to section 306. Sections 447.16, and 447.26, proposed below, provide pretreatment standards for new sources within the oil-base ink subcategory (Subpart A), and the water-base ink subcategory (Subpart B), of the printing ink formulating point source category.

Section 304(c) of the Act requires the Administrator to issue to the States and appropriate water pollution control agencies information on the processes, procedures or operating methods which result in the elimination or reduction of the discharge of pollutants to implement standards of performance under section 306 of the Act. The report or "Development Document" referred to below provides, pursuant to section 304(c) of the Act, information on such processes, procedures or operating methods.

(b) Summary and basis of proposed effluent limitations guidelines for existing source and standards of performance and pretreatment standards for new sources.

(1) General methodology.

The effluent limitations, guidelines and standards of performance proposed herein were developed in the following manner. The point source category was first studied for the purpose of determining whether separate limitations and standards are appropriate for different segments within the category. This analysis included a determination of whether differences in raw material used, product produced, manufacturing process employed, age, size, waste water constituents and other factors require development of separate limitations and standards for different segments of the point source category. The raw waste characteristics for each such segment were then identified. This included an analysis of the source, flow and volume of water used in the process employed, the sources of waste and waste waters in the operation and the constituents of all waste water. The constituents of the waste waters which should be subject to effluent limitations and standards of performance were identified.

The control and treatment technologies existing within each segment were identified. This included an identification of each distinct control and treatment technology, including both in-plant and end-of-process technologies, which are existent or capable of being designed for each segment. It also included an identification of, in terms of the amount of constituents and the chemical, physical, and biological characteristics of pollutants, the effluent level resulting from the application of each of the technologies. The problems, limitations and reliability of each treatment and control technology were also identified. In addition, the non-water quality environmental impact, such as the effects of the application of such technologies upon other pollution problems, including air, solid waste, noise and radiation were identified. The energy requirements of each control and treatment technology were determined as well as the cost of the application of such technologies.

The information, as outlined above, was then evaluated in order to determine what levels of technology constitute the "best practicable control technology currently available," "best available technology economically achievable" and the "best available demonstrated control technology, processes, operating methods, or other alternatives." In identifying such technologies, various factors were considered. These included the total cost of application of technology in relation to the effluent reduction benefits to be achieved from such application, the age of equipment and facilities involved, the process employed, the engineering aspects of the application of various types of control techniques, process changes, non-water quality environmental impact (including energy requirements) and other factors.

The data upon which the above analysis was performed included EPA permit applications, EPA sampling and inspections, consultant reports, and industry submissions.

The pretreatment standards proposed herein are intended to be complementary to the pretreatment standards proposed for existing sources under 40 CFR 128. The basis for such standards is set forth in the FEDERAL REGISTER of July 19, 1973, 38 FR 19236. The provisions of Part 128 are equally applicable to sources which would constitute "new sources," under section 306 if they were to discharge pollutants directly to navigable waters, except for § 128.133. That section provides a pretreatment standard for "incompatible pollutants" which requires application of the "best practicable control technology currently available," subject to an adjustment for amounts of pollutants removed by the publicly owned treatment works. Since the pretreatment standards proposed

XUM
V 40 I 39 FEB 26 75
XUM

herein apply to new sources, §§ 447.16, and 447.26 below amend § 128.133 to specify the application of the standard of performance for new sources rather than the "best practicable" standard applicable to existing sources under sections 301 and 304(b) of the Act.

(2) Summary of conclusions with respect to the oil-base ink subcategory (Subpart A), and the water-base ink subcategory (Subpart B), of the printing ink formulating point source category.

(i) Categorization. For the purpose of studying waste treatment and effluent limitations, the printing ink formulating category was divided into two discrete subcategories, primarily based upon the differences in the waste water treatability as described in the Development Document for the Paint and Printing Ink point source categories. When a plant is subject to effluent limitations covering more than one subcategory, the discharge limitation shall be the aggregate of the limitations applicable to the total production covered by each subcategory.

This category covers plants that formulate either oil or water-base printing inks. The major components include drying oils, resins, varnish, pigments and many specialty additives. The ink formulating category was broken into two subcategories, oil-base and water-base inks. Subpart A, oil-base inks, use oil or solvent as the major carrier vehicle while Subpart B, water-base inks, use water as the major carrier vehicle.

(ii) Waste characteristics. The significant pollutant parameters in waste waters resulting from the ink formulating category include five-day biochemical oxygen demand (BOD5), total suspended solids (TSS), pH, and selected metals. There are possibly other pollutants to be found in ink wastes at intermittent periods and these should be treated on a case-by-case basis.

Effluent limitations guidelines and standards of performance are established below to control each of the above parameters.

(iii) Origin of waste water pollutants. The origin of waste water pollutants in the ink formulating category is principally from the cleanup of mixing and milling equipment. Minor sources are from cleanup of product and raw material spills, and from leaking product transfer equipment in both oil and water-base ink production.

(iv) Treatment and control technology. Waste water treatment and control technologies have been studied for each subcategory of the industry to determine what is (a) the best practicable control technology currently available, (b) the best available technology economically achievable, and (c) the best available demonstrated control technology, processes, operating methods or other alternatives.

Oil base inks—Best practicable control technology currently available for the oil-base ink subcategory is no discharge of waste water pollutants to navigable waters. The most commonly employed system to achieve this standard includes redistillation and reuse of solvents, improved maintenance to prevent product leaks, utilization of dry or minimum water use floor cleanup procedures and closed loop tub washing systems with excess solids being landfilled.

Water-base inks—Best practicable control technology currently available for the water-base ink subcategory is no discharge of waste water pollutants to navigable waters. The most commonly employed treatment systems to achieve these standards are the use of closed loop washing machines with sludge sent to a landfill, improved maintenance to prevent product leaks and the utilization of dry or minimum water use floor cleanup procedures. Some small plants may conserve wash water and drum the entire flow for subsequent disposal by a scavenger company.

Solid waste control must be considered. Solid residue and sludge are potential problems because of the need for periodic disposal. Solid waste must be handled properly to assure that no landfill or associated problems develop. Best practicable control technology, and best available control technology as they are known today, require disposal of the pollutants removed from waste waters in this industry in the form of solid wastes and liquid concentrates. In most cases these are non-hazardous substances requiring only minimal custodial care. However, some constituents may be hazardous and may require special consideration. In order to ensure long term protection of the environment from these hazardous or harmful constituents, special consideration of disposal sites must be made. All landfill sites where such hazardous wastes are disposed should be selected so as to prevent horizontal and vertical migration of these contaminants to ground or surface waters. In cases where geologic conditions may not reasonably ensure this, adequate precautions (e.g. impervious liners) should be taken to ensure long term protection to the environment from hazardous materials. Where appropriate, the location of solid hazardous materials disposal sites should be permanently recorded in the appropriate office of the legal jurisdiction in which the site is located.

(v) Cost estimates for control of waste water pollutants. It is estimated that this control technology will increase the cost of printing ink in a range of from $0.001 to 0.003 per pound depending on the method used to meet the requirements and the size of the producing unit.

(vi) Energy requirements and non-water quality environmental impacts. There should be no significant impact caused by these discharge limitations on energy requirements on noise, air pollution or radiation pollution. There would be an increase in the need to dispose of waste sludge in landfills.

(vii) Economic impact analysis. The proposed guidelines are not expected to have any significant impact on the printing ink industry. Assuming that increased costs for effluent control are completely absorbed out of cash flow, return on investment for affected plants should remain in an acceptable range (7.5–8.8 percent) and no plant closures or production cutbacks are anticipated.

Moreover, the printing ink industry has the added security that demand for printing ink is relatively inelastic, since ink is a raw material for the printing industry and rarely represents a significant portion of the cost of the finished printed product. Therefore, increased costs could be passed forward if the ink industry chose to do so; and a price increase of only 0.6 percent would cover the increased costs for 41 of the 46 plants which are expected to incur increased costs. However, historically the printing ink industry has shown a resistance to passing forward such cost increases and it is expected that no general price increases will occur.

No adverse impacts are expected on production, employment, international trade or industry growth as a result of the proposed guidelines.

The report entitled "Development Document for Proposed Effluent Limitations Guidelines and New Source Performance Standards for the Paint and Printing Ink Formulating Point Source Categories" details the analysis undertaken in support of the regulation being proposed herein and will be made available for inspection in the EPA Information Center, Room 204, West Tower, Waterside Mall, Washington, D.C., at all EPA regional offices, and at State water pollution control offices. A supplementary analysis prepared for EPA of the possible economic effects of the proposed regulation will be made available for inspection at these locations. Copies of both of these documents are being sent to persons or institutions affected by the proposed regulation, or who have placed themselves on a mailing list for this purpose (see EPA's Advance Notice of Public Review Procedures, 38 FR 21202, August 6, 1973). An additional limited number of copies of both reports are available. Persons wishing to obtain a copy may write the EPA Information Center, Environmental Protection Agency, Washington, D.C. 20460, Attention: Ms. Ruth Brown, A–107.

On June 14, 1973, the Agency published procedures designed to insure that, when certain major standards, regulations, and guidelines are proposed, an explanation of their basis, purpose and environmental effects is made available to the public (38 FR 15653). The procedures are applicable to major standards, regulations and guidelines which are proposed on or after December 31, 1973, and which prescribe national standards of environmental quality or require national emission, effluent or performance standards and limitations.

The Agency determined to implement these procedures in order to insure that the public was apprised of the environmental effects of its major standards setting actions and was provided with detailed background information to assist it in commenting on the merits of a proposed action. In brief, the procedures call for the Agency to make public the information available to it delineating the major nonenvironmental factors affecting the decision, and to explain the viable options available to it and the reasons for the option selected.

The procedures contemplate publication of this information in the FEDERAL REGISTER, where this is practicable. They provide, however, that where, because of the length of these materials, such publication is impracticable, the material may be made available in an alternate format.

The report entitled "Development Document for Proposed Effluent Limitations Guidelines and New Source Performance Standards for the Paint and Printing Ink Formulating Point Source Categories" contains information available to the Agency concerning the major environmental effects of the regulation proposed below, including:

(1) The pollutants presently discharged into the Nation's waterways by manufacturers of ink and the degree of pollution reduction obtainable from implementation of the proposed guidelines and standards (see particularly sections IV, V, VI, IX, X, and XI);

(2) The anticipated effects of the proposed regulation on other aspects of the environment including air, solid waste disposal and land use, and noise (see particularly section VIII); and

(3) Options available to the Agency in developing the proposed regulatory system and the reasons for its selecting the particular levels of effluent reduction which are proposed (see particularly sections VI, VII, and VIII).

The supplementary report entitled "Economic Analysis of Proposed Effluent Guidelines for the Paint and Allied Products and the Printing Ink Industries" contains an estimate of the cost of pollution control requirements and an analysis of the possible effects of the proposed regulation on prices, production levels, employment, communities in which ink manufacturing plants are located, and international trade. In addition, the Development Document describes, in section VIII, the cost and energy consumption implications of the proposed regulations.

The two reports described above in the aggregate exceed 100 pages in length and contain a substantial number of charts, diagrams, and tables. It is clearly impracticable to publish this material contained in these documents in the FEDERAL REGISTER. To the extent possible, significant aspects of the material have been presented in summary form in foregoing portions of this preamble. Additional discussion is contained in the following analysis of comments received and the Agency's response to them. As has been indicated, both documents will be made available for inspection at the Agency's Washington, D.C. and regional offices and at State water pollution control agency offices. Copies of each have been distributed to persons and institutions affected by the proposed regulations or who have placed themselves on a mailing list for this purpose. Finally, so long as the supply remains available, additional copies may be obtained from the Agency as described above.

When this regulation is promulgated, revised copies of the Development Document will be available from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. Copies of the Economic Analysis will be available through the National Technical Information Service, Springfield, Virginia, 22151.

(c) Summary of public participation. Prior to this publication, the agencies and groups listed below were consulted and given an opportunity to participate in the developent of effluent limitations, guidelines and standards proposed for the printing ink formulating category. All participating agencies have been informed of project developments. An initial draft of the Development Document was sent to all participants and comments were solicited on that report. The following are the principal agencies and groups consulted: (1) Effluent Standards and Water Quality Information Advisory Committee (established under section 515 of the Act); (2) all State and U.S. Territory Pollution Control Agencies; (3) National Association of Printing Ink Manufacturers; (4) U.S. Department of the Treasury; (5) Government of Guam and Government of Samoa Trust Territories of the Pacific Island; (6) Puerto Rico; (7) The Conservation Foundation; (8) American Society of Mechanical Engineers; (9) Hudson River Sloop Restoration, Inc.; (10) Conservation Foundation; (11) Businessmen for the Public Interest; (12) Environmental Defense Fund, Inc.; (13) Natural Resources Defense Council; (14) American Society of Civil Engineers; (15) National Wildlife Federation; (16) Water Pollution Control Federation; (17) Ohio River Valley Sanitation Commission; (18) New England Interstate Water Pollution Control Commission; (19) Delaware River Basin Commission; (20) U.S. Department of Health, Education, and Welfare; (21) U.S. Department of Commerce; (22) U.S. Department of Agriculture; (23) Water Resources Council; (24) U.S. Department of the Interior; (25) Inmont Corporation; (26) East Bay Municipal Utilities District; (27) Sun Chemical Corporation; (28) Borden Company; (29) Welico Chemical Company and (30) Cities Service.

The following responded with comments: New York Department of Environmental Conservation; Delaware River Basin Commission; Minnesota Water Pollution Control Agency; Colorado Department of Health; U.S. Water Resources Council; U.S. Department of Agriculture; Delaware Department of Natural Resources; North Carolina Department of Natural and Economic Resources; California State Water Resources Board; Sun Chemical Corporation; Inmont Corporation and the National Association of Printing Ink Manufacturers.

The primary issues raised in the development of the proposed effluent limitations guidelines and standards of performance and the treatment of these issues herein are as follows:

(1) Several commenters were concerned that the no discharge provision would be used by municipal governments to stop the discharge of printing ink manufacturing wastes into municipal sewers, even though the printing ink manufacturers have historically discharged to municipal systems.

If municipalities apply equitably the EPA regulations on pretreatment standards (40 CFR 128), there should be no major impact on ink makers.

(2) Of major concern to several commenters was the problem of disposal of the large quantities of sludge to landfills as many local agencies are severely restricting substances that can be placed in landfills.

As the requirements for air and water pollution control are increased, the residual solids will increase. Where possible, these residuals should be recycled or reclaimed. Incineration and secure landfills are considered environmentally adequate for disposal of these types of wastes. Ink and paint manufacturers concerned with adequate land disposal may have to seek out or cause the creation of adequate, secure disposal sites.

(3) Most of the reviewers agreed with the guidelines.

(4) Questions have been raised concerning the availability of standards or guidelines applicable to the disposal of solid wastes resulting from the operation of pollution control systems.

The principles set forth in "Land Disposal of Solid Wastes Guidelines" (40 CFR 241) may be used as guidance for acceptable land disposal techniques. Potentially hazardous wastes may require special considerations to ensure their proper disposal. Additionally, state and local guidelines and regulations should be considered wherever applicable.

All comments received by March 28, 1975 will be considered. Steps previously taken by the Environmental Protection Agency to facilitate public response within this time period are outlined in the advance notice concerning public review procedures published on August 6, 1973 (38 FR 21202).

Dated: February 12, 1975.

JOHN QUARLES,
Acting Administrator.

PART 447—PRINTING INK FORMULATION POINT SOURCE CATEGORY

Subpart A—Oil-Base Ink Subcategory

Sec.
447.14 [Reserved.]
447.15 Standards of performance for new sources.
447.16 Pretreatment standards for new sources.

Subpart B—Water-Base Ink Subcategory

447.20 Applicability; description of the water-base ink subcategory.
447.21 Specialized definitions.
447.22 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
447.23 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
447.24 [Reserved.]
447.25 Standards of performance for new sources.
447.26 Pretreatment standards for new sources.

Subpart A—Oil-Base Ink Subcategory

§ 447.10 Applicability; description of the oil-base ink subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of oil-base printing ink. When a plant is subject to effluent limitations covering more than one subcategory, the discharge limitation shall be the aggregate of the limitations applicable to the total production covered in each subcategory.

§ 447.11 Specialized definitions.

For the purpose of this subpart:

Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR 401 shall apply to this subpart.

§ 447.12 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategorization and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

The following limitations establish the quantity or quality of pollutants or pollutant properties which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available: There shall be no discharge of process waste water pollutants to navigable waters.

§ 447.13 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable: There shall be no discharge of process waste water pollutants to navigable waters.

§ 447.14 [Reserved]

§ 447.15 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties which may be discharged by a new source subject to the provisions of this subpart: There shall be no discharge of process waste water pollutants to navigable waters.

§ 447.16 Pretreatment standards for new sources.

The pretreatment standards under section 307(c) of the Act for a source within the oil-base ink subcategory, which is a user of a publicly owned treatment works (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR 128, except that, for the purpose of this section, 40 CFR 128.133 shall be amended to read as follows: "In addition to the prohibitions set forth in 40 CFR 128.131, the pretreatment standard for incompatible pollutants introduced into a publicly owned treatment works shall be the standard of performance for new sources specified in 40 CFR 447.15; provided that, if the publicly owned treatment works which receives the pollutants is committed, in its NPDES permit, to remove a specified percentage of any incompatible pollutant, the pretreatment standard applicable to users of such treatment works shall, except in the case of standards providing for no discharge of pollutants, be correspondingly reduced in stringency for that pollutant."

Subpart B—Water-Base Ink Subcategory

§ 447.20 Applicability; description of the water-base ink subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of water-base ink. When a plant is subject to effluent limitations covering more than one subcategory the discharge limitation shall be the aggregate of the limitations applicable to the total production covered in each subcategory.

§ 447.21 Specialized definitions.

For the purpose of this subpart:

Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR 401 shall apply to this subpart.

§ 447.22 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategorization and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

The following limitations establish the quantity or quality of pollutants or pollutant properties which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available: There shall be no discharge of process waste water pollutants to navigable waters.

§ 447.23 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable: There shall be no discharge of process waste water pollutants to navigable waters.

§ 447.24 [Reserved]

§ 447.25 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties which may be discharged by a new source subject to the provisions of this subpart: There shall be no discharge of process waste water pollutants to navigable waters.

§ 447.26 Pretreatment standards for new sources.

The pretreatment standards under section 307(c) of the Act for a source within the water-base ink subcategory, which is a user of a publicly owned treatment works (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR 128, except that, for the purpose of this section, 40 CFR 128.133 shall be amended to read as follows: "In addition to the prohibitions set forth in 40 CFR 128.131, the pretreatment standard for incompatible pollutants introduced into a publicly owned treatment works shall be the standard of performance for new sources specified in 40 CFR 447.25; provided that, if the publicly owned treatment works which receives the pollutants is committed, in its NPDES permit, to remove a specified percentage of any incompatible pollutant, the pretreatment standard applicable to users of such treatment works shall, except in the case of standards providing for no discharge of pollutants, be correspondingly reduced in stringency for that pollutant."

PART III

DEPARTMENT OF TRANSPORTATION

Urban Mass Transportation Administration

ELDERLY AND HANDICAPPED TRANSPORTATION SERVICES

Codification of Requirements

DEPARTMENT OF TRANSPORTATION

Urban Mass Transportation Administration

[49 CFR Part 609]

[Docket No. 74-03, Notice 1]

ELDERLY AND HANDICAPPED TRANSPORTATION SERVICES

Codification of Requirements

The Urban Mass Transportation Administration (UMTA) is considering issuing regulations to codify existing requirements and establish new requirements related to transportation services for the elderly and the handicapped.

Section 16(a) of the Urban Mass Transportation Act of 1964, as amended, states that elderly and handicapped persons have the same right as other persons to utilize mass transportation facilities and services. This section further directs that special efforts be made in the planning and design of mass transportation facilities and services to ensure the availability of transportation which can be effectively utilized by elderly and handicapped persons. Section 165(b) of the Federal-Aid Highway Act of 1973, as amended, extends the mandate of section 16 to mass transportation projects funded under the Federal-aid highway programs of title 23, United States Code.

THE ELDERLY AND HANDICAPPED PUBLIC

Dimensions. At the time of the 1970 Census there were 20,066,000 people in the United States age 65 and over, of whom 56 percent live in urbanized areas (50,000 population). The per capita income of the elderly tends to be above the level for persons under age 65, although the proportion of elderly below the poverty threshhold is higher than that of the population as a whole. Approximately 7 million of the elderly, or just over one-third, are handicapped to a degree such that the use of mass transportation services is difficult or impossible. The aging are generally concentrated in older neighborhoods of cities, in special retirement developments or communities, and in regions with warm climates. Like most of the general population, the elderly make the overwhelming majority of trips by car, as either drivers or passengers. On the other hand, there are large segments of the elderly population that are either rural or urban poor, and a large number that do not have access to private transportation.

Roughly, 6,340,000 persons under the age of 65 suffered from handicaps that would cause them difficulties in using mass transit systems, taking into account non-institutionalized handicapped persons with chronic visual and hearing impairments, those using mobility aids such as walkers, wheelchairs, crutches and canes, and those with other special mobility limitations, aids and acute conditions. Together with the one-third of the elderly who also suffer from handicaps, the total estimate of the transit-dysfunctional handicapped is 13,370,000 as of the 1970 Census.

The total population that is elderly or handicapped, with no double-counting, was estimated at 26,506,000 in 1970. Of this total, approximately 14.8 million persons live in urbanized areas. Unlike the elderly, the handicapped are widely dispersed throughout the population. The latest information available indicates that the number of able-bodied elderly and the number of handicapped (elderly and non-elderly) are approximately equal. The majority of persons who are handicapped suffer from some mobility limitation short of using crutches, wheelchairs or walkers (8,800,000), have visual impairments (1,970,000), or have acute conditions (e.g., broken legs) (490,000). There are estimated to be 430,000 persons who use a wheelchair, 410,000 persons who use a walker, and 330,000 deaf persons. (Unless otherwise specified, all statistics are drawn from the U.S. Department of Transportation's 1973 study entitled "The Handicapped and Elderly Market for Urban Mass Transit.")

Travel barriers. Not all of the elderly or the handicapped experience significant mobility limitation. An affluent, able-bodied, elderly driver, for example, has transportation experiences and needs quite different from that of either a handicapped nondriver of limited financial resources or an able-bodied poor elderly person in an automobile-oriented area. To the degree to which the elderly and/or handicapped have transportation difficulties, however, they tend to cluster around these areas: (1) Cost of obtaining service; (2) availability of service; and (3) physical demands made on passengers by the design of transportation facilities and equipment. Section 5 of the Urban Mass Transportation Act of 1964, as amended, mandates a one-half fare or less at non-peak hours for the elderly and handicapped on mass transportation systems receiving UMTA operating assistance. UMTA is implementing the half-fare requirement through the grant process. See 40 FR 2537.

This proposed rule deals primarily with the service and hardware aspects of the public transportation for the elderly and the handicapped. First, this proposed rule would require local transportation planners and operating officials to identify the travel requirements of elderly and handicapped persons and to develop specific plans and programs to meet these requirements. It would further condition the approval of grants for capital assistance on the development and implementation of such plans and programs. Second, the proposed regulations would prescribe design standards for mass transportation equipment and facilities in order to diminish the impediments to their use by persons with physical impairments.

The proposed rule. Persons who had the opportunity to review and comment on the original draft proposed rule that was discussed at public meetings in November 1974 will notice several substantial changes that have been made in response to comments from elderly and handicapped groups, transit planners, transit operators, governmental agencies and manufacturers of transit equipment.

First, every effort has been made to make it clear that the persons who are special beneficiaries of the statutes mandating service to the elderly and handicapped are members of the general public and an important potential market for transit service. Much of the terminology that the elderly and handicapped users indicated that they found offensive has been eliminated, and the regulation recast in the language of equipment features rather than characteristics of elderly or handicapped users. The requirements for special attention to their specific needs in planning and programming have been retained because the governing statutes require "special efforts" and because of the need for administrative control.

Second, a number of the requirements have been restated as performance rather than design standards, in response to user, operator and manufacturer comments indicating reservations with respect to the wisdom, safety and usefulness of some of the proposed rules and the fact that some of the features intended to confer a benefit on some handicapped users were viewed as creating a potential hazard for other handicapped users. Mandatory arm rests, for example, were deleted for this reason. The inclusion and specific design of many features has therefore been left to local option, with a requirement that the issues involved be discussed at the public hearings on the grant application.

Third, the effective dates of the requirements have been accelerated so that the main body of the requirements will be effective either 30 days after final publication of the regulations or within the next fiscal year's funding cycle. Specific effective dates for accessibility requirements in the proposed regulation denote features that are beyond the present state of the art or are now commercially unavailable and thus will require product development, tooling or retooling.

Planning. The elderly and handicapped form an important segment of the potential market for mass transportation services. Very little is known, however, about their actual mobility requirements and options, which will vary depending on their income, degree of personal independence, proximity to existing transit, access to automobiles, attitude towards public transportation and/or special services and a variety of other highly individual factors. Because of these individual factors, it may be fallacious to use perceived mobility need as a surrogate for estimates of potential transit use. The purpose of the planning requirement in this proposed regulations is to ensure that careful thought and study is given to the issue at the local level in view of the great variety among urban areas and the varying stages of development of transit service within those areas.

Subpart B requires the immediate commencement of unified planning work

program elements leading to the development of a regional plan for meeting the transportation needs of elderly and handicapped persons. UMTA grantees of planning assistance have already been instructed to be prepared to meet this requirement beginning with the 1975–76 planning cycle. Effective October 1, 1976, the five-year transportation improvement programs and plans (which are a precondition to the receipt of UMTA capital assistance) must include an element designed to analyze and meet the transportation needs of elderly and handicapped persons. The annual element of the program will be reviewed by the Urban Mass Transportation Administrator.

Capital assistance. The capital assistance application procedures of Subpart C are designed to ensure that the programs planned under Subpart B will be implemented. Prior to October 1, 1976, each capital grant application must incorporate assurances that the planning is under development and that the other requirements of this part are being met. After October 1, 1976, the capital grant application must either incorporate specific requests for funding parts of the program required by Subpart B or must indicate when such requests will be forthcoming. Since the program itself will be available to UMTA representatives through the unified work program, it will not be necessary to include it in every capital grant application. The specific design of accessibility features that are left to local option must be discussed at the public hearing on the capital grant application.

1. *Fixed facilities.* Section 609.15 requires that stations, terminals, buildings or other facilities designed, constructed or altered after the effective date of these regulations will be controlled by the minimum standards contained in the "American Standard Specifications for Making Buildings and Facilities Accessible to, and Usable by, the Physically Handicapped, Number A117.1–1961," the so-called ANSI standards. The definitions, waiver and exception provisions of this section are consistent with those adopted by the General Services Administration. These standards will apply not only to facilities intended for use by the public but also to other buildings in which handicapped persons may be employed as a result of the inclusion of accessibility features.

In addition to the ANSI standards, UMTA is proposing standards with respect to features that are unique to transit facilities: passenger pick-up and drop-off facilities ("kiss and ride"), fare collection systems, passenger information systems, and boarding platforms. All of these requirements are designed to be consistent with the ANSI standards, and are within the existing technical state of the art.

2. *Transit Vehicles.* The premise of this proposed regulation is that standard transit equipment designed to serve the general public ought to be made physically accessible to the maximum extent feasible to elderly and handicapped users who have a level of personal mobility and independence such that their use of public transportation, were accessibility features provided, would be a reasonable expectation. As indicated earlier in this preamble, roughly half of the population specifically benefitted by these rules consists of the essentially able-bodied elderly, who tend to suffer to some degree from the ailments statistically correlated with aging—visual impairment, hearing impairment, general physical weakness and personal insecurity. In a substantial number of the elderly, these difficulties have progressed to the point where they may pose a hindrance if not an absolute obstacle to transit use. Many of the proposed regulations are intended to provide interior design features that will make transit use easier for these users by easing the physical demands that the vehicle makes on the passenger. All transit vehicles purchased with funds from grants made after the effective date of these regulations will therefore be required to have padded interior handrails and stanchions, slip-resistant floor surfaces, priority seating arrangements, improved interior lighting, vehicle destination signs that are designed and located for maximum visibility, public address systems, barrier-free fare collection arrangements, improved door control mechanisms and an additional retractable lower step to minimize passenger difficulty in entering the vehicle. Some of this equipment is not currently available commercially. UMTA welcomes comment in particular on the appropriate effective dates for redesigned door control mechanisms, retractable lower steps and destination signs in view of the product development process that would be required. UMTA would also welcome comment on the effect of these requirements on current commuter rail technology.

The regulations differentiate between vehicle types for reasons that are partly technological, partly practical. The requirements for step-entry vehicles are made applicable to vehicles of a length in excess of 22 feet, which includes both full-sized standard transit vehicles and minibuses but not small specialized vans for which many of the requirements are inappropriate.

The regulations further differentiate between vehicles that do not require a passenger to make an unassisted level change in boarding the vehicle and those that do so require. Rapid rail facilities and other grade-separated systems such as personal rapid transit, for example, are built so that the passenger platform is at the same approximate height as the entrance to the vehicle, making it possible for a passenger to roll or walk into the car. UMTA proposes to require in § 609.17 that all such vehicles and their related facilities should be accessible to passengers in wheelchairs, that the interface between the vehicle and the platform should be as close as is technologically feasible in order to facilitate access, and that the interior of the vehicle should be designed to accommodate and secure the wheelchair. No proven wheelchair securement device is available commercially at the present time; UMTA welcomes comment on an appropriate effective date for this requirement.

Some transit modes—e.g., buses, light rail, commuter rail—operate at grade, typically in the stream of ordinary street traffic, and require the passenger to step up into the vehicle from the street or curb. The design of these vehicles assumes that the prospective passenger can make such a change in level unassisted, and with sufficient speed and dexterity to allow for a more or less steady flow of passengers making similar movements on and off the vehicle. The current generation of bus and trolley standard transit equipment does not contemplate a mechanical device to assist passengers in changing levels. Although there are some such devices in use on equipment designed especially for service to the handicapped, there is no device presently developed and proven reliable for use in a standard forty-foot urban transit bus or light rail vehicle. The proposed regulations would therefore require the development of a new stairwell on these vehicles with an initial step height from the ground of no more than 8 inches (the current bus requires the passenger to step up 15 inches), and tread depth of at least 10 inches. We invite comment on an appropriate implementation date for this requirement, which should be of great assistance to the entire class of elderly and handicapped users as well as the able-bodied members of the general public. The interior of the vehicles will be subject to the design standards of § 609.19.

A major UMTA research and development effort to design a new generation of transit equipment may be on the verge of providing a solution to the level-changing problem on at-grade vehicles. The three Transbus prototypes, currently undergoing operational demonstrations in major urban centers, are each equipped with level-changing devices—ramps in the case of the Rohr and AM General models, a lift in the case of the GM model. Most importantly from the point of view of the great majority of elderly and handicapped users who can negotiate steps but who find the steps on the current bus uncomfortably steep, the Transbus will have a lower floor and a two-step rather than three-step entry.

The Urban Mass Transportation Administrator has recently issued a policy statement on Transbus which indicates that UMTA will develop a performance specification based on the prototypes, and that if no unforeseen problems develop the performance specification will require a low-floor bus plus a ramp or lift device to accommodate wheelchair users. UMTA is currently exploring the development of such a device for future inclusion on the new generation of light rail vehicles developed also under its R&D program. Interior design features intended to facilitate use of the equipment by elderly and handicapped passengers will of course also be required. The completion of Transbus prototype testing is currently scheduled for August 1975; the performance specification will be developed concurrently, and the first of the new buses should be in revenue

XUM
V40139
FEB2675
XUM

service by late 1977 or early 1978. The UMTA decision to proceed with a performance specification rather than a detailed design specification has accelerated significantly the anticipated availability of the Transbus.

In addition to this effort, UMTA has also recently announced the award of a study contract to determine the optimum specific characteristics of a small bus used in transit service. The study will focus special attention on the contribution that such vehicles can make toward meeting the needs of the elderly and handicapped persons.

Contacts with parties prior to notice. UMTA issued a notice of meeting in the November 12, 1974 FEDERAL REGISTER, inviting interested parties to review and comment on a tentative draft regulation at informal hearings held November 25, 26, and 27 at the U.S. Department of Transportation headquarters in Washington, D.C. The hearings were held in order to solicit constructive comments from elderly and handicapped persons, operators of mass transportation systems, and manufacturers of mass transit equipment prior to UMTA's formulation of the proposed rule.

Statements made at these hearings by representatives of elderly and handicapped users favored all measures that would eliminate physical barriers to mass transportation systems, particularly for the wheelchair user. The concept of a totally separate transportation system for the elderly and handicapped in lieu of accessibility features on standard equipment was opposed by these representatives because they felt that such a system would segregate the users from the rest of the public and could obviate efforts directed toward full accessibility.

Representatives of the transit operators emphasized the need for flexibility at the local level in determining the appropriate service for the elderly and handicapped public within each urbanized area. The specific suggestions of the transit operators were submitted to UMTA on December 20, 1974 by the American Public Transit Association in the form of a completely re-drafted proposed regulation.

The manufacturers who attended these preliminary hearings stressed the need for performance standards rather than design specifications to permit maximum flexibility and creativity in producing equipment modifications for elderly and handicapped persons. Most representatives were optimistic about being able to produce the necessary hardware to satisfy the transportation needs of the elderly and handicapped, assuming adequate lead-time for designing new equipment and re-tooling production lines.

The opinions and suggestions presented at the hearings and submitted to UMTA in the subsequent comment period have been carefully considered in the vision of this proposed regulation.

Public comments and regional public hearings. UMTA welcomes comments on the proposed rule, particularly written comments that suggest specific ways in which the regulations may be improved. Interested parties are invited to participate in the making of the rule by submitting to UMTA such written data, views, or arguments as they may desire. Communications should identify the regulatory docket (No. 74–03) and be submitted to the following address: Urban Mass Transportation Administration, Office of the Chief Counsel, Docket No. 74–03, Room 9320, 400 7th Street SW., Washington, D.C. 20590. All written communications received on or before April 30, 1975, will be considered by the Urban Mass Transportation Administrator before action is taken on the proposed rule. The proposed rule contained in this notice may be changed as a result of comments received. All comments submitted will be available, both before and after the closing date for comment in the Office of the Chief Counsel for examination by interested parties.

In order to increase the opportunity for comments which can be used to evaluate and improve the proposed rule, UMTA will hold six public hearings during the public comment period. The hearings will be held on the following schedule in the indicated cities:

Monday, April 7, 1975—Los Angeles, California
Wednesday, April 9, 1975—Denver, Colorado
Friday, April 11, 1975—Chicago, Illinois
Tuesday, April 15, 1975—St. Petersburg, Florida
Thursday, April 17, 1975—Boston, Massachusetts
Tuesday, April 22, 1975—Washington, D.C.

Exact locations will be published in the FEDERAL REGISTER no later than March 7, 1975, and also in local daily newspapers at least 30 days before the hearing and again within 10 days before the hearing. Each hearing will have a daytime session beginning at 9:30 a.m. and an evening session beginning at 7:30 p.m.

The hearings will be informal in nature and will be conducted by a senior UMTA official representing the Administrator. At each hearing an UMTA spokesman will make a brief opening statement. Since the hearings will not be of the evidentiary or judicial type, there will be no cross-examination of those persons presenting statements. However, interested persons wishing to make rebuttal statements may do so in the same order as the initial statements were made.

All interested persons are invited to attend the hearings, and each such person is invited to present oral or written statements concerning the proposed rule at one of the hearings. Persons making oral statements are strongly encouraged to submit the substance of their remarks in written form either at the hearing or by mail to the Office of the Chief Counsel, Docket No. 74–03 (see address above) in time to arrive on or before April 30, 1975.

The sequence of speakers at each hearing will be based on the order of registration. Persons who wish to ensure an opportunity to speak should register in advance of the hearing by notifying UMTA of the date, city, session (daytime or evening), and amount of time requested. Such requests for advance registration must be made by mail to the Office of the Chief Counsel, Docket 74–03 (see address above).

If a very large number of persons request an opportunity to speak at a given hearing, UMTA reserves the right to restrict the length of time allowed for each oral statement in order to give the maximum number of persons the opportunity to be heard.

This amendment to title 49, Code of Federal Regulations, is proposed under the authority of sections 5 and 16, Urban Mass Transportation Act of 1964, as amended (49 U.S.C. §§ 1604, 1612); section 165(b), Federal-Aid Highway Act of 1973, as amended (23 U.S.C. § 142nt.); section 504, Rehabilitation Act of 1973 (29 U.S.C. § 794); and 49 CFR § 1.50. Section 315 of the Department of Transportation and Related Agencies Appropriations Bill of 1975, although not part of UHTA's permanent and substantive statutory authority, provides an additional basis for these regulations.

In consideration of the foregoing, it is proposed to amend chapter VI of title 49 of the Code of Federal Regulations by adding a new part 609 as set forth below.

Issued on February 21, 1975.

FRANK C. HERRINGER,
Urban Mass Transportation Administrator.

PART 609—ELDERLY AND HANDICAPPED

Subpart A—General

Sec.
609.1 Purpose.
609.3 Definitions.
609.5 Applicability.
609.7 Waiver.

Subpart B—Requirements for Transportation Planning

609.9 Transportation planning in urbanized areas.
609.11 Transportation planning in nonurbanized areas.

Subpart C—Requirements for Capital Assistance Projects

609.13 Applications for capital assistance.
609.15 Fixed facilities.
609.17 Level-entry vehicles.
609.19 Step-entry vehicles.

Subpart D—Requirements for Formula Apportionment Projects

609.21 Capital projects receiving formula assistance.
609.23 Reduced fare.

AUTHORITY: Sec. 5 and 16, Urban Mass Transportation Act of 1964, as amended (49 U.S.C. 1604, 1612); sec. 165(b), Federal-Aid Highway Act of 1973, as amended (23 U.S.C. 142nt.); section 504, Rehabilitation Act of 1973 (29 U.S.C. 794); 49 CFR 1.50.

Subpart A—General

§ 609.1 Purpose.

The purpose of this part is to establish formally the requirements of the Urban Mass Transportation Administration (UMTA) on the subject of transportation services for elderly and handicapped persons.

§ 609.3 Definitions.

As used herein:

"Elderly person" means any individual age 65 or over.

"Handicapped person" means any individual who, by reason of illness, injury, age, congenital malfunction, or other permanent or temporary incapacity or disability, including those who are nonambulatory wheelchair-bound and those with semiambulatory capabilities, is unable without special facilities or special planning or design to utilize mass transportation facilities and services as effectively as persons who are not so affected.

"Level-entry vehicle" means any vehicle which does not require the passenger to negotiate a step or steps, or to use a level-change mechanism such as a lift or ramp, in order to board and exit.

"Step-entry vehicle" means any vehicle which requires the passenger to negotiate a step or steps, or to use a level-change mechanism such as a lift or ramp, in order to board and exit.

§ 609.5 Applicability.

(a) This part, which applies only to projects approved by the Urban Mass Transportation Administrator after the part's effective date, applies to all transit planning, capital assistance, and operating assistance projects receiving Federal financial assistance under sections 3, 5, or 9 of the Urban Mass Transportation Act of 1964, as amended (49 U.S.C. 1602, 1604, or 1607a), and all projects receiving Federal financial assistance under (1) subsection (a) or (c) of section 142 of title 23, United States Code, (2) paragraph (4) of subsection (e) of section 103, title 23, United States Code, and (3) section 147 of the Federal-Aid Highway Act of 1973, as amended. Subpart C (Requirements for Capital Assistance Projects) expressly applies to capital assistance projects receiving Federal financial assistance under any of the above statutes.

(b) Unless otherwise noted, this part is effective 30 days after publication of the final regulation in the FEDERAL REGISTER. Where a requirement in this part includes a specific effective date, such requirement applies to facilities and equipment in projects approved by the Urban Mass Transportation Administrator after such effective date.

§ 609.7 Waiver.

The requirements set forth in this part may be modified or waived on a case-by-case basis upon application to the Urban Mass Transportation Administrator if the Administrator determines that such waiver or modification is clearly necessary and is consistent with the intent of the laws cited under "Authority." Any request for waiver of any provision of these regulations must be presented for comment at the public hearing required prior to submission of a project application to UMTA.

Subpart B—Requirements for Transportation Planning

§ 609.9 Transportation planning in urbanized areas.

(a) The requirements in this section apply to transit planning for all urbanized areas. General requirements for transportation planning in urbanized areas have been published in a joint Federal Highway Administration-UMTA notice of proposed rulemaking at 39 FR 39660.

(b) All unified work programs for planning which include funding requests for UMTA planning assistance shall include work items for the metropolitan planning organization with the participation of public transportation agencies of the region, sufficient to develop or maintain a regional plan and program for meeting the transportation needs of elderly and handicapped persons. The regional implementation plan and schedule shall provide for an annual review of unmet needs by representatives of health, welfare, comprehensive planning, and transportation agencies of the region.

(c) Transportation improvement programs and transportation plans submitted to UMTA on or after October 1, 1976, shall include an element designed to meet the transportation needs of elderly and handicapped persons. At a minimum this element of these programs and plans shall include:

(1) An identification of the elderly and handicapped persons within the urbanized area, their location in relation to regular route transit services, and the type and approximate number of trips projected to be taken on public transportation (purpose, time of day, origins and destinations);

(2) A description of the public and private resources presently devoted to meeting the transportation needs of the elderly and handicapped persons in the urbanized area;

(3) A description of the public and private transportation services currently in the urbanized area and the degree to which they contribute to meeting the transportation needs of elderly and handicapped persons; and, if all the public transportation needs of elderly and handicapped persons are not being met by those services, an explanation of the nature of and reasons for the deficiency.

(4) A range of alternative service improvements for meeting the transportation needs of elderly and handicapped persons, and the justification for selecting a specific alternative from among those available. The selected alternative may draw on more than one method of service improvement.

(d) The elderly and handicapped portion of the annual element of the transportation improvement program is subject to the approval of the Urban Mass Transportation Administrator.

§ 609.11 Transportation planning in nonurbanized areas.

Effective October 1, 1976, in nonurbanized areas planning equivalent to that required by § 609.9 must be accomplished on an appropriate scale before a capital assistance project can be approved for that area.

Subpart C—Requirements for Capital Assistance Projects

§ 609.13 Applications for capital assistance.

(a) Before October 1, 1976, each application for capital assistance shall provide an assurance that:

(1) A definite plan and program for meeting the transportation needs of the elderly and handicapped persons is under development or completed pursuant to §§ 609.9 and 609.11.

(2) All valid alternatives for meeting the transportation needs of elderly and handicapped persons have been or will be evaluated in the development of the plan and program.

(3) The provisions in the project for elderly and handicapped persons, and the relationship of this project to the plan and program required by §§ 609.9 and 609.11, have been explained at the public hearing required during the application process. When the application involves new rolling stock, details on the features of that equipment, including stanchion and handrail configurations, fare collection equipment, and priority seating arrangements that particularly serve elderly and handicapped persons shall be presented at the public hearing. Persons desiring to comment on that explanation at the public hearing must be heard. Evidence of the applicant's response to such comments shall be included in the application.

(4) All facilities and equipment contained in the project will meet the applicable requirements of this part.

(b) After October 1, 1976, each application for capital assistance shall provide an assurance that:

(1) A definite plan and program for meeting the transportation needs of the elderly and handicapped has been developed pursuant to §§ 609.9 and 609.11.

(2) All valid alternatives have been evaluated in the development of the proposed plan and program;

(3) The application requests funding for those projects or items accorded current implementation priority under the plan and program required by §§ 609.9 and 609.11. If the application does not include all such projects or items, the application must include a justification satisfactory to the Urban Mass Transportation Administrator and a proposed schedule for submission of appropriate applications.

(4) The provisions in the project for elderly and handicapped persons, and the relationship of this project to the plan and program required by §§ 609.9 and 609.11, have been explained at the

XUM
V 40 39
FEB 26 75
XUM

public hearing required during the application process. When the application involves new rolling stock, details on the features of that equipment, including stanchion and handrail configurations, fare collection equipment, and priority seating arrangements that particularly serve elderly and handicapped persons shall be presented at the public hearing. Persons desiring to comment on that explanation at the public hearing must be heard. Evidence of the applicant's response to such comments shall be included in the application.

(5) All facilities and equipment contained in the project will meet the applicable requirement of this part.

§ 609.15 Fixed facilities.

(a) Except as otherwise provided in paragraph (b) of this section, every fixed facility—including every station, terminal, building, or other facility—designed, constructed, or altered after the effective date of this part, which either will require that such fixed facility be accessible to the public or may result in the employment therein of physically handicapped persons, shall be designed, constructed, or altered in accordance with (1) the minimum standards contained in the "American Standard Specifications for Making Buildings and Facilities Accessible to, and Usable by, the Physically Handicapped, Number A117.1—1961," approved by the American Standards Association, Inc. (subsequently changed to American National Standards Institute, Inc.) [ANSI], and (2) the additional standards of paragraph (d) of this section.

(b) The standards established in paragraph (a) of this section do not apply to:

(1) The design, construction, or alteration of any portion of a fixed facility which need not, because of its intended use, be made accessible to, or usable by, the public or by physically handicapped persons;

(2) The alteration of an existing fixed facility if the alteration does not involve the installation of, or work on, existing stairs, doors, elevators, toilets, entrances, drinking fountains, floors, telephone locations, curbs, parking areas, or any other facilities susceptible of installation or improvements to accommodate the physically handicapped;

(3) The alteration of an existing fixed facility, or of such portions thereof, to which application of the standards is not structurally possible; and

(4) The construction or alteration of a fixed facility for which bids have already been solicited or plans and specifications have been completed or substantially completed after the effective date of this part.

(c) The final project application for any project that includes the design, construction, or alteration of a fixed facility subject to paragraph (a) of this section shall contain one of the following: (1) An assurance that the standards of paragraph (a) of this section will be adhered to in the design, construction, or alteration of such facility; (2) a request for a finding that the project is within one of the exceptions set out in paragraph (b) of this section, with appropriate supporting material; or (3) a request for waiver of the standards of paragraph (a) of this section. In any case in which a waiver or exception is requested, the grounds therefor shall be presented and discussed at the public hearing on the proposed project; any person seeking to comment thereon shall be heard and his comments responded to on the record of the public hearing.

(d) In addition to the ANSI standards of paragraph (a) of this section, the following standards apply to fixed facilities covered by that paragraph.

(1) Passenger pick-up and drop-off facilities: Stations with automobile passenger pick-up and drop-off facilities shall provide at least one stopping area identified for the use of handicapped persons. This stopping area shall have minimum dimensions of 12 feet wide and 22 feet long, and shall be located as near as possible to the station entrance(s) and exit(s) accessible to handicapped persons.

(2) Fare collection systems: The fare vending system shall be designed so as not to prevent effective utilization of the transportation system by passengers with physical impairments. Each fare control area shall include at least one entrance with a clear opening of at least 36 inches when open for the use of persons who use mobility aids.

(3) Information systems: Passenger waiting and boarding areas in major, enclosed stations shall have both public address and visual announcement systems for announcing transit information, including vehicle arrival, departure, destination, and route designation.

(4) Boarding platforms: All boarding platform edges bordering a drop-off or other dangerous condition shall be marked with a warning device consisting of a strip of floor material differing in color and texture from the remaining floor surface. The design of boarding platforms for level-entry vehicles shall be coordinated with the vehicle design in order that the difference in elevation between platform and vehicle doorway not exceed 1.5 inches and the horizontal gap between platform and vehicle doorway not exceed 2 inches.

§ 609.17 Level-entry vehicles.

(a) New level-entry vehicles shall be accessible to elderly and handicapped persons and shall conform to the standards of this section.

(b) Entrances and exits: (1) Vehicle entrances and exits shall have a clear opening of at least 36 inches. If the entire system is not fully accessible, entrances and exits to fully accessible vehicles shall be identified on the vehicle exterior as accessible to handicapped persons. Vehicle doors shall open automatically and shall be equipped with devices which prevent vehicle motion when the door is open, prevent door closure on any person or object in the doorway, and prevent door opening when the vehicle is in motion. Warning signals shall be provided to alert elderly and handicapped passengers of closing doors.

(2) The design of level-entry vehicles shall be coordinated with the boarding platform design in order that the difference in elevation between platform and vehicle doorway not exceed 1.5 inches and the horizontal gap between platform and doorway not exceed 2 inches.

(c) Priority seating signs: Each vehicle shall contain clearly legible sign(s) which mark specific seats to be made available to elderly and handicapped persons when they are present. The proposed location of the signs and seats shall be presented at the hearing required by § 609.13(b)(4).

(d) Wheelchair securement devices and travel clearance: (1) Effective January 1, 1976, at least one wheelchair securement device shall be provided inside the vehicle, as near as possible to the entrance(s) accessible to handicapped persons. The device(s) shall be located so that the secured wheelchair does not impede the mobility of the nonhandicapped passenger.

(2) Sufficient travel clearance shall be provided to enable the wheelchair user to reach the securement position with minimal movements and manipulation of the wheelchair.

(3) The securement device shall be operable by the wheelchair user and shall be attached to the vehicle structure with integrity comparable to that of seat mounting.

(4) The wheelchair securement device is not required for a level-entry vehicle which is operated on a system which has fewer than two wheelchair-accessible stations.

(e) Interior handrails and stanchions: Padded handrails and stanchions shall be sufficient to permit safe boarding, onboard circulation, seating assistance, and unboarding by passengers with physical impairments.

(f) Floor surface: All floors shall have slip-resistant surfaces.

(g) Lighting: The interior of the vehicle shall average between 15 and 30 footcandles of illumination measured at 36 inches above the floor, except that when the vehicle has an open operator's position, the level of illumination shall not exceed 8 footcandles.

(h) Public address system: Vehicles shall be equipped with a public address system audible throughout the vehicle.

(i) Destination and route signs: (1) This paragraph is effective January 1, 1976.

(2) Each vehicle or train shall have a sign on the front of the vehicle or train exterior. The sign shall include the route designation or destination or both in characters 6 inches high.

(3) Each vehicle or train shall have a sign on the boarding side of the vehicle or train exterior. This sign shall include the route designation or destination or both in characters at least 4 inches high.

§ 609.19 Step-entry vehicles.

(a) The requirements of this section apply to all new step-entry vehicles with a length of at least 22 feet.

(b) Entrances and exits: (1) Vehicles shall be equipped with device(s) which prevent vehicle motion when the door is open, prevent door closure on any person or object in the doorway, and prevent door opening when the vehicle is in motion.

(2) Effective January 1, 1976, the maximum height of each step from street level to vehicle floor level shall be uniform and no more than 8 inches; the depth of tread of each step shall be uniform and at least 10 inches. The step surfaces of retractable steps shall be designed to resist the collection of snow, slush, and dirt.

(c) Fare collection: Vehicle fare collection arrangements shall be designed so as not to prevent effective utilization of the vehicle by passengers with physical impairments.

(d) Priority seating signs: Each vehicle shall contain clearly legible sign(s) which mark specific seats to be made available to elderly and handicapped persons when they are present. The proposed location of the signs and seats shall be presented at the hearing required by § 609.13(b)(4).

(e) Interior handrails and stanchions: Padded handrails and stanchions shall be sufficient to permit safe boarding, fare collection, on-board circulation, seating assistance, and unboarding by passengers with physical impairments.

(f) Floor and step surfaces: All floors and steps shall have slip-resistant surfaces.

(g) Lighting: (1) The interior of the vehicle shall average between 15 and 30 footcandles of illumination measured at 36 inches above the floor, except in the immediate vicinity of the vehicle operator's position where the level of illumination shall not exceed 8 footcandles.

(2) Stairwells shall have between 2 and 5 footcandles of illumination measured on the step tread.

(3) The vehicle shall have light(s) which provide 2 to 5 footcandles of illumination measured on the road, sidewalk, or platform 2 feet away from the vehicle's entrance and exit in a horizontal direction.

(h) Public address system: Vehicles shall be equipped with public address systems audible inside and outside the vehicle.

(i) Destination and route signs: (1) This paragraph is effective January 1, 1976.

(2) Each vehicle shall have an illuminated sign on the front of the vehicle exterior. The sign shall include the route designation or destination or both in characters 6 inches high.

(3) Each vehicle shall have illuminated signs on the boarding side and rear of the vehicle exterior. These signs shall include the route designation or destination or both in characters at least 4 inches high.

(4) Illuminated signs shall be free of extraneous light.

Subpart D—Requirements for Formula Apportionment Projects

§ 609.21 Capital projects receiving formula assistance.

Sections 609.15 through 609.21 apply to all construction and other capital assistance projects receiving Federal financial assistance under section 5 of the Urban Mass Transportation Act of 1964, as amended (49 U.S.C. 1604).

§ 609.23 Reduced fare.

Applicants for Federal financial assistance under section 5 of the Urban Mass Transportation Act of 1964, as amended (49 U.S.C. 1604), must, as a condition to receiving such assistance, give satisfactory assurances, in such manner and form as may be required by the Urban Mass Transportation Administrator and in accordance with such terms and conditions as the Urban Mass Transportation Administrator may prescribe, that the rates charged elderly and handicapped persons during nonpeak hours for transportation utilizing or involving the facilities and equipment of the project financed with assistance under this section will not exceed one-half of the rates generally applicable to other persons at peak hours, whether the operation of such facilities and equipment is by the applicant or is by another entity under lease or otherwise.

an invaluable reference tool

1974–75 Edition

This official guidebook provides useful information about U.S. Government agencies, including:

- Major programs and functions
- Listings of key officials
- Organization charts for many agencies

Most agency descriptions include a "Sources of Information" section that gives addresses and telephone numbers for obtaining specifics on employment, government contracts, environmental programs, small business opportunities, publications, speakers and films available to civic and educational groups, and other topics of public interest.

This handbook is a "must" for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

list of cfr parts affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, follows beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1974, and specifies how they are affected.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 4—Accounts

CHAPTER III—COST ACCOUNTING STANDARDS BOARD

SUBCHAPTER G—COST ACCOUNTING STANDARDS

PART 409—COST ACCOUNTING STANDARD

Depreciation of Tangible Capital Assets

Correction

In FR Doc. 75-2626 appearing at page 4259, in the issue for Wednesday, January 29, 1975, make the following corrections:

1. In § 409.50(i) change the word "group" appearing in the third line to "groups."

2. In § 409.50(j)(1) change the reference in the seventh line from "(h) (2) and (3)" to "(j) (2) and (3)."

3. In § 409.60(f), change the word "manual" which appears in the fourteenth line to read "annual".

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Navel Orange Reg. 341]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation fixes the quantity of California-Arizona Navel oranges that may be shipped to fresh market during the weekly regulation period Feb. 28–Mar. 6, 1975. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 907. The quantity of Navel oranges so fixed was arrived at after consideration of the total available supply of Navel oranges, the quantity currently available for market, the fresh market demand for Navel oranges, Navel orange prices, and the relationship of season average returns to the parity price for Navel oranges.

§ 907.641 Navel Orange Regulation 341.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the respective quantities of Navel oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week steps from the production and marketing situation confronting the Navel orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Navel oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Navel oranges continues slower. Prices f.o.b. averaged $3.75 per carton on a reported sales volume of 1,110 carlots last week, compared with an average f.o.b. price of $3.69 per carton and sales of 1,366 carlots a week earlier. Track and rolling supplies at 627 cars were up 18 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Navel oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on February 25, 1975.

(b) *Order.* (1) The respective quantities of Navel oranges grown in Arizona and designated part of California which may be handled during the period February 28, 1975, through March 6, 1975, are hereby fixed as follows:

(i) District 1: 1,218,000 cartons;

(ii) District 2: 182,000 cartons;

(iii) District 3: Unlimited movement."

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; (7 U.S.C. 601–674))

Dated: February 26, 1975.

CHARLES R. BRADDER,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.75-5488 Filed 2-26-75;12:08 pm]

[Grapefruit Reg. 75, Amdt. 4; Tangerine Reg. 46, Amdt. 6]

PART 905—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

Limitation of Handling

Amendment 4 to Regulation 75 lowers the minimum diameter requirement applicable to domestic shipments of pink seedless grapefruit to $3\frac{2}{16}$ inches on February 24, 1975. Amendment 6 to Regulation 46 lowers the minimum diameter re-

XUM V 40 140 FEB 27 75 XUM

quirement applicable to domestic shipments of tangerines to 2¾6 inches on February 24, 1975. The specification of such lower minimum diameter requirements for Florida pink seedless grapefruit and tangerines is necessary to satisfy the current and prospective demand for such fruit. The amended regulations recognize the size distribution of much of the pink seedless grapefruit and tangerines remaining for fresh shipment.

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 905, as amended (7 CFR Part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the requirements applicable to grapefruit and tangerines, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) These amendments reflect the Department's appraisal of the current and prospective demand for fresh pink seedless grapefruit and tangerines by domestic market outlets. The less restrictive size requirement for pink seedless grapefruit is consistent with the remaining supply of and current and prospective demand for such grapefruit by fresh market outlets. Fresh shipments of Florida grapefruit for the season through February 16, 1975, totaled 16,748 carlots, and there were an estimated 10,252 carlots remaining for shipment. The lower minimum diameter requirement specified for shipments of tangerines is necessary to satisfy the demand for such fruit during the period of seasonally reduced supply. For the season through February 16, 1975, fresh shipments of Florida tangerines totaled 4,042 carlots and there were 58 carlots estimated to be remaining for fresh shipment.

(3) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of these amendments until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) in that the time intervening between the date when information upon which these amendments are based became available and the time when these amendments must become effective in order to effectuate the declared policy of the act is insufficient; and these amendments lower requirements applicable to the handling of pink seedless grapefruit and tangerines grown in Florida.

Order. 1. In § 905.556 (Grapefruit Reg. 75; 39 FR 32976, 37186, 40745, 42899) the provisions of paragraph (b)(4) are amended to read as follows:

§ 905.556 Grapefruit Regulation 75.

* * * * *

(b) * * *

(4) Any seedless grapefruit, other than pink seedless grapefruit, grown in the production area, which are of a size smaller than 3⅛ inches in diameter, or any pink seedless grapefruit which are of a size smaller than 3⅜6 inches in diameter, except that a tolerance for seedless grapefruit smaller than such minimum diameters shall be permitted as specified in § 51.761 of the United States Standards for Florida Grapefruit.

* * * * *

2. § 905.557 (Tangerine Reg. 46; 39 FR 32976; 37186, 40745, 41239, 42899, 44735) the provisions of paragraph (b) (2) are amended to read as follows:

§ 905.557 Tangerine Regulation 46.

* * * * *

(b) * * *

(2) Any tangerines, grown in the production area, which are of a size smaller than 2²⁄16 inches in diameter, except that a tolerance for tangerines smaller than such minimum diameter shall be permitted as specified in § 51.1818 of the United States Standards for Florida Tangerines.

* * * * *

(Secs. 1–19, 48 Stat. 31, as amended; (7 U.S.C. 601–674))

Dated: February 24, 1975, to become effective February 24, 1975.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

PART 944—FRUITS; IMPORT REGULATIONS

Limitation of Handling

This amendment lowers the minimum diameter requirement applicable to imported pink seedless grapefruit to 3⅜ inches on February 24, 1975. The requirement is the same as that applicable to grapefruit produced in Florida and regulated pursuant to Marketing Order No. 905.

This amendment is consistent with section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). This section requires that whenever specified commodities, including grapefruit, are regulated under a federal marketing order, imports of that commodity must meet the same or comparable requirements as those in effect for the domestically produced commodity. This regulation fixes the same size requirement on imported pink seedless grapefruit as is effective under Marketing Order No. 905, as amended (7 CFR Part 905), regulating the handling of oranges, grapefruit, tangerines and tangelos grown in Florida.

Order. In § 944.111 (Grapefruit Regulation 15; 39 FR 33306, 37188) the provisions of paragraph (a) are amended to read as follows:

§ 944.111 Grapefruit Regulation 15.

(a) * * *

(1) Seeded grapefruit shall grade at least U.S. No. 1 and be of a size not smaller than 3¹⁵⁄16 inches in diameter except that a tolerance for seeded grapefruit smaller than such minimum size shall be permitted as specified in § 51.761 of the United States Standards for Florida Grapefruit;

(2) Seedless grapefruit shall grade at least Improved No. 2 ("Improved No. 2" shall mean grapefruit grading at least U.S. No. 2 and also meeting the requirements of the U.S. No. 1 grade as to shape (form) and color.); and

(3) Seedless grapefruit other than pink seedless grapefruit shall be of a size not smaller than 3⅜6 inches in diameter, and pink seedless grapefruit shall be of a size not smaller than 3⅝6 inches in diameter, except that a tolerance for seedless grapefruit smaller than such minimum sizes shall be permitted as specified in § 51.761 of the United States Standards for Florida Grapefruit.

* * * * *

It is hereby found that it is impracticable, unnecessary and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective time of this amendment beyond that hereinafter specified (5 U.S.C. 553) in that (a) the requirements of this amended import regulation are imposed pursuant to section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), which makes such regulation mandatory; (b) this amendment fixes the same requirement for imports of pink seedless grapefruit as is applicable under amended Grapefruit Regulation 75 (§ 905.556) to the shipment of pink seedless grapefruit grown in Florida; and (c) this amendment lowers requirements for the importation of pink seedless grapefruit.

(Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674))

Dated: February 24, 1975, to become effective February 24, 1975.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.75-5190 Filed 2-26-75;8:45 am]

Correction

In FR Doc. 75-4237 appearing on page 6766 in the issue for Friday, February 14, 1975, make the following change; in the authority cite after § 73.1a, in the last line now reading "28464, * * * 19141.)" the "FA" should read "FR".

Title 12—Banks and Banking

CHAPTER V—FEDERAL HOME LOAN BANK BOARD

SUBCHAPTER B—FEDERAL HOME LOAN BANK SYSTEM

[No. 75-150]

PART 523—MEMBERS OF BANKS

Liquidity Requirements

FEBRUARY 13, 1975.

The Federal Home Loan Bank Board considers it desirable to amend § 523.11 of the regulations for the Federal Home Loan Bank System (12 CFR 523.11) for the purposes of increasing the overall liquidity requirement of each Federal Home Loan Bank member from 5 percent to 5½ percent of its liquidity base and of increasing each member's short-term liquidity requirement from 1 percent to 1½ percent of such base. Accordingly, the Federal Home Loan Bank Board hereby amends said § 523.11 by revising paragraph (a) thereof, to read as follows, effective April 1, 1975:

§ 523.11 Liquidity requirements.

(a) *General.* For each calendar month, each member, other than a mutual savings bank as to which there is in effect the election provided for in paragraph (e) of this section, shall maintain an average daily balance of liquid assets in an amount not less than 5½ percent of the average daily balance of the member's liquidity base during the preceding calendar month, except as otherwise provided in paragraphs (b) and (d) of this section. For each calendar month, each member, other than a mutual savings bank or an insurance company, shall maintain an average daily balance of short-term liquid assets in an amount not less than 1½ percent of the average daily balance of the member's liquidity base during the preceding calendar month, except as otherwise provided in paragraphs (b) and (d) of this section.

* * * * *

Since members' recent reports to the Board show a substantial increase in cash flow, making funds more available for lending and for other purposes, the Board determines that it is prudent to increase members' liquidity requirements without the delay that would result if notice and public procedure were provided with respect to this amendment. Therefore, the Board hereby finds that notice and public procedure as to this amendment are impracticable and contrary to the public interest under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b).

(Sec. 5A, 47 Stat. 727, as added by sec. 1, 64 Stat. 256, as amended, sec. 17, 47 Stat. 736, as amended (12 U.S.C. 1425a, 1437). Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943–48, Comp., p. 1071).

By the Federal Home Loan Bank Board.

[SEAL] GRENVILLE L. MILLARD, Jr.,
Assistant Secretary.

[FR Doc.75-5264 Filed 2-26-75;8:45 am]

[No. 75-149]

PART 523—MEMBERS OF BANKS

Definitions Relating to Liquidity

FEBRUARY 13, 1975.

The following summary of the amendments adopted by this resolution is provided for the reader's convenience and is subject to the full explanation in the following preamble and to the specific provisions of the regulation.

I. *Regulations prior to present amendments.* Obligations of the United States having a remaining period to maturity of not exceeding 7 years (also an exception of ½ of 1 percent of the liquidity base as to longer term obligations) may be counted as liquid assets. Both obligations of the United States and specified Federal agency obligations having a remaining period to maturity of not exceeding 18 months may be counted as short-term liquid assets.

II. *Regulatory changes proposed in Board Resolution No. 74-1050, dated October 9, 1974 (39 FR 41263).* (1) Reduce from 7 to 5 years the permissible maximum maturity of United States obligations which are includable as liquid assets;

(2) Delete the ½ of 1 percent exception as to United States obligations having a remaining maturity exceeding 7 years; and

(3) Reduce from 18 to 12 months the permissible maximum maturity of United States and specified Federal agency obligations which are includable as short-term liquid assets.

A 6-month phase-in period was proposed as to these changes.

III. *Final regulations.* (1) Same as the proposed regulations, except that the phase-in period as to long term liquid assets is changed from 6 to 24 months. The proposal's 6-month phase-in period as to short-term liquid assets is retained.

(2) Additional liberalizing changes permitting the following investments to be counted for liquidity purposes:

(a) Any liquid asset type investment which is subject to a repurchase agreement (prior to this resolution, the regulations as to repurchase agreements were applicable to only obligations of the United States, specified Federal agency obligations, time deposits and municipal obligations);

(b) Certain project notes of public housing authorities which are guaranteed by the United States (such project notes did not qualify under the regulations prior to this resolution because the notes are not "rated" in the market); and

(c) Non-negotiable certificates of deposit having a remaining period to maturity of not exceeding 90 days (the regulations prior to this resolution were applicable only to certain negotiable CDs and notice-type time deposits).

(3) Technical changes.

(a) Delete obsolete language in definition of "liquid assets".

(b) Increase from $20,000 to $40,000 the amount specified in § 523.10(g)(4)(i)(b) (12 CFR 523.10(g)(4)(i)(b)) as to certificates of deposit and Federal funds.

IV. *Reasons for changing the regulations.* (1) Require that regulatory liquidity be invested in assets having minimum fluctuation in market value because of their short remaining maturities.

(2) Liberalize the laundry list of types of investments which can be counted for liquidity.

(3) Up-date the regulations, particularly as to the new statute increasing FDIC-insurance per account to $40,000.

By Resolution No. 74-1050, dated October 9, 1974, the Board proposed to amend Part 523 of the regulations for the Federal Home Loan Bank System (12 CFR Part 523) by revising certain portions of §§ 523.10 (g) and (h), relating to investments which qualify as liquid assets or as short-term liquid assets, for the principal purposes of (1) reducing from 7 to 5 years the permissible maturity of United States obligations which are includable as liquid assets, (2) deleting the general authority to include as liquid assets a certain amount of United States obligations having a maturity of more than 7 years, and (3) reducing from 18 to 12 months the permissible maturity of obligations of the United States, and agencies and instrumentalities thereof, which are includable as short-term liquid assets. The preamble in this proposal stated that the Board intended to delay the effective date of any final regulation regarding these matters for at least 6 months to reduce difficulties in complying with the changes. The Board also proposed to remove the obsolete distinction, presently in § 523.10(g), as to the definition of "liquid assets" before and after January 1, 1972.

Notice of such proposed rulemaking was duly published in the FEDERAL REGISTER on November 26, 1974 (39 FR 41263–41264), with an Invitation for interested persons to submit written comments by December 31, 1974. On the basis of its consideration of all relevant material presented by interested persons and otherwise available, the Board considers it desirable to amend certain portions of the regulations regarding liquidity. Accordingly, the Board hereby amends said Part 523 by (1) revising certain portions of §§ 523.10 (g) and (h) to read as set forth below and (2) adding a new § 523.10(i), immediately following § 523.10(h), to read as set forth below, effective April 1, 1975.

One type of change effected by this resolution concerns the remaining period to maturity of certain obligations of the United States and certain agencies of the United States which are counted as regulatory liquidity.

Prior to the changes effected as to "liquid assets" by this resolution, § 523.10 (g)(2) provided in substance that an unpledged obligation of the United States could be counted as a "liquid asset" if its remaining period to maturity did not

V 40 40 FEB 27 75 XUM

exceed 7 years or if the obligation qualified under the regulatory exception providing that a member could include as liquid assets an amount equal to one-half of one percent of the average daily balance of the member's liquidity base for the preceding calendar month obligations of the United States having a remaining period to maturity of more than 7 years. This resolution reduces from 7 to 5 years this remaining period to maturity and deletes the above one-half-of-one-percent exception. However, it is noted that although the proposal indicated that there would be a 6-month phase-in time, this resolution provides for a two-year phase-in time as to these changes (see new § 523.10(i)). This means that, beginning on April 1, 1975 all new purchases for liquidity purposes of obligations of the United States or certain agencies or instrumentalities thereof are restricted to such obligations having remaining maturities of not more than 5 years. Further, beginning on April 1, 1977, the regulatory requirement regarding the remaining period to maturity as to both obligations of the United States and obligations of certain agencies or instrumentalities of the United States will be the same, i.e. 5 years.

Prior to the changes effected as to "short-term liquid assets" by this resolution, § 523.10(h)(2) provided in substance that an unpledged obligation of the United States or of certain agencies of the United States could be counted as a "short-term liquid asset" if its remaining period to maturity did not exceed 18 months. This resolution reduces from 18 to 12 months this remaining period to maturity. The proposal indicated, and this resolution provides, for a six-month phase-in time as to this change (see new § 523.10(i)).

A second type of change effected by this resolution concerns the addition of several items to the laundry list of investments which qualify for regulatory liquidity. No such liberalizing changes were contained in the proposal. This resolution adds the following investments to the investments which may be counted for liquidity purposes:

(a) Any asset which is subject to a repurchase agreement if the asset would be counted were there no loan and repurchase agreement as to the asset. This change applies at this time to Federal funds and bankers' acceptances. Other types of liquidity-qualified investments were covered prior to this resolution and this resolution makes no change as to such investments.

(b) Obligations issued by a public housing agency if the obligations have the full faith and credit of the United States pledged pursuant to sections 1421a(c) or 1437i(a) of Title 42 of the United States Code. These obligations are general obligations of a political subdivision of a State. However, such obligations did not qualify for liquidity prior to this resolution because the market does not "rate" securities guaranteed by the United States and general obligations of a State or a political subdivision thereof qualified for liquidity under the prior regulations only if the obligations were rated by a nationally recognized investment rating service in the four highest grades.

(c) Certain non-negotiable certificates of deposit having a remaining period to maturity of not exceeding 90 days. The regulations prior to this resolution permitted the counting for liquidity purposes of certain negotiable time deposits and certain time deposits which could be withdrawn only after giving not more than 90 days notice to withdraw.

The third type of change effected by this resolution concerns the following two technical matters:

(a) Prior to this resolution, § 523.10(g) contained a distinction as to the definition of "liquid assets" before and after January 1, 1972. The present amendments remove this distinction because the distinction is obsolete.

(b) Prior to this resolution, § 523.10(g)(4)(i)(b) contained the figure $20,000, relating to the maximum amount of a time deposit in the same bank, which was the statutory limit as to FDIC insurance of the same account in the same bank. Recent legislation increased from $20,000 to $40,000 the FDIC insurance limit. This chance conforms the regulations to the new statutory provision.

Section 523.10 (g) and (h) are amended and (i) is added as follows:

§ 523.10 Definitions.

For the purposes of this section, §§ 523.11 and 523.12:

* * * * *

(g) The term "liquid assets" means the total of cash, accrued interest on unpledged assets which qualify as liquid assets under this paragraph, or would so qualify except for their maturities, and the book value of the following unpledged assets (including such assets held subject to a repurchase agreement):

* * * * *

(2) Except (i) as the Board may otherwise direct in a specific case or (ii) pursuant to the provisions of paragraph (i) of this section, obligations of the United States having a remaining period to maturity of not more than 5 years;

(3) Obligations issued, or fully guaranteed as to principal and interest, by the following agencies or instrumentalities of the United States and having a remaining period to maturity of not more than 5 years:

* * * * *

(4) Time deposits in an insured bank including loans of Federal funds to an insured bank which is a member of the Federal Reserve System, if:

(i) The total of all time deposits, including loans of Federal funds of the same member, in the same bank does not exceed the greater of (a) one-fourth of 1 percent of the total deposits of such bank (calculated on the basis of total deposits of such bank as shown by its last published statement of condition preceding the date each time deposit is made or acquired by a member), or (b) $40,000;

* * * * *

(iii) Except for loans of Federal funds, such deposits are (a) negotiable and have remaining periods to maturity of not more than 1 year, (b) not negotiable and have remaining periods to maturity of not more than 90 days, or (c) not withdrawable without notice and the notice periods do not exceed 90 days; and

* * * * *

(6) General obligations of any State, territory, or possession of the United States, or political subdivision of any of the foregoing, if:

(i) Such obligations are either (a) rated, at the time acquired by a member, in one of the four highest grades as shown by the most recently published rating made of such obligations by a nationally recognized investment rating service or (b) issued by a public housing agency and have the full faith and credit of the United States pledged pursuant to section 1421a(c) or section 1437i(a) of Title 42 of the United States Code, as amended; and

* * * * *

(h) The term "short-term liquid assets" means the total of cash, accrued interest on unpledged assets which qualify as liquid assets under paragraph (g) of this section, or would so qualify except for their maturities, and the book value of the following unpledged assets (including such assets held subject to a repurchase agreement):

* * * * *

(2) Obligations of the types specified in paragraphs (g)(2) and (g)(3) of this section either (i) having a remaining period to maturity of not more than 12 months or (ii) are qualified as short-term liquid assets under paragraph (i) of this section.

(3) Time deposits, including loans of Federal funds which qualify as liquid assets pursuant to the provisions of paragraph (g)(4) of this section and, except for such loans of Federal funds, are (i) negotiable and have remaining periods to maturity of not more than 6 months, (ii) not negotiable and have remaining periods to maturity of not more than 90 days or (iii) not withdrawable without notice and the notice periods do not exceed 90 days;

(4) Bankers' acceptances specified in paragraph (g)(5) of this section having a remaining period to maturity of not more than 6 months; and

(5) General obligations of the types specified in paragraph (g)(6)(i)(b) of this section having a remaining period to maturity of not more than 6 months.

(i) Before April 1, 1977, an investment which is continuously held by a member and which is counted as a liquid asset at the close of business on March 31, 1975 continues to count as a liquid asset notwithstanding and without regard to the maximum remaining period to maturity specified in paragraph (g) of this section. Before October 1, 1975 an investment which is continuously held by a member and which is counted as a short-term liquid asset at the close of business on March 31, 1975 continues

to count as a short-term liquid asset notwithstanding and without regard to the maximum remaining period to maturity specified in paragraph (h) of this section.

(Sec. 5A, 47 Stat. 727, as amended by sec. 1, 64 Stat. 256, as amended; sec. 17, 47 Stat. 736, as amended (12 U.S.C. 1425a, 1437). Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943–48, Comp., p. 1071)

By the Federal Home Loan Bank Board.

[SEAL] GRENVILLE L. MILLARD, Jr., *Assistant Secretary.*

Title 13—Business Credit and Assistance

CHAPTER I—SMALL BUSINESS ADMINISTRATION

[Rev. 13, Amdt. 1]

PART 121—SMALL BUSINESS SIZE STANDARDS REGULATION

Definition of Small Business Primarily Engaged in Raising Livestock; Disaster Financial Assistance

On April 25, 1974, there was published in the FEDERAL REGISTER (39 FR 14615) a notice that the Small Business Administration proposed to establish a definition of a small business livestock producer for the purpose of obtaining a disaster loan under section 7(b)(4) of the Small Business Act. Such section provides for loans to persons who are engaged in the business of raising livestock (including but not limited to cattle, hogs, and poultry) and who suffer substantial economic injury as a result of animal disease. The proposal was that such a concern would be considered small if its annual receipts do not exceed $250,000.

Interested parties were given until May 10, 1974, to comment on the proposal.

On the basis of all information available, we have determined to adopt the proposal, subject, however, to a language change clarifying that the definition includes only producers of livestock for human consumption. Accordingly, Part 121 of Chapter I of Title 13 of the Code of Federal Regulations is hereby amended by adding new § 121.3–10(k) to read as follows:

§ 121.3–10 Definition of Small Business for SBA loans.

* * * * *

(k) *Agricultural production (livestock).* Any concern (except custom beef cattle feedlots) primarily engaged in raising livestock for human consumption such as cattle, hogs, sheep, goats, poultry of all kinds, and animal specialties such as horses, rabbits, bees, or fish in captivity, and which, as a result of animal disease, has suffered substantial economic injury due to its inability to market such livestock (or the product of such livestock) for human consumption, is classified as small for the purpose of receiving a disaster loan under section 7(b)(4) of the Small Business Act if its annual receipts do not exceed $250,000.

Effective date. February 27, 1975.

Dated: February 11, 1975.

(Catalog of Federal Domestic Assistance Program No. 59.010, Product Disaster Loans)

THOMAS S. KLEPPE, *Administrator.*

CHAPTER III—ECONOMIC DEVELOPMENT ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 301—ESTABLISHMENT AND ORGANIZATION

PART 308—SPECIAL ECONOMIC DEVELOPMENT AND ADJUSTMENT ASSISTANCE GRANTS

Grant and Loan Program

Parts 301 and 308 of Chapter III of Title 13 of the Code of Federal Regulations are hereby amended.

In that the material contained herein is a matter relating to the grant and loan program of the Economic Development Administration and because a delay in implementing these regulations would be contrary to the public interest, the relevant provisions of the Administrative Procedure Act (5 U.S.C. 533) requiring notice of proposed rulemaking, opportunity for public participation and delay in effective date are inapplicable.

1. Section 301.42 is amended by amending paragraphs (a) and (b)(1) to read as follows:

§ 301.42 Economic Development Regional Offices.

(a) Regional Offices cooperate with and assist local areas in organizing for economic development; provide economic development informational services covering all programs, Federal and otherwise; assist in obtaining field surveys of local area problems through staff or through contract; cooperate with local area and other economic development representatives in the development or modifications of Overall Economic Development Programs (OEDP); review those OEDP submitted for approval and take appropriate action in accordance with prescribed agency policies and procedures; review applications for public works projects; review applications for industrial and commercial assistance, for technical assistance, including administrative grants, and take appropriate final action in accordance with Agency policies, rules, regulations, and procedures and within the authority specifically delegated by the Assistant Secretary; review financial assistance project reports of processing offices, submitting analyses and recommendations for action to the Agency's Washington Office; develop and comment upon proposals for training projects within the area served by the Regional Office; and provide for official liaison channels with State economic development agencies, district and redevelopment area economic development organizations, and regional or local offices of other Federal agencies located within the same areas, particularly those with related programs.

(b) Organization structure: (1) The Regional Director, who reports to and is under the supervision and direction of the Assistant Secretary, directs the program and is responsible for the conduct of all activities of the Regional Office.

* * * * *

§ 308.23 [Amended]

2. Section 308.23 is amended by deleting paragraph (b) in its entirety and redesignating paragraph (c) as "(b)".

AUTHORITY: (Sec. 701, Pub. L. 89–136 (August 26, 1965); (42 U.S.C. 3211); 79 Stat. 570 and Department of Commerce Organization Order 10–4, April 1, 1970 (35 FR 5970))

Effective date. This amendment becomes effective on February 24, 1975.

Dated: February 18, 1975.

D. JEFF CAHILL, *Acting Assistant Secretary for Economic Development.*

[FR Doc 75-5185 Filed 2-26-75;8:45 am]

CHAPTER V—REGIONAL ACTION PLANNING COMMISSIONS

PART 570—REGIONAL EXCESS PROPERTY PROGRAM

Administration Procedures

On December 16, 1974, there were published in the FEDERAL REGISTER (36 FR 43534) regulations and procedures for the administration of the regional excess property program authorized to be carried out by the Federal Cochairmen of the Regional Action Planning Commissions established pursuant to title V of the Public Works and Economic Development Act of 1965, as amended (42 U.S.C. 3182 et seq.).

The purpose of the regulations was to implement the provisions of section 514 of the Act so as to authorize the Federal Cochairmen to acquire and dispose of excess Federal property for the purpose of economic development.

The regulations apply only to those States or parts of States included within economic development regions established pursuant to title V of the Act.

Although the regulations were effective upon issuance on December 16, opportunity was afforded interested persons to comment by January 16, 1975. Section 570.8(b) as originally drafted authorized the Federal Cochairman and the regional commission property officer to screen excess property, but was not explicit on their authority to acquire such property. As a result of comments received, section 570.8(b) is revised to make clear that the Federal Cochairman and the regional commission property officer are authorized to acquire excess property under this program through signing the requisite General Services Administration documents. A new section 570.8(c) is added to

XUM
V 40 40
FEB 27 75
XUM

authorize persons, in addition to the Federal Cochairman and the regional commission property officer, to screen property. The former Paragraph 570.8(c) is redesignated 570.8(d).

The revised paragraphs are adopted, effective immediately, as set forth below.

§ 570.8 Procedures.

. . . . .

(b) Only the Federal Cochairman or the Regional Commission Property Officer will be authorized under this regulation to sign the Report of Excess Personal Property, Standard Form 120 and the Transfer Order, Excess Personal Property, Standard Form 122 for the Regional Commission.

A new paragraph 570.8(c) is added as follows:

(c) Only the following persons will be authorized to screen excess property for acquisition: the Federal Cochairman, the Regional Commission Property Officer, and such additional screening officers as may be designated by the Federal Cochairman and approved by the GSA.

The former paragraph 570.8(c) is redesignated 570.8(d).

Dated: February 11, 1975.

DANIEL GARBERN,
Special Assistant to the Secretary of Commerce for Regional Economic Coordination.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 75-NW-5-AD; Amendment 39-2107]

PART 39—AIRWORTHINESS DIRECTIVES

Certain Boeing Models

There have been several reports of broken and separated door mounted emergency escape slide latch release cables occurring on Boeing Model 727-200 series airplanes that could result in ensuing inability to deploy escape slide and open emergency exit doors. Investigation revealed cause of cable failure attributed to corrosion. Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive is being issued to require inspection and replacement of carbon steel cable assemblies in accordance with prescribed Boeing Service Bulletin instructions on all Boeing Model 727-200 series airplanes, and Boeing Model 727-100, Serial Numbers 18877, 18878, 18879, 19281 and 19279 only.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697) § 39.13 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

BOEING. Applies to Boeing Model 727-200 series airplanes certificated in all categories, and Boeing Model 727-100, Serial Numbers 18877, 18878, 18879, 19281 and 19279 only. Compliance required as indicated.

To prevent escape slide latch cable failure and ensuing inability to open emergency exit and deploy escape slide, accomplish the following:

A. Within 25 hours time in service after effective date of this AD, unless already accomplished, inspect door mounted escape slide latch cable at both entry and service doors (4 doors). If corrosion or breakage is found, replace prior to further flight with a carbon steel assembly of the same type design and reinspect at intervals not to exceed 500 hours time inservice, or replace with corrosion resistant assembly, per Boeing Alert Service Bulletin 727-25-223, or later FAA approved revisions, or replace in a manner approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region.

B. By September 1, 1975, unless already accomplished, replace carbon steel cable assembly with corrosion resistant assembly per Boeing Alert Service Bulletin 727-25-223, or later FAA approved revisions, or in a manner approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1).

All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Boeing Commercial Airplane Company, P.O. Box 3707, Seattle, Washington 98124. The documents may also be examined at FAA Northwest Region, 9010 East Marginal Way South, Seattle, Washington.

This amendment becomes effective March 25, 1975.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Seattle, Washington on February 19, 1975.

C. B. WALK, Jr.,
Director, Northwest Region.

NOTE.—The incorporation by reference provisions in the document were approved by the Director of the Federal Register on June 19, 1967.

[FR Doc.75-5162 Filed 2-26-75;8:45 am]

[Docket No. 75-CE-3-AD; Amdt. 39-2100]

PART 39—AIRWORTHINESS DIRECTIVES

King Radio Corporation Model KCS-55 Pictorial Navigation System

There has been a report of an incident in which a King Radio Corporation Model KCS-55 Pictorial Navigation System malfunctioned during flight. Specifically, this malfunction caused the loss of heading reference. Loss of this heading information would require the pilot to depend on the standby compass for maintaining a heading and the turn and bank gyro along with a clock to make turns, thereby making it very difficult for him to navigate during IFR conditions. Since the condition described herein is likely to exist or develop in other pictorial navigation systems of the same design, an Airworthiness Directive (AD) is being issued requiring either appropriate placarding and operational limitations prohibiting the use of the King Model KCS-55 Pictorial Navigation System for primary heading or IFR flight, or in the alternative, replacement of the King Models KI 525 indicator and KG 102 gyro-configurations on all King Model KCS-55 pictorial navigation systems with modified units identified herein as Mod 1 and Mod 6 respectively.

Since these conditions may exist or develop on other aircraft of the same type design, expeditious adoption of this amendment is required in the interest of safety. Consequently, compliance with the notice and public procedure provisions of the Administrative Procedure Act is impracticable and good cause exists for making this amendment effective in less than thirty (30) days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator 14 CFR 11.89 (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new AD.

KING RADIO CORPORATION. Applies to Model KCS-55 Pictorial Navigation System (magnetic stabilized compass) units, specifically the Gyro Model KG-102 ( ), Part Number 060-0011-0, Serial Numbers 1000 to 1999 and all serial numbers preceded by the letter "P" and Indicator Models KI-525 ( ), Part Number 066-3029-00/01, Serial Numbers 1000 to 1999 and all serial numbers preceded by the letter "P". The Model KCS-55 systems may be installed on various types of aircraft.

Compliance: Required as indicated, unless already accomplished.

A) Within the next 25 hours' time in service after the effective date of this AD, check the aircraft compass system installed or the aircraft permanent maintenance record to determine if the KCS-55 pictorial navigation system is installed on the aircraft.

B) If, as a result of determination required in Paragraph A of this AD, a KCS-55 pictorial navigation system is installed, check the indicator KI-525 ( ) to determine if the serial number falls within those noted in the applicability statement and if the unit has been modified and identified as Mod 1. Also, check the KG 102 gyro and determine if the serial number falls within those noted in the applicability statement and that the unit has been modified and identified as Mod 6. If both units are so identified with the modification number, make an appropriate entry in the aircraft records indicating compliance with this AD.

C) If as a result of the determinations required by Paragraphs A and B of this AD unmodified KCS-55 Pictorial Navigation System units are installed, prior to further flight, install a placard on the instrument panel in clear view of the pilot which indicates: "KCS-55 PICTORIAL NAVIGATION SYSTEM IS NOT TO BE USED FOR PRIMARY HEADING OR IFR FLIGHT IF IT IS SOLE GYROSCOPIC HEADING SOURCE" and operate the aircraft in accordance with this limitation.

D) On or before November 15, 1975, replace any KCS-55 pictorial navigation system units which fall within the Part Number and Serial Number designations set forth in the applicability statement with modified units which are identified in accordance with King Alert Service Bulletins KI 525-1 and KC 102-6 dated January 2, 1975, or subsequent revisions, as Mod 1 and Mod 6 respectively. When this paragraph has been complied with, Paragraph C of this AD is no longer applicable.

E) Any alternative means of compliance with this AD must be approved by the Chief, Engineering and Manufacturing Branch, FAA, Central Region.

This amendment becomes effective February 28, 1975.

(Secs. 313(a), 601 and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421 and 1423), and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655 c)))

Issued in Kansas City, Missouri, on February 14, 1975.

GEORGE R. LACAILLE,
Acting Director, Central Region.

[FR Doc.75-5161 Filed 2-26-75;8:45 am]

[Airspace Docket No. 74-WA-31]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of VOR Federal Airway

On January 6, 1975, a Notice of Proposed Rule Making (NPRM) was published in the FEDERAL REGISTER (40 FR 1060) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would realign V-37 from Erie, Pa., to Ash, Ontario, Canada.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. No comments were received.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., April 24, 1975, as hereinafter set forth.

§ 71.123 [Amended]

Section 71.123 (40 FR 307) the description of V-37 is amended as follows:

In V-37 "Toronto, Ont., Canada." is deleted and "To Ash, Ont., Canada." is substituted therefor.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Washington, D.C., on February 21, 1975.

F. L. CUNNINGHAM,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.75-5163 Filed 2-26-75;8:45 am]

[Airspace Docket No. 75-WA-2]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Redesignation of Reporting Point

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to correct the subordinate information associated with the description of the CLAMS reporting point (Kenai, Alaska 216° to 217°). The present description, (Lat. 59°53'27" N., Long. 152°16'23" W.) is correct as published.

Since reporting point descriptions and associated information are minor matters in which the public is not particularly interested, notice and public procedure thereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., April 24, 1975, as hereinafter set forth.

§ 71.211 [Amended]

§ 71.211 (40 FR 634, 39 FR 35129) is amended as follows: in CLAMS "Kenai, Alaska 216° radials" is deleted and "Kenai, Alaska 217° radials" is substituted therefor.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Washington, D.C., on February 21, 1975.

F. L. CUNNINGHAM,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.75-5164 Filed 2-26-75;8:45 am]

[Airspace Docket No. 74-SO-96]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Redesignation of Control Zone and Transition Area

On January 24, 1975, a Notice of Proposed Rule Making (NPRM) was published in the FEDERAL REGISTER (40 FR 3784) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Christiansted, St. Croix, V.I., control zone and transition area.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. No comments were received.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., April 24, 1975, as hereinafter set forth.

§ 71.171 [Amended]

In § 71.171 (40 FR 354) the Christiansted, St. Croix, V.I., control zone is amended to read as follows:

CHRISTIANSTED, ST. CROIX, V.I.

Within a 5-mile radius of Alexander Hamilton Airport (lat. 17°42'13" N., long. 64°47'54" W.); within 3 miles each side of St. Croix VOR 068° and 248° radials, extending from the 5-mile radius zone to 8.5 miles east of the VOR. This control zone is effective during specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the FAA publication, International NOTAMs.

§ 71.181 [Amended]

In § 71.181 (40 FR 441) the Christiansted, St. Croix, V.I., transition area is amended to read as follows:

CHRISTIANSTED, ST. CROIX, V.I.

That airspace extending upward from 700 feet above the surface within an 8.5-mile radius of Alexander Hamilton Airport (lat. 17°42'13" N., long. 64°47'54" W.); within 3 miles each side of St. Croix VOR 068° radial, extending from the 8.5-mile radius area to 8.5 miles east of the VOR; and that airspace extending upward from 1,200 feet above the surface within a 15-mile radius of Alexander Hamilton Airport; within 9.5 miles north and 4.5 miles south of the St. Croix VOR 068° radial, extending from the 15-mile radius area to 18.5 miles east of the VOR; within 9.5 miles south and 4.5 miles north of the ILS localizer west course, extending from the 15-mile radius area to 18.5 miles west of the LOM.

(Secs. 307(a) and 1110 of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1510), Executive Order 10854 (24 FR 9565) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Washington, D.C., on February 21, 1975.

F. L. CUNNINGHAM,
Acting Chief, Airspace and Air Traffic Rules Division.

Title 19—Customs Duties

CHAPTER I—UNITED STATES CUSTOMS SERVICE, DEPARTMENT OF THE TREASURY

[75-40]

PART 153—ANTIDUMPING

Television Receiving Sets, Monochrome and Color, From Japan; Correction

On February 13, 1975, a notice of modification of a dumping finding to exclude television receiving sets, monochrome and color, produced and sold by Sony Corporation of Japan, was published in the FEDERAL REGISTER. (40 FR 6647).

That portion of the notice of February 13, 1975, amending § 153.43 of the Customs Regulations to show the exclusion of television sets produced and sold by Sony Corporation from the finding of dumping omits the Treasury Decision citation to the modification. This omission is corrected by the insertion of the citation "75-40" under the heading "Modified by ----------".

Dated: February 21, 1975.

[SEAL] DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

[T.D. 75-54]

PART 159—LIQUIDATION OF DUTIES

Countervailing Duties—Sugar Content of Certain Articles From Australia

The Treasury Department is in receipt of official information that the rates of bounties or grants paid or bestowed by the Australian Government within the meaning of section 303, Tariff Act of 1930 (19 U.S.C. 1303), on the exportation during the period January 1974 through December 1974 of approved fruit products and other approved products containing sugar are the amounts set forth in the following table:

MERCHANDISE—APPROVED FRUIT PRODUCTS AND OTHER APPROVED PRODUCTS

Month:	*Net amount of bounty per 2,240 lb of sugar content*
January 1974	None.
February 1974	Do.
March 1974	Do.
April 1974	Do.
May 1974	Do.
June 1974	Do.
July 1974	Do.
August 1974	Do.
September 1974	Do.
October 1974	Do.
November 1974	Do.
December 1974	Do.

The net amount of bounties or grants on the above-described commodities which are manufactured or produced in Australia is hereby ascertained, determined, and declared to be the rate stated in the above table. No additional duties on the above-described commodities, imported directly or indirectly from that country, shall be assessed and collected under section 303, Tariff Act of 1930 (19 U.S.C. 1303).

§ 159.74 [Amended]

The table in § 159.47(f) of the Customs Regulations (19 CFR 159.47(f)), under "Australia—Sugar content of certain articles," is amended (1) by deleting therefrom the reference to T.D. 73-98 and (2) by adding a reference to this Treasury Decision. As amended, the last three lines of the table under this commodity will read:

Country	Commodity	Treasury decision	Action
		73-277	New rate.
		74-133	Do.
		75-54	Do.

(R.S. 251, as amended; secs. 303, 624, 46 Stat. 687, 759; (19 U.S.C. 66, 1303, 1624).)

[SEAL] VERNON D. ACREE,
Commissioner of Customs.

Approved: February 20, 1975.

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

CHAPTER II—U.S. INTERNATIONAL TRADE COMMISSION

Subpart C—Availability of Information to the Public Pursuant to 5 U.S.C. 552, as Amended by Public Law 93-502

PART 201—RULES OF GENERAL APPLICATION

Availability of Information

These amendments to Title 19, Part 201 of the Code of Federal Regulations adds a new subpart C thereto, and deletes § 201.5 of subpart B and incorporates the substance thereof as § 201.21 of new subpart C. The purpose of these amendments is to implement 5 U.S.C. 552 (the Freedom of Information Act), as amended by Pub. L. 93-502, and is made pursuant thereto.

Subpart C, § 201.20, entitled *Fees*, was the subject of a Notice of Proposed Rulemaking published January 13, 1975 (40 FR 2452), as an amendment to Part 201, subpart B of Title 19, Code of Federal Regulations; it is now instead promulgated, after consideration of comments received, in § 201.20 as part of this amendment.

Subpart C—Availability of Information to the Public Pursuant to 5 U.S.C. 552, as Amended by Public Law 93-502

Sec.
201.17 Procedures for requesting access to records.
201.18 Denial of requests for records.
201.19 Appeals from denial of requests.
201.20 Fees.
201.21 Availability of specific records.

AUTHORITY: 5 U.S.C. 552, Pub. L. 93-502.

§ 201.17 Procedures for requesting access to records.

(a) A request for any information or record shall be addressed to the Secretary, United States International Trade Commission, Washington, D.C. 20436 and shall indicate clearly both on the envelope and in the letter that it is a Freedom of Information Act request.

(b) Any request shall reasonably describe the requested record to facilitate location of the record.

(c) Any request for transcripts of hearings shall be addressed to the official hearing reporter, the name and address of which can be obtained from the Secretary. A copy of such request shall at the same time be forwarded to the Secretary.

(d) A day-to-day, composite record shall be kept by the Secretary of each request with the disposition thereof.

§ 201.18 Denial of requests for records.

Written requests for inspection or copying of records shall be denied only by the Secretary or Acting Secretary. Denials of written requests shall be in writing, shall specify the reason therefor, and shall advise the person requesting of the right to appeal to the Commission. Oral requests may be dealt with orally, but if the requester is dissatisfied he shall be asked to put the request in writing.

§ 201.19 Appeals from denial of requests.

(a) An appeal from a denial of a request shall be made to the Commission and addressed to the Chairman, United States International Trade Commission, Washington, D.C. 20436. Any appeal shall clearly indicate in the letter that it is a Freedom of Information Act appeal. An appeal may be made after denial or whenever compliance with a request has not been forthcoming within ten days (excepting Saturdays, Sundays, and legal public holidays) after receipt of such request, unless an extension notice in writing with the reasons therefor has been provided the person making the request.

(b) An appeal will be decided within twenty days (excepting Saturdays, Sundays, and legal holidays) unless an extension, noticed in writing with the reasons therefor, has been provided the person making the request. Notice of the decision on appeal and the reasons therefor will be made promptly after a decision.

(c) The extensions of time mentioned in paragraphs (a) and (b) of this section shall be made only for one or more of the following reasons:

(i) the need to search for and collect the requested records from field facilities or other establishments that are separate from the office processing the request;

(ii) the need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are requested in a single communication; or

(iii) the need for consultation, which shall be conducted with all practicable speed, with another agency having a substantial interest in the determination of the request or among two or more components of the agency having a substantial subject-matter interest therein.

(d) The extensions of time mentioned in paragraphs (a) and (b) of this section shall not exceed ten working days in the aggregate.

§ 201.20 Fees.

(a) Search for records—$10.00 per hour for actual time spent; provided that no charge will be made for any search of only one-half hour or less.

(b) Reproduction, duplication, or copying of records by the Commission—10 cents per page; provided, however, that no charge will be made when the total amount does not exceed 50 cents.

(c) Unless a request for information specifically states that whatever cost is involved is acceptable, or acceptable up to a specified limit that covers anticipated costs, a request that is expected to involve assessed fees in excess of $15.00 will not be deemed to have been received until the requester is advised of the anticipated costs and agrees to bear such costs.

(d) The Secretary shall waive the payment of fees under this section if he determines that waiver is in the public interest because furnishing the information can be considered as primarily benefiting the general public.

§ 201.21 Availability of specific records.

(a) *Records available.* The following information, on request to the Secretary of the Commission, is available for public inspection and copying: (A) final opinions, including concurring and dissenting opinions, as well as orders, made in the adjudication of cases; (B) those statements of policy and interpretations which have been adopted by the agency; and (C) administrative staff manuals and instructions to staff that affect a member of the public.

Available information includes, but is not limited to: (1) Applications, petitions, and other formal documents filed with the Commission, (2) notices to the public concerning Commission matters, (3) transcripts of testimony taken and exhibits submitted at hearings, (4) reports to the President, to either or both Houses of Congress, or to Committees of Congress, release of which has been authorized by the President or the legislative body concerned, (5) reports and other documents issued for general distribution.

(b) *Records not available.* Information specifically exempted from disclosure by 5 U.S.C. 552(b), including reports to the President, to either or both Houses of Congress, or to Committees of Congress, the release of which has not been authorized by the President or the legislative body concerned, and confidential business data as defined in 18 U.S.C. 1905 and 19 CFR 201.06 are not available to the public.

Effective date: These amendments shall be effective on February 19, 1975.

By order of the Commission.

Issued: February 24, 1975.

KENNETH R. MASON,
Secretary.

[FR Doc.75-5276 Filed 2-26-75;8:45 am]

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

FOOD, FOOD PRODUCTS AND DRUGS

Reinstatement of the Regulations Pertaining to Diethylstilbestrol for Use in Cattle and Sheep

On January 24, 1974, the United States Court of Appeals for the District of Columbia Circuit handed down its decisions holding that the action of the Food and Drug Administration in withdrawing approval of the new animal drug applications (NADA's) for diethylstilbestrol (DES) for use in feed and implants in cattle and sheep was invalid. *Chemetron Corporation et al.* v. *United States Department of Health, Education, and Welfare*, 495 F.2d 995 (D.C. Cir. 1974); *Hess & Clark, Division of Rhodia, Inc.* v. *Food and Drug Administration*, 495 F.2d 975 (D.C. Cir. 1974). These decisions have the effect of reinstating the regulations for such uses.

By an order published in the FEDERAL REGISTER of December 9, 1972 (37 FR 26307), the Commissioner revoked regulations pertaining to the use of DES in feeds pursuant to section 512(i) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360b(i)).

An order revoking regulations for use of DES in implant form was published in the FEDERAL REGISTER of May 3, 1973 (38 FR 10926).

The purpose of this order is to publish the regulations which were reinstated by the court as they were prior to the December 9, 1972 and May 3, 1973 orders.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Chapter I of Title 21 of the Code of Federal Regulations is amended as follows:

PART 121—FOOD ADDITIVES

1. Section 121.208(d) is amended by revising Table 6 to read as follows:

§ 121.208 Chlortetracycline.

* * * * * *

(d) * * *

TABLE 6.—*Chlortetracycline in cattle feed*

Principal ingredient	Amount	Combined with—	Amount	Limitations	Indications for use
	Mg. per head per day		*Mg. per head per day*		
1. Chlortetracycline	70			For feed-lot beef cattle.	Aid in prevention of liver abscesses.
a. Chlortetracycline	70	Diethylstilbestrol	10	§ 121.241(b), item 1.	Fattening of beef cattle.
2. Chlortetracycline	70			For beef cattle up to 700 pounds in weight.	Aid in reduction of bacterial diarrhea; aid in prevention of foot rot.
a. Chlortetracycline	70	Diethylstilbestrol	10	§ 121.241(b), item 1.	Fattening of beef cattle.
3. Chlortetracycline	100			For beef cattle over 700 pounds in weight.	Aid in reduction of bacterial diarrhea; aid in prevention of foot rot.
a. Chlortetracycline	100	Diethylstilbestrol	10	§ 121.241(b), item 1.	Fattening of beef cattle.
4. Chlortetracycline	350			For beef cattle; not to be administered within 48 hours of slaughter.	Aid in prevention of bacterial pneumonia and shipping fever (hemorrhagic septicemia); aid in reduction of losses due to respiratory infection (infectious rhinotracheitis-shipping fever complex).
a. Chlortetracycline	350	Diethylstilbestrol	10	§ 121.241(b), item 1.	Fattening of beef cattle.
5. Chlortetracycline	350			For beef cattle up to 700 pounds in weight; not to be administered within 48 hours of slaughter.	Aid in prevention of anaplasmosis.
a. Chlortetracycline	350	Diethylstilbestrol	10	§ 121.241(b), item 1.	Fattening of beef cattle.
6. Chlortetracycline	500			For beef cattle 700-1,000 pounds in weight. Not to be administered within 48 hours of slaughter.	Aid in prevention of anaplasmosis.
a. Chlortetracycline	500	Diethylstilbestrol	10	§ 121.241(b), item 1.	Fattening of beef cattle.
7. Chlortetracycline	750			For beef cattle 1,000-1,500 pounds in weight. Not to be administered within 48 hours of slaughter.	Aid in prevention of anaplasmosis.
a. Chlortetracycline	750	Diethylstilbestrol	10	§ 121.241(b), item 1.	Fattening of beef cattle.
8. Chlortetracycline	0.5 (mg. per pound of body weight per day);			For beef cattle over 1,500 pounds in weight. Not to be administered within 48 hours of slaughter.	Aid in prevention of anaplasmosis.
a. Chlortetracycline	0.5 (mg. per pound of body weight per day);	Diethylstilbestrol	10	§ 121.241(b), item 1.	Fattening of beef cattle.

V 40 140 FEB 27 75 XUM

Principal ingredient	Amount	Combined with—	Amount	Limitations	Indications for use
	Mg. per head per day		*Mg. per head per day*		
9. Chlortetracycline	5.0 (milligrams per pound of body weight per day).			For beef cattle; feed for 60 days; for use in the carrier state only; not to be fed within 10 days of slaughter. Labeling shall include a statement that a positive complement-fixation test at conclusion of a 60-day feeding period does not necessarily establish that anaplasmosis carrier state is still active. To positively establish that the carrier state has been eliminated, inject blood from a suspected carrier into a splenectomized (susceptible) calf.	Aid in the elimination of the carrier state of anaplasmosis.
10. Chlortetracycline	0.5 mg. per pound of body weight per day.			For calves up to 250 pounds in weight; in milk replacers or starter feeds.	Aid in the prevention of bacterial diarrhea.
11. Chlortetracycline	350	Sulfamethazine	350	For beef cattle; feed for 28 days; withdraw 7 days prior to slaughter.	Aid in the maintenance of weight gains in the presence of respiratory disease such as shipping fever.

* * * * *

2. Section 121.241 is reinstated to read as follows:

§ 121.241 Diethylstilbestrol.

Diethylstilbestrol (3, 4-bis (*p*-hydroxyphenyl)-3-hexene) may be safely used in feed for animals raised for food production when incorporated therein in accordance with the following conditions:

(a) Permitted uses of diethylstilbestrol alone and with certain other additives are described in tabular form in this section, and these tables are to be read as follows:

(1) The numbered line items establish the required limitations and indications for use of the principal ingredient as the additive alone, or with an additional ingredient added for increased effectiveness.

(2) The lettered line items establish the required limitations and indications for use of secondary ingredients that may be added to the indicated principal ingredient. Where principal and secondary ingredients have been mixed, the applicable limitations and indications for use from both the numbered items and lettered items apply. If duplicate limitations occur, these may be appropriately combined.

(3) Permitted combinations of principal ingredient and secondary ingredients are individually listed. Unless specifically provided for by the regulations, the principal ingredient may not be mixed with two or more secondary ingredients.

(4) Where cross-references specify a particular table and item number of another section, use of only the principal ingredient of the numbered item is authorized thereby.

(5) The term "principal ingredient" as used in this section refers to the additive named in the title of this section and is not intended to imply that the ingredient is of a greater value than any other additive named in this section.

(b) It is used or intended for use as follows:

TABLE 1.—*Diethylstilbestrol in feed*

Principal ingredient	Amount	Combined with—	Amount	Limitations	Indications for use
	Mg. per head per day				
1. Diethylstilbestrol.	10			For beef cattle; feed 10 mg. per head in not less than 1 pound of feed; withdraw 7 days before slaughter; do not feed to breeding or dairy animals.	Fattening of beef cattle.
a. 1.	10	Chlortetracycline.	70-750 mg. per head per day; 0.5 mg. per pound of body weight for animals over 1,500 pounds.	§ 121.208(d), table 6, items 1-8.	§ 121.208(d), table 6, items 1-8.
b. 1.	10	Oxytetracycline.	78-80 mg. per head per day.	§ 121.251(d), table 2, item 1.	§ 121.251(d), table 2, item 1.

Principal ingredient	Amount	Combined with—	Amount	Limitations	Indications for use
c. 1.	10	Bacitracin	35-70 mg. per head	As zinc bacitracin	Growth promotion and feed efficiency.
d. 1.	10	Bacitracin	70-250	§ 121.252, table 3, items 1 or 2.	Reduction in the number of liver condemnations due to abscesses in feedlot beef cattle.
2. Diethylstilbestrol.	2			For sheep; withdraw 7 days before slaughter; do not feed to breeding animals.	Fattening of sheep.

(c) To assure safe use, the label and labeling of the additive, any combination of additives, and any feed additive supplement, feed additive concentrate, feed additive premix, or complete feed prepared therefrom shall contain, in addition to the other information required by the act, the following:

(1) The name of the additive or additives.

(2) A statement of the concentration or strength of the additive or additives contained therein.

(3) Adequate directions and warnings for use.

(d) No residue of the additive shall be present in any edible portion of such animal after slaughter or in any food yielded by or derived from the living animal as determined by methods of examination prescribed in this section.

(e) The method of examination prescribed for the quantitative determination of estrogenic activity is the method of E. J. Umberger, G. H. Gass, and J. M. Curtis published in Endocrinology, volume 63, page 806 (1958).

(f) The method of examination prescribed for the qualitative identification of estrogenic activity as diethylstilbestrol is as follows:

(1) (i) Extract the diethylstilbestrol with alkali from a suitably prepared sample of fat dissolved in isooctane; or

(ii) Extract the diethylstilbestrol with ethyl alcohol from lean meat or liver, followed by hydrolysis of the alcohol extractive with dilute hydrochloric acid.

(2) Either of the solutions of diethylstilbestrol described in paragraph (f) (1) of this section is next extracted with chloroform, and the chloroform extract is washed with 10 percent sodium carbonate to remove strongly acidic substances.

(3) The chloroform extractive of diethylstilbestrol is then extracted with 1 percent sodium hydroxide, and the resulting solution is acidified.

(4) The hormone is reextracted from the acidified solution with chloroform. If the solution is colored, the extraction procedures may be repeated.

(5) The chloroform is evaporated and the remaining residue is dissolved in a suitable volume of methyl alcohol for identification of the diethylstilbestrol, as follows:

(i) Impregnate Whatman No. 1 filter paper with a solution of 40 percent formamide in methyl alcohol, blot it lightly, and dry for 5 minutes.

(ii) Spot an aliquot of the methyl alcohol solution on the paper.

(iii) Similarly, spot an aliquot of a methyl alcohol solution of Reference Standard diethylstilbestrol for identification comparison.

(iv) Place the paper in a chromatographic tank and develop, using the continuous ascending technique, either with the solvent system heptane:toluene::1:4 for 2.5 hours, or the solvent system cyclohexene:cyclohenzanol::98:2 for 45 minutes.

(v) Remove the paper from the tank and, while still wet, irradiate it with ultraviolet light from a 15-watt germicidal lamp for 1 minute.

(vi) Observe fluorescence through a black-light viewing apparatus.

3. Section 121.251(d) is amended in Table 2 by reinstating subitem a. As revised Table 2 reads as follows:

§ 121.251 Oxytetracycline.

* * * * *

(d) * * *

TABLE 2.—*Oxytetracycline in cattle feed*

Principal ingredient	Mg. per head per day	Combined with—	Mg. per head per day	Limitations	Indications for use
1. Oxtetracycline	75-80			For beef cattle weighing over 400 lb.; as the monoalkyl (C_7-C_{12}) trimethyl ammonium salt of oxytetracycline.	Reduction of the incidence and severity of liver abscesses.
a. Oxytetracycline	75-80	Diethylstilbestrol	10	§ 121.241(b), item 1.	Fattening of beef cattle.

* * * *

XUM
V 40 40 FEB 27 75 XUM

4. Section 121.252(d) is amended in Table 3 by reinstating subitem a under item 2. As revised Table 3 reads as follows:

TABLE 3.—*Bacitracin methylene disalicylate in cattle feed*

Principal ingredient	Amount	Combined with—	Amount	Limitations	Indications for use
	Mg. per head per day		*Mg. per head per day*		
1. Bacitracin	70			For feedlot beef cattle: administer continuously throughout the feeding period: as bacitracin methylene disalicylate.	Reduction in the number of liver condemnations due to abscesses in feedlot beef cattle.
2. Bacitracin	250			For feedlot beef cattle: administer continuously for 5 days then discontinue for subsequent 25 days, repeat the pattern during the feeding period: as bacitracin methylene disalicylate.	Do.
a. 1 or 2		Diethylstilbestrol	10	§121.241(b), table 1, item 1 (when used in accordance with item 2, diethylstilbestrol should be continued throughout the subsequent 25-day period).	Fattening of beef cattle.

PART 131—INTERPRETATIVE STATEMENTS REGARDING WARNINGS ON VETERINARY DRUGS FOR OVER-THE-COUNTER SALE

5. Section 131.20 is amended by reinstating alphabetically the entry "Diethylstilbestrol in Animal Feeds" and its warning statement as follows:

§ 131.20 Drugs for veterinary use; recommended warning and caution statements.

* * * * *

DIETHYLSTILBESTROL IN ANIMAL FEEDS

Warning—Discontinue use at least 7 days before slaughtering animals for food to eliminate the drug from the food.

* * * * *

6. Section 131.21 is amended by reinstating alphabetically the entry "Diethylstilbestrol for sheep" and its warning statement as follows:

§ 131.21 Drugs for veterinary use; warning and caution statements required by regulations.

* * * * *

DIETHYLSTILBESTROL FOR SHEEP. (See § 144.26(b)(38) of this chapter.)

Warning—Discontinue use 7 days before the treated animals are slaughtered for human consumption.

* * * * *

PART 135b—NEW ANIMAL DRUGS FOR IMPLANTATION OR INJECTION

7. Section 135b.3 is reinstated to read as follows:

§ 135b.3 Diethylstilbestrol.

(a) *Chemical name.* 3,4-bis(*p*-Hydroxyphenyl)-3-hexene.

(b) *Sponsor.* See code No. 019 in § 135.501(c) of this chapter.

(c) *Related tolerances.* See § 135g.26 of this chapter.

(d) *Conditions of use.* It is used as follows:

For implantation

Mg. per dose	Limitations	Indications for use
Diethylstilbestrol. 3	For lambs as a subcutaneous ear implantation: not for use in breeding animals; implantation should be made at the start of the feeding period or approximately 70 days before marketing; implant one 3-mg. pellet per animal.	Increase rate of gain and improve feed efficiency.

8. Section 135b.6 is reinstated to read as follows:

§ 135b.6 Testosterone and diethylstilbestrol in combination.

(a) *Chemical names.* (1) Diethylstilbestrol: 3,4-bis,(*p*-Hydroxyphenyl)-3-hexene.
(2) Testosterone: 17beta-Hydroxyandrost-4-en-3-one.
(b) *Sponsor.* See code No. 035 in § 135.501(c) of this chapter.
(c) *Related tolerances.* See § 135g.26 and § 135g.53 of this chapter.
(d) *Conditions of use.* It is used as follows:

For implantation

Ingredient	Amount	Ingredient	Amount	Limitations	Indications for use
Testosterone	120 mg. per dose.	Diethylstilbestrol.	24 mg. per dose.	For beef cattle as subcutaneous ear implantation: one dose per animal: may be repeated after 60 days: do not use within 21 days of slaughter: may be administered to cattle being fed diethylstilbestrol in accordance with table 1, item 1, of § 121.241(b) of this chapter.	Stimulation of growth and of rate of finishing of beef cattle.

PART 135e—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

9. In part 135e, § 135e.18 is reinstated to read as follows:

§ 135e.18 Diethylstilbestrol.

(a) *Chemical name.* 3,4-Bis(*p*-hydroxyphenyl-3-hexene.

(b) *Specifications.* Complies with U.S.P. XVII.

(c) *Approvals.* In dry premix, levels of 2 grams (0.44 percent) and 10 grams (2.2 percent) of diethylstilbestrol per pound have been granted, and, in liquid premix, levels of 20 grams (4.4 percent) and 40 grams (8.8 percent) of diethylstilbestrol per pound have been granted for use in manufacturing finished feeds within the currently approved use levels of 5–20 milligrams per head per day; for sponsor see code No. 014 in § 135.501(c) of this chapter.

(d) *Assay limits.* Finished feed containing below 0.00022 percent diethylstilbestrol must have not less than 80 percent nor more than 120 percent of labeled amount. Finished feed containing over 0.00022 percent diethylstilbestrol must have not less than 85 percent nor more than 115 percent of labeled amount.

(e) *Special considerations.* Maximum level of diethylstilbestrol permitted in concentrate for cattle is 0.0044 percent.

(f) *Related tolerances.* See § 121.1118 of this chapter.

(g) *Conditions of use.* It is used as follows:

Amount	Limitations	Indications for use
5–20 mg. per head per day.	For beef cattle: in dry feed at 5–20 mg. per head in not less than 1 pound of feed; withdraw 7 days before slaughter; do not feed to breeding or dairy animals; feed not more than 10 mg. per head per day to animals under 750 pounds body weight.	Fattening of beef cattle.

PART 135g—TOLERANCES FOR RESIDUES FOR NEW ANIMAL DRUGS IN FOOD

10. Section 135g.26 is reinstated to read as follows:

§ 135g.26 Diethylstilbestrol.

(a) No residues of diethylstilbestrol may be found in the uncooked edible tissues of beef cattle and sheep after slaughter or in any food yielded by or derived from the living animal.

(b) The method of examination prescribed for the quantitative determination of estrogenic activity is the method of E. J. Umberger, G. H. Gass, and J. M. Curtis published in "Endocrinology," volume 63, page 808 (1958).

(c) The method of examination prescribed for the qualitative identification of estrogenic activity as diethylstilbestrol is as follows:

(1) (i) Extract the diethylstilbestrol with alkali from a suitably prepared sample of fat dissolved in isooctane; or

(ii) Extract the diethylstilbestrol with ethyl alcohol from lean meat or liver, followed by hydrolysis of the alcohol extractive with dilute hydrochloric acid.

(2) Either of the solutions of diethylstilbestrol described in paragraph (c)(1) of this section is next extracted with chloroform, and the chloroform extract is washed with 10 percent sodium carbonate to remove strongly acidic substances.

(3) The chloroform extractive of diethylstilbestrol is then extracted with 1 percent sodium hydroxide, and the resulting solution is acidified.

(4) The hormone is reextracted from the acidified solution with chloroform. If the solution is colored, the extraction procedures may be repeated.

(5) The chloroform is evaporated and the remaining residue is dissolved in a suitable volume of methyl alcohol for identification of the diethylstilbestrol, as follows:

(i) Impregnate Whatman No. 1 filter paper with a solution of 40 percent formamide in methyl alcohol, blot it lightly, and dry for 5 minutes.

(ii) Spot an aliquot of the methyl alcohol solution on the paper.

(iii) Similarly, spot an aliquot of methyl alcohol solution of Reference Standard diethylstilbestrol for identification comparison.

(iv) Place the paper in a chromatographic tank and develop, using the continuous ascending technique, either with the solvent system heptane: toluene::1:4 for 2.5 hours, or the solvent system cyclohexene:cyclohexanol::98:2 for 45 minutes.

(v) Remove the paper from the tank and, while still wet, irradiate it with ultraviolet light from a 15-watt germicidal lamp for 1 minute.

(vi) Observe fluorescence through a black-light viewing apparatus.

11. Section 135g.53 is reinstated to read as follows:

§ 135g.53 Testosterone.

(a) No residues of testosterone may be found in the uncooked edible tissues of beef cattle.

(b) The method of examination prescribed for the quantitative determination of testosterone is as follows: Prepare an extract of the tissues as described in § 135g.28(b) (1) and (2) and bioassay the extractive in an ethyl alcohol vehicle by inunction of the day-old chick's comb by the method published in "Methods in Hormone Research," New York, Academic Press, volume II, page 286 (1962).

PART 144—EXEMPTIONS FROM CERTIFICATION REQUIREMENTS FOR ANTIBIOTIC DRUGS FOR VETERINARY USE

12. In Part 144, § 144.26 is amended by reinstating paragraph (b) (26) and (38) and by revising paragraph (b) (28) and (52) to read as follows:

§ 144.26 Antibiotic drugs bearing or containing new animal drugs subject to the provisions of section 512(n) of the act.

* * * * *

(b) * * *

(26) (i) It is intended for use solely for accelerating weight gains in beef cattle, and it contains a quantity of diethylstilbestrol adequate to provide not more than 10 milligrams per head per day when fed in accordance with the directions for use that accompany the feed, and there has been submitted to the Commissioner, in triplicate, adequate information of the kind required for Form FD–1800 and such application has been approved by the Food and Drug Administration. The exemption shall expire at the beginning of any act changing the labeling or potency of such drug unless an approved supplement to the application provides for the change or the change is made in conformance with other provisions of § 135.13b of this chapter.

(ii) It is also intended for the prevention or treatment of the diseases specified in paragraph (b)(25) of this section, it contains diethylstilbestrol in the amount and under the conditions set forth in subdivision (i) of this subparagraph, and it contains the antibiotic in the amount specified in paragraph (c)(25) of this section.

* * * * *

(28) It is a medicated feed for beef cattle containing bacitracin methylene disalicylate with or without diethylstilbestrol in the amounts and for the purposes specified in § 121.252 of this chapter and its labeling bears adequate directions and warnings for such use.

* * * * *

(38) It is intended for use solely for accelerating weight gains in sheep; its labeling bears adequate directions and warnings for such use, including a warning that its use must be discontinued 7 days before the treated animals are slaughtered for human consumption; it contains a quantity of diethylstilbestrol adequate to provide not more than 2 milligrams per head per day when fed in accordance with the directions for use that accompany the feed; it contains less than 50 grams of antibiotics per ton of feed; and there has been submitted to the Commissioner, in triplicate, adequate

XUM V 40 40 FEB 27 75 XUM

information of the kind required for Form FD–1800 and such application has been approved by the Food and Drug Administration. The exemption shall expire at the beginning of any act changing the labeling or potency of such drug unless an approved supplement to the application provides for the change or the change is made in conformance with other provisions of § 135.-13b of this chapter.

• • • • •

(52) It is a cattle feed containing zinc bacitracin, with or without diethylstilbestrol, in the amounts and for the purposes indicated in § 121.225 or § 121.241 of this chapter, and its labeling bears adequate directions and warnings for such use; *Provided, however,* That if such feed contains diethylstilbestrol it is exempt from certification only under the condition that there has been submitted to the Commissioner, in triplicate, adequate information of the kind required for Form FD–1800 and such application has been approved by the Food and Drug Administration. The exemption shall expire at the beginning of any act changing the labeling or potency of such drug unless an approved supplement to the application provides for the change or the change is made in conformance with other provisions of § 135.13b of this chapter.

• • • • •

Effective date. This order shall be effective February 27, 1975.

(Sec. 512(i), 82 Stat. 347; (21 U.S.C. 360b).)

Dated: February 20, 1975.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Compliance.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI–482]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the fourth column of the table is followed by a designation which indicates whether the date signifies (1) the effective date of the authorization of the sale of flood insurance in the area under the emergency or under the regular flood insurance program; (2) the effective date on which the community became ineligible for the sale of flood insurance because of its failure to submit land use and control measures as required pursuant to § 1909.24(a); or (3) the effective date of a community's formal reinstatement in the program pursuant to § 1909.24(b). The entry reads as follows:

§ 1914.4 Status of participating communities.

• • • • • • •

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	State map repository	Local map repository
•	•	•	•	•	•	•
California	Riverside	San Jacinto, city of	Nov. 5, 1971, Emergency. Sept. 28, 1973, Regular. Mar. 26, 1975, Suspension.	Sept. 28, 1973		
Florida	Brevard	Titusville, city of	Mar. 12, 1971, Emergency. June 16, 1972, Regular. Mar. 26, 1975, Suspension.	June 16, 1972		
Iowa	Clayton	McGregor, town of	Apr. 9, 1971, Emergency. Jan. 21, 1972, Regular. Mar. 26, 1975, Suspension.	Jan. 10, 1972		
Kansas	Shawnee	Topeka, city of	August 7, 1970, Emergency. Oct. 22, 1971, Regular. Mar. 26, 1975, Suspension.	Oct. 23, 1971		
Missouri	Jefferson	De Soto, city of	Feb. 19, 1971, Emergency. May 26, 1972, Regular. Mar. 26, 1975, Suspension.	May 26, 1972		
Missouri	Phelps	Newburg, city of	Apr. 9, 1971, Emergency. Apr. 28, 1972, Regular. Mar 26, 1975, Suspension.	Apr. 28, 1972		
North Carolina	Macon	Franklin, town of	Sept. 18, 1970, Emergency. Feb. 19, 1971, Regular. Mar. 26, 1975, Suspension.	Feb. 23, 1971		

(National Flood Insurance Act of 1968 (title XIII of the Housing and Urban Development Act of 1968); effective Jan. 28, 1969 (33 FR 17804, Nov. 28, 1968), as amended, 42 U.S.C. 4001–4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, Feb. 27, 1969) as amended 39 FR 2787, Jan. 24, 1974.

Issued: February 21, 1975.

J. ROBERT HUNTER,
Acting Federal Insurance Administrator.

[FR Doc.75–5102 Filed 2–26–75;8:45 am]

PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

Insurance Rate Map; Correction

On June 5, 1970, in 35 FR 8733, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Hazard Boundary Maps and Flood Insurance Rate Maps were available for public inspection. This list included Hilo, Hawaii and vicinity, as an eligible community and included Map No. I 15 001 1900 05 through I 15 001 1900 09 which designates the Special Flood Hazard Areas and elevations and zones for flood insurance in the above mentioned city.

It has been determined by the Federal Insurance Administration, after a technical review of the above map in view of additional recently acquired flood information, that a revision of the above map is in order. Accordingly, effective January 16, 1975, Flood Insurance Rate Map No. I 15 001 1900 05 through I 15 001 1900 09 is hereby amended. This action has the effect of converting the original designations of Zones AO to Zone D. By changing the Zone designation of Zone AO to Zone D, flood insurance is optional for property within Zone D, and, therefore, can be obtained if desired.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, 42 U.S.C. 4001–4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974)

Issued: February 11, 1975.

J. ROBERT HUNTER,
Acting Federal Insurance Administrator.

Title 25—Indians

CHAPTER I—BUREAU OF INDIAN AFFAIRS

PART 221—IRRIGATION OPERATION AND MAINTENANCE CHARGES

Basic and Other Water Charges on the Fort Hall Irrigation Project

These final regulations are issued under the authority delegated to the Commissioner of Indian Affairs by the Secretary of the Interior in 230 DM 1 and redelegated by the Commissioner to the Area Directors in 10 BIAM 3. The authority to issue regulations is vested in the Secretary of the Interior by sections 161, 463, and 465 of the Revised Statutes (5 U.S.C. 301; 25 U.S.C. 2 and 9).

Beginning on page 787 of the FEDERAL REGISTER of January 3, 1975 (40 FR 2), there was published a notice of intention to modify 25 CFR 221.32 by changing the basic rates for annual operation and maintenance assessments on the Fort Hall Project for calendar year 1975 and subsequent years.

Interested persons were given 30 days in which to submit written comments, suggestions, or objections regarding the proposed regulations. During this period one protest was received from the Fort Hall Water Users Association and answered after due consideration. It was determined that sufficient justification exists for modifying the rate for basic and other water charges on the Fort Hall Irrigation Project. The proposed regulations are hereby adopted without change and are set forth below.

The modified § 221.32 shall become effective on March 31, 1975.

§ 221.32 Basic and other water charges.

(a) In compliance with the provisions of the Acts of March 1, 1907, (34 Stat. 1024), and August 31, 1954 (68 Stat. 1026), the annual basic water charges for the operation and maintenance of the lands in non-Indian ownership and Indian-owned lands leased to a non-Indian or a non-member of the Shoshone-Bannock Tribe of the Fort Hall Indian Reservation, Idaho, to which water can be delivered for irrigation are hereby fixed for the calendar year 1975 and subsequent years until further notice as follows:

	Per acre
(1) Fort Hall project:	
Basic rate	$11.50
(2) Michaud division, Fort Hall project:	
Basic rate	15.50
Additional rate for sprinkler irrigation when pressure is supplied by the project	5.00
(3) Minor units, Fort Hall Reservation:	
Basic rate	9.25

(b) In addition to the foregoing charges, there shall be collected a minimum charge of $5 for the first acre or fraction thereof on each tract of land for which operation and maintenance bills are prepared. The minimum bill issued for any area will, therefore, be the basic rate per acre plus $5.

FRANCIS BRISCOE,
Area Director.

FEBRUARY 21, 1975.

[FR Doc.75–5260 Filed 2–26–75;8:45 am]

Title 31—Money and Finance: Treasury

CHAPTER II—FISCAL SERVICE DEPARTMENT OF THE TREASURY

SUBCHAPTER A—BUREAU OF GOVERNMENT FINANCIAL OPERATIONS

PART 223—SURETY COMPANIES DOING BUSINESS WITH THE UNITED STATES

Corrections

In the FEDERAL REGISTER of February 12, 1975, at page 6498, there was published a rule making document which amended 31 CFR Part 223, governing surety companies doing business with the United States. Several editorial corrections must, however, be made to those amendments for purposes of clarity and exactness.

1. In § 223.1 delete the comma after the word "insurers", in the last line of the section, and insert a comma after the word "of", in the last line of the section.

2. In § 223.3 the hyphenated word "certifi-icate", in the second and third lines from the bottom of the section, is misspelled and should have the "i" either before or after the hyphen deleted.

3. In § 223.16 the paragraph beginning with "Prior to adoption . . ." and ending with ". . . been requested and approved." should be deleted.

[SEAL] JOHN K. CARLOCK,
Fiscal Assistant Secretary.

FEBRUARY 21, 1975.

[FR Doc.75–5192 Filed 2–26–75;8:45 am]

Title 32—National Defense

CHAPTER V—DEPARTMENT OF THE ARMY

SUBCHAPTER A—AID OF CIVIL AUTHORITIES AND PUBLIC RELATIONS

PART 518—RELEASE OF INFORMATION AND RECORDS FROM ARMY FILES

The Department of the Army is amending its regulation concerning the release of information and records from Army files. It is the Army's implementation of 5 USC 552b, commonly referred to as the Freedom of Information (FOI) Act.

The revision was developed to implement the amendments to 5 USC 552, since the revision established by this document merely implements the above amendments, and is noncontroversial, notice, public procedure, and delayed effective date are not prerequisites to this promulgation.

Part 518 of 32 CFR is revised as set forth below:

GENERAL

Sec.
518.1 Purpose.
518.2 Explanation of term "records".

PROCEDURES

518.3 General policies.
518.4 Scope.
518.5 Requests for Army records.
518.6 Examination and reproduction of records.
518.7 Use of expeditious communications.
518.8 Responsibilities of officials receiving initial requests.
518.9 Initial denial authorities (IDA).
518.10 Responsibilities of IDA.
518.11 Release of records to specified members of the public.
518.12 Release to Congress.
518.13 Litigation, tort claims and contract disputes.
518.14 Exemptions.
518.15 Annual reporting requirements.
518.16 Information published in the FEDERAL REGISTER or made available for public inspection and copying.
518.17 Officials to whom requests for information may be directed.
518.18 Preservation of personal privacy of members of Army.
518.19 Schedule of fees for search and duplication under The Freedom of Information Act Amendments PL 93–502.

AUTHORITY: The provisions of the Part 518 issued under sec. 3012, 70A Stat. 157, (10 U.S.C. 3012); sec. 3, 60 Stat. 238, (5 U.S.C. 552), unless otherwise noted.

§ 518.1 Purpose.

This part 518 prescribes policies and procedures for releasing outside of the Department of the Army information contained in Army records.

§ 518.2 Explanation of term "records".

(a) For the purpose of this part 518, the following explanation of "record" is taken from 44 U.S.C. 3301 (formerly 44 U.S.C. 366)

• • • all books, papers, maps, photographs, or other documentary materials, regardless of physical form or characteristics, made or received by an agency of the United States Government under Federal Law or in connection with the transaction of public business and preserved or appropriate for preservation by that agency or its legitimate successor as evidence of the organization, functions, policies, decisions, procedures, operations, or other activities of the Government or because of the informal value of data in them.

(b) The term "records" does not include objects or articles such as structures, furniture, paintings, sculptures,

XUM
V 40 40
FEB 27 75
XUM

three-dimensional models, vehicles, and equipment.

§ 518.3 General policies.

(a) Department of the Army policy is that the prompt maximum release will be made of Army records. Access to and copies of identifiable Army records which are requested in writing will be furnished, unless exempted from the requirement of disclosure by 5 U.S.C. 552 (the Freedom of Information Act) as described in § 518.14.

(1) Any reasonably segregable portion of a requested record will be furnished after deletion of the portions which are exempted from disclosure, for example, deletion of names or identity to preserve personal privacy, deletion or removal of properly classified portions, or deletion/exclusion of information from a non-Army agency (e.g., FBI data).

(2) Unless otherwise directed by the Initial Denial Authority (IDA) concerned, the action command or office receiving a request will release any exempted records in its possession, or reasonably available, which originated within or were prepared by that command or office, or any subordinate element thereof (other than records containing national security information or information whose nondisclosure is required by statute), if no legitimate purpose exists for withholding it.

(3) The Initial Denial Authorities will release exempted records and documents in their designated specialization areas (§ 518.9), other than national security information or information whose nondisclosure is required by statute, if no legitimate purpose exists for withholding it.

(4) No official other than those cited in (a)(2) and (3) of this section and the Secretary of the Army may release exempted information.

(5) No official other than the IDA and the Secretary of the Army may deny a request for Army records.

(b) All requests for records will be acted upon fairly and completely within the following time periods, as specified in 5 U.S.C. 552(a)(6):

(1) The action command or office must respond to any request within 10 days (excepting Saturdays, Sundays, and legal public holidays) after it has been received by the office having the records, notifying the requester in writing of its determination. (See § 518.7 for a list of officials in the Department of the Army to whom requests for specified categories of records must be directed.) That office will date/time-stamp each request upon receipt. The action command or office will establish such other procedures as required to assure that each case receives priority treatment during all phases of its processing.

(2) If the request is totally or partially denied by an IDA, the requester will be notified of the basis for the denial, the name and titles or positions of each person responsible for the denial of his request, and of his right to appeal to the Secretary of the Army (see § 518.10). (Normally the person responsible for denial will be the IDA, that is, the head of the staff agency or command specified in § 518.9.)

(3) The Department of the Army must respond to any appeal within 20 days (excepting Saturdays, Sundays, and legal public holidays) after its receipt by the Office of the Secretary of the Army. If the initial denial of the request is upheld, in whole or in part, the requester will be notified of the provisions for judicial review of the denial under 5 U.S.C. 522(a)(6).

(4) In unusual circumstances, as set forth below, the time limits in either (b)(1) or (3) of this section may be extended by not more than an additional 10 working days by written notice to the requester (see 518.8). This notice must be sent within the time limits in (b)(1) or (3) of this section and will specify the reason for the extension and the date on which a determination is expected to be dispatched. The extension may be invoked only once during consideration of a request, either during the initial consideration period or during consideration of an appeal, but not both. Extension of the time limit during the initial consideration period may be invoked only by the responsible IDA, after coordination with the Army General Counsel. The unusual circumstances are:

(i) When there is a need to search for and collect the requested records from offices that are widely separated from the office processing the request; or,

(ii) When there is a need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records demanded in a single request; or,

(iii) When there is a need for consultation with another agency having a substantial interest in the determination of the request, or among two or more widely separated elements of the Department of the Army having substantial subject matter interest.

(c) The fact that a record from Army files may reveal or suggest errors or inefficiency will not be a basis for withholding it from the public.

(d) Whenever it appears that possible public/press interest may be generated as a result of any release or denial action, appeal or court review, Freedom of Information Act cases will be discussed with the Chief of Information or field command/organization Information Officer to insure public affairs awareness of the issues to obtain advice and recommendations concerning such matters and their impact upon the Army. Point of contact for the Chief of Information is the Office for the Freedom of Information, DAIO–FOI, AUTOVON 22–74122 or Area Code 202, 697–4122.

(e) Records releasable by commands subordinate to HQDA may also be released by the HQDA agency primarily concerned.

§ 518.4 Scope.

This regulation applies to written requests received from any source outside the Department of the Army. It does not preclude release of records to agencies or individuals in the Federal Government whose official work and duties require access to the records concerned. Section 518.11 provides specific procedures for release of personal information to governmental organizations outside DOD. Except for information falling within the scope of 21 U.S.C. 1175 and 42 U.S.C. 4582 (see Cir. 600–85), requests for Army records will be denied only on the grounds authorized in this regulation, The Armed Services Procurement Regulation, and the Federal Personnel Manual, notwithstanding any limitations contained in other regulations. The following regulations set forth additional procedures for the release of certain records or information.

(a) Inspector General reports—AR 20–1.
(b) Claims reports—AR 27–20.
(c) Patents, inventions and copyrights—AR 27–60.
(d) U.S. General Accounting Office audits—AR 36–20.
(e) Litigation: release of information and appearance of witnesses—AR 27–40.
(f) Medical records—AR 40–2, AR 40–22, AR 40–400, AR 40–403, and DA Circular 600–85.
(g) Technical reports—AR 70–31.
(h) Aircraft accident investigations—AR 95–1, AR 95–5, and AR 20–1.
(i) Criminal investigation activities—AR 195–2.
(j) Military Police files—AR 190–2, AR 190–37, AR 190–45 and AR 635–50.
(k) Medical records and files in records centers—AR 340–1.
(l) Disciplinary actions—AR 340–19.
(m) Army information, general policies on release—AR 360–5.
(n) Foreign nationals, release of information to—AR 380–10.
(o) US Army Intelligence investigative files—AR 381–130, AR 381–45, and AR 381–46.
(p) Safety reports and records—AR 385–40.
(q) Alcohol and/or drug abuse records—DA Cir 600–85 (to be published; see DA msg DTG 3619512 Feb 74).
(r) Military personnel records—AR 640–10.
(s) Civilian personnel records—CPRs 296–31, 700, 752–1, 771, M1, Federal Personnel Manual Chapters 293, 294 and 339, and AR 230–2.
(t) National Security classified information—DOD 5200.1–R and AR 380–5.
(u) Procurement matters—Armed Services Procurement Regulation (ASPR) and Army Procurement Procedure (APP).
(v) Safeguarding "For Official Use Only" information—AR 340–16.

§ 518.5 Requests for Army records.

(a) A request for Army records will be deemed to have been received, under the Freedom of Information Act, only if such a request:

(1) Indicates in writing, expressly or implicitly, that records are being requested under the Freedom of Information Act, and

(2) Reasonably describes the records, and

(3) Is made in accordance with requirements of this regulation, concerning the time, place to address, fees, and procedures to be followed. (See Appendix B for list of officials to whom requests for specified categories of records must be directed. See § 518.8 with regard to the requirement that a requester pay, or agree to pay, in advance, all fees

assessed, incident to processing of his request.)

(b) There is no obligation to create a record to satisfy a request for information. When the information requested must be released but exists in the form of several records at several locations, the applicant will be referred to those sources if gathering the information would be so burdensome as to interfere materially with the operations of the Army.

(c) If the requested record originated outside the Department of the Army, the request will be returned to the requester, advising him to send it to the appropriate agency, if he desires, and providing him with the name or title, address, and other appropriate information regarding such agency. An information copy of the request and the letter of referral will be forwarded promptly to the agency that may expect the request. A person who requests a copy of material primarily concerning a member of Congress or a Congressional Committee, or a copy of a transcript of testimony given before a Congressional Committee, will be advised to direct his request to the member or committee concerned.

§ 518.6 Examination and reproduction of records.

(a) Authority to release records includes authority to permit their examination. When authority to examine records is granted, the examination normally will be permitted at the place where the papers are maintained or stored, during regular business hours, and under such circumstances and procedures as are deemed appropriate by the custodian.

(b) Original and record copies of Army records will not be released. Copies will be furnished instead. A charge will be imposed in accordance with 518.19 for conducting a search and preparing copies of records. This charge may be imposed even where the search has been unsuccessful or unproductive.

§ 518.7 Use of expeditious communications.

The time limits imposed by 5 U.S.C. 552(a)(6) (see § 518.3) require that all personnel involved in processing a request from the public for records handle the case without delay. The use of telephone, priority message, facsimile transmission, or other expeditious means of communication is authorized for this purpose.

§ 518.8 Responsibilities of officials receiving initial requests.

(a) If a request has been misdirected by the requester, the following actions, as appropriate, will be taken as quickly as possible within the mandatory time limits:

(1) If the request is of proper concern to another Army element, it will be marked conspicuously on the forwarding envelope FREEDOM OF INFORMATION REQUEST and hand-carried or forwarded to that element by the most expeditious means. A notice of the referral will be furnished the requester. If feasible advance information concerning the request will be telephoned to the element receiving the referral. Upon receipt, that element will notify the requester that his request has been received by the proper authority and the 10-day initial period required by law commenced on date of receipt.

(2) If the request is of proper concern of an agency outside the Army, it will be returned to the requester, advising him to refer it to the appropriate agency if he desires; and providing him with the name or title, address, and other appropriate information regarding such agency. An information copy of the request and the letter of referral will be forwarded promptly to the agency that may expect the request.

(3) If the information requested is a combination of Army material and one or more identifiable sources other than Army, the Army portions will be reviewed and acted upon; if practicable, the other portions will be referred to the originating agencies. Within the time limits imposed, the requester will be provided with releasable Army information, if any, and advised where to obtain release of the non-Army material.

(b) When a request is received by the proper official to whom such category of requests must be directed (see § 518.17), that official will commence processing the request, in accordance with this regulation and take one of the following actions:

(1) Unless the request specifically states that the requester will pay whatever cost is involved in processing the request, the official will estimate the total amount of fees expected to be assessed for processing the request (see § 518.19), and, if such estimate is $10.00 or more, will promptly notify the requester, in writing, of the estimate. Such notification will advise the requester that he must submit payment in advance to cover the amount of the estimate; that the time limit specified in § 518.3 will not begin to run until payment is received; and that should the final amount of fees assessed at the completion of the processing of his request be greater or less than the estimate, an additional fee will be assessed or reimbursement made, as appropriate; or

(2) If the request specifically states that the requesters will pay whatever cost is involved in processing the request, or if the total amount of fees expected to be assessed for processing the request (see § 519.19) is less than $10.00, the official will immediately commence processing of the request in accordance with this regulation.

(c) If a request conforms with the requirements of § 518.5, the action command or office receiving the request will, within 10 working days after receipt of the request, notify the requester in writing of favorable action on his request if:

(1) The requested record does not fall under one or more exemptions in § 518.14; or

(2) The requested record originated within or was prepared by such command or office, or any subordinate element thereof is in its possession or reasonably available, and no legitimate purpose exists for withholding it, even though such record may fall within one or more exemptions in § 518.14 (other than records containing national security information or information whose nondisclosure is required by statute). Favorable action may consist of forwarding a copy of the requested record if the provisions of § 518.19 authorize release without fees or if payment of fees has already been made; or forwarding a notice of the availability of the record and the amount of fees due, upon receipt of which, the documents will be furnished promptly. (This notification will be made within the 10 working day period even if preparing the requested record for examination or dispatch will require a period of time longer than ten working days. In such case, the notification will include the date on which the requested record is expected to be ready for examination or dispatch. Such notification will serve to satisfy the requirement for a determination within 10 working days, and no extension of the time limit will be necessary.)

(d) If in the judgment of the reviewing official, the request involves a record which falls under one or more of the exemptions cited in § 518.14, and that official either is not authorized to release the record, or determines that a legitimate purpose exists for withholding it, he will:

(1) At the earliest possible moment, telephone or otherwise promptly notify the responsible IDA specified in § 518.9 to alert him of an impending referral of the request, and to discuss the case and mutual arrangements to expedite action, e.g., to assure availability to the IDA of copies of the requested documents, the means of transmitting the case, and related matters.

(2) Mark the forwarding envelope FREEDOM OF INFORMATION REQUEST conspicuously, and forward the request to the IDA immediately, providing a citation of the appropriate exemption and stating the reasons release is or is not recommended. He will include copies of the requested documents if deemed necessary during telephonic coordination of the case. He will also include his opinion whether a legitimate purpose exists for withholding the information.

(3) Advise the requester in writing within 5 working days, that his request has been forwarded to a higher authority for action and direct reply. The name or title and address of both the forwarding and the highre official will be provided so that the requester may communicate with either party. This notification will neither state nor imply release or denial, as denial decisions will be made and communicated solely by the IDA.

(e) If a request conforms with the requirements of § 518.5, but the requested record is not available, the requester will be notified within 10 working days after receipt of the request. If there is an explanation for the records, nonavail-

XUM
V 40 40 FEB 27 75 XUM

ability, e.g., destroyed pursuant to approved records disposition standards or not located after thorough search, this information will be included in the reply. In all cases of negative replies of this nature, an information copy of the request and reply will be forwarded promptly to HQDA (DAAG–AMR), WASH DC 20314.

(f) If a request conforms with the requirements of § 518.5, but the official receiving the request estimates that it will require more than 10 working days to arrive at a determination regarding the request, he will, in addition to commencing processing of the request, immediately contact the responsible IDA who, after consultation with the Army General Counsel, may authorize the official to invoke the 10 working day extension period or direct other appropriate action.

(g) All Freedom of Information Act requests from representatives of the press or other mass communications media will be directed to the appropriate command/organization information officer. Information officers receiving requests for records and documents will coordinate with appropriate officials, in accordance with guidances provided in this Part 518, to determine releasability of the information. In the event the documents requested fall under one or more of the exemptions, direct communication will be established with the Chief of Information, Public Information Division, AUTOVON 22–75662 or Area Code 202, 697–5662 for referral of the request to appropriate IDA.

§ 518.9 Initial denial authorities (IDA).

(a) *General responsibilities.* The officials indicated in paragraph (b) of this section are designated as the sole Initial Denial Authorities of the Department of the Army. Each IDA is responsible for acting on referrals received from officials under the provisions of § 518.8 and on requests received directly by his agency when he is the official to whom such requests must be directed (see § 518.17); for maintaining data and submitting information to TAG for the annual report described in § 518.15; and for other matters covered in this Part 518. Each IDA will appoint a single point of contact to represent him in all matters covered in this Part 518. This does not preclude the designation of additional individuals to handle FOIA actions when an IDA has responsibility for more than one area of specialization. The names, offices, and telephone numbers of the individual appointed as single points of contact will be furnished The Adjutant General (ATTN: DAAG–AMR–S), Forrestal Building, Washington, D.C. 20314.

(b) *Assigned areas of authority.* The IDA are assigned authority in the areas of specialization listed below, to act on referral from officials under § 518.8, and on requests sent directly to them. They will coordinate all matters relating to the release of exempted information which have public affairs aspects with the Chief of Information or with the appropriate information officer in accordance with AR 10–5 and AR 360–5. In cases where the information requested (exempted or otherwise) is related to actual or potential litigation against the United States, the release will be coordinated with The Judge Advocate General (Litigation Division, HQDA (DAJA–LT), AUTOVON 22–51644 or Area Code 202, 695–1644); see 516.13.

(1) The Adjutant General is authorized to act on:

(i) Requests for personnel and medical records of retired, separated, or Reserve component military personnel. Requests for medical records of former military personnel, not covered by AR 340–1, will be coordinated with The Surgeon General.

(ii) Requests for national security classified records. As necessary, The Adjutant General will coordinate with the agency having cognizance over the subject matter.

(iii) In requests involving both national security records and records falling under another exemption listed in § 518.14, The Adjutant General will coordinate national security information aspects as indicated in (ii) above. He will coordinate information also falling under another exemption with the appropriate officials specified below. The Adjutant General is responsible for consolidating the data and for insuring that a coordinated action is completed at the initial denial level.

(2) Commanding General, United States Army Military Personnel Center (MILPERCEN) is authorized to act on requests for records relating to active duty military personnel matters, including military personnel files, ADP records and data, case summaries, letters of instructions to boards, and other military personnel administration records.

(3) The Surgeon General is authorized to act on requests involving medical records of active duty military personnel, dependents, and any person given a physical examination or who has received treatment at Army medical facilities and medical research and development matters.

(4) The Deputy Chief of Staff for Personnel is authorized to act on requests involving civilian personnel records and behavioral science matters, and military police reports, except for DA Forms 3975 (Military Police Report) and 3946 (Military Police Traffic Accident Investigation Report).

(5) The Inspector General and Auditor General is authorized to act on requests involving Inspector General reports in accordance with AR 20–1, aircraft safety investigations, and audits and reports prepared by the Army Audit Agency.

(6) The Chief of Chaplains is authorized to act on requests involving ecclesiastical rites performed by Army Chaplains and privileged communications related to the clergy.

(7) The Chief of Engineer authorized to act on requests involving civil works as defined in § 518.17, military construction matters, engineer procurement, and ecology matters.

(8) Commanding General, United States Army Criminal Investigation Command is authorized to act on all requests involving criminal investigation records (to include military police reports which are part of criminal investigation reports) and investigations in progress.

(9) Commanding Officer, United States Army Intelligence Agency is authorized to act on all requests involving US Army intelligence investigative files.

(10) The Comptroller of the Army is authorized to act on all requests for finance and accounting records.

(11) Commanding General, United States Army Materiel Command is authorized to act on all requests involving procurement records within that command.

(12) The Judge Advocate General is authorized to act on all other requests including requests for data from DA Forms 3975 (Military Police Report) and 3946 (Military Police Traffic Accident Investigation Report). He is also authorized to act on requests within the purview of (1) through (11) above in cases involving litigation in which the United States has an interest.

(c) *Exceptions.* (1) IDA may release excepted records described in § 518.14(b) through (i) in accordance with § 518.3, unless nondisclosure is required by statute. Material exempted under § 518.14 may not be released under this paragraph, but must be declassified before release in accordance with the provisions of Department of Defense Regulation 5200.1–R and AR 380–5.

(2) Denial or approval by IDAs of the release of exempted records in response to requests from mass communications media representatives will be forwarded to the Chief of Information (DAFO–PHD) for transmittal to the requester within statutory time limits.

§ 518.10 Responsibilities of IDA.

(a) *Referral from other elements of DA.* Where a request has been referred to an IDA under provisions of § 518.8, he will:

(1) Immediately determine whether the request should be granted or denied, in whole or in part, accomplishing coordination, as necessary, on a personal contact basis. In arriving at this determination, he will apply the following guidance:

(i) Any reasonably segregable portion of a requested record will be furnished after deletion of the portions which are exempted from disclosure; and

(ii) Any exempted record or reasonably segregable portion thereof (other than portions containing national security information, information whose nondisclosure is required by statute, or information relating to matters in litigation), will be released if no legitimate purpose exists for withholding it.

(2) If the determination is favorable, the IDA will notify the requester in the manner described in § 518.8. Such notification must be made within 10 working days after receipt of the request by the official to whom it was properly directed. In those cases when the IDA is able to

make a decision without the documents, the custodian will be directed to release the documents promptly to the requester.

(3) If the decision is unfavorable, in whole or in part, the IDA will:

(i) So advise the requester in writing within the same 10-day time period (see (a)(2) of this section), furnishing the reason for the denial, with reference to appropriate exemption set forth in § 518.14, citing the specific subparagraph of 5 USC 522(b); providing the name and title or position of the denial authority; and informing him of his right to appeal directly to the Secretary of the Army (ATTN: General Counsel).

(ii) Forward an advance information copy of the request and the denial to the Office of the General Counsel, Office of the Secretary of the Army.

(iii) Maintain, or be able to obtain and provide to the General Counsel within 48 hours, all pertinent material including copies of the requested documents.

(iv) Assist the Army General Counsel during his processing of any appeal from the denial.

(b) *Initial requests.* When a request is received initially by an IDA who is the official to whom requests for such records must be directed (see § 518.17), he will process the request in accordance with the procedures in §§ 518.8 and 518.10 above.

(c) *Time limitations on responses.* As indicated in § 518.3 above, the Freedom of Information Act imposes strict time limits on responses to requests. In acting upon requests, the IDA will apply the following procedures, as appropriate.

(1) During initial telephone coordination with elements receiving the request, the IDA will:

(i) Obtain all information concerning the request necessary to begin an immediate review from sources available to him, if possible, while awaiting referral.

(ii) Otherwise, will insure that documents are forwarded with the request by the fastest possible means.

(2) During review, he will insure that the case is handled on the highest priority basis, with an action officer effecting coordination on a personal contact, hand-carry basis.

(3) The IDA may invoke the extension period only in circumstances specified in the statute (§ 518.3 (4) above) and only where an extension is deemed essential. The Army General Counsel will be consulted before invoking the extension period. When invoked, the minimum number of days will be used since every day of the extension expended during the initial review will be unavailable to the final appellate authority.

(4) In those cases when a determination cannot be made within the prescribed time limit, or where a record cannot be found, the IDA may:

(i) Contact the requester by telephone or other expeditious means,

(ii) Explain to him why the request cannot be handled within the statutory time limit, and

(iii) Inform him that he may treat this as an initial denial with a right to appeal, or that he may agree to await a substantive response by an anticipated date. If a voluntary extension is agreed upon, it will be formally documented by the IDA in written correspondence. The IDA must advise the requester, both during any informal oral discussions and in writing, that the further extension is entirely voluntary, that his agreement constitutes a waiver of the statutory time period, and that it does not prejudice his right to appeal the initial decision after it is made.

(d) *Denial based on national defense or foreign policy.* Records denied in the interests of national defense or foreign policy (5 U.S.C. 552(b)(1)) must in fact be properly classified. The letter of denial will consequently cite the specific provision of Executive Order 11652 and DOD Regulation 5200.1–R relied upon as authority for classification of the records.

§ 518.11 Release of records to specified members of the public.

Even though the following records are exempt from disclosure to the general public, they will be released on request to the individuals specified below, within the mandatory time limits prescribed in § 518.3.

(a) *Medical records.* The following information will be released by commanders/chiefs of medical treatment facilities ((a)(1) through (9) of this section) or records centers ((a)(4) through (9) of this section).

(1) Information on the condition of sick and injured patients will be released to the relatives of such patients, in order to allay their anxiety.

(2) Information that the patient's condition has reached a critical stage will be released to the nearest known relative, or to the person designated by the patient to be informed in case of an emergency.

(3) Information that a diagnosis of psychosis has been made will be released to the nearest known relative or to the person designated by the patient.

(4) Information will be released to local officials concerning births, deaths, and cases of communicable diseases when such reports are required by pertinent local laws.

(5) Medical records relating to present or former military personnel, dependents, civilian employees, or patients in a medical treatment facility of the Department of the Army are the proper and direct concern of the individual to whom they pertain. Copies of extracts from the medical record will be released to the individual concerned upon his request or to his representative designated in writing unless, in the opinion of his attending physician, it could be injurious to his physical or mental health. In the event he has been adjudged insane or is dead, the records are the proper and direct concern of the next of kin or patient's legal representative and will be released to the patient's next of kin or patient's legal representative on written request. If the information might prove injurious to the health of the patient, the information will not be released to him; it will be released only to his next of kin, legal representative, or physician assuming responsibility for the patient's treatment.

(6) Copies of medical records may be furnished to a Federal or State hospital or penal institution when the individual to whom they pertain is a patient or an inmate therein. If the patient or his legal representative consents, the medical records of the patient will be released to a civilian physician.

(7) Copies of medical records or information from the records may be furnished to authorized representatives of the National Academy of Sciences, National Research Council, or other accredited agency, when they are engaged in cooperative studies undertaken at the specific request of, or with the consent of, The Surgeon General of the Army, except for information falling within the scope of 21 U.S.C. 1175 (drug) and 42 U.S.C. 4582 (alcohol) (see DA Cir. 600–85).

(8) In connection with the collection of claims in favor of the Government, pertinent portions of an injured party's medical records may be furnished to the staff judge advocate or legal officer of the command for release to the tort-feasor's insurer; if appropriate, even though the injured party does not consent.

(9) Information released to third persons under the provisions of (a) (5), (6), and (7) of this section will be accompanied by a statement that the information is released upon condition that it will not be disclosed to other persons, except in accordance with the accepted limitations which relate to privileged communications between doctor and patient.

(b) *Military personnel records.* Military personnel records will be safeguarded and released by the custodian in accordance with the following:

(1) The Department of the Army is required by statute to provide certain information relating to the service of an individual (statement of military service) to that individual or his legal representative. (Sec 601 of the Soldiers' and Sailors' Civil Relief Act of 1940, as amended; 50 U.S.C. App. 581.)

(2) Papers relating to applications for designation of beneficiaries under and allotments in payment of premiums of National Service Life Insurance or Servicemen's Group Life Insurance are the proper and direct concern of the applicant insured, and will be released to him. In the event of insanity or death of the insured, the beneficiaries designated in the policies, or the next of kin, are considered to have direct and proper concern in these records, and the records will be released to them.

(3) Copies of Army documents recording the death of a member of the military service, a dependent, or a civilian employee will be released to his next of kin, his life insurance carrier, and his legal representative. Requests for information or records by individuals acting in a representative capacity on behalf of another individual will include evi-

XUM
V 40 40
FEB 27 75
XUM

dence in writing of the requester's representative capacity. In cases where the release of the requested information is limited to the individuals concerned, the records may be released to other individuals or organizations upon presentation of evidence in writing of the consent of the individual concerned.

(4) Papers relating to the pay and allowances or allotments of a member or former member of the military service will be released to the individual to whom they pertain, his authorized representative, or in the case of deceased personnel, the next of kin or legal representative.

(c) *Civilian personnel records.* Civilian personnel officers having custody of papers relating to the pay and allowances or allotments of current or former civilian employees will release them to the individual to whom they pertain, his authorized representative, and, in the case of deceased employees, the next of kin or legal representative. Authority to release civilian personnel records does not include authority to release statements of witnesses, medical records, or other reports or documents pertaining to compensation for injuries or death of an Army civilian employee (para 1-4, Chapter 339, Federal Personnel Manual). Such information will be released only by appropriate officials designated in § 518.9.

§ 518.12 Release to Congress.

(a) *Congressional requests.* Requests by members of Congress (or staffs of Congressional committees) for inspection or copies of official records will be handled as follows:

(1) *National security classified records.* Applicable provisions of DOD 5200.1-R and AR 380-5 will be followed.

(2) *Civilian personnel records.* Members of Congress may examine official personnel folders in accordance with applicable instructions governing the release of disciplinary action information (FPM 294.7 and AR 340-19).

(3) *Information pertaining to disciplinary action.* See AR 340-19.

(4) *Military personnel records.* Information from these records will not be released except by authority of HQDA. Custodians will refer all requests from Members of Congress (or staffs of Congressional committees) directly and promptly to the Chief of Legislative Liaison, Department of the Army, Washington, DC 20310.

(5) *Criminal investigation records.* See US Army Criminal Investigation Command CIDR 195-16.

(6) *Other exempt records.* Requests for all other categories of information exempted from mandatory release under 518.14 will be referred by commanders/chiefs to the Chief of Legislative Liaison, Department of the Army, Washington, DC 20310, by the most expeditious means. Referrals will include a copy of the material requested and, as appropriate, recommendations concerning its release or denial.

(7) *All other records.* All other information will be furnished promptly by the commander/chief having custody of the records.

(b) *Notification of releases to Congress.* Commanders/chiefs will notify the Chief of Legislative Liaison, Department of the Army, of all releases of information to Members of Congress or staffs of Congressional committees. Exceptions may be made in routine cases by organizations which in the normal course of business are required to provide information to Congress.

§ 518.13 Litigation, tort claims and contract disputes.

Release of information or records under this paragraph is subject to the time limitations prescribed in § 518.3 and to the requirements to advise the requester of the reasons for non-release or referral.

(a) *Litigation.* (1) Each request for a record which relates to pending litigation involving the United States will be referred to the staff judge advocate or legal officer of the command who, in turn, will promptly communicate the substance of the request and contents of the record requested to the Litigation Division, Office of the Judge Advocate General. (Mailing Address: HQDA (DAJA-LT), Washington, DC 20310, AUTOVON 225-1644 or area code 202-695-1644.)

(2) Whenever information is released under the provisions of Part 518 for use in litigation involving the United States, the official responsible for investigative reports (para 2-4, AR 27-40) will be advised of such release so that he may include a notation in any investigative report he may be required to submit pursuant to Chapter 2, AR 27-40.

(3) A request for information or records normally exempted, e.g., personnel and medical records, for use in litigation to which the United States is not a party, may be releasable to the judge or court concerned. Such requests will be referred to the local staff judge advocate or legal officer for coordination with the Litigation Division, OTJAG. Mailing address: HQDA (DAJA-LT), Washington, DC 20310, AUTOVON 225-1644 or area code 202-695-1644.

(b) *Tort claims.* (1) Each request from a claimant or his attorney for a record, including requests listed in §§ 518.5 and 518.11, which relates to a pending administrative tort claim that has been filed against the Army, will be referred promptly to the claims approving or settlement authority with monetary jurisdiction over the pending claim (AR 27-20). If the request concerns an incident in which a claim is pending but in which a larger potential claim exists that has not yet been filed, the authority with monetary jurisdiction over the potential claim will receive the request.

(2) If no administrative tort claim has been filed, and the request is made by a potential claimant or his attorney under circumstances clearly indicating that he desires to obtain a record for use in connection with the filing of such a claim, the request will be referred to the authority named in (b) (1) of this section. That authority, when subordinate, will in turn, communicate promptly the substance of the request and the contents of the record to Chief, US Army Claims Service, Fort George G. Meade, MD 20755 (AUTOVON 923-7800; commercial: area code 301-677-7860).

(3) HDA officials listed in § 518.9 (1) through (11) who receive such requests will refer them directly to Chief, US Army Claims Service, and will advise requester of the referral and the basis for it.

(4) The Chief, US Army Claims Service will process the request in accordance with this regulation and paragraph 1-6, AR 27-20.

(c) *Contract disputes.* Each request for a record which relates to a potential contract dispute or a dispute that has not reached "final decision" by the contracting officer shall be treated as a request for "procurement records" and not as "litigation", except that the officials listed in §§ 518.8, 518.9 and 518.11 shall consider the impact of release upon the potential dispute procedures and may consult with The Judge Advocate General, TTN: JAAJ-CAD, Nassif Building, 5611 Columbia Pike, Falls Church, VA 22041, AUTOVON 289-2460 or area code 202-756-2460. Each request for a record which relates to a pending contract appeal to the Armed Services Board of Contract Appeals, or to a "final decision" that is still subject to appeal (i.e., 90 days have not lapsed after receipt of the "final decision" by the contractor), shall be treated as a request involving a contract dispute and will be referred to The Judge Advocate General, JAAJ-CAD.

§ 518.14 Exemptions.

The following categories of records are exempt under 5 U.S.C. 552(b) from mandatory release:

(a) Those properly classified in the interests of national security pursuant to DOD 5200.1-R and AR 380-5 (5 USC 552(b)(1)).

(b) Those containing rules, regulations, orders, manuals, directives, and instructions which provide only internal guidance to DOD personnel (5 USC 522(b)(2)). Examples are:

(1) Operating rules, guidelines, and manuals for investigators, inspectors, auditors, and examiners, and schedules or methods involved.

(2) Negotiating and bargaining techniques, positions, and limitations.

(3) Personnel and other administrative matters, such as examination questions and answers used in training courses or in the determination of the qualification of candidates for employment, entrance to duty, advancement, or promotion.

(c) Those containing information which statutes authorize or require to be withheld from the public (5 U.S.C. 552(b)(3)). Examples are:

(1) Trade and financial information provided in confidence by business (18 U.S.C. 1905).

(2) Technical data, including such data regarding munitions (50 U.S.C. 2623 and 22 U.S.C. 1934).

(3) National Security Agency information (50 U.S.C. 402).

(4) Information relating to inventions which are the subject of patent applications on which patent Secrecy Orders have been issued (35 U.S.C. 181-188).

(5) Records of drug abuse/patients (21 U.S.C. 1175, 42 U.S.C. 4582).

(d) Those containing trade secrets or commercial or financial information which was received with the understanding that it will be retained on a privileged or confidential basis in accordance with customary handling of such records (5 U.S.C. 552 (b) (4)). Such records include those which contain:

(1) Information customarily considered privileged or confidential under the rules of evidence in Federal courts, such as information coming within the doctor-patient, lawyer-client, and priest-penitent privileges.

(2) Commercial or financial information received in confidence in connection with loans, bids, contracts, or proposals, as well as other information received in confidence or privileged, such as trade secrets, inventions and discoveries, or other proprietary data.

(3) Statistical data and commercial or financial information concerning contract performance, income, profits, losses and expenditures, if offered and received in confidence from a contractor or potential contractor.

(4) Personal statements given in the course of inspections, investigations, or audits, where such statements are received in confidence from the individual and retained in confidence because they cover trade secrets or commercial or financial information normally considered confidential or privileged, or because they are essential to an effective inspection or audit and could not otherwise be obtained.

(e) Except as provided in paragraph (e) (2) through (5) below, internal communications within and among agencies and commands (5 U.S.C. 552(b)(5)).

(1) Examples include:

(i) Staff papers containing staff advice, opinions, or suggestions.

(ii) Information received or generated by a command or office preliminary to a decision or action, including draft versions of documents, where premature disclosure would interfere with the authorized purpose for which the records were created.

(iii) Advice, suggestions, or reports prepared on behalf of the Army by boards, committees, councils, groups, panels, conferences, commissions, task forces, or other similar groups that are formed by a command or office to obtain advice and recommendations, or by individual consultants.

(iv) Those portions of Army evaluations of contractors and their products which contain recommendations or advice by government employees about the contractor or product.

(v) Advance information on such matters as proposed plans to procure, lease, or otherwise acquire and dispose of materials, real estate, facilities, or functions when such information would provide undue or unfair competitive advantage to private personal interests.

(vi) Records which are exchanged among command or office personnel or within and among the military services, commands, or offices preparing for anticipated legal proceedings before any federal, state or military court or before any regulatory body.

(vii) Reports of inspections, legal opinions, audits, investigations, or surveys which pertain to safety, security, or the internal management, administration, or operation of the Department of the Army or one of its commands or offices.

(2) If any such intra- or inter-agency record, or reasonable segregable portion of such record would routinely be made available through the discovery process (the process by which litigants obtain information relevant to a case prior to a trial or hearing) in the course of litigation with the agency, then it should not be withheld from the general public. If, however, the information would only be made available through the discovery process by special order of the court based on the particular needs of a litigant balanced against the interests of the Army in maintaining its confidentiality, then the record or document should not be made available to a member of the general public.

(3) Factual records or segregable portions of intra- or inter-agency memorandums or letters are routinely made available through discovery, and should, therefore, be made available to a requester unless the factual material is otherwise exempt from release under § 518.14.

(4) A direction or order from a superior to a subordinate, though contained in an internal communication, is generally not withholdable from a requester if it constitutes policy guidance or a decision, as distinguished from a discussion of preliminary matters that would compromise the decision-making process.

(5) An internal communication concerning an event or decision which has subsequently been made a matter of public record, or was among officers or employees (or members of the armed forces) who no longer are actively employed by the Department of Defense or its components, should normally be made available to a requester, unless it is determined that because of special circumstances release would prejudice the current decision-making process.

(f) Information in personnel, medical, and similar files which, if disclosed to a member of the public, would result in a clearly unwarranted invasion of personal privacy (5 U.S.C. 552(b)(6)). (When the sole and exclusive basis for withholding information from an individual is the protection of his own personal privacy, the information will not be withheld from him or from his designated legal representative. The requester may be required to furnish reasonable and appropriate identification.)

(1) Examples of files similar to medical and personnel files are those:

(i) Compiled to evaluate or adjudicate the suitability of candidates for civilian employment and the eligibility of civilian, military, or industrial individuals for security clearances.

(ii) Containing reports, records, and other material pertaining to individual cases in which administrative action may be taken.

(2) In determining whether the release of information would result in a clearly unwarranted invasion of privacy, consideration should be given in cases involving alleged misconduct, to the relationship of the alleged misconduct to an individual's official duties, the amount of time which has passed since the alledged misconduct, and the degree to which the individual's privacy has already been invaded by any investigation or proceedings which have taken place. For example, after completion of appellate review, unclassified records of court-martial proceedings should always be made available, since they represent a record of proceedings open to the public in which the relevant conduct of the member has been fully explored. (Records of court-martial proceedings may be made available at an earlier stage if to do so, in the judgment of The Judge Advocate General, would not adversely affect the appellate process.)

(3) Requests for access to, or release of, records of court-martial proceedings of general courts-martial or special courts-martial involving a bad conduct discharge, prior to completion of appellate review, should be processed in accordance with § 518.17.

(4) This guidance does not preclude the furnishing of records of trial to an accused.

(g) Investigatory files compiled for the purpose of enforcing civil, criminal, or military law (5 U.S.C. 552(b)(7)), including Executive Orders or regulations validly adopted pursuant to law, but only to the extent that release of such records would:

(1) Interfere with enforcement proceedings;

(2) Deprive a person of a right to a fair trial or an impartial adjudication;

(3) Constitute an unwarranted invasion of personal privacy (subject to limitation set forth in § 518.14 above);

(4) Disclose the identity of a confidential source;

(5) Disclose confidential information furnished by a confidential source, but only in the instance of records compiled by a criminal law enforcement authority in the course of a criminal investigation or by an agency conducting a lawful national security intelligence investigation;

(6) Disclose nonroutine investigative techniques and procedures, or

(7) Endanger the life or physical safety of law enforcement personnel. This exemption includes statements of witnesses and other material based on the information developed during the course of the investigation and all materials prepared in connection with related Government litigation and adjudicative proceedings, to the extent such materials fall within one or more of the categories described above. The term "national security" as used above, includes military

XUM

FEB 27 75
XUM

security, national defense, and foreign policy. The term "intelligence" as used above, includes positive intelligence-gathering activities, counter-intelligence activities, and background security investigations by Government units which have authority to conduct such functions. Any rights conferred by existing law or regulation upon specified persons or classes of persons to obtain access to investigatory records are not hereby diminished.

(h) Records contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of any agency responsible for the regulation or supervision of financial institutions (5 U.S.C. 552(b)(8)).

(i) Documents containing geological and geophysical information and data (including maps) concerning wells (5 U.S.C. 552(b)(9)).

§ 518.15 Annual reporting requirements.

(a) 5 U.S..C 552(d) requires that each agency will submit to the Congress on or before 1 March annually, a report covering the preceding calendar year's actions under the Act. The Adjutant General is responsible for compilation and submission of the report (Reports Control Symbol DD-PA (A) 1635). The Adjutant General will forward the report through the Chief of Staff, US Army, for transmittal to the Secretary of the Army not later than 20 January of each calendar year. An information copy of the report will be furnished to the Chief of Public Information and the General Counsel.

(b) The Initial Denial Authorities will submit feeder information covering the preceding calendar year to The Adjutant General, ATTN: DAAG-AMR, on or before 10 January annually as follows:

(1) An entry for each denial indicating in columnar form, the source of the request, the subject of the request, the basis for denial expressed by appropriate exemption number under 5 U.S.C. 552, and the name and title (or position) of the official responsible for the denial. Normally, the official responsible for denial will be the IDA, i.e., the commander or head of agency specified in 518.9.

(2) A copy of all internal rules or issuances made by the IDA regarding 5 U.S.C. 552.

(3) Data on costs to administer the FOIA.

(4) Any other information indicating efforts to faithfully administer 5 U.S.C. 552.

(c) The Army General Counsel will provide The Adjutant General on or before 10 January annually, data for the preceding calendar year on the number of appeals made as the results of denials, the result of such appeals, the reason for the action on each appeal that resulted in maintenance of the denial, and the name and title (or position) of the official responsible for the maintenance of the denial.

(d) The Comptroller of the Army will provide The Adjutant General on or before 10 January annually, the total amount of fees collected during the preceding calendar year under FOIA.

§ 518.16 Information published in the Federal Register or made available for public inspection and copying.

(a) Information published in the FEDERAL REGISTER.

(1) 5 U.S.C. 552 requires that certain information concerning the Army be made available for the use of the general public through publication in the FEDERAL REGISTER. Pursuant to these provisions, this regulation and other selected publications, together with every change, revision, or rescission thereto, are published in the FEDERAL REGISTER. The following information is made available to the public through publication in the FEDERAL REGISTER:

(i) An outline of the central and field organization of the Army, and the established places at which, the officers from whom, and the methods whereby the public may secure information, make submittals or requests and obtain decisions.

(ii) The procedures, both formal and informal, by which the Army conducts its business with the public.

(iii) Rules of procedure which must be followed, forms to be completed, sources from which these forms may be obtained, and instructions on the scope and content of any papers, reports, or examinations required to be submitted pursuant to such rules of procedure.

(iv) Statements of general policy and substantive rules of general applicability affecting the public.

(2) No member of the general public will be required to resort to, or be adversely affected by, any matter that is required to be published in the FEDERAL REGISTER, and not so published, unless he has actual and timely notice of the information contained therein.

(b) Information available for public inspection and copying.

(1) Subject to the exemptions set forth in § 518.8 of the body of this regulation, the following categories of information will be made available for public inspection and copying:

(i) Final opinions (including concurring and dissenting opinions) and orders in adjudications that may be used, cited, or relied upon as precedent in future adjudications.

(ii) Statements of policy and interpretations of less than general applicability which affect the public, but are not published in the FEDERAL REGISTER.

(iii) Administrative staff manuals and instructions, or portions thereof, prescribing Army policies that are determinative of the rights of members of the public, unless these documents are published and offered for sale. This provision does not apply to instructions for employees on the tactics and techniques to be used in performing their duties, or to instructions relating only to the internal management of the Army. Examples of manuals and instructions not normally made available are:

(*a*) Those issued for audit and inspection purposes or those which prescribe operational tactics, standards of performance, or criteria for defense, prosecution, or settlement of cases.

(*b*) Operations and maintenance manuals and technical information concerning munitions, equipment, and systems.

(iv) Any materials that are published in the FEDERAL REGISTER pursuant to paragraph (a) above.

(2) The following are illustrative of the information that will normally be made available for public inspection and copying:

(i) Army regulations, special regulations, general orders, Department of the Army circulars, Department of the Army pamphlets, the Army Procurement Procedure, and the Armed Services Procurement Regulation.

(ii) Final decisions by boards of review created under the Uniform Code of Military Justice, decisions of the Armed Services Board of Contract Appeals, and decisions of the Army Contract Adjustment Board.

(iii) Any final rules, orders, and opinions in the adjudication of cases of general public interest which may be cited as precedents.

(3) Except for the material specified in (5) below, any material described in this paragraph is available for public inspection and copying in the Army Library, Room 1A518, the Pentagon, Washington, DC 20310, which is open from 8:30 a.m. to 5 p.m. Monday through Friday.

(4) The Army Library maintains an index system by subject matter to the materials available. The following are examples of the type of index that will be maintained for public reference.

(i) An index of administrative publications (DA Pam 310-1). This pamphlet includes a topical index to Department of the Army Regulations, special Regulations, circulars, pamphlets, and general orders.

(ii) An index to all materials published in the FEDERAL REGISTER in accordance with paragraph 1 of this appendix.

(iii) An index to Court-Martial Reports.

(iv) An index to the Armed Services Procurement Regulation. This index can also be used for reference to the Army Procurement Procedure, which follows an identical paragraph numbering system.

(v) An index to the decisions of the Armed Services Board of Contract Appeals.

(vi) An index to the decisions of the Army Contract Adjustment Board issued after 4 July, 1967.

(vii) The Army Library maintains a master list of all available indexes and will assist members of the general public in their use of these indexes.

(5) Final decisions by boards of review created under the Uniform Code of Military Justice are available for public inspection and copying at the US Army Judiciary, Office of The Judge Advocate General, 5611 Columbia Pike, Washington, DC 20315. An index to all final decisions of boards of review issued after 4 July 1967 is also available at this facility.

(6) The cost of copying any documentary materials made available pursuant to this paragraph will be imposed in accordance with AR 37-30.

(7) Identifying details, which if revealed would be a clearly unwarranted invasion of privacy, may be deleted from a final opinion, order, statement of policy, interpretation, staff manual, or instruction made available for inspection and copying. However, in every case, the justification for deletion must be fully explained in writing.

(8) No material described in paragraph (a) above, issued, promulgated, or adopted after 4 July 1967, which is not indexed and made available for public inspection and copying may be relied upon, used, or cited as precedent against any member of the public unless such person has actual or timely notice of its terms. If the material described in paragraph (a) above was issued, promulgated, or adopted before 4 July 1967, it need not be indexed, but must be made available for inspection and copying in accordance with this paragraph.

§ 518.17 Officials to whom requests for information may be directed.

(a) The 10-day limit prescribed for review of initial requests under the Freedom of Information Act (5 U.S.C. 552(a)(6)) begins only when all of the following conditions have been satisfied:

(1) The request must be in writing and must reasonably describe the record requested;

(2) The requester must pay, or agree to pay in advance, all fees assessed incident to processing of his request, as prescribed by § 518.8;

(3) The request must be received by the appropriate official designated in this appendix.

(b) To insure a prompt response in recognition of the request as an FOIA action, the request should be made with specific reference to the Freedom of Information Act. Both the letter of request and the envelope in which the request is sent should be conspicuously marked with the words "FREEDOM OF INFORMATION ACT REQUEST".

(c) Public requesters should follow the guidance in this appendix carefully and direct requests to the office that possesses the record desired. If it is not clear to whom to send a request, information as to the proper official may be obtained from HQDA (DAAG-AMR-S), Forrestal Building, 1000 Independence Ave., SW., Washington, D.C. 20314, or by telephoning Area Code 202 693-7830, or 202 693-1847.

(d) Current publications and records of Army field commands, installations, and organizations.

(1) The request must be directed to a specific office of the command, installation, or organization as indicated below:

File categories	*Specific official*
(i) Finance and fiscal	Comptroller/Finance Officer.
(ii) Legal	Staff Judge Advocate/Legal Officer.
(iii) Intelligence and security	Intelligence Officer.
(iv) Military police	Provost Marshal.
(v) Military personnel	Adjutant/Administrative Officer.
(vi) Civilian personnel	Civilian Personnel Officer.
(vii) Medical	MEDDAC/MEDIEN Commander.
(viii) Training and education	Operations and Training Officer.
(ix) Communications	Signal Officer.
(x) Transportation	Transportation Officer.
(xi) Research and development	Research and Development Officer.
(xii) Logistics	Quartermaster/Ordnance/Supply Officers.
(xiii) Facilities	Engineer.
(xiv) All other	Records Management Officer.

(2) A more detailed listing of all files categories maintained in Army offices is given in 16 regulations of the AR 340-18 series.

(3) If it is not clear to whom to send a request for current records of a specific Army field command, installation, or organization, the Installation/Organization Information Officer may be contacted for assistance in locating the office to which the request may be directed.

(e) Department of the Army publications.

(1) The Government Printing Office has many Army publications for sale. Request should be directed to:

Superintendent of Documents
Government Printing Office
Washington, DC 20402

(2) There are about 1,000 Government publication depository libraries (Title 44, U.S.C. Code) throughout the US which have copies of many Army publications available for use on site. A list of these libraries may be obtained from the Superintendent of Documents at the above address. Requesters are urged to use these facilities.

(3) Requests for reproduced copies of obsoleted, rescinded, or other noncurrent Army publications must be directed to:

Director
Washington National Records Center
General Services Administration
Washington, DC 20409

(4) Requests for administrative and training publications (Army Regulations, Field Manuals, Department of the Army Pamphlets, etc.) must be directed to:

Commander
US Army AG Publications Center
2800 Eastern Blvd
Baltimore, MD 21220
(301-962-7201)

(5) Requests for technical and supply publications (Technical Manuals, Modification Work Orders, Supply Catalogs, etc.) must be directed to:

Commander
US Army AG Publications Center
1655 Woodson Road
St. Louis, MO 63114
(314-268-7300)

(6) Requests for Department of the Army publications or indexes not available above must be directed to:

HQDA (DAAG-PAS-I)
Forrestal Building
1000 Independence Ave., SW
Washington, DC 20314

Telephone inquiries to DAAG-PAS-I should be directed to Area Code 202 693-7842 or 693-7840.

(f) Military personnel records. Requests for military personnel records or information must be directed as follows:

(1) Army Reserve personnel not on active duty and retired personnel (except Retired Regular Army General Officers) Commander, US Army Reserve Components Personnel and Administration Center, 9700 Page Boulevard, St. Louis, MO 63132 (314 268-7600).

(2) Former Army officer personnel discharged or deceased subsequent to 1 July 1917 and former Army enlisted personnel discharged or deceased subsequent to 1 November 1912—Director, National Personnel Records Center, GSA, 9700 Page Boulevard, St. Louis, MO 63132.

(3) Army personnel separated prior to dates specified in (2) above—Director, Military Archives Division, Office of National Archives, NARS, GSA, Washington, DC 20408.

(4) Army National Guard personnel. Officers—Chief, National Guard Bureau. Enlisted personnel—Adjutant General of the appropriate State.

(5) Military personnel on active duty—HQDA (DAPC-PAR), 200 Stovall Street, Alexandria, VA 22332 (202 325-9060), if involving commissioned or warrant officer personnel (including retired Regular Army General Officers); and to the Commander, US Army Enlisted Records Center, Fort Benjamin Harrison, IN 46429 (317 542-3111), if involving enlisted personnel.

(g) Medical records.

(1) Requests for medical records of nonactive duty military personnel must be directed to the same addresses as indicated in paragraph (f) (1) through (4).

(2) Requests for medical records involving military personnel on active duty must be sent to the medical treatment facility where they are maintained. If the medical facility is not known, a request for locater service will be directed to HQDA (DAPC-PAR), 200 Stovall Street, Alexandria, VA 22332 (202 325-9060), if involving commissioned or warrant officer personnel; or to Commander, US Army Enlisted Records Center, Fort Benjamin Harrison, IN 46429 (317 542-3111) if involving enlisted personnel.

(3) Requests for the medical records of civilian employees and all dependents must be directed to the medical treatment facility where maintained. If the records have been retired, requests will be addressed to the Director, National Personnel Records Center, GSA, 111 Winnebago Street, St. Louis, MO 63118.

(h) Legal records.

V 40 40 FEB 27 75 XUM

(1) Requests involving records of trial by court-martial.

(i) General courts-martial records and those special courts-martial records where a bad conduct discharge has been approved by the convening authority must be directed to The Judge Advocate General, JAAJ–CC, Nassif Building, Falls Church, VA 22041 (202 756–1888), if the record of trial has been forwarded for appellate review. If the record has not been forwarded for appellate review, requests for such records must be directed to the staff judge advocate of the command which has jurisdiction over the case. The Initial Denial Authority for those requests is the Judge Advocate General, JAAJ–CC, and they will be processed in accordance with § 518.8.

(ii) The records of trial of special courts-martial which do not involve a bad conduct discharge are retained for 10 years after completion of the case. Requests for such records of trials must be directed as follows:

(*a*) Up to 3 years after completion of the case. Requests must be directed to the staff judge advocate of the headquarters where the case was reviewed.

(*b*) From 3 to 10 years after completion of the case. Requests must be directed to the National Personnel Records Center (Military Records), 9700 Page Boulevard, St. Louis, MO 63132. After 10 years, the only evidence of a special court-martial conviction is the special court-martial order maintained in the individual's permanent records. Request for such orders involving individuals currently on active duty must be directed to HQDA (DAPC–PAR), 200 Stovall Street, Alexandria, VA 22332 (202 325–9060), for commissioned and warrant officer personnel and to the Commander, US Army Enlisted Records Center, Fort Benjamin Harrison, IN 46249 (317 542–3111) for enlisted personnel. If the individual is no longer on active duty, the request must be directed to the National Personnel Records Center (Military Records), 9700 Page Boulevard, St. Louis, MO 63132. If the individual retired from service and is still living, or is a member of the Army Reserve, refer the request to address in paragraph (f)(1).

(iii) The records of trial of summary courts-martial are destroyed 1 year after action of the appropriate supervisory authority. Until that time, requests for such records of trial must be directed to the appropriate staff judge advocate at the installation where the court-martial was conducted. After 1 year, the only evidence of a summary court-martial conviction is the summary court-martial order maintained in the individual's permanent records. Requests for such orders involving individuals currently on active duty must be directed to HQDA (DAPC–PAR), 200 Stovall Street, Alexandria, VA 22332 (202 325–9060) for commissioned and warrant officer personnel and to the Commander, US Army Enlisted Records Center, Fort Benjamin Harrison IN 46249 (317 542–3111) for enlisted personnel. If the individual is no longer on active duty, the request must be directed to the National Personnel Records Center (Military Records), 9700 Page Boulevard, St. Louis, MO 63132. If the individual retired from service and is still living, or is a member of the Army Reserve, refer the request to address in paragraph (f)(1).

(iv) Requests submitted under a(2) and (3) above will be processed in accordance with § 518.8. The Initial Denial Authority is The Judge Advocate General (DAJA–CL), Washington, DC 20310 (202 695–5468).

(2) Requests involving the administrative settlement of claims—Chief, US Army Claims Service, Fort George G. Meade, MD 20755, (301 677–7860).

(3) Requests involving debarred or suspended contractors—HQDA (DAJA–ZC), Washington, DC 20310 (202 697–4769).

(4) All other requests involving legal matters (other than requests for records maintained by the staff judge advocate of a specific command, installation, or organization (see (d)(1)(iii)) —HQDA (DAJA–AL), Washington, DC 20310 (202 695–3614).

(i) Civil Works program. Requests involving records relating to construction, operation, and maintenance for improvement of rivers, harbors, and waterways for navigation, flood control, and related purposes, including shore protection work of the Department of the Army, must be directed to the appropriate division or district office of the Corps of Engineers. If such office is not known, information as to the proper office may be obtained from HQDA (DAEN–GCK), Forrestal Bldg., Washington, DC 20314 (202 693–7070).

(j) Civilian personnel records. Requests involving personnel records of civilian employees other than those pertaining to former employees must be directed to the installation at which the individual is employed. Requests involving personnel records of former civilian employees must be directed to the Director, National Personnel Records Center, GSA, 111 Winnebago Street, St. Louis, MO 63118.

(k) Procurement matters. Requests for material relating to procurement activities must be directed to the contracting officer concerned or, if not feasible, to the appropriate procuring activity. If the contracting officer or procuring activity is not known, inquiries as to the proper location should be directed as follows:

(1) Concerning Army Materiel Command procurement—Commander, US Army Materiel Command, 5001 Eisenhower Avenue, Alexandria, VA 22333.

(2) Concerning Engineer procurement—HQDA (DAEN–GCK), Forrestal Building, Washington, D.C. 20314 (202–693–7070).

(3) Concerning all other procurement— HQDA. (DAJA–PL), Washington, DC 20310 (202 696–6209).

(l) Criminal investigation files. Requests involving criminal investigation files will be directed to the Commander, US Army Criminal Investigation Command, ATTN: CIJA, Second and R Streets, SW., Washington, DC 20318 (Telephone 693–0371 or 693–1695). Only the Commanding General, USACIDC, is authorized to release any CIDC-originated criminal investigation file.

(m) Personnel security investigation files. Requests involving personnel security investigative files will be directed to the Commander, US Army Intelligence Agency, ATTN: MIIA–PS–D, Fort Meade, MD 20756.

(n) Army records in Government records depositories.

(1) Noncurrent Army records are in the National Archives of the United States, Washington, DC 20408, in Federal Records Centers of the General Services Administration and in other records depositories. Requesters must write directly to the heads of these depositories for copies of such records.

(2) A list of the pertinent records depositories is published in Appendix A, AR 340–1. Selected records depositories of frequent interest to requesters are listed below.

Location: US Army Reserve Components Personnel and Administration Center, 9700 Page Blvd., St. Louis, MO 63132.

Description of files maintained: Individual Official Military Personnel Folders of members of the USAR and retired officers (including retired reserve general officers); warrant officers, and enlisted personnel.

Individual Military Personnel Records Jackets (field "201" files) of members of the Individual Ready Reserve, Standby Reserve, and Retired Reserve.

Morning reports and personnel rosters for the last 3 years.

Reserve unit attendance files dating generally from 1951.

Administrative responsibility. The Adjutant General is responsible for the custody and administration of files maintained at the US Army Reserve Components Personnel and Administration Center.

Location. National Personnel Records Center (Military Records) 9700 Page Blvd., St. Louis, MO 63132.

Description of files maintained. Individual official military personnel records of completely separated Army personnel including deceased personnel.

Morning reports and personnel rosters over 3 years old.

Clinical, consultation service, out-patient, and dental records of active military personnel, retired military personnel and members of Reserve components on active duty for training not held by US Army medical facilities. These files were received prior to 1974.

Files of Army field commands. Retired files of elements of Army field commands (except Corps of Engineers field offices) and of decentralized elements of Headquarters, Department of the Army offices, dated generally 1951 through 1963.

Separated non-Federal National Guard 201 files.

Administrative responsibility. The Administrator of General Services is responsible for the custody and administration of files in the National Personnel Records Center.

Location. Washington National Records Center: Address for shipments mailed: Washington, DC 20409. Address for shipments by common carrier: 4205 Suitland Road, Suitland, MD 20409.

Description of files maintained. Records of activities. Records of activities in the District of Columbia, Maryland, Virginia, and West Virginia, dated generally 1955 through the present.

Offices of Headquarters, Department of the Army. Files of Headquarters, Department of the Army Offices located at seat of Government, exclusive of specialized files otherwise provided for in this appendix. These files are dated generally 1939 and later.

Army field commands and special Army activities in the field. These files are dated generally 1940 through 1950 and 1964 and later.

Administrative responsibility. The Administrator of General Services is responsible for the custody and administration of these files.

(o) Other requests. Information as to the proper location for directing requests involving records of the Department of the Army, not otherwise provided for in this appendix, may be obtained from HQDA (DAAG–AMR–S), Forrestal Building, 1000 Independence Ave., SW., Washington, DC 20314, or be telephoning Area Code 202 693–1847, or 693–7830.

§ 518.18 Preservation of personal privacy of members of the Army.

(a) It is Department of the Army policy to safeguard the personal privacy of its present and former members. This policy shall be a prime consideration in the development and administration of personnel practices and procedures.

(b) Access to personal information from personnel, medical, or similar files relating to present and former members of the US Army will be limited to those organizations and individuals requiring such information to conduct the business of the Department of the Army or other elements of the Department of Defense; the business of other Federal, State or local agencies (including the legislative and judicial branches of government at all levels); and in such other instances where release is clearly required by the national interest.

(c) Military personnel and civilian employees of the Army may not release or otherwise disclose personal information from personnel, medical, or similar files relating to present and former members of the Army to nongovernmental organizations or individuals, whether commercial, nonprofit, or other, without previously obtaining the written consent of the individual concerned, except as specified in this regulation. Among the kinds of information which may not be released to nongovernmental organizations or individuals without the consent of the individual concerned are:

(1) Lists or compilations containing the names, addresses, or military occupational specialty identifications of present or former members of the Army (see AR 600–20 for additional restrictions on the release of rosters and lists; however, also see paragraph (d) below for guidance on release of addresses).

(2) Data from medical records, except as provided in AR 340–1 and this regulation.

(3) Aptitude test scores

(4) Similar information of a personal nature.

(d) The following guidelines are provided for use in considering requests for the address of an individual member or former member of the Army who is identified or named by the requester:

(1) Duty station address (military unit of assignment), unless classified, of a specified individual member will be furnished in response to any requests. A fee for the service may be charged in accordance with the schedule of charges in § 518.19, subject to the exemptions from charges prescribed therein.

(2) Requests for the home address of an individual will be considered to fall under the exemption from mandatory disclosure provided in § 518.14 of this regulation and 5 U.S.C. 552(b)(6). Such requests will be handled to accordance with § 518.8. Requests from auditors involving home address will be handled in accordance with AR 600–15 and 5 U.S.C. 552(a)(6).

(e) Unauthorized release (that is, release contrary to the provisions of this regulation) to private organizations or individuals of personal information from personnel, medical, or similar files relating to present and former members without the written consent of the individual concerned shall be considered a clearly unwarranted invasion of his personal privacy within the meaning of 5 U.S.C. 552(b)(6), as implemented by this regulation.

(f) Commanders will establish procedures to assure that all personnel who have access to military personnel records or names and addresses of service members (especially those members being separated from active service) are periodically informed that information from these records, lists of names and addresses, or individual home addresses (except as provided by (d)(2)) will not be released to unauthorized sources. Commanders will also assure that all allegations of unauthorized release are examined and, when appropriate, will direct that an investigation be made.

(g) The restrictions on access to personal information set forth in this regulation shall not be applicable to the individual concerned, to his properly authorized legal representatives, or to his next of kin whenever he is incapable for reasons of physical or mental health of governing his own affairs.

(h) To insure the privacy and confidentiality of communications concerning or between military personnel and members of the Congress of the United States, a member's personnel file shall not be coded, annotated, or otherwise marked to indicate that congressional interest has been generated by the member exercising his rights under 10 U.S.C. 1034 or expressed on his behalf.

(i) Voluntary release of data.

(1) Procedures may be developed by which individual members and former members of the Army may volunteer to authorize release of personal information for purposes of benefit to the members or former members concerned or to the national interest. Such purposes may include, but are not limited to, assistance to separating members in their transition to civilian life; other promotion of the welfare of Army personnel; cooperation in scholarly research efforts in the national interest; and other efforts by nongovernmental agencies to further the national interest.

(2) The written consent of the individuals concerned must be obtained prior to any such release of personal information to a nongovernmental agency. Development of procedures to obtain releases should be limited by the costs and resources involved in establishing and executing them, weighed against the anticipated benefits to the members or former members of the Army or to the national interest.

§ 518.19 Schedule of fees for search and duplication under the Freedom of Information Act Amendments Pub. L. 93–502.

Pursuant to the provisions of 5 U.S.C. 552, the following is the schedule of fees for search and duplication services rendered to the public by components of the Department of Defense except when those services are excluded or excepted as stated hereafter. The schedule of fees will become effective 19 February 1975.

SCHEDULE OF FEES DUPLICATION

PUBLICATION, FORMS AND REPORTS

Shelf stock of printed or microfiche medium (requesters may be furnished more than one copy of a publication or form if it does not deplete stock levels below projected planned usage).

Minimum fee, per request	$2.00
Plus	
Forms, per copy	.05
Publications, per printed page	.01
Microfiche, per fiche	.06
Reports, per printed page	.05

Examples: Cost of 20 forms, $3; cost of a printed publication consisting of 10 fiche, $2.60.

OFFICE COPY REPRODUCTION (WHEN SHELF STOCK IS NOT AVAILABLE)

Minimum charge up to six reproduced pages	2.00
Minimum charge, first fiche	5.00
Each additional page	.05
Each additional fiche	.10

OTHER ISSUANCES

Minimum charge up to six pages	2.00
Each additional page	.05

SEARCH

Clerical search, per hour	6.50
Minimum charge	3.50

V 40 40 FEB 27 75 XUM

Professional search (includes computer programmer time), per hour ------ 13.00
Minimum charge ---------- 10.00

Computer Service charges will be based on actual computer configuration used and be based on direct cost only of the Central Processing Unit plus Input/Output Devices plus Memory Capacity.

EXCEPTIONS

(a) In general, charges may be waived when:

(1) The recipient of the benefits is engaged in a nonprofit activity designed for public safety, health or welfare;

(2) Payment of the full costs or fee by a state, local government or nonprofit group would not be in the interest of the program.

(3) The incremental cost of collecting the fees would be an unduly large part of the receipts from the activity.

(b) A refusal to waive charges by the official responsible for the initial decision on the request for the record may be appealed to the head of the DOD component or his designee for purposes of final approval.

COLLECTIONS

(a) Normally, collection of charges and fees will be made in advance of rendering the service. In some instances, it may be more practical to collect charges and fees at the time of conveying the service or property to the recipient, but only in those instances where the request specifically states that whatever cost involved will be acceptable or acceptable up to a specified limit that covers anticipated costs. In the absence of such an agreement to pay required anticipated costs, the time for responding to a request begins to run upon receipt of payment.

(b) Collection of scheduled fees and charges will normally be deposited in Miscellaneous Receipts of the Treasury.

(c) Search fees are assessable even when no records responsive to the requests, or no records not exempt from disclosure are found, provided the requester is advised of the requirement at the time the estimated charges are presented to the requester for approval.

(AR 340-17, 25 June 1973) (sec. 3012, 70A Stat. 157, (10 U.S.C. 3012); sec. 3, 60 Stat. 238, (5 U.S.C. 552).)

Dated: January 24, 1975.

For the Adjutant General:

R. W. HAMPTON,
Colonel, AGC, Director of Administrative Management.

[FR Doc.75-5248 Filed 2-26-75;8:45 am]

CHAPTER VII—DEPARTMENT OF THE AIR FORCE

SUBCHAPTER I—MILITARY PERSONNEL

PART 889—DESERTION AND UNAUTHORIZED ABSENTEEISM

Miscellaneous Amendments

These amendments to Part 889 add the requirement for notification of returned AWOL/DFR members at earliest possible date; include information concerning entitlement of eligible dependents to BAQ allowances; change title of "Report of Inquiry" to "Unit Commander's Inquiry"; add further guidance when member is under suspended sentence to punitive discharge; delete requirement for Personal Affairs Section of CBPO to counsel member concerning SGLI coverage; add guidance concerning the return of absentees and deserters to military control; and make other minor changes to update the part.

Part 889, Subchapter I of Chapter VII of title 32 of the Code of Federal Regulations is amended as follows:

1. Part 889 is amended by adding § 889.3a as follows:

§ 889.3a Return to military control.

This return may be effected as indicated in paragraphs (a- and (b) of this section.

(a) *Within the jurisdiction of the United States.* Absentees and deserters will be received at any military installation which is manned by active duty personnel. Immediate action will be taken to transfer an individual to the nearest installation of his branch of service having facilities to process absentees and deserters.

(b) *Outside the jurisdiction of the United States.* Military attaches or mission chiefs in foreign countries will not accept the offer of a deserter or absentee to return to military control unless the United States is directly responsible for the presence of the individual in the country where assistance is requested.

(1) Normally, such deserters and absentees will be advised and assisted to report, at their own expense, to an appropriate U.S. military installation within the United States or overseas.

(2) Unless they are citizens of the country in which assistance is requested, absentees and deserters will be reported to the appropriate authorities of such foreign country with a view toward deportation.

(3) If the individual departs the foreign country or is deported, the military attache or mission chief will make arrangements, if possible, when such departure is known, to have the individual taken into custody upon his arrival within a territory where the U.S. military officers have authority to apprehend.

2. Section 889.6 is amended by adding paragraph (d) as follows:

§ 889.6 Deserter information system.

* * * * *

(d) Notification of returned AWOL/DFR members must be furnished to AFMPC/DPMAKE at the very earliest possible date in order to clear the NCIC files of the wanted notice. This is necessary to preclude apprehension of member after discharge has been effected. In the event a member is apprehended after discharge has been effected, such an incident could result in extreme embarrassment to the Air Force and other agencies concerned.

3. Section 889.7 paragraphs (a) (2) (ii) and (c) (ii) are amended by adding notes, (b) is revised, (d) and (e) are added as follows:

§ 889.7 Amplification of actions required.

* * * * *

(a) * * *
(2) * * *
(ii) * * *

NOTE.—At the time the commander notifies next of kin, the dependent (or his fiduciary or custodian), of the member's unauthorized absence, he shall advise the dependent, on behalf of whom BAQ may be claimed, of the right to apply for payment of BAQ, of the conditions under which payment may be made, and to whom to apply. If the member is in pay grade E-4 (four years or less service and below, advise the dependent that temporary financial relief can be provided if required, when the sponsor remains absent for more than 29 consecutive days. Such assistance is limited to the amount of BAQ to which the sponsor would be entitled as a member with dependents, for a maximum of two consecutive 30-day periods, providing the sponsor remains absent during the entire period. Advise the dependent to contact the Accounting and Finance Officer (APO) which services the sponsor. Application must be made within three months after the commencement of the member's absence (Pub. L. 93-64, 87 Stat. 147).

* * * * *

(b) *Unit commander's inquiry.* The losing unit commander will prepare the inquiry, based on actions he has taken, and will include information as to whether member was pending administrative discharge or court-martial action prior to AWOL. Include duty status prior to AWOL. If leave, furnish leave address, or if reassigned, furnish gaining unit and delay en route leave address. If member has previously been AWOL/DFR, include dates and what disposition action was taken in each offense. The inquiry (original and copies) will be submitted to CBPO for distribution.

* * * * *

(c) * * *
(11) * * *

NOTE.—When the Field Record Group is not available, information required to complete DD Form 553 must be requested by message from AFMPC/DPMDRA, Randolph Air Force Base, Texas, with information copy to AFMPC/DPMAKE.

(d) *Status.* On the 31st, 60th, 90th, 120th, 150th, and 180th day of continued absence, unit commander will confirm status to AFMPC/DPMAKE, MAJCOM, and servicing CBPO (include any new information received relative to member's absence and actions taken toward his location and return to military control). On the 31st and 60th day include input from security police. Additional DD Forms 553 should be dispatched if information from the inquiry warrants.

(e) *Consolidation of Absentee's Field Record Group.* Member's Field Record Group will be withdrawn from active files and charge or reference sheet placed in the file to indicate where the record is filed and the date it was relocated. The record will be held and controlled by the servicing CBPO of unit of assignment and filed in a separate and safe location to preclude loss and permit filing action until the 180th day of continued absence (airmen) or as directed by the Secretary of the Air Force (officers). AF Forms 2098, correspondence relating to absence, and other applicable documents will be placed in the member's record pending disposition upon return to duty status or as directed by higher headquarters.

4. Section 889.8 is amended by revising paragraph (b) to read as follows:

§ 889.8 Transfer from civilian to military jurisdiction.

* * * * *

(b) The commander of the unit to which the individual was assigned prior to his unauthorized absence is responsible for completing the required action when report of arrest is received. Actions as outlined in AFM 39-12, Separation of Unsuitability, Unfitness or Misconduct; Resignation or Request for Discharge for the Good of the Service, and Procedures for the Rehabilitation Program, paragraph 2-23, apply when an absentee is serving a sentence to confinement imposed by a civil court. Actions as described in AFM 39-12, paragraph 2-32, apply when an absentee is reported to be in civil confinement and is not available for immediate return to military control. The commander is also responsible for lodging a detainer with civil authorities, and preparing AF Form 2098 to reflect the changed status. If member is under suspended sentence to punitive discharge which has been affirmed, General Court-Martial (GCM) authority should make a determination as to whether to:

(1) Vacate the suspension and execute the discharge; or

(2) Have member returned to military control for disposition of AWOL/DFR, or any other pending charges (see AFM 39-12, chapter 2).

§ 889.9 [Amended]

5. Section 889.9(g) is revoked.

(10 U.S.C. 8012)

By order of the Secretary of the Air Force.

STANLEY L. ROBERTS,
Colonel, USAF, Chief, Legislative Division, Office of The Judge Advocate General.

[FR Doc.75-5247 Filed 2-26-75;8:45 am]

Title 33—Navigation and Navigable Waters

CHAPTER II—CORPS OF ENGINEERS, DEPARTMENT OF THE ARMY

PART 207—NAVIGATION REGULATIONS

St. Marys Falls Canal and Locks, Michigan

Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U.S.C. 1) § 207.440 governing the use, administration and navigation of the St. Marys Falls Canal and Locks is hereby amended with respect to paragraph (v) to permit transit of vessels of a length up to 767 feet through the MacArthur Lock for the period from date of publication in the FEDERAL REGISTER through April 5, 1975.

Section 207.440(v) provides for a limit on the size vessels that will be permitted to transit the MacArthur Lock chamber, and also specifies the type deck equipment required on certain transiting vessels as follows:

(v) The maximum overall dimensions of vessels that will be permitted to transit MacArthur Lock are 730 feet in length and 75 feet in width. Further, any vessel of greater length than 660 feet must be equipped with deck winches adequate to safely control the vessel in the lock under all conditions including that of power failure.

For a number of years the Department of the Army, acting through the Chief of Engineers has worked as the lead agency with other Federal agencies, state agencies, industry organizations and others in conducting an Extended Navigation Season Demonstration Program on the Great Lakes. A major element of Corps of Engineers participation has been to provide for lockage through the St. Marys Falls Locks during a period extending beyond the normal navigation season which is from 1 April to mid-December. Due to improved fleet operation techniques, increased structural stability of vessels and favorable weather, it has been possible to sail without interruption to date this winter.

A private fleet of eight vessels has been dedicated to continue operations throughout the winter provided the Government will continue to provide passage through the locks at the St. Marys Falls Canal. Two of the ships involved in the program are 767 ft. long and six others are less than 730 ft. long.

In the past this fleet has been accommodated at the Poc Lock chamber which is presently authorized to transit vessels up to 1,000 ft. in length. The Poc Lock must be closed for repairs from March 1, 1975 through April 6, 1975 to assure that it will be in condition for full operation during the spring through fall months. The only other lock in the St. Marys Falls complex capable of handling ships of the necessary draft is the MacArthur Lock whose chamber is 80 ft. wide by 870 ft. long measured from the upper gate to the lower downstream gate. However, the above cited 33 CFR 207.440(v), restricts the maximum size vessel in the MacArthur chamber to 730 ft. in length.

Maintenance of a channel through the ice is dependent in large measure on the number of vessels plying the channel and the vessel horsepower. As traffic declines, maintenance becomes progressively more difficult. The number of low horsepower vessels that can move is directly correlated to the number of high horsepower vessels available to lead the traffic. In the eight vessel dedicated fleet, only the two 767 ft. vessels are of sufficient horsepower to lead the traffic, so that it becomes essential to the continuation of the Demonstration Program that special arrangements be made to transit the 767 ft. vessels through the MacArthur chamber.

Since this amendment is only for a limited duration and is necessary to permit uninterrupted operation of the St. Marys Falls Canal Lock, notice of proposed rulemaking and public procedures thereto are considered unnecessary and impractical. Accordingly, the Department of the Army, acting through the Corps of Engineers is publishing the following amendment to 33 CFR 297.440.

Section 207.440 is amended by revising paragraph (v).

§ 207.440 St. Marys Falls Canal and Locks, Michigan; use, administration, and navigation.

* * * * *

(v) The maximum overall dimensions of vessels that will be permitted to transit MacArthur Lock are 730 feet in length and 75 feet in width; provided, however, that subject to a final decision by the Lock Master, vessels having an overall length up to a maximum of 767 feet will be permitted to transit the MacArthur Lock during the period 22 February 1975 through 5 April 1975 using special procedures to be posted at the lock. Further, any vessel of greater length than 660 feet must be equipped with deck winches adequate to safely control the vessel in the lock under all conditions including that of power failure.

[Regs., February 25, 1975] (Sec. 7, 40 Stat. 266; 33 U.S.C. 1)

By authority of the Secretary of the Army.

FRED R. ZIMMERMAN,
Lt. Colonel, U.S. Army, Chief, Plans Office, TAGO.

[FR Doc.75-5398 Filed 2-26-75;9:08 am]

Title 35—Panama Canal

CHAPTER I—CANAL ZONE REGULATIONS

SHIPPING AND NAVIGATION

Revision of Navigation Regulations: Engine-Revolution and Rudder-Angle Indicators, Side Wall Transits, Advance Radio Information

This document revises three Parts of Title 35 dealing with navigation in the Panama Canal and other waters of the Canal Zone.

The Panama Canal Company has found that, over the years, a contributing cause of many marine accidents and incidents nearly resulting in accidents in the Canal has been the failure of vessels to have properly operating engine-revolution and rudder-angle indicators so located as to be readily visible to pilots. The problem is most serious with regard to vessels with beams in excess of 80 feet, which pilots must necessarily conn during the critical portions of the transit from the wings of the bridge. Many of these large ships have indicators only in the wheelhouse. This revision will require all vessels over 150 feet in length to have the aforementioned indicators installed in the wheelhouse and vessels over 80 feet in beam to have them installed both in wheelhouse and on each bridge wing.

Current regulations permit small vessels of up to 125 feet in length to be handled through the Canal Locks with their own lines instead of towing locomotive cables. Experience has shown that some towboats of up to 150 feet in length are of sufficiently heavy construction and fendering to permit this same method of handling. This revision would thus allow such vessels to be handled in the locks with their own lines.

Vessels approaching the Panama Canal are required to report by radio, among other things, their estimated draft upon arrival. To insure that these reports are

V 40 N 40 FEB 27 75 XUM

uniform, this revision would specify that the draft figures reported be for Tropical Fresh Water.

The text of the amendments is set forth below.

PART 103—GENERAL PROVISIONS GOVERNING VESSELS

1. In Part 103, § 103.10 is revised to read as follows:

§ 103.10 Engine-revolution and rudder angle indicators.

(a) All vessels in excess of 150 feet in length shall be equipped with properly operating rudder-angle and engine-revolution indicators in the wheelhouse so located and illuminated as to be readily visible to a pilot.

(b) All vessels with beams in excess of 80 feet shall be equipped with properly operating rudder-angle and engine-revolution indicators in the wheelhouse and on each bridge wing so located and illuminated as to be readily visible to a pilot.

PART 109—ENTERING AND PREPARING TO ENTER THE LOCKS

2. In Part 109, § 109.7 is amended by revising paragraph (a) (1) to read as follows:

§ 109.7 Passing through locks; use of towing locomotives and ship's engines.

(a) • • •

(1) A small vessel up to 125 feet in length and a towboat up to 150 feet in length may be handled with their own manila, hemp or synthetic lines along the wall if their structure and fendering will permit their landing against the wall.

• • • • • •

PART 123—RADIO COMMUNICATION

3. In Part 123, § 123.4 is amended to by revising paragraph (a) to read as follows:

§ 123.4 Same; information required.

(a) • • • CHARLIE—Estimated draft upon arrival, in feet and inches, fore and aft, in Tropical Fresh Water. • • •

• • • • • •

Effective Date. These amendments become effective on February 15, 1975.

[2 C.Z.C. § 1331, 76A Stat. 46; 35 CFR 3.1 (a) (1).]

Dated: February 13, 1975.

HOWARD H. CALLAWAY,
Secretary of the Army.

[FR Doc.75-5170 Filed 2-26-75;8:45 am]

Title 36—Parks, Forests, and Public Property

CHAPTER VI—AMERICAN REVOLUTION BICENTENNIAL ADMINISTRATION

PART 603—FREEDOM OF INFORMATION ACT

Pursuant to recent amendments of section 552 of Title 5, United States Code, known as the Freedom of Information Act, the American Revolution Bicentennial Administration hereby adopts the following regulations effective upon publication in the FEDERAL REGISTER. Notwithstanding that the regulations are effective on February 27, 1975, due to the need for implementation of the amendments to the Freedom of Information Act which became effective on February 19, 1975, interested persons may submit written comments to the American Revolution Bicentennial Administration, 2401 E Street NW., Washington, D.C. 20276, no later than March 31, 1975. All comments received in this manner will be evaluated and acted upon in the same manner as if this document were a proposal.

On February 3, 1975, the Administration published proposed regulations concerning schedule of fees and method of payment for services rendered (§ 603.105) for document search and duplication in response to requests under the above Act. Comments on such proposal were requested on or before March 5, 1975.

Chapter VI is amended by adding new Part 603 as follows:

Sec.
603.100 Purpose and scope.
603.101 Information policy.
603.102 Procedure for obtaining information.
603.103 Processing requests.
603.104 Publication of Current Indices.

AUTHORITY: Freedom of Information Act (5 U.S.C. 552), as amended, 88 Stat. 1561.

§ 603.100 Purpose and scope.

The purpose of the provisions of this Part is to provide procedures to implement the Freedom of Information Act, Title 5, United States Code, section 552, as amended November 21, 1974 (Pub. L. 93-502).

§ 603.101 Information policy.

Section 552 of Title 5, United States Code, as amended November 21, 1974, by Pub. L. 93-502 requires that upon request therefor, made in accordance with published rules and procedures, reasonably described agency records be promptly made available. Subsection (b) of section 552 exempts several categories of records from the general requirements but does not require the withholding from inspection or copying of all records which may fall within the categories exempted. Accordingly, no request to inspect or for copies of a record shall be denied unless the Deputy Administrator shall determine (a) that the record falls within one or more of the categories exempted and (b) either that disclosure is prohibited by statute or Executive Order or that sound ground exists which requires the invocation of the exemption.

§ 603.102 Procedure for obtaining information.

(a) All persons or organizations requesting any record of the Administration (or in the custody thereof) shall submit such request in writing to the Deputy Administrator, American Revolution Bicentennial Administration, 2401 E Street NW., Washington, D.C. 20276.

(b) All such requests shall be clearly and prominently marked, both on the envelope and on the face of the request, with the legend "Freedom of Information Request."

(c) If a request does not comply with the provisions of the preceding subparagraphs, it shall not be deemed received by the Administration until the time it is actually received by the Deputy Administrator of an improperly marked or addressed request, the requestor shall be notified of the date on which the time period set forth in 5 U.S.C. 552(a)6(A)(i) commenced to run.

§ 603.103 Processing requests.

(a) The Deputy Administrator shall respond promptly to all requests to examine or for copies of records which are submitted in accordance with this regulation.

(b) A request that is expected to involve assessed fees in excess of $25.00 will not be deemed to have been received until the requestor is advised of the anticipated cost and agrees to bear it.

(c) A determination by the Deputy Administrator shall be made within 10 days (expecting Saturdays, Sundays and legal public holidays) after receipt of any such request whether to comply with such request and he shall immediately notify the person making such request of such determination and the reasons therefor, and the right of such person to appeal to the Administrator of the American Revolution Bicentennial Administration any adverse determination.

(d) Whenever any request to examine or for a copy of any record is denied by the Deputy Administrator in whole or in part, an appeal may be filed with the Administrator within 30 days (excepting Saturdays, Sundays and legal public holidays) after the requestor receives notification that the request has been denied.

(e) Appeals shall be in writing and shall be clearly and prominently marked both on the envelope and on the face of the appeal "Freedom of Information Appeal." On receipt by the Administrator of an improperly marked or addressed appeal, the appellant shall be notified of the date on which the time period set forth in 5 U.S.C. 552(a)6(A)(ii) commenced to run.

(f) A determination by the Administrator with respect to any appeal shall be made within 20 days (excepting Saturdays, Sundays and legal public holidays) after receipt of such appeal. If on appeal, the denial of the request for records is in whole or in part upheld, the Administrator shall notify the person making such request of the provisions for judicial review of that determination pursuant to the Freedom of Information Act.

(g) In unusual circumstances as specified herein, the time limit prescribed in § 603.103 (c) and (f) may be extended by written notice to the person making a request setting forth the reasons for such extension and the date on which a determination is expected to be dispatched. While more than one extension can be invoked, no such notice shall specify a date that would result in an extension

for more than 10 working days in the aggregate.

(h) As used herein, "unusual circumstances" means, but only to the extent reasonably necessary to the proper processing of a particular request—

(1) The need to search for and collect the requested records from field facilities or other establishments that are separate from the office processing the request;

(2) The need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are demanded in a single request; or

(3) The need for consultation, which should be conducted with all practicable speed, with another agency having a substantial interest in the determination of the request, or among two or more components of the Administration having substantial subject-matter interest therein.

§ 603.104 Publication of current indices.

The American Revolution Bicentennial Administration has determined that periodic publication in the FEDERAL REGISTER of current indexes of any matter issued, adopted or promulgated after 1967 would be unnecessary and impractical due to the limited function and duration of the ARBA which terminates on June 30, 1977, or on the date of a final report to Congress, whichever is sooner.

JOHN W. WARNER,
Administrator.

FEBRUARY 21, 1975.

[FR Doc.75-5289 Filed 2-26-75;8:45 am]

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER B—GRANTS

[FRL 339-1]

PART 35—STATE AND LOCAL ASSISTANCE

Amendment to Final Construction Grant Regulations

The Environmental Protection Agency hereby amends regulations published February 11, 1974 (39 FR 5252), as amended, for the program of construction grants for waste treatment works to include an additional allotment of sums previously withheld from allotment, in compliance with the decision of the U.S. Supreme Court in *Russell E. Train vs. City of New York*, No. 73-1377, February 18, 1975. In that case, the court affirmed a lower court decision requiring the allotment of certain sums which were authorized for construction grants but which had been withheld pursuant to Presidential directive. The withheld sums amounted to $3 billion for each of the Fiscal Years 1973, 1974 and 1975.

By amendments published February 5, 1975 (40 FR 5363), the Environmental Protection Agency made an allotment of $4 billion from withheld sums. This amount represented a substantial portion of sums withheld from Fiscal Year 1973 and 1974 allotments. The amendments below revise the latest allotment to a total of $9 billion, which represents all sums previously withheld from allotments for Fiscal Years 1973, 1974 and 1975. Thus, all $18 billion authorized by section 207 of the Federal Water Pollution Control Act, as amended, has been allotted among the States on the basis of the allotment formulae applicable to the authorized sums.

Sections 35.910-3 and 35.910-4 of the regulations, as amended, set forth the basis for and amounts of construction grant sums allotted among the States for Fiscal Years 1973, 1974 and 1975. The amendment below adds a § 35.910-5 setting forth similar information concerning the $9 billion herein allotted.

Two-thirds of the funds hereby allotted represent sums which were withheld from previous allotments for Fiscal Years 1973 and 1974. Therefore, these funds—$6 billion—are allotted on the basis of Table III of House Public Works Committee Print No. 92-50, which was used as the basis for the Fiscal Year 1973 and 1974 allotments. The remaining one-third of the funds hereby allotted represent sums which were withheld from the allotment for Fiscal Year 1975. Therefore, these funds—$3 billion—are allotted on the basis of the requirements of Pub. L. 93-243 (that is, based 50 percent on the ratios of Table I and 50 percent on the ratios of Table II of House Public Works Committee Print No. 92-28), which was used as the basis for the Fiscal Year 1975 allotments, adjusted to reflect differences arising from the application of the statutory formula to the total authorized $7 billion. (Such adjustments were required only for North Dakota and South Dakota).

The sums hereby allotted are available for obligation immediately and will remain available to each State through September 30, 1977, in order to make them available for approximately the same period of time originally contemplated by the statute. The cut-off date of September 30, 1977, was chosen in order to rationalize the reallotment requirements of the regulations with the end of the fiscal year newly established by title V of the Congressional Budget and Impoundment Control Act of 1974 (Pub. L. 93-344). Funds remaining unobligated at the end of this allotment period will be reallotted by the Administrator pursuant to § 35.910-2 of the regulations. Projects initially funded from this additional allotment will be subject to requirements for study of alternative waste management techniques and application of best practicable waste treatment technology and, as appropriate, provision for reclamation or recycling, consistent with the intent of section 201 (g)(2).

This amendment also reflects the fact that no reallotment of Fiscal Year 1973 funds was necessary after June 30, 1974, inasmuch as each State fully exhausted its Fiscal Year 1973 allotment on or before that date.

Effective date. This amendment shall be effective on February 27, 1975, in order to comply with the order of Judge Oliver Gasch of the U.S. District Court for the District of Columbia, affirmed by the U.S. Court of Appeals for the District of Columbia Circuit and the U.S. Supreme Court, that certain previously "impounded" sums of construction grant funds be immediately allotted.

Dated: February 24, 1975.

RUSSELL E. TRAIN,
Administrator.

Part 35 is amended as follows:

§ 35.910 [Amended]

Paragraph (d) of § 35.910-3, which was added by amendment dated February 5, 1975 (40 FR 5363), continues in effect, and reads as follows:

(d) No reallotment of sums allotted for Fiscal Year 1973 was made after June 30, 1974, inasmuch as each State had fully exhausted its Fiscal Year 1973 allotment on or before June 30, 1974, in accordance with section 205(b) of the Act.

§ 35.910-5, which was added by amendment dated February 5, 1975 (40 FR 5363), is amended to read as follows:

§ 35.910-5 Additional allotments of previously withheld sums.

(a) Effective immediately, a total sum of $9 billion is allotted from sums authorized, but initially unallotted, for Fiscal Years 1973, 1974 and 1975. This additional allotment shall be available for obligation through September 30, 1977, before reallotment of unobligated sums pursuant to § 35.910-2.

(b) Two-thirds of the sum hereby allotted ($6 billion) represents the initially unallotted portion of the amounts authorized for Fiscal Years 1973 and 1974. Therefore, the portion of the additional allotments derived from this sum were computed by applying the percentages set forth in § 35.910-3(b) to the total sums authorized for Fiscal Years 1973 and 1974 ($11 billion) and subtracting the previously allotted sums, set forth in § 35.910-3(c).

(c) One-third of the sum hereby allotted ($3 billion) represents the initially unallotted portion of the amounts authorized for Fiscal Year 1975. Therefore, the portion of the additional allotments derived from this sum were computed in a three-step process: first, by applying the percentages set forth in § 35.910-4(b) to the total sums authorized for Fiscal Year 1975 ($7 billion); then, by making adjustments necessary to assure that no State's allotment of such sums fell below its Fiscal Year 1972 allotment, pursuant to Pub. L. 93-243; and, finally, by subtracting the previously allotted sums set forth in § 35.910-4(c).

(d) Based upon the computations set forth in paragraphs (b) and (c) of this section, the total additional sums hereby allotted to the States are as follows:

Alabama	$43,975,950
Alaska	25,250,500
Arizona	18,833,450
Arkansas	30,822,700

Title 50—Wildlife and Fisheries

CHAPTER 1—UNITED STATES FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 33—SPORT FISHING

Crab Orchard National Wildlife Refuge, Illinois

The following special regulation is issued and is effective on February 27, 1975.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuges.

ILLINOIS

CRAB ORCHARD NATIONAL WILDLIFE REFUGE

Sport fishing on the Crab Orchard National Wildlife Refuge, Illinois, is permitted only on the areas designated by signs as open to fishing. These open areas comprising 8,800 acres are delineated on maps available at the refuge headquarters and from the office of the Regional Director, U.S. Fish and Wildlife Service, Federal Building, Fort Snelling, T in Cities, Minnesota 55111. Sport fishing shall be in accordance with all applicable State regulations subject to the following special conditions:

(1) The open season for sport fishing on the refuge extends from January 1, 1975, thru December 31, 1975, in areas designated on Map I and III; and from March 15, 1975 thru September 30, 1975, daylight only, in areas designated on Map II; except bank fishing is permitted from the Wolf Creek Road and State Highway 148 Causeway, during daylight hours from January 1, 1975 thru December 31, 1975. *Boat fishing* only is permitted between Wolf Creek Road west to the closed portion boundary line (Carterville Road) from January 1, 1975 thru December 31, 1975.

(2) The use of boats and motors is permitted, except that use of a boat with a motor larger than ten (10) horsepower is prohibited on Devils Kitchen Lake and on Little Grassy Lake.

(3) Snagging for carp, buffalo, freshwater drum, paddle fish, bowfin, gar and carpsucker is permitted 400 yards downstream from the Crab Orchard Lake Spillway. Fishermen are limited to one (1) pole and line device, with no more than two (2) hooks, which must measure at least ½-inch from hook tip to shank.

(4) Jug fishing in the closed portion of the refuge as shown on Map II, east of Wolf Creek Road is authorized from March 15 thru September 30. Jugs may be left in the lake overnight. Personnel *are not* authorized in the area during the hours of darkness. Jug fishing in the open portion of the refuge as shown on Map I, west of the boundary (Carterville Road) is authorized both day and night. Between May 26, 1975 and September 1, 1975 jug fishing is authorized from sunset to sunrise. Jugs must be removed from the lake at sunrise during this period. In the area from Wolf Creek Road west to the closed portion of the refuge boundary (Carterville Road) jug fishing is permitted from January 1, 1975 thru December 31, 1975.

(5) Floating trot lines are not allowed in the open portion of the refuge west of the boundary (Carterville Road) during the hours of daylight from May 26, 1975 thru September 1, 1975.

(6) Fishing in designated ponds in the closed portion of the refuge is authorized from March 15, 1975 thru September 30, 1975 during daylight hours only.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in 50 CFR Part 33, and are effective through December 31, 1975.

WAYNE D. ADAMS,
Project Manager, Crab Orchard National Wildlife Refuge, Carterville, Ill.

FEBRUARY 19, 1975.

[FR Doc.75-5256 Filed 2-26-75;8:45 am]

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Part 1]

SEPARATE LIMITATION ON FOREIGN TAX CREDIT IN CASE OF DIVIDENDS FROM A DISC OR FORMER DISC

Proposed Rule Making

Notice is hereby given that the regulations set forth in tentative form in the attached appendix are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments pertaining thereto which are submitted in writing (preferably six copies) to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, by March 31, 1975. Pursuant to 26 CFR 601.601(b), designations of material as confidential or not to be disclosed, contained in such comments, will not be accepted. Thus, a person submitting written comments should not include therein material that he considers to be confidential or inappropriate for disclosure to the public. It will be presumed by the Internal Revenue Service that every written comment submitted to it in response to this notice of proposed rule making is intended by the person submitting it to be subject in its entirety to public inspection and copying in accordance with the procedures of 26 CFR 601.702(d)(9). Any person submitting written comments who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner by March 31, 1975. In such case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER, unless the person or persons who have requested a hearing withdraw their requests for a hearing before notice of the hearing has been filed with the Office of the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

This document contains proposed amendments to conform the Income Tax Regulations (26 CFR Part 1) to section 904(f) of the Internal Revenue Code of 1954, as amended by section 502(b)(2) of the Revenue Act of 1971 (85 Stat. 549), relating to the separate limitation on the foreign tax credit in the case of certain dividends received from a DISC or former DISC. The amendments apply for taxable years ending after December 31, 1971.

Section 901(d) of the Code, as amended by section 502(b)(1) of the Act, provides that dividends from a DISC or former DISC (section 904(f) dividends) are treated as dividends from a foreign corporation for purposes of the foreign tax credit to the extent that the dividends are treated as income from foreign sources under the source rules of sections 861 to 863 of the Code. Sections 861(a)(2)(D) and 862(a)(2) provide that such dividends are from foreign sources to the extent they are attributable to certain qualified export receipts described in section 993(a)(1). The general impact of these amendments is to permit a shareholder of a DISC or former DISC a foreign tax credit for the foreign income taxes paid, accrued, or deemed to be paid under section 902 of the Code, by the shareholder with respect to such dividends.

Section 904(f)(1) provided that, in determining the limitation upon such credit under section 904, the limitation is to be determined separately with respect to such dividends and separately with respect to other income. Section 904(f)(3) provides that the overall limitation under section 904(a)(2) is not to apply with respect to the dividends, and section 904(f)(5) provides that the per-country limitation under section 904(a)(1) is to be applied to the aggregate of all such dividends from a DISC or former DISC. Section 1.902-4 of the Income Tax Regulations now provides that a DISC or former DISC shall not be treated as a less developed country corporation for purposes of section 902. Thus, the dividends here involved are required to be grossed up under section 78 of the Code.

An analysis of the statutory changes reveals that the same substantive result as was intended can be accomplished more simply by determining the separate limitation on these dividends in the same manner as the overall limitation under section 904(a)(2). In this way the separate limitation will be applied to the aggregate of the dividends from sources without the United States without going through the charade of treating the aggregate of the dividends and the applicable gross-up under section 78 as being derived from a fictional foreign country and the foreign income taxes as being paid or deemed paid to a fictional foreign country. Accordingly, the proposed amendments included in this document are modeled generally after the Income Tax Regulations under § 1.904-4 relating to section 904(f) interest, except for necessary changes required because of determining the separate limitation on the section 904(f) dividends in the same manner as the overall limitation.

The proposed amendments provide a definition of the types of income included as section 904(f) dividends, general rules for the carryback and carryforward of unused foreign tax with respect to section 904(f) dividends, and examples illustrating the application of the principles of the new provisions. It is also made clear that any carryback under section 904(d) of any unused foreign tax with respect to such dividends may not be carried to a taxable year ending on or before December 31, 1971. A number of technical amendments are also made in § 1.904-4, relating to separate limitation on section 904(f) interest. Also, a technical amendment of § 1.902-3 is provided in order to correct an inadvertent deletion made by T.D. 7294, as published in the FEDERAL REGISTER for November 30, 1973 (38 FR 33073).

In view of the foregoing considerations, the Income Tax Regulations are hereby amended as set forth below.

[SEAL] DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Paragraph 1. Section 1.78-1 is amended by revising paragraph (f) to read as follows:

§ 1.78-1 Dividends received from certain foreign corporations by certain domestic corporations choosing the foreign tax credit.

* * * * *

(f) *Illustrations.* The application of section may be illustrated by the examples provided in § 1.902-3, § 1.904-5, § 1.960-3, § 1.960-4, and § 1.963-4.

Par. 2. Section 1.902-3 is amended by revising paragraph (a)(1) to read as follows:

§ 1.902-3 Credit for domestic corporate shareholder of a foreign corporation (after amendment by Revenue Act of 1962).

(a) *Domestic shareholder owning stock in a first-tier corporation*—(1) *In general.* If a domestic shareholder (meaning for purposes of section 902 a domestic corporation owning at least 10 percent of the voting stock of a foreign corporation, such foreign corporation for purposes of section 902 being referred to as a first-tier corporation) receives dividends in any taxable year from its first-tier corporation, the credit for foreign income taxes allowed by section 901 includes, subject to the conditions and limitations prescribed in paragraphs (a)(4) through (8) of this section, the foreign income taxes deemed, in accordance with paragraphs (a)(2) and (3) of this section, to be paid by such

V 40 40 FEB 27 75 XUM

domestic shareholder for such year. For purposes of this section, § 1.902–4, and § 1.902–5, the term "foreign income taxes" means income, war profits, and excess profits taxes, and taxes included in the term "income, war profits, and excess profits taxes" by reason of section 903, imposed by a foreign country or a possession of the United States. For purposes of this section and § 1.902–4, a DISC or former DISC shall be treated as if it were a foreign corporation, but only with respect to dividends from the DISC or former DISC to the extent such dividends are treated under sections 861 (a) (2) (D) and 862(a) (2) as income from sources without the United States. For rules relating to reduction of the amount of foreign income taxes deemed paid or accrued with respect to foreign mineral income, see section 901(e) and § 1.901–3.

• • • • •

Par. 3. Section 1.904 is amended by revising the heading of paragraph (f) of section 904, by revising paragraph (1) of section 904(f), by revising paragraph (3) of section 904(f), by adding new paragraph (5) to section 904(f), and by revising the historical note, as follows:

§ 1.904 Statutory provisions; limitation on credit.

Sec. 904 *Limitation on credit.* • • •

(f) *Application of section in case of certain interest income and dividends from a DISC or former DISC*—(1) *In general.* The provisions of subsections (a), (c), (d), and (e) of this section shall be applied separately with respect to each of the following items of income—

(A) The interest income described in paragraph (2),

(B) Dividends from a DISC or former DISC (as defined in section 992(a)) to the extent such dividends are treated as income from sources without the United States, and

(C) Income other than the interest income described in paragraph (2) and dividends described in subparagraph (b).

• • • • •

(3) *Overall limitation not to apply.* The limitation provided by subsection (a)(2) shall not apply with respect to the interest income described in paragraph (2) or to dividends described in paragraph (1)(B). The Secretary or his delegate shall by regulations prescribe the manner of application of subsection (e) with respect to cases in which the limitation provided by subsection (a)(2) applies with respect to income described in paragraph (1) (B) and (C).

• • • • •

(5) *DISC dividends aggregated for purposes of per-country limitation.* In the case of a taxpayer who for the taxable year has dividends described in paragraph (1)(B) from more than one corporation, the limitation provided by subsection (a)(1) shall be applied with respect to the aggregate of such dividends.

• • • • •

[Sec. 904 as amended by sec. 42(a), Technical Amendments Act 1958 (72 Stat. 1639); sec. 1, Act of Sept. 14, 1960 (Pub. L. 86–780, 74 Stat. 1010); secs. 10 and 12(b)(2), Rev. Act 1962 (76 Stat. 1002, 1031); sec. 234(b)(8), Rev. Act 1964 (76 Stat. 116); sec. 106(c), Foreign Investors Tax Act 1966 (80 Stat. 1570); sec. 506(b), Tax Reform Act 1969 (83 Stat. 635); sec. 502(b)(2), (3), and (4), Rev. Act 1971 (85 Stat. 549)]

Par. 4. Section 1.904–1 is amended by revising paragraphs (a)(1) and (b)(1) to read as follows:

§ 1.904–1 Limitation on credit for foreign taxes.

(a) *Per-country limitation*—(1) *General.* In the case of any taxpayer who does not elect the overall limitation under section 904(a)(2), the amount allowable as a credit for income or profits taxes paid or accrued to a foreign country or a possession of the United States is subject to the per-country limitation prescribed in section 904(a)(1). Such limitation provides that the credit for such taxes paid or accrued (including those deemed to have been paid or accrued other than by reason section 904(d)) to each foreign country or possession of the United States shall not exceed that proportion of the tax against which credit is taken which the taxpayer's taxable income from sources within such country or possession (but not in excess of the taxpayer's entire taxable income) bears to his entire taxable income for the same taxable year. For special rules regarding the application of the per-country limitation when the taxpayer has derived section 904(f) interest or section 904(f) dividends, see § 1.904–4 or § 1.904–5.

• • • • •

(b) *Overall limitation*—(1) *General.* In the case of any taxpayer who elects the overall limitation provided by section 904(a)(2), the total credit for taxes paid or accrued (including those deemed to have been paid or accrued other than by reason of section 904(d)) shall not exceed that proportion of the tax against which such credit is taken which the taxpayer's taxable income from sources without the United States (but not in excess of the taxpayer's entire taxable income) bears to his entire taxable income for the same taxable year. For special rules regarding the application of the overall limitation when the taxpayer has derived section 904(f) interest or section 904(f) dividends, see § 1.904–4 or § 1.904–5.

• • • • •

Par. 5. Section 1.904–2 is amended by revising paragraph (a) to read as follows:

§ 1.904–2 Carryback and carryover of unused foreign tax.

(a) *Credit for foreign tax carryback or carryover.* A taxpayer who chooses to claim a credit under section 901 for a taxable year is allowed a credit under that section not only for taxes otherwise allowable as a credit but also for taxes deemed paid or accrued in that year as a result of a carryback or carryover of an unused foreign tax under section 904(d). However, the taxes so deemed paid or accrued shall not be allowed as a deduction under section 164(a). The following paragraphs of this section provide rules for the computation of carryovers and carrybacks under section 904(d). For special rules regarding the application of section 904(d) and this section in the case of taxes paid or accrued with respect to section 904(f) interest see section 904(f) and § 1.904–4. For special rules regarding the application of section 904(d) and this section in the case of taxes paid, accrued, or deemed to be paid with respect to section 904(f) dividends see section 904(f) and § 1.904–5.

• • • • •

Par. 6. Section 1.904–3 is amended by revising paragraph (e) to read as follows:

§ 1.904–3 Carryback and carryover of unused foreign tax by husband and wife.

• • • • •

(e) *Amounts carried from or through a joint return year to or through a separate return year.* It is necessary to allocate to each spouse his share of an unused foreign tax or excess limitation for any taxable year for which the spouses filed a joint return if—

(1) The husband and wife file separate returns for the current taxable year and an unused foreign tax is carried thereto from a taxable year for which they filed a joint return;

(2) The husband and wife file separate returns for the current taxable year and an unused foreign tax is carried to such taxable year from a year for which they filed separate returns but is first carried through a year for which they filed a joint return; or

(3) The husband and wife file a joint return for the current taxable year and an unused foreign tax is carried from a taxable year for which they filed joint returns but is first carried through a year for which they filed separate returns.

In such cases, the separate carryback or carryover of each spouse to the current taxable year shall be computed in the manner described in § 1.904–2 but with the modifications set forth in paragraph (f) of this section. Where applicable, appropriate adjustments shall be made to take into account the fact that, for any taxable year involved in the computation of the carryback or the carryover, either spouse has interest income described in section 904(f)(2) with respect to which the provisions of section 904(f) and § 1.904–4 apply, or dividends described in section 904(f)(1)(B) with respect to which the provisions of section 904(f) and § 1.904–5 apply.

• • • • •

Par. 7. Section 1.904–4 is amended by revising the heading and paragraph (a)(1), by redesignating subparagraphs (3), (4), and (5) of paragraph (a) as subparagraphs (4), (5), and (6), by adding a new subparagraph (3) to paragraph (a), by revising paragraph (d)(1), by revising the introductory material in examples (5) and (6) in paragraph (e)(1)(iv), by revising paragraph (e)(2)(i)(b), and by revising the introductory material in example (3) in paragraph (e)(2)(iii), as follows:

§ 1.904–4 Separate limitation for section 904(f) interest.

(a) *Separate limitation*—(1) *In general.* (i) For taxable years beginning after October 16, 1962, but only with respect to interest resulting from transactions consummated after April 2, 1962, the provisions of subsections (a), (c), (d), and (e) of section 904 shall be applied separately with respect to the taxpayer's income consisting of—

(*a*) Section 904(f) interest (as defined in paragraph (a)(2) of this section), and

(*b*) Other income (as defined in paragraph (a)(3) of this section).

(ii) The provisions of section 904(f) and this section do not alter the rules provided by section 904(b) and paragraph (d) of § 1.904–1 for the election of the overall limitation upon the amount of the foreign tax credit.

(iii) If the taxpayer has not elected the overall limitation, the per-country limitation prescribed in section 904(a)(1) which is applicable to any foreign country or possession of the United States shall be applied separately with respect to the taxpayer's taxable income from sources within that country or possession which is attributable to the other income, and a separate limitation computed in the same manner shall be applied separately with respect to his taxable income from sources within that country or possession which is attributable to the section 904(f) interest.

(iv) If the taxpayer has elected the overall limitation prescribed in section 904(a)(2), such limitation shall be applied with respect to all of the taxpayer's taxable income from sources without the United States which is attributable to the other income, and, in addition, a separate limitation computed in the same manner as the per-country limitation prescribed in section 904(a)(1) shall be applied separately with respect to the taxpayer's taxable income from sources within each foreign country or possession of the United States which is attributable to the section 904(f) interest from sources within that country or possession.

(v) For purposes of this subparagraph, the separate limitation with respect to section 904(f) interest from sources within a foreign country or possession of the United States shall be applied only to the taxes paid or accrued to such country or possession with respect to such interest, and the separate limitation with respect to other income, whether the per-country or overall limitation, shall be applied only with respect to the foreign income taxes paid or accrued (including those deemed to have been paid or accrued other than by reason of section 904(d)) with respect to the other income which is taken into account for purposes of such separate limitation.

(vi) In no case may the overall limitation prescribed in section 904(a)(2) be applied with respect to section 904(f) interest or with respect to foreign income taxes paid or accrued with respect to such interest.

(vii) For special rules for determining the separate limitation for section 904(f) dividends, which is determined independently of the separate limitation for section 904(f) interest, see § 1.904–5.

• • • • •

(3) *Other income defined.* For purposes of this section, other income is all income of the taxpayer for the taxable year other than section 904(f) interest (as defined in paragraph (a)(2) of this section) and other than section 904(f) dividends (as defined in section 904(f)(1)(B) and § 1.904–5(a)(2)).

• • • • •

(d) *General rules for carryback and carryover of unused foreign tax applicable to section 904(f) interest*—(1) *Modifications in use of § 1.904–2.* For purposes of applying the provisions of § 1.904–2 in conjunction with this section, and except as otherwise provided in paragraph (e) of this section—

(i) *Unused foreign tax.* The term "unused foreign tax", when used with respect to section 904(f) interest for any taxable year, means, with respect to a particular foreign country or possession of the United States, the excess of—

(*a*) The income, war profits, and excess profits taxes paid or accrued in such year to such foreign country or possession with respect to such interest, as determined under subparagraph (2) of this paragraph, over

(*b*) The separate limitation for such year with respect to such interest.

Any unused foreign tax for such year with respect to other income shall be determined under § 1.904–2(b)(2) (i) or (ii), whichever applies, without taking into account any amounts used in applying the preceding provisions of this paragraph (b)(i).

(ii) *Tax deemed paid or accrued.* The amount of an unused foreign tax for any taxable year with respect to section 904(f) interest, in the case of a particular foreign country or possession of the United States, which shall be deemed paid or accrued in any other taxable year to which such unused foreign tax may be carried under paragraph (b) of § 1.904–2 shall be equal to the smaller of—

(*a*) The portion of such unused foreign tax which, under paragraph (b) of § 1.904–2, is carried to such other taxable year, or

(*b*) Any excess limitation for such other taxable year with respect to such unused foreign tax.

The amount of an unused foreign tax for any taxable year with respect to other income which is deemed paid or accrued in such other taxable year shall be determined under § 1.904–2(c) (1) or (2), whichever applies, without taking into account any amounts used in applying the preceding provisions of this paragraph (b)(ii).

(iii) *Excess limitation.* The excess limitation for any taxable year (hereinafter called the "excess limitation year") applicable to an unused foreign tax with respect to section 904(f) interest, in the case of a particular foreign country or possession of the United States, for another taxable year (hereinafter called the "year of origin") shall be the amount, if any, by which the limitation for the excess limitation year in the case of that foreign country or possession with respect to section 904(f) interest exceeds the sum of—

(*a*) The income, war profits, and excess profits taxes actually paid or accrued to such foreign country or possession in the excess limitation year with respect to section 904(f) interest, and

(*b*) The portion of the unused foreign tax with respect to section 904(f) interest, in the case of such foreign country or possession for any taxable year earlier than the year of origin, which is absorbed as taxes deemed paid or accrued in the excess limitation year under paragraph (b)(ii) of this section.

The excess limitation for such excess limitation year with respect to other income shall be determined under § 1.904–2(c), (1)(ii) or (2)(ii), whichever applies, without taking into account any amounts used in applying the preceding provisions of this paragraph (b)(iii).

(iv) *Modification of restrictions on carrybacks and carryovers.* Notwithstanding section 904(e)(2) and subparagraphs (1)(iii) and (2)(iii) of § 1.904–2(c), but subject to the limitations of this section—

(*a*) An unused foreign tax with respect to section 904(f) interest for any taxable year may be deemed paid or accrued in another taxable year for which the overall limitation provided in section 904(a)(2) applies, even though the taxable year from which such tax is carried is a taxable year for which the per-country limitation provided in section 904(a)(1) applies,

(*b*) An unused foreign tax with respect to section 904(f) interest for any taxable year may be deemed paid or accrued in another taxable year for which the per-country limitation provided in section 904(a)(1) applies, even though the taxable year from which such tax is carried is a taxable year for which the overall limitation provided in section 904(a)(2) applies, and

(*c*) An unused foreign tax for any taxable year with respect to other income may be deemed paid or accrued in another taxable year for which the separate limitation with respect to section 904(f) interest applies, if the same limitation applies for both of such taxable years with respect to other income.

(v) *Separation of limitations.* In applying this subparagraph—

(*a*) No portion of an unused foreign tax with respect to section 904(f) interest for any taxable year may reduce the excess limitation for any other taxable year with respect to other income,

(*b*) No portion of an unused foreign tax for any taxable year with respect to other income may reduce the excess limitation for any other taxable year with respect to section 904(f) interest, and

(*c*) If an unused foreign tax with respect to section 904(f) interest for any

XUM
V 40 140
FEB 27 75
XUM

taxable year is not deemed paid or accrued in another taxable year to which such unused foreign tax may be carried under paragraph (b) of § 1.904–2, such other taxable year is to be counted as one of the years to which such unused foreign tax may be carried.

The application of this subdivision (v) may be illustrated by the following example:

Example. Domestic corporation D, a calendar year taxpayer, does not elect the overall limitation for 1963, 1964, and 1965, in each of which years it chooses the benefits of section 901. For 1965 D has an unused foreign tax of $100 with respect to section 904(f) interest. For 1963 D has an excess limitation of $200, but only with respect to other income. Since the unused foreign tax for 1965 consists only of income taxes imposed on section 904(f) interest and an excess limitation does not exist with respect to such taxes for 1963, the unused foreign tax for 1965 shall not be deemed paid or accrued under section 904(d) in 1963.

* * * * *

(e) *Transitional rules for carrybacks and carryovers with respect to pre-1962 years*—(1) *Carrybacks to years before Revenue Act of 1962.* * * *

(iv) * * *

Example (5). N, a calendar year taxpayer using the cash receipts and disbursements method of accounting, pays foreign income taxes for the first time in 1962. N chooses the benefits of section 901 for each of the taxable years set forth below and for 1962 elects the overall limitation, which, with the Commissioner's consent, is revoked for 1966. N has section 904(f) interest only from foreign country X for the years involved. Based upon the taxes actually paid to foreign countries X and Y for each of the taxable years with respect to other income, and the taxes paid to country X with respect to section 904(f) interest, the unused foreign tax deemed paid under section 904(d) is as follows:

* * * * *

Example (6). B, a calendar year taxpayer using the cash receipts and disbursements method of accounting, pays foreign income taxes for the first time in 1962. For each of the taxable years set forth below, B chooses the benefits of section 901 and elects the overall limitation. B has section 904(f) interest only from foreign country X for the years indicated. Based upon the taxes actually paid to foreign countries X and Y for each of the taxable years with respect to other income, and the taxes paid to country X with respect to section 904(f) interest, the unused foreign tax deemed paid under section 904(d), is as follows, after taking into account the prohibition provided in subdivision (iii) of this subparagraph against the apportionment of the unused foreign tax for 1964:

* * * * *

(2) *Carryover to years after Revenue Act of 1962.* (i) * * *

(b) With respect to other income, an amount which bears the same ratio to the amount of such taxes deemed paid or accrued in the later year as the amount of the foreign income taxes paid or accrued to such country or possession for the later year with respect to other income bears to the total amount of the foreign income taxes paid or accrued to such country or possession for such later year.

* * * * *

(iii) * * *

Example (3). C, a calendar year taxpayer using the cash receipts and disbursements method of accounting, pays foreign income taxes for the first time in 1962 and chooses the benefits of section 901 for each of the taxable years set forth below. For 1962, C uses the per-country limitation and in 1963 elects the overall limitation. C's only section 904(f) interest income for the years indicated is from foreign country X. Based upon the taxes actually paid for each of the taxable years with respect to other income, and the taxes paid to country X with respect to the section 904(f) interest, no unused foreign tax is deemed paid under section 904(d), determined as follows:

* * * * *

Par. 8. The following new section is added immediately after § 1.904–4:

§ 1.904–5 Separate limitation for section 904(f) dividends.

(a) *Separate limitation*—(1) *In general.* (i) For taxable years ending after December 31, 1971, the provisions of subsections (a), (c), (d), and (e) of section 904 shall be applied separately with respect to the taxpayer's income consisting of—

(A) Section 904(f) dividends (as defined in section 904(f)(1)(B) and paragraph (a)(2) of this section), and

(B) Other income (as defined in paragraph (a)(3) of this section).

(ii) The provisions of section 904(f) and this section do not alter the rules provided by section 904(b) and § 1.904–1(d) for the election of the overall limitation upon the amount of the foreign tax credit.

(iii) If the taxpayer has not elected the overall limitation, the per-country limitation prescribed in section 904(a)(1) which is applicable to any foreign country or possession of the United States shall be applied separately with respect to the taxpayer's taxable income from sources within that country or possession which is attributable to the other income, and a separate limitation computed in the same manner as the overall limitation prescribed in section 904(a)(2) shall be applied separately with respect to the taxpayer's entire taxable income from sources without the United States which is attributable to section 904(f) dividends.

(iv) If the taxpayer has elected the overall limitation prescribed in section 904(a)(2), such limitation shall be applied separately with respect to all of the taxpayer's taxable income from sources without the United States which is attributable to other income, and, in addition, a separate limitation computed in the same manner shall be applied separately with respect to the taxpayer's entire taxable income from sources without the United States which is attributable to section 904(f) dividends.

(v) For purposes of this paragraph, the separate limitation with respect to section 904(f) dividends from sources without the United States shall be applied only with respect to the foreign income taxes paid or accrued (including those deemed to have been paid or accrued other than by reason of section 904(d)) with respect to such dividends, and the separate limitation with respect to other income, whether the per-country or overall limitation, shall be applied only with respect to the foreign income taxes paid or accrued (including those deemed to have been paid or accrued other than by reason of section 904(d)) with respect to the other income which is taken into account for purposes of such limitation. In the case of a taxpayer who for the taxable year has section 904(f) dividends from more than one corporation, the separate limitation shall be applied with respect to the aggregate of such dividends.

(vi) In no case may the per-country limitation prescribed in section 904(a)(1) be applied with respect to section 904(f) dividends or with respect to foreign income taxes paid, accrued, or deemed to have been paid with respect to such dividends.

(vii) For special rules for determining the separate limitation for section 904(f) interest, which is determined independently of the separate limitation for section 904(f) dividends, see § 1.904–4.

(2) *Section 904(f) dividends defined.* For purposes of this section, section 904(f) dividends shall be all income of the taxpayer for the taxable year consisting of dividends from a DISC or former DISC (as defined in section 992(a)(1) or (3)), as the case may be) to the extent such dividends are treated under sections 861(a)(2)(D) and 862(a)(2), and the regulations thereunder, as income from sources without the United States.

(3) *Other income.* For purposes of this section, other income is all income of the taxpayer for the taxable year other than section 904(f) dividends (as defined in paragraph (a)(2) of this section) and other than section 904(f) interest (as defined in section 904(f)(2) and § 1.904–4(a)(2)).

(b) *General rules for carryback and carryover of unused foreign tax applicable to section 904(f) dividends*—(1) *Modification in use of § 1.904–2.* For purposes of applying the provisions of § 1.904–2 in conjunction with this section, and except as otherwise provided in paragraph (b)(3) of this section—

(i) *Unused foreign tax.* The term "unused foreign tax", when used with respect to section 904(f) dividends for any taxable year, means the excess of—

(A) The income, war profits, and excess profits taxes paid or accrued (or deemed paid or accrued other than by reason of section 904(d)), as determined under paragraph (b)(2) of this section, in such year to all foreign countries and possessions of the United States with respect to such dividends, over

(B) The separate limitation for such year with respect to such dividends.

Any unused foreign tax for such year with respect to other income shall be determined under § 1.904–2(b)(2) (i) or (ii), whichever applies, without taking into account any amounts used in applying (A) and (B) of paragraph (b)(1).

(ii) *Tax deemed paid or accrued.* The amount of an unused foreign tax for any taxable year with respect to section 904(f) dividends which shall be deemed paid or accrued in any other taxable year to which such unused foreign tax may be carried under paragraph (b) of § 1.904–2 shall be equal to the smaller of—

(A) the portion of such unused foreign tax which, under paragraph (b) of § 1.904–2, is carried to such taxable year, or

(B) Any excess limitation for such other taxable year with respect to such unused foreign tax.

The amount of an unused foreign tax for any taxable year with respect to other income which is deemed paid or accrued in such other taxable year shall be determined under § 1.904–2(c)(1)(ii) or (2)(ii), whichever applies, without taking into account any amounts used in applying (A), (B), and (C) of this paragraph (b)(iii).

(iii) *Excess limitation.* The excess limitation for any taxable year (hereinafter called the "excess limitation year") applicable to an unused foreign tax with respect to section 904(f) dividends for another taxable year (hereinafter called the "year of origin") shall be the amount, if any, by which the limitation for the excess limitation year with respect to section 904(f) dividends exceeds the sum of—

(A) The income, war profits, and excess profits taxes actually paid or accrued to all foreign countries and possessions of the United States in the excess limitation year with respect to section 904(f) dividends,

(B) The income, war profits, and excess profits taxes deemed paid or accrued other than by reason of section 904(d) in such year to all foreign countries and possessions of the United States with respect to section 904(f) dividends, and

(C) The portion of the unused foreign tax with respect to section 904(f) dividends, for any taxable year earlier than the year of origin, which is absorbed as taxes deemed paid or accrued in the excess limitation year.

The excess limitation for such excess limitation year with respect to other income shall be determined under § 1.904–2(c)(1)(ii) or (2)(ii), whichever applies, without taking into acount any amounts used in applying (A), (B), and (C) of this paragraph (b)(iii).

(iv) *Modification of restrictions on carrybacks and carryovers.* Notwithstanding section 904(e)(2) and subparagraphs (1)(iii) and (2)(iii) of § 1.904–2(c), but subject to the limitations of this subparagraph—

(A) An unused foreign tax with respect to section 904(f) dividends for any taxable year may be deemed paid in another taxable year for which the overall limitation provided in section 904(a)(2) applies, even though the taxable year from which such tax is carried is a taxable year for which the per-country limitation provided in section 904(a)(1) applies,

(B) An unused foreign tax with respect to section 904(f) dividends for any taxable year may be deemed paid or accrued in another taxable year for which the per-country limitation provided in section 904(a)(1) applies, even though the taxable year from which such tax is carried is a taxable year for which the overall limitation provided in section 904(a)(2) applies, and

(C) An unused foreign tax for any taxable year with respect to other income may be deemed paid or accrued in another taxable year for which the separate limitation with respect to section 904(f) dividends applies, if the same limitation applies for both of such taxable years with respect to other income.

(v) *Separation of limitations.* In applying this paragraph—

(A) No portion of an unused foreign tax with respect to section 904(f) dividends for any taxable year may reduce the excess limitation for any other taxable year with respect to other income,

(B) No portion of an unused foreign tax for any taxable year with respect to other income may reduce the excess limitation for any other taxable year with respect to section 904(f) dividends, and

(C) If an unused foreign tax with respect to section 904(f) dividends for any taxable year is not deemed paid or accrued in another taxable year to which such unused foreign tax may be carried under paragraph (b) of § 1.904–2, such other taxable year is to be counted as one of the years to which such unused foreign tax may be carried.

The application of this paragraph (v) may be illustrated by the following example:

Example. Domestic corporation D, a calendar year taxpayer, does not elect the overall limitation for 1973, 1974, and 1975, in each of which years it chooses the benefits of section 901. For 1975, D has an unused foreign tax of $100 with respect to section 904(f) dividends. For 1973, D has an excess limitation of $200, but only with respect to other income. Since the unused foreign tax for 1975 consists only of income taxes paid, accrued, or deemed paid with respect to section 904(f) dividends and an excess limitation does not exist for 1973 with respect to section 904(f) dividends, the unused foreign tax for 1975 may not be deemed paid or accrued in 1973 under section 904(d).

(2) *Amount of taxes with respect to section 904(f) dividends*—(i) *In general.* Except as provided in paragraph (b)(2)(ii) of this section, the amount of taxes paid or accrued with respect to section 904(f) dividends includes primarily the amount of foreign income taxes which a shareholder of a DISC or former DISC is deemed to have paid under section 902(a) on receipt of section 904(f) dividends from the accumulated profits of such corporation. Thus, it includes the portion determined under section 902(a) of the income, war profits, or excess profits taxes paid, or deemed under section 902(b) to be paid, by the DISC or former DISC to any foreign country or possession of the United States on or with respect to the accumulated profits of such corporation from which the section 904(f) dividends are paid, or deemed paid under section 995(b)(1)(D) or (E) or section 995(c). See § 1.995–1(b) for amounts treated as being received for purposes of this subdivision. However, it also includes foreign income taxes, if any, actually paid or accrued to any foreign country or possession of the United States by the shareholder with respect to section 904(f) dividends from such corporation.

(ii) *Taxes not specifically allocable to dividends.* If a taxpayer has paid or accrued for a taxable year an amount of foreign income taxes with respect to income which consists only in part of section 904(f) dividends, but such taxes cannot be specifically allocated to the section 904(f) dividends, the amount of such taxes which is to be taken into account for purposes of paragraph (b)(2)(i) of this section is that amount which bears the same ratio to the total of such foreign income taxes as the net section 904(f) dividends bear to the total net amount of such income. For purposes of such apportionment the net section 904(f) dividends and the total net income are to be determined by deducting any credits, expenses, losses, and other deductions which are properly allocable to the gross amount of such income under the law of the foreign country or possession of the United States to which the foreign income taxes have been paid or accrued. If the taxpayer determines that because of the facts and circumstances in a particular case the application of the two preceding sentences does not result in a proper allocation of the foreign income taxes to the section 904(f) dividends, he may make such other reasonable allocation as will, in the opinion of the district director, more clearly reflect the proper allocation of the foreign income taxes to the section 904(f) dividends. For purposes of this section, the term "foreign income taxes" means income, war profits, and excess profits, taxes and taxes included in the term "income, war profits, and excess profits taxes" by reason of section 903, imposed by a foreign country or a possession of the United States.

(3) *Transitional rules for carrybacks and carryovers with respect to pre-1971 years*—(i) *Carryovers to years ending after December 31, 1971.* Where, under the provisions of section 904(d), taxes paid, accrued, or deemed to be paid to any foreign country or possession of the United States in any taxable year ending on or before December 31, 1971, are deemed paid or accrued in one or more taxable years ending after December 31, 1971, no amount of such taxes shall be deemed paid or accrued in any such taxable year with respect to section 904(f) dividends.

(ii) *Carrybacks to years ending on or before December 31, 1971.* In applying the provisions of section 904(d) and § 1.904–2(b) to taxes paid, accrued, or deemed to be paid to any foreign country

XUM
V 40 140 F
FEB 27 75
XUM

or possession of the United States with respect to section 904(f) dividends in any taxable year ending after December 31, 1971, the terms "second preceding taxable year" and "first preceding taxable year" do not include any taxable year ending on or before December 31, 1971. Thus, no portion of the unused foreign tax with respect to section 904(f) dividends, as determined under paragraph (b)(1)(i) of this section, for any taxable year ending after December 31, 1971, shall be absorbed as taxes deemed paid or accrued in any taxable year ending on or before December 31, 1971.

(c) *Illustrations.* The application of this section may be illustrated by the following examples:

Example (1). Domestic corporation M, a calendar year taxpayer to which the per-country limitation under section 904(a)(1) applies, in 1973 receives a dividend of $50,000 from corporation N, which is a DISC, and a dividend of $150,000 from corporation P, which is a DISC. Under § 1.902-4(a), both N and P are treated as foreign corporations which are not less developed country corporations. Of the dividend from N, $40,000 is a section 904(f) dividend under paragraph (a)(2) of this section; and of the dividend from P, $140,000 is a section 904(f) dividend. In addition, M receives $30,000 of section 904(f) interest (as defined in § 1.904-4(a)(2)) from sources in foreign country X and $300,000 of other income, consisting of $100,000 from sources in country X and $200,000 from sources in foreign country Y. M has no other income (or loss) from sources without the United States in 1973 and has total taxable income from all sources of $2 million. M pays income taxes for 1973 to country X of $8,000 with respect to section 904(f) interest and $35,000 with respect to other income, and $100,000 income tax to country Y. It is assumed that the foreign income taxes deemed paid by M under section 902(a)(1), with respect to the section 904(f) dividends from N are $10,000 and that the foreign income taxes deemed paid by M under section 902(a)(1) with respect to the section 904(f) dividends from P are $35,000. Thus, the total foreign income taxes paid or deemed to be paid by M for 1973 amount to $183,000. M's U.S. tax (before foreign tax credit) is assumed to be $960,000. Based upon such assumptions, M's foreign tax credit limitation under section 904, and the tax allowable as a credit, are determined as follows for 1973:

(i) Separate limitation with respect to sec. 904(f) dividends:	
Sec. 904(f) dividends from N	$40,000
Gross-up under sec. 78	10,000
Total	50,000
Sec. 904(f) dividends from P	140,000
Gross-up under sec. 78	35,000
Total	175,000
Numerator of limiting fraction	225,000
Limitation ($960,000 x $225,000/$2,000,000)	108,000
(ii) Separate limitation under § 1.904-4 with respect to sec. 904(f) interest from sources in country X:	
$960,000 x $30,000/$2,000,000	14,400
(iii) Limitation under sec. 904(a)(1) with respect to other income:	
Country X ($960,000 x $100,000/$2,000,000)	48,000
Country Y ($960,000 x $200,000/$2,000,000)	96,000
(iv) Summary of allowable credit:	
Foreign income taxes with respect to sec. 904(f) dividends ($45,000 taxes but not to exceed limitation of $108,000)	45,000
Foreign income tax with respect to sec. 904(f) interest ($3,000 tax but not to exceed limitation of $14,400)	3,000
Country X tax on other income ($35,000 tax but not to exceed limitation of $48,000)	35,000
Country Y tax on other income ($100,000 tax but not to exceed limitation of $96,000)	96,000
Total allowable credit	$179,000

Example (2). The facts are the same as in example (1) except that M elects the overall limitation under section 904(a)(2) for 1973. Based upon such assumptions, M's foreign tax credit limitation under section 904, and the tax allowable as a credit, are determined as follows for 1973:

(i) Separate limitation with respect to sec. 904(f) dividends:	
Sec. 904(f) dividends from N	$40,000
Gross-up under sec. 78	10,000
Total	50,000
Sec. 904(f) dividends from P	140,000
Gross-up under sec. 78	35,000
Total	175,000
Numerator of limiting fraction	225,000
Limitation ($960,000 x $225,000/$2,000,000)	108,000
(ii) Separate limitation under § 1.904-4 with respect to sec. 904(f) interest from sources in country X:	
$960,000 x $30,000/$2,000,000	14,400
(iii) Limitation under sec. 904(a)(2) with regard to other income:	
($960,000 x $300,000/$2,000,000	144,000
(iv) Summary of allowable credit:	
Foreign income taxes with respect to sec. 904(f) dividends ($45,000 taxes but not to exceed limitation of $108,000)	45,000
Foreign income tax with respect to sec. 904(f) interest ($3,000 tax but not to exceed limitation of $14,000)	3,000
Foreign income tax on other income ($135,000 taxes but not to exceed limitation of $144,000)	135,000
Total allowable credit	183,000

Example (3). Domestic corporation M, a calendar year taxpayer using the cash receipts and disbursements method of accounting, pays foreign income taxes for the first time in 1970. For each of the taxable years set forth below M chooses the benefits of section 901 and elects the overall limitation under section 904(a)(2). M has section 904(f) dividends only from DISC corporations N and P for each of the years 1972 to 1975. Based upon the taxes deemed paid under section 902(a)(1) with respect to section 904(f) dividends for each of the years involved, and the foreign income taxes paid with respect to the other income from sources without the United States, the unused foreign tax deemed paid under section 904(d) is as follows:

Taxable years	1970	1971	1972	1973	1974	1975
Sec. 904(f) dividends from:						
Corporation N			30	100	80	90
Corporation P			40		60	80
Taxes deemed paid under sec. 902(a)(1) with respect to dividends from:						
Corporation N			20	110	90	100
Corporation P			10		10	90
Total sec. 904(f) dividends (including sec. 78 gross-up)			100	210	240	360
Separate limitation with respect to sec. 904(f) dividends			50	105	120	180
Overall limitation with respect to other income	250	350	450	245	630	800
Taxes actually paid with respect to other income	260	310	460	240	650	800
Unused foreign tax with respect to:						
Sec. 904(f) dividends				5		10
Other income	10		10		20	
Excess limitation with respect to:						
Sec. 904(f) dividends			20		20	
Other income		40		5		20
Unused foreign tax absorbed as taxes deemed paid under sec. 904(d) with respect to:						
Sec. 904(f) dividends and carried:						
From 1973				5		
From 1975					10	
Other income and carried:						
From 1970		10				
From 1972		10				
From 1974					5	15

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 59]

EGGS AND EGG PRODUCTS

Proposed Inspection Exemptions

Notice is hereby given that the U.S. Department of Agriculture is considering amendments to the regulations governing the inspection of eggs and egg products (7 CFR Part 59) under authority contained in the Egg Products Inspection Act (84 Stat. 1620 et seq., 21 U.S.C. 1031–1056).

Statement of Considerations. The Egg Products Inspection Act authorizes the Secretary to exempt the sale of eggs by any poultry producer from his own flocks directly to a household consumer. Current regulations under the Act limit such sales to those occurring at the site of production or on a door-to-door retail route. Amendments being proposed would broaden this exemption to include the sale of eggs by producers from their own flocks directly to household consumers at an established place of business away from the site of production, provided such outlets are owned and managed by the producer and provided further that such eggs move directly from the producer to the retail premises. Experience in administering the producer exemption granted under the Act indicates that this broadening of the exemption is reasonable in that it would tend to mitigate certain economic losses incurred by some producers by providing them more flexibility in the sale of their eggs without posing any health problems sought to be resolved by the Act. The broadened exemption will, of course, be continuously reviewed to assure that it does not result in conditions which are inconsistent with the policy of the Act.

Another proposed amendment would provide that the exempted product described above which is sold away from the site of production or away from the premises of the packing plant could not contain more loss or leakers than allowed in the official standards for U.S. Consumer Grade B shell eggs.

These amendments being proposed supersede other proposed amendments published in the FEDERAL REGISTER on January 9, 1975 (40 FR 1709) to amend the opening text and § 59.100(c) of 7 CFR Part 59.

All persons who desire to submit written data, views, or comments in connection with this proposal shall file the same in duplicate with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, no later than April 1, 1975.

All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposed amendments are as follows:

In § 59.100, the opening text and paragraph (c) would be revised to read as follows:

§ 59.100 Specific exemptions.

The following are exempt to the extent prescribed as to the provisions for control of restricted eggs in section 8(a)(1) and (2) of the Act and the provision for continuous inspection of processing operations in section 5(a) of the Act: *Provided*, That as to paragraphs (c) through (f) of this section, the exemptions do not apply to restricted eggs when prohibited by State or local law: *And provided further*, That the sale of "hard-cooked shell eggs" or "peeled hard-cooked shell eggs" prepared from checks is subject to the conditions for exemption in paragraphs (c), (d), and (f) of this section: *And provided further*, That the conditions for exemption and provisions of these regulations are met:

* * * * *

(c) The sale at the site of production, on a door-to-door retail route, or at an established place of business away from the site of production, by a poultry producer of eggs from his own flock's production directly to a household consumer exclusively for use by such consumer and members of his household and his nonpaying guests and employees, and the transportation, possession, and use of such eggs: *Provided*, That each such sale of restricted eggs shall be limited to no more than 30 dozen eggs; *And provided further*, (1) That eggs sold directly to consumers at an established place of business away from the site of production be moved directly from the producer to such place of business; (2) That such business away from the site of production be owned and managed by the producer; and (3) That such eggs which are sold on a door-to-door route or at an established place of business away from the site of production shall contain no more loss and/or leakers than allowed in the official standards for U.S. Consumer Grade B shell eggs.

Issued at Washington, D.C., this 24th day of February, 1975.

E. L. PETERSON,
Administrator,
Agricultural Marketing Service.

[7 CFR Part 984]

WALNUTS GROWN IN CALIFORNIA, OREGON, AND WASHINGTON

Proposed Revision of Administrative Rules and Regulations

Notice is hereby given of a proposal to revise § 984.437 of Subpart—Administrative Rules and Regulations (7 CFR 984.437–984.480). Section 984.437 specifies a method for proposing names of additional candidates to be included on grower's nomination ballots. The ballots are used to propose names of additional grower candidates for nomination to the Walnut Marketing Board. The subpart is operative pursuant to the marketing agreement, as amended, and Order No. 984, as amended (7 CFR Part 984; 39 FR 35327; 35999), regulating the handling of walnuts grown in California, Oregon, and Washington. The amended marketing agreement and order (hereinafter referred to collectively as the "order"), are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The proposal was recommended by the Walnut Marketing Board.

The order was amended October 1, 1974. The amendment revised, among other things, the grower representation on the Walnut Marketing Board and established two grower districts covering the production area relatively equal in respect to walnut acreage and production. District 1 encompasses the States of Oregon and Washington and the counties in the State of California that lie north of a line drawn on the southern boundaries of San Mateo, Alameda, San Joaquin, Calaveras, and Alpine Counties. District 2 consists of all other walnut producing counties in the State of California south of that boundary line.

Before the October 1974 amendment of the order, grower representation on the Board from California was treated as one group, and grower representation from Oregon-Washington as another group. Hence, the two geographic areas (California and Oregon-Washington) specified in the current provisions of § 984.437 are not the same as the geographic areas comprising the two grower districts established by the recent order amendment. The proposed revision of § 984.437 recognizes this change.

The amendment of the order also provided a grower position for either California independent growers or cooperative growers, depending upon the volume of walnuts handled by independent or cooperative handlers in California during a specified period. The proposed revision of § 984.437 also provides a method for proposing additional candidates for this position when it is assigned to independent growers.

Consideration will be given to any written data, views, or arguments pertaining to the proposal which are received by the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than March 10, 1975. All written submissions made pursuant to this notice should be made in quadruplicate and will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposal is to revise § 984.437 of Subpart—Administrative Rules and Regulations (7 CFR 984.437–984.480) to read as follows:

§ 984.437 Methods for proposing names of additional candidates to be included on walnut growers' nomination ballots.

(a) Whenever the grower member position specified in § 984.35(a)(4) is assigned to California growers who marketed their walnuts through independent handlers in California, any ten or more such growers who marketed an aggregate of 500 or more tons of walnuts through those handlers during the marketing year preceding the year in which Board nominations are held, may petition the Board to include on the nomination ballot the name of an eligible candidate to fill this position, and the name of an eligible candidate to serve as his alternate. The names of the eligible candidates proposed pursuant to this paragraph shall be included on the ballot together with the names of any incumbents who are willing to continue serving on the Board.

(b) Any ten or more growers eligible to serve in the grower member position specified in § 984.35(a)(5) and who marketed an aggregate of 500 or more tons of walnuts as provided in subparagraph (5) during the marketing year preceding the year in which Board nominations are held, may petition the

XUM V 40 40 FEB 27 75 XUM

Board to include on the nomination ballot the name of an eligible candidate to fill this position and the name of an eligible candidate to serve as his alternate. The names of the eligible candidates proposed pursuant to this paragraph shall be included on the ballot together with the names of any incumbents who are willing to continue serving on the Board.

(c) Any ten or more growers eligible to serve in the grower member position specified in §2984.35(a)(6) and who marketed an aggregate of 500 or more tons of walnuts as provided in subparagraph (6) during the marketing year preceding the year in which Board nominations are held, may petition the Board to include on the nomination ballot the name of an eligible candidate to fill this position, and the name of an eligible candidate to serve as his alternate. The names of the eligible candidates proposed pursuant to this paragraph shall be included on the ballot together with the names of any incumbents who are willing to continue serving on the Board.

(d) Petitions made pursuant to paragraphs (a), (b), and (c) of this section shall be on forms supplied by the Board and filed no later than April 1 of the nomination year.

Dated: February 24, 1975.

CHARLES R. BRADER,
Deputy Director,
Fruit and Vegetable Division.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 29]

FRUIT BUTTERS

Standard of Identity Revision

Notice is given that the National Preservers Association (NPA), 64 Perimeter Center East, Atlanta, GA 30346, has filed a petition proposing to amend the standard of identity for fruit butter (21 CFR 29.1).

The proposed amendment would be patterned after the recent amendments of the standards for fruit jellies and jams. The principal changes would be: (1) Removal of the proportionality limitations on the use of sweeteners other than sugar; (2) provision for the use of "safe and suitable" ingredients set out simply as classes instead of the present limiting "recipe" listing; and (3) a requirement for label declaration of optional ingredients. Further, the option to add antifoaming agents and pectin is proposed. All interested persons are invited to comment on the proposal by April 28, 1975.

The NPA urges promulgation of its proposal and states that it is a natural sequel to the amendments to the standards for fruit jellies (21 CFR 29.2) and preserves, jams (21 CFR 29.3) published in the FEDERAL REGISTER of August 28, 1974 (39 FR 31304). The grounds in support of the proposal are similar to those set out in the NPA petition to amend the jellies and jams standards. That petition is on file with the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, as are the issues of the FEDERAL REGISTER carrying the proposal (November 14, 1973; 38 FR 31450) and the subsequent order ruling on that proposal (August 28, 1974; 39 FR 31304). Arguments supporting the proposal and the order ruling on the proposal to amend the fruit jellies and jams standards (21 CFR 29.2, 29.3), and thereby applicable to this petition, include the following:

1. Alternative procedures such as freeze concentration or use of partial vacuums produce as good a product or, in most cases, a superior product to that obtained by using heat to achieve concentration.

2. The provision for essence recovery, its concentration, and its return to the fruit butters reflects current industry practice.

3. In view of recent technological innovations, a larger number of corn sweeteners providing a wide range of sweetness is now available. Consumer tastes for less sweet preserves and, on the other hand, a desire for a more economical approach to all levels of sweetness in preserves may now be met.

4. The use of antifoaming agents during concentration would not alter the taste or physical characteristics of the food.

5. The provision for the use of "safe and suitable" optional ingredients, instead of the traditional specific listing of ingredients, would allow for ready adoption of new technological developments as they occur, without the burdensome procedure for amending the standard.

The proposed changes from the existing fruit butter standard are:

1. To delete the 25 percent limitation on the use of certain sweeteners. The present standard limits the use of corn sweeteners to no more than 25 percent of the total sweetening ingredients used.

2. To permit corn sweeteners with a minimum D.E. (dextrose equivalent) of 20 that would conform with those listed in 21 CFR Part 26. The present standard specifies a minimum dextrose equivalent of 40 for corn sweeteners.

3. To provide for the use of safe and suitable nutritive carbohydrate sweeteners, acidifying agents, preservatives, pectin, and antifoaming agents, except those derived from animal fats. The present standard specifies by name only certain ingredients in these classes, but it does not list pectin or any antifoaming agents.

4. To require the declaration of all optional ingredients on the label with the two following exceptions:

a. Other than in the case of dried (evaporated) fruit, the name(s) of the fruit or fruits used, which shall be declared as such, may be declared without specifying the particular form of the fruit or fruits used.

b. If sugar or invert sugar is used the term "sugar" may be used; and if the nutritive sweetener is derived from corn, the term "corn sweetener" may be used.

5. To provide for (a) essence recovery and its return to the fruit butters and (b) the use of techniques other than heat to effect concentration, i.e., freeze concentration or drawing a partial vacuum so as to cause vaporization without the application of heat.

The Commissioner is aware that chemical textbooks and scientific dictionaries differ in their definition of the term "carbohydrate." However, for purposes of clarification, he wishes to state that mannitol and sorbitol are sugar alcohols and are not considered to be "carbohydrates."

It should be noted that the proposal would eliminate the optional substitution of fruit juice for sweetening ingredient. The present standard specifies that not less than 5 parts by weight of fruit ingredient shall be used for each two parts by weight of sweetening ingredient, except that the sweetening ingredient is not required when fruit juice is used in a quantity not less than one-half the weight of the fruit ingredient. However, the Commissioner has been advised that those packers who use fruit juice continue to use a sweetening ingredient.

It should be further noted that the petitioner's proposed § 29.1(e)(2)(i) sets out certain labeling requirements applicable to different forms of fruits. However, the petitioner appears to have inadvertently omitted to carry over the need to specify how the use of a dried (evaporated) fruit shall be declared. Therefore, the Commissioner proposes, on his own initiative, that the language in paragraph (g)(6) in the present standard be retained and incorporated into the petitioner's proposed paragraph (e)(2)(i).

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055, as amended, 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371) and under authority delegated to him (21 CFR 2.120), the Commissioner proposes to revise § 29.1, incorporating both NPA's and the Commissioner's proposal, to read as follows:

§ 29.1 Fruit butter; identity; label statement of optional ingredients.

(a) The fruit butters for which definitions and standards of identity are prescribed by this section are the smooth, semisolid foods each of which is made from a mixture of one or a permitted combination of the optional fruit ingredients specified in paragraph (b) of this section and one or any combination of the optional ingredients specified in paragraph (c) of this section, which meets the specifications in paragraph (d) of this section, and which is labeled in accordance with paragraph (e) of this section. Such mixture is concentrated with or without heat. The volatile flavoring materials or essence from such mixture may be captured during concentration, separately concentrated, and added back to any such mixture, together with any concentrated essence accompanying any optional fruit ingredient.

(b)(1) Each of the optional fruit ingredients referred to in paragraph (a) of this section is prepared by cooking one of the following fresh, frozen, canned, and/or dried (evaporated) mature fruits, with or without added water, and screening out skins, seeds, pits, and cores:

Factor referred to in paragraph (d)(2) of this section

Name of fruit:	
Apple	7.5
Apricot	7.0
Grape	7.0
Peach	8.5
Pear	6.5
Plum (other than prune)	7.0
Prune	7.0
Quince	7.5

(2) The permitted combinations are of two, three, four, and five of the fruit ingredients specified in paragraph (b)(1) of this section; the weight of each is not less than one-fifth of the weight of the combination. Each such fruit ingredient in any such combination is an optional ingredient.

(c) The following safe and suitable optional ingredients may be used:

(1) Nutritive carbohydrate sweeteners.
(2) Spice.
(3) Flavoring (other than artificial flavoring).
(4) Salt.
(5) Acidifying agents.
(6) Fruit juice or diluted fruit juice or concentrated fruit juice, in a quantity not less than one-half the weight of the optional fruit ingredient.
(7) Preservatives.
(8) Antifoaming agents except those derived from animal fats.
(9) Pectin, in a quantity which reasonably compensates for deficiency, if any, of the natural pectin content of the fruit ingredient.

(d) For the purposes of this section:

(1) The mixture referred to in paragraph (a) of this section shall contain not less than five parts by weight of the fruit ingredient as measured in accordance with paragraph (d)(2) of this section to each two parts by weight of nutritive carbohydrate sweetener as measured in accordance with paragraph (d)(4) of this section.

(2) Any requirement with respect to the weight of any optional fruit ingredient, whether concentrated, unconcentrated, or diluted, means the weight determined by the following method: (i) Determine the percent of soluble solids in the optional fruit ingredient by the method for soluble solids referred to in paragraph (d)(3) of this section; (ii) multiply the percent so found by the weight of such fruit ingredient; (iii) divide the result by 100; (iv) subtract from the quotient the weight of any nutritive sweetener solids or other added solids; and (v) multiply the remainder by the factor for such ingredient prescribed in paragraph (b)(1) of this section. The result is the weight of the optional fruit ingredient.

(3) The soluble solids content of the finished fruit butter is not less than 43 percent, as determined by the method prescribed in "Official Methods of Analysis of the Association of Official Analytical Chemists," 11th Ed., 1970, p. 371, sec. 22.019, under "Soluble Solids (by Refractometer) in Fresh and Canned Fruits, Jams, Marmalades, and Preserves—Official First Action," except that no correction is made for water-insoluble solids.

(4) The weight of any nutritive carbohydrate sweetener means the weight of the solids of such ingredient.

(5) The weight of fruit juice or diluted fruit juice or concentrated fruit juice (optional ingredient, paragraph (c)(6) from a fruit specified in paragraph (b)(1) of this section is the weight of such juice, as determined by the method prescribed in paragraph (d)(2) of this section, except that the percent of soluble solids is determined by the method prescribed in "Official Methods of Analysis of the Association of Official Analytical Chemists," 11th Ed., 1970, p. 526, sec. 31.011, under "Solids by Means of Refractometer—Official Final Action"; the weight of diluted concentrated juice from any other fruit is the original weight of the juice before it was diluted or concentrated.

(e)(1) The name of each fruit butter for which a definition and standard of identity is prescribed by this section is as follows:

(i) In case the fruit butter is made from a single fruit ingredient, the name is "Butter," preceded by the name whereby such fruit is designated in paragraph (b)(1) of this section.

(ii) In case the fruit butter is made from a combination of two, three, four, or five fruit ingredients, the name is "Butter," preceded by the words "Mixed fruit" or by the names whereby such fruits are designated in paragraph (b)(1) of this section, in the order of predominance, if any, of the weight of such fruit ingredients in the combination.

(2) Each of the optional ingredients specified in paragraphs (b) and (c) of this section shall be declared on the label as required by the applicable sections of Part 1 of this chapter, except that:

(i) Other than in the case of dried (evaporated) fruit the name(s) of the fruit or fruits used may be declared without specifying the particular form of the fruit or fruits used. When the optional fruit ingredient is prepared in whole or in part from dried fruit, the label shall bear the words "prepared from" or "prepared in part from," as the case may be, followed by the word "evaporated" or "dried," followed by the name whereby such fruit is designated in paragraph (c) of this section. When two or more such optional fruit ingredients are used, such names, each preceded by the word "evaporated" or "dried," shall appear in the order of predominance, if any, of the weight of such ingredients in the combination.

(ii) If sugar or invert sugar is the sweetener used, the term "sugar" may be used, and if the sweetener used is derived from corn the term "corn sweetener" may be used.

Interested persons may, on or before April 28, 1975, file with the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: February 20, 1975.

HOWARD R. ROBERTS,
Acting Director,
Bureau of Foods.

[Airspace Docket No. 75-SO-12]

FEDERAL AIRWAYS

Proposed Alteration

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the vertical extent of V-70 between Vienna, Ga., and Allendale, S.C.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Ga. 30320. All communications received on or before March 31, 1975 will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, 800 Independence Avenue, SW., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The proposed amendment would establish the upper vertical limit of V-70 between Vienna and Allendale at 9,000 feet MSL to provide airspace for an operational training area to be used by flights originating from Beaufort, S.C., MCAS. Only six aircraft transited this segment of V-70 on the 1974 IFR peak day. The proposed action would promote safety by segregating the area to be used by en route airway aircraft from the area to be used by military training aircraft.

[Airspace Docket No. 75-SW-9]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation regulations to alter the transition area at Baton Rouge, La.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before March 31, 1975, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Texas. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

In § 71.181 (40 FR 441), the Baton Rouge, La., transition area is amended to read:

BATON ROUGE, LA.

That airspace extending upward from 700 feet above the surface within a 7-mile radius of Ryan Airport (latitude 30°31'55" N., longitude 91°09'00" W.); within 2 miles each side of the Baton Rouge ILS localizer southeast course extending from the 7-mile radius area to 7.5 miles southeast of Ryan Airport; within 5 miles northeast and 8 miles southwest of the Baton Rouge ILS localizer northwest course extending from the OM to 12 miles northwest; within 2 miles each side of the Baton Rouge VORTAC 071° radial extending from the 7-mile radius area to the VORTAC; within 2 miles each side of the Baton Rouge 068° radial extending from the 7-mile radius area to 7.5 miles east of the airport and within a 5-mile radius of the False River Airpark (latitude 30°42'55" N., longitude 91°28'43" W.); within 2 miles each side of the 325° radial of the Baton Rouge VORTAC extending from the 5-mile radius area of the False River Airpark to the northwest ILS localizer extension.

Alteration of the transition area will provide controlled airspace for the proposed VOR/DME A instrument approach procedure.

This amendment is proposed under the authority of Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Fort Worth, TX., on February 18, 1975.

HENRY L. NEWMAN,
Director, Southwest Region.

[Airspace Docket No. 75-SW-8]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to designate the Russellville, Ark., transition area.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before March 31, 1975, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Forth Worth, Texas. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

In § 71.181 (40 FR 441), the following transition area is added:

RUSSELLVILLE, ARK.

That airspace extending upward from 700 feet above the surface within a 7.5-statute-mile radius of Russellville Municipal Airport, Russellville, Ark. (latitude 35°15'34" N., longitude 93°05'38" W.); and within 3.5 statute miles each side of 186°T (180°M) bearing from Russellville NDB (latitude 35°15'34" N., longitude 93°05'40" W.), extending from the 7.5-mile-radius area to 11.5 statute miles south of the NDB; excluding that portion which overlies the Morrilton, Ark., transition area.

The proposed transition area will provide controlled airspace for instrument approach and departure procedures at the Russellville Municipal Airport.

This amendment is proposed under the authority of Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Forth Worth, TX., on February 13, 1975.

HENRY L. NEWMAN,
Director, Southwest Region.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 52]

[FRL 337-5]

APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Kentucky: Approval of Compliance Schedules

Section 110 of the Clean Air Act and the implementing regulations of 40 CFR Part 51 require each State to submit a plan which provides for the attainment and maintenance of the national ambient air quality standards throughout the State. Each such plan is to contain legally enforceable compliance schedules setting forth the dates by which all sources must be in compliance with any applicable requirements of the plan. On August 15, 1974 (39 FR 29357), the Administrator approved the resubmitted Kentucky plan with the exception of its alternate control strategy provision. The Administrator's original approval of the Kentucky plan on May 31, 1972 (39 FR 10842), had been vacated by the U.S. Circuit Court of Appeals for the Sixth Circuit on June 28, 1973.

On April 23, 1974, pursuant to 40 CFR 51.6 and 51.15, the Commonwealth of Kentucky submitted for the Agency's approval a number of individually negotiated compliance schedules. The purpose of this notice is to offer those schedules as proposed rulemaking and to solicit public comment on them.

Each of the proposed compliance schedules identified below establishes a date by which an air pollution source must attain compliance with an emission limitation or other regulation of the State implementation plan. This date is indicated in the table under the heading "Final Compliance Date". In many cases the schedule includes incremental steps toward compliance, with interim dates for achieving those steps. While the table does not list these, the actual schedules do. The notation "Immediately" under the heading "Effective Date" means that the schedule will become Federally enforceable immediately upon its approval by the Administrator.

All of the compliance schedules listed here are available for public inspection at the following locations:

Air Programs Office, Environmental Protection Agency, Region IV, 1421 Peachtree Street, NE, Atlanta, Georgia 30309.

Division of Air Pollution, Department for Natural Resources and Environmental Protection, 311 East Main Street, Frankfort, Kentucky 40601.

Freedom of Information Center, Environmental Protection Agency, 401 M Street, SW, Washington, D.C. 20460.

In addition, the schedules for sources located in Jefferson County may be inspected at the office of the Jefferson County Air Pollution Control District, 400 Reynolds Building, 2500 South Third Street, Louisville, Kentucky 40208.
